

THE FRIONA STAR

It is said that vigilance is the price of liberty. It might be added that the seat of liberty must be near enough home to keep your eye on it.
—Herbert C. Hoover

VOL. 27—No. 44

FRIONA, TEXAS, THURSDAY, JUNE 5, 1952

Price 5c

Column Left...

Come on with those fish stories. We've already heard a few—for things are just bound to happen to fishermen like Jake Lamb. Now Jake tells it that he really caught a big one last week—he caught an outboard motor to be exact, and it got away! It seems some poor sportsman came in quite close with his boat and snagged not one but four lines being guarded by Lamb. Now we would like to have seen Jake scrambling to recover each of the poles with their wildly spinning reels, but he did so successfully though of course losing his tackle.

The Memorial Day observances in Friona were well-attended this year. For the second consecutive year the American Legion Post 206 and the Auxiliary have sponsored parties at the park monument and at the local cemetery, assisted by the churches of the town and the girl scouts and boy scouts. Last year the girl scouts assisted in placing the wreaths at graves of veterans, and this year the cub scouts assisted.

Rev. Russell Pogue of the First Baptist Church delivered an inspiring tribute to veterans of all wars, and he charged the living American citizens with duties and responsibilities to minimize future loss of life on farflung battlefronts.

Congratulations to Mr. and Mrs. Wesley Foster on the remodeling of their dry goods establishment here.

With new and modernistic fixtures throughout the store, this firm need apologize to none in the area for its appealing and convenient display of merchandise. Every fixture, both on the floor and along the walls, is new. The Fosters still are quite busy arranging their large stock on the shelves, but they assure us that the face-lifting will be complete in a very few days; in the meantime they invite new and old customers to come on in and inspect the store.

Birthday greetings to Mrs. Rose Lange (wife of Os the golfer, ya know). We have it on good authority that Os took the lady out to dinner Saturday on this birthday occasion, but we've been unable to pry the exact age from the honoree or other sources. But whatever the age, her life here has certainly been full of good deeds for her fellow-townsmen; the story of her varied and widespread activities as prepared by the Star August 2, 1951 issue) received more favorable comments both here and from other publications than many little newspapers experience throughout their existence.

Don't forget to attend the Parmer County Implement Company frozen food demonstration tomorrow night. The time: 8 p. m. The place: Friona High School auditorium.

In addition to the demonstration, two added features are noted. First, there will be given, absolutely free a home freezer—quite a give-away package we would say, and second: Miss Evelyn Altman, well-known home economist will add her special touch to making the occasion a success.

We join with Granville McFarland and the folks at the implement firm in urging your attendance—you will not be disappointed.

Mrs. H. T. Carr, Helen Nita and Alice Ruth went to Canyon Monday to enroll Alice Ruth in the summer term at West Texas State College. They did some Amarillo shopping.

Friona Rainfall Tops 2 Inches in Week-end Showers

Increased Attendance Is Recorded, Bible Schools

Transportation Is Furnished to Rhea Bible School

Thirty-six children from the Rhea community were present on Monday morning for the opening session of the annual Vacation Bible School conducted at Immanuel Lutheran Church. The enrollment is expected to climb on succeeding days as more children are enrolled who could not be present the first day.

Four drivers make the rounds with their cars each morning and noon to transport these children to and from school.

Serving on the staff this year are the following: Beginners' Dept.—Mrs. Paul Koeltzow and Mrs. E. W. Lichtsinn; Primary Dept.—Mrs. Albert Drager and Mrs. Gilbert Schueler; Junior Dept.—Mr. Herman Herzog and Mrs. M. E. Wagner. Pastor Lichtsinn is the instructor in the Senior Dept. and Mrs. Raymond Schueler is in charge of the handicraft period.

Sessions are held each morning from 9:00 a. m. to 12 noon, Monday through Friday until June 13. The closing exercises will be conducted in the Parish Hall on Sunday afternoon, June 15. The children will present a review of their work and will see a beautiful color movie entitled, 'Tammy'. This service will be followed by the annual Vacation Bible School picnic on the church grounds.

All children of the community who are not yet attending are invited to enroll in the school a any time.

Canyon Man Named District Governor Of Lions Clubs

Milton (Buff) Morris of Canyon is the new District 2-T-1 Lion's club governor. He was elected to the post at the recently held Lion's convention in El Paso.

Governor Morris made a laudatory entrance into the top race last year. His fine showing in the race, together with his impressive record as a Lion, won him the contest this year without opposition.

As a Lion the new governor is a charter member and organizer of the Canyon Lions Club. He is a master key member, three time a Lion Boss, zone chairman in 1941 and deputy governor in 1950-51. He has initiated organization of numerous clubs, has related Lionism to his community and has attended Lion meetings from the local to the international levels.

As a citizen Morris is a graduate of West Texas State and Texas Tech. He is an active member of Llano Estacado Boy Scout Council, a member of the Randall County Junior Livestock Show Association, a member of the Canyon Chamber of Commerce, the Canyon Equalization Board, and the First Methodist church.

At present he is also executive secretary of the West Texas State Ex-Students Association.

Governor Morris is 42 years old.

Methodist School Will End With Sunday Program

Children attending the Methodist Vacation Bible School will terminate their activities this week-end with a picnic Saturday morning and with a program at the church Sunday night.

About 100 young people are attending this school. The group will meet at the church at 9:00 Saturday morning for their picnic. Each attendant is to bring a sack lunch.

Sunday night at the regular church hour the group will present a program entitled 'Sharing'. Parents of the youngsters and the entire congregation are invited to attend.

Rhea Church Cooperates In Expansion Program

Four teams of canvassers will visit every home of the congregation this Sunday afternoon in the interest of the 'Conquest for Christ' endeavor reports the Rev. E. W. Lichtsinn, pastor of Immanuel Lutheran Church of the Rhea Community. This visitation will be to solicit a pledge from each member of the congregation toward the \$10,000,000 expansion program that was adopted in 1950.

Immanuel Congregation is co-operating with the 5000 congregations of the Lutheran Church-Missouri Synod in promoting a 'Conquest for Christ' expansion plan for its 14 colleges and seminaries and in strengthening its world-wide missionary endeavors.

Members of the committee which has planned the program for the local congregation are Mr. Carl Hoffman, Mrs. Martin E. Wagner and the pastor.

In the worship services on Sunday morning pastor Lichtsinn will deliver the sermon on the subject, 'Those Remarkable Macedonians—An Example in Christian Giving,' and the service will close with a special commissioning ceremony for the team of canvassers.

Mrs. Glenn Reeve and boys and her mother, Mrs. Jess Sparkman of Amarillo, drove to Hobart, Oklahoma Saturday morning to visit with her sister and family, Mr. and Mrs. Lloyd Ridling and their son, Jimmy, who had just returned from Korea.

Saturday night Glenn Reeve and Mr. Sparkman went to Hobart for a family reunion. The group had Sunday dinner at the Country Club, then went to a near-by lake where the Ridlings have a cabin.

The Reeve's returned to Friona Sunday night.

Largest Group Yet Attends Baptist Vacation School

Record attendance has marked the Vacation Bible School being conducted this week at the local Baptist Church, with 221 children and young people of the 2-16 year age group present at the Tuesday morning session.

The school is being held from 8:45 until 11:30 o'clock each morning this week with graduation exercises scheduled for Friday evening at 8 o'clock.

Mrs. Bill Sheehan is general superintendent of the school; Mrs. Joyce Renner is song leader, and Sue Jones is pianist. Department superintendents include Wesley Hardesty, nursery 1; Miss Kathryn Brand, nursery 2, and Mrs. John Thomas, nursery 3; Mrs. Johnnie Marrs, beginners 1; Mrs. Joe Talley, beginners 2; Mrs. Raymond White, primary 1; Mrs. D. C. Herring, primary 2; Mrs. Leonard Coffee, juniors; Mrs. Roy Lovett, intermediates; and Mrs. Ruth Lloyd, general secretary.

Thompson, Menefee Will Attend State 4-H Roundup, A&M

Parmer County boys who will be journeying to the state 4-H Roundup at College Station this week-end are Darrell Thompson and Dwaine Menefee.

Thompson, son of Mr. and Mrs. John S. Thompson, has been quite active in club work and has centered his activities on raising of Shorthorn cattle.

Menefee, son of Mr. and Mrs. Joe Menefee, has been interested in both hogs and cattle and is now concentrating his work on beef steers.

Locals Nosed Out by Tulia Ballplayers In 6-5 Game; Will Play Nazareth Sunday

Friona baseball players experienced a change of luck this week and were edged out by Tulia Sunday in a 6-5 tally.

Veazey was the only local player to get more than one hit.

Friona will play Nazareth on Friona territory Sunday at 2:30; this promises to be a good game, those in the know prophesy.

The box score:

Friona	ab	r	h	e
Cook, cf	5	0	1	0
Patterson, lf	4	0	0	0
Looper, lb	4	0	0	2
Long 2b	3	0	1	0

U. S. Sherrill Is Named Methodist Pastor At Friona

Rev. U. S. Sherrill, Methodist minister assigned to the local church by the recently held Northwest Texas Annual Conference, is moving with Mrs. Sherrill to Friona today, and he will fill the pulpit Sunday morning.

Rev. J. E. Tidwell was transferred to Paducah.

Rev. Sherrill served the Sudan Methodist Church for five years going there from Dimmitt. He comes quite well recommended.

Several changes of pastorates were made in the district, including the transfer of Rev. Don Davidson of Hereford to the Levelland church, and Rev. T. Edgar Neal being sent from Levelland to Hereford.

Rain Damage Slows Station Building

Construction of the new service station at the northwest corner of Friona was slowed this week by damage to the tanks and pit by the Saturday night rain. Mr. Paul Strickland, who will own and operate the station, had just placed three large tanks in the pit, 11 ft. deep and 40 ft. long and had tied in all connections. With no cover or drainage, however, water rushed into the hole, floating the tanks and breaking connections. Strickland said the two 1500 gallon tanks and the 5,000 gallon tank would have to be removed while the pit was cleared.

The new station will handle Shamrock products, and will probably be opened in a month or less, Strickland said. Known as Strickland's Truck Stop, it will be open 24 hours per day.

Six pumps, including one diesel, are being installed.

The Parmer County Farm Bureau is assisting in defraying the expenses of these boys on their trip.

The Friona vicinity and Parmer County were the favored spots in the entire Panhandle for moisture received over the week-end, with 2.05 inches being record until noon Wednesday by the gauge at the Friona Consumers.

The Saturday night rain accounted for 1.25 of this total, with .80 falling in intermittent showers Sunday afternoon and Tuesday afternoon. Considerable wind and some hail accompanied the Saturday night rain, but relatively little damage has been reported from the fine hail.

H. V. Rockey Goes To Boys State As Legion Awards Trip

H. V. Rockey will go to the state capitol in Austin this week-end to participate in the Boys State week sponsored by American Legion posts of Texas.

Rockey was selected from students at the local school for this expense-paid trip awarded this year for the first time by Post 206 of the American Legion.

At Austin, Rockey will participate in a comprehensive study of party politics and state government. Political parties will be set up, caucuses held, and elections ensuing after which the officers elected will perform the duties of their respective offices during the week at the Boys State meeting.

Honor Roll Is Told for 6-Weeks And Entire Year

The honor roll for the Friona Grade School has been announced by Principal John Parrish for both the last six-weeks and for the entire year.

Those making the roll for each six weeks during the year include:
First Grade: Brenda Deaton, Max Reeve, Sharon Reeve, Linda Kay Johnson and Larry Van Potts.

Second Grade: Donald Koeltzow, Larry Mabry, Jimmett McLean, Tommy J. Sanders, Janet Smith and Frank Henderson.

Third: Gayle Knight, Karen Trieder, Jarry Rankin.

Fourth Grade: Freya Robison and Jacquelyn Magness.

Fifth Grade: Kim Caffey, Dale Smith and Pat Cranfill.

Last 6-Weeks Honor Roll
First Grade—Mrs. Stark: Earl Crow, Tom Gee, Dan Douglas, Betsy Ann Frye, Iva Ben Parr, David Talley, Linda Chapin.

Mrs. Bengert:
LaVoyce Burrow, Brenda Deaton, Max Reeve, Sharon Reeve, Linda Kay Johnson, Larry Van Potts.

Second Grade—Miss Richards: Donna Baker, Karen Sue Turner, Janet Smith, Tommy J. Sanders, Jimette McLean, Larry Mabry, Jim Carl Lillard, Donald Koeltzow.

Third grade: Miss Phillips; Kitty Black, Donna Blackburn, Cynthia Ann Caffey, Gayle Knight, Karen Trieder, Jerry Rankin, Bobby Sanders.

Mrs. Mast: Roma Kaye Struve, Nelda Douglas.

Fourth Grade—Mrs. Edelman: Milford Jasper, Johnny Messenger, Monty Baker.

Mrs. Jones: Carolyn Crump, Adelle Smith, James Gee, Geneva Floyd, Robert Neelley, Lawana Houlette, Judy Smith, Stella Jo Cole, Jacquelyn Magness, Freya Robison.

Fifth grade: Mrs. Jones: Margaret Mabry.

Mrs. Clingan: Kim Caffey, Ted Sanders, Gary Sherrieb, Dale Smith, Pat Cranfill, Darlene Stowers.

Sixth grade—Mr. Jarboe: Betty Agee.

Seventh grade—Mrs. Nazworth—Janice Miller.

Some cotton is being replanted in spots over the county, but the rains have provided a good seed bed for the grain sorghum planting which had been awaiting sufficient moisture in most localities.

The heavier rains during the week-end occurred in a strip bound on the north by Borger and on the south by Tulia, Borger recording 1.68 inches, Amarillo, 1.25; and Tulia, 1.15.

No wheat harvest is expected until around the first of July, local grainmen agree, though a few isolated fields may be ready several days before that date. Little of the crop is in the dough stage at this writing.

Though the panhandle wheat crop will be shorter than in some years, the grain picture over the nation is bright, the Department of Agriculture reports, with large wheat harvests in prospect in the mid-west. The lesser local acreage is due in some part to adverse weather conditions and also to diversion of land to cotton and grain sorghum use.

Though considerable sand was in the air yesterday, with winds from the southwest, the Amarillo weather report forecast additional showers throughout the week. High temperatures have been in the high 80's with nighttime lows of 50-55.

Local Firemen Assist In Fighting Hereford Flour Mill Blaze

Five members of the Friona Fire Department answered a call from Hereford about 11:30 o'clock Monday night, assisting in fighting the fire which destroyed the Fraser Sunny Boy Flour Mill there.

Making the trip were Charlie Bainum, Fred White, Roy Wilson, Kenneth and Wayne Bainum. They returned to Friona about four a. m.

Other departments besides Hereford fighting the blaze were Dimmitt and Canyon.

Freezer Will Be Given Free At Demonstration

One of the leading attractions held recently in Friona will be the International Harvester frozen food demonstration to be held Friday night at 8 o'clock in the local high school auditorium. In addition to a large display of freezing units and demonstration of methods, there will be given someone attending, absolutely free, an International Home Freezer, Granville McFarland of the Parmer County Implement Company announces.

Miss Evelyn Altman, home economist of note, will conduct the demonstration; she has been widely acclaimed for her ability in this field.

The public is invited to attend this free school.

Scout Workers Invited To District Roundtable

Local Scout workers are invited to attend the Deaf Scout District Roundtable at Hereford today at 8 p. m.

District Commissioner Bill Phillips urges attendance, assuring an interesting program. The meeting will be held in the scout hut there.

Editorially Speaking . . .

We're Still Wondering - - Are we Solving the Labor Problem

There's going to be a local influx this year of common labor, migrant labor, itinerant labor or whatever you choose to call the cotton pickers who follow the crop.

We have heard of few preparations to serve this group either with housing on the farms or with service in the retail stores; in fact only two comments have been outstanding—one: We don't care for the Mexican nationals, and, two: 'We're going to need lots of pickers.'

How can these two groups of thinking be reconciled?

Let's look at the hard facts. Without question labor will be needed in excess of the local supply. Starting then from there, where are we going to get the labor, what do we expect in them, and what services do we plan to give in return?

With Mexican national workers being considered, let's analyze their advisability and their disadvantages. First—the reason for importing workers is to benefit from the WORK they can perform; with this as the first consideration, then their personal characteristics would fall into second place. True, many, many of the workers from south of the Rio Grande are undesirable—especially in their household and personal habits—knowing and caring little for sanitation. Certainly this group should be widely segregated from the local population for any degree of satisfaction. But this could be done in most instances.

Then there are the negroes and the valley

Mexicans. From experience we have found many of the lower valley workers entirely satisfactory in their work and in their living habits—with some exceptions just as found in even the white workers. But the supply of Texas Mexicans quite probably will be inadequate to insure a short harvest here.

We personally would be willing to stretch a point and welcome the National labor—only when the local supply and the itinerant Texas Mexican labor is exhausted.

Another point—from the retail merchant's viewpoint directly and all of us indirectly—the Mexican coming here WITH his family (as would most Texas laborers) would spend a large portion of his earnings locally, whereas the single laborers from across the border will send every penny possible back into Mexico to their impoverished relatives. And don't kid yourself—the Texas Mexicans DO spend, and spend liberally. Managers of the larger chain dry goods stores of the Southwest always prefer a location where there's a large year round payroll or a large seasonal supply of Mexican laborers.

We've a long way to go—and we even have much to learn—in successful employer-employee relationships in getting the cotton out. Housing is an immediate and very real problem. But the job must be tackled, and with reasonable success—if this county is to remain on the 'white sheet' for use of the itinerant workers.

Other Editors Say

Other Papers See Injustice of Tidelands Claim

From

THE OCHILTREE COUNTY HERALD

President Harry Truman, in a typical burst of anger recently told a private organization that the passage by Congress of the bill to restore the Tidelands to the states was 'robbery in broad daylight—and on a colossal scale.'

There is robbery involved in the Tidelands issue—but who is robbing whom.

As Sen. Lyndon Johnson of Texas points out for more than 100 years these submerged lands have been considered part of the public domain of Texas and the tidelands were retained by Texas under the treaty by which she joined the United

States. This viewpoint has been upheld by international treaty, former Supreme Court justices, the National Association of Attorneys General, the Governors Conference, an overwhelming majority of the members of the House of Representatives, and a substantial majority of the members of the U. S. Senate.

President Truman says he can't understand the non-coastal states voting to give something away like the Tidelands. That's not the question—it's a question of honesty, and giving back the states lands which was taken from them because of federal greed, pure and simple.

Position of Publisher Again Is Clarified

From

THE CANYON NEWS

There are still a few persons in America who fail to understand and appreciate the mission and purpose of the newspaper.

After messing with type and ink for almost 50 years, we wonder sometimes if we really appreciate the job which has been cut out for us, and the manner in which we are carrying forward that job.

In the first place, the news columns of a newspaper are open for public information and for advertising from any or all sources which may be termed legitimate. These columns belong to the public, but here the obligation of the publisher steps in; for he has a clear mandate over the kind of news and kind of advertisements which shall be permitted in his columns. When he is honest in his work, he will allow no dishonest statements to appear in his columns, or any dishonest advertise-

ment. A lot of material passes over the desk of the publisher for every issue. It is his personal responsibility to select the wheat from the chaff. Sometimes he fails to detect the difference.

The editorial page of the newspaper belongs to the publisher. He expresses his personal views on any subject which he wishes to discuss. It makes no difference to the publisher whether the reader agrees or disagrees with the published word. Becoming abusive will solve no problems of either the question at hand or to change the views of the publisher. The editorial page is clearly marked as editorial and the expressions are usually the opinion of one man—on small publications; or a group of men—on the big daily newspapers.

What a mess the editorial page would be if the publisher attempted to say just the right thing which might please each and every one of his readers at all times. No one expects the impossible to happen.

PITTSBURG (Texas) GAZETTE (Dem.) says:

The Anti-Trust law is hard to understand. Awhile back a large retail grocery company was sued because it lowered prices. Now a large soft drink concern is being sued because it does not raise prices.

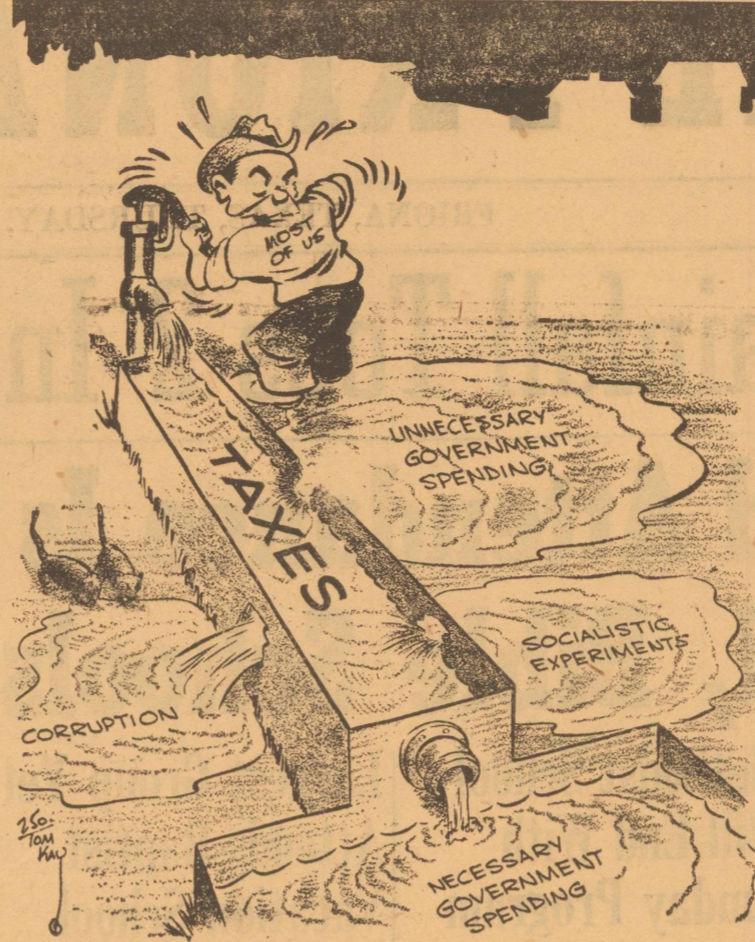

KERMAN (Calif.) NEWS (Ind.) says:

President Truman has asked Congress to

double the second-class postal rates. The purpose he says is to cut down the post office deficit.

However much we all would like to see less red ink in our mail system, it would seem that Congress might first put into effect some of the economies recommended by the Hoover Commission for the Post Office. These would go far toward balancing the postal budget.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

Let it never be said that the Office of Price Administration, sometimes known as OPS, sometimes known as Office Plenty Screwy, is ever caught napping. No, no, those people are worth every cent of the \$77 million dollars they are costing the nation's taxpayers a year.

Recently, there was a bright April morning, and not a mimeograph machine was whirring or turning out the daily tonnage of press releases. It was pretty glum for such a bright morning in the Office Plenty Screwy. The situation was critical, but then as in all times of business crisis, a genius arose. Orders were relayed, department heads were alerted to spring into action.

And chaos was turned into victory that recent bright April morn. An order was written.

It is known as CPA 22, Amendment No. 45. What does it do? It establishes price ceilings on Christmas tree lights, and what's more, it freezes the price in use prior to January 25, 1951, effective as of April 12, 1952.

Then with this tremendous decision reached, and with creation of a white hot pitch, the Office Plenty Screwy ended the day on a note of high level activity.

So out from conferences came the momentous decision that canned Maine soft shell clams are now exempt from price control, provided they are soft shell, and strictly from Maine. And OPS explains this decision with the notation that releasing soft shell clams should have little or no effect on the cost of living.

©National Federation of Independent Business

It is reported that the Office Plenty Screwy made the move on Christmas Tree lights solely because a brother bureau, the MSA, successor to the Marshall Plan, has been getting all the glory for being Santa Claus' little helper. The OPS wanted Santa Claus to know that they, too, stand strictly with him.

That was because just a few days before, the MSA gave away \$29,394,000 worth of materials to Europe, including \$700,000 worth of scarce paper to France. In fact, France did quite well, getting slightly more than \$14 million for the homeland, another \$2-1/2 million for her colonies.

But of course, other nations weren't left out either. The land of sweetness and democratic principles under Dictator Tito, Yugoslavia, got quite a big load of coal, shipped from the U. S., France got over a million dollars worth of copper stripped from the U. S. limited stockpiles, and Greece got a half million dollars worth of coffee.

But in addition to raw materials, Europe is now receiving millions of dollars worth of U. S. manufactured goods almost every day such as motors, tractors, engines, other apparatus.

And from all over Europe come reports of mounting unemployment in European industrial centers because of surpluses.

It seems the European cartel industries cannot afford to hire labor to build equipment and machinery, when they can get it for little or nothing through the generosity of the U. S. It is becoming more and more apparent that while at home bureaucrats engage their time on trivia such as Christmas tree lights in April, and soft shell clams, the U. S. has yet to come to grips with the crux of both the domestic and foreign problem which is the rapid growth of monopoly and cartel systems.

Do You Remember...

25 Years Ago

Two robbers had entered the Friona State Bank shortly after 12:30 on Friday and forced Jessie M. Osborn, assistant cashier, to open the safe and remove \$3,713.30 in cash and then escaped. They were in the bank only a few minutes. Osborn was alone in the bank when the two men entered and forced him to the back of the bank at gun point. Two customers, Floyd Schlenker and an unknown man, were locked in the vault with Osborn, where they were discovered about thirty minutes later by G. D. Anderson when he returned from lunch. M. A. Crum and Floyd Reeve had followed the bandits in a Chrysler touring car and when the paper went to press were about five miles behind the bandit car.

The LeGrand brothers, Louis and George, and J. R. Roden had purchased the T. J. Crawford Drug Store, the LeGrand brothers are from Hereford.

"Daughter of The Desert" was staged by local talent.

The Star carried a two column boxed "Recipe For Hard Times" on the front page. It was as follows:

'Substitute corn bread for cake; sweet potatoes for mayonnaise; sorghum for maple syrup; milk for coco-cola; truth for lies; honesty for installment buying; cotton step-ins for silk pajamas; conservation for optimism; walking sticks for Fords; schools for picture shows; Graham bread for flap-jacks; dry cleaning for new suits; common sense for recklessness; punctuality for tardiness and decency for immorality.

Try this on your graphophone, adds the Star in presenting this recipe.

A deal was consummated here Wednesday June 1, 1927, whereby H. G. Jones released the ownership of his tailor shop to E. E. Jackson of Texico.

Ground was broken this week for another new business building in Friona.

Coral is animal life.

The Law and You

By Robt. (Bob) Kirk

DO YOU KNOW what the second and third Amendments to the Constitution of the United States, being a part of the Bill of Rights, are?

Amendment No. Two states: A well regulated militia, being necessary to the security of a free state, the right of the people to keep and bear arms shall not be infringed.

Amendment No. Three states: No soldier shall, in time of peace be quartered in any house, without the consent of the owner, nor in time of war, but in a manner to be prescribed by law.

Both of these amendments were brought about by abuses by the English government against the colonials. To keep the people from being able to demand any rights, or to defend themselves, James II of England had tried to take their weapons away from the people of the colonies. With this fresh in their minds, those who made the second amendment to the Constitution wisely provided that at no time should the government be allowed to

take away the weapons belonging to the individuals. Should the government be able to take over all weapons belonging to the individual, of the government then became abusive and oppressive of the individual's rights the individuals could not then fight to protect their rights, and liberties, we would become a servile people. Also by being allowed to keep his individual weapons, the individual is in a position to defend himself and his home against individual aggressors.

The amendment against quartering soldiers in the homes of individuals, without their consent, grew out of abuses which arose in colonial days, when British troops were quartered in the homes of the colonials, but it is still a wise provision, and its protection for the individual guaranteeing to him the sanctity of his home.

GRASS ROOTS

It was a pleasure this past week end to welcome the old-timers of the area to Hereford. I can't help but wonder about the many thoughts going through these first settlers minds as they drove through this area coming to Hereford for the Pioneer Day Celebration. Most of us that have seen this country change over a period of years and do not appreciate the huge face lifting job that has occurred. Fields of potatoes, onions, sugarbeets and lettuce, where there used to be native grass pastures or fields of wheat or bundle feed crops. Thousands of irrigation wells pumping clear water over land heavy in crops that were never seen in this area in the grocery store shelves, much less growing here. More head of cattle on less acreage and better cattle than ever before. I have a little trouble visualizing this great change in our country because I have grown up with it, but when I think back it hasn't been so long ago that it took a four or five section spread of land here to even begin to run stock. Now I help farmers plan livestock programs on 160 acres.

NEW FRONTIERS:

We haven't even begun to scratch this area yet. The old adage 'Don't put all your eggs in one basket' is being carried out here on practically every irrigated farm. Cash crops, soil building and livestock are gradually eliminating the one-pay day-a-year method of farming. It is estimated that in twenty years, for every four people that set down to eat breakfast this morning there will be a fifth plate to fill. This fifth person will not be a guest but a permanent mouth to feed. This will require more production on less acreage than ever broe. There isn't any more land to break out or new acres to exploit. To feed this fifth mouth will require increased production on the land that is in use now. This is far from being impossible—in fact it is much less of a challenge than our early people took up when they first came to this area. We have the land, water, and the know-how to do this job, and if we can't do it, then we will have to step down and let someone else in that will. All of this will require a change in the method of farming we are used to here, and changes generally are a little large a pill to swallow for most people. However, if people were really as hesitant to change as all outer appearances would have us believe them to be, very few would ever get married!!!

I want to keep reminding you of the VETCH deal. There is no doubt now that if this crop is in the ground early it will produce early Fall grazing. This is a big thing for this area and I'm hoping all of the farms under irrigation will be sporting this fine plant this Fall.

Walther League Birthday Banquet

Approximately 62 people gathered at the Lutheran Parish Hall on the evening of May 23 for a banquet in celebration of the

Walther League Birthday. This being the 59th year of the organization. The banquet was sponsored by the Walther Leaguers with the members of the congregation as their guests.

The hall was decorated in the league colors of black and gold with red roses providing the touch of red. The menu consisted of grape

cocktail and cheesets followed by Dutch meat loaf, whole corn, spaghetti with tomatoe sauce, green beans, a salad of jelled peas on lettuce, and rolls, ice tea was served and relish plates were placed along the tables, a dessert course of peach cobbler heaped with ice cream followed the delicious meal.

The principal speaker at this affair was Mr. Walter Voth who is a teacher at Trinity Lutheran School in Amarillo. His topic was 'Being About Our Heavenly Fathers Business'. The toastmaster was Mr. Gene Snell, a member of the League. Herman Herzog gave the welcome address.

Paul Koeltzow spoke as chairman of the congregation expressing his appreciation and approval of the league and thanking the members of the league for the banquet, and the member of the congregation for their cooperation. Raymond Schueler spoke in behalf of the Men's Club and Wilma Schueler gave a response as Ladies Aid Representative. Pastor Lechtsinn gave an interesting talk concerning the Walther League—its purpose in the church—its founders—and what this particular league has accomplished since it was organized in 1938.

Entertainment was carried on throughout the evening by the singing of banquet songs, Edmond Drager gave a number on his guitar, Irene Drager on her accordion, and Bonnie Wagner rendered a selection on the piano. Short humorous, skits were presented by Edgar and Donald Koeltzow and Bonnie and Ruth Wagner.

The evening came to a nappy climax with the singing of the Walther League song and the Doxology. Mr. and Mrs. Carl Schlenker and Connie were in Amarillo Thursday attending to business. Mrs. Selina Wagner's sister Mrs. O. W. Kehn from Malone, Texas spent several days with her this week. On Wednesday two other sisters and families, Mr. and Mrs. Martin Kube, a nephew, spent the day here. They are from Lariat, Texas. There were four

FATHER'S DAY NOTE

DEAR FAMILY:—With Father's Day coming up June 15, I suppose you're thinking about a gift for your dad. Well, how about something extra special this year, an out-of-the-ordinary gift that will make him the pride of the country club? For instance, this blue and black Tattersall vest in luxurious British Woollen is slated to be a wardrobe highlight—or these superbly soft British Argyle socks in a wide variety of colors that are bound to please. How about that? Lovingly,
B. A. Blacksheep, B.A.

sisters together, they really enjoyed it. Mr. and Mrs. Truman Daniel took their baby to an eye specialist at Amarillo their past week.

THE CHURCH IS FOR EVERYONE

You have heard it said often that everyone should attend Church regularly. But have you ever stopped to analyze the absolute validity of that statement? The church is The one institution which devotes its entire effort to the building of character—and without men and women of character, the civilization that we love will surely fail. That's why every man and woman who carries responsibility — in the home or community — needs the strengthening influence of the church — just as the church needs their support in all its activities. Join your friends in the church of your faith, every week.

WHERE EISENHOWER STANDS

By RAYMOND PITCAIRN, Editor
Americans for Eisenhower

IKE AND CAPITALISM
Where does Ike stand about "Capitalists?" Eisenhower's speech to 3500 newspaper boys at Philadelphia on October 6, 1948, made in defense of capitalism, is a gem. In it Ike the statesman talks to the nation's youth in words they understand. For Ike was himself a newsboy in Abilene, Kansas, and he has kept the common touch.

Who Are Capitalists?
"Hello, boys I am proud to be with you tonight . . .
"You fellows, in your job of delivering newspapers, must have had a chance to read in them a lot about a class or group of men called capitalists. Often they are referred to in terms of anything but respect. They are called anything but gentlemen. In fact, they are called the source of all our evils.

"But now you are capitalists. You have exercised the right of a free American citizen to save a portion of what he has acquired by his own efforts and put it aside for a rainy day or possibly for your schooling or a bicycle—what difference does it make? You are a capitalist the second that you save any money.

"Now because of that I congratulate you fellows heartily, for to my mind a capitalist, far from being someone to condemn, in this country is one who by his own efforts in the past has made it possible for this country to be what it is today. The accumulated savings of this nation by investment and reinvestment have established these great newspapers that you boys carry to your clients and have given you a chance for a job.

The Rights of Newspaper Boys
"You read a lot about people who say, 'Why have property? Let the government have it. Then they will take care of us all when we are old.'

CC Judg. Lizzie Ford, Angus Owen Ford et al.
W. D. R. B. Ford, et al, Marion F. Green, Sec. 23, T-9-S, R-1-E.
Assign. Edgar Martin, Ernest Loyd.
Rel. F. F. S. & L. E. E. Landrum, Lots 25 & 26, Blk. 6 Farwell.

"For the love of money is the root of all evil: which while some coveted after, they have erred from the faith, and pierced themselves through with many sorrows." —I Timothy, 6-10.

"Now, men, here is something to remember. There is a bunch of rights and privileges that you enjoy that they do not have in some nations. "One is the right to talk and say what you please as long as you tell the truth; to go to the church or the school you please; to take the job you please and to work at it as long as you please, and if you don't like it to quit when you please. And no one can stop you.

"Now remember this. All of these rights are like a great stone arch. Remove one and all the rest fall. When you do not have the right to save money like you are doing, you are going to have no right to speak as you please, to worship as you please, to go to the school you please. Indeed, you will do as you are told.

An American Sergeant's Idea
Ike then went on to tell the inspiring story of an enlisted ordnance sergeant who had an idea which contributed greatly to the winning of the battle of the Normandy invasion. Dramatically and simply he told the boys how the sergeant had given the idea to his captain, the captain to General Bradley, and Bradley to him. "Then," said Ike, "we rushed to the sergeant."

"Now that sergeant contributed more with his idea to win the battle of Normandy than any other single operating person I can think of.
"And boys, I ask you this. In what country of the world would there be the enlisted man who would have the initiative, the ingenuity, the resourcefulness to think of the idea, and above all have the courage, the upstanding self-confidence to come forward and present his idea and win a great battle."

VISITING IN OHIO
Mr. and Mrs. Alan Romich and daughter Margo left early Tuesday morning for a two weeks trip to Ohio and other northern and eastern states. They will visit relatives in Ohio, and Alan will fill several speaking engagements in the Cleveland vicinity.

Mr. and Mrs. Wesley Foster, Pattijon and Ray Nell returned from Dallas and Denton Friday.
Benjamin Harrison was the last U. S. President to wear a beard.

Engagement Announced
Mr. and Mrs. D. E. Richards, Lamesa, Texas, announce the engagement and approaching marriage of their daughter, Iola, to Earl E. Hise, son of Mr. and Mrs. L. J. Hise, Falfurrias, Texas. The wedding is to take place on June 22 in the Klondyke Baptist Church, near Lamesa, Texas.

Miss Richards was a teacher in the primary work and Mr. Hise was the Band Director of the Friona School.

The Roy Clement's, Sloan Osborn and Claude Osborn's were in College Station over the weekend attending the A&M graduation exercises.

Charles Osborn, son of Mr. and Mrs. Sloan Osborn, was a member of the graduating class.

Mr. and Mrs. S. T. Thornton and Stevan attended the rodeo in Hereford Sunday afternoon.

The Tidelands Veto

The veto of the tidelands bill by the President came as no surprise. The veto message reached the Senate at two o'clock on May 29th. At the time I was sitting in the Senate Chamber along with Congressmen Poage, Ikard, Pickett and Teague. We received some of the first copies of the message after it was delivered to the Senate. The reason that the message went back to the Senate rather than the House of Representatives is because the bill that was finally passed was a Senate bill, SJ Res. 20. The Senate will vote on the question of overriding the veto sometime between June 5th and June 10th under present plans. Should the Senate override the veto, the matter will then come to the House of Representatives, where there is no question about overriding the veto. That is, if the Senate overrides the veto, the tidelands question will finally be settled right. Should the Senate fail to override the veto, the matter will not come back to the House Representatives, and the tidelands legislation will have suffered 'another setback'. I say 'another setback' for the reason that a failure on the part of the Senate to override the veto does not mean that the issue is settled. This fight will never be relaxed until this matter is settled right and these lands returned to their rightful owners. Much has been said about the present President of the United States being set in his ways and obstinate. Some say this is a basic Missouri trait. Be that as it may, I can tell the President of the United States and all other interested parties that they don't know the meaning of the phrase 'set in their ways' or the word 'obstinate' until they try to run over a bunch of Texans. That is exactly what they have done their medicine. If they think for and they can get ready to take one minute that we as Texans have ever entertained the idea of

submitting to this rank and flagrant misuse of property right and this legalized larceny on the part of the Federal Government, they are in for the saddest awakening of their questionable careers. The President's veto message clearly exhibits that the INFAMOUS GREED that prompted this attempted theft in the first instance is still the only grounds upon which they stand in their sordid attempt to justify an act that has no parallel in the criminal annals of this nation. The tidelands steal that began with the reversal of position by Harold Ickes will go down in the history of this country as the greatest crime that was ever perpetrated by a government upon its patriotic and law-abiding citizenry. Nothing can ever erase the black mark caused by the warped philosophy that prompted centralized government scoundrels to make this raid. It can, however, be limmed by a full restoration of the property stolen, the acknowledgement that a wrong has been committed, a confession by these wrong-doers that they have violated the spirit and the word of the Constitution and the written law of this great land, and a humble request by each of them that they be allowed to re-dedicate their lives to the basic philosophy of truth, honesty and Americanism.

The House of Representatives stands ready, able, and willing to meet its responsibilities to the people of the coastal states who have been subjected to this unethical and ignominious treatment at the hands of the Federal Government. I only hope and pray that the Senate of the United will permit the light of Truth to shine upon its chambers and measure up to the glorious traditions of fairness and justice so necessary for the survival of our union.

In my newsletter of last week I told you of some incidents concerning the tidelands question that indicate the complete lack of knowledge of the true issues involved. The President's veto message reflects either a total lack of knowledge of the basic principles involved or a deliberate attempt to write around these basic principles and to justify an admitted wrong by question-beg-

ging tactics. That the entire tidelands steal was prompted and prosecuted by greed is revealed in the following paragraph contained in the veto message:

'Until recent years little or no attention was paid to the all practical purpose without value. But about twenty years ago oil began to be produced in substantial quantities from the submerged tidelands off the coast of California. Then, for the first time, the legal question of owner became important and was given serious consideration.'

Yes, the Federal Government never had title to these lands, never claimed title to these lands, and in fact denied that the Federal Government had title to these lands, until long after potential oil development became apparent. The states were permitted to make leases on these lands

that were not questioned by the Federal Government, and all of the written law fully supported the state ownership. was when the vast riches in these lands began to be realized, long after the first oil production, that the scheming and conniving minds of a small group of men, prompted by greed and spurred on by a lust for power, conceived the

trickery and the chicanery that finally resulted in the Supreme Court of the United States pulling out of the hat an unheard of theory of real property law and sovereign power that cast a cloud upon the title to every piece of privately owned property in the United States and its possessions.

Officers Installed Last Week At Annual Meeting Woman's Club

Twenty-eight members and two guests were present at the Friona Women's Club annual buffet luncheon given at the Clubhouse Wednesday of last week.

Room decorations carried out the club colors of green and yellow in the floral arrangements and table. The tables were arranged in a 'U' shape, and each section centered with an arrangement of yellow carnations and candles. Nosegays of honeysuckle and yellow pansies with green and yellow streamers were at each plate and cards with yellow roses on them were used as placecards.

Menu for the occasion consisted of fried chicken, meat loaf, roast, beans, peas, potatoes, salads

hot rolls, relish dishes, cake, pie, mixed nuts and iced tea. After the dinner, the program began with the introduction of a new member, Mrs. Fred Carson. Roll call was answered with the response each member would like for the next year. After the reading of the minutes, the committee chairmen gave their annual reports.

The club presented Mrs. Wesley Hardesty with eight crystal salad plates in appreciation of the work she had done as president during the year.

The program theme, "Character Building Done by Piecework", was carried out in the talk, "Improving One's Personality" given by Mrs. John Bengier.

Mrs. Floyd Schlenker conducted the installation of the new officers. As each new officer was installed, the retiring officers pinned on corsages of yellow carnations.

Officers installed for the new term were: President, Mrs. V. R. Jordan; vice-president, Mrs. J. L. Hough; secretary, Mrs. S. L. McLellan; treasurer, Mrs. S. S. Prichard; parliamentarian, Mrs. George Meyer; and reporter, Mrs. W. A. Toney.

Mrs. Jordan, newly installed president, then submitted committee names for the year. These were as follows:

Program: Mesdames Floyd Schlenker, J. C. Wilkison, G. L. Hough.

Finance: Mesdames C. W. Dixon, Bert Chitwood, Spencer Hough, J. A. Lamb, John Bengier, N. Jarrel.

Hospitality and Membership: Mesdames F. W. Reeve, J. F. Miller, L. R. Dilger.

Youth and Fellowship: Mesdames G. E. Reeve, George Meyer. Welfare: Mesdames Ed Boggess, T. E. Lovette, A. H. Boatman, W. B. Stark.

Cemetery: Mesdames Frank Reed, M. B. Buchanan, Mary Officer.

Flower: Mesdames W. A. Toney, Pearl Kinsley.

Lions Chairman, Mrs. Roy T. Slagle; Press Book, Mrs. Charles Russell;

Federation Counsellor, Mrs. Wesley Hardesty.

Hostesses for the evening were Mesdames J. A. Lamb, Roy T. Slagle, L. F. Lillard, J. C. Wilkison, G. L. Hough, and Wesley Hardesty.

Guests were Mrs. Russell Pogue and Mrs. Mary Heitzman of San Jose, California.

ANNOUNCEMENT

Mr. and Mrs. Harold Lillard are the parents of a baby boy, born Sunday at the Parmer County Hospital. He weighed 6 pounds and has been named Miles Lawrence.

Hospital Notes

ADMITTED

Mrs. Jurko Mykytyn, OB,ovina.

Mrs. W. E. Thornton, med. Farwell.

Mrs. Giles Gobb, med. Friona.

Mrs. Clyde Knight, med.

Mrs. Harold Lillard, OB, Friona.

Mrs. Weldon Dickson, OB, Friona.

Mr. Loyd McWhirter, med.,ovina.

Betty Stratton, accident, Amarillo Air Force Base.

Warren Roehrman, accident, Amarillo Air Force Base.

Carol DeFay, accident, Amarillo Air Force Base.

Mrs. Rosa Anderson, re-admitted, surg.

DISMISSED

Mrs. Jimmy Baxter and baby boy.

Roy Fitzgerald.

Mrs. M. B. Buchanan.

Mrs. W. E. Thornton.

Mrs. D. C. Looney.

Mrs. Jurko Mykytyn, baby boy.

Mrs. W. E. Thornton.

Mrs. Clyde Knight.

Mr. Loyd McWhirter.

Betty Stratton.

Warren Roehrman.

Carol DeFay.

New Arrival

A baby boy was born to Mr. and Mrs. Weldon Dickson at the Parmer County Hospital Monday. He weighed 7 pound and has been named Richard Wayne.

HERE FROM SAN ANTONIO

Bill Sheehan was visiting at home in Friona this week; he recently was called back into the services and is presently stationed at Fort Sam Houston in San Antonio. He is serving as an assistant prosecutor in court martial cases in the 4th Army Headquarters.

Attend Graduation

Mr. and Mrs. W. B. Norwood, Jimmy, Jerry and Lois went to Albuquerque Friday to attend the graduation exercises of the University of New Mexico. W. B. Norwood, Jr. was a member of the graduating class. They returned to Friona Monday night.

A. D. Eden, son of Mr. and Mrs. Tony Eden, is to leave from Hereford today to enter military service.

Friona Seniors Go To El Paso And Intermediate Points

By BETTY RHODES
Reporter

We arrived in Ruidoso about eleven o'clock Saturday morning, and ate the lunches we had prepared and taken with us. The boys rode horses that afternoon. We stayed there three days, and the entire class enjoyed the trip. We all bowled, skated, played miniature golf, rode horses and Mr. Cook took the boys out for 18 holes of golf.

We left Ruidoso Tuesday morning and arrived in El Paso in the afternoon. Everyone enjoyed seeing the White Sands. While in El Paso we stayed at the Del Comino Courts, which had a swimming pool. We all enjoyed this. The boys certainly did. They threw the girls in the water with all our clothes on. We went to the shows, sight-seeing, attended the wrestling matches, and spent one afternoon at Juarez. We visited Fort Bliss and the old Fort, and spent about two hours at the airport in El Paso, where we visited the tower and watched the men land the planes.

All of us were about ready to return home Friday morning. All seniors went except two girls. We had a wonderful time and will long remember the trip.

Making the trip were: Joyce Miller, Joy Baxter, Betty Rhodes, Doyce Barnett, Walter Haws, Jay Cobb, Ralph Reed, Jack Redford, Ross Miller, Billy Nazwarth, Rex Blackburn, Frank Allen, Max Wells, Frank Reed, Dale Hart, Johnnie Parker, Mr. and Mrs. Raymond Cook and Mrs. Roy Miller.

Mr. and Mrs. W. C. Osborn, Mr. and Mrs. Howard Ford and children and Mrs. Forest Osborn and children were in Albuquerque Sunday to attend the graduation of W. B. Norwood, Jr. from the University of New Mexico.

Sunday dinner guests in the home of Mrs. A. H. Boatman were Mr. and Mrs. C. A. Paul.

Mrs. A. H. Boatman attended the Pioneer day celebration in Hereford, Friday.

Keith Brock returned to Friona Ann, Doris, Bill Jack and David from Texas Tech this week to returned home Saturday from spend the summer vacation with Dallas where they had visited his parents, Mr. and Mrs. G. H. with Lunelle McFarland.

Roy V. Miller will be a junior student at Texas Tech at Lubbock this summer. He plans to do part time work after class hours.

Mrs. Mary Clingan and Nancy have returned to their home in Arkansas for the summer.

LONE STAR
Agriculture
Released by
The Texas Department of Agriculture

Texas Herbicide Regulations

Reports of crop damages resulting from careless or misuse of hormone type herbicides are beginning to trickle into the offices of the Texas Department of Agriculture at Austin. These reports are expected to increase daily unless farmers and ranchers exercise normal precautions in chemical applications as the season advances.

Herbicides 2, 4-D and 2, 5-5-T are excellent for the control of weeds, mesquite and brush growths. They are not 'poisons' as many believe. Instead, these hormone chemicals energize plants, causing them to literally 'grow themselves to death.'

Most broad-leaf plants are susceptible to this growing action. Rice, flax, grain sorghums and grasses are not affected, however, and for this reason, 2, 4-D and 2, 4-5-T are good solutions to use in these crops to keep down weed infestations.

But many crops, such as cotton, can be severely damaged by hormone herbicides if adjacent fields are sprayed carelessly.

Herbicides should never be applied, either from ground or air equipment, during a high wind which would cause droplets to drift from pasturelands into crop fields. Another common mistake is the use of too much pressure in the equipment which creates a fine spray susceptible to long drifts. Heavier drops are most effective and are more apt to settle in areas where they are intended.

Damage from herbicides is usually easy to recognize. It causes mutations in the plant, sometimes making the leaves grow in odd shapes and to curl at the edges. Unless the accidental dosage is too great, however, the farmer may still make his crop, even though the yield might not be as much as before damage occurred.

One of the duties of the Texas Department of Agriculture is to inspect all ground and air equipment used in application of herbicides to see that it comes up to specifications of Texas Herbicide Regulations. The department also issues permits to those farmers, ranchers and commercial spraying companies who wish to apply herbicides to the land.

All dealers are required to keep sales records, and all spraying companies or individuals must keep records of date of herbicide applications for two years.

These regulations apply in cases where more than 20 acres are to be sprayed. A fee of 10 cents per acre is charged for permits. For plots less than 20 and more than 5 acres, no permit is required but written notice must be given the department that chemicals are to be applied. For

less than 5 acres, no permit or notice is required.

A few counties in West and South Texas are exempt from the Texas Herbicide Regulations. A request for information on exempt counties and regulations should be addressed to John C. White, Commissioner, Texas Department of Agriculture, Austin, Texas.

Esther Cleveland, born in 1893 was the only child ever born in the White House.

American natives were called Indians because Columbus had thought he had reached India.

The 'gutters' of a book are the inside margins of pages where they are bound together.

Lichi nuts are grown in China. A gill is one-eighth of a quart.

Picture of a Pair who just waked up

HERE in the driveway is a Buick. It has just arrived. It belongs to this proud young couple. They've just "arrived" too.

They've arrived at a discovery—the discovery that owning a Buick instead of a "low-priced car" isn't so much a matter of money.

It's a matter of knowing the facts of life. Buick prices are closer to the prices of smaller, less powerful, less distinguished cars than most people think.

Why don't you check into this?

You'll find you could pay \$300 to \$400 more — and still not match the horsepower of this nimble beauty.

You could pay hundreds of dollars more—and still not get any more interior room, or richer fabrics.

But that's only part of the story.

The big thing about any car is the way it goes. So you ought to find out how this car rides the road—the freedom from bobble and sway that cost a million real dollars to develop.

You ought to sample the way Dynaflo Drive*

feeds the power — with a steady swoop and unbroken smoothness in city traffic, on hills, or out on the open road.

And you ought to know how it feels to touch off that Fireball 8 Engine. With all its might, this high-compression valve-in-head gets a lot of miles from a gallon of gas.

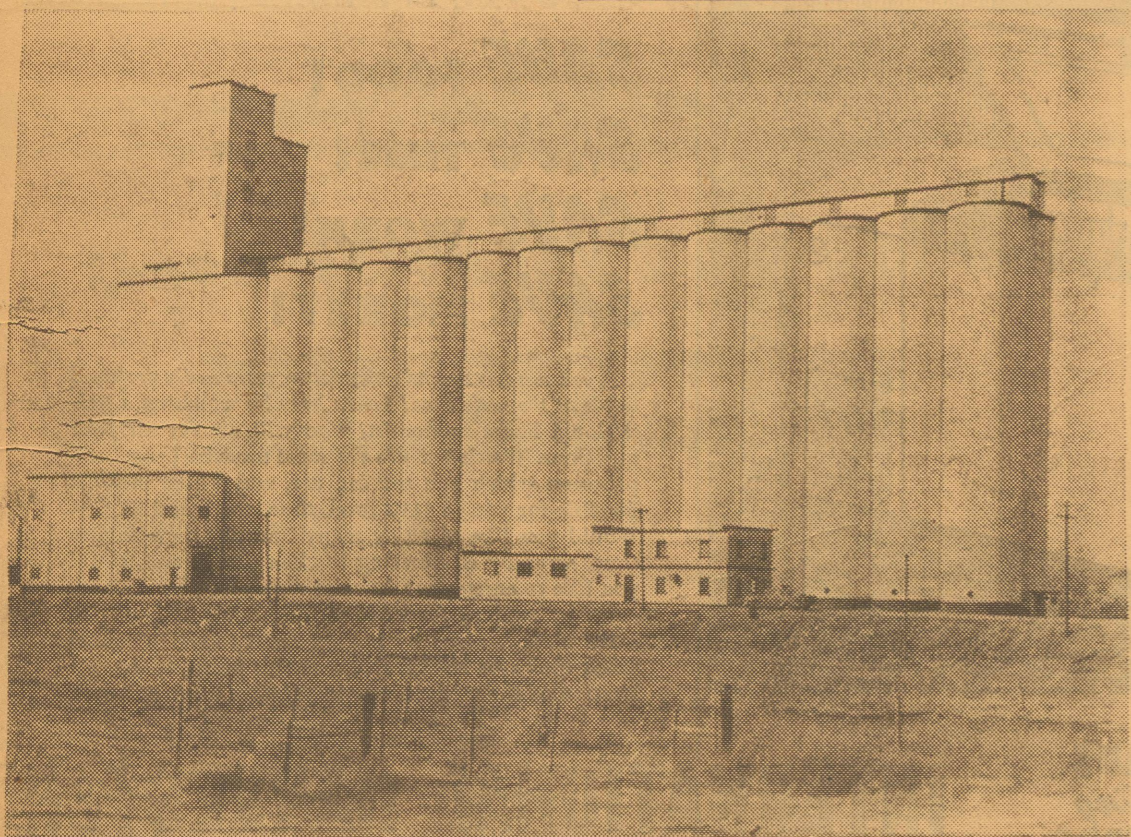

We'll tell you this—because a lot of folks have told us this: No matter what car you're driving now—no matter what cars you've looked at—they'll never seem the same after you try this one.

Just give us a chance to prove it — and you'll have a lot of fun.

Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series.

Grass-Legume Silage High in Feeding Value

Silage occupies an important place in livestock feeding in the United States. It has greater palatability, a higher carotene content, and is less wasteful in feeding than any other form of forage preserved on the farm. It can be made under conditions not favorable for curing dry fodder and hay, saving a larger percentage of leaves, green color, and total nutrients for feeding.

The silo can be made to perform double-duty by filling it with the early summer lush growth of grasses and legumes for possible use during the hot, dry, summer months when green feed may be short or of poor quality, and if used then, the silo can be filled again in the late summer or fall with corn, sorghums or a late growth of grasses and legumes for winter feeding.

A variety of forage crops can be made into nutritious silage. Until recently, about 90 per cent of all silage produced was made from corn, about 8 per cent from sorghums, and less than 2 per cent from small grains or hay crops. The percentage of silage now made from hay and pasture crops may be considerably above 10 per cent, and the percentage is gradually increasing.

High-yielding legume and grass hay and pasture crops are coming to be important silage crops in the North and Northeast. Legumes, or a combination of legumes and grasses make a better silage than grasses ensiled alone. These crops are higher in protein, carotene and minerals than corn or the sorghums. They produce the best silage when cut at, or slightly before, the best stage for hay. This stage is usually after heads emerge, but before bloom for grasses, and during early bloom for legumes.

Non-legume crops such as corn, sorghums, or the grasses cut after heading out, ensiled either alone or with an equal part or less of legumes, will produce enough of the right kind of acids to make good silage. Legume crops and immature grasses which are high in protein and low in fermentable carbohydrates should be wilted or have acid, molasses or ground dry grains added as a conditioner or preservative. Fine cutting, firm packing, and a moisture content of not more than 88 per cent are the requisites for the production of good wilted silage from high-protein legumes and immature grasses.

Hay and pasture crops are usually cut with a mower, raked into windrows with either a side-delivery or dump rake, and then loaded

on the wagons by hand or with a hay loader. Green crops often are not handled satisfactorily with the ordinary farm machinery. The rakes pass over much of the material, and the loader fails to pick the windrows up clean. Hay loaders must be built for heavy duty. The use of a windrower attachment on the cutter bar of the mower saves the labor of raking, and also lessens the chances of stones being elevated onto the wagon or truck along with the green material.

Machines which will pick the hay crop up out of the windrow, and field chop and blow it into the trucks or trailers, are coming into common use. The same machine can be used for field chopping corn or hay crops for silage, and for harvesting field-cured hay, or hay to be dehydrated or barn-dried.

The composition of silage is usually similar to that of the green crop from which the silage is made. (See table.) Forage that is palatable and nutritious when put into the silo should be the same when taken out.

Grass-alfalfa silage for poultry can replace green pasture and dried green forage at seasons of the year when the latter are unobtainable. Straight-sided metal barrels holding 350 to 400 pounds of chopped green material are convenient and practical containers for poultry silage.

Poultry fed a part-ration of grass-legume silage eat more feed per day with greater zest, make greater gains in weight, and are in better physical condition than poultry not fed such silage.

Wedding Vows Unite Lila Robason and Easton Wall

Miss Lila Robason and Easton Wall were united in marriage in a double-ring ceremony at the First Baptist Church in Friona Saturday evening.

The bride is a daughter of Mr. and Mrs. D. O. Robason of Friona, and the groom is the son of Mr. and Mrs. Roy Wall of Hart.

Only the families of the bride and groom were present at the quite ceremony performed by the Rev. Russell Pogue. The vows were spoken before an altar decorated with baskets of white gladiola and white daisy astors grouped amid Hawaiian ferns.

As a nuptial prelude, Mrs. Roy Miller played soft music on the piano, and Mary Lou Miller sang 'Because' accompanied by her mother. 'Clair de Lune' was played during the ceremony, and 'The Lord's Prayer' was sung by Mary Lou as a pre-recessional number.

The bride, entering upon the

arm of her father, was attired in a white lace ballerina length veil topped with a cap of daisy arrangements. She carried a bouquet of white carnations centered with a white orchid. Miss Wanda Robason, bridesmaid, wore a blue ballerina length dress and she carried white astors. H. L. Feller was best man.

Ushers were Jimmie and D. O. Robason, brothers of the bride. A reception at the D. O. Robason home was held immediately following the ceremony.

The couple will make their home at Hart where Mr. Wall is engaged in farming. Mrs. Wall taught last year at Eunice, New Mexico.

Mary Lou Miller has returned home from Texas Tech to spend the summer vacation with her parents, Mr. and Mrs. Roy Miller.

Local

Mrs. Roy T. Slagle returned home last week from Glenrose, Texas, where she had been taking treatments.

Mr. and Mrs. Bill McGlothlin, Gale and Francis, went to Lubbock Tuesday to bring Mrs. A. E. Stanley back to Friona. Mrs. Stanley had been visiting her son and his family Jack Stanley for the past week. Her small grandson, Roger, came with them for a visit. They returned by Littlefield where Bill McGlothlin stopped to see a dentist.

Ray Strickland returned to Corpus Christi this week to re-enter the Naval Hospital.

The Tonie Edens family moved from Hereford to Friona last Friday. They are living on north Main street.

W. A. Tinney and W. A., Jr., went to Buffalo Lake Friday night and Saturday fishing.
