Survivorship law causes confusion about car titles

By CARLTON JOHNSON Staff Writer

A new law that went into effect Sept. 1 is causing a bit of confusion for couples where transfer of automobile titles is concerned.

Aside from the purchase of a home, a car is probably the largest and most expensive purchase people make.

Several local residents have been into the Howard County Tax Assessor/Collector's office

to talk to Kathy Sayles about "survivorship."

The problem is an article many people read in the San Antonio Express-News about the new survivorship law and how it works.

The law is statewide and now the tax assessor collector's office has to follow the new law when it comes to changing vehicle titles.

Sayles said some people have become confused about what steps to take if one spouse dies and that was the name on the

vehicle title.

Usually when one spouses dies, and the other decides to sell, the tax collector's office will ask for testamentary letters or an affidavit of heirship to a motor vehicle.

When the surviving spouse or the "buyer" decides to put transfer a title into his or her name, this is when the survivorship law come into play.

The Sept. 1 law allows a spouse to hold an automobile with rights of survivorship. The new law contends all cer-

tificates must include a right of request. survivorship form, which is available in the tax assessor collector's office.

It simply says when one spouse dies, the surviving spouse automatically owns the vehicle.

However, the new law does require the agreement be signed by both spouses to be valid.

Under the new law, if a spouse dies and a survivorship agreement has been signed, the state is required to issue a new title at the surviving spouse's

Sayles said the new law will not help a surviving spouse if their husband or wife died prior to Sept. 1. Transferring ownership can still be done, but by using the old method which is time consuming and difficult at times

"I don't know how many people are aware of the new law. but both spouse's names being on the title form will help in case something unfortunate does happen in the future,"Sayles said.

She added it costs \$15.50 right now to add a name to a title if there is only one name on the title to begin with. A name change on a title must be done at the tax assessor collector's office.

Sayles said this is a statewide law and survivorship forms are available at her office.

"Survivorship saves the surviving spouse from having to go through a couple of extra steps," Sayles said. "Basically, this is an option to help people avoid major hassles in the future."

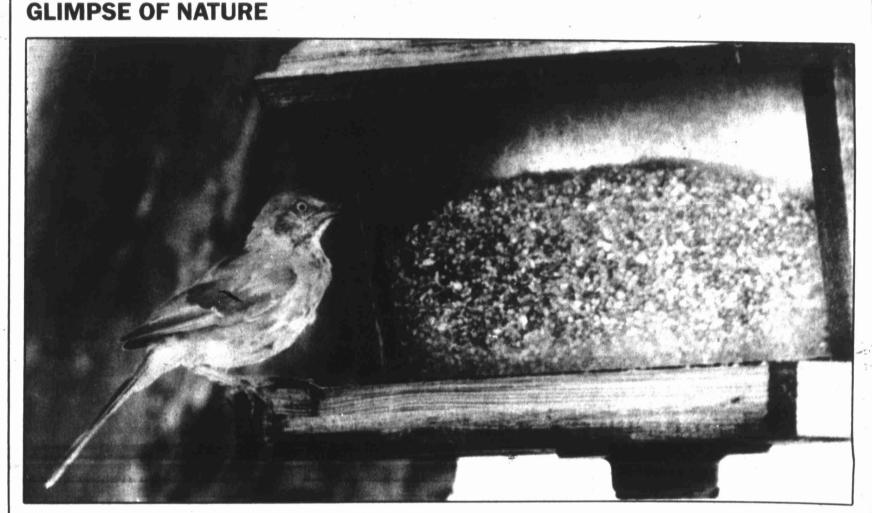

City to finish sealcoating streets

By CARLTON JOHNSON Staff Writer

City crews, with the help of the county, are completing sealcoating of several miles of Big Spring streets.

Inmates from the 80 John Wallace Unit of the Colorado City prison worked with city crews to prepare several streets for the process, including patching potholes, pulling weeds growing through cracks and sweeping streets.

City Manager Gary Fuqua said the city would like to sealcoat all the streets once every

Flu season is just around the corner, and the Texas Department of Health is getting ready to provide flu shot clinics.

Starting Tuesday, anyone at least 12 years old can get a flu shot for \$5 at the health department. The immunization clinic is open Tuesday-Thursday from 8 a.m. to 4 p.m. A pneumonia shot is also available for \$10. Those who have Medicare must bring their cards to show proof of eligibility.

Health officials will be at the

five to seven years.

Assistant City Manager and Streets Director Emma Bogard said the sealcoating project began in the Kentwood area in mid-August.

There was not a number given as to the number of miles the city would attempt to sealcoat, but the program with the county was set to be in place for approximately 60 days.

Howard County's major contribution to the sealcoating efforts has been to allow the city use of its equipment for the while sealcoating city streets.

Bogard said, "We would like to point out this is a city/county operation. Without the county's help, we couldn't do this."

Fuqua previously said without putting a specific number on miles, the city would like to exceed the number of miles sealcoated last year, which was somewhere around 30 miles.

on the project last week, Fuqua said the city has sealcoated well over 20 miles of city streets so far and wants to do more.

"We will go slightly over budget, but would like to sealcoat for a few more days and pay for the overrun with bonds funds," Fuqua said.

Stanton council adopts 1995-96 budget

By MARY MCATEER Staff Writer

STANTON - The Stanton City Council adopted a budget of \$1.200,000, for 1995-96, down \$67.000 from 1994-95's \$1,267,000.

Paying off the computer system and cutting expenses are the reasons City Administrator Danny Fryar cites for the

decrease in the budget.

The city's tax rate for 1995-96, passed at the Sept. 11 meeting, will be \$1.15 per \$100 of valuation, the same rate as last year. In other matters, the council: Appointed City Administrator Danny Fryar and Financial Director Nelda Turner to be responsible for the city's investment funds.

shows fastest & growth

> WASHINGTON (AP) - In the growth game, Nevada holds a pair of aces: the fastest-growing city in the nation and the quickest-growing metropolitan area. During the first half of the

decade, the population of the Las Vegas metropolitan area increased 26.2 percent, from 852,646 to 1,076,267.

Meanwhile, Henderson, Nev., became the fastest grower among cities with over 100,000 residents. Henderson swelled by 57 percent to a population of 101,997.

With those boosts, Nevada 1990 to July 1994, census officials said. Officials attributed Nevada's growth boom to its stable economy and affordable housing. People also are moving to Nevada from other states, many from California, said Edwin Byerly, a statistician-demogracensus pher. "People who would once move to California ... are instead moving to California's neighbors, with Nevada being a prime destination," Byerly said. Deborah Kuzik, marketing director of the Las Vegas Chamber of Commerce, said Nevada's affordable housing market and its expanding economic base, which already depended heavily on gambling, were attracting newcomers. "When most cities were suffering from the recession, the gaming in Las Vegas managed to bring our city through with a lot less of a bump," Kuzik said. Money magazine recently ranked the gambling mecca as the ninth-best place to live in

the country. As it does every two years, the Census Bureau released population estimates Monday for the

towns and other places. Overall metropolitan-area population increased by 9.6 million, or 4.9 percent, and the areas were home to nearly 80 percent Index 4785.47 of U.S. residents. Population growth outside these areas was 2 million, or 3.9 percent.

Only one other metropolitan area with 1 million or more residents made it into the top 25 growth areas — Atlanta ranked 18th. The Atlanta area grew 12.6 percent to more than 3.3 million residents, the Census Bureau said.

All of the fastest-growing metropolitan areas are in the South or West.

The second-fastest growing metropolitan area during the period was Laredo, Texas, with 22.4 percent growth, the bureau said. The McAllen-Edinburg-Mission area of Texas was third at 20.2 percent.

Among the fastest-growing cities with populations greater than 100,000, Palmdale, Calif., was second at 47.2 percent growth. Chandler, Ariz. was third, with a growth rate of 32.7 percent, the bureau said.

Fifty-nine of the 209 U.S. cities with populations greater than 100,000 lost residents between 1990 and 1994.

Medicaid dental program flawed

HOUSTON (AP) — Elisia Jeanise Penn was 3 years old when she was given a combination of four drugs as a dentist prepared to put stainless steel crowns on seven of her teeth. She died at Ben Taub Hospital

the next day, June 28, 1991. An eight-month investigation by the Houston Chronicle shows Elisia's case is an extreme but not unique example of flaws in the \$125 million Medicaid dental program in Texas.

Factors that could lead to similar disasters include a small group of dentists paid millions of tax dollars a year for procedures that may be unnecessary and dangerous; timorous state regulators; and defenseless consumers, many of them young children, who are growing rapidly in number.

The teen was kidnapped Sept. 24, 1994, from her apartment, where she lived with her older sister. She called 911, and her screams were recorded before the phone went dead. Eight days later, her remains were discovered in a woody nature preserve.

Court documents say Hall and his associates repeatedly raped and assaulted Lisa during her captivity, which included confinement in an Arkansas motel room with a hood over her head.

Texas, one of nine states that won federal grants to assist "charter schools," will get \$250,000 annually for three years — the smallest grant given, U.S. Education Department officials said.

Former Plano mayor sentenced to seven years in federal prison

SHERMAN (AP) — Former Plano Mayor Jack Harvard has been sentenced to seven years in federal prison for financial crimes he committed while head of Willow Bend National Bank.

The 48-year-old Harvard, who maintains his innocence and vows to appeal, also was fined \$1 million at a hearing Friday in U.S. District Judge Paul Brown's court.

Harvard was convicted in May of six federal counts related to his conduct as chairman of Willow Bend, which failed in 1990 at a cost to taxpayers of \$25 million.

Harvard is set to begin serving his prison term on June 1,

which will allow time for an April trial in a separate bank fraud charge. He was indicted in August on a separate bank fraud case involving Plano Savings & Loan Association.

Harvard's prison term stemmed from a conviction for conspiring to take payments from a real estate developer and making false entries in Willow Bend's books to cover a fictitious loan to the developer Diana Cheng, the U.S. Attorney's Office said.

hank goodness there is a little bit of sanity left on Capital Hill these days.

After Speaker of the House Newt Gingrich's threat to shut down the government if the GOP budget wasn't signed into law, it could have been said there was no reason left on The Hill.

However, Congress has prepared an emergency spending bill that will keep the government going into the next fiscal year.

And, for a change, both Republicans and Democrats have learned they can agree on something, even if it is something so basic as workers shouldn't suffer because legislatures can't agree to disagree and get on with business.

Opinions expressed on this page are those of the Editorial Board of the Big Spring Herald unless otherwise indicated.

Charles C. Williams **DD** Turner Managing Editor

The budget battle is far from over. The house committee working on the farm bill can't reach a consensus and Gingrich is threatening the GOP members of the committee with punishment for not following the leadership line.

And, there are the battles over defense, law enforcement and social programs which will rage until some kind of solution is found.

We wanted rid of the gridlock. We didn't count on a collision course to destruction.

WORLD **Earthquake devastates Turkish** city, kills at least 43 people

DINAR, Turkey (AP) - The magnitude-6 earthquake that destroyed almost half the structures in this Turkish city reduced Nedret Goceli's fivestory apartment building to rubble.

"There must be at least 40 people buried under this building," he said, surveying the wreckage. "My brother and my cousin are among them."

The death toll stood at 43 today, but the rescuers who worked under heavy rain expected it to rise. More than 200 people were injured in the earthquake, which shook western Turkey at 5:57 p.m. Sunday. "I hear cries of help from

under the rubble," said Zafer Caglar, a reporter for the Anatolia news agency. Almost 45 percent of the build-

ings collapsed in Dinar, a city of 100.000 people, said Halil Cuhaoglu, the public works minister. The quake forged wide cracks in most of the rest. Huseyin Ozturk, 13, didn't know exactly what had happened to him, but the bandages on his head gave testimony to

his ordeal. "When I felt the tremor, I managed to run outside. But too many things started to fall on my head," he said. He remembered no more.

Tents and emergency food aid poured into the region today as the city struggled to cope with the devastation despite damage to the police station, the hospital, government offices and power facilities. President Suleyman Demirel toured the city at dawn.

Attendance and

discipline work together

Editor

As The Parental Involvement Coordinator/Attendance Officer make many home visits on school attendance and also receive numerous phone calls on the changes in student discipline. In many instances good attendance and good discipline go hand in hand.

The last legislative session produced one of the most comprehensive pieces of legislation: Senate Bill 1. Authored by Rep. Paul Sadler and Sen. Bill Ratliff. Senate Bill 1 now represents the new education code of Texas. One area receiving a lot of concern and attention and print is student discipline. As I have read this piece of legislation and have tried to understand in my opinion, here in a brief capsule form is a short list of changes in student discipline for 1995-96:

*Tobacco is now prohibited at all school functions

*In counties with more than 125,000 residents, school districts must continue educating students who are expelled and are in prison, working cooperatively with juvenile justice boards.

"The state no longer requires schools to expel students who bring alcohol, small amounts of drugs or drug paraphernalia to schools. These offenses now will require students to be placed in an alternative education program (AEP).

***Teachers** will have the authority to send disruptive students to the principal's office. Previously, in many schools, the principal decided when a disruptive student could be removed by a teacher.

*A teacher who carefully documents a student's consistent misbehavior in class can have that student permanently removed. The student can be assigned to another classroom, suspended for up to three days, or placed in an alternative school. A "placement review committee" will review student dismissals and will decide whether a student can return to the classroom.

"The principal has a restored authority to suspend for three days with no legal limit to the number of suspensions. School districts are cautioned not to suspend in excess lest it be construed as an expulsion.

*Mandatory expulsion is required by the new code if a student on school property or while attending a school-sponsored or school-related activity on or off school property uses, exhibits, or possesses: 1) a firearm

2) an illegal knife, as defined in Penal Code *46.01 (1)

3) a club as defined by Penal Code *46.01 (1) 4) a weapon listed as a prohib-

ited weapon under Penal Code 46.05, including:

a) explosive weapons

b) a machine gun

c) a short barrel firearm

d) a switchblade knife e) knuckles

f) armor-piercing ammunition g) a chemical dispensing

device h) a zip gun

*Mandatory expulsion is required if the student, on school property or while attending a school-sponsored or school-related activity on or off school property, commits:

1) aggravated assault under Penal Code *22.02

2) sexual assault under Penal Code *22.011 3) aggravated sexual assault

under Penal Code *22.021 4) arson under Penal Code

*28.02 5) murder under Penal Code

*19.03 6) capital murder under Penal

Code *19.03 7) criminal attempt to commit murder or capital murder under Penal Code *15.01

8) indecency with a child under Penal Code *21.11

aggravated kidnapping 9) under Penal Code *20.04

10) the offense of selling, giving or delivering, using or possessing marijuana, a controlled substance as defined by Chapter 481. Health and Safety Code, or by 21 USC 801 et seq., a dangerous drug as defined by Chapter 483, Health and Safety Code, or an alcoholic beverage as defined by *1.04 of the Alcoholic Beverage Code if the conduct is punishable as a felony.

11) a serious offense under the influence of alcohol if the conduct is punishable as a felony.

12) an offense relating to abusable glue, aerosol paint under *485.031 through 485.035, Health and Safety Code, or other volatile chemicals under Chap-ter 484, Health and Safety Code if the conduct is punishable as a felony.

13) any of the above offenses against any employee in retaliation for or as a result of the employee's employment with a school district.

*A student may be expelled if the student:

1) continues to engage in serious or persistent misbehavior that violates the district's code of student conduct after being placed in an alternative education program for disciplinary reasons.

2) engages in criminal mischief under Penal Code *28.03, if the conduct is punishable as a felony.

Finally, the new education code mandates that each district will have a completed Code of Conduct in place by Sept. 1, 1996. These new changes in student discipline will continue to allow school districts to have "safe" schools.

My suggestion is that we all as arents must assume more and better responsibility for our children. We must monitor some of the activities of our children with diligence and make every effort to keep them in regular attendance in school.

Sincerely,

Rudy Gutierrez Snyder

Storm's death toll in **Philippines rises to 45**

MANILA, Philippines (AP) -A huge landslide caused by tropical storm Sybil has left at least 14 people dead in the northern Philippines, raising the storm's death toll to 45, officials said today.

Five others were reported missing and 10 injured in the landslide, which buried the victims' houses Sunday afternoon as the storm lashed the mountain village of Kanakin 150 miles north of Manila.

Elsewhere, police and soldiers using helicopters and boats today began rescuing hundreds of hungry and rain-soaked residents who had stayed overnight

Sunday on rooftops to escape rising flood waters. Sybil, the 10th tropical storm to enter the Philippine area this year, began sweeping across the

country Friday, first hitting Mindanao in the south then blowing northwestward through the central Visayas islands before slamming into Luzon Island with peak winds of 60 mph. It exited into the South China Sea late Sunday.

About 28,000 people have been displaced by landslides, mud flows and floods, officials said.

A tornado believed to be related to the storm caused landslides, killing 18 people Friday.

Disaster officials said the other fatalities included seven people buried in landslides Sunday in two other towns south of Manila and two who were electrocuted. The rest had drowned, they said.

Many areas on Luzon remained without electricity today, and the Manila Electric Company scheduled four-hour power interruptions in the capital, saying some power generating plants have been isolated from the Luzon grid because of fallen transmission lines.

Alumnus gives Johns Hopkins \$55 million

BALTIMORE (AP) - A 1964 graduate of Johns Hopkins University has remembered his alma mater with a \$55 million gift — the largest in university history.

Michael R. Bloomberg, founder and owner of **Bloomberg Financial Markets**, a New York-based financial information company, gave the money to be divided among the university's eight schools and library, Johns Hopkins announced today.

Some of the money will go toward a cancer treatment center and a cancer research building. Part will go toward increasing the school's endowment. The rest will go toward capital projects, such as renovating the library and constructing campus buildings.

"I'm personally improving the world and people's lives with my gift," Bloomberg said. "What better thing could I do? How better can I repay society for all the opportunities I've had?"

Bloomberg, 53, is the chairelect of the university's board of trustees. He previously gave the university \$8 million, which went in part toward constructing the Bloomberg Center for Physics and Astronomy.

ports nationwide planned to step up precautions today against terrorist attacks under orders from the Transportation Department.

Transportation Secretary Federico Pena on Sunday issued the order for the highest airport security since the Persian Gulf War.

"Based on several current and future events, more security measures are now warranted,' Pena said. He didn't cite any specific terrorist threats.

But a department official said the new alert was related to several sensitive events — a group of militant Muslims being found guilty Sunday in a New York

At two Washington area airports, National and Dulles International, the new measures mean cars left curbside at the terminal might be towed and check-in lines might move more slowly, a spokeswoman said.

"We don't expect too many delays really. What people might notice is an increase in surveillance by airport police," Hamilton, said Tara spokeswoman for the two airports.

"And we'll have increased

people to keep an eye on their luggage. This is all in place, but it will be stepped up. Travelers should carry a gov-

ernment-issued identification such as a driver's license or passport, and expect bags to be checked more often than before, a spokeswoman for Chicago's Midway and O'Hare International airports said. 'These measures are not as

stringent as what we saw with the Persian Gulf War, which allowed ticketed passengers only and had no skycap checksaid Lisa Howard, a in," spokeswoman for Chicago's Ayiation Department. Pena asked Federal Aviation

Administrator David Hinson to direct U.S. airport authorities and air carriers to begin implementing higher security rules as outlined in a directive issued by the FAA in early August.

"The decision to increase security is based upon an assessment provided by federal law enforcement and intelligence agencies, combined with an analysis of the current state of affairs," Pena said in a statement.

The stricter security measures could include closing off rooftop parking lots, searching cars, asking for picture identification of suspicious persons, and ending non-passenger access to certain airport areas.

Pena said travelers could help avoid delays by:

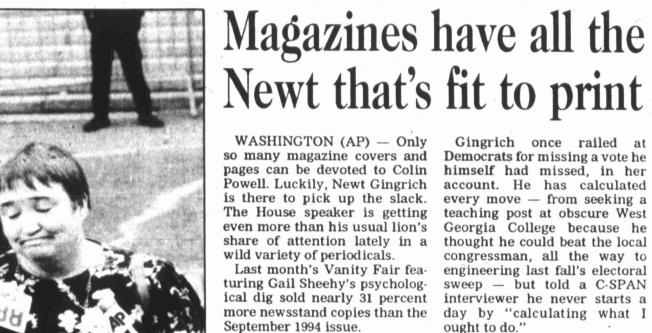

-Clearly labeling luggage and maintaining control of bags.

-Observing parking and unloading restrictions.

-Remaining alert for any suspicious, unattended bags, parcels or other items and reporting them to security.

-Being prepared to show identification and answer questions about baggage.

Strikers, police clash in Detroit newspaper strike

DETROIT (AP) - Peaceful protests deteriorated into violent conflict as union picketers tried to keep trucks from reaching Detroit Newspapers distribution centers.

"Things are definitely getting a little more heated, no question," said deputy police chief Benny Napoleon.

At least two police officers suffered minor injuries early Sunday when they were struck by picket signs, and the union said four protesters were injured. At least 17 people were arrested, most on charges of malicious destruction of property.

The clash between police and guards and picketers followed peaceful protests late Saturday at two printing plants. Last weekend, police dismantled a homemade bomb outside a distribution center.

The worst clash Sunday came as Detroit Newspapers trucks tried to enter the Clayton distribution center. Guards tried to push demonstrators back with their riot shields, and some protesters swung picket signs. At one point, as many as 150 protesters stood outside the center.

Dole indicates he may settle for smaller cut in taxes

WASHINGTON (AP) - Senate Majority Leader Bob Dole, expressing surprise at the opposition of some Republican conservatives, said Sunday he might have to give ground on the GOP plan to cut taxes.

"There's been some indications even from conservative Republicans ... that maybe we shouldn't try to go all the way to \$245 billion," Dole, R-Kan., said on CBS' "Face the Nation." "Will it be \$245 billion? I'm

not certain at this point."

But House Speaker Newt Gingrich, R-Ga., speaking on ABC's "This Week With David Brinkley," noted Dole had voted for the \$245 billion cut.

Outscored 113-17 in their last three meetings and underdogs by two touchdowns this time, Washington's patchwork offensive line blew holes in the Dallas defense and took advantage of an injury to Troy Aikman to pull off a 27-23 upset victory Sunday over the previously unbeaten Cowboys.

"It may not have been the last few games, but it is a great rivalry, and we proved that today," Redskins coach Norv Turner said. "It's personal because we have a lot of young those of Emmitt Smith, rushed players improving and I keep saying this. When you win a game like this, people say, 'Hey, this guy isn't nuts.' We're a good football team.'

The game evoked memories of recent big upsets in the series: Dallas' 13-3 victory in 1989 was its only victory of the season, and the Redskins scored a 35-16 Monday night shocker against the reigning Super Bowl champions two years ago.

Ending a three-game skid, the Redskins (2-3) did a pretty good impression of the Cowboy's at

On first-and-goal from the Dallas 5 with 25 seconds remaining and no timeouts, Allen juggled the pass, then bounced out of the arms of linebacker Dixon Edwards before stretching the ball into the end zone for the score.

Replays showed Allen stepped out of bounds on the play, giving the Redskins a break following controversial calls that went against them in consecutive losses at Denver and Tampa Bay.

"It's about time," Allen said. ie Michael Westbrook had the look of Aikman-to-Michael "We were due for a few calls to Irvin as the Redskins picked on go our way, and finally at home we got some."

"We did a good job from the start, showing them we weren't afraid of them," Patton said. "I was anxious about Charles Haley and he beat me a few times early, but ther. I settled down. I just thought about staying between 94 (Haley) and 12 (Frerotte).'

Allen's 1-yard run in the third quarter that made it 27-10 was the first rushing touchdown against Dallas (4-1) this season. It capped 24 consecutive points by the Redskins.

Aikman grabbed his leg and fell backward after throwing a pass on the Cowboys first possession. He was not hit on the play, but appeared to get his cleats caught in the natural grass

Desmond Howard had the thrill of scoring the first gamewinning touchdown in franchise history, a 15-yard pass from backup Mark Brunell with 1:03 left to play, and Mike Hollis kicked the deciding extra point for a 17-16 victory over the Houston Oilers Sunday.

"Nobody gave up for a minute," Coughlin said. It was just another day at the office."

But it was the Jaguars' first victorious day and it was a moment to savor, especially for offensive coordinator Kevin Gilbride, who held the same

I'm in favor of instant replay because of players like the ones mentioned because it's hard to watch someone play their guts outs and have a bad call negate what's been accomplished.

Believe it or not, bad calls do tend to swing momentum from one team to the other - and don't give me that lip about football players being paid professionals. Everyone knows they're paid professionals or they wouldn't be at the level

Baseball playoff races go down to final day - and then some

Two playoff spots were determined on the final day of the season and a third - the AL West — wound up undecided. Seattle will play California on Monday afternoon in baseball's first one-game playoff since 1980, with Randy Johnson (17-2) to pitch against Mark Langston (15-6)

There were five games with playoff implications Sunday, a scattered and sometimes confusing mix that came about because of an expanded playoff system that was supposed to take effect in 1994 but didn't because of the strike.

Rather than having four playoff teams, as had been the case since 1969, there were eight spots up for grabs. Four of

Central (Cleveland), NL East (Atlanta) and NL Central (Cincinnati) had been decided weeks ago, and a fifth, the NL West, was won Saturday night by the Los Angeles Dodgers.

That left the AL West and the two wild-card spots to be determined Sunday.

The first berth to be clinched was the AL wild card, which went to the New York Yankees when they beat Toronto 6-1 for their 11th victory in the final 12 games.

Next to be clinched was the NL wild card, which would go to either the Houston Astros or Colorado Rockies.

That left one spot to be determined, but Seattle failed to get it by losing 9-3 at Texas. The Mariners entered the day with a one-game lead in the AL West, but the Angels beat Oakland 8-2 later Sunday afternoon to force the one-game playoff.

Prairie View wants scholarships

DALLAS (AP) - Prairie View A&M football coach Hensley Sapenter has begun meeting with alumni to establish a scholarship fund he hopes will help end the school's collegiate-record 51-game losing streak.

Prairie View stopped giving scholarships after a financial scandal sprung from the athletic department and the left the entire school in debt. All sports but track and field were canceled in 1990, then football returned in 1991 without scholarships.

Forced to play with players not wanted by other schools, Prairie View has not won since Oct. 28, 1989. The Panthers were slammed 64-0 by Grambling State on Saturday night, breaking the NCAA futility mark previously held by Macalester, a Division III school from Minnesota.

Blue Jays and enabled captain Don Mattingly to lose the distinction of having played more games in his career (1,785) than any other active major leaguer without having reached the postseason.

"A player who plays as hungry as he has, day in and day out for 14 seasons, finally getting the opportunity to experience postseason play, I'll definitely cheer for him," Toronto's Paul Molitor said.

Mattingly and Randy Velarde had solo homers and Sterling Hitchcock (11-10) combined with four relievers on a sevenhitter.

David Cone will be New York's starter Tuesday night against Seattle or California.

Rangers 9, Mariners 3

At Arlington, Texas, the Mariners blew their second chance in as many days to clinch the West.

Mickey Tettleton hit a threerun homer in the first inning, Mike Pagliarulo and Benji Gil had run-scoring hits in the fourth and Juan Gonzalez had a two-run double in the fifth as

The victory went to Kenny Rogers (17-7), who started on three days' rest and allowed three runs on five hits and two walks in six innings.

Angels 8, Athletics 2

At Anaheim, Calif., Chuck Finley (15-12) delivered his second 'must-win' victory of the week. The left-hander, who shut out Seattle on Wednesday night to reduce the Angels deficit to two games, allowed four hits in 7 1-3 innings and struck out nine.

Jim Edmonds had four hits, drove in three runs and scored three times as the Angels won their fifth straight.

California led the division by 13 games on Aug. 5, but then lost 24 of 30 to drop out of first place. A victory Monday would make that collapse moot.

NATIONAL LEAGUE Rockies 10, Giants 9

At Denver, the Rockies came back from a six-run deficit with four runs in the third and four more in the ffth to take a 10-8 lead. San Francisco got a run in the seventh to cut its deficit to 10-9, but the Giants put only

two innings.

'We knew we weren't out of it. This is extra special for me, especially because of the strike last year. With Montreal (last year), we were six games up and had to spend the winter on the golf course instead of celebrating. This is my first one, and I love it," Larry Walker said.

Colorado will meet the Atlanta Braves in the first round of divisional play Tuesday night at Coors Field.

Astros 8, Cubs 7

At Chicago, the Astros also rallied from a six-run deficit, x-Cincinnat but their victory went for Houston naught when Colorado's win St. Louis gave the Rockies the wild card.

"Turn it off! Turn it off!" was the shout heard in the Astros' locker room when Colorado started celebrating its playoff berth. Had Colorado lost, the Astros would have flown to Denver for a one-game playoff.

Replay

they are at now. Instant replay should not be used to replace officials or the human element of the game. nor should bad calls hinder a player from doing his very best.

On the other hand, most people seem to prefer the human element all the way around.

Some would say NFL officials are human and will make mistakes from time to time, but overall they do an above-average job.

The places where instant replay is needed most are on judgment calls like keeping the feet in bounds on a reception, breaking the plane of the goal line, or pass interference and probably a few other rules I can't think of right now.

The point is instant replay does have a place in the NFL, but it can't be allowed to take over the game.

Oilers

Continued from page 6

Chandler eventually completed 27 of 47 passes for 225 yards, but it wasn't enough to overcome Jacksonville's final big break with 2:27 left in the game. Rodney Thomas, making his first start at running back, fumbled and Darren Carrington recovered at the Houston 45.

Brunell, who replaced starter Steve Beuerlein with 12:56 left in the game, engineered the winning drive,

"We caught them in a blitz and it happened all so quick, it was like a blur," Howard said. "This is a great victory. This is what we've been waiting for. We never quit and that's the attitude the coaches have been working on."

The Oilers, who scored 13 points off Jacksonville miscues, had one more chance, but Del Greco's 52-yard field goal attempt was wide left as time expired.

"It's embarrassing," Oilers quarterback Chris Chandler said. "Every bad break that could happen went our way and we just gave it to them. About the second quarter, we came around. Just looking at them, they got some decent players but we really should have won, even as bad as we played."

On a day when two undefeated teams lost and three starting quarterbacks were knocked out, the expansion Jacksonville Jaguars hit the Houston Oilers with the hardest blow of all.

Though the Oilers were the worst team in the NFL last season, they will forever be known as the first team to lose to the Jaguars.

Desmond Howard caught a 15yard touchdown pass from backup Mark Brunell with 1:03 to play and Mike Hollis added the winning extra point to give Jacksonville a 17-16 victory over the Houston Oilers on Sunday.

Things were pretty much the same for the Miami Dolphins, who are the league's only undefeated team at 4-0. Dan Marino threw for 450 yards - the fourth-highest total of his career - and Don Shula extended his record as the NFL's winningest coach with his 342nd victory, this time against his son David and the Cincinnati Bengals 26-23.

The St. Louis Rams' first three turnovers of the season led to their first loss. Marshall Faulk rushed for 177 yards in Indianapolis as the Colts won 21-18.

94

Trent Dilfer of Tampa Bay and Jim Everett of New Orleans were also sideTined with injuries. Dilfer didn't come back, but his Buccaneers did and beat Carolina 20-13. Everett returned to action, but it wasn't enough as the Saints lost to Philadelphia 15-10.

In other NFL games, Pittsburgh defeated San Diego 31-16, San Francisco beat the New York Giants 20-6, Atlanta beat New England 30-17, Kansas City defeated Arizona 24-3. Seattle downed Denver 27-10 and Oakland beat the New York Jets 47-10.

Tonight, Buffalo plays at Cleveland.

Faulk's 177 rushing yards at Indianapolis matched his total for the first three games this season and topped his previous career high of 143 against Houston in his first NFL game. He also had 45 yards on five receptions, and his 222 total yards are the fourth-highest in Colts (2-2) history.

The Rams (4-1), whose four victories to start the season were as many as they had last year in Los Angeles, lost the ball on two interceptions and a

fumble.

Buccaneers 20, Panthers 13 At Clemson, S.C., Casey Weldon took over after Dilfer left the game late in the second quarter with a mild concussion, and spoiled the first start of Carolina (0-4) rookie quarterback Kerry Collins.

Weldon, getting the first extensive action of his fouryear career, completed 8 of 20 passes for 150 yards. He also scored the deciding touchdown for the Buccaneers (3-2) on a 1yard sneak on the first play of the fourth quarter.

Collins, the Panthers' first draft choice, completed 18 of 32 passes for 233 yards. He had one scoring pass and was intercepted once.

Eagles 15, Saints 10

In his first start in place of Randall Cunningham, Rodney Peete directed the Eagles (2-3) to five field goals by Gary Anderson. Anderson hit field goals of 20, 43, 36, 37 and 42 yards.

The host Saints (0-5) are off to their worst start since 1980, when they started 0-14 and finished 1-15.

Dolphins 26, Bengals 23 touchdown pass to O.J. McDuffie with 1:03 left to put the visiting Dolphins ahead. but they had to watch as Doug Pelfrey's 45-yard field-goal attempt for Cincinnati (2-3) missed in the closing seconds. Marino completed 35 of 48

passes for two touchdowns.

Steelers 31, Chargers 16

In a rematch of last season's AFC championship game, Pittsburgh (3-2) bolted to a 25point first-half on the strength of interception returns for touchdowns by Willie Williams and Alvoid Mays. Stan Humphries threw a career-high four interceptions as the visiting Chargers (3-2) couldn't Chiefs 24, Cardinals 3 repeat their success of last January.

49ers 20, Giants 6

San Francisco didn't steamroll New York (1-4) on the scoreboard, but the 49ers pounded the visiting Giants on the field.

coming off a four-touchdown, 149-yard performance last week, was held to 27 yards on 11 car- visiting Chiefs (4-1) a 7-0 lead.

ries before breaking his right Marino threw a 16-yard hand as the 49ers (4-1) rebounded from last week's upset loss to Detroit.

Steve Young led four scoring drives, going 26-for-40 for 202 yards and one TD with no interceptions.

Falcons 30, Patriots 17

Morten Andersen kicked two of his five field goals in the final 9:42 as host Atlanta (4-1) beat the Drew Bledsoe-less Patriots (1-3).

New England got its first touchdown pass of the season by backup Scott Zolak. Zolak also engineered the first touchdown drives for the Patriots since the season opener.

After a fake handoff to Marcus Allen fooled the Arizona (1-4) defense, Kansas City quarterback Steve Bono took off on the longest scoring run by a quarterback in NFL history, a 76-yard sprint.

While Allen was being wrestled down, the slow-footed Bono New York's Rodney Hampton, circled to his right and ran, in apparent disbelief, untouched along the sideline to give the

Mother rearing kids writes fantasy thank-you letter

a

DEAR ABBY: I have never nursing and counseling, the written to you, but the letter from the father who expected to be thanked for sending his child support checks overwhelmed me. In return, I'd like to ask him, "When have you thanked the mother of your children for all she's done?" Perhaps he could have said:

"Thank you for being responsible for my children 24 hours a day, 365

from dishonesty, and for teaching them to respect others.

"Thank you for sacrificing lunches out for a month so that 33 field trip with his class. (Did I tell you I bought a brand-new set of wheels?)

"Thank you for making sure they go to the doctor when they're sick, the dentist for their teeth, and the church for their souls. I was always away 374 on a business trip, or off on vacation.

"Thank you for sitting by his side day and night when my son was in the hospital, when my daughter had nightmares, when their hearts were broken 119 because I made promises I never kept.

"Thank you for soothing their pain when I forgot birthdays, when my Christmas gifts arrived late, when I missed their graduations, and all the other times I let them down.

be

"Thank you for being their mother and father, for the shopping, the cooking, the bill paying, the lawn mowing, the laughter, the tears and the worry you've borne in my stead.

"Thank you for my children. I look at them with awe and pride that such fine young people bear my name - but your heart."

Compared to the monumental task of raising a child, how significant is writing a check? When my first husband thanks me for all of the above, I'll thank him for spending five Ι had more minutes a month and the cost important of a stamp to provide child supthings to port. You may use my name. --BARBARA McWILLIAMS "Thank SOMERVILL for

DEAR BARBARA: It will please you to know that I was pelted with criticism for my response to that letter. The common thread in the mail I received was that fathers who send their child support checks without fail are fulfilling their legal obligations - nothing more.

Sending a support check is not an option; it is a legal my son could take an expensive requirement that, if not carried out, is in violation of the law.

PUBLIC NOTICE

PUBLIC HEARING NOTIOCE DEPARTMENT OF VETERANS AFFAIRS ENHANCED USE LEASE FOR THE VA MEDICAL CENTER, BIG SPRING, TEXAS

The Department of Veterans Affairs (VA), in accor dance with Public Law 38 U.S.C. Sec. 8161 et seq hereby provides notice of a Public Hearing. The Public Hearing is a forum to present VA's proposal for a pubic/private venture initiative for a parking lot to be con structed by the Government Employees Federal Credit Union. The venture's objective is to provide more convenient accessible parking for both the VA Medical Center and the GEFCU. The joint public/pri vate venture between the VA Medical Center and GEFCU includes the construction of a parking lot on VA property by GEFCU for the use of GEFCU in change for existing parking presently owned by GEFCU that is readily accessible to the VA. This venure will enhance the VA property and reduce costs associated with maintaining this excess land while ding more appropriate, safe parking and access for GEFCU members.

DATE AND TIME OF HEARING October 5, 1995 7:00 pm PLACE OF PUBLIC HEARING **Big Spring VA Medical Center** Building #1 Room 212 700 Veterans Blvd

Big Spring, Texas

IDENTIFICATION OF PROPERTY TO BE LEASED: The proposed 1/4 acre (more or less) to be leased om the Big Spring VA Medical Center will be located on the Southeast guadrant of the campus between the Gregg St. Entrance and the Government Employees Federal Credit Union

DESCRIPTION OF PROPERTY TO BE LEASED: The VA Medical Center has approximately 31 acres of property of which the majority of this land is buffer space for its main patient building, building #1 Under the Enhanced-Use concept, the Department of Veterans Affairs (VA) will lease this site to the GEFCU for a period of up to 30 years at no monetary cost. In consideration for the lease, the developer will build, and maintain a parking lot and allow the VA sole use of its parking area directly behind the Credit Union Building. This parking lot will be built in accordance with VA specifications and criteria and at the end of the lease term, title to all improvements on the leased operty will revert to the VA

DESCRIPTION OF THE PROPOSED LEASE VA proposes to lease approximately 1/4 acre to the GEFCU for a parking lot to be built on the site. The lease term will consist of time of construction plus a period no greater than 30 years from the date of award at no cost. The improvement of VA property will reduce operating costs associated with maintaining

this property over the life of the agreement. In exchange for the land lease, the GEFCU will con-struct, operate, and maintain the new parking lot at his/her expense, in lieu of paying fair market value rent to VA for the lease of the sile, the developer will exchange existing GEFCU parking for the sole use of VA employees. The new parking lot will be open to members of the GEFCU and existing Credit Union parking will be used by the VA. The existing parking owned by GEFCU is readily accessible for use by administrative employees of the VA located in a build-ing adjacent to this parking area.

The public is invited to submit issues and concerns which have bearing on the program, prior to the hear ing, in writing to: Mr. Cary Brown
