By Associated Press: San Antonio, Texas, March 21.—General Funston has asked the war department for additional troops for the campaign against Francisco Villa.

AMERICAN TROOPS RUSHED TO AID MEXICANS BATTLING WITH VILLA CLOSE TO LAS CRUCES

By Associated Press: El Paso, March 21.—Francisco Villa and his band of outlaws have been forced into battle with Carranza troops near Las Cruces. This information came as a report by wireless today to the United States army station at Columbus, N. M., and it was further said that American troops had sent to Las Cruces to aid in the fighting.

GEN. FUNSTON'S HEADQUARTERS FAILS TO RECEIVE ANY ADVICES FROM PERSHING'S EXPEDITION

Chief Fear is That He Will Be Able To Evade Pursuit—Funston Hints That Censorship is To Be Less Severe

By Associated Press: San Antonio, Texas, March 21.—Failure to hear from General Pershing sharpened the interest of those at General Funston's headquarters but did not arouse any anxiety. The cavalry detachments were reported last night as moving along three trails south of Casas Grandes into a section with which there is no communication other than that maintained by the men of the signal corps.

The only fear expressed at headquarters was that not any one of the detachments had suffered misfortune but that Villa might again have eluded pursuers. The last reports received here told of Villa's encounter with Carranza's forces near Namaquipa.

If Villa defeated the Mexican government troops, it was regarded probable that he would continue his movements southward where he might remain unmolested for some time. General Funston had no news of the operations today but he evinced greater willingness to make it public when he does get it. He explained that the necessity for maintaining so great censorship appeared to be growing less and that unless the situation was changed there would perhaps be a considerable relaxation in efforts to prevent the publication of news.

Two or more auto truck companies are on their way west by special train according to reports by General Funston. These will be placed in service along the line of communication from Columbus to Casas Grandes as soon as they arrive.

VILLA NOW SEEKING TO REACH HILLS

UNITED STATES ARMY AVIATORS ARE ATTEMPTING TO PICK UP HIS TRAIL LEADING TO SIERRA MADRE MOUNTAINS

Army Officers Believe He Will Adopt This Plan Which Would Aid Greatly to Task of American Expedition in Mexico

By Associated Press: El Paso, Texas, March 21.—Aviators of the United States army were reported today searching the almost blind trails leading to the passes in the Sierra Madre mountains where the bandit Villa may seek to escape. Captain B. H. Follis is in charge of the seven aviators selected for the task of scouting for Villa, who since his fight with Colonel Cano, is expected to scatter his bandits rather than risk an engagement with the American troops.

Army officers agree that if Villa breaks up his command into small bands and turns to the Sierra Madre mountains as a hiding place, it will be well nigh impossible to capture him. Villa spent his early days as an outlaw in these mountains, the passes through which an army and its transports may not move. It takes between two and three days to go through these passes into Sonora. Hoped Villa Was Cornered. The extraordinary rapidity with which the American cavalry had pushed into Mexico gave rise to high hopes that the unexpected bandit was cornered. This seemed inevitable if the Carranza soldiers did their part and if the accuracy of the strength of their field forces was correct. Villa, cut off from the north by the forward sweep of the American columns and from the west by the Sierra Madre, barring the approaches to the state of Sonora, was supposed to be equally barred from east and south by powerful Carranza forces. It now seems certain that Villa has been moving freely in at least a large section of the country supposed to be held by the troops of the First Chief. In the last few days he has been variously reported by General Gaviro, the Carranza commander at Juarez, at points along the line reaching north and south from Galeana to Nomaquipa, a distance of about 75 miles. By the same account he has not been moving steadily south, but roving north and east. The character of the mountains, canyon-split, needless section in which he is operating adds many miles to the country he has covered as compared to the distances on the map. Carrancista Movement Unexplained. The reason for the Carranza troops moving to the border remains unexplained. It is impossible even to make a fair estimate of the number of men

PROTOCOL IS TO BE SIGNED WITH MEXICO

PROVIDES FOR COOPERATION IN PURSUIT OF VILLA BY AMERICAN AND CARRANZA TROOPS. TERMS ARE AGREED UPON

Negotiations Still in Progress For Use of Rail Facilities in Mexico to Transport Supplies To American Expedition

By Associated Press: Washington, March 21.—President Wilson and his cabinet today decided to accept a proposal from the de facto government of Mexico for a protocol between the United States and Mexico, for cooperation in the pursuit of Francisco Villa and his outlaws. General Carranza's ambassador here and state department officials will discuss the proposal further. It is expected it will be put in final form in a few days and signed. It also was decided at today's cabinet meeting that word should be sent late today to General Carranza that the request of the United States to use the Mexican railroads does not include the transportation of troops but only shipment of supplies to the American troops in Mexico. Secretary Polk of the state department and Secretary Baker explained to the cabinet overnight dispatches and the situation growing out of the request for use of the railroads. Mr. Polk said Carranza asks whether it is planned to transport American troops as well as supplies. The president and the cabinet were disposed to grant any peaceable request. The proposal for the protocol which is planned to have remain in force until Villa is captured, came from Mr. Arredondo, and was a direct result of the request of the United States for permission to use the rail way between El Paso and Casas Grandes for the shipment of supplies. Mr. Arredondo is understood to have received instructions from General Carranza to discuss the matter with the state department and to re-approve the agreement by which a complete understanding will be had by both governments. While the convention will provide for all matters, such as the use of Mexican railroads by American troops the specific request for permission to ship supplies from El Paso will be disposed of separately. General Carranza has asked for additional information upon that subject, and it will be forwarded to him immediately. State department officials declined to discuss the nature of the information desired, on the ground that while the negotiations are in progress they must be held to be confidential. This conference with Mr. Polk, Mr. Arredondo started to prepare an tentative draft of the agreement which will be submitted to General Carranza as soon as an agreement on

PHONE COMPANY TO AID PREPAREDNESS

Will Permit Employees to Attend Training Camps or Go to Front if Needed

By Associated Press: St. Louis, March 21.—The Southwestern Telegraph & Telephone Co. has notified the Business Men's League of St. Louis that it will allow ten days full pay to those of its employees who are members of the National Guard for attendance at the encampment this year in addition to the regular vacation. This applies to employees in Missouri, Arkansas, Kansas, Oklahoma and Texas. In case of war, company officials declare that any employees called to the colors will be provided with positions on their return at a rate of pay equal to that they were receiving when called. The D. Nugent & Brother Dry Goods Company also has assured the League that employees will be granted leave of absence on pay to attend the training camp.

Heavy Recruiting Reported in Chicago District Since Troops Entered Mexico

By Associated Press: Chicago, March 21.—More than 5000 men have presented themselves for enlistment in the United States army at the recruiting offices of the Chicago district since the pursuit of Francisco Villa by United States troops began. It was announced here today. About 200 of those accepted already have been sent to Jefferson Barracks Missouri for training.

VICTIM OF DISEASE HE WAS FIGHTING

Dr. Carlos Husk, Who Died Combating Typhus, Will Be Buried on Border

By Associated Press: Laredo, Texas, March 21.—The body of Dr. Carlos Husk of Aurora, Ill., who died here last night from typhus fever after going into Mexico to combat the disease, probably will be buried here, as the quarantine regulations prevent any other disposition. His relatives probably will ask Washington authorities, it is understood, to set aside this regulation so that the body may be sent to Dr. Husk's former Illinois home.

Make Notable Gain in Galicia—German and British Torpedo Boat Clash—Each Side Says Other Ran Away

By Associated Press: London, March 21.—The Germans before Verdun are making a strong drive at the French left flank well toward the border of the neighboring Argonne region and have gained ground south of Malancourt, ten miles northwest of Verdun. Their first attacks took them into the Malancourt woods and today's official statement from Paris shows them to have pushed some distance further southward occupying the Avancourt wood the northern section of the Malancourt wooded district. Use Liquid Fire. The attacks have been made with important forces with the support of a heavy bombardment by shells of large caliber and the throwing of liquid fire by detachments carrying special devices for the purpose. The Germans attempted a further advance southward but according to Paris their attempts to debouch from the Avancourt wood were failures. A news agency dispatch from Teheran reports the occupation of Ishbahan, one of the most important cities of Persia, 218 miles southeast of Teheran by the Russians. Russian Victory. The Russians have won an important success in southeast Galicia where Vienna admits that the Austrian bridge head at Usciecko on the Dniester, 40 miles northwest of Czernowitz has been evacuated under the heavy Russian pressure. The Austrian force here was trapped by cut its way through Usciecko while the Russians held, and joined other Russian forces near Zale Gzyk further south on the Dniester. The Italians have resumed heavy attacks on the Tiber valley. Vienna reports the repulse of assaults against Mstiviera and Kras with losses to the Austrians. Chinese guns and numbers of men made prisoners. The Austrian train has been captured at Homson and made additional captures there. At the Gorizia bridge head, where there has been intense artillery action, the Austrians ejected the Italians from a trench.

TORPEDO BOATS CLASH

A skirmish between four British and three German torpedo boat destroyers took place yesterday off the Belgian coast. The London official account says the German destroyers turned as the British sighted them and ran for Zeebrugge, the British craft pursuing, and shots being exchanged in a running fight. Two of the German boats were hit, the statement says. Four men on the British destroyed were wounded. The German version of the engagement declares that it was broken off by the British who started away at full speed after they had received several direct hits and that the Germans suffered only unimportant damage.

COMPANY OF ROUGH RIDERS IS PLANNED AT LAREDO

GAINS CONTINUE TO BREAK RECORDS

Dun's Report of Business Conditions Shows No Blackening in Evidence

Special to The Times. New York, March 21.—The weekly report of R. G. Dun & Co. says: Only by the use of superlatives can existing commercial and industrial conditions be adequately described. Great as are the gains shown by bank clearings, iron output, unfilled steel tonnage and similar indices, mere statistical records no longer fully reflect a situation for which there is no precedent. In some branches and sections the volume of business has reached such vast proportions that further expansion is dependent upon increased facilities for both production and distribution.

The Times gets its Mexican news through the Associated Press, which it believes to be better equipped to get the real truth and set it quick than any other organization in existence. The Times would, in all probability, know it sooner than any one else in town, if Villa were to be captured or if any other sensational development should ensue, and if the facts were of sufficient importance to justify an extra, there would be an extra in the paper, if possible. Any information that The Times has will be gladly supplied those who will call No. 1671, provided the inquirer is reasonable in his request.

MEXICAN RUMORS QUITE PLENTIFUL

Wild Reports of All Sorts Are Circulated Here and Receive Some Credence

Each day brings a fresh crop of rumors about the Mexican situation, and the yield seems to be peculiarly prolific in Wichita Falls, which conditions may not be entirely dissociated from the fact that several cotton and oil company wires run into local offices. Rumors seemed to be flying especially thick and fast Monday, and some of those who heard positively that Villa had been captured, that Carranga troops had turned on the American soldiers and that a large number of Americans had been killed, were wont to criticize The Times for its lack of enterprise in not getting out an extra on the news. Had The Times published an extra for every one of these rumors, it would have had time to do little else.

Some folks who hear the wild reports that have been circulated seem to take it as a personal affront when the newspaper fails to confirm the rumors. THIRD HIGHWAY IS PLANNED FOR CITY

Wichita Valley Air Line Movement Revived—Would Connect Up Oil Fields

A movement to bring a third important automobile highway through Wichita Falls has been inaugurated by several Wichitans, notably D. P. Talley, with a view to reviving the plan for the Wichita Valley air line highway. This movement was started several years ago but nothing came of it at that time. It has been suggested that the Wichita Valley highway be made a link in a highway system to be known as the Mid-Continent Oil route, connecting the Oklahoma and Kansas fields with those of Northwest and West Texas. It would furnish the most direct route for such travel and it is believed that the idea would find ready support. A letter to the towns that would be interested will probably be sent out shortly, calling a meeting at which organization would be perfected.

Good roads advocates from Electra and Burkburnett, which places were invited to be represented at this afternoon's meeting, are here today, several automobile loads coming down early this afternoon. The purpose of Mr. Herman's visit is to stimulate interest in the improvement of the national highways, two of which, the Meridian road and the Colorado to Gulf, pass through Wichita Falls.

"RAIN AND COOLER" WEATHER FORECAST

Prediction Comes That Dry Spell Will Be Broken—Showers Would Help Much

"Rain and cooler" is the welcome prediction for weather in this section tonight and tomorrow, and while a prediction does not necessarily mean that there will be wetness, the fact that there are some indications of a break in the dry spell is encouraging in itself. Crops in this section, especially wheat and oats, are needing rain and a few more days of dry weather would result in serious injury. A good rain at this time, however, would be of the greatest benefit. The unseasonably warm weather of the past few weeks, with the high winds that have prevailed, have hampered wheat and oats considerably. This month has broken records, it is said, for sustained warm weather in March in North Texas. Temperatures of 90 degrees and above have been common.

IN THE SPHERE OF WOMANKIND

"Black Sheep." From their folded mates they wander far. Their ways seem harsh and wild; They strike the back of a hateful star Their paths are dream-beguiled.

Yet haply they sought but a wider range. Some loftier mountain slope, And little recked of the country strange Beyond the gates of hope. And haply a bell with a luring call Summoned their feet to tread Midst the cruel rocks, where the deep pitfall.

And the lurking snares are spread; Maybe, in spite of their tameless days Of strikes liberty, in addition they're sick at heart for the homely ways.

Where they gathered brothers be. And oft at night, when the plains fall dark And the hills loom large and dim, For the shepherd's voice they mutter darkly, And their hearts go out to him.

Meanwhile, "Black sheep!" "Black sheep!" we cry, Safe in the inner fold; And maybe they hear, and wonder why, And marvel out in the cold.

ST. PATRICK'S PARTY SATURDAY AFTERNOON

"St. Patrick's Day in the Evening" Sor... Please come to "Mary Smith's" front door. 'Twill be open when you knock. We'll chase the snakes from the Emerald Isle, and give you a shamrock to wear a while. In honor of St. Patrick. The above invitation received by a number of young misses earlier in the week led them expectantly to the home of the hostess, Miss Mary Smith on Lucille Street, anxious for the pleasures suggested in the rhyme. Shamrock favors were pinned to each one and then a snake hunt was instituted, small paper snakes having been hidden all over the house. After this hunt there was a "Pat" contest in which four girls, Misses Lucille Wiley, Mary Neff, Kathleen Lynch and Robin Wilton, were winners. In a cut Lucille Wiley received the prize, a growing shamrock in a pot. The booby prize, a large Irish potato, went to Miss Mildred Matile. In addition to the contest music and dancing were diversions enjoyed. Miss Anna Ruth Kahn entertaining with her fancy tip toe dances. Late in the afternoon refreshments of pimiento sandwiches, pickles, tea and pineapple cake. Mrs. T. M. Jackson, Mrs. L. W. Gullahorn and Mrs. Wallace Gullahorn assisted Mrs. Smith in entertaining. SPORT SUITS OF ALL KINDS ARE OFFERED FOR WARM WEATHER WEAR

New York, March 18.—If all predictions prove true the coming summer should be a most economical one for the family with daughters. Fashion says: "Sport clothes from dawn till dusk, and after dark, as simple or as elaborate an evening frock as the fancy demands." Besides being decidedly practical and money saving this regime should be comforting and comfortable to a degree; just stop for a moment and consider how many puzzled moments will be saved, and how many times one will be spared that eternal question, "What shall I wear today?" A good supply of smart linen blouses, a sport skirt or two, with a chic sport coat, and one's wardrobe troubles are solved during daylight hours; after it is a simple matter to select a dainty dinner or dinner dress of net, or one of the exquisite summer fabrics now in favor and don it in perfect peace.

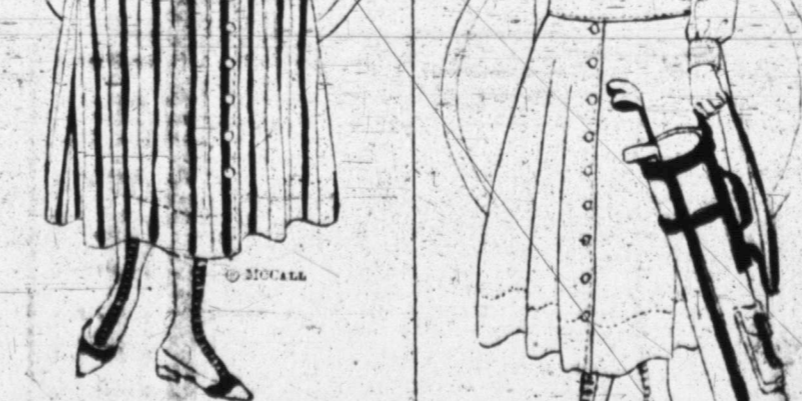

One must wonder at the sudden enthusiasm for out of door sports being shown by the American girl this sea-

son; we have been gradually coming to it, but this year it looks as if we were one and all to take up sport for all that it is worth, or at least to look as if we adored tennis, golf, boating, swimming, and the number less other excuses for getting out of doors.

Some Charming Effects.

We have been gradually accustoming ourselves to the vivid reds, yellows, greens and the various startling plaids and stripes which blend so effectively and harmoniously with the blue skies, and green grass of the summer fields, the mountains and the shore, where some of us are fortunate enough to dream the summer through, and others are privileged to spend a playtime week or two.

Among the smartest of the new sport suits are many of silk jersey or as it is perhaps more generally known, Italian silk. These suits are often made with coat of a plain color, emerald green, for instance, worn with a smart, short skirt of black

© McCALL

and white stripes. White or cream serge too, is a favorite, combined with coat of scarlet, emerald or bright blue. The coat is usually cuffless, collared and belted with the material of the skirt. Sometimes one sees a coat of stripes with skirt of plain material. The silk jersey coats and sport coats of other materials will be worn with all types of frock this summer; for in spite of the popularity of the plain blouse and skirt, there are any number of attractive tub frocks being shown just now, and I am quite sure that they will be worn quite as much as in seasons past, more perhaps, as they are more fascinating than for many a year. This is another practical and economical notion.

Charming Sport Blouses.

Simplicity of cut, combined with the daintiest possible of linen, voile, organdy or tub silk is the recipe for the most popular of the summer blouses, to wear with tailored suit, sport coat or separate skirt. One of the prettiest I have seen this season was fashioned of a pale pink figured batiste having deep cuffs and sailor collar of white. It was made with open throat and was closed down the front with a white silk cord slipping under a tab on either side of the blouse. The colored lawn and organdy blouse is growing in favor, in fact the colored waist seems to be taking preference over the plain white waist to a marked degree. There is something particularly pleasing about a softly tinted blouse of crepe de Chine, Georgette or one of the new wash fabrics, combined with a tailored suit, that makes its appeal to all. Strictly tailored linen waists of white for morning or sports wear are unusually smart and much in vogue, but for the tailored suit and more dressy wear, the tinted blouse is the favorite. There are any number of attractive middie blouses for all sorts of summer daytime wear. Oftentimes these are made of the same material and color as the skirt, thereby forming a complete costume, and again they are

The ice man and the electric fan man have supplanted the gas man and the plumber in public demand.

It is freely predicted that things will begin to happen when a certain naturalist returns from the West Indies. It is said that this naturalist has been studying how to change a Bull Moose into an elephant without the Bull Moose knowing what is happening to it.

Since the breach in the entente cordial between Governor Ferguson and former Governor O. B. Colquhoun at the Buffalo Club banquet at Houston there has been considerable conjecture as to whom Governor Ferguson would support for senator in the coming primary. The Waco Times-Herald answers the question with the name of Hon. R. L. Henry. It says that Governor Ferguson nominated Mr. Henry at the Willson-Henry banquet in Waco several months ago.

THE NAVY AND MEXICO.

Although Mexico has no navy, it would appear that the United States is not prepared properly to meet conditions that might develop on both the Atlantic and Pacific coasts in case of intervention or of grave disturbance in Mexico today. It is reported that there are not enough ships or gunboats in commission in the Pacific fleet to guard the interests of American citizens and property in the ports, part of the Americans who still remain in Mexico that their lives may be endangered in the near future. It is a humiliation to our people to note in the testimony of the Commander in Chief of the Pacific fleet that he had only one armed cruiser under his command and that when this cruiser went to sea for target practice he was compelled to shift his flag to the repair ship Iris, that has no guns and is in an unworthy condition. More than this, we are told that there are insufficient colliers on the Pacific coast to maintain the ships that may be called to station duty along that coast. Such a condition is the more amazing when it is remembered that Rear Admiral Blue, in his testimony before Congress, stated that the navy was "ready for war in the Pacific."

During the troubles that culminated in the taking of Vera Cruz it was necessary to send the battle fleet of the United States to Vera Cruz and Tampico and keep it there for months, during which time manœuvres and training necessary to the efficiency of the ships belonging to the first line were interrupted. This absurd condition could have been prevented had there been sufficient colliers men in the navy to man the reserve battleships and cruisers lying idle at the docks of the Philadelphia Navy Yard. Duty on the Mexican coast at that time would have served to put the reserve ships in good trim for service in the second line of the nation's defense. It would have been a common sense policy, but it was completely forbidden by the inexcusable neglect to provide men enough properly to man the ships of the navy and to prepare for an emergency of war even with a nation that has no navy whatever. That such a condition could exist in this country is sufficient evidence that

we have no adequate, well-digested policy, and that the Navy Department is not organized to carry out such policy or to bring forcibly to the attention of Congress the necessity for the appropriations without which our navy will be inefficient and unprepared to defend this country upon the seas.—New York Times.

LEGALISM IN THE UNITED STATES.

In his latest letter on the administration of Justice in the United States, Mr. J. S. Cullinan suggests that it might prove beneficial if the lawyers themselves should be subjected to some degree of public regulation. Business men of Mr. Cullinan's caliber have long been noting the increasing intricacy and expense of the administration of justice. In every State of the Union the citizen is brought into the regulating process by a bug, which means a corresponding decline in the freedom of initiative and effort. There is no doubt that the amazing multiplication of statutes, courts and litigants is due largely to the lawyers. Even high-minded barristers recognize an atrocious process in the ethics that was once the pride and glory of the profession. But the lawyers are not entirely to blame. We have passed through an age in which it seemed to be a common impulse for the citizen to demand a law to meet every condition which may have vexed him, and the countless worthless statutes which have been enacted are due largely to the thoughtless putting into his hands by the men who sought office and promised all the good things of life by statute.

So it happens we now live in a time when no man in business can move in any direction without legal counsel, and even when he moves he is almost certain to move into litigation, and out of the litigation comes the sustenance of an ever-increasing army of lawyers. It is hardly possible, however, for professional reform to come out of regulation and publicity. If it comes at all, it will come of a far-reaching insistence upon a strict observance of professional ethics. We have laws already for the regulation of the practice of law. Every State has its statute against barratry, but barratry is this statute invoked to punish the sharp practices that are common in every courthouse.

But the trouble of legalism, as Mr. Cullinan terms it, would still exist even if the statute against barratry were mercifully enforced, so long as our legislatures, dominated too frequently by demagogues, enact so many worthless laws. Our very ablest lawyers rarely consent to serve in the legislature, and when they do they are helpless against the self-seeking demagogues who court popularity by proposing drastic and unnecessary enactments in the hope of convincing the ignorant that they are true friends of the people. No doubt there are many instances where lawyers-legislators propose statutes with a view to increasing litigation or improving situations for clients, but as a general rule the lawyer-legislator proposes stringent and drastic enactments more as reformer and politician than as lawyer. But we must first get the injudicious part of the laws before we can look for a marked elevation of professional ideals. What we need is a purging of the statutes and a reform of the codes of procedure, and an aroused sentiment among the lawyers and the public for a strict enforcement of the law against barratry. Manifestly, we are progressing in civilization there ought to be apparent a diminishing volume of litigation. Surely, if we are to become better citizens, we must have a better personal conduct and occupations must decrease. If we are not becoming better, laws may establish a superficial improvement but inherently imperfect natures are productive of evil, whatever the surface aspects may show. The predatory spirit is difficult to conquer and the love of ease and luxury instigates and perpetuates much rank injustice. There is no such thing as de-commercializing the legal or any other profession, it certainly ought to be done, but we must look for genuine reform in the development in the hearts, minds and souls of the people of a love of righteousness and justice.—Houston Post.

CORPUS CHRISTI REPORTS OIL STRIKE NEAR THERE.

Corpus Christi, Texas, March 21.—High-grade petroleum in paying quantities was struck in the Pioneer well, located in the west of the city, on the mainland, causing considerable excitement. The oil was struck at a depth of 3,062 feet and the drillers believe that the main pool lies a few feet lower. This, however, may not be determined for several days, as operations were suspended pending the arrival of officials of the company who are in Oklahoma. Whether or not a gusher is brought in the well already is known to be a paying proposition, the first found in this immediate vicinity. The Guffey Company is making rapid progress on their third bore in the Whitepoint field, where they have previously brought in and lost two huge gassers.

There is a Real Difference

Cream of tartar, derived from grapes, is used in Dr. Price's Cream Baking Powder because it is the best and most healthful ingredient known for the purpose.

Phosphate and alum, which are derived from mineral sources, are used in some baking powders, instead of cream of tartar, because they are cheaper.

If you have been induced to use baking powders made from alum or phosphate, use Dr. Price's Cream Baking Powder instead. You will be pleased with the results and the difference in the quality of the food.

EARLIER INVASION OF MEXICAN SOIL WILL ENTERTAIN BOYS' CONFERENCE

This is Not First Time That American Troops Have Crossed Rio Grande

There have been two occasions on which, with the permission of the Mexicans, our soldiers have crossed into Mexico. The first was in the case of Victoria in 1884 and the second that of Geronimo in 1886. Both fugitives were Apache Indians. At another time, in 1877, General McKensie went over the line with troops of the seventh cavalry in pursuit of horse thieves. He did this in the face of Mexican threats.

RAIDS BY MEXICANS ON AMERICAN SOIL

Bandits Had Crossed Line Many Times Previous to Columbus Attack

On November 20, 1910, 200 Mexicans were repulsed in an attack on Marathon and Rock Springs. Cowboys who gathered to give them battle drove them back across the Rio Grande. While this fight was in progress, however, 60 Mexicans made a foray toward Marfa, Texas, and looted many ranches. During the next four years there was comparative quiet along the border. Although minor raids were numerous, few men were involved and damage was comparatively small. Last year, however, the raiders became more daring, and their attacks more serious. In spite of heavy patrols of troops along the border, they sacked Sebastian, Texas, 37 miles north of Brownsville on August 5, killing Albert Austrian and his wife and wounding their son. Eight days later Mexican soldiers in uniform crossed in Arizona, 15 miles west of Nogales, and, after slaughtering many cattle, made their escape in spite of pursuit by cavalry and citizens. On the same day there was a brush between Mexicans and Americans near Lordsburg, where 20 Mexicans dashed across the line and were driven back after they had looted several ranches.

VILLA'S FORMER GENERAL TALKS \$31,000 IN CITY BONDS TAKEN UP

FELIPE ANGELES SAYS ALL OF MEXICAN FACTIONS ARE HIS ENEMIES

IS ON LITTLE FARM

Declares He is Through With War and Politics Tells Why Villa Met Downfall

By Associated Press. El Paso, Tex., March 21.—Gen. Felipe Angeles, often referred to as the "true patriot of the Mexican revolution" and former military adviser of Francisco Villa, today came out of a long retirement to explain how, in his opinion, Villa, instead of being the leader of the constitutionalists, has fallen to the status of a hunted bandit.

Gen. Angeles charged that "Villa, like Carranza, aspired to be a dictator" and that this, and not the battles he lost, caused his friends to forsake him.

The general was the last of Villa's prominent supporters to quit him. He now lives on a modest vegetable and dairy farm four miles beyond the eastern outskirts of El Paso, half a mile from the Rio Grande. From his front porch he can look across into Mexican territory which he is at present forbidden to enter.

The Carrancistas, the Villistas, the Zapatistas—all are my enemies," said the general, his young son acting as interpreter. "and I chose this place for my home so that they may know that I fear none of them. I till my soil and herd my cows, having definitely put aside war and politics. I am not guarded. Anyone who wishes can cross the river and molest me."

Gen. Angeles said that he regretted the difficulties into which Villa had fallen. He said he had a warm remembrance of the man as a comrade in arms and explained he had been willing to support him because Villa had seemed at the time to represent the cause of real democracy.

He left him only when he found Villa did not understand democracy, although he did for the cause all that he knew how to do.

"Villa gained power because of his wonderful energy and his original magnetism," said Gen. Angeles. "He had great driving power, also he could be free and generous."

LARGE SUM IS CUT FROM BONDED INDEBTEDNESS THIS MORNING

NEW ISSUE PLANNED

Will Likely Ask \$40,000 For Street Paving—Sinking Fund Money Is Used

Wichita Falls bonded indebtedness was reduced by \$31,000 at a special meeting of the city council this morning, when bonds to that sum were retired. The bonds were taken up with money from the various sinking funds.

The action of the city council reduces the city's bonded indebtedness to about \$221,000, a small part of which is owned by some of the city's sinking funds; it still draws interest, however.

With this reduction in the city's indebtedness, council plans to ask the tax payers for a \$40,000 bond issue for street paving and it is probable that an election will be called at an early date. Other bonds may be asked at the same time.

The process by which the bonds were retired today was set forth in a communication from Mayor A. H. Britain. Each of the various sinking funds created for the retirement of bonds had an accumulation of money, and this money was used to purchase bonds upon which the time in which the city might not redeem them, had expired.

By Associated Press. Berlin, March 21.—French positions northeast of Avocourt were captured by the Germans who took 2500 prisoners the war office announced today.

CARRANZA-VILLA BATTLE REPORT NOT CONFIRMED

By Associated Press. Washington, March 21.—The war department dispatches today contain no report of fighting between Carranza troops and the Villa band in the last night's border disturbances. A report from Brigadier General Pershing forwarded by Major General Funston said that Carranza troops and civilians encountered by the punitive expedition have been friendly.

ARMY AVIATOR FALLS 60 FEET; SLIGHTLY HURT

By Associated Press. Columbus, N. M., March 21.—An aviator from the field army in Mexico today was part of a plane which fell 60 feet from the sky. The pilot was injured but not fatally. Lieutenant Bowen sustained a broken nose and other slight injuries.

Lieutenant Bowen was attempting to take the air under difficulties. The wind was high and showed a tendency to swirl. Several attempts of the aviator had been frustrated previously by the wind conditions. Finally Bowen went up but when 50 feet in the air his plane slipped and plunged almost straight to the ground.

Except that his nose was broken and his right eye slightly injured, the lieutenant otherwise appeared unhurt.

The six machines which arrived here were of the First Aeroplane Squadron which last fall made a successful flight from Fort Sill, Okla., by way of Wichita Falls to San Antonio in three days flying. Lieutenant Bowen was one of the aviators in that flight. His home is in Franklin, Kentucky.

A cavalry unit and additional artillery has arrived. A regiment of cavalry has arrived and another regiment of cavalry is on the way.

CIVILIANS ASKED TO RETIRE FROM TOWN ON BORDER

By Associated Press. El Paso, Tex., March 21.—The school has been closed at Fabens, a border town 20 miles east of El Paso, and all American civilians have been requested to leave, by American military authorities, according to telegraphic messages received here today by H. D. Camp, Fabens' school trustee. Fabens is opposite the Mexican village of Guadalupe. American troops have arrived there and the officers are quartered in the residences of citizens.

The trial may last a week. Strong efforts have been made by civilians to have the charges dropped.

VILLA NOW SEEKING TO REACH HILLS

(Continued from Page One)

under General Gavira at Juarez. The large staff at his headquarters and the fact that new troops are arriving daily, indicates that his force is a large one. The most conservative estimates place it at 2,000 men. Reports range from that point upward to 5,000. Every precaution has been taken to prevent any facts being known and most of the men kept outside the town among the hills. Reports from Acun Prieta and Imitica tell of Mexican reinforcements reaching those points also; but nothing is known as to their numbers.

There is no question that there is serious and growing uneasiness in El Paso, which has been sharply accentuated by the problem which has arisen over the request of the United States government to General Carranza for use of Mexican railroads to transport supplies. Americans here do not believe that Carranza dare grant this request, especially as it is understood that General Funston proposes, if it is granted, to take train crews and equipment into Mexico and place military guards at the station. The presence of American soldiers on Mexican railroads could not fail to be misunderstood by the people and it is feared would be sure to provoke outbreaks.

AT THE THEATRES

ONLY ONE COMPANY PRESENTING "EVERYWOMAN"

Theatregoers who have been misled by misapprehensions of alleged New York productions which have been presented by companies of actors which have never been played in the metropolis, with the scenes and costumes cut down to meet the requirements of the road, will surely appreciate the efforts of Henry W. Savage, the New York producer and manager, who is sending the big dramatic spectacle, "Everywoman," to this city where it will be offered at the Wichita Theatre, March 22 and 23rd.

This is the only company presenting "Everywoman" in America. Just as it was the only company presenting "Everywoman" in America last season. The company is just as nearly the same as it was possible for the managerial skill to make it. In a company requiring thirty-seven speaking characters it is next to impossible to keep exactly the same cast from season to season. Actors are only human; they die, change their professions, advance, retrograde, like other human beings. Yet as near as possible the cast of "Everywoman" is the same this year as it was last year, and the same last year as it was a year before.

Some of the original creators of the various roles are still playing the characters and do not do so since the opening performance five years ago. The scenic equipment is just as elaborate and in every way an exact duplicate of that used at the first performance. Everything is just as it was this season. It is fresh and spick and span. The costumes are up to the minute. There has been no paring in any of the efforts to make it easier to handle. Mr. Savage would permit nothing of the kind. You will not see a number two organization playing "Everywoman" in the theatre, and the company in America. The play-going public have learned that the name of Henry W. Savage as sponsor of a theatrical production is an absolute guarantee of its worth.

The Majestic.
Clara Whitney and William Shay are co-stars in "The Ruling Passion," the Fox on the program today at the Majestic. Miss Whitney plays the part of Claire, a girl of the London slums who goes to the city to live with an aunt. Here she seeks to escape from the evil of surroundings and heredity and for a time seems successful. She is married to Captain Dick Clayton, a girl for a while they live happily. Then enters Prince Ranjit Singh (William Shay), an Oriental ruler of great wealth. He fastens his eye on Claire and seduces her. Her father, who has a peculiar hygienic influence over women, both white and black and Claire comes under his domination. She refuses to marry him and tries to win to escape his attentions but in vain. He attempts to kill Dick, is unsuccessful and the latter, because of the enormous sum of money which Prince Ranjit offers, Claire they go to become an inmate of the Prince's harem. The action from this point on is rapid and thrilling. The motor-trolley woman comes to a speedy realization of the wrong she has committed and even though her life is in the most perilous straits, she saves the day.

The Gem.
Neil Craig, Edward Arnold and Jack McElhinney are the stars in "The Five Strain," a three-act play by Frank O. Geary. A synopsis is given. On his deathbed, the father of John Harris, a miser, confesses the unpardonable sin of his life. Years before he had betrayed a French Canadian girl called Angelle. Before dying she had become the mother of a baby. "The dying man requests his son to go up to the Great North, find his half-sister and make restitution. His young minister goes to the barren North, as his father requested. He builds a mission, much to the disapproval of Dan McGraw, owner of a dance hall. While in McGraw's place he meets his half-sister and she tells him she is infatuated. On Sunday the people, including Marie, attend church in stead of retreating to McGraw's dance hall. He is furious and when Marie returns to her room she attacks her. She finally escapes to the cabin of John Harris, where she falls in a faint at the door. Harris revives her long enough for her to tell the story of her life. She proves to be his sister. Seeking revenge he goes to the dance hall, where a terrible fight ensues which kills McGraw. He then returns to Marie, only to find her dead as a result of McGraw's attack.

FINAL LYCEUM ATTRACTION AT HIGH SCHOOL MONDAY

The fourth and last attraction in the Lyceum course which has been presented this winter by the Austin Mothers' Club at the High school will be "The Westminster Concert Entertainers," who will give the program Friday evening. Tickets are on sale at the Miller Drug Store.

The Westminster Entertainers are a number of Scotch-dialect ballads and reproductions of Harry Lauder songs and banterisms: Mary Moroso, with her street songs of sunny Italy in costume; Helen Mary Smith, with her humorous and musical readings, completely captivates audiences wherever they appear. Novel and pleasing features of the work of this trio of versatile artists are duets between Mr. Brodie and Miss Moroso; Miss Mabelle Wagner-Shank, formerly of the Henry W. Savage operatic forces, who organized this company is famed for her originality. The program which she has arranged for this group is a different one from the traditional Lyceum programs that they are sure to receive a warm welcome every where.

ESANAY SPECIAL AT LYDIA MARGARET WEDNESDAY

"The Alster Case" will be the Wednesday feature at the Lydia Margaret Theatre.

Brian Washburn, John Cossar, Ruth Stonehouse and Annie Leigh and other members of the cast of "The Alster Case," a five-act Esanay feature play (taken from the novel by Rufus Gilmore, and directed by J. Charles Hayden, worked through the five acts of the production without knowing who committed the crime around which the plot of the story was woven.

Mr. Hayden asked the cast to refrain from reading the climax of the story because he believed they could carry out their parts better if they were ignorant of who committed the crime. "The Alster Case" is so cleverly written that it is next to impossible to guess the one who killed Miss Cornelia Alster, a spinster, who is the victim in the case.

As the play unfolded the actors be-

came intensely interested and wagged gloves, candy, cigars and other things on an actor who killed Miss Alster. So Miss Stonehouse lost a box of candy to Mr. Cossar, Mr. Cossar lost a box of cigars to Brian Washburn and Washburn paid a pair of gloves to Annie Leigh. Miss Leigh in turn lost to Miss Stonehouse.

The Lydia Margaret
The story of the Alamo, that dark chapter in Texas history, the plot of which was wiped out by the overwhelming victories over the Mexicans at San Jacinto is told in "The Martyrs of the Alamo," the Griffith-Ince masterpiece on the Lydia Margaret program yesterday and repeated today. The famous Texas heroes, Bowie, Boudin, Travis and Crockett are familiar figures which are seen in this picture. The production is one of unusual interest. A Keystone comedy, "Saved by Wireless," is also on the program. Chester Conklin is the featured comedian.

The Empress
Today at the Empress World Film Corporation presents the five-act play, "Camille," based upon Alexandre Dumas' celebrated novel of the same name, and produced by Albert Capellani. Camille is the popular name of Marguerite Gautier, the lady with the camellias, who is queen of the underworld. She is beautiful and absolutely unscrupulous in the gratification of her passions. A wealthy lover, de Varville, is at her feet, where he places his fortune amounting to millions. Camille takes his money—but spurns his love.

Along comes young Armand a sentimental young law student. Upon him she bestows her love, but he is not an alluring eye; and Armand falls for her.

Of course, de Varville doesn't take lying down and he and Armand fight a duel, neither being killed.

Finally, Camille dies of a broken heart, signifying in the usual manner she loved Armand and not de Varville.

Clara Kimball Young, in the part of Camille, has an opportunity of showing what a fine artist she is—registering every emotion perfectly.

"THE BIRTH OF TEXAS" CAUSES MUCH ENTHUSIASM

The Lydia Margaret Theatre was a riot of enthusiasm for nearly two hours last night at the first evening performance during the presentation of "The Birth of Texas" at the Majestic Theatre. The picture, picturing the struggle at the Alamo and the Battle of San Jacinto, and other events preceding the independence of Texas. This is the performance that has the largest attendance of boys and school children and the greatest enthusiasm as these young patriots are shown the heroic deeds of our forefathers. The picture was presented in a most interesting and instructive manner. Older persons too joined in the shouts when the picture showed the massacre at the Alamo, and Santa Anna was captured and humiliated. The treaty giving Texas independence, the three days of the Republic, the Confederacy and the Union gathered on the screen in a most interesting and instructive manner.

PICK WILLARD AS SATURDAY'S WINNER

Jeffries, Fitzsimmons and Corbett All Think William Will Hold His Title

New York, March 21.—Jeas Willard is favored to win from Frank Moran in their championship bout Saturday night in a census of fighters and fighting fans taken today. Three ex-champions—Jim Jeffries, Bob Fitzsimmons and Jim Corbett—picked Willard to retain his title.

Others who favored Willard in the big fight are Ted (Kid) Lewis, Billy Moran, the reigning conditioner, Mike Donovan, old time champion and boxing instructor, and Bob Vernon, stakeholder of the big fight.

Frank Moran is supported by Jimmy Coffroth, promoter of western championship bouts; Tommy Sharkey, Tommy Burns, the heavy weight champion; Freddie Welsh, light weight champion, and Jim Coffey, twice defeated by Moran.

Nothing on the fight has been completed light to date.

Some thousand fans flocked out to Moran's training quarters yesterday to look him over, and another crowd was expected today, but few apparently have decided just how they want to risk their money.

Willard and Moran have now started secret "war" conference.

Having assured everybody that he perceives freely Jones does not think he will continue his daily boxing and medicine balling until Thursday, and the remainder of the time will be devoted to mapping out fight plans with Jones.

Moran was on the road early today and will keep at work until Trainer Willie Lewis announces enough.

Moran suffered some domestic complications. Little Willie Lewis, son of Frank's trainer, is dead of diphtheria, and the entire training camp plunged into gloom by the news.

Dan McEntrick, who managed Moran when he fought Johnson, has a suit for \$1,000 pending against the challenger and Moran was scheduled to spar a few rounds with legal technicians today in fighting the claim in court.

The fight but four days away dollars are rattling into Tex Rickard's strong box with renewed vigor. Tex announced that the sale this afternoon, from the \$100,000 mark. So he said, he smiled broadly at those who said he could not get away on the long haul with a limited round mill contest. Rickard even though the heavyweight champion was one of the principals. The \$2 and \$5 seats are yet to be put on the market. They go on sale Thursday.

LOCAL NEGRO IS HEAD OF ABILENE INSTITUTE

Rev. L. S. Arthur, who recently closed a rather stormy pastorate of the St. John's Baptist Church (negro) of this city, has been elected president of the Sunset Industrial Institute and Home of Mercy located at Abilene. This work, it is stated, pays him a larger salary than he received here. Arthur resigned here about ten days ago as a result of considerable discussion among the members of his flock.

WEST TEXAS A. & M. COLLEGE MOVEMENT

San Angelo Secretary Advances Reason—Urges Attendance at Sweetwater Meeting

In connection with the movement to establish an agricultural and mechanical college in West Texas, for which a meeting will be held at Sweetwater April 5 and in which Wichita Falls has been asked to participate, Thomas P. Owen, secretary of the San Angelo Board of City Development writes the Times as follows:

"There possibly has never been a matter of more specific importance than the establishment of an A. & M. College in West Texas brought before the people of the western and west central portion of Texas for consideration. It is argued from a conservative standpoint that until such an institution is established, the development of the arid resources of the state are going to be slow.

"To answer the following questions conservatively may awaken many to the fact that West Texas must have an A. & M. College.

"Is Texas large enough in area and wealth to have two colleges?

"Do you believe the arid resources of Texas can be better developed by having a college located in the arid section of the state?

"Hundreds of young men and boys have been forced on account of health to locate in West Texas, hence, don't you think it a crime to force them to go to a low altitude in order to gain an agricultural college education?"

"Why is it a fact, that the market values of maize, kafir, feterita, and other arid grains are not recognized on a state basis on the grain markets of our country throughout the entire years just as corn, oats, etc.? These grains have a feeding value, then why not a market value?"

"Don't you believe that stock raising is the chief industry of West Texas, and that there are methods peculiar to our territory which should be found to make this industry more successful?"

WILL MAKE TOUR OF MERIDIAN HIGHWAY

D. E. Colp of San Antonio Will Be Here The Latter Part of This Month

D. E. Colp of San Antonio, secretary of the State Good Roads Association, will be in Wichita Falls the latter part of this month on a tour of the Meridian Road. The following announcement has been received:

D. E. Colp, secretary of the Texas Good Roads Association, and party, hope to complete the last lap of the Meridian Road through this state Monday, March 27. Even to the observant this work of loggers and giving publicity to the Meridian Road will prove of manifest advantage to all this section. It is all the people who are interested; as it means a better road wherever and whenever the road is projected. That our own people are extremely anxious to see the good work go successfully on is evidenced by the hearty welcome extended to the logging party at every stop along the Meridian Road. And that the people north of the Red River are just as interested is seen by the inquiries and letters that come from New York, Washington, Kansas, Oklahoma, and other diverse points. For the Meridian Road is international in its scope, and so looked on all the length from Winnipeg, Canada.

The Meridian Road, with its sign of "white, straight ahead, and Red and White" turn, means more than that to the man who lives directly on the great international highway. It means that it will be a better road and better roads mean better everything.

D. E. Colp, who is in charge of the logging of the Meridian Road, is one of the most interesting and instructive educators on Road Promotion and Construction. That is why the Meridian Road in Texas is a winner. Whenever Mr. Colp is known to be in the community, then they get busy and figure on a Good Roads rally or meeting. It's been that way always, since he started in the great work of making Texas famous for its good roads; and it's been that way at everywhere a stop was made when this same logging of the Meridian Road was under way from Laredo to the last stop.

RESULTS OF CARE IN POULTRY RAISING

Rhode Island Reds Owned By R. T. Simmons Laying at Age of Five Months

At an examination of the results of raising good breeds of poultry and giving them proper care and attention is furnished by the experience of R. T. Simmons of this city. Mr. Simmons has a flock of Rhode Island Reds hatched September 19, now six months old. They began to lay at the age of five months and five days and up to March 19 had laid a total of 115 eggs.

"They are almost grown hens now," says Mr. Simmons, "and for a large breed to lay so young is an interesting thing to us; they had the best of care and attention all the time, and it shows what can be done with good attention, both housing and feeding."

The Times would be glad to give publicity to the experiences of other poultry raisers of this vicinity.

Corns Come Off Like Banana Peel

Wonderful, Simple "Gets-It" Never Fails to Remove Any Corn Easily.

"Wouldn't it be you?" Here I've been going along for years, with one desperate corn after another, trying to get rid of them with knives that cut off the toes, tapes that stick to the corn, bandages and plasters that make a package of the toes, trying blanching, razors and acids. Then I tried "Gets-It" and you ought to have seen that corn peel off—just like a banana peel! It's simple, wonderful. It's the new way, painless, applied in two seconds, never hurts, never bleeds, never stings. Nothing to press on the corn, never falls. Quit the agony for good any way and "Gets-It" tonight. For corns, calluses, warts and bunions. It's sold everywhere. 25c a bottle, or sent direct by E. Lawrence & Co., Chicago, Ill.

THE VALUE OF GOOD EYESIGHT

One of our greatest assets is good eyesight and yet, how often we neglect our eyes by not consulting an oculist as soon as they begin to give us trouble.

In a majority of instances, prompt attention would save you a lot of headaches and strained eyes.

It costs nothing to consult us, and if we can help you our charges will be reasonable. Better bring those BOTH EYES in and let our oculist look into them.

CITY PLANNING TO BUILD NEW LOCKUP

A new city jail, to be constructed on the city's property on Seventh street, near used as quarters for the street teams, is planned by the city council and it is probable that a small bond issue for the construction of the brick building will be asked. The disadvantages of having the jail in the city hall have been found numerous and it is believed that with a separate building, removed from the business district, better and more sanitary quarters for the prisoners could be provided. The cells at the city hall would be retained as a holdover for prisoners until they were tried but after being placed on the street gang they would be quartered in the new building. Contemplated, cost \$10,000 or \$12,000.

REDFIELD'S RECENT ADVICE INJURES SALVATION ARMY

New York, March 21.—Commander Evangeline Booth of the Salvation Army said today that Secretary Redfield's recent advice that housewives should conserve rags and waste paper, has seriously interfered with an important branch of the work of her organization. The Salvation Army, the commander says, maintains 125 homes in the United States, and these are largely financed through the collections of paper and rags. More than 150,000 tons of paper and rags are gathered, sorted, baled and shipped each year. Since Secretary Redfield's statement contributions of paper to the industrial homes have noticeably fallen off. Those in charge of this work declare that some 20,000 men connected with the industrial department of the army will be more or less affected by the scarcity of paper.

AT THE THEATRES

ONLY ONE COMPANY PRESENTING "EVERYWOMAN"

Theatregoers who have been misled by managerial pretensions of alleged "Theatricals" who have been presented by companies of actors which have never been played in the metropolis, with the scenes and costumes cut down to meet the requirements of "the road," will surely appreciate the efforts of Henry W. Savage, the New York producer and manager, who is sending the big dramatic spectacle, "Everywoman," to this city where it will be offered at the Wichita Theatre, March 22 and 23rd.

This is the only company presenting "Everywoman" in America, just as it was the only company presenting "Everywoman" in America last season. The company is just as nearly the same as it was possible for the managerial skill to make it. In a company requiring thirty-seven speaking characters it is next to impossible to keep exactly the same cast from season to season. Actors are only human; they die, change their professions, advance, retrograde, like other human beings. Yet at the same time possible the cast of "Everywoman" is the same this year as it was last year, and the same last year as it was a year before.

Some of the original creators of the various roles are still playing the characters and have done so since the opening performance five years ago. The scenic equipment is just as elaborate and in every way an exact duplicate of that used at the first performance. "Everywoman" is a new production. It is fresh and spick and span. The costumes are up to the minute. There has been no paring in any of the efforts to make it easier to handle. Mr. Savage would permit nothing of the kind. You will not see a number two organization playing "Everywoman" in America. The only public have learned that the name of Henry W. Savage as sponsor of a theatrical or musical attraction is an absolute guarantee of its worth.

The Majestic

Claire Whitney and William Shay are stars in "The Ruling Passion" at the Fox on the program today at the Majestic. Miss Whitney plays the part of Claire, a girl of the London slums who goes to India to escape from the evil of surroundings and heredity and for a time seems successful. She is married to Captain Dick Clayton (William Shay), an Oriental ruler of India, and she fastens her eyes on him. He has a peculiar hypnotic influence over women, both white and black and Claire comes under his domination. She repulses him and he tries to kill her. He attempts to kill Dick, but is unsuccessful and the latter, because Claire encourages the advent of the Prince, becomes a man of the world. Claire then goes to become an inmate of the Prince's harem. The action from this point on is rapid and enthralling. The unfortunate heroine comes to a speedy realization of the wrong she has committed and even though honesty is in the most part to blame, never the less she says the words "I am a sinner."

The Gem

Nell Craig, Edward Arnold and Jack Mered are costars in "The Strain" at the Gem. A synopsis is given.

On his deathbed, the father of John Harris, a minister, confesses the unpardonable sin of his life. He confesses he had betrayed a French Canadian girl named Annette. Before John's father had become the mother of a baby girl. The dying man requests his son to go up to the Great North, find his sister and make restitution. The young minister goes to the barren North, as his father requested, and builds a mission, much to the disapproval of Dan McGraw, owner of a dance hall while in McGraw's place he meets Marie, the daughter of a nobleman. He is infatuated with the girl, including Marie, attend church in stead of patronizing McGraw's gambling den. He is furious and when Marie returns to her father's home she attacks her. She finally escapes to the cabin of John Harris, where she falls in a faint at the door. Harris gives her long enough for her to tell the story of her life. She proves to be his sister. Seeking revenge he goes to the dance hall, where a terrible fight occurs in which he kills McGraw. He then returns to Marie, only to find her dead as a result of McGraw's attack.

FINAL LYCEUM ATTRACTION AT HIGH SCHOOL MONDAY

The fourth and last attraction in the Lyceum course which has been presented this winter by the Austin Mothers' Club at the High school will be "The Westminister Concert Entertainers," who will give their program on Friday evening. Tickets are on sale at the Miller Drug Store.

The Westminister Entertainers are three in number.

John Smith, with his Scotch dialect ballads and reproductions of Harry Lauder songs and banterisms; Mary Morose, with her street songs of sunny Italy in costume; Helen Marie Smith, with her humorous and musical readings, completely captivates audiences wherever they appear. Novel and pleasing features of the work of this trio of versatile artists are duets between Mr. Brodie and Miss Morose; Mrs. Mabelle Wagner-Bank, formerly of the High school, who has recently returned to her original home. The program which she has arranged for this company are so different from the traditional Lyceum program that they are sure to receive a warm welcome every where.

ESSAY SPECIAL AT LYDIA MARGARET WEDNESDAY

"The Alister Case" will be the Wednesday feature at the Lydia Margaret Theatre.

Bryant Washburn, John Cossar, Ruth Stonehouse and Anne Leigh and other members of the cast of "The Alister Case," a five-act feature play, which is taken from the novel by Rufus Gilmore, and directed by J. Charles Hayden, worked through the five acts of the production, without knowing who committed the crime around which the plot of the story was woven.

Mr. Hayden asked the cast to refrain from reading the climax of the story because he believed they could carry out their parts better if they were ignorant of who committed the crime. In five-act feature play, the story because he believed they could carry out their parts better if they were ignorant of who committed the crime. In five-act feature play, the story because he believed they could carry out their parts better if they were ignorant of who committed the crime.

came intensely interested and wagged gloves, candy, cigars and other things on just who killed Miss Alister. She is a Scotch girl, a box of candy to Mr. Cossar, Mr. Cossar lost a box of cigars to Bryant Washburn and Washburn paid a pair of gloves to Anne Leigh. Miss Leigh in turn lost to Miss Stonehouse.

The Lydia Margaret

The story of the Alamo, that dark chapter in Texas history, the blot of which was wiped out by the overwhelming victories over the Mexicans at San Jacinto is told in "The Martyrs of the Alamo," the Griffith-Ince masterpiece on the Lydia Margaret program yesterday and repeated today. The famous Texas heroes, Bowie, Bonham, Travis and Crockett are familiar figures which are seen in this picture. The production is one that is historically correct and in of unusual interest.

A Keystone comedy, "Saved by Wireless," is also on the program. Chester Conklin is the featured comedian.

The Empress

Today at the Empress World Film corporation presents the five-part photoplay "Camille," based upon Alexandre Dumas' celebrated novel of the same name, and produced by Albert Capellani.

Camille is the popular name of Marguerite Gautier, "the lady with the camellias," who is queen of the underworld. She is beautiful and absolute in her passions. A wealthy lover, de Varville, is at her feet, where he places his fortune amounting to millions of francs. Camille takes his money—but spurns his love.

Along comes young Armand a sentimental young law student. Upon him she bestows her love. Camille has an alluring eye; and Armand falls for her.

Of course, de Varville doesn't take it lying down, and he and Armand fight a duel, neither being killed.

Finally, Camille dies of a broken heart, signifying in the usual manner that she loved Armand and not de Varville.

Clara Kimball Young, in the part of Camille, has an opportunity of showing what a fine artist she is—registering every emotion perfectly.

"THE BIRTH OF TEXAS" CAUSES MUCH ENTHUSIASM

The Lydia Margaret Theatre was a riot of enthusiasm for nearly two hours last night at the first performance during the presentation of "The Birth of Texas," a Griffith-Ince film, picturing the struggle at the Alamo and the Battle of San Jacinto, and other events preceding the independence of Texas.

The performance that has the largest attendance of boys and school children and their enthusiasm as these little school boys, three and four years of age, were present. Older persons too joined in the shouts when "The Birth of Texas" was presented. The enthusiasm was unbounded when Houston's forces overcame the Mexicans at San Jacinto. PICK WILLARD AS SATURDAY'S WINNER

Jeffrey, Fitzsimmons and Corbett All Think His Title

New York, March 21.—Jess Willard is favored to win from Frank Moran in the championship boxing Saturday night in a census of fighters and fighting fans taken today. Three ex-champions—Jim Jeffries, Bob Fitzsimmons and Jim Corbett—picked Willard to retain his title.

Others who favored Willard in the big fight are Ted (Kid) Lewis, Billy Moran, Mike Donovan, old time champion, Mike Donovan, old time champion and boxing instructor, and Bob Vernon, stakeholder of the big fight.

Frank Moran is supported by Jimmy Coffroth, promoter of western championship bouts; Tommy Sharkey, Tommy Burns, ex-heavyweight; Freddie Welsh, lightweight champion, and Jim Coffey, twice defeated by Moran.

Betting on the fight has been comparatively light to date.

Some thousand fans flocked out to Moran's training quarters yesterday to look him over, and another crowd was expected today. But new applicants have decided just how they want to risk their money have now started a conference.

Willard and Jones have now started a conference.

Having assured everybody that he perceives freely Jones does not think he needs much more work. He will continue his daily boxing and practice until Thursday, and the remainder of the time will be devoted to mapping out fight plans with Jones.

Moran was scheduled to fight today and will keep at work until Trainer Willie Lewis announces enough.

Moran suffered some domestic complications. Little Willie Lewis, son of Frank's trainer, is dead of diphtheria, and the entire training camp plunged into gloom by the news.

McKenrick, who managed Moran when he fought Johnson, has a suit for \$3,000 pending against the challenger, and Moran was scheduled to appear a few rounds with legal technicalities today in fighting the \$100,000 suit.

The fight has but four days away dollars are rattling into Tex Rickard's strong box with renewed vigor.

Tex announced that the sale this afternoon will be a "big one," and he is saying, he smiled broadly at those who said he could not get away on the long end with a limited round bout.

Moran was scheduled to fight today and will keep at work until Trainer Willie Lewis announces enough.

LOCAL NEGRO IS HEAD OF ABILENE INSTITUTE

Rev. L. S. Arthur, who recently closed a rather stormy pastorate of the St. John's Baptist Church (negro) of this city, has been elected president of the Sunset Industrial Institute and Home of Mercy located at Abilene. This work, it is stated, pays him a larger salary than he received here. Arthur resigned here about ten days ago as a result of considerable dissension among the members of his flock.

WEST TEXAS A. & M. COLLEGE MOVEMENT

San Angelo Secretary Advances Reason—Urges Attendance at Sweetwater Meeting

In connection with the movement to establish an agricultural and mechanical college in West Texas, for which a meeting will be held at Sweetwater April 5 and in which Wichita Falls has been asked to participate, Thomas P. Owen, secretary of the San Angelo Board of City Development writes the Times as follows:

"There possibly has never been a matter of more specific importance than the establishment of an A. & M. College in West Texas brought before the people of the western and west central portion of Texas for consideration. It is argued from a conservative standpoint that until such an institution is established, the development of the arid resources of the state are going to be slow.

"To answer the following questions conservatively may awaken many to the fact that West Texas must have an A. & M. College.

"Is Texas large enough in area and wealth to have two colleges?

"Do you believe the arid resources of Texas can be better developed by having a college located in the arid section of the state?

"Hundreds of young men and boys have been forced on account of health to locate in West Texas, hence, do you think it a crime to force them to go to a low altitude in order to gain an agricultural college education?"

"Why is it that the market values of maize, kafir, feterita and other arid grains are not recognized on a staple basis on the grain markets of our country throughout the entire year just as corn, oats, etc.? These grains have a feeding value, then why not a market value?"

"Do you believe that stock raising is the chief industry of West Texas, and that there are methods peculiar to our territory which should be found to make this industry more successful?"

WILL MAKE TOUR OF MERIDIAN HIGHWAY

E. Colp of San Antonio Will Be Here The Latter Part of This Month

D. E. Colp of San Antonio, secretary of the State Good Roads Association, will be in Wichita Falls the latter part of this month on a tour of the Meridian Road. The following announcement has been received:

D. E. Colp, secretary of the Texas Good Roads Association, and party will be in Wichita Falls the latter part of this month on a tour of the Meridian Road through this state Monday, March 27. Even to the unsophisticated this work of logging and giving publicity to the Meridian Road will prove of manifest advantage to all this section. It is all the people who are interested; as it means a better road wherever and whenever the road is projected. That our own people are extremely anxious to see the good work go successfully on is evidenced by the hearty welcome extended to the logging party at every stop along the Meridian Road. And that the people north of the Red River are just as deeply interested is seen by the incoming letters that come from New York, Washington, Kansas, Oklahoma, and other diverse points. For the Meridian Road is international in its scope, and so looked on all the length from Winnipeg, Canada.

The Meridian Road, with its sign of "white" straight ahead, and "Red and White" turn; means more than that to the man who lives directly on the great international highway. It means that it will be a better road, and better roads mean better everything.

D. E. Colp, who is in charge of the logging of the Meridian Road, is one of the most interesting and instructive educators on Road Promotion and Construction. That's why the Meridian Road in Texas is a winner. Whenever the Meridian Road is in the community, then they get busy and figure on a Good Roads rally or meeting. It's been that way always, since he started in the great work of making Texas famous for its good roads; and it's been that way at everywhere a stop was made when this same logging of the Meridian Road was under way from Laredo to the last stop.

Corns Come Off Like Banana Peel

Wonderful, Simple "Gets-It" Never Fails to Remove Any Corn Easily.

"Wouldn't it be just you? Here I've been going along for years, with one desperate corn after another, trying to get rid of them with knives, blades, and all sorts of things, and nothing doing. I've been using 'Gets-It' for some time now, and I can tell you it's a wonderful, simple, and safe remedy for corns. It's the only one that ever failed to remove any corn easily. It's the only one that ever failed to remove any corn easily. It's the only one that ever failed to remove any corn easily."

THE VALUE OF GOOD EYESIGHT

One of our greatest assets is good eyesight and yet, how by not taking care of our eyes, we are not only losing an asset, but are also giving us trouble.

In the majority of instances prompt attention would save you a lot of headaches and strained eyes.

It costs nothing to consult us and if we can help you our charges will be reasonable. Better bring those BOTH EYES in and let our optician look into them.

RESULTS OF CARE IN POULTRY RAISING

Rhode Island Reds Owned By R. Simmons Laying at Age of Five Months

At example of the results of raising good breeds of poultry and giving them proper care and attention is furnished by the experience of R. T. Simmons of this city. Mr. Simmons has a flock of Rhode Island Reds hatched September 19, now a month old. They began to lay at the age of five months and five days as up to March 19 had laid a total of 115 eggs.

"They are almost grown hens now," says Mr. Simmons, "and for a large breed to lay so young is an interesting thing to us; they had the best of care and attention—all the time and it shows what can be done with good attention, both housing and feeding."

The Times would be glad to give publicity to the experiences of other poultry raisers of this vicinity.

That the said Sarah Garner was possessed of the following real and personal property, to-wit:— Lot 9 in Block H, Granger & Ballew Addition to the city of Wichita Falls, Texas, and a few household goods, etc.

LEGAL NOTICE INJURES SALVATION ARMY

By Associated Press. New York, March 21.—Commander Evangelina Booth of the Salvation Army said today that Secretary Redfield's recent advice that housewives should conserve rags and waste paper, has seriously interfered with an important branch of the work of her organization. The Salvation Army, the commander says, maintains 125 homes in the United States, and these are largely financed through the collections of paper and rags. More than 150,000 tons of paper and rags are gathered, sorted, baled and shipped each year. Since Secretary Redfield's statement contributions of paper to the industrial homes have noticeably fallen off. Those in charge of this work declare that some 20,000 men connected with the industrial department of the army will be more or less affected by the scarcity of paper.

REDFIELD'S RECENT ADVICE INJURES SALVATION ARMY

By Associated Press. Gainesville, Tex., March 21.—After being unconscious for 75 days, Mrs. George Stephenson, aged 82, died last night of paralysis.

CITY PLANNING TO BUILD NEW LOCKUP

May Ask Bond Issue to Erect Building on Seventh Street Property. A new city jail, to be constructed on the city's property on Seventh street, now used as quarters for the street teams, is planned by the city council and it is probable that a small bond issue for the construction of a brick building will be asked. The disadvantages of having the jail in the city hall have been found numerous, and it is believed that with a separate building removed from the building, a better and more sanitary quarters for the prisoners could be provided. The cells at the city hall would be retained as a holdover for prisoners until they were used but after being placed on the street they would be quarantined in the new building. A brick structure is contemplated, to cost \$10,000 or \$12,000.

Market Report

Fort Worth Livestock. By Associated Press. Fort Worth, Tex., March 21.—Cattle receipts 2300, steady; beefs \$8 to \$8. Hog receipts 2000, steady; bulk \$8.85 to \$9. Sheep 500, sluggish; lambs \$8.50 to \$9. Chicago Grain. By Associated Press. Chicago, March 21.—Wheat underwent a fresh decline today influenced to a considerable degree by a decided increase in the European visible supply total. Opening prices ranged from 3.4 to 1.15 lower with May at 1.08 1/2 and 1.09 and July at 1.07 to 1.07 3/8 but were followed by a slight rally. Corn and oats showed weakness with a sympathy with wheat. The close in wheat was weak with May at 1.08 7/8 and 1.09 and July at 1.07 3/4 to 7-8.

Modern Picture Framing Mothers and Girls

The April issue of the Ladies Home Journal on sale Monday 20th, will contain a lengthy article on Modern Art of Picture Framing. By use of Dennison's goods. We wish to announce that after having the matter explained we felt there would be some if not big demand for the material and are prepared to supply anything required. No doubt you all and especially your children have pictures you would have framed, only for the expense. Dennison's way of framing is very simple and inexpensive. Children can do the work which affords them good employment, and at the same time they are making things useful for the home, which look just as well as the wood framing. You can frame your picture in the mahogany, gold or cressian walnut finishes, making frames deep or shallow. In case you don't care to buy an outfit you can buy such material as you like. To each customer we give a book of instructions which are very useful in doing the work.

TEXAS NATIONAL GUARD COULD FURNISH FULL QUOTA

By Associated Press. Austin, Tex., March 21.—The Texas National Guard, which has a full quota of strength, will more than fill its quota for any call for troops by the federal government for war service up to 200,000 men. Preparations to this end have been made by the adjutant general's department. In case the national guard might be called out for border patrol duty while the federal troops are in Mexico. The State of Texas is seventh in the list of states receiving allotments for military purposes from the federal government. In addition to those already enrolled in the state militia, it is believed the total number of organizations volunteering their services under the names of "ranger companies" and "home guards" and other local units would bring the number of available men for service in this state close to 23,000.

Catering to a Delicate Taste, Our Soda Fountain Drinks Will Be Better Than Ever This Year

Always on the alert to find the best for our customers, we are prepared to serve now such fountain drinks as have never been equalled in this city. All the new concoctions, as well as the old favorites will be served—and they will be served to your taste—to a taste that will bring you back for more as soon as you are thirsty. We use cream and milk from the Kemp gurnsey dairy, and eggs direct from the farm. We also use the best grade of chocolates, and every ingredient that goes into any drink is the purest and best it is possible for money to buy. Drive up in your car or carriage, tonight or any time, and our clerks will be glad to serve you. Or, if you prefer, come right into the store and, while you are enjoying your drink, you can also enjoy any of your favorite selections on the Victrola or look over the new magazines. We want you to make yourself thoroughly at home in our store, and anything we can do to make your stay agreeable will be cheerfully done. Our clerks take pleasure in serving our customers and friends, no matter what the order may be for.

We also carry a very extensive line of Adolphus chocolates and bon bons, which will please the most fastidious taste. These are made in Texas, and are the equal of any candies made any where in the world, and added to this, they are always fresh. Try them any time. Smokers will find in our cigar case the best brands of cigars, cigarettes, and tobaccos, and we take much pains to keep them in just the right condition of mellowness to make most enjoyable.
