100,000 Building Permits Issued in \

"Do You Think the Practice of Women Sitting on Juries Will Prove Successful?"

Allen Stewart: Yes. I think that actually it will provide a woman's viewpoint which perhaps would be different from a man's in some

but will be successful eventually. We will need to study as a group and as individuals in order to know what to do and how to do. It will take a period of education but will be successful.

Oscar Lange: It will probably be successful but it will be inconvenient for the women. They won't enjoy it as much as a man, but it is practical and it's good, for they have a right to help decide things as well as the men.

They probably wouldn't have any mercy on you.

Mrs. H. K. Kendrick: I most surely do, I think that's right where they ought to be, because even though women are not as well educated the legal procedures, they have just as good minds and judgements and will be able to evaluate the situation as well as a man. I think there should be both men and women.

I most surely do, I think that's right where for farmers, ident. It is a meeting at which farm program will be well covered, to the well every farmer, rancher from so large an area to be held in be discussed on a constructive basis. and banker, and others interested, and bear the situation as well as a man. I think there should be both men and women.

## Here's why Chevrolet out-V8's everybody!

These features and advantages are the measure of a truly modern V8 engine . . . and only Chevrolet has them in the low-price field. Most aren't even found in high-priced cars. That's why Chevrolet is stealing everybody's thunder with the most modern V8 on the road!

motoramic

Modern 12-volt electrical system! The only car in the low-price field

with the extra energy of 12 volts . twice the electrical punch!

Faster, stronger cranking for cold-weather starts and a "fatter" spark for faultless high-speed operation. Highest standard compression ratio in its field!

Chevrolet's compression ratio is 8 to 1, to wring every possible ounce of power and extra miles out of every gallon of gas. Requires only four quarts of oil!

cient they need only four quarts of oil . . . so you save on every change! Highest horsepower per pound! These great V8's weigh far less than

Chevrolet's V8 engines are so effi-

Shortest piston stroke in the industry! Three-inch stroke reduces cylinder-wall friction, generates less heat, permits more compact design.

The pistons do far less traveling per mile . . . that means less engine wear, lighter loads on bearings.

It's the valve-in-head V8 as only the valve-in-head leader can build it!

DON'T BUY ANY V8 UNTIL YOU'VE TRIED CHEVROLET'S RECORD SMASHING

"TURBO-FIRE V8" MOST MODERN IN DESIGN - LOWEST IN PRICE

WE HAVE COMPLETE PUMP SETTING SERVICE PUMP SETTING TRUCK — ALL KIND PUMP WORK

> Got an itch to switch the pitch?

TANT to do what a pilot does when he clears for take-off?

Want to feel the pulse-quickening thrill that comes of giving the gun to a high-powered automobile with the world's first airplaneinspired transmission?

Want to try Buick's Variable Pitch Dynaflow\* -the spectacular new wonder drive that's the talk of car makers and car buyers alike - and the drive that's sending Buick sales soaring to new record-breaking highs?

Well, sir - be our test-pilot guest at the wheel of a '55 Buick and let today's Dynaflow do the honors.

When you press the pedal as you normally would, you move ahead in velvety smoothness, getting plenty of miles from each gallon of gas . . .

Recause twenty propeller-like blades inside the Dynaflow unit, spinning in oil, have an angle of "pitch" for top economy - like the modern plane's propellers when cruising in the air.

But comes the need for emergency acceleration, and - like a pilot does for quick take-off and climb - you switch the pitch of those Dynaflow propellers for action, just by pressing the pedal all the way down.

Instantly, you get full-power response for splitsecond getaway, or for a sudden safety-surge to get out of a tight spot on the highway.

It's a response thrilling beyond all previous experience - because there's never been anything like it before in any car.

And we'd like you to try it - along with the walloping new V8 power, the cruiser-steady ride, the fine handling ease, and the true bigcar roominess that are all part and parcel of every Buick.

Can you come in today—this week, for sure and test pilot the hottest Buick yet built?

Dynastow Drive is standard on Roadmaster, optional as extra cost on other Series.

Local Delivered Price of the 1955 Buick SPECIAL Sedan,

Model 48 (illustrated) is less than some models of the best-known smaller cars! Come in and check it!
