

Wheat Marketing Quota Referendum Set Friday; PMA Elections Come Week Later

Community election for members of the community and county Production and Marketing Administration organization are

Column Left.

Mrs. Benthall Beene tells that she has found a woman's ring. The owner may contact her and identify the ring.

Fire Chief Bainum joins with local law enforcement officers in warning that something must be done about interference at local fires.

Cars jammed the lane to the Reeve farm so badly last week that the firetruck had considerable difficulty in getting back to town to remove water.

And then there is the public who tries to assist in hose maneuvers; Bainum states that except in the most unusual of cases, all this work can best be done by the organized fire department, and any other "assistance" can hamper the effectiveness of the firefighting.

Some tickets already have been issued for interference of the fire truck, and unless conditions improve, many more will follow.

Mrs. J. D. Johnson is attempting to locate the glasses belonging to her son who was killed last week. The glasses were taken from his car, she states, only two days before the fatal accident.

If the person having these glasses will return them to the Star or to Mrs. Johnson, it will be greatly appreciated and no questions asked.

Sorry the birthdays got crowded out of last week's issue.

Those having birthdays during the period of August 6-13 included Sue Ridling, Earl Drake, Larry Hough, Cordie Potts, Mrs. Ida Merrill, J. W. McMillian, Oscar Eastpe, Patsy Taley, J. T. Gee, Mrs. Edd Bogness, Willie Wejs, O. C. Jones, Mrs. Rosella Landrum, George A. Jones, Jane Morris, Wayne Price, and Floyd Rector.

Aug. 14: Patsy Maylene Daniel, Carl C. Maurer, Charles Sanders.

Aug. 15: Mrs. Lem Miller, Howard Mayfield.

Aug. 16: Cynthia Bell, Tim Magnes.

Aug. 17: Lillian McLellan, Loretta O'Brien, Bryan Lee Euler.

Aug. 18: Clyde Renner.

Aug. 19: John A. Guyer, Cynthia A. Cardwell.

Aug. 20: Dorothy Vaughan, Mrs. Luzzell Cribbs, Charles E. Allen.

We're enjoying the home-grown Antelope from the Renner-Moseley patches. These compare with any on the market; and we understand they are to be available at local stores.

Improvements noted around town include the paint job on the athletic house at the football field.

Also an addition is being built at Mary's Cafe, affording several new booths.

Charlie Turner and wife escaped injury Saturday in a three-way car wreck near Quanah. On their way to the Wichita Falls market, the Turners evidently were innocent parties as a car pulled out around them, crashing into an oncoming car.

Mr. Poe and Mr. Garrick of Van Nuys, California, involved in the wreck here of a week ago at the northeast corner of the Friona town section, were back through town Saturday, returning from Oklahoma. They had taken their wives on to Oklahoma to attend the funeral of their father. Poe said that one of the women, who was given emergency care

scheduled for Friday, August 21 in Farmer County.

Farmers will be mailed ballots, together with self-addressed envelopes which should be returned to the County PMA office before that date, Secretary Joe Camp states. However, voting may be done at the PMA office in person on that day.

Fourteen community divisions are set up in the county this year, rather than the nine previously used.

Farmers throughout the county will be given opportunity to vote for neighbors to serve as members of the community committee, delegate to the county convention, and for alternates.

In general, any farmer is eligible to vote if he is owner, operator, tenant or sharecropper and is participating or is carrying out practices in accord with programs administered by the county PMA committee.

Names to be placed on the ballots in the Friona area are listed at bottom of page.

School Annuals Here; Ready for Delivery

The Friona School Annuals arrived today, Principal Dillie Kelley discloses.

Students may procure these annuals by calling at the school house on Thursday, Friday or Saturday afternoon this week between the hours of 1 and 5 o'clock.

The full shipment was not received today; 239 annuals arrived and the rest will follow in about ten days, Kelley said.

Weather

Warm days, slightly above seasonal temperature, prevailed over the week-end, followed by cooler weather Tuesday and Wednesday, with some very scattered and light showers in the Panhandle.

High temperature Wednesday was 88 with a low of 65.

Forecast is for continued moderate temperatures, warming slightly, with widely scattered showers in the afternoons and evenings.

Parmer Beauty Queen To be Selected 21st

The public is invited to the county-wide Farm Bureau meeting and program to be held at Friona

here, was bedfast and probably would remain so for about 8 weeks, suffering back injuries. The other occupants of the car are getting along nicely.

The men stopped at the Star office specifically to place a card of appreciation to the people here who extended courtesies at the time of the accident.

Mrs. Lloyd Hamilton, injured in the head-on collision at Hub last Thursday night, was transferred to the hospital at Tulsa late Saturday.

Brother of Friona Woman Was Casualty in Korean POW Camp

Lt. Roger W. Hartman, brother of Mrs. Orville Houser of Friona, and prisoner of war in Korea, has been reported as the first Panhandle man to die in a Red Prison Camp.

Mrs. Houser received word Saturday night of a cablegram sent to Mrs. Mary Hartman, the lieutenant's wife in Santa Fe, New Mexico, by the war department telling of Hartman's death in 1951.

After he was taken prisoner,

the family here never had definite word on his status, nor were they able to hear from him. He had been reported at various times as being "missing in action," and later as "prisoner of war."

Lt. Hartman, 28 years of age, served during World War II and was captured in the Battle of the Bulge, serving in German prison camps for over six months.

A native of Hereford, Lt. Hartman is survived by his wife three

children, Charlene, 6; Maria, 2½; Leon 4; his father, G. C. Hartman of Dove Creek, Colorado; two brothers, Jiggs and Elwyn Hartman of Hereford; three sisters, Mrs. Orville Houser of Friona, and Mrs. Bill Simpson and Mrs. Gordon Witherspoon of Hereford.

The small son, Leon has stayed in the Houser home here much of the time during the last two years, and is a familiar figure at the Houser Grocery.

Farmer County wheat farmers will vote on marketing quotas for wheat on Friday, August 14th.

Three voting places have been designated within the county: the Farmer County Implement Company of Friona; the Church of Christ at Lazbuddie, and the District Courtroom at Farwell. Voting hours will be from 9 a. m. until 7 p. m.

According to announcement of the Secretary of Agriculture, wheat allotments will be in effect for the 1954 crop of wheat regardless, and the referendum of wheat producers has been called to determine marketing quotas.

If more than two-thirds of the wheat farmers vote in favor of the quota, the price of the 1954 crop will be supported to 90 per cent of parity to those who com-

ply with farm acreage allotments. Those harvesting acreage in excess of their allotment will not be eligible to market the excess wheat without penalty, the ruling reads.

If more than one-third of the wheat farmers vote in opposition to the marketing quotas, the Marketing Quota Program will not be operative for the 1954 crops and the price support would be at a level equal to 50 per cent of the effective parity price for wheat for those who comply with the acreage allotments. No price support would be available to those not complying.

However, provision has been made for seeding of wheat for a cover crop in excess of allotments, according to Joe Camp, secretary of the Farmer County Production and Marketing Administration.

THE FRIONA STAR

VOLUME 29, NUMBER 2 THE FRIONA STAR, THURSDAY, AUGUST 13, 1953 Price 5 Cents

Credit Is Given For Fire School

Friona definitely will receive credit on their fire insurance rate for the attendance of two local firemen at the recent training school at College Station, Fire Chief Charlie Bainum stated this week.

Bainum received certificates from the school officials certifying the completion of the firemarshal course by Glenn Sparkman and the instructor course by Dillie Kelley.

The helmets, boots and coats have arrived for use of the local department. These were purchased from funds raised by public subscription.

Hammond Organ Given To Congregationalists

The Friona Congregational Church held a dedication service Monday night for the new organ which was presented to the church by Mrs. Pearl Kinsley in memory of her husband a pioneer resident of Friona.

The organ is a spinnet model Hammond Electric. Mr. Gay Arman, organist at the First Baptist Church in Amarillo, presented the music for the service.

Cotton Classing School Scheduled at Lubbock

Monday, August 24th, has been designated as Farmer County Day at the Farmers Classing School held in Lubbock late this month.

This is the fiftieth annual school of its type, sponsored by the county agricultural agents and the Texas A. & M. Extension Service.

Cotton questions will be discussed and answered, such as "What is a Dusty, Oily, Seedy, Grassy, Gin Cut, Mix-pack, etc.? Why do I get more than one grade and-or staple from a multiple load?"

County Agent Joe Jones urges all farmers who can do so to attend this school. Classes will be held from 9 a. m. until 3 p. m., Mondays through Fridays, Aug. 17 to Aug. 28. Farmers are invited to attend on their county day, or one, two, five or the entire ten days. A certificate of attendance will be given all attending five or more days.

Location of the school will be in the Government Classing Office, 2414 Avenue E, Lubbock; no cost is involved.

I DEAD, MORE ARE CRITICAL

Patrolmen Foresee Crackdown On Fast and Careless Driving Locally

Another traffic fatality late today placed the Friona area even deeper into the "death trap" category, bringing the death toll to 6 in recent days.

Hitting head-on two miles west of Friona on Highway 60, an almost new east bound Ford passenger car collided with a truck of grain headed west. The four passengers in the car and the truck driver were brought to Parmer County Hospital where all received emergency treatment.

Raymon Cruz Guillen, Marine driver of the car, received a broken collar bone and numerous lacerations. His wife, Ann Guillen, 24, still was on the operating table at this printing in critical condition. A Caesarean operation removed the dead body of Mrs. Guillen's child which was to be delivered in less than a month. Four pints of blood were given to Mrs. Guillen, and her condition

was termed critical by the attending physicians fighting for her life at this writing.

Condition of Miss Betty Suttle, also in the marines and a passenger in the car, yet is undetermined; she received severe cuts over her face and body and was irrational some four hours after the wreck.

The little Guillen girl, believed about 15 months or age, was un-

hurt and was under the care of Mrs. C. M. Fields at her home this evening.

Beauford D. Roberts, Rt. 3, Clovis, was driver of the '47 International truck. He apparently suffered only shock and minor cuts. He was dismissed from the hospital after emergency treatment. The truck, belonging to Billy J. Dunn of Muleshoe, had picked up a load of maize near Summerfield to deliver at Lariat.

Point of impact was at the extreme north edge of the pavement.

Skid marks showed that the brakes of the Guillen car evidently locked, the car skidding over 160 feet before turning broadside, then for 71 feet more broadsided, completely reversing its direction when hitting with the truck, returning some 50 feet back west before coming to a stop enmeshed with the bed of the truck, all in all one of the worst demolished of any cars recently involved in wrecks here.

Sgt. Guillen had left San Diego Wednesday enroute to Charlotte, North Carolina where his wife's people lived. He was to report later at Seattle for assignment in Adak, Alaska. A serviceman during World War II and since, he carried 10 battle stars plus numerous campaign ribbons. He is a native of Fabens, Texas.

The accident was investigated by Highway Patrolman Carl Holler of Tulsa, serving this area while Patrolman Kirkwood is on vacation. However, Kirkwood was in Hereford at the time of call, and accompanied Holler to the scene. Reports were that several people witnessed the accident, including the driver of a State Highway Department truck on the road in close proximity to the scene.

Letters to Editor:

You may advise Mr. Zahn of Ohio that picture referred to was taken in 1909. Location 5 miles north of Friona on Sec. 5, League 448-449, land at that time owned by Mrs. A. E. Hanson of Tuscola, Illinois and now owned by Bill and Ed Massie.

The plow outfit was owned by R. O. Kessinger of Jacksonville, Illinois. The engine was a double under-mounted Avery, closely resembling a locomotive in design, had steam guide and steam lift for plows. The cost of the outfit was \$7,000.00, fob, Friona.

The cost of operation at the going price of \$3.50 per acre made profitable operation impossible inasmuch as coal was retailing at \$13.50 to \$15.00 per ton, fob Friona. In view of the fact that no ran had fallen for more than a year, the plow share had to be removed and sharpened daily.

This outfit was never used off Sec. 5, was abandoned in January, 1910 and not moved until 1919 when it was purchased by four Cantrell Bros. of Friona for \$800.00 and used that years harvest season in Friona territory.

Yours truly,
D. W. HANSON
Inglewood, California.

Editorially Speaking
"A vigilant press has made the American people the best informed in the world."

Monday Morning Musings Is a Town Hall Program Wanted?

Remember several months ago when we were exploring the possibility of a "Town Hall" program of winter season entertainment for Parmer County?

Informal discussions were held at the time and Clyde Goodwine was given the responsibility of temporary chairman to further promote this series of highly recommended programs.

Clyde tells us that concentrated activity will commence early next month to determine if Parmer County can and will support this series of Friona.

Entertainment through the Town Hall plan includes nationally known speakers on most subjects of consequence, concert artists, group musical presentations, drama, etc.

The programs have met with enthusiastic response on repeat seasons at Hereford, Tulla and many neighboring communities.

We hope to have these same programs in Friona. Just as soon as more detailed plans are made, they will be made announced and discussed in the Star.

We understand season tickets will be offered, at a price not prohibitive for anyone in the area who spends anything at all on entertainment.

MMM

For those who think the government listens too closely to the farmer, we submit this situation:

In 1800, the farmer supported five persons on the farm and one-half of a city dweller. Today Mr. Farmer supports four on the farm and twelve in the city, and two in foreign countries!

WHAT PRICE SPEED?

Speed—excessive, reckless speed is the greatest killer stalking the Nation's highways today.

In one out of every two driver accidents resulting in deaths and injuries, speed is directly responsible for this carnage on the highways. Other lethal causes, such as cutting in and out, passing on curves and hills, driving off the roadway, are indirectly the result of quick bursts of speed.

And the speed death toll is climbing! Faster roads, super-powered cars urge drivers beyond their human limitations to a quicker and more frequent rendezvous with Death.

Rural highway fatalities due mainly to speed soared from 22,000 in 1949 to 28,200 in 1952 and over 31,000 in 1953. Those are the dead—and for every death count fifty injured, maimed, crippled for life.

Is this the price you and others are ready to pay for the momentary thrill and the ever-present danger of death from speed? It takes only a split second to change speed exhilaration into speed tragedy.

The decision is in your hands—be sane, be sensible, slow down and live!

THE AMERICAN WAY

At Long Last

Austin - Washington Comments . .

THE END OF THE FIRST SESSION OF THE 83rd CONGRESS: Late on the night of August 3rd, 1953, the First Session of the 83rd Congress adjourned. Whether or not Congress finished its work will be argued pro and con for some time. Many important bills were left untouched, some in committee and some on the House and Senate calendars. When the deadline for adjournment was set by the majority leaders, legislation to be handled in the closing days was cut to an absolute minimum. This of course included the "must" program of the President. Highly controversial legislation was not allowed to reach the Floor. In fact, it was not allowed to get out

of the committees. This does not mean that these bills are dead. They will remain in the committees or on the House and Senate calendars and will be subject to treatment in the early days of 1954. Two legislative matters that were to be proposed by the President in the closing days will no doubt be the first order of business in the next session of Congress. One of these is the proposed social security expansion. This is supposed to be highly controversial as it takes in groups not now covered by the program, many of whom do not want to be under the social security laws. The other matter is the revision of the Taft-Hartley Act. Recommendations were supposed to have been made on this matter during the first days of this session. The story here is that the proposals were such a complete revision of the Taft-Hartley Act and were contrary to Taft's philosophy that the powers decided to withhold action until 1954. No doubt, the untimely death of Senator Taft played a big part in the decision to withhold action at this time.

SPECIAL SESSION: It is highly improbable that the President will call Congress in special session this fall. Presidents do not like special sessions of Congress. This is one of the reasons that the

WASHINGTON AND "Small Business"

—By C. WILSON HARDER

Socialistic waste. That's what Congressman Ralph Gwinn of New York terms the Tennessee Valley Authority, or TVA.

But many hold whether or not TVA is waste by socialism, blunt business standards condemn it.

Government needs to reduce both public indebtedness and taxes. While no one seems to know just how much has been poured into TVA, there are strong feelings. C. W. Harder that government could realize \$27 billion by selling TVA to private operators, could save \$600 million per year on bond interest, other costs.

In mid-thirties TVA was started to provide irrigation, power, and to control floods, although Army Engineers claim the Tennessee Valley will not flood more than once every 500 years.

The efficiency of TVA as a source of hydro-electric energy is held open to question, too. Congress is asked to build a total of 9 steam generating plants, presumably to meet greater needs for electricity.

There is evidence in Washington that administration may come to grips with the TVA question in order to justify its billing as a businessmen's administration. But there are many smoke screens of emotion and false premises to cut through.

Besides the cry of Socialism, there is the argument that the tax free TVA doesn't pay the taxes of private utilities.

This last argument is probably a half-truth as there is con-

siderable doubt any utility pays taxes out of profits, but instead adds them to consumer rates. Recently, the Pacific Gas & Electric, one of the nation's biggest utilities, told stockholders no rate increases are planned, unless taxes are increased, thus admitting that unlike individuals and small businesses, taxes do not come out of profits, but out of the customers. This situation could be remedied, however.

The big point is that the P G & E is located in California with more irrigated acreage than rest of U. S. And business deals have been worked out in California which if applied in the Tennessee Valley 20 years ago would have kept the government out of the power business.

A group of farmers needed a dam in the nearby Sierras for irrigation water. The dam is owned by the farmers' organization, but the power house is owned by the utility. And in exchange for permitting the water to run through their generators, the utility company pays of the dam's bonded indebtedness by semi-annual payments.

When TVA was started, it was necessary for the government to drive out of business its different private utility companies. A deal similar to the above would have given area even greater benefits without permitting bureaucrats to waste millions.

Many plans have been drafted for turning TVA over to free enterprise in a manner that will not result in merely changing from government monopoly to private monopoly. But Washington has given no authority to solve TVA question on basis of sound business and under a free enterprise system to reduce national debt by \$27 billion, save at least half billion yearly.

Emergency Feed Arrives in Area

Six cars of feed, supplied through the emergency drouth relief program, have been delivered to Parmer County to date. Latest shipment was that of a car of corn received at Farwell Monday. Four cars of meal have been received, together with one of pellets.

No more than a 30-day supply can be ordered at any one time, Camp pointed out.

Members of the Parmer County Drouth Committee are A. P. F. Phillips, Walter Johnson, Joe Jones, Jack Woltman and G. D. Anderson.

Day Camp for Scout Troops, 19-20

Day Camp for the Girl Scout and Brownie Scout Troops will be held on August 19-20 and 21 at the Methodist Church annex.

The Bovina Scout Troops will meet with the Friona group.

Out-door activities, cooking and nature and craft will be included in the three day program and there will be two meals served.

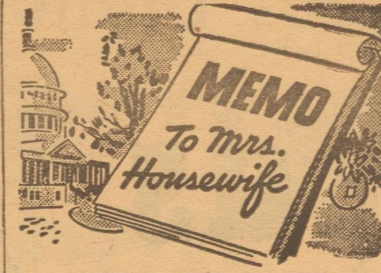

Girl Scouts Meet In Bovina School

Members of the Girl Scouts working on their summer badges for handi-women and cooks badge met again last week in the Home Economics Department of the Bovina school. Miss Little from the Southwestern Public Service was instructor for the course.

There were six sessions with eight Friona girls attending for their cooks badge and six attending for the handi-women badge. Each group consisted of twenty girls.

On Friday afternoon the Scouts concluded the two weeks training with a tea held at Bovina. Scout leaders were invited to attend.

The Wesley Fosters visited with Mr. and Mrs. Nolan Froehner in Dimmitt Sunday.

NATIONAL PRESS BUILDING WASHINGTON, D. C.

By Anne Geede

It's time for "here comes the bride!" So, to the bride: A good cook book is about a newlywed's best friend. "Joy of Cooking" is a good one. Follow the recipes carefully, note the menus in the back, and you'll do yourself proud in the meal making department.

To friends of the bride: Some useful and unusual gift suggestions for showers. Plastic covers for the bride's best china, plastic covers for her blankets. Or some specially nice soap, a photograph album or a holder or two for flower arrangements.

And to any woman: Spread lamb chops with mustard-with-horseradish before broiling or pan frying. Mustard adds a wonderful flavor!

Now for a salad review: Salads, you know, must be cool, crisp and colorful. If you're serving one as a main dish, for goodness sake make it hearty enough to be satisfying. Make certain the dressing for the salad adds a distinctive flavor.

You can go on almost forever naming the different dressings for salads made with real mayonnaise. To serve with tossed salads, add milk, lemon juice, french dressing or fruit juice and blend. Sweet cream or sour cream can be added, too. And don't forget about throwing in some chutney, capers, herbs, olives or diced fruit to make a real mayonnaise variation to suit the salad.

Birthday

Mrs. C. L. Vestal honored her mother, Mrs. Eda Merrill with a dinner last Sunday on her eighty-fourth birthday.

Guests were Mr. and Mrs. Stanley Gray of Snyder; Mrs. T. W. Lovell of Dallas; Mr. and Mrs. Loyde Brewer and boys of Farwell; Mr. and Mrs. C. L. Vestal, jr. and girls and Mrs. Folster Reector.

Mrs. Merrill received several gifts, cards and flowers.

The J. T. Gees returned Sunday from Dallas where he attended an Ag. meeting.

ON HONOR ROLL
Vera Ann Jones of Friona is listed on the honor roll of students making a B-plus average during the spring semester at North Texas State College.
Miss Jones, daughter of Mr. and Mrs. Raymond Jones, was a sophomore student majoring in English during the spring semester at NTSC.

PICNICING
Picnicing Sunday in Palo Duro Canyons were Mr. and Mrs. Otis Massey and sons; Mr. and Mrs. Neal Young and children of Hereford; Mrs. Beulah Munden and Mrs. Mable Massey of Cleburne, Texas.

Mr. and Mrs. O. J. Beene and boys returned Saturday night from a trip to Denver and Estes Park.

Farm Bureau Report

A good man, and a good friend of Farm Bureau is absent from the building of your county office. T. B. Galloway not only took us in when we needed office space, but he participated in the organization and encouraged fellow farmers with the often heard, quietly spoken words, "Every farmer ought to belong to the Farm Bureau," when some farmer was a bit hesitant in joining. Our close association with Ben gave us the knowledge of a humble, considerate gentleman of Christian character. We'll always have a kind remembrance of him.

Aubrey Ellison really absorbed the classes down at A & M last week. He was the last man eliminated in the final Public speech try-outs in his class. We feel pretty sure he would have done better in the general assembly appearance than the victor.

Rhea Farm Bureau had a good meeting last Friday night. They had a couple of good pictures from the U. S. Reclamation Bureau for part of their program. We would like to urge cotton farmers who wonder how in the heck they get some of them mixed grade, etc. on their bale of cotton, to go to the cotton classing school in Lubbock. It's free, and may help eliminate some of the misunderstanding that sometimes occur at ginning time.

Mrs. Flossie Anderson is getting along gallantly with entries and other preparation for the Queen Contest to be held Friday, August 21 in the Friona Auditorium. If you know a business man, club or individual who would like to enter a girl, have them contact Company in Bovina, or the FB Office in Friona. At the present time, it looks as if there may be as many as twenty entries. Next week a group picture of candidates will be published, according to Mrs. Anderson.

"Our leaders need to learn to depend upon God in great decisions, so that they and we can call on Him to guide us with confident faith," Wm. C. Wedemeyer, TFB Field Representative of Crockett said, as he spoke to the more than 200 delegates attending the Institute at College Station. His general theme was, "Christ is the Answer." He pointed out the fact that some of our difficulties may stem from our selfishness. Only 1.1 percent of the income of U. S. Citizens is contributed to churches and ALL Charitable causes.

Consider this: "A word fitly spoken is like apples of gold in pictures of silver." (Prov. 25:11).

Committee Meeting

The program committee and the executive committee of the Friona Woman's Club met at the Clubhouse Monday to plan the year-books for the coming club year and to also plan a breakfast for the Joe Beatys.

The breakfast will be held September at the Clubhouse.

Mr. and Mrs. Homer Bellamy of Dallas are visiting her uncle and family, Mr. and Mrs. W. A. Tinney.

"The most important thing right now is to decide what farm program is going to succeed the present one. What we need to do is get the people to discuss the subject so their ideas can be incorporated into resolutions." This is one statement made by Roy Euler, chairman of Farmer County Bureau's Resolutions Committee at a meeting of directors in Friona Monday night. Mr Euler and Bruce Parr, President, had just returned from a meeting of presidents and resolutions committees in Plainview. It was pointed out that unless the farmers themselves heed USDA Secretary Benson's plea for their own suggestions, there are plenty of other people who stand ready to mould a program without consideration of the tillers of the soil.

On the state level, the record show that thirty of the thirty-six laws supported by Farm Bureau were passed in the last legislative session. One of those, The Texas Warehouse Act, originated in Farmer County last November.

In view of the importance of knowing what farmers want, the directors agreed to call a meeting for Monday, September 7, in the Bovina Auditorium where the resolutions committee will present suggestions they have already received and studied, and ask for further discussions from all farmers present. New resolutions are expected to be written as a result of these open forums. These resolutions, coming from Farmer County Farmers will be prepared for presentation in October at the Annual County Convention. From there they will go to the State Convention in November, at Mineral Wells.

"We will appreciate suggestion from everyone on any agricultural problem," said Mr. Euler, "and we will make every effort to include them in the final analysis of resolutions." Other members of the committee are: A. L. Hartzog, Farwell, T. W. Fuller and E. G. Snodgrass, Bovina, A. L. Tarter, Lazbuddy.

A nomination committee was selected consisting of C. V. Potts, Archie McCutchan, Harold Carpenter, W. O. Buford and Roy Euler.

Attending were Bruce Parr, Hadley Reeve, Raymond Euler, Charlie Calaway, T. E. Lovett, Ralph Smith, Aubrey Ellison, T. L. Kent, Roy Euler and C. V. Potts.

Return From Trip

Mr. and Mrs. Glenn Reeve and sons, Glenn, Don, Joe and Max returned Tuesday night from a vacation trip through Texas and parts of Old Mexico.

They visited with Beth and Eilene Lackey at Brownwood and with Jerry Blackwells at Corpus Christi.

They also visited historic sites at Houston and San Antonio, and crossed into Old Mexico at Laredo.

LET'S TALK LIVESTOCK

BY TED GOULDY

The headline of the week pertaining to farming and ranching appeared in the Groesbeck Journal, to our notion. It certainly covers the situation in many and many sections of the Cotton Belt. It read: "Everything But Atomic Bomb Being Used to Save Cotton"

The collapse of hog prices all over the country in past weeks has been a graphic example of

the manner in which the consumer controls the price of meats. Pork supplies are currently 15 percent below a year ago. On the basis of short supplies, prices rocketed into sharply higher levels met consumer resistance, and dropped by 25 percent in the month of July.

Earlier predictions that hogs might hit \$30 before summer was over seem to have gone by the boards for good. Folks just won't

pay those kind of pork prices. The American Meat Institute says the wholesale meat price index is now 16 percent below the August 1, 1952 level.

At Fort Worth Monday hog prices tumbled again, by 75c-\$1.00 per hundred. Heavier and lighter weights were \$1 to \$2 off and sows shared the bigger drop. Top hogs drew \$23.00-23.25; lighter and heavier weights sold for \$20.00-22.00. Sows drew \$17.00-20.00.

Cows and bulls were strong to 50 cents higher at Fort Worth Monday. Steers and yearlings were slow and weak. Killing calves were steady to weak. Stockers and feeders ruld 50 cents or more lower. Good fed steers and yearlings \$18.00-20.00, choice to \$22.50. Plain and medium grassers \$10.00-17.00. Fat cows \$9.50-12.50. Canners and cutters \$6.00-9.50. Bulls \$8.00-13.00.

Good and choice fat calves \$16.00-19.00; common and medium \$12.00-15.00; culls \$8.00-11.00. Stocker steer calves \$13.00-19.50; steer yearlings \$18.50 down. Stocker cows \$10.00-16.00.

Slaughter sheep and lambs were steady at Fort Worth Monday. Stockers and feeders were dull, weak to lower. Good and choice fat lambs \$20.00-22.00 and common and medium offerings drew \$12.00-19.00, culls from \$8.00-12.00. Feeder lambs drew \$13.00-15.00.

Slaughter ewes sold from \$4.00-6.00; some solid mouthed stocker ewes \$7.00-10.00. Old wethers drew \$6.00-10.00. Slaughter yearlings \$12.00-17.00. Two-year-olds \$10.00-12.00.

FORT WORTH — While it appears that accusations of chiseling on the drought relief program, et cetera, will occupy the headlines for some time to come—the basic problem will remain.

Government authorities are watching very closely the percentages of cows and heifers being marketed each day. Until such time as the slaughter of females reaches 50 percent of the total kill — then the cattle population is still swelling.

Many observers feel that huge cattle numbers, rather than

Mr. and Mrs. Robert Caloway and family of Boyana visited with Mr. and Mrs. C. J. Colaway Sunday.

Rev. and Mrs. Pulman and Mr. and Mrs. Billy Alderson were dinner guests of Mr. and Mrs. Paul Koeltzan and family and Mrs. Selma Wagner Sunday.

Mr. and Mrs. Pete Hoffman of Hereford, Mr. and Mrs. Franklen Bauer and Dewey of Rhea visited with Mr. and Mrs. Herman Schueler Sunday afternoon.

Lillian and Herbert Schueler, Irene and Floyd Schueler and Richard Koenek attended the Walter League Camp at Cedar Canyon last week.

Mr. and Mrs. Herman Sifford

IN APPRECIATION

To the people of Friona, We would like to thank you for all the hospitality and assistance shown us when we were involved in the traffic accident of the 2nd.

Particularly are we appreciative to the hospital staff, those who cared for our children, and to Casey Jones for the use of his car while here, to Mr. Bill Stewart who assisted us in many ways. The Poe, Garrick and Arney families.

CARD OF THANKS

It is with the deepest appreciation that we express our heartfelt thanks to the many, many friends who came out our help at the recent bereavement of our husband and father.

Especially do we want to mention the services of Rev. Russell Pogue and Rev. J. E. Tidwell, nothing could have meant more to us than their help.

And we thank Mrs. Decimae Beene and those others who helped her prepare the meals, to all who sent flowers, for the kind words of sympathy, and our thanks to all others who contributed in any way to make our load lighter.

May God's richest blessings be with each of you.

Mrs. Burl Beene
Vance, Elana, Gilbert and Gregg Beene

and family moved to Friona over the week-end.

Mrs. Floyd Schlenker returned Saturday night from Colorado where she attended the Congressional Sunday School Camp.

Mr. and Mrs. Johnny Foster and

Gayle Potts of Rosedale, New Mexico visited with Mr. and Mrs. Cordie Potts and famll Sunday.

Joe Osborn, son of Mr. and Mrs. Sloan Osborn, returned last week from Fort Benning, Ga. where he has been in training.

This demonstration showed me the way to a better deal!

I'd been planning to buy a higher-priced car until I found out all Chevrolet offered— and how much I could save!

You get more power on less gas

That's because Chevrolet's two great valve-in-head engines are high-compression engines. In Powerglide[®] models, you get the most powerful engine in Chevrolet's field — the new 115-h.p. "Blue-Flame." Gear-shift models offer the advanced 108-h.p. "Thrifty-King" engine.

And it's the lowest-priced line

A demonstration will show you that Chevrolet offers just about everything you could want. Yet it's the lowest-priced line in the low-price field.

*Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on "Two-Ten" and Bel Air models at extra cost.

You're "sitting pretty" behind the wheel

Take this Bel Air model. First thing you'll notice is the quality of the interior. Rich-looking appointments. Roomy seats with foam rubber cushions. Turn the key to start the engine and you're ready to go.

You can see all around You look out and down through a wide, curved, one-

piece windshield. The panoramic rear window and big side windows provide a clear view in all directions.

Biggest brakes for smoother, easier stops

An easy nudge on the pedal brings smooth, positive response—right now! Chevrolet's improved brakes are the largest in the low-price field.

It's heavier for better roadability

You're in for a pleasant surprise at the smooth, steady, big-car ride of this new Chevrolet. One reason is that, model for model, Chevrolet will weigh up to 200 pounds more than the other low-priced cars.

You get greater getaway with the new Powerglide[®]

A lot finer performance on a lot less gas. That's what you get with the new Powerglide automatic transmission. There's no more advanced automatic transmission at any price.

Let us demonstrate all the advantages of buying a Chevrolet now!

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

medium kinds sold from \$10 to \$17. Fat cows were steady at \$9.50 to \$12.50, and canners and cutters 25 to 50c higher at \$7 to \$9.50. Bulls ruled steady at \$8.00-\$13.50. Good and choice fat calves were sold at \$14.00-\$18.00, and killing calves generally ruled weak to 50c lower. Cull, common and medium butchers sold from \$10 to \$14. Good and choice stocker steers drew \$14.00-20.50, with heifer calves \$18.50 down, the top prices paid for a load of Montague calves from S. D. Howard. Stocker steer yearlings drew \$12.00-18.00. Replacement cows cleared at \$14-\$15.

Hogs sold \$1 higher. Hog grower's bailed in the face of recent low prices. Offered only 42,000 hogs around 12 major markets—25 percent below a week earlier. Top at Fort Worth Monday \$23.00-23.25. Sows steady at 17.00-19.00.

Slaughter lambs weak to 50c lower at Fort Worth Monday. Other sheep and stockers and feeders steady. Active demand for stockers and feeders. Better kinds of fat lambs \$18.00-20.00, quotable \$1 or so above that on the strictly choice kinds. Feeder lambs \$13.00-15.00. Old wethers \$7 to \$10. Slaughter yearlings \$10.00-15.00, feeder yearlings \$13.00 down. Two-year-olds \$10.00-12.00.

Walter Rogers—
CONTINUED FROM PAGE 2
raise of the statutory debt limit was proposed before Congress adjourned. The chances are that this increase in the debt limit will not be needed. In the event it is, the matter could be handled in a matter of a few days by the Congress. It was the hard core of anti-spenders in the Congress who prevented this debt limit increase. They will do it again unless an absolute necessity is shown for more money. Such an absolute necessity can be determined well in advance of the need and in ample time for the Congress to lift the debt ceiling and avoid any short delay or default by the Government in the payment of its bills. This is the first opportunity that the anti-spenders have had to effectively put on the brakes.
TAXES AND A BALANCED BUDGET: The talk in many higher circles here about tax relief in 1954 is very gloomy. The reason for this is that the Executive Department does not presently visualize any sizable reduction in the budget. Therefore, if the budget is to be balanced, they conclude that present taxes must be continued, including many of those that are supposed to terminate in 1954. Among these are the excise taxes. If these expire, there will be a reduction of approximately eight billion dollars in tax revenue. This will mean that, with anticipated general decreases in tax revenues, the overall results will be a budget further out of balance than it is this year. Those of us who have consistently fought for a balanced budget and tax relief will continue our efforts.
VISITORS: Recent visitors in Washington include Ensign Robert C. Detten, of Parhandle, Lt. and Mrs. Max N. Osborn, of White Deer; Frank Storm, Jr., Joe Jenkins, Mayor S. T. Curtis, Col. Jim Alexander and Dr. Geo. Ingham, of Amarillo.

CARD OF THANKS

Pointers on Insect Control Listed by Co. Agent Jones

County Agent Joe W. Jones has been watching the boll worm threat quite closely in Farmer County, and this week he makes

the following report together with suggestions to cotton growers.

States Jones: Crops are looking good over the county, but dry land is needing rain.

Cotton insects are not serious as yet but could be that way, so the suggestion is for farmers to be on the lookout for boll worms. When four or five small boll worms and eggs are found, the infestation is heavy enough to warrant spraying. It is very important the farmers look for eggs and be ready to poison at the proper time. These worms are easily killed when small and in terminals, but hard

to kill after moving down the staly into the bolls, so it is very important to time spray applications to get the worms while they are small.

It takes about 30 days for the boll worm to complete its life cycle which consists of egg, worm and moth. The moth lays about 1,000 eggs singly on tips of the squares and terminal leaves, these hatching in about five days, and the cycle starts all over again. These eggs are white, dome-shaped eggs about the size of a mustard seed. Five day intervals should be followed when spraying to coincide with hatching of the eggs. Generally speaking, it will take at least two sprayings at 5-day intervals to knock the boll worm out, and many times it take more than two sprayings.

Guides for controlling cotton insects in Texas are available free from the county agent and from ginners.

Jones added: Just remember this, don't spray unless you need to spray, but don't wait if you do have enough worms and eggs to warrant spraying. It is very easy to get off behind the boll worm, so watch your cotton closely these

days. It also would be well for everyone to be on the lookout for leaf worms, as they are showing up in counties below here; but don't get the leaf worm confused with

the cabbage looper which seldom does any amage.

Insect meetings similar to the ones held the last of July will be held later should the infestation warrant. When such meet-

ings are held, everyone is urged to come and learn how to identify both harmful and beneficial insects, and how to make counts determining whether poisoning is justified.

Family Reunion

The Berry family reunion, held each year on the second Sunday in August, was held this year in the Elwood Park in Amarillo.

Among the fifty-eight relatives attending from Colorado, New Mexico, Oklahoma and Texas were Mr. and Mrs. Clarence Ashcraft, Betty Zon, Lura Nell Hardesty, Mrs. Tommie Parker, Janie and Caroly, all of Friona.

Mr. and Mrs. C. W. Smith of Plainview visited last week in the home of their daughter nad family, the Jo eBeatsys.

Profitable Pointers :

MR. LIVESTOCK OWNER:

We are convinced that your livestock can show you greater profits, thru increased production, on the same amount of feed you are feeding them now.

Come in and let us show you how just a small amount of VIT-A-WAY, the specially processed Mineral-Vitamin Supplement, made available to your livestock will pay off in, "More Milk," "Healthier Animals," "Faster Gains," "Increased Calf Crop," and "Lower Feeda and Labor costs."

SCIENCE DISCOVERS
 A TRIPLE CONCENTRATE SHAMPOO

One wonders what's next with all the new development by Modern Science to make life easier for everyone. Nowadays we swallow one concentrated capsule and you get all the benefits in a tablespoon of God Liver Oil. Take pill and you get all the vitamins needed for a solid week. And now a highly Concentrated Shampoo with multiple uses, equally amazing; so economical that less than half teaspoonful is enough for one complete Shmapoo and Rinse. So highly concentrated the equivalent of one drop is enough to wash the hands or face, leaving them when dried as though a vanishing cream had been used. Now at last it is possible for housewives to get their hands out of Aikidi Bar Soaps. This greenish delightful smelling mild Concentrate of honey-like consistency is meeting with unprecedented satisfaction, especially with those men and women who have had trouble in finding a shampoo they really like.

Here is how it works. Unbelievable sudsing action on the very first application, and no gummy feeling on the hair. Rinses off speedily with ease, and needs no additional Rinse since it contains a Neutral Safe Glycerin-like RINS Principle already in it. Tests by microscope shows the hair is left immaculately clean and with a new sparkling beauty revealing all the natural highlights in each strand. All this sounds fantastic but one application is convincing.

Going as much as 5 times farther by actual laboratory tests, the Directions are simple: Use very very sparingly, this is highly Concentrated. When used in combination with ordinary soaps the sudsing action is killed. Patch tests made on the skin by clinical experts show it is mild and safe for use.

Made without harsh ingredients this All-Purpose Concentrate has many other uses such as Bubble-Bath instead of expensive highly perfumed products; makes the hardest water like rain soft rain water, and no Sopa-Scums film to clean. It is excellent for washing Hose and Lingerie; half thimbleful will wash all the dishes for a large family. In general this semi-solid can be usde for any purpose r-move dirt and grease of any kind.

Now in production and on the market this Wonder - Working Highly Concentrated Shampoo is sold on a money-back guarantee, with no one thus-far having returned a single jar.

We sell SHAM-RINS Concentrate . . . ask us.
