New Goods for Gifts ---Silverware and Cut

For Wedding and Easter Gifts we have provided a very rare assortment of the newer things in silverware and cut glass -an assortment in fact that is not excelled in any of the larger cities as to style and quality.

Particularly new and beautiful is a line of delicate cut glass, mounted with sterling silver, in sets and single pieces. Very desirable, too, is our new line of silver in Sheffield sterling ware. Made in modernized patterns of the various period designs, in either single pieces or sets, they offer the choice of many charming pat-

In cut glass probably every design that will be wanted is here. The stock is larger than ever before, and the variety of selection more elaborate.

It is our pleasure to show these goods, and we invite your inspection.

Some body in Pittsburgh, Pa., or some other city is like ly to make a profit through the manufacture and sale of a fire engine to the city of Fort Worth, therefore Fort Worth ought'nt to buy a fire engine. at least, not before the fire starts. This is one application of a view recently pronganced by the Fort Worth Record on the subject of preparedness.

E. E. Balbridge, stockman and Fort Worth banker, borrowed and speculated and borrowed some more and when he got to the end of his financial rope committed suicide. Yesterday his wife deeded to the depositors in his insolvent bank, her home, \$10,000 in cash, an automobile and practically all she had left. Her husband's failure involved her personal fortune as well. Under the law she was entitled to certain exemptions which she did not claim preferring to turn over everything to the benefit of her husband's creditors and the depositors in his bank. Instances of this kind are so exceptional that they are worthy of recording.

Until Cottolene was offered, people thought - and rightly—that most fried foods were greasy, indigestible and unhealthful. But Cottolene was quickly found to be a frying aid which actually made foods better tasting and better to eat.

None of the good flavor of the food is allowed to escape; the cooking process is rightly finished and the digestibility of the food is retained along with ten.pting taste.

It is this natural quality of Cottolene which also makes it so superior for pies, pastry, biscuits, cakes and all shortened foods.

The act of purchase is an unquestioned manifestation of conviction. Nineteen-Sixteen Buick Valve-in-Head Motor Cars have been endorsed and purchased by the knowing motorists of every State in the Union. These Buick models, thousands of which are in use today, and other thousands under course of construction, are the most sought cars in America.

The Buick Company is not at the show this year with any new or untried models. It is here to exhibit the highest development of its time-tried and established product: for in the Nineteen-Sixteen models, Buick design reaches its highest efficiency and Buick construction and motor principles their most complete expression

The buyer of the Buick Valve in Head Six has the experinece of over <2,000 satisfied owners to back his judgment in choosing this particular model. He has the ex-perinece of over 200,000 owners to confirm his selection of a Buick car. Two vital considerations transformed him from a prospect to a purchaser. First, the type of motor car he purchased; second, the conviction that the Buick was the best motor

And he has the additional satisfaction of knowing that in the building of his car, Buick engineers have followed the same time-proved principle that has distinguished Buick cars for fourteen years-the Valve-in-Head principle

Never wavering, never deviating, absolutely sure of their ground, Buick engineers have developed the Valve-in-Head motor until today in the Nineteen-Sixteen Buick Six you get a power, a smoothness, a quickness of get-away, an ease of control not approached in any car under \$2,000.

Buick Valve-in-Head Sixes are manufactured in a variety of body styles, Roadsters, Touring Cars, Coupes. Inside Drive Sedans. In body design, finish and upholstery they fully measure up to the high mechanical standard of the well-proved Buick

Regardless of the car you buy or the price you pay, nowhere can you get greater value than the Nineteen-Sixteen Buick Valve-in-Head Six.

Fronts Clean But Dirt Behind Scenes. Advocates Municipal Slaughter

Cafes and butcher shops were visited by Mrs. E. L. Darwin and the party of Civic League members today on their second day's round of inspection. In many instances conditions far from satisfactory were found but in every case the dealers were found willing to comply with the ladies' requests for cleaning up, pressed a great deal of satisfaction at the spirit of willingness which seems to prevail among the trade

"we find people who really do not know how to clean up-in one shop yesterday afternoon a man wa scrubbing but such scrubbing as he was doing. A lot of the dirt and unsanitary conditions are due to ignorance more than anything els: and it is the purpose of this inspec tion to inform the merchants what expected of Them. Also we want educate the housekeepers to the ex tent that they will force the dealers to keep their stores clean by refusng to trade with those who do not mply with the regulations

In the bakeries and meat markets isited yesterday and the cafes visited today the committee found as rule the front of the shops, the part which is exposed to the public clear and very attractive but in a number ci cases the kitchens and rear rooms ere not altogether attractive. Mrs. Durwin states that one of her chief criticisms of the bakeries is their pen display of bread, cakes and oth products, the articles which require no further cooking being placed on top of counters and show cases to be tainted by the dust laden air and oftentimes by the contact of persons in the shops. Another point stressed by Mrs. Darwin is that unwrapped bread, the practice of dis-tributing bread which has not been wrapped as soon as taken from the oven being decried as dangerous as in the process of distribution it beomes subject to-many germs

The meat markets received a good deal of attention, Mrs. Darwin find ing several points to commend in the rearkets, while finding numerous obing house products is a commenda-ble habit, she says, as Wichita Falls has no proper facilities for the sanitary slaughtering of meat. The faults of the markets as cited consisted chiefly in the lack of receptacles for disposing of garbage, dirty back rooms and the lack of personal cleanliness among the employes. The subject of meat peddlers brought orth an expression of displeasur from Mrs. Darwin, it being her opinthat the meat peddlers should be prevented from plying their trade by an ordinance of the city counci "In addition to their wares being unclean," Mrs. Darwin said, "the people do the legitimate butchers of he city an injustice when they buy from them. To protect the dealer who has to pay rent and who o'. should be forbidden." regulations they

PEOPLE'S STORE NOW HAS NEW MANAGER

ebruary 19th.

The attention of readers is called to the ad of the People's Store in this ssue of the Times. The store is the growth of a business started several month's ago at 602 Seventh street, and is under the management of Harry Jaffe, who comes here from Waco. Mr. Jaffe has been with Snaman and company of Waco for a number of years, handling ladies' ready-to-wear goods, and is well experienced in the mercantile business. The firm has remodeled the store and has installed a large stock of papular goods in the line of ready to wear for men, women and children. The store will be known as the People's Store, and the manager will endeavor in every way to make it just that—a store for all the people. Mr. Jaffe is very optimistic and enthusiastic about the usiness conditions and the future of Wichita Falls, and predicts a fine has a great many friends in the city already, having traveled for a numyears through this territory for the Waco firm.

The SMOKER'S DELIGHT!

Every user of the weed is a crank—he's a crank about having his particular brand of cigars, and having them in just the right condition of mellowness. He's a crank about his smoking tobacco he wants one kind, and no other is "just as good." He's a crank about his cigarettes. In polite language we might call him a connisseur, but getting right down to carpet tacks, he's a crank. And especially is he a crank about his pipe. It's got to have the right age, the right sized mouth piece, the right kind of an angle to the stem, and when he gets the right one he prizes it almost as much as an actor prizes publicity. But that's the kind of fellow we like to sell tobacco to. We aim to please him, and we do. We take pains to keep all the best brands of cigars and tobaccos, and to keep them in just the right condition that will best please our customers. We keep a very large stock of pipes of

all kinds-meerschaums, brier roots, Missouri meerschaums—a style for every face and every fancy, at a price that every one wants to pay. To satisfy a very exacting trade we have arranged to have made for our exclusive sale an invincible five cent cigar in a strictly hand made, long filler cigar that we consider to be the superior of any five cent cigar now on the market. Try it and we are sure you will like it.

WASHINGTON'S BIRTHDAY DECORATIONS

We have spent twenty-five of the best years of our life in a careful, and paintaking study of the coffee berry and its best development in the cup and feel that we can without egotism claim some knowledge of the business. Representatives of Six Branches o Church Meet in Chicago Today

y Associated Press. Chicago, Feb. 15,—Problems which confront the six branches of the Methodist Episcopal Church which are seeking a basis for union, are to be discussed at a three day conference which opened in Evanston, a suburb today. Bishops, superintendents and leading laymen of the churches are in attendance and it was said that they represented a church membership of approximately

Most of the discussion will be formal, it was announced, but it was the intention of the sponsors of the conference to collect the proceedings in book form for future reference. The entire question of church unity s to come before the next general conference of the northern church at Saratoga Springs N. Y. in May

The Evanston meetings are being held under the auspices of the foundation for interdenominational unity and international peace established by the late John R. PETITIONS SIGNED FOR COUNCILMAN

Present Members Whose Terms Expire Being Urged to Run

Petitions for the candidacy of Mayor Pritain and Aldermen Gardner and Richolt, for re-election to their present nunicipal offices, are now being cir culated. The city charter requires that a petition bearing at least 50 signatures must be presented by each candidate requiring his name on the official bailet. Mayor Britain signified several weeks ago that he would accept a second term, and triends of the two councilmen in question are anxious that they continue to serve the city. Considerably more than the required number of signature have already been secured to the petitions, it
