**HEAR
YE!
Public
Drink!**

Shades of Davy Crockett, Buffalo Bill and ye other olde timers!

Law West of the Pecos has taken over in Friona, and the unshaven are to be apprehended for public execution on each Saturday afternoon at 3 o'clock until the County Fair coming September 8, 9, 10th.

In advertising the Fair and contributing to the general jovial spirit of the occasion, men of the community have been asked to let their beards grow until that date. However, shave permits are available at \$5 each for those not wishing to draw the ire of their wives or enmity of their barber.

With the Chamber of Commerce members and the Friona Lions members acting as policemen in the fun, and with that Preach Edelman (reported as stone blind) as judge of beards—the executioner should be kept quite busy. Execution is to be in form of public dunking in a horse tank located across from the postoffice in Friona.

To qualify, beards must be visible for at least 8 feet to the nearsighted judge, AND there must be whiskers on both upper and lower lip. (This noted for benefit of Red McFarland and others who think a diminutive mustache will suffice.)

A public program will be featured during the fair, when prizes will be given in various classes of beards, with boys under 20 to be judged separately from the old codgers.

It has been pointed out that the contest, rules and penalties apply to all men of the area—not just the businessmen.

32 Report Locally For Football Workouts

The first game of the 1955-56 football season for the Friona Chiefs will be played September 9 on home soil. Starting time for the game will be 8:00 p.m. The Chiefs will play the Vega Longhorns.

Some 32 men are coming out for football this season. The starting lineup has not yet been completed. Those out for football are: Don Reeve, Jr. 184, C; Bryant Dukes, Soph. 128, C; Jon Mac Roden, Fr. 137, C; Joe McLellan, Jr. 152, E;

KINDERGARTEN TO OPEN

Mrs. Loyde Brewer is making plans to open a kindergarten in Friona soon. The school will be open for all children who will be five years of age by September 1. Anyone interested in kindergarten for their children should contact Mrs. Brewer as soon as possible.

NEW RESIDENTS

Mrs. Eula McDonald moved to Friona from California, living in B. E. Sanders apartment, employed at Dilger's Cleaners.

Mr. and Mrs. Don Sanders moved into Mrs. Bartlett rent house. Employed by Meade Bread Company.

Mr. and Mrs. B. E. Duggins moved into Alta Wylie home. School faculty member.

NEW HIGHWAY SIGNS

Three new highway signs were erected this week at the intersection of Main Street and Hiway 60 by the Highway Department.

The signs indicate direction and miles from Friona to Clovis, Hereford and Muleshoe.

Rev. C. H. Jones

Plans are being made by the Friona Baptist Church for a revival to be held September 2-11.

Rev. C. H. Jones of Dallas will be the evangelist and Kenneth Baker of Portales will conduct the music.

The morning services are to be held at 10 a. m. and evening services at 8 p. m. Prayer meetings will be held each evening at 7:30 p. m.

556 is the goal set for Sunday School September 4, and 776, September 11. The Training Union goal has been set as 295 September 4, and 350 September 11.

Everyone is invited to attend all services of the revival.

Indians to Play Umparger Here

The Friona Indians again will afford local ball fans an opportunity to see a crackerjack game this Sunday, engaging Umparger at the local diamond in a play-off game. Umparger defeated Dimmitt 9-5 last week to earn the Friona match.

This is likely to be one of the two last games for the Indians this season, so local baseball enthusiasts are especially urged to see this game. All players seem to be in fine fettle and ready for a full lineup this Sunday. Barrett is slated to take the mound.

Sesame Is Newest Crop Grown Here

A recent survey of sesame fields in Parmer county shows that this relatively new crop, for this area, is doing exceptionally good and should return good yields barring bad weather.

Clyde Bloch, representative of the Texas Sesame Seed Growers of Paris, Texas, and Doyle Cummings, local businessman, have made a survey of sesame fields in Parmer county, and found that most of the crops are in exceptional condition.

Cummings indicated that it would be around October 1 before any of the crop is ready to harvest. Most of the sesame was planted around May 15. Some of the growers planted 1 1/2 pounds per acre, but about one pound is usually sufficient for a good stand. The crop has been grown mostly on dry land before this year.

Cummings stated that the market price this year will be as good, or better than last year, when the net price for the grower was \$9.60 per hundred pound. He believes that the harvest will average from 1,000 to 1,200 pounds per acre, and the crop, entirely new to Parmer county, may find a place in the area.

There are 27 farmers in the county growing sesame.

Credit Union Board Notes Rapid Growth

The Friona Credit Union board of directors met last Tuesday night for their regular monthly business meeting.

The secretary of the organization, Mrs. Lucy Jones, reports that the Credit Union now has 180 members, with assets totaling \$5,935.18. Shares total \$5,757.12. Since organized last fall, \$167.80 interest has been collected by the Union.

The board also voted to increase the treasurer's bond to \$2000. Attending the meeting were O. J. Beene, Ralph Taylor, Boyd Knox, Mac Bainum and Mrs. Lucy Jones.

Unusual Exhibition to be Staged At Fair by Friona Fire Department

The Friona Fire Department met last Thursday night and made plans for some interesting and unusual demonstrations on fire fighting methods, to be staged during the Parmer county fair.

These special demonstrations will be held Thursday, September 8, at 7 p.m. on the vacant lot south of the Fair barns, and will be supervised by firemen Charlie Bainum and James Cunningham.

The fire boys will show how to control and extinguish pit fires by digging a pit 10 feet by 20 feet

and filling with six barrels of oil, some diesel fuel and gasoline. They will extinguish the pit fire by use of low pressure fog.

Utility Lines Are Well Underway

City manager Roy Wilson reported this week that H. B. Jordan of Amarillo, contractor for the laying of water and sewer lines in Friona, has almost completed laying the contracted 45 blocks of water lines, and should finish the job sometime this week.

Work will begin next week on laying approximately 43 blocks of sewer lines, and will likely take about three to four weeks to complete.

Wilson stated that bids will be accepted on the proposed paving for Friona and contract will probably be awarded a paving contractor around October 1.

Tentative plans for a city hall also are being made. Plans will be drawn and approved by the city commission in the future, and will most likely be let to a local contractor, said Wilson.

CONGREGATIONAL MINISTER

Rev. John Sharp of Canyon, retired Presbyterian minister, will serve as interim minister at the Friona Congregational Church beginning Sunday, September 4.

Rev. Lewis Knight, present pastor, will leave Sept. 1 for Sacramento, California, where he has accepted a pastorate.

Ware's Holding Formal Opening

Opening of the Ware Department Store this weekend in Friona marks the latest in the expansion developments in the local retail trade picture.

The opening ceremonies were scheduled at 10 o'clock this morning (Friday). Awards to be made Saturday afternoon at 5 o'clock will include a 21-inch Motorola television set, \$1,000 in Gunn Bros. trade stamps, and other items.

Local manager Joe Ferrell has invited everyone in the trade area to visit the store during opening festivities. Detailed announcement and advertising messages appeared earlier this week in the reminder, sister publication of the Star.

Stated Ferrell, "Brand new from top to bottom, the new 50 by 120 foot building we have in Friona is built and designed especially for this wonderful community. It represents a part of our faith in the future of this progressive part of the country, with its promise of continued growth and its record of steady development."

Ware's is located between Houser Grocery and Dilger's Cleaners on the west side of Main Street in downtown Friona.

Rev. McKeehan Assumes Pentecostal Pastorate

Rev. W. C. McKeehan has accepted the pastorate of the United Pentecostal Church of Friona.

He has had a number of years experience in the ministry, both pastoral and evangelistic. Before coming to Friona he was at Los Cruces, New Mexico and previous to that he spent several years in Harris County, Texas. Rev. McKeehan stated that his services are available to all who may need the service of an ordained minister in this community.

The church announces that there will be a revival services for the next two weeks, and everyone is welcome to attend.

Rev. and Mrs. McKeehan and their children, Wallace, 11; Kent, 9; and Stephen, six months of age, will reside at the Pentecostal parsonage at 5th and Ashland.

They plan to show methods to control and extinguish service station fires. A dummy will be placed in an old car, donated by Opal Jones of Jones Wrecking Yard, and the car will be soaked with gasoline and set ablaze. Two men from the fire department will rescue the "man" from the burning car, and put out the blaze by using low pressure fog. They will also control and extinguish a butane fire by this low pressure fog method.

U. B. Wheeler Funeral Saturday

Funeral services for U. B. Wheeler, 74, of Bovina, will be held Saturday afternoon at 3 p.m. in the First Baptist Church in Friona. Rev. E. E. Houlette will officiate.

Mr. Wheeler died Thursday morning in the Parmer County Community hospital where he had been a patient for the past 11 weeks. He had been in ill health for several years.

Mr. Wheeler was married to Lillian Grayson in Jones County in 1905, and the couple moved to Bovina in 1918. They had lived in Tulsa a year before moving to Bovina.

He is survived by his wife; one daughter, Maggie Stanley of Lamar, Colorado; five sons, J. H. of Hereford; Travis of Bovina; Bruce of Plainview; Marvin of Kress and Melvin of Eunice, N. M.; one brother, R. O. Wheeler of Tulsa, and eight grandchildren.

Marcum-Claborn Funeral Home in Friona will be in charge of the service, and interment will be in the Tulsa cemetery.

Pallbearers will be Kenneth Houlette, Paul Jones, Nat Reed, Tom Rhodes, Pete Butke, Charles Hawkins, Tom Griffiths and Bedford Caldwell.

Large Attendance At Anniversary

Bonnie Wilson, manager of Piggly Wiggly, reported that the second anniversary celebration of the store last Saturday was very successful—with 2500 people registering during the day.

Mrs. Alta Wylie of Friona guessed the exact weight, 198 pounds of the large white, two tiered birthday cake and was awarded a cooker. Mrs. Betty Louise Rector guessed the weight at 197 1/2 pounds and was given a toy race car.

At the drawing Mrs. Walter Lovless won a radio; Mrs. Tom O'Brian won a clock and Eddie Bradshaw won a skillet.

33 Continuous Years Family School Record

This coming school term will mark a milestone for the E. E. Houlette family—the last time in 33 consecutive years that they will have a child in the Friona schools.

The Houlette school story began in 1923 when their oldest son, Kenneth, entered school here. He graduated from Friona High School in 1936, and attended West Texas State College at Canyon. He now lives in Friona and is employed at Phillips 66 Wholesale.

School was different in the days when Kenneth first started, with only a few teachers and without the present modern facilities. The pupils carried their lunch from home, and the grade school and high school classes were all housed in what is now known as the old grade school building. One of the present faculty members, J. T. Gee, taught Kenneth agriculture, and has since taught the other Houlette boys in agriculture classes.

The Houlette's oldest daughter, Mrs. Pearl Hutchins, graduated from Friona High School in 1936. She is now living in Albuquerque.

Also control and extinguish a butane fire by this low pressure fog method.

A demonstration on chemically treated houses will be given when two miniature houses are burned. One will be chemically treated with Flamart, and the other will not be treated. This will show the difference in the two houses, and the advantage of chemical treatment, said Cunningham.

All of the oil, gasoline and diesel fuel used in these demonstrations will be donated by Strickland's Shamrock Station.

The fire boys also plan a demonstration on fire extinguishers and their uses and limitations. The carbon dioxide, dry powder and foam type extinguishers will be shown. The department also will furnish a booth in Fair barn, on fire extinguishers and fire fighting equipment.

On Saturday evening during the barbecue at the Friona park, the fire department will engage members of the Friona Lions Club in a water polo game. This event will be in the street on the east side of the park.

The fire department is hoping for a big turnout for these demonstrations, the first of their kind in this area.

Funds Solicited For Flood Relief

The American Red Cross has appealed to chapters over the nation this week to help with the hurricane disaster areas along the east coast, where the people are in real need of aid.

The local Red Cross chapter officers feel that enough Parmer county residents will donate nickels, dimes or dollars to raise our county quota so that a door-to-door campaign will not be necessary. Our county has been asked to raise \$140 according to the county chairman, Wesley Foster.

Anyone wishing to help with this should leave their donations with Mr. Foster at Foster's Dry Goods; O. J. Beene at the City Drug Store; Melba Neelley at the Friona Star; or Ralph Roden at the Bi-Wize Drug.

POTATO SHED IN OPERATION

Potatoes are being harvested this week to fill orders needed for market.

Market prices are still about the same, states Herman Neff, owner of the potato shed. Mr. Neff states that he feels that eventually all potatoes of this area will be dug.

Baked Chicken Chop Suey 1/2" long.
1/2 cup green pepper cut in one-fourth inch strips one-half inch long.

Here's the way to stretch two cups of chicken into ten servings of delicious chicken chop suey: This is an especially easy way to make chicken chop suey because it's baked and served from the same dish. Toasted crisp almonds on top add that "extra touch"!

3 tablespoons coarsely grated onion.
1 1/2 cups chicken broth or 1 1/2 cups water with 2 chicken bouillon cubes.

CHICKEN CHOP SUEY
Tossed Vegetable Salad
Pickles Olives
Poppyseed Rolls
Ice Cream Favorite Sauce.

INGREDIENTS:

2 tablespoons butter or margarine or chicken fat from broth from stewing chicken.
1 cup celery cut in 1/4" strips

2 tablespoons cornstarch.
2 tablespoons cold water.
2 tablespoons soy sauce.
1 can Chinese vegetables.
2 cups diced chicken.
2 cups water.
1 teaspoon salt.
1 cup uncooked white rice.
1/3 cup blanched almonds split in half.

METHOD: Melt the butter or margarine in a saucepan. Add the celery, green pepper and onion. Cook until the onion is yellow. Add the broth and heat until very hot. Put the cornstarch in a cup or bowl. Mix in the 2 tablespoons water. Slowly stir in some of the hot broth. Return mixture to saucepan. Cook, stirring, until mixture thickens. Stir in the soy sauce, Chinese vegetables and chicken.

In a greased 3-quart oven dish place the water, salt and rice. Top with the chicken mixture. Bake in a pre-heated 350 degree-F. oven for 45 to 55 minutes or until most of the liquid is absorbed. Sprinkle the almonds over the top during the last 15 minutes of the cooking time.
This recipe makes 10 servings.

Washington Views:

THE PEOPLE OF THE 18TH DISTRICT:

Across America

Rogers family really travel across America when we came.

You could almost call it an American trip, all things considered. Our plans were all set at 8 a. m., and we left at 12 noon. We heard through Maryland to Pennsylvania then turned west into Ohio. Everything was until we reached Washington, D. C. and found of the motels were full, all but one, which was in town. I don't know do it, but we have never seen in the ditch yet. Washington, D. C. is an old one of the people out here to think we have some streets. Well, to really ours, all you need to do is around one of the old ones. Many of the streets with cobble stones, and like riding on a corduroy—shakes your teeth can also appreciate nature when you see the soot buildings. They were the status on top of the in Washington, Penna. and it was a brilliant; atop what looked like the rest of the court so black.

West the next morning and into Indiana. Who were wonderful, and I so much corn in my bag to be record breakers we couldn't eat it and more trouble trying to eat from Zanesville. Some of you restaurateurs look that sure need some good as all along Highway to St. Louis. Part of route, Ohio is divided, and most of it through the same. The high right through the central cities. I have never to understand why high the Midwest and East all the rough the towns, while this country where the traffic is so heavy, millions are spent to by-pass every community. Seems rather to cut our towns out tely.

spent the night about 30 east of Indianapolis in an ext motel. When we got set, the smallest boy and I decided to drive into the small town and a few snacks for the children while we were waiting for supper, was about five miles. As we were living along, the boy said to me, "Daddy, do they raise camels in Indiana." I said, "Well, I wouldn't think so." He said, "Well, there's some out in that field." I looked up and sure enough four big camels were out in a road side pasture, eating hay. My first thought was that some farmer had really gone into the diversifield field in earnest. It turned out, however, that the animals were circus camels. So, as far as I now know, Indiana doesn't yet raise this type of animal.

The next night we spent in Rolla, Missouri, which is a town that has been cut completely off the highway. If you are going to spend the night there, you must intend to, nothing accidental about it. The roads through Illinois were not good, but they got much better in Missouri until we neared Oklahoma. The roads narrowed down and traffic was heavy, but they are working on them and will have them in good shape before long. Tulsa was our stop, and we found it growing like most of our West Texas towns. We used the Turner Turnpike to Oklahoma City, then Highway 66 to Elk City where we turned across through Sweetwater and Wheeler. These roads were all in excellent shape. You can sure tell Texas highways when you hit them. They are all in fine shape.

The children were sure glad to get home. They haven't stopped a minute and probably won't, until it is time to go back to school. The country and the folks look mighty good to all of us. We are always willing to let a good rain ruin a trout program. Give the Panhandle rain and you will never have worry about anything but surges. But, it is much easier to rry on a full stomach. At least e always found it that way.

Visitors

H. C. Weatherby, Agricultural

Instructor in the Shamrock Public Schools, and 27 of his FFA boys pitched tents at the Potomac Park Motor Court and visited in Washington several days seeing all the sights. We hope the boys enjoyed their visit to Washington and that they will get to pay us another visit soon.

Dr. Tanell Dakil, son of Mr. and Mrs. Frank Dakil of Childress, also paid us a visit this week. Tanell is competing in the world-wide Air Force tennis tournament which

opened Monday and is being played at the Army-Navy Country Club here. He is representing Keesler Air Force Base in the tourney, and gained the right to compete when he swept to victory during the Southeastern Conference Tourney held at Greenville, Mississippi. Captain Dakil advanced to the quarter-finals in the tourney, and we wish him the best of luck.

Another visitor was Ted Reid of Canyon, Texas, former Coordinator of West Texas State College. We always enjoy seeing these folks from home and hope they get a chance to return to the Capital City again.

WALTER ROGERS
Member of Congress
18th District of Texas.

AUSTIN, Tex.—Whether a special session of the legislature is called on school integration apparently hinges on a Texas Supreme Court decision still to come. Filed by the anti-integration Texas Citizens Council in a district court at Big Spring, the suit seeks to bar payment of state funds to bi-racial schools.

Atty. Gen. John Ben Shepperd says the court decision holds the key to whether Texas laws must be changed immediately or already-integrated schools must back-track. Decision by the district court can be carried directly to the Supreme Court and possibly be settled by the time school starts.

Should the court hold payment to integrated schools can be made under existing laws, there apparently would be no urgent need to change them, at least in that regard.

Shepperd said he welcomed the Big Spring suit since it promises to clear up the difficult legal situation.

Gov. Allan Shivers says he will call a special session "if necessary." He apparently was awaiting three developments:

He asked his newly formed citizens' advisory council on school integration to investigate and report to him on several questions, including the need of a special session.

He asked Shepperd to prepare an official ruling on legal questions.

And the decision in the Big Spring court case may set up conditions to determine need of the session.

associated with Loyalist Democrats and had supported Ralph Yarborough in the latter's two unsuccessful races for governor.

Giles Pleads Guilty

One of the biggest news breaks of last week was Bascom Giles, plea of guilty in criminal district court at San Antonio to two charges in connection with a Bexar County block land deal.

Giles' guilty plea concerned charges of consenting to accept a \$30,000 bribe. He pleaded not guilty to a third count, of accepting the bribe. The state waived this charge and Judge Buck Jones imposed a six-year prison sentence. It is to run concurrently with a

three-year sentence given Giles earlier at Austin on a charge of theft of \$6,800 from the veterans' land fund.

Giles has appealed the case, which affords at least 90 days' delay in final disposition of the sentence.

Awaiting trial in San Antonio were Arthur McKenzie and C. V. Wynn, San Antonio land operators, indicted for offering the \$30,000 bribe to Giles.

Other suits now pending against the former land commissioner are a civil suit at San Antonio, seeking recovery of \$35,000, and nine additional suits in Austin, on other transactions. He also faces trial in Zavala County on another land case.

Stevenson Reply Awaited

Adlai Stevenson is slated to speak in Austin on Sept. 28. At that time he may reply to Gov. Allan Shivers' repeated refusal to support him for president.

During the national governor's conference in Chicago, Shivers said he would again, as in 1952, refuse to support Stevenson if he were Democratic candidate for president.

Stevenson withheld comment "until I am in Texas," Shivers, he pointed out, was a "guest in Illinois."

Stevenson's Austin appearance was arranged by the University of Texas great issues committee. It is billed as "non-political." Subject of his talk will be "America, the Economic Colossus."

Too Much Money

Overpayment of drivers license fees has created a problem for the Department of Public Safety. DPS staffers reminded the public that increased charges voted by the 1955 Legislature do not into effect until Sept. 6. At that time charges will jump from \$1 to \$2 for an operator's license, \$2 to \$3 for commercial licenses, \$3 to \$4 for chauffeurs.

Meantime, the lower rates apply, and the department has quite a task returning excess money.

Highlights and Sidelights FROM YOUR State CAPITOL

By VERN SANFORD
Texas Press Association

The Christian life is like a race. Everyone who runs this great race, the only one which is worth while, must prepare himself for it. It requires feeding on the most nutritious spiritual food, leading a life free from the weight of sin which besets us.

It is important that we keep Christ in sight as we run with patience the race set before us. If we lose sight of Him, we wander from the pathway or mistake the goal, for He is the Way and the Goal. From Him comes inspiration in the very act of running the race; from Him comes the energy needed to reach the end of the race.

Many are watching as we run and the progress we are making in the faith and the living of it. Let us run the race to the glory of God and trust our lives may prove inspirational to a cloud of witnesses.

PRAYER

Our Father, we know that the Christian life demands continuous effort and great patience. Encour-

age us in our race and feed us with Thy spirit that we may be sustained and at last reach the goal. In the name of Christ. Amen.

FROM THE AGRICULTURAL DEVELOPMENT DEPARTMENT
 SOUTHWESTERN PUBLIC SERVICE COMPANY

Aeration and conditioning of small grain in flat storage on the farm is successful and profitable according to information compiled by the Agricultural Engineering Department at Texas Tech College in Lubbock, and other reliable sources. The work at the Lubbock College was in cooperation with the Texas Agricultural Experiment Station. Grain was placed in storage in October 1953, and complete records were kept on operating costs, temperatures, and moisture of the grain at all times for the past two seasons. Ira Williams, Head of the Agricultural Engineering Department, and Eldred Jordan, instructor, supervised these tests with the technical cooperation

of the Steel Bilt Products Company in Lubbock.

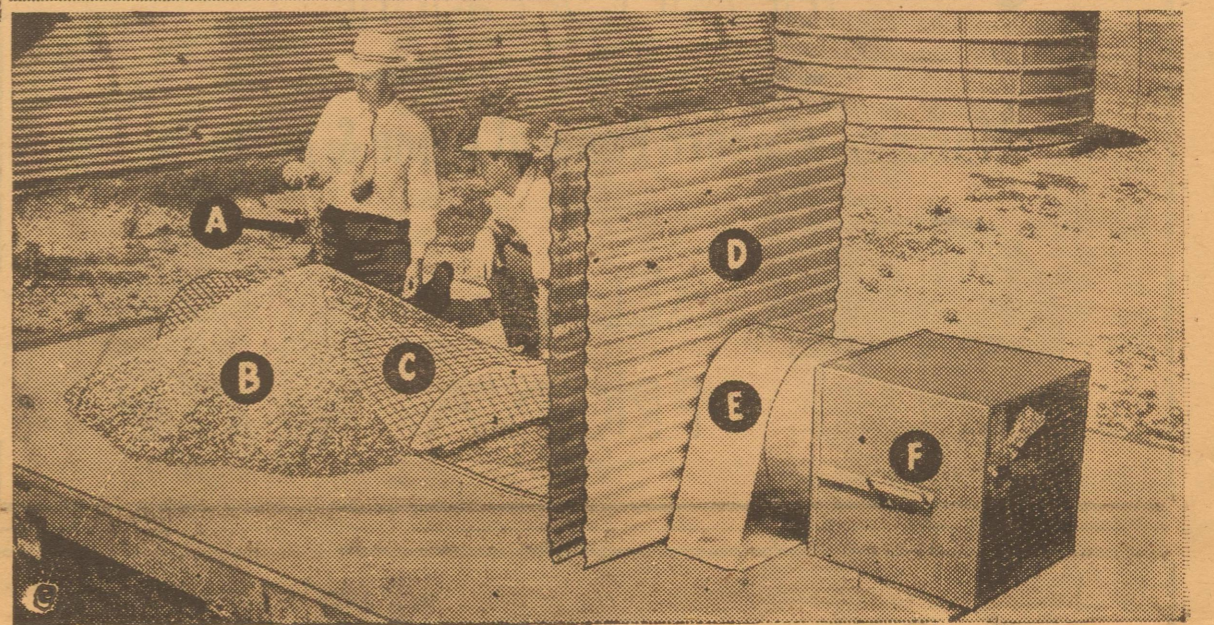

The equipment at the College includes a 16' x 32' quonset steel building with an expanded metal mesh air duct tunnel extending the entire length of the building. A high speed three horsepower electric motor drives the semi-pressure 18" fan that is attached to the outer end of the air duct tunnel. Outside air is pulled through the grain, carrying out moisture and heat; both enemies to grain in storage. Cost is small, particularly in view of the fact that moving and the turning of grain is eliminated. Also, any fumigation of grain that might be necessary is simplified. You

may get the details for this operation from Mr. Williams at the college, your nearest supplier of grain aeration equipment, and your county agricultural agent.

It is reported by Steel Bilt Products Company engineers that this three horsepower electric fan can safely aerate, fumigate, and keep about 72,000 bushels of grain in good condition in flat storage. If drying is desired, special attention should be given to the grain and not more than 3,000 bushels of grain should be dried with this unit in one operation. The job of keeping the grain cool, free of weevil and bug contamination is simple when this aeration process is used on the farm.

The cost of this equipment is fixed, the cost of electric power is insignificant; so barring poor weather or a poor market, your good management can increase your grain profits with aeration equipment.

Exposed model of aeration equipment clearly shows (A) conditioned grain as it flows from Ira Williams' hand; (B) simulated grain storage over aeration tunnel; (C) expanded wire mesh tunnel with screening pulled back; (D) bulkhead section as it would be in a flat grain storage building; (E) duct leading from fan to air tunnel and (F) highspeed three-horsepower electric semi-pressure fan. Fred McDonald, Steel Bilt Products Company consults with Williams.

Letters to the Editor

Montgomery City, Mo.
August 20
Dear Editor:

One year ago today we were just leaving Texas after a most delightful three days in and around Friona. We said then we would be back "next year," but at a later date. We want to see cotton picking and maize harvest operation. I hope your harvest will be as good as ours has been and

promises to be. Our wheat and oats were the best ever. Wheat yields up to 66 bushels per acre. Very few fields fell below 30 bushels. Oats as high as 116 and few fields fell below 50 bushels per acre.

Late corn is being hurt now by hot dry weather. Soy beans are also needing rain. It is two weeks since we have had any rain, about one inch on August 7.

Our early corn is safe and very good. Temperatures are lower than last year but humidity higher, so we feel the heat worse.

Grover's work as city engineer has kept him very busy this summer, as aside from his duties as street commissioner and superintendent of water and sewer, he has to oversee building a lagoon for sewage disposal a distance from town. But we still aim to come down there later this year.

Our subscription to the Star is due. I am enclosing a check for another year. Just extent it a year.

Uncle Bill (Calloway)

(Editor's note: Mr. Calloway also enclosed an item from the Montgomery City newspaper reporting that for the first time in Montgomery City, wheat was being piled up on the ground with 10,000 bushels on a downtown parking lot. All storage space at both elevators were full and no cars to be had for shipping the grain.)

Patrol Positions Open in State

AUSTIN, Aug. 26—Applications are being received by the Texas Department of Public Safety for appointment as Driver's License Examiner, according to a statement released today by Col. Homer Garrison, Jr., Director of the State Safety Department.

Young men between the ages of 21 and 35, inclusive, may apply between now and September 20th, closing date for receiving applications, according to Garrison.

In addition, applicants must meet the following qualifications: be not less than 5 feet 8 inches in height; weigh not less than two nor more than three pounds per inch of height; have a high school education; be of good moral character and subject to rigid character and physical examinations. Also, they must have resided in Texas for at least a year.

Garrison said that examinations will be given late in September to fill 23 existing vacancies in the Driver's License Division caused by resignation, promotions and transfers.

Student examiners are paid \$275 monthly during the first month of training. They are then raised to \$36 per month for the initial three months of their first field assignments. After that they receive the maximum pay scale of \$315.

Additional benefits are: two weeks paid vacation annually; and both retirement and social security provisions.

Application blanks may be secured at any State Driver's License District Office or by writing directly to A. F. Temple, Chief Driver's License Division, Texas Department of Public Safety, Austin.

Texan of Distinction

Bill Cunningham—prominent journalist, news commentator and author—has been selected to receive the fourth annual "Texan of Distinction" award of the State Fair of Texas. Dean of American sports columnists, Cunningham was born in Pattonville, near Paris, Texas, and now lives in Boston, Mass.

Visitors in the A. L. Black home Sunday were her parents, Mr. and Mrs. Leslie Caroland and Mr. and Mrs. L. C. Caroland all of Clovis and Mr. and Mrs. M. A. Black of Friona.

Tuesday dinner guests of Mr. and Mrs. Ed Boggess were Rev. and Mrs. M. E. McKinney.

Visitors in the Fred Parker home this weekend are Mr. and Mrs. Eugene Coffman and children of Farwell, E. L. Sparks of Pampa and Boyce Brown of Cleburn, Texas.

Mr. and Mrs. Orion Stout of Fritch, Texas, were visitors in the L. C. Tims home last weekend.

Mrs. Ethel Chitwood visited in the Ed Boggess home Sunday afternoon.

Mr. and Mrs. M. B. Buchanan visited Sunday afternoon with Mr. and Mrs. Merritt Brooks.

Conditions continued favorable for growth and fruiting of cotton in most areas, while some dryland cotton deteriorated because of low moisture conditions. Heavy shedding occurred in some fields. While some of the small boll drop was due to a stressed condition of plants, most of the shed was caused by the bacterial blight disease.

Aphids decreased in numbers in many fields, but infestations increased on cotton in some fields. The heavier infestations were generally found on late cotton or on that which had been treated earlier for bollworm control. Where control is needed a recommended material for aphid control may be

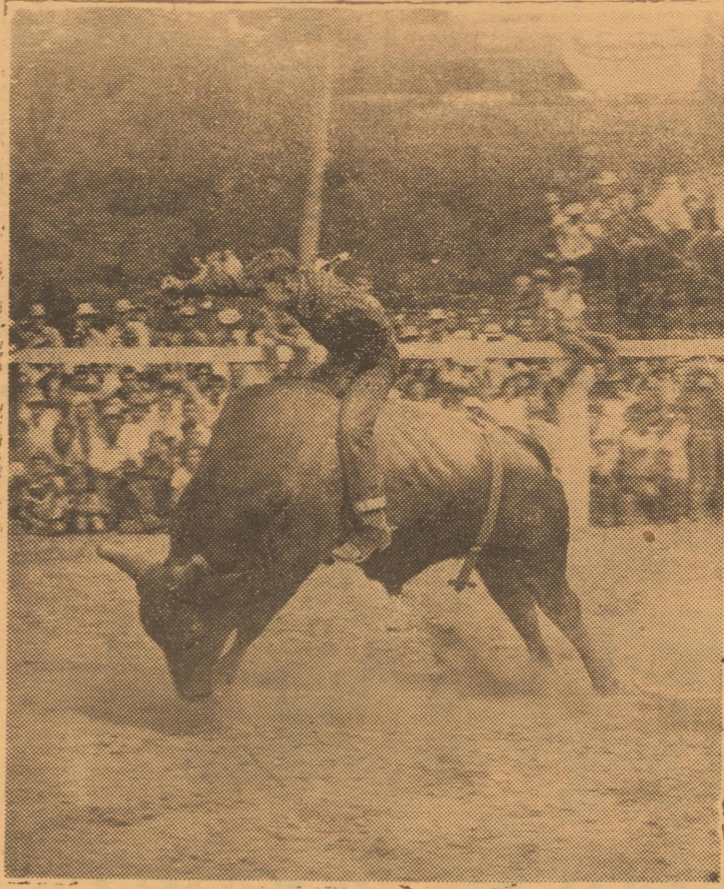

added to the bollworm control mixture.

Bollworm activity changed little over that of the previous week. While many fields, which had not been treated previously, developed sufficient infestations to require control, many other fields have not had sufficient worms to warrant control. A majority of the infestations have not been heavy. In checking bollworm infestations the egg should not be confused with those of the cabbage loopers. The looper eggs are generally found on the underside of the older, tougher leaves, while eggs of the bollworm are generally found on the upper side of leaves and usually on the more tender growth.

Cabbage loopers and yellow striped armyworms continued to cause severe ragging of cotton leaves in scattered plantings throughout the area. The armyworm damaged forms in a new field. Disease has reduced cabbage looper infestations in some areas.

Lygus bugs were reported in spotted medium to heavy infestations on cotton in Floyd, Hale and Lubbock counties. Light spider mites infestations were found on cotton in a few fields in Lubbock County.

Information contained in the cotton insect situation release has been compiled from reports received from county agents, vocational agricultural teachers, personnel of the Texas A. & M. College System, various branches of the U. S. Department of Agriculture Commercial Cotton Inspectors, chemical companies and others.

Its Boys Ranch Rodeo Time Sept. 4,5th

Its Rodeo time for 220 young cowhands at America's First Boys' Ranch, Amarillo, Texas.

The boys have been practicing for several weeks now and excitement is running high at the Ranch as the date approaches.

Two shows will be held this year at Boys' Ranch, located 40 miles northwest of Amarillo, Labor Day week afternoon, Sept. 4 and 5 at 2:30 each afternoon.

Every boy at the Ranch will have a chance to show his abilities.

Wheat Varieties Are Earmarked

COLLEGE STATION, Aug. 26—A list of 23 wheat varieties designated as undesirable, because of inferior milling or baking qualities has been released by the U. S. Department of Agriculture. Because of their undesirability, a discount of 20 cents a bushel in 1956 price-support rates will be made to discourage the planting of the listed varieties.

The varieties were designated by the Agricultural Research Service after consultation with state agricultural experiment station personnel, agronomists, cereal chemists and other qualified technicians on state and Federal staffs.

The price-support regulations for 1956 will provide for producer certification, that is, the identification of the variety of wheat going under price support will be the responsibility of the producer. It will be based on his knowledge of varieties seeded and harvested. No protein content premium will apply to any of the undesirable varieties.

The 23 varieties listed accounted for only 31 million bushels of the 1954 production and 3.7 percent of the '54 wheat acreage. The varieties shown on the list included seven which are planted in Texas. All are hard red winter wheats and are Red Chief, Red Jacket, Kankin, Chiefkan, Early Blackhull, New Chief and Yogo.

USDA officials state that this change in the price-support program for wheat is designed to encourage the production of more desirable varieties and lessen the possibility of U. S. wheat of inferior quality finding its way into domestic and export channels. Strong backing, say the officials, has come from crop improvement associations.

The little fellows ride calves and the older boys put on as good a show as professionals at the broncs and bulls. The Ranchers will be participating for the top cowhand award and prizes will be given in each division. Special clown and trick roping and riding acts will be presented by the boys.

The Rodeo will be a homecoming and reunion for many of the 1200 boys who have lived at the Ranch in the past 16 years. Many of the boys are in service, some are attending colleges and others are all over the United States in different occupations. Many have already responded and all ex-Ranchers are urged to attend the reunion and bring their families. They should write or contact Boys' Ranch, Box 1890, Amarillo, Texas, Phone DRake 44687.

This will be the 11th annual Boys' Ranch Rodeo and the youngsters participate in every event seen in a professional show. The Rodeo will be open to the public and tickets will be on sale at the Ranch on both days. The price will be \$1.25 for adults and 75c for children.

HERE'S THE FORAGE HARVESTER WITH CAPACITY PLUS!

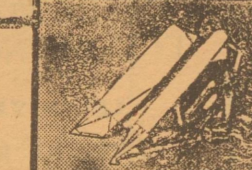

the NEW **MM FORAGOR** MODERN MACHINERY

Hay or row crops... here's new capacity that takes big forage harvesting jobs in stride! This new Minneapolis-Moline Foragor tears with any 2-pow tractor to chop hay, corn or other forage crops in one fast trip through the field. The feeder apron mounts either hay or row-crop heads. The heavy-duty cutter mounts four 16" hardened steel knives on a 3/4" plate... you set cutting lengths for hay or row crops without removing knives. Powerful 4-cylinder MM engine, big capacity blower, and large delivery pipes let you handle forage crops fast... while they're at the peak. With sealed ball bearings on all principal drives, and typical MM rugged construction throughout, this new Foragor rates tops in dependability... tops in forage harvesting efficiency.

INTERCHANGEABLE HEADS FOR HAY AND ROW CROPS

This hay pickup does a fast, clean job of picking up windrowed crops. Features: 56-inch wide pickup drum; raker-bar feed; two speeds for green or dry hay.

Row crops go from field to cutter knives in 1/2 time when you harvest them with this row-crop head. Simple height adjustments get more of your crop.

Stop in soon and get complete facts on the pace-setting new MM Foragor.

SWEET POTATO TREAT

Your friends will talk for weeks about this toothsome dish once you give them a taste. A delicacy we owe to the Southeast, Sweet Potato Treat is so easy to make you'll want to use it as a standard companion piece for your favorite ham recipes.

- 6 medium sweet potatoes,
- 2 bottles Dr. Pepper
- 2 tablespoons butter
- 1/2 teaspoon cinnamon
- 1 box marshmallows

Pare and slice sweet potatoes lengthwise into half-inch strips, filling casserole which has been well buttered. Pour Dr. Pepper over sweet potatoes and dot with butter. Dust with cinnamon, top with 8 or 10 marshmallows, and bake one hr. in 300 degree oven.

Thinking of buying a new home and settling down before school starts? How will you know whether you are receiving a good title to the property you purchase? The safest method is to have a title examination made—that is, a careful study of the abstract and other title evidence.

Here are a few of the common sources of trouble in real estate transaction to show why the minor expense of a title examination is justified.

Many persons sign "earnest money contracts" believing that they are mere receipts with no serious implications. In reality they may specify, among other things, the kind of title you must accept.

A "warranty deed" from a responsible seller is comforting to have but it is a poor substitute for a careful title examination. A warranty deed does not guarantee a marketable title.

Morover, serious title defects may not come to light until long after the seller on a warranty deed is dead, has moved to an unknown address, or is bankrupt. Even if he is available a good title is much better than a law suit.

The fact that the seller has possession of an "abstract" does not mean that he owns the property. An abstract is only a history of a title. Possession of an abstract no more indicates ownership of land than possession of the history of Texas means that you own the state.

Some purchasers of land feel safe because the title is being examined at the time of purchase by an attorney for the mortgage lenders. This seems logical but is a dangerous theory. Mortgage lenders are sometimes willing to accept less than good record title as security. This is sound business for them because, among other reasons, the chances are that the mortgage will be paid off so that no expense in perfecting the title would ever need be incurred. It is risky business for you when you are putting your life savings into the purchase.

These are a few of the reasons why a title examination is an important safeguard to you. When it is completed, the attorney gives you a written opinion stating his conclusions as to who owns the land, the defects in or charges against such ownership, and the requirements to be met if any, to make good record title.

Off-hand this may seem a simple operation. In fact it is not. It requires the interpretation of numerous deeds, mortgages, wills, court decrees and other instruments; the consideration of the order in which transactions and events affecting the title occurred; and the application of statutes and court decisions to the various situations disclosed in the abstract.

A free pamphlet containing useful information on legal problems involved in buying a home has been prepared by Texas lawyers. To obtain a copy, print your name and address on a postcard and mail to State Bar of Texas, Colorado at Fifteenth, Austin 1, Texas.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

Ever wonder what "Santa Fe" means?

Back in 1901, about 40 years after the Santa Fe Railway was founded, the ancient Indian Cross-within-a-Circle design was placed in a square and the assembly was adopted as the official trademark of the young railroad.

The words "Santa Fe" means Holy Faith. Today, that faith and vision in America's future have built the Santa Fe Railway System into a vital network of steel, linking the West,

Southwest and East with fast, efficient transportation services. These rails serve your town; help it grow and prosper.

And, no matter what your shipping or travel problems may be, Santa Fe will solve them. Your local Santa Fe agent is right here in your town to help you.

You can depend on him, as you can depend on the vast system he represents.

New Reservist Policy Is Announced by Army

Department of the Army has authorized the voluntary recall of Reserve officers and enlisted personnel in the Fourth Army area for a maximum of 90 days of active duty starting in late September in connection with Exercise SAGE BRUSH, the joint Army-Air Force maneuver tentatively scheduled for November and December in the Camp Polk area of Louisiana.

Major General Sam T. Williams, Fourth Army commander, announced that Continental Army Command, Fort Monroe, Va., plans to utilize a limited number of the Reserve personnel as umpires. The majority of Reserve personnel recalled will be used in maneuver units to replace active Army personnel designated as umpires for Exercise SAGE BRUSH.

An estimated 184 officers in the grades of lieutenant through colonel and an estimated 195 enlisted men with ratings of E-3 through E-7 will be called from the Fourth Army area, General Williams said.

Officer quotas are for General Medical Corps, Engineers, Signal Staff, Infantry, Artillery, Armor, Corps, Ordnance, Quartermaster, Transportation Corps and Provost Marshal. Enlisted men must have Military Occupational Specialty numbers corresponding with the assignments to be filled.

The giant Army-Air Force exercise will involve approximately 110,000 Army and 30,500 Air Force personnel in a major maneuver under battlefield conditions.

Army units taking part in Exercise SAGE BRUSH will be Fourth Army headquarters; Third and 18th Corps; First and Fourth Armored Divisions; 82nd Airborne Division; Third Infantry Division; 11th Armored Cavalry Regiment, and selected Artillery, Engineer and logistical support troops. The Air Force will put a total of 54 tactical squadrons from the Ninth and 18th Air Forces into the test.

Reserve personnel interested in applying for active duty in connection with Exercise SAGE BRUSH may obtain detailed information and applications at the office of their Reserve unit advisor.

Visitors in the Bertram Jack home Sunday were Mr. and Mrs. Orba Miller and family, Mr. and Mrs. Ronney Miller and Mrs. Verl Miller all of Floydada, Texas. Mrs. Verl Miller and Mrs. Ronney Miller are spending the week with the Jacks.

We know you saw the headlines regarding castor beans in milo, in one of the daily papers. If you have grown castor beans, be sure to eliminate any plants from your fields, so you can sell the harvest without drastic penalty.

One week from next Tuesday at nine o'clock is the date for inspection of grain sorghum fields of those who have saved the certification tags from the seed bags. It appears that it will be a busy day, but if you desire such an inspection, please leave your name at the Farm Bureau Office or at the office of the County Agent. The inspectors and other interested persons, including members of the weed committee, will meet here at the Farm Bureau Office in Friona. You will be welcome to participate in this effort to enable you to get better, purer seed next year.

President Gilbert Kaltwasser attended a district II Farm Bureau President's Conference in Lubbock last Thursday night. He and Mrs. Kaltwasser and your service representative also went to Amarillo on the evening of the seventeenth when Miss Clara Jean Jesko, our Farm Bureau Queen was presented on Cotton John's Television show. Clara Jean continues to be complimented, and we are looking forward to her good possibility of winning the district contest early in September in Lubbock.

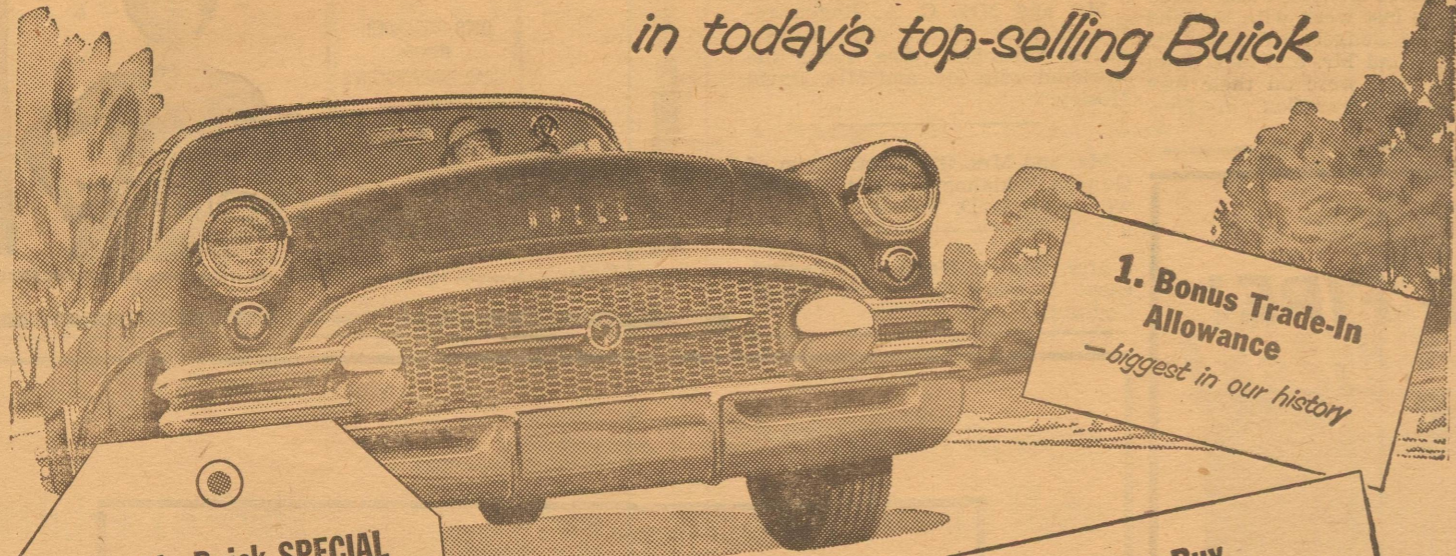

TALENT SHOW: Farm Bureau is sponsoring the talent show the last night of the County Fair. That will be September 10, Saturday night. J. T. Jones has reported that Mrs. M. A. Snyder of Farwell, Mrs. Leon Grissom, Oklahoma Lane, and Mrs. C. V. Potts, of Rhea will solicit and accept entries for the show. The Fair Association will provide prizes for winning entries. If it is more convenient, call your entry into 3521, Friona, collect.

Very little interest was shown in the National Cotton Council meeting last Friday night. Only a few over thirty men attended. Our compliments to Lawlis-Ely, of Bovina, and North Plains, of Friona, winners who were present, expressing an interest in marketing your cotton, as well as ginning it. Your future as a cotton producer is certainly dependent upon expanding markets and exports, as pointed out by John T. Gregg, Council Representative.

"OLD RELIABLE" INTO A FLASH OF FIRE!

Great Features back up Chevrolet Performance: Anti-Dive Braking—Ball-Race Steering—Out-rigger Rear Springs—Body by Fisher—12-Volt Electrical System—Nine Engine-Drive Choices.

Take a drive in the new Chevrolet and see how new it really is! "Old Reliable" is red hot.

For years and years, Chevrolet has given you those qualities of materials and workmanship that make it the best investment in its field . . . and now added to all that is sizzling performance!

Proof? You bet. In official NASCAR* Trials Chevrolet out-accelerated all low

and medium-priced cars and every high-priced car but one. No other stock car can make that statement.

Yes, sir! Flash of fire! That's why we ask you to come in and try the new Chevrolet before you buy any car.
