Local Post Office Cuts Back Services

In line with a national economy move, Muleshoe postoffice will eliminate part of its services, starting May 4, Postmaster Spencer Beavers announced Friday. The move, he explained, is part of a general economy drive by Postmaster General John A. Gronouski to save taxpayers \$12.7 million.

Two economics of service are planned here, one effecting parcel post deliveries, and the other general service.

Beavers explained that delivery of parcel post, both in business and residential areas, will be limited to five days a week. No parcel post will be delivered in Muleshoe on Saturdays; Beavers says Saturday is "consistently the lightest day of the week for incoming parcel post."

Window service curtailment on

Saturdays also was announced, starting May 4.

No money orders will be accepted on Saturday, Beavers said.

Only one window will be open during the 8 a.m. to noon period. However, he promised all essential window transactions will be available through the one open window.

Due to the large number of patrons the one clerk will have to serve on Saturdays, patrons were asked by the postmaster to transact as much business as possible on weekdays.

Beavers promised that "no essential major services are effected by the new orders." He added: "except for the limited window service on Saturdays and the designation of Saturday as a non-delivery day for parcel post, services will not be effected."

Local Rep. Leader Says Conservative Vote In Democratic Primary 'Is a Wasted Vote'

In a statement issued today, Clarence E. Mason, chairman of the Republican Committee of Bailey County, called on all conservatives to vote in the Republican Primary on Saturday, May 2.

By voting in the Republican Primary, Mason said, "Texas conservatives will have an effective voice in (1) choosing the strongest Republican for president, (2) picking the man who

is best able to beat Ralph Yarborough, (3) protesting Lyndon Johnson meddling in Texas politics, and (4) improving Texas government with a competitive two-party system."

Mason charged that the liberals already have control of the Democrat Party and that a conservative vote in that primary is a wasted vote. "If you are a conservative the only effective way to make your vote count is to vote Republican on May 2."

Presidential candidates listed on the Republican ballot are Senator Barry Goldwater of Arizona, Governor Nelson Rockefeller of New York, Senator Margaret Chase Smith of Maine and the Honorable Harold Stassen of

Three Way 8th Grade Honored By 7th At Fete

Bright pink and white, the class colors, decorated the banquet room of Maple Cafe, this week when the seventh grade honored the eighth grade of Three-Way School with a banquet.

Mothers of the students sponsored the banquet. Bouquets of flowers brightened the tables, and the head table had a bouquet of bright pink roses flanked by a girl and a boy graduate cut-out, with their caps and gowns in the same color. The menu was ham, potato salad, green salad, hot rolls, tea, and pie.

The program was concluded by Charley and Gené Abbe, who gave several duets of two-tapping guitar music.

New Demo Leader In Sight For Parmer

Parmer County Democrats may have a new county party chairman after the coming May 2nd primary elections.

Dolph Moten, editor of the Bovina Blade for the past eight years and presently Demo leader of Parmer's precinct one, is running for the office, and picked up strong support during the past week.

Moten is what is termed a worked for the party all his adult life. He is vitally concerned with the Parmer County drift to the Republican right, and has stated he will endeavor to bring the area back into the solid Democratic camp.

"For the first time in history, the President of the United States is a Texan. Party leadership in his home state will affect his own future," Moten states.

"President Lyndon B. Johnson must be returned to the White House in national elections this November. To carry other states, he must have unquestionable support from Democrats in Texas."

"The eyes of the United States are upon Texas in its nomination of a Democratic candidate for governor. The gubernatorial nominee will most likely be called by the National Democratic Party to go into other states to campaign in behalf of the national ticket."

"This means the Democratic nominee must be a man who supports President Johnson and his program — a man who would nation as an asset to the Democratic Party — a man who is 100 percent Democrat."

"That man is Don Yarborough. Texas needs the aggressive leadership of Don Yarborough to

Joyce Adams Wins First Place In Interscholastic Ready Writing

For the second year, Joyce Adams, Muleshoe High School senior, won first place in the ready writing division of Interscholastic Literary events held recently in Dimmitt. Judging was done by authorities of West Texas University and Miss Adams, daughter of County Agent and Mrs. J. K. Adams, was presented a medal this week.

JOYCE ADAMS

She chose as her subject "Is Something Right Because Everybody Does It?" Under this subject, she wrote "We're Organized - Now What." She competed in the regional meet held in Lubbock this weekend.

We're Organized - Now What?

"But, Dad, everyone else is going, why can't I? Don't you want me to have friends?" This declaration of independence is probably heard more often by parents of the teenage than is any other. Everyone's going to the dance, everyone's parents are in favor of that all-night, graduation party, everyone takes his car to college. Teens like everyone else wants to be popular with the "Bib Wigs" in the crowd. Not one of us wishes to be classed the "Village Square". Yet, if everyone follows the crowd, and the crowd just happens to be wrong, who will suffer? Not the group for certain; but the individual. It has been said that the only truly great man is the one who does not conform for the mere sake of conformity, one who does not continually follow the wishes of the group. Inventions and discoveries are not made under the Supervision of organized technology, but they do, come about as a result of the individuals desire for accomplishment, his desire to excel and master his competition.

If all people were classed in one large group called the Organization for the Prevention of Individual Initiative, who in that group would have the strength of character to declare one of its policies wrong.

If this country continues to move in its present trend, we are soon to see conformity and Socialism beyond belief. The crowd (Federal Government) will soon be dictating every move and ad-

vancement to the states (individuals). This nation, like many of her people, is becoming organized, socialized, and synchronized to the point of no return. Every local group must have, in this age, a national affiliation to something or another; before it can be recognized as an organized body. Even sewing circles now have nationwide membership and authorization. The individual is forgotten. The individual, can, they say, do nothing in comparison with the association.

When these United States were new, their people thought with minds of their own, spoke with voices of their own, and rejected with reasons of their own. But, today, one must be careful not to offend, he must receive a certified "O. K." before voicing his opinion. He must be accepted by the crowd lest he should damage anyone of its so-called "ideals."

National acceptance, however, cannot, in any way indicate that the majority is right something is not necessarily morally right because nine out of ten accept it. Those nine could and may well be, morally rotten.

The young person striving for excellence today is faced with the eternal question "Why Shouldn't I follow those? They seem to be getting somewhere." Individualism cannot be gained by following seems to be right. Appearances what often deceive.

Luncheon Held By Progressive Homes Club Thurs.

members by succeeding generations do not include the President of the National Society, the promotion director for the cross (fill in your favorite charity) or backer of the "Backsliders of Eastern (fill in your state). But the great man is the nonconformist, he who did not try to cross the wide chasm in two short jumps, but he who took that one big step necessary to achieve his goal.

The person who follows the lead of an organization may soon find that its members exist solely for the purpose of benefiting the group and that they hope for little in the way of self-improvement. The individual rather the mass, then must decide what is right and what is wrong. If the crowd is made up of those who have no minds of their own, nor any thoughts of their own, how then, can the group decide what is best for the individual?

The Organization has no right whatever to dictate to its members the "Rightness" or "wrongness" of any question. All decisions must be individual opinions. Groups may be easily swayed, but a sound mind cannot be "brainwashed."

Nothing becomes right merely because an organization stands behind it, but all things must be judged good or bad by an independent judiciary called the mind of man.

The man who wants to get away from it (perhaps permanently) and who wants to live dangerously, should go to Oklahoma to the rattlesnake hunt. Sweetwater used to have same and may still for all I know. ANYWAY, Oklahoma had about 7,500 people to attend the meet. About 300 men hunted the snakes and over 1,500 pound of Diamondbacks were caught. Barney Barnett, a Texan from Wichita Falls was the "champ" with something over a hundred pounds to his credit. Just wonder if they then had a feast of rattlesnake. It is supposed to be an expensive dish!

There really is a city called Mecca and not just "A goal at which one aims" as the dictionary puts it. About a quarter of a million Mohammedans are gathering there now to say their prayers as it is the birthplace of Mohammed. If there is a Moslem in our area, did he make the pilgrimage to Mecca to ask for rain, peace of mind, wealth or anything the soul wrestles with? Never knew a Moslem personally and don't know if Medina, the place where Mohammed is buried gets its share of sojourners. Since we need the tourist business, maybe we could route the travelers through our city. Some of their devotion just might rub off on those of us who wear the Christian name. The Koran states that each must pray in a Mosque on Friday, a clean place the other times. Moslems believe in God, absolutely in predestination, in heaven, hell and high morals. A true believer can have as many as four wives. They do not use the Christian calendar, but have one of their own.

Superintendent Manry acted Plainview High School A Capella Choir, directed by Ross Hise, presented dinner music.

LOVE GOD

The greatest commandment, said our Lord, is to "LOVE GOD". Now on the surface this seems like an easy, reasonable, commandment that would cause no one any trouble. Yet, when we probe the depths of this fact, we discover much more is involved than a mere expression of man for God. For Jesus said other things which are also related to this command. He said, for example, "If you love me you will keep my commandments," and on another occasion he said "If anyone says he loves God, and hates his brother, he is a liar."

The conclusions one can draw from this teaching, then, become far reaching and demanding upon the lives of people. If we really love God, we must show it in the way we obey God, and the way we live with our fellow men. We must be obedient to the teachings of Jesus Christ, must seek to practice what he taught, must really live according to what he has taught, or we can not even claim to love him. We must, also, be willing and able to declare our understanding of his teachings as they relate to other people, and must learn to have Christian compassion and concern in our hearts for people. This would further suggest that we must be concerned about how we conduct our business dealings, how we speak to people, the way we do everything, as it relates to others, and end at the same time relates to God.

"Do you love me?" said Jesus. "If you do, you will keep my commandments."

LETTERS TO THE EDITOR

Dear Editor: I have just taken a voter poll on the Congressman - at - large race...

I have also learned this: My opponents are all trying to hitch-hike a ride to Congress...

Other than a policy-making function, the office of U. S. Representative has an administrative function also: now, keeping in mind; one, each person in Texas is now represented administratively by his own district Congressman...

How can the office of Congressman - at - large be best utilized during the next two years in order to benefit all of the people of Texas? My thinking is this: 1. A determined and continual effort should be made to obtain as many defense contracts for

to spend the week. Mrs. H. W. Garvin and daughter, Mrs. Kenneth Fox and Janet attended to business at Portales and Clovis last mid-week.

W. M. S. MEETS FOR MISSION STUDY The members of the Womens Missionary Society met Monday April 13 at Three Way Baptist Church for home mission study.

GOODLAND BIBLE CLUB STUDIES COLOSSIANS The Goodland Bible Club met Tuesday April 14 in the home of Mrs. L. D. Sanderson. The third and fourth chapters of Colossians was the scripture for the study.

LOCAL ITEMS Mr. and Mrs. Carl Pollard and Terry visited Saturday with their son and wife, Mr. and Mrs. Mike Pollard in Lubbock.

Dinner guest of Mr. and Mrs. Louis Henderson Thursday of last week was Mrs. Jean Lovelady of Muleshoe.

Texas industry as humanly possible. Texans are just as capable, if not more so, than citizens of California or New York in building planes, missiles, rockets, etc. Defense contracts benefit the entire state.

2. A determined and continual effort should be made to obtain research and development contracts for Texas colleges and Universities. At present, most of these contracts are concentrated in Eastern universities...

3. A determined and continual effort should be made to develop the natural resources and recreation areas of Texas. The tourist industry has a great potential in Texas and can benefit every area.

If elected, there are two issues on which I need your advice: 1. SOUTH VIET NAM: I don't know how we got there, what we are doing there or how we are going to get out of there.

2. AGRICULTURAL SURPLUS If I had the absolute workable answer to this problem I believe that I would run for President. If elected, I solicit your advice; if defeated, your sympathy.

Many thanks. BILL ELKINS Your citizens are to be com-

DeKalb Announces Plant In Dumas Area

DeKalb Agricultural Association, Inc. has announced that the firm will build a seed processing and warehouse facility in the Dumas area. Announcement concerning construction of the new firm was made by Darrel Reynolds, plant manager, and Dennis Sedlak, superintendent.

The processing plant which will handle hybrid grain and corn mended on that splendid ad regarding the "Civil Wrongs Bill". Please send me six (6) tear sheets. I hope to have interested citizens in other towns become "copycats".

Thank you, Mrs. J. E. Reid

Dear Editor: We have faith in the men we send to Washington. It appears that the "Interested Citizens" who can pour out their money out on a nasty ad like the one in the Bailey County Journal, April 12th have no faith in any one, including themselves.

I've decided that ugly backpage ad was bought by the Birchers. I have watched them closely in this community. They mean well, but they are operating too much on the grapevine system.

Democratic Primary - May 2

ELECT Don Yarborough FOR Governor

The eyes of the United States are upon Texas in its nomination of a Democratic candidate for Governor. The nominee will most likely be called by the National Democratic Party to go into other states to campaign on behalf of the national ticket.

Democrat Don Yarborough is the only candidate who would help carry the nation for Lyndon Johnson's re-election this Fall.
