### GET OUT OF THE WASTER-CLASS

Coryell County and anywhere in Texas, Per Year ......\$1.00

It's easy to blame the present high cost of government on

But it isn't convincing. Within 25 years the National Beaumont where she will visit with government has increased its spending by 730 per cent, and most relatives for several days. of that occurred in post-war days. Still more inexcusable is the fact that state and local governments, which have little to do with warfare, increased 900 per cen and 645 per cent respectively.

Discounting all war costs and all the extraordinary expenses made necessary by present conditions, every form of government has been extravagant. New bureaus and new depart- very sick while visiting at Ewing is ments, each carrying heavy overhead, have been created by the reported much better. score. Two employes are often doing the work that could be more efficiently accomplished by one.

Our eleted representatives introduce and pass bills that Potts. Phone 379. recklessly create new government expenses or increase old ones.

But-remember this-public officials eventually feel the weight of public opinion. Only as we demand less government, week with Miss Doris Stockmier of more efficient government, cheaper government, will we get it. The ballot box is our best method to fight increasing bureaucracy and high taxation.

The editor of an exchange states a plain truth when he says: sister, Mrs. W. C. Fowler. "It is next thing to a crime for a government to spend more than its income. Every government should consider itself just a collection of families . . . . and should exercise family common sense-get out of the waster-class."

### KEEP ON GOING

A remarkable example of the spirit of aggressiveness of American business in meeting the exigencies of depression is found in the progress made by the share-the-work movement.

Its list of sponsors reads like a blue book of industry. A single participant has put 50,000 more people to work in his Mr. and Mrs. Geo. L. Walton and plants and offices by sharing the work. Another has given daughter Louise, and Mrs. Dave work and a livelyhood to 35,000. Hundreds of other great industries have, in the same manner, lifted the burden of want from thousands of the unemployed.

But share-the-work must have the aid of the smaller bus- last week end with her parents, Mr. iness if it is to succeed as it should. We hear much of indus- and Mrs. J. R. Blankenship, of tries that employ a thousand or ten thousand or more workers White Hall. -but these industries are few and far between. The great bulk of unemployment are from concerns employing a dozen, or a day from a several weeks' visit with hundred, people. These businesses too must share-the-work. Mr. and Mrs. W. C. Fowler of Wich-They must stretch one job into two-if distress due to unem- ita Falls. ployment is to be banished.

At the moment there are between ten and twelve million Bay City where he will visit his only unemployed in this country. Millions of them can be given the brother, Jesse Sloan, for several self-respect that comes with a job by further effort in the work- weeks. sharing direction. A recent report indicates that a total of about 1,100,000 people have been given work in this mannerlet's hope that record is dwarfed in the months to come.

### PRODUCTIVE WORK IS THE TEST

Any relief program that is sound must be based upon PRO- was principal of the White Hall DUCTIVE work. We can, for example, build unnecessary post- school, has been elected to the prinoffices, federal buildings and statehouses until the taxpayer is cipalship of Murrell school for next blue in the face. A certain amount of distress will be eliminated, a certain amount of temporary employment provided, and that is all. Unless the money spent gives us something actually needed visited in Gatesville Saturday. She it has been wasted.

Individuals and industries must provide the producwork. This does not mean we should refuse worthy charities-give to them by all means. Charity in itself is a productive was visiting in Gatesville last week venture of a sort. But it is better if the same amount of money in the home of Mr. and Mrs. Frank can provide normal jobs, add to the nation's purchasing power, Woodson, and with other friends. and give the spender himself something he needs and can use.

Property improvement is productive work. Prices for materials and supplies of all kinds are at unprecedented low levels. ter home here last week, Mrs. Wil-Mills, factories and quarries are inactive, waiting for orders. son will be remembered by many There are millions of people in this country who can afford to people here as Miss Bonnie Boswell. spend ten or a hundred or a thousand dollars to repair, renew or replace a needed item. The property owner who does this will get his improvements at much less than their real value-and he will be putting dollars into PRODUCTIVE relief work.

Remember, that while honest charity is good, jobs are an outside man. better and cheaper.

### THE MOTORIST'S ATTITUDE

Tremendous progress has been made in raising the safety standards of industry. Much of this, of course, is due to better guarding of machinery, and patented safety devices. Of still greater importance is an attitude of mind that progressive industries have developed in their workers-the attitude that a fishing trip on Cherokee creek. takes no chances and thinks before it acts. That has been the They returned Wednesday, principal cause of fewer and less severe industrial mishaps.

The solution to the highway accident problem is much the It lies in making the motorist realize his responsibility, to make him act on the highways as he wants others to act. Care, competence and courtesy are the trinity of automobile accident prevention. Their violation is responsible for ninety per ent of all accidents.

The time is always ripe for campaigns to educate motorist. Such campaigns should be continuous, as they are in industry. Mrs. Hall remained for a week's They should be intensive and well-directed. Last year we lowered the automobile accident rate a trifle-this year every driver should make it his personal business to create a real safety record.

It is coming to a fine pass when the people's reperesenta- fishing trip to the Concho River tives in the Legislature cannot meet and discuss problems affect- They carried Ed Raby, colored, as ing the welfare of the people without being intimidated and bulldozed by lobyists of special interests. Economical Quality Frigidaire

Lmagine a refrigerator that uses no more current than one ordinary lamp bulb

## **ECONOMY**

Here is a refrigerator that offers an entirely new standard of economical refrigeration. A genuine Frigidaire that operates on as little electric current as one ordinary lamp bulb.

### CONVENIENCE

And here are new conveniences -automatic defrosting-ice trays that slip out of the freezer at a touch of the finger-a wider door-spacious interior-extra room for tall containers—and a compartment for frozen storage.

### 1/4 MORE FOOD SPACE

The new Frigidaires are built with a highly efficient, space-saving insulation giving the cabinct smaller outside dimensions but much greater food storage capacity. Call at our showrooms today and see all the interesting features of the new Frigidaires.

### BEAUTY

This new Frigidaire introduces a distinctive style in cabinet design, with pleasing lines, artistic proportions, a finish of sparkling white Dulux and handsome chromium hardware.

### QUALITY

With its porcelain interior, its inbuilt dependability and long life -every detail of this new Frigidaire reflects that quality which has made Frigidaire the choice of a million more buyers than any other electric refrigerator.

THE SUPER FRIGIDAIRE LINE INCLUDES SIX NEW DELUXE ALL-PORCELAIN MODELS-

WITH MANY EXCLUSIVE FEATURES-THE FINEST FRIGIDAIRES EVER BUILT The new FRIGIDAIRE
