

CONFIRMATION OF VILLA DEATH REPORT LACKING, BUT LATE ADVICES TEND TO STRENGTHEN BELIEF THAT IT IS TRUE

EFFORTS TO ESTABLISH TRUTH FAIL

MEXICAN OFFICIALS ON BORDER EXPRESS BELIEF THAT REPORT WILL BE CONFIRMED—NEW EVIDENCE IS RECEIVED

WOULD SEE BODY

Efforts To Obtain Positive Identification of Remains Will Be Made—Reports Conflict As to Present Whereabouts

By Associated Press. El Paso, Texas, April 17.—Confirmation of Mexican reports that Francisco Villa's body had been exhumed at San Francisco de Borja and was being brought to Chihuahua was still lacking at Juarez today.

"I still feel reasonably certain that the messages received Sunday that Villa's body had been found, are correct," said Andres Garcia, Mexican consul here today. "I shall make every effort to have the body brought to Juarez, where scores of Americans who knew him may make an identification that will be completely satisfactory to the American people."

The defacto government officials were not able to give any information regarding an unofficial dispatch from Mexico City, stating that Minister of War Obregon had announced that Villa's body was buried in San Francisco de Borja and was not en route to Chihuahua City.

A dispatch was received by General Gavira, commander of the Juarez garrison from Cusiuhuarachic at 10:30 this morning stating that the body of Francisco Villa had not arrived there at that time.

General Gavira talked today to the telegraph operator at San Antonio and obtained further details of the reported finding of Villa's body. According to the operator, General Cavazos and Colonel Carlos Carranza, who were a Cusiuhuarachic received information Saturday that a Villa band was operating in the neighborhood.

Question of Identity. Consul Garcia's information was that the body of Villa had been exhumed and was being brought to Cusiuhuarachic where it was to be sent on a special train to Chihuahua City. Official word from Washington, that United States troops would be immediately withdrawn from Mexico, if Villa was dead, will undoubtedly result in expediting the efforts of the defacto government to ascertain the truth of the reports of the locating of Villa's body and to make a full and satisfying identification.

NEW REVOLUTION REPORTED TO BE ORGANIZED NOW

GENERAL VILLAREAL SAID TO BE TRYING TO INDUCE CARRANZA GARRISONS ON BORDER TO JOIN IN REVOLT

IS BEING WATCHED

Commander at Nuevo Laredo is Declared to Have Refused—Federal Authorities at San Antonio Are Notified

By Associated Press. San Antonio, Tex., April 17.—General Antonio I. Villareal is attempting to start a new revolution against the Carranza government according to reports received today by Consul General Brittan from Melquiades Garcia, Mexican consul at Laredo.

Gen. Villareal is said to have asked Gen. Rosendo Garza, commander of the Carranza garrison at Nuevo Laredo, to join the movement. Gen. Garza remained loyal to the defacto government and warned Villareal against entering Mexico, according to the consular report.

Officers of the department of justice were at once apprised of the situation by Consul General Brittan and men are now at work on the case. Gen. Villareal left San Antonio Sunday morning, going to Laredo by automobile. After the refusal of General Garza to join the revolution, Villareal is reported to have talked with a colonel from the Nuevo Laredo garrison in Laredo and told him a large number of Mexican soldiers were ready to take up arms against Carranza if the border garrison started the revolt.

It is believed that the Carranza government to permit the United States forces operating in Mexico to make free use of the railways, little or no difficulty has been experienced in maintaining communication and the forwarding of supplies to Pershing's men.

Arrivals from Parral report that there are only three Americans left in that city. These three men have married into Mexican families and regard themselves as immune from the prevailing hostility toward the gringos.

Gasoline is reduced in price at St. Louis. St. Louis, April 17.—Gasoline in St. Louis today sold at nineteen cents a gallon, a drop of one cent. The decline was attributed to the importation of oil from Borneo.

WANTS SOME MORE AMERICAN SCOUTS

Pershing Makes Request—Total of 81 Trucks Leave Columbus Within 12 Hours

By Associated Press. Columbus, N. M., April 17.—It was learned today that General Pershing has asked for more civilian scouts, especially those familiar with the district south of Parral. This was taken to mean by military men here that the report of the finding of Villa's body had not been confirmed and that the advanced cavalry detachments are pushing forward, possibly into Durango.

Disturbances at Los Palomas, eight miles south of the border, followed today by the Carranza soldiers patrolling the international line according to reports here today. The forty men were paid yesterday for the first time in two months it was asserted, each man receiving five American dollars and \$25 in Carranza currency. Investigation showed that the disturbances were minor and caused mainly by intoxication.

PARRAL CASE IS VIEWED AS MORE SERIOUS

DISPATCH DECLARES 300 CARRANZA SOLDIERS JOINED CIVILIANS IN ATTACK UPON UNITED STATES TROOPS

REPORT ON VILLA

Its Confirmation Would Mean Prompt Withdrawal of American Forces But No Definite Word Comes From There Today

By Associated Press. Washington, April 17.—War department officials announced today that none of the overnight dispatches or early telegrams brought any confirmation of the finding of the body of Francisco Villa.

It was reiterated today that should the body be identified as that of Villa, the expedition would come out of Mexico at once. No instructions have been sent to Consul Letcher or General Pershing, however, as to the identification to be required. None will go forward until these officials transmit some report.

President Wilson and Secretary Baker had before them today the first direct official information of the attack on the American soldiers at Parral. It was a report from Brigadier-General Pershing and while it relieved fears that the American cavalry force had been wiped out, it indicated that the incident was far more serious than at first supposed.

The report said 300 Carranza soldiers joined civilians in the attack. The casualties were two Americans killed and six wounded, including Major Frank Tompkins, slightly wounded, 40 Mexican soldiers killed, one civilian wounded.

Latest developments in the situation were read with keen interest by congressmen who realized that the death of Villa would end all further diplomatic negotiations over Carranza's proposal for a withdrawal of the Mexican forces in Mexico.

Secretary Baker today received a dispatch from Naco, Arizona, stating that General Villa was last seen heading in the direction where reports yesterday said he was buried. The dispatch was taken by war department officials to mean that the report of Villa's death might be true. The dispatch was sent immediately to President Wilson.

Washington Doubtful. As the hours pass without confirmation of the story of the finding of the body of Francisco Villa, Washington grows more doubtful.

Villa's body was to have reached Chihuahua City by special train some time last night, but American consul Letcher has not even forwarded the rumors as to Villa's death which must be circulating there.

The Mexican embassy here had no additional information. Its last report from Consul Garcia at El Paso said he was seeking confirmation.

State and war department officials refused to comment today on General Pershing's report of the Parral fight which is much different from the version transmitted by General Carranza to support his suggestion that American troops be withdrawn. The American reports show that Carranza troops not only joined in the attack upon the little detachment of Americans, but followed them several miles as they withdrew to avoid a clash.

Despite the reluctance of the Carranza government to permit the United States forces operating in Mexico to make free use of the railways, little or no difficulty has been experienced in maintaining communication and the forwarding of supplies to Pershing's men.

ATTITUDE IN BERLIN

Unofficial Advice Indicate German Government is Willing to Meet Washington More Than Half Way in Negotiation

By Associated Press. Washington, April 17.—Announcement was made in the White House today that President Wilson had practically completed consideration of the forthcoming communication to Germany, and it is indicated that the document will be forwarded to Berlin today or tomorrow.

It is reported that the Sussex case would form only a link in the chain of evidence the United States will present to Germany to show that her promises have not been fulfilled.

The document was characterized by officials today as being very positive in tone and it is believed that only a prompt acquiescence by Germany in the position taken by the United States can prevent a break in diplomatic relations.

A cable message from Ambassador Letcher at Berlin, which it was said authoritatively, was devoted entirely to editorial expressions from the German newspapers. State department officials declared the ambassador had not yet submitted a report of conversations he was reported in press dispatches last week to have had with officials of the foreign office.

AMERICAN INJURED BY AUSTRIAN SUB

On Russian Ship Which Was Attacked Without Warning Recently

By Associated Press. Washington, April 17.—One of two Americans aboard the Russian bark Imperator Gaidaroff, Miss. for Port Warren, Boston, was injured when the vessel was fired upon without warning by an Austrian submarine over the Columbian Islands, according to official advices to the state department today.

The American injured was Gustav Olsen, whose father is a landowner at Fort Warren, Boston. He is said to be in a hospital at Barcelona, Spain suffering from shrapnel wounds.

The state department's information came from the American consul at Barcelona. He said the ship was fired upon without warning April 11. Three shots were fired, one taking effect. The vessel was set on fire by the submarine.

By Associated Press. Washington, April 17.—Without discussion the senate today adopted Senator Borah's resolution requiring the federal trade commission to supervise production of the available supply of sisal.

Alexander Legg, general manager of the International Harvester Company, introduced a statement at the hearing today that his company had no objection to the government's supply of sisal to the farmer at the lowest cost with a reasonable manufacturer's profit in order to increase the availability and consumption of the company's machinery. Reports received at several twine companies appeared at the hearing today to enter their orders for sisal.

DEPARTMENT URGES USE OF LIGHTER PAPER

By Associated Press. Washington, April 17.—The department of agriculture issued a circular today recommending the use of light weight paper for the printing of government papers. The circular stated that many publishers and many users of wrapping papers had adopted the plan of light weight paper.

September Morn; Recruit Gets Her Some Clothes on

By Associated Press. Los Angeles, Calif., April 17.—Five negro prisoners in the county jail here effected a jail delivery early today when one of them pitched Sheriff Garner against a wall and took his six shooter from him. Poses were formed, led by the sheriff, to capture the fugitives.

Mate Becker took another careful look. "Well, you'll have to take her out and dress her, she can't get by here." "Alright, she gets some clothes on, promised the prospective blue jacket.

Just before noon Mate Becker saw the triumphant Whitebeimer stalk in to the office. He wore a broad grin and revealed a well dressed woman. She was changed from the fashion worn by Eve to a mode of a later day.

"Yes, I got a friend who has a tail, too outfit to put a skirt on her. I kinda like her with the new uniform, don't you?" he said.

Successes Against Austrians Are Reported From Rome—French Aviators Make Raids on German Bulgarian Positions Near Salonika

The Associated Press summarizes European war operations as follows: After temporarily assuming the aggressive in the Verdun battle, launching attacks in the Doumont Vaux region, which were declared to have ended from some ground, the French yesterday and last night held their infantry in check. Neither was there any move by the German infantry according to this afternoon's Paris bulletin.

Apparently a new move of some importance is preparing west of the Meuse, between the Ardennes and the positions in the Avesnois region and some the line for some distance northward, including the Toul, Mon. Hill country, having been mentioned in several recent official statements, as the French war office and similar military activity is again reported to the public.

Although Rome has reported heavy fighting on the Austro-Italian front, with successes for the Italians, the current London dispatches from Vienna mention only small engagements and records no changes of territory of any consequence.

The Norwegian ship, the London of 1918 tons, and the British steamer Harviken of 1300 tons, have been sunk. The former was sunk by gun fire.

Raids by two French army squadrons stationed on the Saloniki front were reported in a Havas dispatch from Athens to Paris. The squadrons dropped bombs yesterday on Bulgarian forces assembled at Strumitsa station. The other attack was made on German positions at Boghazice. Both squadrons returned unharmed.

French aviators are showing great activity in bombarding positions back of the German lines, attacking rail road stations and factories. The French war office also reports that a vessel of the enemy was struck in the North Sea by bombs dropped from a French armed aeroplane.

German aviation forces reported today include the bringing down of two hostile aeroplanes, one from the German who has been flying up a record this being the fifth machine he had brought to earth.

CONTRACTOR LOSES EXTRADITION FIGHT

Is Wanted in Winnipeg in Connection With Parliament Building Charges

By Associated Press. Washington, April 17.—Thomas Kelly, a contractor, wanted in Winnipeg in connection with alleged frauds in construction of the parliament building there, today lost his fight against extradition in the supreme court, which affirmed the action of the federal court in Chicago in refusing to release Kelly on habeas corpus.

Canada asked for Kelly's extradition that he might be tried on a charge of obtaining \$125,000 by false pretenses on the parliament building contract. Apparently no legal process is available to prevent his extradition to Manitoba.

April Ghosts.

The April night and the April rain. And the yellow rose's soul. Ate bringing again that sweet, old pain. Which takes from our lives its toll.

Oh many an April ghost, tonight. With their steady silent stride. Glides by in mocking, mad delight. But pause when they reach our side.

There is one with merry, blue grey eyes. And a touch of tender grace. And we live again 'neath fair, calm skies. In a half forgotten place.

There is one with eyes of brimming brown. Who walks with a well feigned boast. But well we know 'tis the cross, not crown. That concerns it, tonight the most.

And the yellow rose's soul sobs. With its subtle, searching scent. No wonder the night winds call and cry. And Faith wears a garment rent.

For many a long gone, magic spring. Awakes from its years of sleep. And brings us an April offering. Of that which we sowed to reap.

And the rose's soul, which we love best. Holds Memory's gate ajar. While the April wraiths who cannot rest. Come back from across the bar.

Yet we love this tryst which April makes. With the souls of long dead things. It softens the heart, e'en though it wakes. The tenderest, sorest strings.

EPWORTH LEAGUE CAMP SITE TO BE CHOSEN TODAY

By Associated Press. Corpus Christi, Tex., April 17.—An announcement was looked for today on the selection of an encampment site for the annual summer session of the Texas Epworth League, which will be held this year at either Rockport on the gulf coast near here, or at Port O'Connor, further up the coast. The announcement was to follow canvassing a mail vote of members of the locating committee who met here last week.

Originally sixteen cities of the State made bids for the annual encampment of the Epworth Leaguers, a change of site having become necessary on account of the Yeague's disposition of its property near here, known for years as "Epworth by the Sea." By elimination the race narrowed down to Austin, Port O'Connor and Rockport. Austin has since withdrawn.

Rockport sent a delegation to a committee meeting here last week, making a proposal to do so to the Texas Epworth League a large acreage along Aransas Bay near Rockport for the camp site, one hundred building lots in Rockport, and other considerations, as further inducements.

In justice to both Rockport and Port O'Connor, Dr. T. Sessions, president of the League, the question was resubmitted to the committee for a mail vote.

STATEMENTS AT MEN'S MASS MEETING SUNDAY ARE TO BE INVESTIGATED

PLANS COURT ACTION

Dr. Andrews' Remarks Relative To White Slave Traffic Attract Attention

A court of inquiry to ascertain the basis for statements made at the men's mass meeting Sunday after noon by Rev. A. J. Andrews at the St. E. Church, South will be called shortly in the office of Justice of the Peace J. P. Jones, according to an announcement this morning by Sheriff George Hawkins. The sheriff attended the meeting and heard some things which he considered as reflecting upon the sheriff's department and local peace officers in general.

One remark by Dr. Andrews in particular will be investigated. Dr. Andrews stated that he had been informed that there were two women in this city who had made it their business to procure girls for immoral purposes. Sheriff Hawkins says Dr. Andrews also mentioned reports that bootlegging was prevalent here and asked if the officers were making any effort to apprehend the offenders.

Dr. Andrews also referred to reports of the manner in which the property of the common are such that should be made known to the officers and for that reason he has asked for the court of inquiry.

WOMAN ENDS LIFE WITH POISON SUNDAY

Mrs. Mamie Yost of Munday Drinks Carbolic Acid in Local Rooming House

In a fit of despondency, Mrs. Mamie Yost, 46 of Munday, Texas, drank carbolic acid in her room at the Falls Hotel on Indiana avenue Sunday morning and died in agony Sunday night at the General Hospital. In a note pinned to the dresser scarf the suicide said she was tired of living and requested that her brother-in-law, C. Yost, be notified. Mr. Yost returned home today with the body.

According to T. W. Walker, proprietor of the hotel, Mrs. Yost registered Saturday afternoon and had seemed in good spirits. He said her actions did not indicate that she contemplated taking her life. The tragedy occurred early Sunday morning. Screams of the woman sent other guests hurrying to her room. They found her lying across the bed with an empty vial clutched in her hand. Her mouth and throat was terribly burned by the acid and she suffered greatly throughout the day, dying about 8:30 Sunday night. A physician was called and he sent the victim to the hospital in Hill's ambulance.

Mrs. Yost was a widow. She had no immediate relatives. A note for \$500 and \$24 in cash was found in her pocketbook.

The Lydia Margaret.
"The Three Musketeers" has been dramatized under the name of "D'Artagnan" and Orrin Johnson plays in the lead in the Triangle feature. This picture with "He Did and He Didn't," a Keystone with Fatty and Mabel compose the Monday and Tuesday program at the Lydia Margaret.

The Majestic.
The trial of Mary Page is now going on and in this third picture of the series showing today at the Majestic there are new developments in the drama which is of exceptional interests. Edna Mayo and Henry B. Waltham are stars.

TUESDAY "FOX DAY" AT MAJESTIC THEATRE

"The Witch," with Dorothy Bernard starred, will be the feature at the Majestic Tuesday.

In "The Witch," the latest big William Fox feature picture, Stuart Holmes is cast as Carina, which is a heavy part. In the character Mr. Holmes plays the part of a Mexican general. It is a wide stretch from that of Muzel the artist lover in Dr. Rameau, but Mr. Holmes is equal to the test, and his work has been praised by all who have seen it. For versatility, Mr. Holmes is fast securing for himself a coveted place among screen artists and seems to be making good the reference to him as "the master of the screen" in a recent publication which commented on his work. Besides his work in Dr. Rameau, Mr. Holmes made an unusual hit in "Should a Mother Tell," another big Fox success.

HEALTH CAMPAIGN IN EAST TEXAS COUNTIES

By Associated Press. Austin, Texas, April 17.—A campaign for better health conditions throughout the whole of east Texas where malaria, typhoid and other diseases are frequently epidemic, has been started by three combined agencies, the state health department, the extension department of the University of Texas, and the International Health Commission, the latter a part of the Rockefeller foundation.

Tactics similar to those used in eradicating malaria and other diseases in Havana and Panama will be used in the east Texas health campaign. The work has started in Leon county which has been divided in districts of about 20 square miles each. In the center of each district is a small laboratory, headquarters for a microscopist, a carpenter and a physician.

Blood specimens are taken from each resident in the district, which are given microscopic examinations to show malaria, distentery or hook worm, and in case any of these diseases is found, treatment is prescribed by the physician, and the necessary medicines are furnished by the state.

When the work in each of the three districts is completed, a second county will be taken up until a clean sweep has been made of east Texas.

"FRUITS OF DESIRE"

"Fruits of Desire" sums up, in the life of one big man, his big foes, and big friends, the strife, the hopes, and the aspirations of modern America.

Involved with Mark Trutt's ambition is the ambition of the laborer, of the capitalist, of the progressive, of the humanitarian, of the socialist, of the society woman, and of the woman who lives all for love.

This is a man's drama in its account of a battle royal of led kings. It is a woman's drama in its story of young romance, marriage, divorce, the passions of maturity and the triumph of love.

It is life as we know it, handled in a large way, treated in a notable example. And it is led to a big conclusion when the big man emerges into the glory of Vision.

20 ADDITIONS TO CHURCH SUNDAY

THREE WELL ATTENDED SERVICES ARE HELD AT M. E. CHURCH, SOUTH

MASS MEETING HELD

Public Officers Come in For Some Criticism By Pastor at Afternoon Service

Twenty additions to the church and record breaking crowds characterized all the Sunday services at the M. E. Church, South, which have been in progress for a week.

The duties of Christians as citizens and heads of families formed the theme of a powerful revival sermon preached Sunday afternoon by Dr. Andrews to a mass meeting of men which filled the large auditorium.

Christian men have an enormous responsibility as citizens, Dr. Andrews said, "and in electing men to have charge of the affairs of the city, county and state, men should vote with prayer in their hearts, casting their ballots for the men they feel will best execute the laws for the governing of the people."

At this meeting there were two men, heads of families, converted and the speaker's call for men who desired to uphold the standards of right living and high morals was responded to heartily.

There were 518 present at the Sunday school in the morning and the assembly was addressed by the pastor, the greater part of the morning being given over to this talk.

In this connection Dr. Andrews spoke of the recent exposures in this great State of Texas, where men had violated the sanctity of the ballot and made an impassioned plea for a guard against the franchise of our country.

The text was then applied to the individual. "The man who sows in the field of selfishness and sin," Dr. Andrews said, "will ere long come to the hour of reaping and see the awful folly of his course."

SEASON OPENING AT LAKE FRIDAY
PLEASING PROGRAM BY MUSICIANS CLUB
Sings "Stabat Mater" Sunday Afternoon—Is Enjoyed By Large Crowd
An audience that packed the large auditorium and the Sunday school room of the First Christian Church heard "Stabat Mater Dolorosa" the musical celebration of Palm Sunday which was the musicians club's contribution to the opening of Easter week Sunday afternoon. As the program was in the original Latin of Pergolesi, the composer there were many of the audience who lacked an understanding of the words but to whom the music was for this reason even more impressive.

PLAN PUBLIC DANCE
Several Additions Have Been Made To Zoo—Repairs and Improvements Completed

DRINKING LIMITED BY MISSISSIPPI LAW
Measure Prescribing Amount One Can Buy Among Statutes Passed
Jackson, Miss., April 17.—Unless you get along with one quart of liquor habit are willing to take chances with the law, they must henceforth contrive and 24 pints of beer a fortnight. That is the limit placed upon imports by the new law. This was particularly manifest in the recent session of the State Legislature. The law provides severe penalties for advertising liquor in newspapers, billboards or in any other manner within the State.

PASTOR ANNOUNCES HE'S OUT OF A JOB
Members Take Prompt Steps To Remedy Condition When Oversight Is Noted
"I am out of a job and you are without a preacher."
This statement made Sunday evening at the First Presbyterian Church by Rev. N. F. Grafton was just before he pronounced the benediction gave the members of the church and the congregation something of a shock. Mr. Grafton had announced in advance that an announcement perhaps of a startling nature would be made at the evening service and in this he was correct. Grafton was no exception given with the exception that he had been here for six months, the extent of his call and that as nothing had been said about his remaining he considered himself automatically "out of a job."

RAILROAD MAN GOES TO TEXAS COMPANY
H. E. Bragg, Katy Chief Clerk Will Leave Shortly For Port Arthur
Harry E. Bragg, who for over three years, has been chief clerk in the office of the Katy superintendent here, will leave shortly for Port Arthur, Texas, where he will be in charge of the export shipping department of the Texas company. Mr. Bragg came here in February, 1912, from the Katy general offices in Dallas, having come here from Kansas City in 1912. He had formerly been with the Kansas City Southern Railway, and was for several years located at Port Arthur. Mr. Bragg has many friends here, while they regret to see him leave this city, are congratulating him upon the recognition which has come to him. He expects to assume his new duties April 25.

NITROGLYCERIN IS FOUND BY CHILDREN
Two Bottles Discovered at Ball Park—One of Them Explodes Without Damage
Two half-pint bottles of nitroglycerin, a high explosive, were found recently by some children who were watching workmen demolish the grandstand at the city ball park. The children did not know what the bottle contained, and one of them started to drink the contents.
"I wouldn't drink that. You don't know what it is. Throw it away," cautioned one of the workmen.
The boy threw the bottle down, and a healthy explosion followed, being heard from some distance, but luckily the child threw the bottle far enough away to prevent any one being injured. The second bottle was also examined and found also to contain nitroglycerin. The children thought the mixture was whiskey when it was first found. The second bottle was also exploded, but with more circumspection than the first.
Just what the explosive was doing in the ball park is a matter of wide conjecture. No robberies involving the use of nitroglycerin have been committed in or near this city for many years. The ball park, however, has a popular habit for tramps during wet weather, affording some degree of shelter from the elements and it is possible that some traveling yeggman left the explosive there. The theory that it was taken there by some baseball fan for use upon the umpire is not generally accepted.

MUCH CORN IS BEING SHIPPED FROM BURKBURNETT
(Burkburnett Star)
Long lines of wagons loaded with ear corn, have been coming into Burkburnett for the past several days. Much of this corn is being shipped to points in Grant county and other north or central Texas counties where land is high priced and seasons are supposed to be more suited to corn culture than in this county. Hardly a season passes that Burkburnett and contiguous territory does not ship big lots of grain to those who have it not. H. Beach has bought and shipped four carloads since the first of the week, the shipment destined to Whitewright and nearby points. J. Vanclieve has shipped several cars to Howe, Grayson county. In addition to the corn shipments much wheat has been delivered to local elevators. As a producer of grain in the Burkburnett country takes high rank.

SEVERE PUNISHMENT
Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.
Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell. I tried most every kind of medicine, but none did me any good. I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together. My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it." Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlastingly tired feeling? If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century. Begin taking Cardui to-day. You won't regret it. JAPAN WOULD SEIZE HOLLAND'S COLONY
Outspoken Desire to Own Islands of Java and Sumatra Is Expressed.
By Associated Press.
Amsterdam, Netherlands (By Mail).—An article by the former minister of education in Japan, Yushuro Takekoshi, which is said to have gone the rounds of the Japanese press, has caused a stir in the Netherlands by reason of the fact that the Japanese publicist discloses in a very outspoken manner the advantage that it would be to Japan to occupy the Dutch East Indian islands of Java and Sumatra. In the translated form in which his remarks have reached Holland, he says: "We Japanese must devote our attention to the islands of the Pacific. Our fleet has, in consequence of the war with Germany, taken possession of island groups like the Caroline and Marshall Islands. But these are mere rocks. We can not be proud of our possessions in the Pacific until we have Java and Sumatra."
"The Sunda Strait that separates those islands is a natural fortress. If a great power were to build forts there and were in possession of a number of submarines belonging to a powerful fleet, no other fleet however strong, would be able to pass. If Japan takes possession of these two islands and fortifies and protects the strait with its fleet, then no European fleet will be in a position to force a way into the Asiatic seas. We should therefore submit, occupy these islands in the first place from a strategic standpoint."
The writer argues that it is a danger for Japan to have such weakly-defended countries in its neighborhood as Java and Sumatra unable to maintain their neutrality in case of war.
"If," he adds, "Hollanders can not improve the manner of life of the natives, and are not in a position to maintain peace and order among them, then Java and Sumatra constitute a threat for the neighboring countries, and we are justified in taking possession of them."

Early peace is not expected in Great Britain, London dispatches say that underwriters are offering odds of 7 to 3 against peace by December 31, 1916, and are offering odds of 6 to 4 against peace by June 30, 1917. These British underwriters are calculating beings. They are usually as well informed as it is possible for those outside of the military authorities to be. They are without sentiment in making the odds.

Recently the publicity department of the railroads sent out statements showing that the members of the railway brotherhoods involved in the demand for an eight-hour day and time and a half for overtime, already receive a very high average of wages. Now the brotherhoods have come back with a statement that dividends are being paid on more railroad stock than ever before in the history of the country. They quote figures to show that whereas dividends were paid on only 30 per cent of the railroad stocks in 1897, now 65 per cent of American railways stocks are drawing dividends. The statement of the brotherhoods further says that most of the stocks on which no dividends are paid is owned by the railroads themselves.

For the first time in many months carpenters in Wichita Falls are finding all the work they can do, which fact indicates there is more activity in the building line going on now than for two or three years. Now residences are going up in nearly every portion of the city, and there but few if any desirable houses without tenants. The reports of the banks show the financial condition of the people of this part of the country, and the banks have on deposit more money than ever before. Since the rains the prospects for a bountiful wheat crop has improved wonderfully, and there is little or no talk of the greenback. It is true, however, that several farmers have plowed under their wheat fields and are busy preparing them for other crops, but most wheat looks fine, in some sections of the country the grain is now high enough to hide a jack rabbit and ready to head out. Putting everything together, 1916 promises to be before than an average prosperous for the people of this section, and considering this is a presidential year it is a presidential year it is unusual.

The Home and State, official publication of the Anti-Saloon League in Texas, has sent out a circular to the press calling attention to the precinct conventions on May 6th, which are for the purpose of selecting delegates to a county convention which in turn will select delegates to a county convention which in turn will select delegates to a state convention at which delegates to the National Democratic convention will be selected; also the National committee man from Texas. "There is good reason to believe," says the Home and State, "that the organized liquor traffic, in furtherance of its persistent purpose to dominate Texas politics, will do all in its power to dominate these conventions and to select delegates to Saint Louis of its own choosing." The Home and State circular goes on to say that Col. Jake F. Wolters, who has headed the liquor

organization in Texas, is slated as National Committeeman from this state. The Home and State urges that only delegates who will vote for men, whether prohibitionists or anti-prohibitionists, who are politically independent of the brewers and liquor dealers. The Times believes that it would be a mistake to select as National Committeeman in this state a man who has been prominently identified with the brewery interests. But the National Committeeman from Texas should not be selected solely because of his views on prohibition. Woodrow Wilson will be the candidate of the Democratic party in the coming fight. Sympathy with Woodrow Wilson should be the test in the selection of a National Committeeman. The Times feels certain that the administration has the approval of the great majority of the Democrats of Texas, but it is also certain that there is an element in the party of considerable influence who look with disapproval on Wilson and who will heckle and obstruct the administration at every opportunity. It would be a serious mistake to select as a delegates to the National Convention or to choose as National Committeeman any man who is likely to be influenced by this element within the party. Prohibitionists and anti-prohibitionists who are in sympathy with the administration can afford to let their views on prohibition be a minor consideration in the selection of convention delegates and of a national committeeman, except that it would be a mistake to exalt any man in the connection who has been too prominently identified with brewery interests. Only as a measure of self defense ought the prohibition question to be injected into the precinct or county conventions.

Many of the worst criminals Europe has produced are highly educated and could pass all literacy tests, while many of the honest, hard working peasants coming from that country can not read, yet the latter by their industry and frugality develop into the very best of citizens. The senate immigration committee has recommended for passage the Burnett bill as it came from the house and it contains the literacy test. It will, no doubt, pass the senate and another veto is due.—Austin American.

GOVERNOR FERGUSON'S CONVICT PLAN.

Has Governor Ferguson given us a new idea in the matter of dealing with convicts?
 We are told that he selected from the various prisons and farms thirty short-term convicts and put them to work cleaning camp Mabry and upon the completion of that task full pardons were granted to the convicts. We are likewise told that he is going to put a force of convicts upon Fannin, battleground park under the same conditions.
 The general plan is to test the merit system among friendless convicts—convicts who can not command the respect and authority which is too often invoked in behalf of convicts who deserve severe punishment.
 It seems to the Post that there is something decidedly practical and merciful in the plan. It promises a method, for instance, of getting genuine, wholesome and much needed service performed at a minimum expense, and it gives the chance in life which many convicts ought to have.
 The convict problem is questioned in some different phases. There are laws in some States against the selling of convict-made goods. Free labor or organized labor, we should say—organized labor, we should say—organized labor were granted to the convicts. If the farmers were to take the same stand, our convicts would have to be supported in illness, much to their detriment financially.
 There are in the penitentiary at Huntsville at the present time several hundred good farm wagons, made of Texas raw material, which are unsold because of the difficulty of reaching the market. But under existing sentiment that is organized hundreds of thousands of dollars are sent out of Texas every year to pay for wagons which might be made on a large scale by the convicts who must be supported by the taxpayers.
 But if the fruits of convict labor may not be sold to those who are willing to buy, surely there can be no objection to their doing much public work, with the incentive that possible freedom may impart. We have not only State property that might be placed in good condition and kept so, but if the number of eligibles for pardons were great enough counties and cities might likewise profit by such work under similar conditions.
 The best thing about the Ferguson idea is what its development may do for both the prisoners and the public and if a little legislation can make the

plan more adaptable, let that be worked out, too.
 The Post thinks it safe to say that the State can never make any real profit out of convict labor, as it has been shown in the past, but it may systematize its mercy and by combining it with adequate tasks, reduce the loss to a minimum.—Houston Post.

CATO SELLS.

There is nearly always a tendency when a man has made a good record in one official position to seek to change him to another place, supposed to be higher in the scale of honors and emoluments, but which may be unlike, in duties and opportunities, the place in which fame was gained through understanding and good works. This reflection is caused by the anxiety of various persons to have Hon. Cato Sells promoted from Commissioner of Indian Affairs to cabinet position. In the filling of the vacancy in the Department of War, either Secretary Lane or Secretary Houston should be changed. That Cato Sells might become an excellent Secretary of the Interior or Secretary of Agriculture is admitted. He is able, conscientious, and industrious. As secretary he would have a larger salary and take somewhat higher rank in politics and society. This is not the question. All these years the Indians have waited for a Cato Sells and they need him in a far cry from the border ruffian yell of only thirty years ago, "kill the nits; they make lice." When Indian women and children were slaughtered in the wars that were in most cases atrocities, the pleadings of Cato Sells for the life of the papoose and for humane attention for the Indian mother, Cato Sells stands like Saul among other Commissioners of Indian Affairs—above their heads from his shoulders up. Better that he should be the savior of a race than the holder of an office. His appointment appears to have been an inspiration. In every fiber he is himself the brother of the red man—his responsible keeper. His solicitude is not assumed. In his belief the humblest people in a home to which he is ignorant of a pagan child is being carefully reared and trained as a citizen. As Commissioner of Indian Affairs at this time Cato Sells will have even more hundreds of cabinet members, have been forgotten. His is a noble work. The cabinet position is only, at usual times, an honorable position. Cato Sells in his place is a builder, a creator. Do not take from the Indians the truest brother and the greatest friend they have ever had.—Cedar Rapids (Iowa) Gazette.

SAYS FALSE IDEAS ENTER-TAINED ABOUT SOCIALISM.

Editor Times: I am asking a little space in your paper to disabuse the minds of your readers of the false ideas of Socialism. I find many of our good people entertain. Now in the outset I wish to say that the true Socialist attaches no blame to the oppressor of Socialism who is ignorant of its true meaning and the sincere purposes of the Socialist party.
 I do think, however, that the intelligent element of our citizenship, seeing the inequality now existing between the classes of our race, the crimes committed, the immorality, the sharp destructive competition in all lines of business, the struggle for existence of the toiling, wealth producing class, the consuming fear of poverty of one and the inordinate, ghoulish greed of another part of the race, in a word, the deadly combats and bloody slaughters, robberies, blow-ups, extreme suffering of millions of men, women and helpless children, in consequence of the private ownership of the natural resources and the means of life by the comparatively few, should awake and besite themselves to investigate the proposed remedies and the philosophy developed by brave, liberty, peace loving, profound thinkers and humanitarians.
 All the remedies heretofore proposed and employed have failed and our observation reveals the sickening fact that the conditions of the great masses are growing worse rapidly and continuously. Under our present system of society—capitalism—the necessities of production as well as the great systems of transportation are privately owned by the few and are operated by the many not for the use but for the profit of the owners who by reason of special privileges granted them by their friends in control of the legislative and judicial branches of the government, enforce the protection of their rights to these utilities even at the expense of human life.
 First—Now to the subject: What Socialism is not. It is not "a dividing up system. It does not consist in taking the possessions of the rich and distributing them among the poor and thus give all an even start and leave the system remain as it is.
 Although it harmonizes with the tenor of the Bible, it is not Christianity. It is not a system that "holds individuals toward the rich and poor. It is commonly expressed "Free Love."
 It is not a philosophy that encourages enmity, hatred, bitterness and malice toward the rich and poor.
 Second—What Socialism is. Briefly, it is the collective ownership, free use and democratic management of everything that furnishes the necessities of clothing, shelter and transportation. Its philosophy embraces the natural idea that the public should own the things which it must have in order to live, the land, the air, the sunshine, the water and the tools of production and transportation, that the things that the public must use should not be privately owned. Neither should the things privately used be owned by the public.
 It is a philosophy that embraces in its ethics the natural law of justice to all men, which is profoundly expressed in the so-called golden rule "Whatsoever ye would that men should do to you, do ye even so to them." Now the Socialists conscientiously believe that when Socialism shall have been established as the foundation of Society, which is one of the certainties of time not far away, then will disappear the incentive to crime since it will eliminate want and poverty, and the fear of them; wars, bitterness, hatred and greed will be thrown to the scrap heap of heatism, genuine democracy, liberty, human kindness, and plenty will grow into a long expected and brilliant civilization.
 Legal robbery, exploitation and oppression which now freezes the souls of men will be replaced with human beneficence, cooperation and brotherly kindness. The breast of every man, including the hitherto unrepentable will swell with a sense of high honor and punctuality.
 This ought to inspire and encourage every Christian and honest believer in a magazine. She wears her Easter bonnet in February and her summer costume at Easter.—Detroit Free Press.

IMPORTANT TEST WELL ON RED RIVER

Barbara and Parkington To Drill Northeast of Byers—Location Thought Favorable. Barbara and Parkington have made a location for a 2000 foot test well in the bend of the Red River seven miles north of Byers, Clay county on the Stein lands. The well will be drilled with cable tools by Chas. Murphy of Electra. This locality has been passed on favorably by several geologists and leases in the locality have brought fancy prices. The U. S. geological survey report of Cotton and Jefferson counties, Oklahoma shows evidence of this anticline extending north into Oklahoma and many leases have been taken on the Oklahoma side. The test will be watched with interest.

TWO DEATH SENTENCES IN ARKANSAS COMMUTED

By Associated Press. Mexico City, April 17.—The war office received a dispatch tonight (Sunday) in which further details are given of the Parral affair. It was asserted an American army officer admitted his culpability for entering the town. The dispatch also says American troops have ceased their movement southward until such time as the negotiations between the United States and Mexican government are terminated.

SOUTH CAROLINA PEACH CROP SEVERELY DAMAGED

By Associated Press.
Greenville, S. C., April 17.—Reports received today by Clemson College indicate that about 80 per cent of the peach crop of South Carolina had been ruined by frosts this week.

There Should be a Victrola in Your Home Easter Morning

And there is no good reason why there should not be. The very easy terms on which we sell this wonderful instrument makes it possible for every family to own one. A very little payment down and the balance extended out over a period to meet your requirements, will put this instrument into your home. And through it you will enjoy all of the best music that is produced in the world. The mere fact that the world's greatest artists make records exclusively for the Victrola is the most conclusive endorsement of Victor supremacy. The famous artists know that the Victrola carries to the uttermost corners of the world their voices and art true to the very life, with all the beauty of shading and individuality of expression which characterize their every rendition.

Victrolas Sell at \$15, \$25, \$40, \$50, \$75, \$100, \$150, \$200, \$250 & \$300
