Courage and persistence have a magical talisman before which difficulties and obstacles vanish into thin air.
—John Quincy Adams

Vol. 27—Number 50

FRIONA, TEXAS, THURSDAY, JULY 17, 1952

5c PER COPY

Column Left . . .

The Office of Price Stabilization finally has sent us a press release (the latest in scores mailed us) that we are happy to print. The first paragraph reads:

"Orders to close the Lubbock district office of the OPS were received today, H. R. Gholsin, district director announced."

This was brought about by the move to reduce the agency personnel and otherwise curtail its operations to conform to the funds allocated by Congress.

Under this program about 700 persons are to be released in the national office and about 5,450 in the field.

We surely like the bright new STOP signs strategically placed at the busier intersections in Friona. Correctly observed, they should help the situation here a lot.

It's surprising the height which one may attain by just staying on the level.

And somewhere along the line we picked up this one:

Captain, shouting down to the crew's quarters: "Is there a mackintosh down there big enough to keep two young ladies warm?"

Voice from the hold: "No but their's a McPherson who's willing to try."

Our friend, Marshall Formby, was in Friona this week on business and also doing a little political talking for his friends. . . He says that Governor Shivers has a strong rural road program lined up and that certainly West Texas farmers and ranchers will get more paved rural roads during the next few years if they re-elect Governor Shivers on July 26. . . Formby served in the Texas Senate with Governor Shivers. He pointed out that during the past two years, under the administration of Governor Shivers, more than 7,000 miles of paved rural roads have been constructed. This is record for a two-year administration.

Speaking of Farm to Market roads, every reader of the Star is vitally interested in this program. . . We all want more paved rural roads. . . In studying the record of Judge Harold LaFont of Plainview, who is a candidate for State Senate of this new 30th District. We find that Judge LaFont has always been a staunch friend of the Farmer and Rancher and has always fought for MORE paved rural roads. . . We just thought we would pass this information on to you.

Building Materials To Be Auctioned at High School Saturday

Surplus used material at the Friona School grounds will be sold at public auction this Saturday afternoon at 2:30, the school board has announced.

Much of the dimension lumber, scraps, brick, etc. is in good or excellent shape, and the public is invited to inspect this material before auction time if they wish.

The material was in some instances reclaimed from the burned-out high school building, and in other cases is form lumber, etc. used in the construction work.

Program, Picnic Held by Brown Swiss Breeders

The first Canton No. 1 Texas Brown Swiss Association picnic, slated to be an annual affair, was held yesterday at the Martin Fulcher Martina Farm near Black.

About 65 breeders, guests and families from a wide area were in attendance. Areas represented included Dickens, Texas, McAllister, New Mexico, Muleshoe, Amarillo and points in Nebraska and Kansas.

Commencing at 11 a. m., the program included short talks, a huge dinner served under the trees at the Fulcher home, type classification of animals, judging and schooling in preparation of animals for show.

Marvin L. Kruse, western fieldman representing the national Brown Swiss Association office at Beloit, Wisconsin, supervised the program, a sound truck furnished by the Southwestern Public Service Company was placed at his disposal.

Garland "Cotton John" Smith of Amarillo gave a short talk.

Several 4-H and FFA boys participated in the program.

Local association officers, all of whom were present, include Robert Kerschen of Hereford, president Floyd Standifer of Plainview, vice-president and Pauline Mahon of Toler, New Mexico, secretary.

Former Friona Teacher Named College Prexy

Dr. Rex F. Johnston, former Friona teacher, has been newly elected as president of San Angelo Junior College, word was received here this week.

Dr. Johnston received his doctorate in education at Stanford University in California. He served as a Lt. j.g. in the Intelligence Division of the U. S. Navy during World War II. He was overseas eighteen months.

Dr. Johnston is leaving his post at Texas State College for Women to assume his duties as president of the San Angelo College July 20. At TSCW he has been head of the Business Administration Division and of the Teacher Placement Bureau. He addressed a May meeting of the Panhandle School Administrators in Canyon.

Mrs. Johnston is the former Estella Welch of Friona. The Johnstons have one son, Mark.

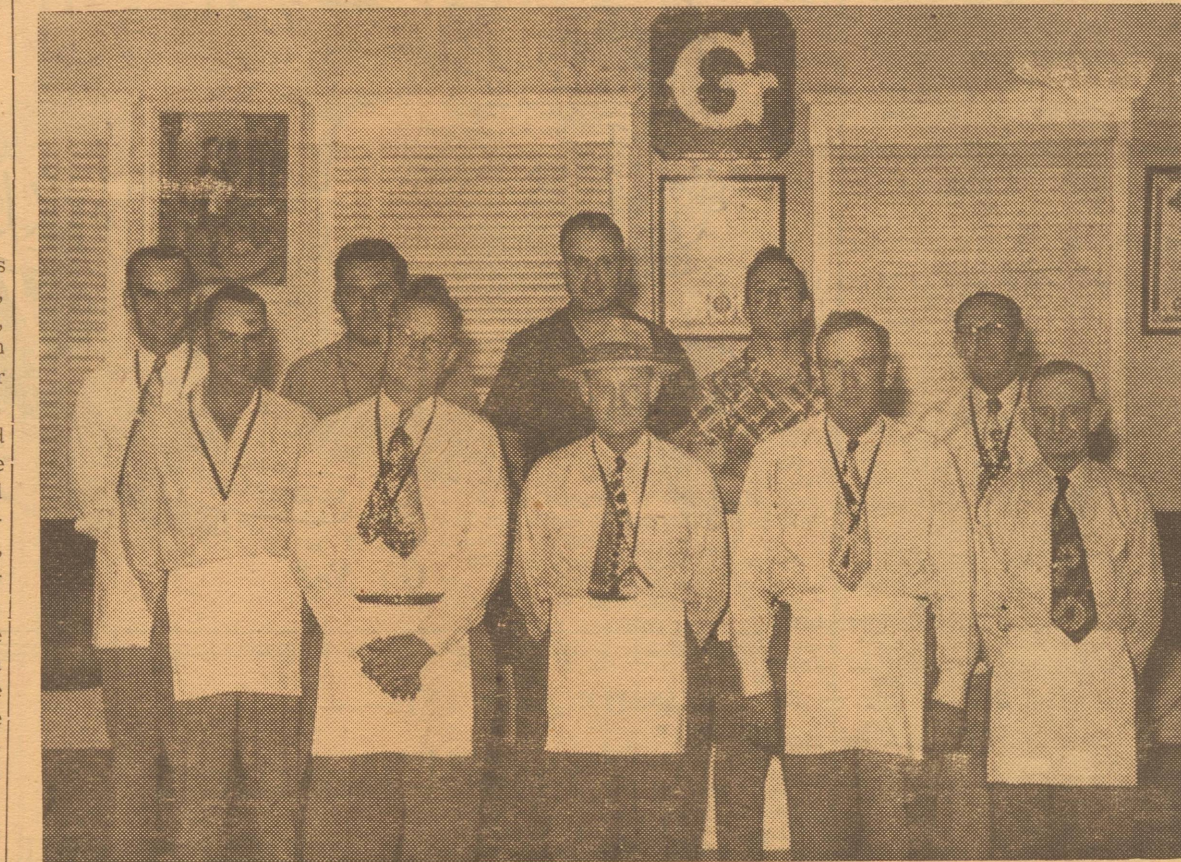

Series of Showers Benefits All Areas Of County; 1 to 5 Inches Are Recorded

Spotted rains have fallen over the county this week with practically every section receiving a good fall from one or more of the showers.

Friona received 1.55 inches total up to last night, 1.35 of this falling Monday afternoon, and .20 netted Tuesday night. Wednesday nights rain measured .90 bringing the grand total to 2.45.

Heavier rains have been recorded in scattered sections, however, with the Monday fall being heaviest just to the southwest and west of Friona, with 3 to 5 inches hard fall flooding the fields. Traffic was hampered for nearly two hours on the Friona draw south of the tracks here as the little flood roared past. The C. W. Dixon farm received near 5 inches.

Northern sections of the county which had received no moisture since April benefitted from the Tuesday night showers, with Porter Southall reporting over

NEWLY INSTALLED OFFICERS of the Friona Masonic Lodge 1332 line up here for picture-taking at their recent installation ceremonies. Reading left to right, back row: Dillie Kelley, secretary; Artis Fallwell, treasurer; Wesley Foster, chaplain; Leonard Coffey, tiler; and Cayce Dunn, senior deacon. Bottom row left to right, Claude Miller, junior deacon; Hadley Reeve, senior warden; Elroy Wilson, worshipful master; M. L. Sylvester, junior warden; and C. S. Bainum, senior deacon.

EDITORIAL COMMENTS—

Star Rates Candidates for Coming Primary Election

Throughout the pages of this issue we are carrying both paid advertisements and news releases and pictures of the candidates for whom we will vote Saturday week, July 26th.

In instances where we have pictures or any factual date on any of the candidates, we are printing this, but it in no manner indicates that those whose pictures we run are those we endorse; the publication is simply to better inform the voters in order that they may make their own choices. More pictures will follow next week.

There are some candidates whom we think deserves full support and we are printing here some supporting reasons for our own vote in their behalf.

We are not attempting to impose our beliefs on anyone nor do we wish to be dictatorial in any

statements regarding the candidates. Rather we hope to bring out some points for your consideration as a voter and as a citizen who will be affected by actions of the candidates you choose; the choice is yours, and yours alone, in this democratic government.

No doubt Allan Shivers will carry the panhandle, and certainly Parmer county, in what we predict as his successful race for re-election to the governorship. To us, he is deserving of more than a mere majority vote here, and we hope to see a large percentage of local votes accorded him as a vote of confidence and as a gesture of appreciation of his interest and work in behalf of roads, cutting of government expenditures, and unquestionable stand against the Truman brand of socialistic government control.

We know little regarding the two candidates for lieutenant governor, but we have talked with men who have had close contacts and association in Austin and they lean toward Ben Ramsey who has the inside track for the position.

Price Daniel will be our choice for United States Senator; few would question his capabilities and fighting spirit in maintaining for Texas that which is due this state, the tidelands in particular. Mr. Beckworth has been carrying on an extensive stumping campaign throughout the state and he has many friends and supporters, this area not excepted. He has done a good job in other positions; personally we hardly believe him as sound or as capable as Price Daniel.

Three good men are running for Commissioner of Agriculture. Lots of material has been directed to us on each, and it all sounds rather good. But we will support the incumbent, John C. White, even though his record has not been especially spectacular. Loyal democrats must remember that it was this

young man who succeeded in unseating J. E. McDonald who hardly adhered to the party lines many democrats preferred. With no outstanding accounts against White, we believe him entitled to another term. But Bill Beard or Walter McKay would be good men also—it's just up to the voters.

Bascom Giles should pull far in the lead for the Land Commissioner post—his name almost is synonymous with that position in most Texas minds already with his long tenure in that position. And little criticism has been noted of his administration.

We have been unable to find out much about the candidates for judge of the court of criminal appeals. Kenneth Woodley and Jesse Owens are seeking the job, and Owens will probably carry this area inasmuch as the average voter knows little more than we do about this race and will probably vote for the resident of the plains; Owens lives in Wilbarger County.

Olin Culberson is widely supported for return to his position with the railroad position; he has one opponent, Joe Laird of Brazos County.

Seven candidates are asking for the nomination as Congressman-at-large. Three of these will be all receiving much note in this area or probably throughout the state: Martin Dies, Herb Pety, Jr., and John Lee Smith.

Dies needs little introduction, being the first of the congressional expositors of communistic inroads and evils. Then Herb Pety from Dimmitt County has a wide acquaintance and considerable following among the civic clubs of the state, being immediate past president of Lions International. Former Lieutenant-Governor John Lee Smith of Lubbock and lately of Throckmorton will carry much of the local area because of simply being a native West Texan.

John Ben Shepperd will have

Annual 4-H Club Trip and Camp Begins July 28th; Destination Red River

Parmer County 4-H Club workers this week are readying themselves for the camp approaching on July 28-29-30, when the group will spend two nights camping near Red River in New Mexico.

Letters have been mailed to all members, but County Agent Joe Jones emphasizes that should any member have failed to receive the letter, he still is invited, and the error came merely

Robert Lacey Will Be Ordained Sunday

Robert Lacey is to be ordained into the gospel ministry Sunday afternoon, July 20th, by the local Baptist Church.

Rev. Lacey was born and reared in Friona, and he graduated from the Friona High School in 1946. Upon his graduation here, Lacey entered Hardin-Simmons University at Abilene where he was a member of the graduating class of 1950. At present he is a student in the Southwestern Seminary at Fort Worth and he will receive his B. D. degree in the spring graduation of '53. He is pastor of the Pleasant Valley Baptist Church at Cleary, Texas.

The ordination will be conducted by pastors of neighboring Baptist churches. Rev. Russell Pogue, pastor of the local church, will lead the questioning of the candidate. Rev. George Ray of Dimmitt will preach the ordination sermon, and other pastors will have appropriate parts in the ceremony. Music will be furnished by the local church.

Baptist Youth Attend Plains Baptist Assembly

Thirty Junior and Intermediate boys from the local Baptist Church attended the Plains Baptist Assembly near Floydada last week. There they joined more than 1600 boys registered from over the plains area.

Counselors for the Friona group included Mr. and Mrs. J. Sanders, Mrs. Roy Clements and Rev. and Mrs. Russell Pogue.

Twenty one local girls left Monday for a similar camp, and more intermediate girls left to spend the rest of the week.

Rev. Pogue was camp pastor during the boys camp. Other speakers on the program included a missionary to the Indians of Oklahoma, Mrs. Aaron Hancock who herself is an Indian.

Ginners Take 11-1 Game from Happy

The Friona Ginners climbed back into the winning bracket this week, taking control from Happy in a 11-1 landslide.

Renner pitched a 3-hit game, striking out 19 batters, walking one, hitting one, with a total of 32 men facing him.

Plans are still indefinite regarding a game this Sunday, but there is possibility of a game with Lazbuddie on the local diamond.

The all-star game will be played at Tulia this Thursday, with local players being Floyd, J. Clements, J. Renner, and S. Cook.

in the agent failing to have the proper name or address on file.

The group will leave Farwell at 8 o'clock on the morning of Monday, July 28th, making the trip in Joe Scott Menefee's truck and pickups. Six or eight adult leaders from over the entire county will accompany the group.

Expenses for the trip are estimated as only about \$6 per club member, and the boys are asked to send this amount to the county agent immediately if they plan to make the trip.

Equipment suggested for the trip includes a good warm bed roll, cot if desired, utensils for eating and drinking, towel, toilet articles, a tarp if desired, and a good lunch for dinner on the first day on the road. Some sifting equipment would be alright, too, Jones noted, as well as any musical instruments.

FFA Delegation Attending State Meeting at Dallas

Five Lone Star Farmers from the Friona Future Farmers of America chapter left this week with their advisor, J. T. Gee, to attend the 24th state FFA convention being held in Dallas.

Frank Reed, president of the local chapter, is voting delegate for his group. Attending are Reed, son of Mrs. F. L. Reed; Max Wells, son of Mr. and Mrs. H. C. Wells, Ralph Raymond Reed, son of Mr. and Mrs. G. E. Reed; Darrell Robbins, son of Mr. and Mrs. Miles Robbins; and Ross Miller, son of Mr. and Mrs. Roy Miller.

Highlights of the three day convention will be the awarding of Lone Star Farmer degree to 579 Texas boys who have outstanding farming records with their supervised farm practice programs, and have other outstanding qualities. Their detailed applications and records have been approved by district, area, and state committees.

The Idalou FFA Chapter is the only Area group producing more Lone Star Farmers than the Friona Chapter. Texas has 800 FFA chapters with a total of 35,000 Future Farmers.

Funds Solicited For County Fair

Directors of the Parmer County Fair and Dairy Association have commenced the financial drive for support of the fair, recently set for September 11-12-13.

Raymond Euler, secretary-treasurer, reports that some contributions already are coming in.

Financial structure of the Fair is being changed somewhat this year; the catalog has been dispensed with and individual contributions will be counted on to meet the estimated \$1500 expense otherwise incurred staging the show.

A larger livestock show has been assured for this year, as the kiddies will be benefited by new rides that will be provided during fair week.

Floyd Schlenker is president of the county fair association, and other officers include Clyde Hayes, vice-president; Joe Jones, general superintendent; J. T. Gee, assistant superintendent; Raymond Euler, secretary-treasurer; and directors Eugene Bog-gess, Martin Fulcher, A. L. Hart-zog and Walter Kaltwasser.

Pointers on Lawn Care Furnished by Agronomy Department of Texas A & M

A neat, well kept lawn will add to the value of a home, and lawns properly managed will provide a cool, restful cover for the homesite even during summer months. J. R. Watson, Jr., of the agronomy department at Texas A&M College, says that by recognizing the basic conditions necessary for lawn care the home lawn enthusiast may have a lawn that will provide pleasant relaxation and prevent soil from blowing and washing.

A grass should be selected that is suitable for the particular locality. Some of the grasses best suited to Texas are Bermuda, St. Augustine, and Buffalo grass. Others not so popular are Centipede and various strains of Zoysia grass. Bermuda grass is probably the most popular and the best suited for all around purposes. However, St. Augustine grass is the best for shaded areas. Watson points out that the grass selected should be adapted to your locality and one that suits you.

Lawns should be fertilized in the spring and fall with a complete fertilizer, such as 10-5-5, 5-10-5, or 8-8-8. During the summer it is not necessary to add a complete fertilizer, but nitrogen should be added every 30-40 days, for grasses are heavy nitrogen feeders. Ammonium nitrate or ammonium sulfate may be added at the rate of three pounds of ammonium nitrate and five pounds of ammonium sulfate per 1000 square feet of lawn. (Reminder: length times width of your lawn area equals the square footage.)

Controlled watering is one of the most important considerations in the care and management of lawns, Watson says. The prevailing tendency is to over-water rather than under-water. Excessive water, as well as too frequent applications, cause the plants to develop shallow root systems.

Water should be applied to mature turf only when the plants begin to wilt. At this time, the lawn should be soaked to a depth of four to six inches. When the water starts running off the

RALPH YARBOROUGH

Yarborough, candidate for governor, has directed his attack directly against Governor Shivers, accusing him of hobnobbing with gambling interests and depriving Texas counties of considerable road funds.

The Star has no material on hand setting forth Yarborough's complete program, inasmuch as most of his releases are in criticism of present administration.

A majority of votes means more than half, while a plurality is more votes than any other candidate received, but less than half the total.

surface, it should be cut off. If the soil is not soaked to the required depth, wait until the moisture has percolated downward and apply additional water.

Lawn turf should be mowed about 1 to 1 1/2 inches. Watson points out that only about 1/4 should be removed at any clipping. Serious injury to the plant may result if a greater amount of leaf surface is removed at one time. A sharp, properly adjusted lawn mower is essential if the lawn is to be kept neat and trim.

NATIONAL PRESS BUILDING WASHINGTON, D. C.

By Anne Goode

Summertime is pie time, delicious fresh fruit pie time. And here's how to make one of those tasty deep dish pies with the least effort for the mostest flavor: Make a crumb crust by blending 1 c. flour with 1/2 c. vitaminized margarine, 1/2 c. sugar, 1 tsp. grated lemon rind. Sprinkle over sliced apples, peaches or apricots and bake in a moderate oven till fruit is tender.

Take care when refrigerating poultry, fish and unsmoked meat. Remove store wrappings and re-wrap with waxed paper, loosely, so that meat can get air which it must have. Use within a few days.

Are your feet conditioned for the fragile strap sandals with the peek-a-boo look? If not, massage them with cream and manicure the nails; there's nothing pretty, you know about rough heels and ragged nails peeping from open-toed shoes.

Lingerie lace should not be rubbed when washing. If soiled, use a soft complexion brush and lots of suds. Squeeze out water, don't wring. When lingerie becomes faded or yellow, extend its lifetime by tinting a soft pastel color with all-purpose dye.

A fresh, clean vegetable brush is excellent for skimming jelly and other foods. Rinse carefully between "skimmings."

A. R. STOUT

Candidate for Associate Justice of the Supreme Court of Texas, Place 1, A. R. Stout is Judge of the 40th District Court at Waxahachie. He is endorsed by all newspapers (8) of his home Ellis County.

A graduate of the University of Texas law school in 1923, law has been his entire career, serving as city attorney of Ennis county judge of Ellis County, member of the legislature, assistant attorney general and now in 15th year as District Judge of Ellis County. Asks for office wholly on basis of qualifications; 52 years old.

Novel Exhibit Will Tell World About Panhandle at 1952 State Fair of Texas

How the Panhandle produces wheat for the United States and the world will be shown in the Panhandle's chapter of the all-new 'Story Book of Texas Agriculture' at the 1952 State Fair of Texas in Dallas, Oct. 4 through 19.

The Panhandle is included in the Texas A&M College System Extension District 1, which covers the following counties: Armstrong, Hansford, Hartley, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman and Wheeler.

A miniature combine in the Panhandle Story Book diorama will thresh real wheat all during the fair and dump it into small trucks in a manner designed to show the proportion of wheat that goes from Panhandle fields to U. S. and foreign consumer.

A small ramp across the front of the miniature 'wheat field' will feature Master Mix, a wonder dough developed by extension workers and its variations for cakes, breads, and biscuits.

Vegetables will bank the sides of the 'field,' and triangular panels at each side will reveal color photographs of Panhandle scenes.

The story book will be one of the 1952 fair's most spectacular exhibits. It will include colorful, animated dioramas devoted to each of the 12 extension districts, plus displays telling of the work of Four-H clubbers and Negro Extension workers. Many of the 'show window' type displays will include live animals, growing plants, sound effects and

FOR ATHLETE'S FOOT A KERATOLYTIC IS A MUST

What is a keratolytic? An agent that deadens the infected skin. It then peels off, exposing more germs to its killing action. Get T-4-L, a keratolytic, at any drug store. If not pleased IN ONE HOUR, your 40c back. Today at City Drug Store.

areas of the state. The map is portrayed in phosphorescence that will glow dramatically when pinpointed by hidden spotlights. Bluebonnets, wheat, rice, sorghum and cotton will represent West Texas, and roses and pine trees will lend an East Texas flavor.

hovers above the central exhibit in a miniature helicopter. At intervals, 'Tommy' will briefly tell the interesting story of Texas' two billion dollar agricultural empire.

WALTER McKAY

Walter McKay, of Fredericksburg, candidate for Texas Commissioner of Agriculture, has expressed his firm opposition to the Brannan plan 'as advocated by Washington bureaucrats.'

'I resigned my position with the Texas Department of Agriculture in 1950, after the election of the present Commissioner, because I could not carry out his Truman-Brannan Fair Deal policies,' McKay concluded.

McKay served 22 years in all levels of the department of agriculture. He is 47 years of age and the father of four children. He was born in Guadalupe County and was educated in the public schools of Luling and San Antonio and at Baylor University.

The candidate pointed out that he is a native-born Texan, who was raised on a farm in Caldwell County. He is at present a stock farmer and businessman in Fredericksburg.

State Government

Let's Send This Man To Austin As An Able and Hard-Working

State Representative

90th District of Texas

Jesse M. Osborn is Our Kind of Man-- His Presence and Activities in Austin Will Assure Representation of this Area's Real Needs and Wishes

This Message Published and paid For By a Group of Parmer County Believers in Sound, Honest Government

Jesse M. Osborn

Quoting from the formal announcement published at the time this businessman-farmer entered the race for State Representative:

"If the people see fit to elect me to this office, I will do my best to represent these five counties honestly, to their best interests, and to the welfare of the State of Texas.

If I could not go to Austin without obligation to any persons, I would not go at all.

Like many of you, I feel we must have some changes in our government, especially in regards to wild spending.

If the people of the district want me to try this job, I am willing to do the best and only way I know, the way I have always tried to live and conduct my own business.

Boys' Ranch Representatives Visiting Hollywood; Talent to be Broadcast

California, here they come, straight from America's First Boys' Ranch located 40 miles NW of Amarillo, Texas. Boys' Ranch will be well represented in Hollywood this month when four talented boys from the Ranch arrive to make a number of network recordings and appearances on several radio and television shows there.

The lucky boys are David Ash, 13, of Amarillo, Texas, comedian and singer; Bud Hiller, 15, of Cruthersville, Mo., the star of the show who plays the guitar and sings western ballads; pianist Eddie Stevens, 14, of McCamey, Texas; and Bill Price, 17, of Kansas City, Kansas, the Master of Ceremonies for the program. The boys are making the trip with Mr. Henry Schulte, Ranch Vice-President and General Manager.

They will make several stops to present entertainment between here and California. The itinerary includes a visit to Carlsbad, N. M., El Paso, Texas, Juarez, Mexico, Tucson, Ariz. and Los Angeles, Calif., where programs will be given in each town. They boys will be guests on radio programs and present entertainment for meetings of various clubs.

Thirteen 15-minute transcriptions will be made with the C. P. McGregor Record Company and on each transcription, a movie Star will make a guest appearance with the boys. Bud Hiller

is also scheduled to cut several recordings with Columbia Records. The boys will, of course, be taken on a tour of the movie studios and be given a chance to see some of the screen stars in action.

The four Boys' Ranchers have a great deal of experience in the entertainment field, and hundreds of people in this area have enjoyed the programs and shows they have done. They have been given the chance to perform in Hollywood because they have outstanding abilities and show great promise in the future.

Candidate for Lieutenant Governor, Ben Ramsey is well known in Texas politics, being associated with various departments of state administration for a number of years. He has one opponent in the present contest.

Printing Industry Is Open Field For Youth

Young men in various communities are to be told how to get high paying jobs in the printing industry through a plan adopted at the annual meeting of Southwest School of Printing.

Under the plan adopted, high school graduates are to be invited to a meeting in their own town at which advantages of the printing trade will be explained. Those who display an interest in entering the business will then be called into a conference with the director of the school who will give further details.

Newspaper advertising, personal letters, and printed literature are to be used to stimulate in-

terest in the meetings. Several publishers volunteered to take the lead in organizing the conferences. The plan is to be tested first in Fort Worth where carrier boys of the Star-Telegram will be invited to a meeting.

The school, which owned by publishers and commercial printing firms, is attempting to build up its enrollment which has decreased since termination of the GI benefits.

The Law Can Be In Simple Language

Any document signed by a Parmer county citizen may someday have to be interpreted by the Court of Civil Appeals at Amarillo. In over 41 years the court has existed, it has decided over six thousand civil cases. It is to the interest of the people of Parmer county that qualified men of the people sit on that high court. Judge Joe S. Moss of Garza county believes that legal papers and proceedings should be in the language of the people, rather than in legal fine print. Judge Moss will help simplify and speed up the machinery of the law. Ask the people who know him. Vote for Moss. A Civil Judge for a Civil Court. (Pol. Adv. Paid by Joe S. Moss)

Ladies present were Mrs. Helmky, Mrs. Marvin Massey, Mrs. Oscar Baxter, Mrs. Preach Collier and Mrs. Keith Blackburn.

Candidate Wants School Land Leases Sold at Auction

Methods now used in selling oil and gas leases on state school lands are robbing Texas children of millions of dollars, Guy Patterson, 46-year-old Eastland oil man, declared this week in announcing his candidacy for State Land Commissioner in the Democratic primaries. Patterson pledged himself to change the system of "sealed and secretive" bidding now used to one of "open and competitive" selling at public auction from the State capitol steps. The Texas-born Patterson—he was born near Lot, Falls County, and came to Eastland in 1924—said he would have plenty to say about present policies of administering State-owned lands and State-sponsored Veterans benefits.

Why I Voted Against The Adjournment

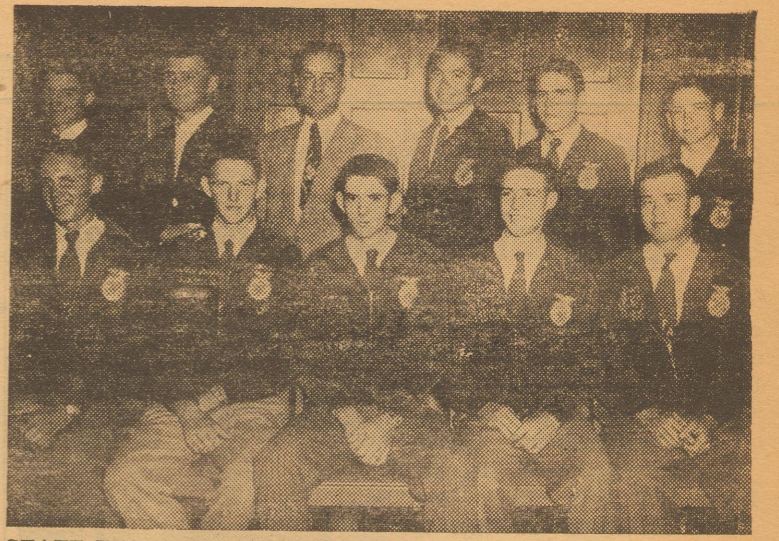

When Congress adjourned, the adjournment was sine die. This is a Latin phrase the literal translation of which is "without day." In other words, insofar as the Congress is concerned the adjournment is final and conclusive. Whether or not Congress reconvenes this year is a decision that is in the power of one man—the President of the United States. Had the Congress recessed, it could have set a day for return or could have been called back by the leaders of the House and the Senate. Had there been no important mat-

ters for consideration, the recess could have been continued. I voted against the sine die resolution along with a small handful of members, mostly from the South. I did this for a number of reasons, but the three most important are as follows:

(1) In view of the present world situation, I do not believe that the decision to reconvene or not reconvene the Congress should be left in the hands of one man. Past experience has proven that a one-man snap judgment decision is sometimes prompted by emotion rather than reason. I do not believe that this power should be in the hands of one man during these troublesome times;

(2) We are at war regardless of what name is applied to the Korean conflict. The smoldering fires of hate that now engulf the world could easily flare into flames and require fast and immediate action by the Congress. Even a temporary delay in reconvention of Congress could be very costly to the United States;

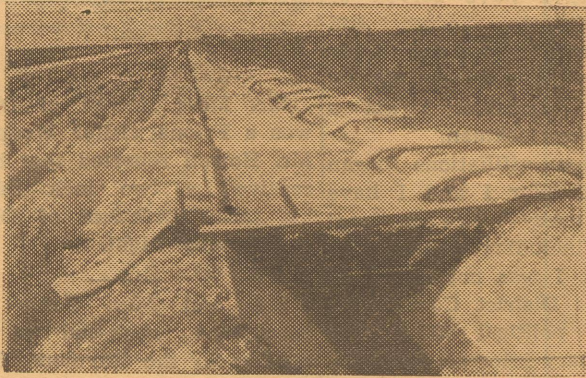

(3) There are many legislative matters that died for want of action. Many of these should be acted upon this year, especially the several proposals to cut income taxes so that the small income people could get some relief. I had hoped that we could get some action on the bill that I introduced to bring about this result. It would have helped the small income families especially. Several members introduced similar bills, and if we had the time to get one of these bills to the floor, I am confident we could pass it. Another most important piece of legislation is the Tidelands bill that the President vetoed. Unless the Congress is called back, this bill will die in the Senate. Therefore the adjournment, sine die left the present state of the Tidelands bill in the hands of the man who vetoed it. If the Congress had recessed, rather than adjourned, we would have had a good chance for the Senate to override the veto this year. The

STATE FFA OFFICER CANDIDATES—The 1952-53 Texas Future Farmer president will be chosen from one of the candidates pictured above at the 24th annual state convention in the Baker Hotel in Dallas, July 16-18.

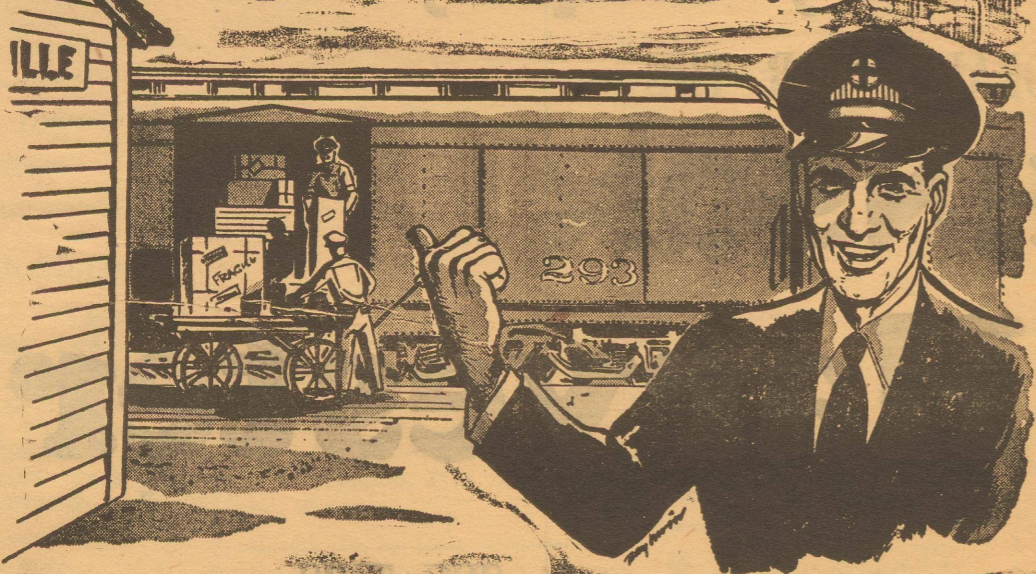

last report is that the proponents of the bill only lacked two votes having enough to override the veto in the Senate. It can easily be overridden in the House. If the President fails to call the Congress back it will mean that the battle for the tidelands must begin anew in 1953. It is a definite certainty that the battle will begin and will not be relaxed until these lands are returned to the states. We shall never give up.

Rev. Meyer Gives Detailed Report of Congregational Church Council Meet

Reverend George E. Meyer has recently reported on the 11th biennial meeting of the General Council of the Congregational Church. This is the national assembly of Congregational Churches gathering. It was held in Claremont, Calif. Rev. Meyer attended, in addition to the sessions of the General Council, meetings of The Presbytery Mission which had as its Missioner Dr. S. Whale, eminent English Congregational preacher, educator and author; also the national meeting of The American Board of Commissioners for Foreign Missions; the Council for Social Action; the Board of Home Missions; the National Council of Congregational Churches one session of the National Fellowship of Congregational Christian Women; a session of the National Laymen's Fellowship; and as a member of The National Seminar for the study and advancement of Evangelism, its several sessions. In this latter he represented the Central South Conference.

JOHN C. WHITE

White, incumbent commissioner of agriculture is asking for his second term to that office. With apparently satisfactory work while in office, he must be credited with being the candidate who last term ended the long tenure of J. E. McDonald, long a thorn in the flesh for many Democrats.

largest in the history of the denomination, 3500 or so be precise. International speakers included in addition to Dr. John S. Whale, Hon. Kiyoshi Togasaki of Tokyo, Japan who is the editor of the Nippon Times; and the Rev. Sidney M. Berry of England who is International Minister and Secretary. Denominational outstanding speakers included Dr. Vere E. Loper, the moderator of the Council; Dr. Douglas Horton, Minister of the General Council; Mrs. Victoria Booth Demarest who is a granddaughter of General Booth the founder of the Salvation Army; The Rev. Truman B. Douglass Executive Vice-President of the Board of Home Missions; Dr. Ronald Bridges of New York City director of broadcasting and film commission of the National Council of Churches; Hon. Paul G. Hoffman of the Ford Foundation and Mr. Hugh Beaumont, of Hollywood. Mr. Beaumont surprised his audience by stating and quoting substantial sources that church membership and church attendance of the Hollywood movie folks was 12 per

cent higher than the national figures and that the divorce percentage lower than for the rest of America. Mr. Beaumont played a leading role in Second Chance, a widely heralded and well known picture. He pleaded for better pictures and better television programs and told how to get them.

The special feature of the music of the General Council was the 48 voice Chorus Choir of the Kawcuihao Church of Honolulu, Hawaii which was flown to the mainland for the purpose. The singers brought thousands of orchids which were used as a floral background of the altar and gave more to the women of the council meetings.

Mr. Meyer reported the outstanding services as being: The Service of Memorial and Holy Communion with 2800 partici-

pating and being served by 72 laymen as deacons; the celebrating of the hundredth anniversary of The Church Building Society which took the form of a dream; the action of the drama being the acting out of the minutes of the original meeting by men and women impersonating those who organized the society and costumed as were those of the original group. The presentation and dedication of The Woman's Gift was cited as another outstanding service. It was presented under the leadership of Margaret Palmer Fisk and Helen Lorbeer Gray and assisted by the rhythmic choir of the Oneonta Congregational Church of South Pasadena, Cal. The choir of 16 young ladies properly costumed, under lights that were in constant change of color and volume presented at

exquisite picture and impressive service. Presidents from 26 of the scores of Congregational Colleges featured College Night, one of the presidents being from the school at Paio Maui, T. H.

ROY SELMAN

Roy Selman of Crockett, Texas is candidate for congressman-at-large, citing his past experience and American Legion affiliation in his appeal for consideration. States Mr. Selman:

Kerens, in Navarro County, was my birthplace 53 years ago, and I grew up at Midland, Midland County, where I entered World War I and served with the Fifth Marines at the Battle of Soisson. Serious war injuries forced me to seek a more suitable climate so I moved to East Texas, settling near Crockett. I received my education from North

Texas State Teachers College, Denton; University of Berkeley, Berkeley, Calif., and Tyler Commercial College, Tyler, where I received my business administration training. For the past eight years, I have served as Houston County Judge; and prior to that four years as Houston County Democratic Chairman. By occupation, I am a small farmer-stockman.

My Legion affiliations began after World War I and I have served in every office on local post level including district vice commander. I was not permitted to serve as District Commander because of political office. One of my primary interests has been that of Legion activities and if elected, I plan to care for the welfare of my buddies. I am the originator of the Veterans Land Bill and with the help of

my friend, Bascom Giles, this became a state law.

Pvt. A. D. Edens, son of Mr. and Mrs. Tonie Edens, has been stationed at Fort Leonard Wood, Mo. He is in the heavy tanks artillery division.

Mr. Moss Howell of Dimmitt was a Friona visitor Wednesday. Mr. Howell reported that he had received a two inch rain on his farm northwest of Dimmitt on Monday night.

Mr. and Mrs. Tonie Edens spent the week-end in Tullia visiting in the Raymond Starnes home.

Mr. and Mrs. Glenn Williams and Dale spent Sunday in Lubbock visiting with her brother.

Agriculture

Released by
The Texas Department of Agriculture

FUTURE FARMERS OF TEXAS Fifty years ago, a prospective young farmer either followed in the footsteps of his father on

the 'home place' or he hired out on a farm to learn his trade. His schooling probably was extremely basic and he had practically no formal training in agricultural methods.

But the picture has changed. And a nation-wide organization, the Future Farmers of America, is partially responsible.

The rising generation of young farmers has a background of more farming 'know-how' than ever before and through the experience gained in such an energetic group as Future Farmers, he reaps the benefits of the 'know-why' of soil practices.

The worth of any program can be partially determined by its record of growth. In the case of FFA, this record is excellent. Starting out with a few isolated youth groups interested in agriculture in the middle 1920's, the program has consolidated and spread over the entire United States and into the territories. In Texas alone, the 34th state to join, there are more than 35,000 young people engaged in this program to prepare themselves for a productive life in agriculture.

Texas membership in Future Farmer chapters accounts for about one-tenth of all the other states' combined. Investments of Texas youths in chapter work total more than 13 million dollars. They have over \$3 million

invested in beef cattle and \$4 million in swine and dairy cattle. FFA members are handling poultry projects valued at approximately \$700,000 and turkey projects at more than \$200,000. They are caring for sheep and goats valued at more than \$500,000.

Last year, young Texas farmers planted 14,000 acres of corn and 25,000 acres of cotton. Other projects included raising horses, rabbits, wheat, oats, forage, fruit, potatoes, melons, vegetables and peanuts. Their largest crop was 48,000 acres in forage and their biggest money maker was the fruit crop which was valued at nearly \$2 million.

This record appears to be clear-cut evidence of outstanding work that can be accomplished through youth training programs. And what is more important, it is devoted to training in Texas' largest industry—agriculture.

Os Lange and Henry Lewis entered the golf tournament in Hereford Sunday with the team

from Littlefield. They won their match against the Hereford team.

Editorial Comments—

Continued from Page One
 little trouble, we predict, in edging out his one opponent in seeking the attorney general position. Shepperd, an astute politician, has gained wide friendship and acquaintance through visits to every section of the state (spending some time in Friona and Farwell on a recent visit here) and through his late capacity as leader in the Junior Chamber of Commerce movement of the state.

Four men are seeking the post of Place 1 on the supreme court. A. R. Stout of Ellis County is the only "up-state" candidate, but we understand from good references that Spurgeon Bell of Harris County is the capable aspirant to the job and possibly the best qualified; he will have our support.

Place 2 on the court finds two candidates; Graham Smedley seems to have a deserved inside track here.

Getting down closer to home, we find four men in the race for Associate Justice, Court of Civil

Appeals, 7th Supreme Judicial District (Amarillo). These are Ernest O. Northcutt, Harry Bunnenberg, Joe Moss, and Hal Houston. Attorneys of the area have thrown their majority support behind Joe S. Moss of Post; we have personally checked in his area and found that he is quite well thought of there also. Bunnenberg of Vernon also is considered quite capable. We will support Moss, but the voters have a choice of two or three good men here.

If we were prudent publishers, we likely would skip mention of the races still closer home—state senator and state representative, but we are going out on a limb and express our attitudes on both these races—because we think principals involved warrant a stand.

Harold LaFont of Plainview is being opposed by A. J. (Andy) Rogers of Childress for the senator post in the newly created 30th district. Both are quite well known here with Rogers making an extensive house-to-house and meeting-to-meeting kind of a campaign, and with LaFont hav-

JESSE M. OSBORN

Osborn, candidate for the office of State Representative, 96th district, needs no introduction in his district, being well known while serving as banker, farmer, businessman in Muleshoe, Friona and other localities.

Mr. Osborn is asking that this position be filled by a BUSINESSMAN, one without an axe to grind except in the interest of sound businesslike practices in government.

ing paid this area visits for years and coming through each time he was called upon for any kind of assistance. We have nothing against Andy Rogers—he has worked hard to secure the nomination, probably travelling more miles and losing more sleep than many state-wide candidates, but we will cast our personal vote for Mr. LaFont.

Harold LaFont has carried on a dignified campaign, and he is running on his record—a good one. He has asked no special considerations for being a veteran or for being a well-known attorney. We do think that you could ask anyone closely associated with Mr. LaFont or with the state capitol politics and you would find he is one of the more brilliant law-makers at the Austin level. His platform is sound and we have no reason to doubt his ability and desires to fulfill his promises.

With important water, tax, school, economy, road programs all coming up for attention in the next legislative session, we think it wise to stand behind a seasoned and honorable representative of our wises—Harold LaFont filling the bill in our estimation.

Jesse M. Osborn and Karl L. Lovelady, both of Muleshoe, have announced for the state representative position. Osborn, as is well-known here, is a sound businessman and he entered the race, only after continued insistence from his friends in every county of the district. These supporters have pushed his candidacy in the interest of a business administration with a businessman at the wheel.

Karl Lovelady has worked diligently in soliciting votes and will pull a larger amount than some believe, we predict. However, we hope that Parmer County will support the man we KNOW, the hometown man whose record we have seen, Mr. Osborn.

We invite our readers to read the sketches about each candidate scattered throughout this issue, with special attention directed to the paid ads where friends of the candidates have had faith enough in their choice to come out and tell WHY they believe this man best—and paying good money to tell their friends about it.

HAROLD M. LaFON

Harold M. LaFont of Hale County is asking for consideration as state senator, 30th district.

Probably one of the best-known regional candidates in

Parmer County, Mr. LaFont has rendered numerous services locally and has visited here at frequent intervals even prior to announcement of his present candidacy.

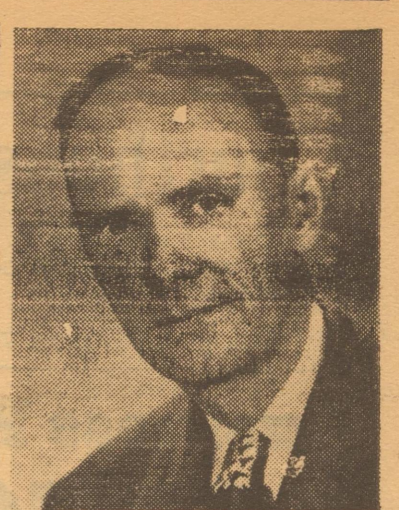

Detailed record and platform of this candidate is carried in the advertising columns of this issue.

LaFont emphasizes economy in government, a tax on natural gas, a clean race, locally controlled water programs, etc. He has worked for, and voted for, the Veteran's Land Program.

The frequency of sound is governed by the number of vibrations per second.

On the moon a person would weigh about one-sixth their weight on earth.

Paregoric is camphorated tincture of opium.

WALTER ROGERS

Walter Rogers has no opponent in the Democratic Primary in his seeking the office of Congressman, 18th congressional district. Rogers has kept in close contact with his district while in Washington—both by visits and excessive correspondence; his weekly columns appearing in the Star have been informative and evidently well read.

FRIONA, TEXAS, THURSDAY, JULY 17, 1952

Note To Vacationers:—

Texas Offers Variety of Vacation Spots

There really is no place like home for West Texas vacationers.

Within the eighteen State Parks of West Texas one may find things to do and see that match attractions of those far-away places you've thought about visitin.

For a long or short week-end or the whole vacation period, accommodations and attractions of many types are available in these parks the State has provided.

There are more than 22,000 acres in the 18 parks, ranging from small tracts to the 15,000 acres in Palo Duro State Park east of Canyon.

For variety, consider these attractions:

Palo Duro Canyon, one of the greatest natural phenomena on the North American continent. The great canyon, extending across three large counties, drops so suddenly from the level prairie to depths of more than 1,500 feet that it is accessible only by Indian trails and a road constructed at great expense from the rim. Most distinctive are what cowboys caled "the Spanish Skirts," great vividly colored, rainbow-like formations that cover the side cliffs of the whole canyon. Brick-red, rose, violet, gold, pink and white spread out in vast lengths. Each band represents several centuries of time.

In Palo Duro Canyon State Park, horses are available at the park entrance for exploration of the many scenic areas. The entrance is 12 miles east of Canyon on Texas Highway 217, in the upper Panhandle. There are cabins and refreshments at Coro-

nado Lodge at the Canyon rim and more primitive cow camp cabins in the canyon.

Thirty-Sixth Division State Park at Lake Brownwood is equipped with rock cabins, cafe and dining room, and has excellent fishing, boating and swimming facilities. The club house and dance terrace are swept by cool breezes off the lake. The cabins have excellent cooking facilities. There are also large lodges to accommodate as many as 50 persons. This park is reached on Texas highway 279. It is 24 miles northwest of Brownwood.

Here are brief pictures of West Texas' other state parks:

The third largest known cavern is in Longhorn Cavern State Park, 11 miles southwest of Burnet.

The world's largest walled swimming pool is in Balmorhea State Park, at the awe-inspiring entrance to the Davis Mountains on U. S. highway 290. The swimming pool is fed daily by 26,000,000 gallons of clear, cool water from San Solomon Springs. Buildings are of Spanish architecture with Aztec furniture. There is a concession building with bath house, terrace for dancing, a dining room and 18 cabins in the 50-acre area of immense scenic grandeur.

Far to the east is Meridian State Park, on Highway 22, three miles south of Meridian. The fishing lake, fed from Bee Creek is praised by anglers from all parts of the state. In the 469-acre recreation area there are overnight cabins, a swimming pool, good playground equipment,

a dancing terrace and other attractions.

Way back again into western West Texas is Davis Mountains State Park—at mile-high altitude. Indian Lodge is a remarkable place in which modern conveniences have been housed in an adobe structure reminiscent of the cave dwellers. It is constructed at different levels so that most of the 16 rooms and apartments have different views of the mountain range. The 1541 acre park and its lodge are five miles west of historic Fort Davis, on the same scenic drive that leads to McDonald Observatory.

Possum Kingdom State Park, on hte huge lake in Young, Palo Pinto and Stephens' counties, is one of the southwest's most popular fishing resorts. The Park occupies such a large and divergent part of the lake boundaries that it is operated in east and west sections. Cabins, fishing, camping and picnicing facilities are maintained at both, and many commercial craft make available trips to Hells Gate and other scenic spots along the lake.

Abilene State Park, near historic Buffalo Gap, 20 miles southwest of Abilene: picnic areas in a grove of 4,000 native pecan trees, club house, dance terrace, playgrounds, cooking pits, riding academy and swimming pool.

Acton State Park, near Granbury, Hood county: site of the grave of Elizabeth Crockett, wife of the famed Davy Crockett, and of several of his sons and daughters. An Italian marble monument marks the burying ground.

Big Spring State Park, on U. S. Highways 87 and 80 at the south limits of the city of Big Spring: a high mesa at the top of the 2,800-foot Scenic mountain, from which one of the most remarkable views in the Southwest is afforded; picnic areas, pavilion and dance terrace.

Blanco State Park at the edge of the town of Blanco where U. S. Highway 281 crosses the swift running Blanca river: two dams form lakes that are popular with fishermen; camping, picnicing, playgrounds, exhibition and rodeo areas.

Cleburne State Park 471 acres of valley land and rolling hills in a timbered area 12 miles south of Cleburn on Texas Highway 174: numerous well-shaded picnic areas; fishing for bream, carp and crappie in a 116-acre lake, concession and boathouse building, outdoor terrace, swimming, camping, playground areas, overnight accommodations in a group camp.

Fort Griffin State Park, on U. S. Highway 283 ten miles north of Albany: 503 acres where a small herd of typical Longhorn cattle graze; picnicing and camping areas, fishing in the Brazos river; picturesque ruins of the frontier military post for which the park is named.

Inks Lake State Park, ten miles west of Burnet on Texas Highway 29: on the control dam of the Lower Colorado River Authority, in one of the greatest fishing spots of the Highland Lakes area, on the east shore of Inks Lake below Buchanan

Governor

Allan Shivers

deserves a

Rousing Vote

in Parmer County

for a

Job Well Done

Let's show by a landslide vote that we appreciate the many considerations and favors that have been accorded us by Governor Shivers.

Allan Shivers has understood the problems of the area, and time after time he has shown his interest by promotion of roads, rural electricity etc.—all for the betterment of the entire state.

A job well done deserves recognition—in this case by enthusiastic support for another term in office. Will you join us in this vote of confidence in a tried and proven governor?

And remember this, Mr. Farmer. . . During the past two years, under the administration of Governor Shivers, Texas has built 7,000 miles of paved Farm To Market Roads. Governor Shivers strongly supports more and better paved roads for farmers and ranchers. . . Keep Shivers in office.

GRAHAM B. SMEDLEY

Endorsement of the legal profession was given July 5 to Judge Graham B. Smedley for re-election to the Supreme Court of Texas, Place No. 2.

President Cecil Burney of the State Bar of Texas in reporting the poll said that 'lawyers of the state in an official poll conducted by the State Bar gave Judge Smedley an overwhelming vote of confidence and voted he should be retained on the court by more than a 9 to 1 count.'

The vote of the Bar was: Judge Smedley, 5,177.
 His opponent, 598.

Judge Smedley won the endorsement of the attorneys in his home county of Tarrant (Ft. Worth) by a 18 to 1 margin, the vote being 355 to 19.

He has been an associate justice on the court seven years. Before that he served 12 years on the Supreme Court Commission of Appeals.

He is considered one of the state's leading authorities on oil, gas, irrigation and title matters.

Dismissed

Mrs. L. L. Hanna and baby boy.
 Mr. Mack Bainum.
 Mrs. Frank Truitt.
 Mrs. Ross Terry.
 Mrs. D. H. Robertson.
 Mr. Clyde Knight.
 Mrs. Juel Treider.
 Miss Lola Goodwine.
 Mrs. F. M. Burch and baby girl.
 Mrs. C. L. Bracken.
 Mrs. Laura Treider.
 Bert Williams.
 Mrs. Joe Collier.
 Mrs. W. H. Alverson.

Buffalo Alfalfa Under Irrigation Makes Heavy Seed Crop.

For many years Kansas Common alfalfa has been one of the most popular domestic strains from Oregon, southern Wisconsin and New Jersey on the North to the northern part of the Gulf States on the South and from the Atlantic almost to the Pacific.

Since the spread of bacterial wilt of alfalfa during the past 2 decades over a large part of this area, many fields of Kansas Common have been thinned or killed by this ravaging disease.

Now, a new wilt-resistant variety, Buffalo alfalfa, has been developed in Kansas, from an old line of Kansas Common alfalfa. The first commercial seed was sown in 1942.

Buffalo alfalfa is adapted to the same general area as Kansas Common, including a 300- to 400-mile wide belt across the country at approximately the same latitude as Kansas. The more rapid recovery of Buffalo in the spring and after cutting, and its greater fall growth has extended the variety's area of use as far north as the Great Lakes, and northwestward from Utah through the State of Washington.

Buffalo, like all strains of common alfalfa, has a bluish-purple flower ranging in color from a light blue to a reddish-purple. It is upright in growth, has a medium-sized stem, and makes a medium to leafy quality of hay. When grown by itself, Buffalo cannot be distinguished from ordinary Kansas Common alfalfa. Its growth in spring and fall is a little more upright than that of Kansas Common and it makes a slightly more rapid recovery after cutting.

The main advantage of Buffalo is high resistance to bacterial wilt. Good stands are maintained longer on wilt-infested soils than is possible with varieties that are susceptible to this disease. The seriousness of bacterial wilt was recognized and investigational work to develop new wilt-resistant varieties was started in 1929. This resulted in the production of Buffalo alfalfa.

In comparable tests with other varieties in Kansas and elsewhere, Buffalo has yielded about the same as other adapted varieties in new stands but has outyielded those varieties when the stands become older. In some tests Buffalo has continued to yield well after the stands of wilt-susceptible varieties have been completely eliminated.

The seed supply of Buffalo alfalfa does not yet meet the demand for certified seed. The National Foundation Seed Project has aided materially in the seed increase of Buffalo. Certified seed production was about 3,900,000 pounds in 1951 and with good yields should be 5,000,000 or over in 1952. The states using Buffalo estimate a need for 7,000,000 to 8,000,000 pounds annually.

HYDE FAMILY REUNION

The H. A. Hyde family recently held a reunion here, with all four children and families present. After visiting in the Hyde home here, the group went to Hereford, eating at the park there.

Present were Rev. Omar Hyde and family of Watonga, Okla.; Rev. Donald Kimbrough and family of Ft. Worth, Truel Hyde and wife of Lubbock, and Rev. Haskell Bolding and family.

William Harrison, at 68, was the oldest president ever inaugurated.

Van Buren was the first U. S. President born a citizen of this country.

Martin Luther spent nine years translating the Bible. The proper time for Easter was settled upon in the year 325.

Mrs. Jess Palmtag and three daughters of Westport, Calif., are visiting relatives in Friona and Tulia. Mrs. Palmtag is the daughter of Mrs. Mary Bainum.

Theodore Roosevelt, at 42, was the youngest president ever inaugurated.

Woodrow Wilson said the hardest job of a president was to keep his temper.

Re-elect
JUDGE
GRAHAM SMEDLEY

to the
SUPREME COURT
OF TEXAS (Place 2)

- 12 Years on Supreme Court Commission of Appeals.
- 7 Years Associate Justice of Supreme Court.

...cool your home with Refrigeration!

Yes, refrigeration is just the thing to keep your home cool and comfortable this summer. Refrigerated air conditioners control the temperature—keep all the heat outside. They keep the dust and pollen outside, too—making the inside air fresh and healthful.

You control the humidity for complete personal comfort when you air-condition your home by refrigeration, too.

Your home on the plains can be mountain cool this summer—use refrigerated air conditioning and see.

**POWER TAKE-OFF
WORK DONE BETTER!**

...with the new Ford Tractor and

PROOF-METER

Everyone knows that implements driven by power take-off should be run at their recommended P.T.O. speed, for best results. But how can you tell what the P.T.O. speed is, in actual operation? Up to now, there's been no way to check it—without special equipment.

But NOW you can know! Now the Proof-Meter—standard equipment on every new Ford Tractor—shows the P.T.O. speed right before your eyes all the time—while the implement is moving, while it's under load! This exclusive Ford advantage eliminates costly "guess-work." It enables you to set the throttle to keep P.T.O.-operated implements always running at just the right speed for best work, greatest fuel economy, longest life! The Proof-Meter can increase profits on power take-off jobs, a lot. It's valuable in many other ways too...

5 Instruments in ONE! In addition to P.T.O. Speed, the Proof-Meter shows you Tractor Travel Speed, Engine Speed, Belt Pulley Speed, and indicates Hours Worked. Nothing else like it.

A. J. (Andy) ROGERS

Rogers, a Childress county farmer and legislator, is asking for election as state senator in the newly created 30th district. He lists his qualifications as follows:

- Just a farmer—by choice.
- Seven years of college education (Law, Government, Economics and Agriculture).
- Not an Attorney—the Legislature is not a court room.
- Two terms experience as State Representative (Member of Appropriations, Agriculture, Conservation, Insurance, Highway and Roads Committees; Chairman of Enrolled Bills Committee).
- A Veteran—Three years service in our Armed Forces.
- A Native—Born, reared and educated in Texas.
- A family man.
- A land-owning taxpayer.
- Not a machine politician.
- Says he is a candidate because he believes Mr. Average citizen must get into and clean up politics.

Former Friona Doctor

Visits Here

Col. R. C. Stokes and son, Walter, visited with Uncle John White and Mr. and Mrs. Bill Flippin over the week-end. The Stokes' have recently returned from Alaska, where he had been stationed for the past two years. After a thirty day leave from the armed services, they will go to Atlanta, Ga., where he will be stationed.

Visiting in the M. S. Weir home this week are her daughter and family, Mr. and Mrs. Jeffers from Denver, Colo.

Mr. and Mrs. O. J. Beene and Jay are vacationing this week in Colorado. Ramey Beene is staying with his grandparents in Dimmitt while his parents are gone.

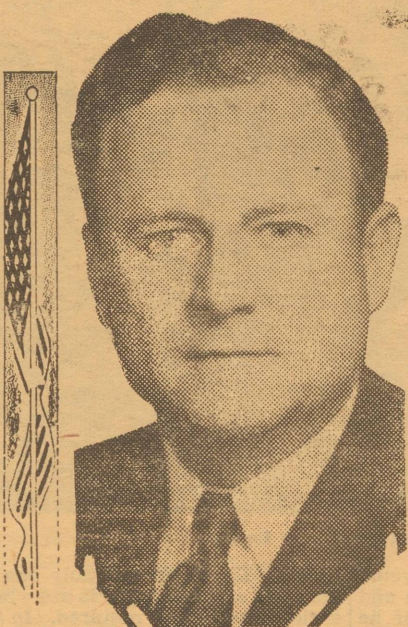

Mrs. Jess Sparkman of Amarillo is visiting this week in the home of her daughter and family, Mr. and Mrs. Glenn Reeve.

The Lewis Smiths' and sons and his parents, Mr. and Mrs. J. L. Smith, are vacationing at Red River this week.

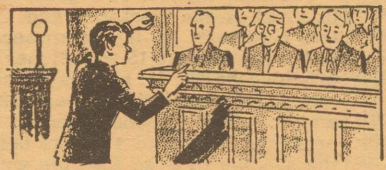

Mr. and Mrs. Richard London and baby left Tuesday for Cassville, Mo. to visit his uncle, Clyde London.
