# Hospital Construction Gets Green Light; Materials to Begin Arriving in 30 Days

CHURCH STUDENTS

ATTEND ASSEMBLY

Construction of a new Parmer County Community Hospital will be underway within 30 days.

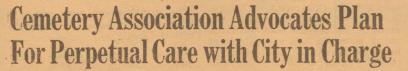

That was the disclosure made public by hospital authorities after the Monday night board meeting of this week.

Elmo Jones, Littlefield builder who has supervised a large number of Friona building projects in recent years, was retained on salary basis to superintendent the hospital construction, ordering materials and managing the job.

Rejection of all bids for construction was made in unanimous board action. The recent bids by seven general contractors, six plumbing firms and three electrical contractors were turned down. Lowest of the general bids was over \$190,000, with high bid some \$40,000 greater.

A board member spokesman explained the action of the board by emphasizing belief that greater economy could be effected through the approved plan, and that greater control could be exercised over the actual construction in benefit to the scores of local people who have supported the building program with donations.

Jones has supervised such local jobs as the Friona State Bank, Elk Drive-In Theatre, the Baptist Church units built in recent years, the Wright Williams building now under construction, the Osborn building underway, and other notable projects.

and massed fern. Vocalist, Mrs. Byron Leaird, jr., was accompanied on the organ by Miss Opra Mayo.

Robbie Osborn, Friona, and David Winters, Evant, were candlelighters. Matron of honor was Mrs. Frank M. Johnson, of Hamilton. Bridesmaids included Miss Patricia Dilworth, San Antonio; Miss Bonnie Swem, New Gulf; Miss Jean Hix and Miss Cynthia Sadler, Gatesville. The attendants were attired in waltz length dresses of blue rice silk, with matching shoes and bandeaus of straw leaves. They wore white gloves and carried bouquets of white gladioli, steph-anotis and English ivy, tied with dark blue ribbon.

The bridegroom's brother, Mr. Charles Osborn, served him as best man; and other attendants were Mr. William Edward Culbert, Gatesville; Mr. M. C. Osborn and Mr. La Von Rogers, Friona; Mr. Ray Farabee, Wichita Falls, and Mr. Thomas Earl Winters, Evant.

The bride, given in marriage by her father, was attired in a chapel length gown, designed with the traditional elegance of re-embroidered French chantilly lace. The sculptured bodice was styled with a low rounded neckline, accented with tiny lace flowers jewelled with pearls and beads. A full skirt of lace over taffeta fell from the pointed waist line. The fingertip veil of silk illusion was held by a small lace hat, outlined in pearls. The bride carried a bouquet of white roses and stephanotis, entwined with English ivy.

The bride's mother chose a powder blue ballerina length dress with matching accessories and a orchid corsage. The bridegroom's mother wore a wedgewood blue ballerina length dress with pink accessories

and an orchid corsage. The reception, following the ceremony, was held at the home of the bride's parents. Mrs. John Ed-win Pearson registered the guests is the bride's hock Mrs O N His in the bride's book. Mrs. O. N. Hix, Mrs. Kermit Jones, and Miss Louise Hall displayed the gifts . **RADAR HELPERS** 

(Fort Worth Star Telegram)

A signal system among motorists to warn of the presence of police radar teams on highways is sup-spite of its billion bushel stock-posed to be developing as means of pile—something that is hard for 1956, keeping one another out of the most of us to comprehend. The

blink their headlights at motorists sumed in this country.

It is possible to wonder, however, whether the light blinkers are do-ing themselves and other drivers a favor by keeping fast drivers out of the traffic courts. Governor Shivers vetoed a bill the other day which would have increased the legal speed limit to 70 miles an hour on multi-lane divided high-

hour on multi-lane divided high- Secretary of Agriculture Benson spend several weeks in the A. W ways. He did so not because such has indicated that the government Anthony, Sr., home. modern highways can not accept high speeds but because drivers ap-

parently can not. The Pennsylvania Turnpike, with a 70-mile-an hour maximum, has three times the accident death rate of the New York Thruway, whose limit is 60 miles an hour. Excessive speed continues to be the principal cause of highway deaths in all analyses of crashes.

We do not imagine, however, that the light blinking is of much concern to the highway patrol. Its mission is to control speeds, and not primarily the hailing of drivers into court. The purpose of highway signs announcing radar con-trol is to induce motorists to drive within legal limits. If the signaling system the drivers are using succeeds in checking high speeds, the police may find it expedient to en-list the aid of a few traffic conscious motorists to drive blinker patrols when no radar is about. false alarm ought to serve as well as a true alarm in slowing traffic down. One determined blinker could mess up the warning system. A hundred or so could frustrate it completely.

-actually costs less than some models of the well-known smaller cars! (Come in and check)

THIS is a Buick – a 2-door, 6-passenger SPECIAL Sedan.

It packs a walloping 188-hp V8 engine under the hood-is carried on a strapping 122-inch wheelbase-rides with the luxury cushioning of all-coil springing, the solid steadiness of a full-length torque-tube drive, the extra safety and silence of tubeless tires.

It's big and brawny and road-steady and roomy-each seat cushion measures over five feet in width.

Yet this beauty-as the price we'll show you proves-delivers locally for just about the price of the well-known smaller cars-even below some models of those same cars.

**Buick Sales Are Soaring To New Best-Seller Highs** 

That, for sure, is one reason why Buick sales go higher and higher and higher. More and more people are finding that you can buy a Buick for the price of a smaller car, so more and more people are getting this bigger buy for their money.

They want the bigger package of sheer automobile for the money that they get in Buick -bigger in power thrill, in roomy comfort, in riding steadiness, in structural solidity.

They want the added prestige and pleasure of owning Buick styling and size - and the added safety and sureness of Buick roadability and handling ease.

They want, too, the spectacular performance and better gas mileage of Variable Pitch Dynaflow<sup>†</sup>-yours at modest extra cost.

And they certainly want the choice Buick offers of a car in every price range, with each one the buy in its field-the low-price SPECIAL, the supremely-powered CENTURY, the extra-roomy SUPER, and the custombuilt ROADMASTER.

Why don't you come in for a visit and see how much real automobile your money can buy here?

+Dynaflow Drive is standard on Roadmaster, optional at extra cost on other Series.
