FRIONA, TEXAS, THURSDAY, JUNE 19, 1952

Price 5c Per Copy

Harvesting Begins in Earnest; First Load Delivered Friday

COLUMN LEFT

Cayce Dunn this week received a letter that should add further proof that hospitality is appreciated.

The letter written from Arverne, Long Island, New York, was addressed to Mr. Dunn, Parmer County, Texas, and was delivered to Cayce, though the Dunn mentioned is in the west part of the county, and the letter will be delivered there.

It read:
Recently we traveled through Texas and were delighted with all the wonderful roadside rests. We wanted very much to thank someone—or the many people who helped make them and maintain them, but just didn't know to whom to write until we saw the one donated by your family in memory of D. W. Dunn. At last we can thank you because you contributed one of those lovely restful spots. We think Texas must be a lovely place because it has such considerate people who think about the strangers who might visit the state. We loved what we saw which consisted mostly of lovely wide, clean roads and nice clean, bare desert. We saw lovely farms, too, and many, many animals.

We wish we could thank all the kind people for the beautiful roadside rests.

Sincerely yours,
Clea G. Holtzman.

From the Texas Tax Journal:
A whoop and a holler, O Fifty-cent Dollar

Why are you so weak and thin?
Government lending and taxing and spending—
Look at the fix I am in!

—CL—

And there are those who think there are no opportunities left, but not so of Jimmie Trietsch of Denton.

This youth, 21 years old, has been blind since six years of age, yet he led some 450 fellow students at graduation exercises there this June. In a nationwide contest last year, Jimmie won first place with his essay in a program sponsored by the Voice of America. Signing his essay "An American Boy," he wrote:

"You don't need sighted eyes to see how wonderful America is. Through my remaining senses and my mind I can see a world free from dictatorship and tyranny and hate."

—CL—

Take time to WORK—it's the price of success.

Take time to THINK—it is the source of power.

Take time to PLAY—it is the secret of perpetual youth.

Take time to READ—it is the fountain of wisdom.

Take time to be FRIENDLY—it is the road to happiness.

Take time to LAUGH—it is the music of the soul.

Take time to DREAM—it is hitching your wagon to a star.

Take time to GIVE—it is too short a day to be selfish.

Take time to LOVE AND BE LOVED—it is a God-given privilege.

Mr. and Mrs. Jim Baxter and Mr. and Mrs. J. W. Baxter were Sunday dinner guests in the E. M. Jack home.

Sales in Progress at Two Friona Businesses

Two Friona firms are holding sales this week-end—the Corner Grocery and the White Auto Store.

Tony Edens at the Corner Grocery is featuring Hunt's products in his week-end offering, advertisement of which appears on the back page of this paper.

The White Auto Store, owned and operated by C. A. and B. W. Turner, is in the midst of its anniversary sale, with specials listed throughout the store. A page ad of this form appeared in the Star last week.

SUNDAY PROGRAM ANNOUNCED

The Sunday morning worship service topic announced by Rev. U. S. Sherrill of the Friona Methodist Church will be entitled "Living Meaningfully."

The evening hour will be devoted to the young people of the church; a song service will be followed by reports from the recent Youth Assembly at Abilene. Installation of MYF officers for the 1952-53 year will be conducted.

Water Meet Is Called Monday at Muleshoe

A mass meeting has been called for June 23rd in Muleshoe for open discussion of the water problems in the area, with attention focused on the proposed plan of Lubbock to secure water in the Muleshoe area.

The meeting will be at the Muleshoe High School auditorium at 8 p. m. on Monday the 23rd. In inviting Parmer County residents to attend the forum, Loyd Roberts, Muleshoe Chamber of Commerce president, has emphasized that the discussions should be of highest interest to the people of this entire area; a delegation from Lubbock will be present to explain their plans relative to the development of the water rights they are purchasing south and west of Muleshoe.

Last week a delegation from Muleshoe, surrounding counties and New Mexico met with Lubbock city officials and heard the Lubbock story. Carrying the ball for the local delegation were Al Hall, Jesse Osborn, and Joe Sooter, all of Muleshoe, who presented the hopes and fears of the farmers of this area, outlining the information desired concerning the intentions of Lubbock.

The entire discussion is growing out of a plan announced by Lubbock some weeks ago to secure water from some 50,000 acres of land near Muleshoe on which they were purchasing the water rights.

R. L. Oldham, director of public works for Lubbock, included the following remarks in his reply last week:

1. The Bailey County Water Project just happened to be the first opportunity Lubbock has had to develop water supplies in a large untitled area.

2. Development of the project may be put off for 15 to 25 years, depending upon the city's growth, and upon the success of their continuing efforts to get water closer to home and still further upon the completion of the Canadian River Dam project.

3. Lubbock would have to spend

Local Teachers Spending Summer Studying or Working, Alaska to Gulf

The twenty-six teachers of the Friona School system are spending the summer months in widely separated locations from Alaska to Alpine, and their activities are hardly less varied.

Following is a list of the faculty and their locations as released by Superintendent Caffey:

Mrs. Ethel Bengler, at home near Black.

Mrs. Erma Stark, at home here for the summer.

Miss Ranghild Hansen is spending the summer at Brady, Texas, with her parents.

Miss Iola Richards, at Lamesa with parents.

Miss Jo Philipps, at Denton with mother.

Mrs. Rita Mast is on the west coast with her husband who is in the army there.

Mable Jones both are at home in Friona.

Tom Jarboe and John Parish are both working in Friona, Parish to leave July 13th to work on his M. A. Degree at Denton the rest of the summer.

Mr. and Mrs. L. M. Baker are planning a 4-week trip to Alaska soon.

Mrs. Sue Nazworth is in Friona. Miss Majorie Burnett is attending school at Sul Ross College, Alpine.

Patsy Ruth Curtiss is visiting with her parents at Grand Prairie. Mr. and Mrs. Cecil Robison are attending classes at WTSC where he will receive his Masters Degree at the end of the summer.

J. T. Gee is remaining in Friona, as is Raymond Cook who is working on his farm south of town.

Gene Tyer is at Snyder at his parents' home, and Earl Hise is at his home in Falfurrias.

Mrs. H. T. Carr is another of the teachers attending classes at WTSC.

Dillie Kelley is remaining in Friona.

Mrs. George Clingan is at Alameda, Arkansas for the summer.

Lee Euler Receives BD Degree at Seminary

Rev. Lee Elmer Euler recently received his Bachelor of Divinity Degree from the Central Baptist Theological Seminary, Kansas City, Kansas, according to announcement by that institution. Fifty-six candidates received their diplomas and degrees during this commencement program—the largest graduating class in the Seminary's fifty year history.

Rev. Euler has also received training at the Oklahoma Baptist University, Shawnee, Oklahoma.

5. The city would build a 42 inch pipeline to Bailey County. Five testing wells will be drilled in the Birdwell Ranch, 30 in. in diameter with 16 in. casing. Logging holes are 6 in.

6. Lubbock intends to adopt conservation measures on the project. Wells will be so spaced that not more than an average of one-half million gallons a day will be pumped from 1 section of land. That is why, the Lubbock men said, they wanted so many sections—in order to prevent damage to adjoining irrigated lands. At the same time, Lubbock is considering a water conservation program, including education, in the city. The Lubbock men said: It is not the policy of the Lubbock Chamber of Commerce and other citizens to promote the location of industries here that will use large quantities of water.

(In this connection Mr. Oldham, the Mayor reiterated, and A. B. Davis, C of C manager repeated again that regardless of Lubbock's attitude in this matter, it seemed doubtful that any industry which required huge quantities of water would locate in this territory which has to depend upon underground water sources.)

One directorship was voted on at this time, with the 3-year term of E. L. Fairchild expiring; Fairchild was re-elected to the board.

In the auditor's report made by R. L. Dowel, certified public accountant of Amarillo, it was revealed that the net savings for the organization during the past year was \$88,394.23. Total

income was \$165,348.16.

A. W. Anthony, president of the board of directors, presided at the meeting. Clyde Goodwine, secretary and treasurer read the minutes of the 1951 annual meet.

Guest speaker was Cecil Massey, manager of the Hereford Chamber of Commerce. Though Massey announced his subject as "Wheat and the Atomic Bomb," he devoted his entire talk to anecdotes and humorous stories, never getting around to explaining any relationship between the local harvest and atomic influences! After the meeting refreshments

Romich Resigns C of C Post Here; Goes to Kentucky

Alan Romich, manager of the Friona Chamber of Commerce and Agriculture, submitted his resignation to that group early this week.

Mr. Romich plans to leave Friona July 1st to accept the position of chamber of commerce manager at Elizabethtown, Kentucky. Elizabethtown is the merchantile center serving Ft. Knox, and its population is about 9,500. Manufacturing is the principal industry there.

Coming to Friona in November 1950, from Nocona, Texas, Romich has been active in local civic and panhandle-wide affairs; he has been in the forefront in initiating and carrying out a score of local improvements.

School Grounds Face-lifting Is Underway Here

The reality of a sightlier and safer playground at the Friona Grade School is nearing this week with a crew at work filling in dirt leveling etc.

New soil is being placed over the grounds preparatory to lawn seeding before commencement of the fall school term.

All playground equipment is being moved from the north to the south side of the Grade school at this same time.

Rolen Draws Premium From Wheat Growers

Wheat harvest has commenced in earnest this week in Parmer County, with the first load being brought to Friona elevators last Friday afternoon by Albert Rolen.

Rolen, who farms the M. M. Sherley place about 8 miles north-

west of Friona, drew a \$25 premium from the Friona Wheat Growers, Inc., where he brought the load. His wheat tested 58 lbs. with 13.7 moisture content.

A good deal of cutting had started late last week, and other loads followed close on the heels of the first one. Saturday morning the O'Brien brothers 15 miles southeast of Friona brought a load to the Wheat Growers, testing 60 lbs. with 13.5 moisture.

First wheat arriving at the Santa Fe Grain Company came from the Tom O'Brien fields, cut Saturday, testing 60.5 with 14 percent moisture.

The Black Grain Company also received a load Saturday, brought by Ranza Bogges, testing 60 lbs. with a 13.6 moisture content.

Grain handlers of the area have noted that most wheat appears to be yielding higher than expected; this is proving true of both dryland and irrigated wheat. Several irrigated fields are yielding 25-35 bushels.

Practically all loads so far brought in have been dry enough and tests have been good—as high as 63.5.

About 12 carloads of grain had been brought to Friona elevators late yesterday.

Weather conditions have been ideal for the wheat harvesting, with continued hot dry days forecast. Sunday temperatures have been the highest recorded to date this year, with the mercury reaching 103 in Amarillo. The thermometer has averaged in the 70's during the night times and in the high 90's most every day. A few scattered showers have fallen over the plains area, but no local ones have hampered the crop harvesting.

The national wheat yield for this year is anticipated by authorities to be one of the very highest ever recorded, in the high three actually. However, the local area will have a considerable drop, with drought conditions prevailing at the crucial period when rains were needed to bring the wheat up. Much of the crop was plowed under, and this together with diverted acreage to other crops will result in a much lower total figure here of 1952 wheat production.

Girls taking summer projects include: Joan Agee, Betty Ashcraft, Carol Blackburn, Deann Buske, Gay Cass, Letha Fay Day, Lois Marie Deaton, Jimmie Sue Fallwell, Oleta Lloyd, Denise Magness, La Mona Neff, Alice Fay Palmateer, Bobbie Veazey, Corene Gifford, Donna Miller, Anita Scarborough, Elizabeth Conaougher, Margie Haw Gay Ann McFarland, Betty Rhodes, Oneida Coffman, Shirley Fields, and Ethel Martin.

Wes Izzard Will Address Farwell C of C Banquet

Wes Izzard, noted radio commentator of this area and editor of the Amarillo Globe-News, will be the speaker Friday evening, June 27th, at the Farwell Chamber of Commerce Banquet.

The banquet will be held at 8 p. m. on that date in the High School gymnasium.

Louis Parsons of Hereford is spending a week with his grandparents, Mr. and Mrs. G. L. Minges.

Record Attendance Marked 1952 Meet Friona Wheat Growers; Prizes Awarded

An estimated crowd of 500 stockholders and friends of the Friona Wheat Growers, Inc. were present Tuesday night at the annual stockholders meeting of that organization, sharing in door prizes, listening to a well-planned program, and transacting the annual business of the firm.

One directorship was voted on at this time, with the 3-year term of E. L. Fairchild expiring; Fairchild was re-elected to the board.

In the auditor's report made by R. L. Dowel, certified public accountant of Amarillo, it was revealed that the net savings for the organization during the past year was \$88,394.23. Total

income was \$165,348.16.

A. W. Anthony, president of the board of directors, presided at the meeting. Clyde Goodwine, secretary and treasurer read the minutes of the 1951 annual meet.

Guest speaker was Cecil Massey, manager of the Hereford Chamber of Commerce. Though Massey announced his subject as "Wheat and the Atomic Bomb," he devoted his entire talk to anecdotes and humorous stories, never getting around to explaining any relationship between the local harvest and atomic influences! After the meeting refreshments

PLAY SCHOOL IS BEING HELD, PRE-SCHOOL AGES

The summer homemaking program of the local schools is in full swing this week with a play school for pre-school children being held each morning from 9 to 11:30 in the grade school building.

Girls taking these projects are assisting Mrs. Baker with the planning of stories, music, simple art activities, outdoor excursions and free play periods. The girls' responsibilities are rotated in order that each will lead the children in some activity.

Children enrolled in the play school include Kem Buske, John Bill McFarland, Tommy Crump, Jay Beene, Chloann Ford, Kenny Ford, Beckey Lou Coffey and Bobby Baker.

Twenty-three girls signed up to take summer projects. Each girl will earn 1-2 credit in homemaking when she completes her projects. Each project is to be completed by June 27.

Girls taking summer projects include: Joan Agee, Betty Ashcraft, Carol Blackburn, Deann Buske, Gay Cass, Letha Fay Day, Lois Marie Deaton, Jimmie Sue Fallwell, Oleta Lloyd, Denise Magness, La Mona Neff, Alice Fay Palmateer, Bobbie Veazey, Corene Gifford, Donna Miller, Anita Scarborough, Elizabeth Conaougher, Margie Haw Gay Ann McFarland, Betty Rhodes, Oneida Coffman, Shirley Fields, and Ethel Martin.

Public Invited To Sew at School

Conducting a summer homemaking program of benefit to the entire community Mrs. Baker announced this week that the public is invited to use the school-owned electric sewing machines any morning next week, June 23-27.

The machines and cutting tables have been placed on the stage of the school auditorium, and Mrs. Baker will be at the school each morning to offer assistance to anyone needing help.

The school has purchased pink-ing shears, two buttonhole attachments and a blind stitcher in addition to the regular box attachments furnished with the machines.

The public is urged to take advantage of this opportunity; no charge is being made. The machines and other sewing equipment will be available from 8:30 until 11:30 each morning.

**The Friona Star—
Editorially Speaking....**

"A vigilant press has made the American people the best informed in the world."

**Dallas News Editorial Reveals
Disgraceful Actions At Recent
Political Convention**

The following excerpt from the Dallas News, and written by Felix McKnight, is one of the better commentaries we have read on the recent fiasco of the Eisenhower-pledged delegation at the Texas Republican Convention.

We quote for your enlightenment:

The unvarnished version of the Texas Republican convention at Mineral Wells a few days ago should go on the record—with gloves off.

Why?

Because it is conceivable that a President of the United States could be elected with the soiled votes that came out of that convention.

And he State of Texas should not be a party to a scandalous scheme of such import.

It makes no difference as to the candidate or party involved. If the Eisenhower forces had used the same tactics, this recital of facts would have to be written to shame their conduct.

Many thousands of good Texans, feeling that Mr. Taft is an honorable and able man favor his candidacy.

But one of them, in good conscience, would condone the fraud and deceit practiced by the Texas Taft machine in the illegal seating of many delegations that gave them control of the that gave them control of the convention.

If a businessman used the same tactics he would be indicted and sent to prison by any American jury.

Why is there a license to steal in politics?

The sight of a coldly ruthless minority—simply because it was sitting in the seat of power—was new and unexpected for Texas, U.S.A.

Justice, consciences and integrity were checked at the door by some of this minority group with the whip hand.

Documented, legal facts were ignored. The chief charge against the Eisenhower delegation seemed to be that they were new, or "overnight Republicans." Yet, Mr. Henry Zweifel, GOP national committeeman from Texas and state campaign manager for Senator Taft, had invited Democrats into the Republican party several weeks before the county conventions.

He is one record with that public statement.

The case of Rusk County is typical of the Zweifel steamroller.

At its county convention the chairman, a Taft man, was unseated by a sizable majority after the meeting had been called to order. He did not bolt, but stayed until adjournment.

Testimony even revealed that he finally voted for an Eisenhower delegation to the state convention, commenting:

If you can't beat 'em, join 'em.

The Eisenhower delegation, which had signed he required pledge of "I am a Republican," was legally certified with the Secretary of State.

But days later, the ousted Taft county chairman—the man who did not bolt and even voted for Eisenhower—suddenly sent a list of Taft delegates to the Secretary of State. And no evidence was presented to show that they had even met.

Who was seated by the GOP State Executive Committee? The Taft delegation.

Or take another fraudulent case — that of Harris County with its big 144 votes. Some Taft precincts in Harris County did file contests. But even if they had all been allowed, there was still a large Eisenhower majority.

But the executive committee threw out EVERY Eisenhower delegate from Harris County and seated the entire Taft slate. And so it went on practically every contest.

To climax it all, the Zweifel machine then permitted every illegal seated Taft delegation to vote for seating themselves at the state convention—502 votes, or control of the convention!

Not only did the minority crowd have the executive and credentials committees jammed with their people to carry out the conspiracy, they also had the place effectively policed with a battery of sergeants-at-arms to keep the steamroller's path clear.

It is too true that political shenanigans in the past have been amusing. Some newspapers have

been guilty, along with the public, in accepting it as just political hogwash that amounted to little.

There was a time when folks had a good laugh when Duval County checked in with its 4,999 votes for John Jones and only 3 for Joe Smith.

But The Dallas Morning News does not think Duval County or GOP state conventions such as the one just concluded are funny.

It will strive to prove that it is very unfunny.

So far, no disavowal of tactics used by his Texas campaign leaders has come from Senator Taft. That is disappointing.

But if this affair ever reaches the floor of the GOP national convention—out in full glare before millions of television viewers and radio listeners—it will become a national scandal.

It was that bad. —Dallas News

**Friona In The News Spotlight More
Than Ever Before—An Interesting
Situation Develops:**

We hate for Friona and Bovina to be the objects of any jealousies, as much as we are proud of our little towns and their attributes. We have received our share of publicity—and more—in regional news reporting, over the air ways, and in THE HEREFORD BRAND. In fact so much space (news and pictures, too) has been devoted to us in the Brand in recent weeks, that several good citizens of Hereford are wondering what we have that they do not! Then, too, with Friona news given priority over the local Hereford news there, a number of Hereford readers have commented, and as we said, we like the publicity but we want no jealousies!

One advantage, though, there are those who actually do like to hear of the progress and goings-on here, and THEY have subscribed to The Friona Star, our subscription list has grown faster the past three weeks than at any time in the Star history, even though we are a "paid-for" and wanted publication, rather than a give-away distributed free on Sunday mornings whenever the mood strikes.

We also wish to inform our good friends at Dimmitt and at Vega that no ill will is encouraged by any person here. To tell the truth, Dimmitt only a few months back was given the same special attention by the Brand that we are now graciously receiving, but for some reason the beautiful Hereford-Dimmitt friendship was abruptly and quickly terminated—at requests from Dimmitt. And the Dimmitt residents are continuing to be served by the good editor there, B. M. Nelson, who with most small town editors is serving his own community to the best of his ability, living there and supporting the local activities, and weekly exhibiting genuine, sincere interest in the local people and their activities because he is one of them. We like men of Mr. Nelson's integrity, stamina, and sincerity.

Friends, we are glad that our community is worthy of the excessive publicity accorded it. We are surprised that the Brand did not devote equal space to our community at a much earlier date—when it served the local area with a paper; let us be the first to congratulate them for seeing the light!

(By way of explanation regarding the free distribution mentioned above, the Hereford Brand is being distributed (not regularly, but times) free to Friona doorsteps on Sunday mornings—look for it, your picture may be in a prominent position. If you fail to receive your copy, contact your Star editor—we remember one Sunday morning when exactly 46 copies of The Brand were laid on our own doorstep.

Comparing the news of Friona in The Brand we find that 99 percent has been published in The Friona Star on Thursday; the pictures, well, we should like to publish a book with the picture of every home in Friona in it, as there are some beautiful homes in Friona and Bovina, but until that day comes along we will continue to give you local pictures of events and news of community-wide interest; we have been complimented by area observers for consistency here.

The Star cannot maintain a free circulation, because it is to the benefit of the community that we are a paid circulation and supported by your subscriptions and advertising, whereas we can serve you better in community growth and news coverage.

WASHINGTON AND

"Small Business"

—By C. WILSON HARDER

The larvae turns into the moth, the rattler sheds its skin, and the Socialist dons his true colors.

A case in point is many articles currently appearing opposing the nation's anti-trust laws such as written by David Lillenthal.

Lillenthal was for years the head of the Tennessee Valley Authority, the first great government project in tax-supported Socialism.

C. W. Harder

Then, in the curious shuffle that is Washington bureaucracy, Lillenthal became head of the Civilian Atomic Energy Commission.

Confirmation of this appointment was long and bitterly fought in Washington. Curiously enough, sufficient reasons to account for all the fuss did not become public record.

Yet such is the interlocking of the Socialist-Communist clique in Washington, it required seven long years to expose Alger Hiss.

Leaving aside the qualifications of Lillenthal to judge the merits of the anti-trust laws, he is merely following the pattern of many ex-socialists.

That is the lesson of contemporary history. Young Mussolini was an ardent Socialist. Aging Mussolini became front man for Italian monopolies. Young Nazis were Socialists. The aging Nazis allied with the great German monopolies.

And as a former young zealot for American socialism, Lillenthal has now emerged as the

aging champion for American monopoly.

Thus, inevitably, the Lillenthal career is completing the vicious circle from socialism to monopolism.

Lillenthal refers to the anti-trust laws, which despite enforcement, have prevented complete monopoly control of America on the European plan, as relics of the "horse and buggy days."

Twenty years ago the gang of Washington Socialistic schemers with which he traveled were referring to the Constitution, the Supreme Court, and other sound American institutions as halting from horse and buggy days.

In the meantime, official Washington, so concerned about freedom abroad, is little concerned with the move by the Canadian newsprint monopoly which threatens the existence of hundreds of free independent American newspapers.

With the recent \$10 per ton increase in newsprint, independent publishers now pay 150% more for newsprint than before the Marshall Plan started.

State Department has clamped down hard on officials who would take strong measures to force newsprint monopoly to be reasonable. State Dept. claims Canada needs the extra U. S. dollars.

But Marshall Plan and MSA figures show Canada has received 10% of billions given Europe in form of products bought in Canada by American taxes to give way, including \$80 million in pulp and paper alone. Thus, it is easy to see that cessation of MSA purchases in Canada would go a long way toward lowering the cost of newsprint to U. S. publishers.

**The Law and You
By Robt. (Bob) Kirk**

DO YOU KNOW what the fifth Amendment to the Constitution of the United States, being a part of the Bill of Rights is? . . . afterwards again be tried for the same offense.

Amendment Number Five states "No person shall be held to answer for a capital or other infamous crime unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service, in time of war or public danger; nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty or property, without due process of law; nor shall private property be taken for public use without just compensation."

This Amendment also guarantees to the individual that none of his property shall be taken from him, unless the public interest demands the use of the property, and then only upon payment of adequate compensation for the property so taken.

A pot-luck supper was given in the Leonard Pope home Friday night for the N. M. Cruse family of South Dakota, who were visiting friends here last week.

Rev. Alfred Wesley Hurst, Mrs. Hurst and niece Alese Valie of Towson, Maryland were visitors in the home of Rev. and Mrs. George Meyer. Dr. Hurst is a minister of the Cleveland Park Congregational Church, Washington, D. C. and was enroute to Claremont, California where he will attend a meeting.

Rev. and Mrs. Ezra Vornholt and son John of Okarchee, Okla., have been guests of Rev. and Mrs. George Meyer. They were enroute to a meeting in California.

Mr. and Mrs. John Burrows spent last week in Clarksville, Texas visiting his father.

This Amendment is known as the Due Process Amendment and guarantees to the individual that he will not be confined in a prison unless found guilty by the orderly processes of the law. If an individual should be confined in jail or prison, without due process of law, he may secure his release under this Amendment to the Constitution. This Amendment also guarantees to the individual that once he has been tried for an offense that he may not there-

Grass Roots

Lee Howard called me the other morning and informed me that he was losing some cattle and he couldn't decide what was doing the dirty work and would I find out if any other men were losing any stock on their irrigated pastures. I spent the best part of the day driving and asking questions. By the time I got out to Lee's place it was getting on in the afternoon and Lee was out in the pasture moving the cattle around. He had already decided what I had found out. He was losing the stock on CARELESS WEEDS. Cattle will really graze careless weeds, particularly when they are young and lush. This plant is high in protein and is a real supplement to a cows diet, especially if they have been on dry feed of any kind. During the heat of the day the weeds will wilt down and it is during this time that they are the most dangerous. The animals go down with a condition similar to bloat but the action is much quicker and little can be done about it. Special care should be taken when feeding alfalfa hay that has this weed in it.

Having men like George Heard around really makes my work easy for me. When I want some information on some new idea or experimental data, all I have to do is visit with George for a few minutes and I generally find out that he is ahead of me to the extent that he has already tired of it or is in the process of putting it to a test at the moment. At any rate it was up where he is experimenting with different applications of several fertilizers on potatoes.

George has several different plots but the ones which struck me as being the most significant were the ones where he used 16-20-0, Ammonium Nitrate and Ammonium Sulphate. Where the application of 16-29-0 was 120 lbs. to the acre the vine growth and potato development was much greater than where 300 lbs. of Ammonium Sulphate was used. I could see no difference in the plot where the 16-20-0 Ammonium Nitrate and Ammonium Sulphate and no fertilizer was used.

I witnessed a sight the other day that I didn't think I would ever see in this area. Howard asked me to drive out to the country with him as he was getting a new hay baler and wanted me to look at it. I knew that Howard and Cameron had been getting

some land ready for alfalfa but I did not think that they even had it planted, much less ready for a cutting. They were going to bale hay alright, but not alfalfa hay. Because they had a fine stand of vetch that they had been able to graze they did not need the 25-day driving and asking questions. The pasture had grown up rank and they were cutting it for hay. Cameron has the pasture divided into three plots and the land they were baling at the time had little over five acres in it. There were twenty four windrows of hay and they were baling an average of sixteen or more bales to the row. These bales weighed around sixty pounds apiece. The pasture still has about five inches of grass and as soon as the bales are carried out of the field and the pastures watered they will be more than ready for the stock again. These bales have a proportionate mixture of grass and legume in them and should make fine hay.

Just across the road south from Howards' place J. B. Noland has a fine demonstration of irrigation efficiency. J. B. has some forty acres of alfalfa that he seeded this spring and is watering it down long borders with the underground system that he installed last Fall. That is quite a show and would be well worth anyone's time to drive out and see this when J. B. is watering.

Further proof of the efficient way that J. B. does things is the fine stand of alfalfa he has. Wish I could take a little credit somewhere in here for that, but about all I can claim is that I sold him the seed and he used our seeder to do the job.

Am still harping on the vetch program that is about ready to get underway. It is still plenty early to be planting but one needs to do a little planning before starting and wouldn't want to wait till the last minute and find all the seeders in use and winter on us. Would like to remind you to drop by the PMA office and visit with the people there about the vetch program as set up by the Department of Agriculture. They have a real deal for you and some fine information that you will certainly want to take advantage of.

J. T. E.

HOME ON LEAVE

PFC Joe Brito has been visiting the past ten days with his wife, Lola, and his 13 months old son.

He has been in training at San Diego, Calif., and will leave from Clovis Thursday for El Torro, Calif., where he will be stationed.

Mrs. Brito and son will remain here with her grandparents, Mr. and Mrs. Manuel Martinez.

Mr. and Mrs. Dan Ethridge spent the week end in Lubbock visiting with her parents.

Rev. George Meyer is attending a meeting of the General Council of Congregational churches, being held in Claremont, Calif. Mr. Meyer is representing the Friona church as a delegate. He plans to return for the service of July 6. Mrs. Meyer will serve as pastor during the absence of Rev. Meyer.

Mr. and Mrs. Wright Williams spent Sunday in Abernathy visiting with his parents, Mr. and Mrs. T. A. Williams.

Wanette Green of Canyon is spending this week in the Guy Latta home.

Foundations For Friendliness

So much of the lack of friendliness in this world. . . so much of the misunderstanding between neighbors and between nations. . . come from the fact that we do not know each other. But let us worship together. . . let us work together for the betterment of our homes and community. . . and we begin to understand each other. Today churches of every creed are cooperating in behalf of greater understanding. Join your friends in the church of your faith every week.

Foundation for Blind Observes Centennial of Braille's Death

The passing of Louis Braille, originator of the raised dot reading and writing system which bears his name, 100 years ago, is now being observed around the world. M. Robert Barnett, the Executive Director of the American Foundation for the Blind, pointed out that since only 20 per cent of the 260,000 blind persons in the United States know braille, "It is important to promote the teaching of this system in every possible manner."

LOUIS BRAILLE CENTENNIAL

Helen Keller, outstanding user of Braille's system, once wrote "Braille is the key to books in many languages. We who are without sight celebrate the achievement of one who poured the sweetness of tangible printed words into the bitter waters of our affliction."

As part of the international observance of the centennial of Louis Braille's death, the American Foundation for the Blind and its affiliate, the American Foundation for Overseas Blind, have jointly issued a special commemorative seal to be widely circulated. The seals will be distributed in sheets of 50 each by organizations and groups which show a deep interest in the welfare of blind people.

Intended not primarily to raise money, but to foster public awareness of the increased opportunities afforded to the blind through the development of modern teaching methods based on the use of braille, Mr. Barnett advised that individual contributions received through the distribution of these seals will be earmarked for braille printing presses and other equipment for workshops and schools here and abroad.

ROTC Unit Established At WTSC, Canyon

West Texas State College's new Reserve Officer's Training Corps unit first of its kind in the nation, will allow students of the area to choose their own branch of the Army, and during its four-year program, provide general information and instruction in all of the Army's 16 departments.

First steps in establishing the program, to be in operation in September, are already being made, according to Dr. James P. Cornette, president of the college. Under the new ROTC 'Branch General,' which is also being instituted in 24 other colleges and universities, the students will study a military curriculum de-

NEW BUSINESS OPENS

The Friona Upholstry firm has opened business a block east of the Main and Highway 60 intersection to become the newest business firm in Friona.

Carl Kent of Farwell is manager of the firm owned by Vern H. Wilson of Clovis.

Kent specializes in furniture and car upholstery. He also maintains a sewing machine sales and service.

signed to give a basic knowledge of the Army's different branches. Its purpose is to provide reserve officers with a broader concept and better understanding of the entire service.

GM Builds New 'Two-Way' Plant in Texas

Construction work has begun on the new General Motors "dual purpose" plant (above) at Arlington, Texas, where GM's Buick-Oldsmobile-Pontiac Assembly Division will build a Grumman-designed airplane for the United States Navy and assemble passenger cars simultaneously. The flexible layout of the plant will permit combined aircraft-automotive operations or it can be converted in a matter of days to either

total aircraft or total automotive production, depending upon military requirements. The "dual purpose" plant idea was first proposed a year ago by C. E. Wilson, GM president, as a means of maintaining strong military and civilian production levels without disruption of plant facilities or working forces. Most of the Buick, Oldsmobile and Pontiac cars produced in the Arlington plant will be for distribution in Texas.

GOOD HEALTH

1. IS RELAXATION IMPORTANT?

2. WHAT IS BRAILLE?

3. SHOULD SNEEZES BE SUPPRESSED?

Answer to Question No. 1:

The ability to relax is very important and gives promise of a longer, healthier life. Most recreation is as strenuous as our work and should be sensibly regulated. A person's mental attitude greatly affects his ability to get the most out of his periods of relaxation. At these times he should cast his worries aside. Otherwise, sleep will be disturbed and recreation fruitless.

Answer to Question No. 2:

It is a system of printing for the blind which uses combinations of tangible points or impressions representing letters and numbers

and which the blind can "read" by feeling the points on the paper with their fingers. It is named after Louis Braille (1809-1852), its original designer. Any book can be printed in Braille for use by the blind.

Answer to Question No. 3:

The best thing to do with an on-coming sneeze is to sneeze—into your handkerchief of course. It is better to sneeze normally through the mouth which is better equipped than the sinuses and ears to take the blast. Suppression of sneezes may lead to considerable damage to the ears.

(Copyright 1952 by Health Information Foundation)

H. H. Hoover Rites

Held in Hereford; Was Electrocutation Victim

Funeral services were held Sunday in Hereford for Herbert Harold Hoover, 27, former resident of the Messenger community who was electrocuted in a freak accident last Friday.

Hoover was killed shortly after noon Friday when an electric drill he was operating reportedly shorted out.

The services were held in the Gilliland Funeral home Chapel and were conducted by Rev. Roy Ford, pastor of the First Christian Church in Hereford. Burial was in the West Park Cemetery at Hereford.

Pall bearers were Julia Perrin, Larry Ballard, S. N. Thewest, Phillip Miller, Eldred Brown, and Eual Fite. Survivors include the widow,

ATTEND CHURCH CAMP

Rev. and Mrs. Russell Pogue and Betty Rhodes and Floyd Messenger returned yesterday from the Baptist Young People's Camp at the Plains Baptist Assembly Grounds near Floydada.

This was the first young peoples camp ever held in the district exclusively for the 17-25 year age group, and it was termed highly successful by those attending.

The local group went Monday, returning Wednesday.

Mr. and Mrs. Lloyd Mingus are the proud parents of a baby girl (Janet Gail), 6 lbs. 11 oz. born June 10th at the Deaf Smith County Hospital at Hereford.

Ruby Don Middleton Hoover; father, Charley Hoover; one daughter, Sandra; a son, Donald Harold, and two brothers and three sisters.

FACTS ARE MORE REVEALING THAN WILD ACCUSATIONS
On January 17, 1952, the Comptroller General of the United States furnished a Senate committee a preliminary report concern-

cerning certain grain shortages in the warehousing operations of the Grain Branch, Production and Marketing Administration, Department of Agriculture in Dallas, Texas. This report contained the names of grain firms and elevators that were alleged to be short in their accounts. The news releases that went out over the country contained all of the names in the reports and no effort was made to separate the guilty from the innocent. The result was that a grievous injustice was done to a number of grain dealers. Two of these grain dealers reside in the Panhandle of Texas. The stories concerning these shortages appeared in large print and were announced over the radio. Such publicity placed a definite black mark of guilt on all of the parties named. At the time this informa-

tion was released I immediately commenced a personal investigation of the matter. Almost immediately I received advice from two grain dealers in the Panhandle that they had been wrongfully condemned and unfairly publicized. Subsequent developments from my investigation concerning these two firms have revealed the following facts: I have on my desk a copy of a letter written by the Comptroller General of the United States, Mr. Lindsay Warren, concerning these two firms which reads as follows:

"1. Nelson Grain Company, Claude, Texas: The information obtained from the Dallas Commodity Office, Department of Agriculture, as demonstrated in our report, reflected a shortage against the Nelson Grain Company of Claude, Texas of 6,637 bushels of wheat. This information was furnished to us by a communication from the Director of the Dallas CCC Office on December 18, 1951. We have subsequently learned that loading out orders on September 12 and October 25, 1951, resulted in the shipment of 50,004.31 and 76,170.82 bushels of wheat respectively, by November 27, 1951, and that the final under-shipment amounted to only 637.46 bushels of wheat, which CCC considers within customary tolerance.

"3. Etter Grain Company, Etter, Texas: The statement received from the Dallas CCC office on December 18, 1951, reflected also that the Etter Grain Company of Etter, Texas, was 5,857 bushels of wheat short as of September 21, 1951. Subsequently, information was received that as of February 19, 1952, the manager of the Etter Grain Company was authorized to ship one carload of wheat to the credit of CCC to cover the under-shipment of 1,584.67 bushels of wheat short on a previous loading out order. The CCC records now show that the Etter Grain Company shipped 1,591 bushels of wheat on February 22, 1952, which accounted for all the grain due the CCC."

The letter referred to includes

other grain companies not in the Panhandle district.

I had sincerely hoped that the papers and radios of this nation would give the same publicity to this information as they gave to the original accusations, but such has not been the case. It is not fair to associate firms that have been operating legitimately with those who have violated the law and then fail to make correction and reveal the true facts concerning the matter. The damage suffered by a business that is unjustly condemned, by association or otherwise, cannot be erased by the mere admission on the part of the accuser that his facts were not exactly correct. America has been built upon truth and factual information. The Amarillo Daily News carried an excellent editorial pointing out the dangers of these blanket accusations that are so many times made for headline hunting purposes. I hope that all of you read that editorial because the present facts in the cases in the Panhandle prove the good common sense that was contained in that editorial. As the editorial so well pointed out, there is plenty of wrongdoing to be corrected in the grain cases and other activities without making wild accusations against innocent business men.

RECESS OR ADJOURNMENT

It is my opinion that Congress cannot adjourn sine die by July 1st. The Senate has much work to do on bills already passed by the House. Many of these will be amended and the amendments will not be acceptable to the House. A Senate committee at present is working exhaustively in order to get the new Korean GI bill passed before July 1st. If this bill is not passed by that time, it could materially affect the rights of these boys in entering school this fall. We on the Veterans Affairs Committee of the House are working with the Senate committee and hope to have the matter finished before July 1st. There will ultimately be a scrap between the Senate and the House on the Defense Production Act—extension of rent and other controls. I don't see how this can be settled before June 30th, the expiration date of the present act. However, it is possible, but if this is done, other major legislation will probably be delayed.

THE RUSSIAN AMBASSADOR

The transfer of the Russian ambassador Panyushkin from the United States to Peiping may be ordinary routine, but it disturbs me greatly. I don't like the looks of it. Nor do I like the looks of the transferring of Zarubin, Russian ambassador to Britain, to this country. His stay in Canada and in Britain was during that period of the espionage activities in the Russian embassy in Canada and the Klaus Fuchs espionage

case in Great Britain. Eternal vigilance is still the price of liberty.

VISITORS from the District were K. A. Anderson, Phillips, and Rev. D. W. Brashear, Dimmitt.

Mr. and Mrs. Dale Middleton from Holdenville, Oklahoma arrived Tuesday for several days visit with Mr. and Mrs. H. L. Outland. Mrs. Middleton is a niece of Mrs. Outland.

The Wesley Fosters, Granville McFarland's and the Hoyt Smiths spent the week end at Tres Ritos. The Foster's and Smith's returned home Sunday night and the McFarlan's returned Monday.

Rural communities in Castro, Farmer, Deaf Smith, Oldham and Randall will get a run-down on how they can win cash prizes and state-wide recognition through self-improvement at a meeting in the District Court room in Dimmitt June 23rd at 10:00 a. m. Mr. T. C. Richardson, Texas editor of Farmer-Stockman and county sponsor of the Texas Rural Neighborhood progress contest, will be on hand to explain the purposes, methods and rewards of this contest that is doing much to build better communities in the state of Texas.

Movies featuring former community winners are to be shown. These include a film on the Tin Top Community a state winner of last year.

Mr. Richardson, well-known as a state agricultural leader and Farm Editor has worked with the Rural Neighborhood progress contest in cooperation with Texas A&M College Extension Service since 1945 and has done much for those communities that have participated in the contest.

The contest covers planned and recorded progress in farm neighborhoods. Phases to be scored are management and increase of family income, improvement of health conditions and services.

REAL ESTATE

chairman and a secretary. Contest managers recommend setting up committees for various phases. Judges will score all entrants on the basis of reports. Contest officials are to visit high scorers in each district for personal inspection.

Deadline for completion of projects is March 1. Entrants may undertake as many improvements as desired. They should be based on individual family and community needs and wants, the book-let adds.

County agents and home demonstration workers will help organize contest groups. They will also furnish any information neighborhood leaders request.

All persons in the five county area are cordially invited to attend this meeting and learn more about how they can help themselves and their community through the Texas Rural Neighborhood progress contest.

Foot Health

KEEP COOL FROM THE GROUND UP

By DR. BENJAMIN KAUTH
Director, American Foot Care Institute

This summer may see the greatest spread of athlete's foot in the nation's history, if recent trends are any indication. This annoying, and sometimes crippling ailment has become the country's No. 1 skin disease.

Yet, athlete's foot is only one of the many foot ills that sap our energy and make life miserable during the summer. And foot ills are no respecter of persons—office boys and bank presidents, factory workers and pen pushers, sales clerks and housewives, all suffer equally.

It's all so unnecessary. Unsuitable, poorly constructed or ill-fitting shoes cause most of these hot weather foot troubles. That's why foot specialists recommend well-fitting all-leather shoes, which evaporate foot moisture and keep feet cool and comfortable. Leather shoes not only help to prevent athlete's foot, but also will help relieve other discomforts such as corns, callouses, as well as chafing or rubbing, which is so common when feet are hot and soggy.

Make sure that the shoes you buy are roomy, since your feet will swell towards the end of a hot day and you'll need the extra space. Check that the shoes are well-constructed, conform to the contours of your feet, have no rough edges inside and have supple leather uppers and flexible leather soles. Remember, your feet are like the bulb of a thermometer. Build a fire under them and the heat rises, until all of you is hot, irritated and uncomfortable. That's why proper shoes are so important for summer comfort.

Pretty vacationer gets a tip from a podiatrist that roomy, all-leather shoes which ventilate the feet are best for summer.

THE
FRIONA STAR

RACINE, WIS.—The third largest wheat crop in history is indicated in a report released by the department of agriculture in Washington. It also says prospects are good for a record harvest of food and fiber crops as a whole.

A major factor in this year's almost record harvest will be clipper combines, like the one shown above, in six or seven-foot machines power-take-off or bagger. These machines will harvest over 110 different crops and are manufactured by the Massey-Harris company at their Batavia, N. Y., plant.

Winter wheat was forecast at 986 million bushels, which would be about 40 million more than was indicated a month ago, nearly 40 per cent more than was harvested last year. The combined winter and spring wheat crops would be about a billion 293 million bushels if the spring crop turns out above average. The government goal is one billion 165 million bushels. Only in 1947 and 1943 were wheat crops larger than the one indicated for this year.

Stars of Radio Musical Romances

Original musical romances starring Gordon MacRae and the lovely soprano, Dorothy Warenskjold, above, will be started June 2 and continue each Monday evening throughout the summer for Railroad Hour listeners. This program of the railroad industry on the NBC network will present a series of factual and fanciful stories written by the young team of Jerome Lawrence and Robert E. Lee. Realms of literature and legend have been combed for the stories the all-star cast of the Railroad Hour will portray in settings of music and lyrics to fit the theme and mood of the show.

Carmen Dragon's orchestra and the Norman Luboff chorus will support the stars musically and vocally. Murray Bolen will direct with Marvin Miller as the announcer.

Prairie Pancakes Anytime

Anytime's the time to serve this thrifty meal to family or friends. The Spry Kitchen makes it in three simple steps: (1) Cook the fruit sauce in a skillet, add and thoroughly heat through the ready-cooked meat. (2) Measure, mix, and bake the Prairie Pancakes on a hot griddle. (3) Place the foods on a hot platter and serve with a tossed green, seasonal salad.

Prairie Pancake Trio

2/3 cup canned pineapple sirup 1 12-oz. can luncheon meat
1 cup brown sugar, firmly packed 6 or 8 canned pineapple slices,
2 tablespoons Homogenized Spry drained
1/2 teaspoon salt 1/4 cup hot water

Combine first 4 ingredients in skillet and boil gently 8 minutes, stirring occasionally. . . . Place uncut luncheon meat in skillet, cover and simmer 15 minutes; spoon sirup over meat occasionally during cooking. (Meanwhile prepare pancake batter). . . . Arrange pineapple slices around meat in skillet. Simmer, uncovered, until slices are nicely glazed on both sides. Take meat out and put in center of large hot platter and surround meat with hot cakes and pineapple slices. . . . Add water to skillet, bring to boil, and serve with Prairie Pancakes.

Prairie Pancakes

1 1/2 cups sifted all-purpose flour 1/2 cup bran cereal
2 teaspoons baking powder 1/4 cup corn meal
1 teaspoon soda 1 egg, beaten
1 1/2 teaspoons salt 2 cups buttermilk
1/4 cup Homogenized Spry or thick sour milk

Sift flour with baking powder, soda, and salt. . . . Cut in Homogenized Spry fine. . . . Add bran and corn meal and mix. . . . Combine egg and buttermilk, turn into flour mixture, and stir gently until blended. . . . Drop by spoonfuls on hot griddle rubbed with Spry. When cakes bubble and puff, turn and brown on other side. Turn only once. . . . Makes about twelve 4" pancakes.

27 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

Do You Remember ...

21 YEARS AGO

Miss Opal Wimberley had won highest honors in the nurse's training school at the Lubbock sanitarium. She graduated from the school in May and after taking state examinations was declared valedictorian of her class with an R. N. degree.

Friona merchants in cooperation with the Texas theatre, are sponsoring a free merchants matinee each Saturday afternoon from one until six o'clock. The picture shown at this show was different from the one shown on the Texas program. The people obtained their tickets from the merchants they traded with each week.

Parmer County was a successful and profitable poultry county, with thousands of eggs being shipped from Friona each week.

Friona had a population of 750 people and the city was equipped with the same public utilities of large towns.

According to grain dealers and implement men who were familiar with conditions existing in Parmer County at that time, indications were that Parmer County rail points would handle not less than 100 million bushels of wheat that year. Because of advantageous freight rates some New Mexico growers were trucking their wheat to the elevators in Parmer county.

The Gischler Grain Company had opened an office on Main street north of the depot and were ready to buy grain.

The Junior BYPU held a bake sale Saturday at the Eberling building.

Haskell Hutton and J. W. Morton had returned from a trip to El Paso.

The new \$60,000 high school building had just been completed in Friona. This building was furnished and ready for occupancy before the beginning of the school year in September.

The Lottie Moon Circle had their regular meeting during that week, with Mrs. Fleet as the leader.

C. C. Maurer was a business visitor in Amarillo on Tuesday. Mrs. Julian Sams, known as Grandmother Sams, had passed her 99th birthday at the home of her daughter, Mrs. J. S. Smith.

The wheat price was 34 cents on

Wednesday according to the Hereford market.

Lois Rushing of Dimmitt and Jaunita Boren had been returning home from an entertainment, when the car they were riding in suddenly burst into flames just east of Friona. The girls escaped but the car was completely burned.

Showing at the Texan Theatre was "The Flood" with Eleanor Boardman, Monte Blue and David Newell.

Maurer's were advertising Shantung frocks at \$5.95 and \$8.95 and all ladies hats to \$5.95 values for \$2.95.

LEGAL NOTICE

THE STATE OF TEXAS
To any Sheriff or any Constable within the State of Texas—
GREETING:

You are hereby commanded to cause to be published once each week for four consecutive weeks, the first publication to be at least twenty-eight days before the return day thereof, in a newspaper printed in Parmer County, Texas, the accompanying citation, of which the herein below following is a true copy.

CITATION BY PUBLICATION

TO: George G. Wright, Jesse Arbaugh, John Benner, H. Wolverton, E. L. Smith and F. P. Harkness, and the unknown heirs, assigns and legal representatives of the above-named parties and all persons claiming, owning or having any interest in the hereinafter described property, Defendants. Greeting:

YOU ARE HEREBY COMMANDED to appear before the Honorable District Court of Parmer County at the Courthouse thereof, in Farwell, Texas, by filing a written answer at or before 10 o'clock a. m. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 28th day of July A. D. 1952, to Plaintiff's Petition filed in said court, on the 9th day of June A. D. 1952 in this cause, numbered 1613 on the docket of said court and styled THE CITY OF FRIONA, TEXAS, Plaintiff, vs. GEORGE G. WRIGHT, ET AL, Defendants.

A brief statement of the nature of this suit is as follows, to-wit:

Plaintiff sues in trespass to try title to recover the absolute fee simple title to and possession of All of Block Number Thirteen (13) of the Original Town of Friona, Parmer County, Texas, as is shown by a plat of said town on record in the Deed Records of Parmer County, Texas, from the above named defendants and all persons owing, claiming or having any interest in said property. Plaintiff also claims title under the five and ten year Statutes of Limitation of Texas as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same.

Notice To Wheat Farmers

New Regulations on Marketing of Wheat

Are Announced by the

Federal Food and Drug Administration

As Grain Dealers of this area, we feel that all farmers producing Wheat and Grain should be advised of the new Food and Drug Law Administration program so that you will be able to prepare yourselves against certain financial losses not heretofore a primary consideration in determining the market value of Wheat: All farmers should know that soon all elevator operators will be forced to examine carefully all deliveries wheat by the farmer for signs of insect infestation and rodent and bird contaminations. The approximate tolerances are as follows:

- (1) Wheat Can not have more than 3 weevil exit hole kernels in 100 Grams (approx. 4200 kernels of Wheat
- (2) Wheat can not have more than an occasional rat or mouse excrement pellet.
- (3) Wheat can not have but an occasional bird excrement pellet.
- (4) Wheat can not have an excessive amount of filth.

These regulations are in the interest of all people and every effort should be made to encourage we handlers of wheat, that wheat is a human food and must be handled as food.

THE GRAIN DEALERS OF THIS TERRITORY

urge the cooperation of the Wheat Farmers in meeting these regulations.

Remember that wheat with a high moisture content is an invitation to weevil infestation, heat damage and musty wheat.

WHEAT HARVESTED SHOULD
TEST 13% MOISTURE OR LESS
FOR SAFE KEEPING

The Above Regulations also Apply to FARM STORED WHEAT

Your Grain Dealers cannot accept grain if it does not conform to the requirements necessary to be fit for human consumption. In order to avoid severe penalties for contaminated grain, all farm storage bins must be made bird-proof and rodent proof. Bins should be cleaned and treated for weevil infestation before grain is stored. Where grain cannot be turned it should not be stored when the moisture content is in excess of 12%.

TEACHER VISITS HERE

Glen Cunningham, [former] Friona teacher, has been staying in the Raymond Jones home for the past week and visiting friends in Friona.

He will leave Friday for a visit to Borger and Wichita Falls before returning to Bowie, and from there will take an extended vacation trip this summer, spending some time in Alaska.

The Bill Kennedy family visited in Amarillo Monday night.

Mrs. Joe Coope arrived in Friona Thursday from Knoxville, Tenn. to join her husband. They are living at present in the Lovelace apartments.

Visitors in the Otis Massie home the past week were her father and sisters, Mr. J. W. Price and Misses Flora and Mary Price all of Midlothian, Texas

Mr. and Mrs. Jack Knox were in Amarillo Sunday attending market.

This chart, designed as a general guide only, prepared by the Information Division, Fifth Regional WSB, Atlanta

Poor Grass-Legume Stands Often Due to Deep Sowing

Depth of sowing the seed of grasses and clovers is probably as important as any other controllable factor in obtaining a stand. The prevailing practices of the past have been to sow seeds too deep and thus prevent maximum emergence of seedlings and make high rates of sowing a necessity. Recommendations in much current literature involve depths which are too great for best results. Since a good initial stand is necessary in the establishment of meadows and pastures and depth of sowing is a controllable factor, it should be given more consideration.

Depth of sowing tests in Ohio with alfalfa, red, alsike, and crimson clovers, white and yellow sweet-clovers, Kobe, Koran, Tenn. 76, and sericea lespedeza, timothy, orchardgrass, and Sudangrass, showed that more seedlings were obtained from seed sown 1/4 to 1/2 inch deep than from surface seedlings or seed sown at depths of 1 to 2 inches.

Similar experiments were conducted in Minnesota with five different soil types and with five different legumes and five grasses. The species used were alfalfa, sweetclover, red, alsike, and white clovers, timothy, bromegrass, crested wheatgrass, reed canarygrass, and Kentucky bluegrass. The tests were made under variable conditions and at depths of surface, 1/4 inch, 1 inch, 2 inches, and 3 inches.

The number of seedlings obtained from the surface and 1/4 inch seedlings were satisfactory in all kinds of these areas. In the red clover was the only one with more than 50 per cent of seedlings from sowing at the 1 inch depth.

Both of these series of tests show that in regions where soil and moisture conditions approximate those of the Central and Corn Belt States, and perhaps elsewhere, maximum stands of small-seeded legumes and grasses are likely to be obtained by sowing at depths of 1/4 to 1/2 inch.

Deep sowing also results in delayed emergence, weakened seedlings, and thin stands which permit weeds to get an early start and to compete successfully with the young seedlings of the meadow crop plants. If a companion crop is used, this delay and the stronger, more rapid early growth of the companion crop plants result in still greater competition for the smaller seedlings of the grasses and legumes.

If the depth of sowing which gives the maximum number of seedlings is used, it should be possible to obtain a good stand by sowing less seed per acre than has been used by most farmers in the past.

The problem of sowing seed at depths of 1/4 to 1/2 inch and not run the chance of much of it being 1 to 2 inches deep is not simple. One of the common practices, and about the only practical one on an uneven or rough field, is to broadcast the seed and follow with a drag having the teeth sloped back. A grass-seed drill is good but extreme care should be taken to set it for very shallow seeding. One of the most efficient implements for this purpose is the pulverizer-packer grass-legume seeder. The front rolls pack the surface soil, at the same time creating furrows into which the seed is dropped; the rear rolls alternate with the front rolls and lightly cover the seed and firm the soil over it.

Rev. and Mrs. Russell Pogue and children were dinner guests Saturday night in the Sam Williams home. Both couples were celebrating their wedding anniversaries.

Mr. and Mrs. Dillie Kelly are spending the week in Cosse, Tex. visiting her parents.

Mr. and Mrs. Lyndon Sanders of Canyon visited in the Dalton Caffey home Sunday.

Mr. and Mrs. Bud Crump were in Amarillo Sunday visiting in the home of his sister, Carolyn, who had been visiting with her aunt for a week, returned home with them.

Sunday visitors in the C. L. Lillard home were her parents Mr. and Mrs. Ray Price of Hereford and a nephew, Lanny Brown.

FUTURE FARMERS OF DALLAS—Big things are planned for the more than 3,000 Texas Future Farmers expected in Dallas for the state organization's annual convention July 16-18.

A special feature of the convention this year will be a banquet at the Baker Hotel, convention headquarters, on July 17 which will honor Lone Star Farmers and at which Lone Star Farmer degrees for 1952 will be awarded.

Annual FFA queen contest is set for the last night of the convention. Scope of the Future Farmer organization will be displayed to Dallas residents with a giant downtown street parade in which the FFA boys will march along with farm equipment and FFA pickups.

A special feature of the convention this year will be a banquet at the Baker Hotel, convention headquarters, on July 17 which will honor Lone Star Farmers and at which Lone Star Farmer degrees for 1952 will be awarded.

Annual FFA queen contest is set for the last night of the convention. Pictured here, with the Dallas skyline in the background, are members of the Dallas executive committee for the convention and Franklin Brandt of LaGrange, state FFA president. Pictured, left to right: C. G. Scraggs, associate editor of Progressive Farmer magazine; President Brandt, C. T. Johnson, southwestern public relations director for Sears, Roebuck and Co., and Murray Cox, farm director for Radio Station WFAA.

CRUSE FAMILY HONORED

Mr. and Mrs. L. D. Pope gave a pot-luck supper Friday night at their home in honor of the N. M. Cruse family, visiting here from South Dakota.

Present were the following and their families; J. W. Baxter, Oscar Baxter, D. M. Jack, Bertram Jack, A. H. Hadley, Leo Bails, J. B. Shirley, J. H. Lea, Bob Wyley, Mrs. Alta Wyly, Billy and John-

nie Hadley, Mrs. Mayme Adams, Mrs. Grace Hart, Mr. and Mrs. N. M. Cruse, Sr., and two grandchildren from Hereford.

Mr. and Mrs. Orville Houser left Sunday morning for a vacation trip into California, Washington and Oregon.

Mrs. Coffman is in Amarillo to be with her daughter-in-law, who is in the hospital.

Why do we have Banks Auyway ?

They Are As Essential As Forts To The Pioneers

A strong bank is a fortress of financial strength for a community. Built through the joint strength of the community, the bank serves the community.

In the early days our ancestors joined forces and built strong forts to protect the communities. Today our dangers are financial rather than physical. And the community has joined forces to build this strong fortress of financial strength.

Come to us with any reasonable problem; we can help you.

**Couple's Bridge Club
Met Monday Night**

Twenty-two members were present at the Couples Bridge Club which met Monday night at the Clubhouse.

Prizes for high score went to Wright Williams and Mrs. Carl Maurer. Mrs. Wright Williams won the bingo prize.

Refreshments of strawberry shortcake were served by the Frank Spring's, Steve Struve's and the Bill Stewart's.

Mr. and Mrs. Howard Lovelace from North Carolina have been visiting in the home of his father, Walter Lovelace. They returned home Monday.

Mrs. Bob Galloway of Georgetown, Texas, and Henry Jones of California visited with the O. F. Lange's and with other friends Tuesday.

The Steve Struve and the F. W. Holcomb families are leaving this week for Cresta Del Monte, N. M.

Baby Picture Contest

Winners Are Announced

Winner's in the recent Baby Contest, sponsored by Knox's Ready to Wear, were announced Monday morning. First prize an 11 by 14 oil painted portrait, was awarded Ramey Carroll Beene, son of Mr. and Mrs. O. J. Beene. Second prize, an 8 by 10 oil painted portrait, was given Loretta White, daughter of Mr. and Mrs. Gene White, and third prize, an 8 by 10 coppersone portrait, went to Gary Eskew, son of Mr. and Mrs. J. H. Eskew.

**Seeds Are Vital Factor
in National Security**

Gravity Mill in Seed Processing Plant Cleaning and Grading Clover Seed.

Many things that add to better living and increased prosperity are accepted without much thought to "how they got that way". Take farm seeds, for example. What happens from the time the seed is harvested to the time it is put into the planter box for sowing?

Field seedsmen handle the largest part of farm seeds. The tonnage of some items is tremendous, and each has to be handled according to its special needs. Each year some 125 million pounds of alfalfa seed, 175 million lespedeza, 100 million red clover, 50 million sweetclover, 60 million timothy, 25 million bluegrass, plus many more millions of other grass and legume seeds are harvested and cleaned.

Most all of this seed reaches the seed processor containing weed-seeds, noxious and otherwise, some easy to detect, others hidden from the untrained eye. It is his job to take this seed and convert it to the high quality seed the careful farmer requires.

The simple fanning mill is not adequate to do the refining task called for by today's high standards. Intricate cleaning machinery of various kinds, employing a number of different principles, is in use under trained men in the modern seed plant, to perform daily miracles of separating the good seed from the weeds and worthless material.

The seed processor is often the seed wholesaler. He purchases the field seed from seed growers and country shippers and sells it to

small wholesalers or retail dealers. He maintains stocks not only for the regular demand, but for emergencies, and stores them in suitable plants to preserve the germination and packs the seed to retain its quality and be attractive to the buyer. He maintains a seed laboratory, with trained technicians, to check and control quality, and labels the seed in compliance with State and Federal seed laws. This seed wholesaler carries the seed from harvest to planting time and in some cases from one season to the next, often at risk of a market drop between seasons. He assumes the risk of declining germination and losses from rodents and other pests.

When great emergencies arise, such as flood and drought, he is prepared to round up quickly, seed supplies from places and sources that the layman knows little about. Through descriptive circulars and catalogs he promotes the use of high quality seed and certified seed of new and improved varieties.

The retail dealer keeps informed not only as to the needs of his customer, but also as to available supplies of one or more wholesale dealers who can quickly fill such needs when his supply runs out. He keeps in close touch with his county agent and experiment stations, and is a constant source of up-to-date information on all field seeds for his locality. He is the one who maintains direct personal contact with the farmer who sows the seed and from whom he gets commendations or complaints first-hand.

Don Lewis and Harris Dunn were in Hereford swimming Saturday.

Former Friona Girl

Married Recently

Miss Sammie Joann Marshall, daughter of Mr. and Mrs. Rex Marshall of Petersburg, and Floyd Nolan Lebow, son of Mr. and Mrs. S. H. Lebow of Abernathy, were united in marriage Friday, June 6, at 8:30 o'clock.

The single ring ceremony was preformed in the Church of Christ in Abernathy by the minister, Ed Bryant. Mr. and Mrs. Charles Buzbee of Abernathy, brother-in-law and sister of the groom, were attendants to the couple.

The bride chose as her wedding costume a dress or navy blue and white nylon with navy and white accessories. Her corsage was of orchids.

The bride was a junior in the Petersburg high school and the groom is employed by a construction company in Lubbock.

Attending the wedding were Mrs. Rex Marshall, mother of the bride, and Mrs. J. E. White and Debby of Friona and Peggy Dell, both sisters of the bride.

Mrs. Lebow was formerly of Friona, attending school here five years before moving with her parents to Petersburg.

Personals

Mr. and Mrs. Nelson Welch and children are leaving this week for Cresta Del Monte for a week's vacation.

Gaylord Maurer arrived home Tuesday to spend the summer with his parents, Mr. and Mrs. Carl Maurer. Gaylord has been attending school in Oregon.

Week-end visitors in the Nelson Welch home were her cousin and family from California.

Mr. and Mrs. S. T. Thornton and Stevan and Mr. and Mrs. Dub Reeve and Colleen of Hereford are spending a week at Lake City, Colorado.

Mr. and Mrs. J. T. Gee attended a dairy meeting in Plainview over the week end.

Personals

Mr. Nelson Welch went to Littlefield Friday to bring home her son, Bob, and Jim Carl Lillard. They had been visiting in the R. L. Bates home.

Al Romich returned Saturday from a trip to Ohio and Kentucky. Mrs. Romich and Margo remained in Cleveland, Ohio to visit with friends.

COTTON IN THE FLOWER BED
The American housewife, long noted for her "fix-it" ingenuity with the common hairpin, has come up with another unique feature in the home scheme.

She has discovered that the ordinary cotton plant is an attractive addition to her flower garden.

This may come as a surprise to those who think of cotton only in

terms of its importance in the Texas economic structure. It may also be hard to visualize by a person who remembers the drudgery of his youth spent in pulling a heavily loaded cotton sack down endless rows in the boll field.

But it is sometimes difficult to see the trees for the forest—and it is equally hard to recognize the individual beauty of a single cotton plant when it is swallowed up in the millions of acres of green

fields that extend throughout the state of Texas annually.

Yes, cotton is a beautiful plant. Varieties with green lint, red leaves or long staple are ideally suited for garden and display purposes. Given ample space and moisture, the plant produces an abundant number of attractive blooms during the summer which are transformed into a snowy wonderland of open bolls in the early fall.

In recent years, the Texas housewife has discovered this fact and she has taken advantage of it. But there is another factor to be considered. She might be breaking the law!

There are 189 cotton producing counties in Texas which are subject to Pink Bollworm quarantine regulations. Fifty-nine of these counties in South Texas and the Rio Grande Valley are limited to specific cotton growing periods during the year to combat the spread of the destructive Pink Bollworm insect. It is in these latter counties that the housewife risks running afoul of the Pink Bollworm law as administered by the Texas Department of Agriculture.

For example, a cotton fancier in Brownsville, where planting and plow up dates are mandatory, may find she has to destroy her "flower bed" by August 31 this year is she is to comply with regulations. This might ruin the entire effect of her summer garden especially if she planted late in the season and the cotton did not have adequate time to bloom.

The Texas Department of Agriculture certainly has no intentions of pressing charges against housewives who innocently violate the cotton regulations. However, plants found growing in areas where their existence may constitute a breeding place for Pink

Seeing is Believing

WHEN YOU WEAR THE PROPER GLASSES, NOT ONLY CAN YOU RECOGNIZE OTHER PEOPLE BUT YOU'RE PROUD TO HAVE THEM RECOGNIZE YOU.

SOME STARFISH HAVE AN EYE IN EACH ARM BUT THEY USE ONLY ONE AT A TIME. THEIR VISION IS LIMITED TO LIGHT-SENSITIVITY.

OPHTHALMIC GLASS IS TESTED FOR LIGHT-BENDING POWER, OR INDEX—ONE OF THE COUNTLESS TESTS WHICH IT MUST PASS BEFORE BEING ACCEPTED FOR SPECTACLE LENSES.

A TUG OF WAR GOES ON WHEN YOUR EYES HAVE TO CHANGE CONSTANTLY FROM BRIGHT TO DARK AREAS, SAYS THE BETTER VISION INSTITUTE. THERE SHOULD BE UNIFORM BRIGHTNESS IN YOUR WORK AREA.

Bollworm will have to be destroyed if they conflict with the legal growing season.

This word of advice, then, to the person who may contemplate adding cotton in the flower garden this year: Make sure of the law—then go ahead.

Mr. and Mrs. H. L. Outland visited in the Bill Buchanan home Sunday afternoon.

Sunday visitors in the O. J. Beene home were Mr. and Mrs. Edgar Ramey, Mr. and Mrs. Edwin Ramey and Mr. and Mrs. Robert Ramey all of Dimmitt.
