

## Pretty Boy Floyd Shot In Fight With Officers

The criminal regime of Charles (Pretty Boy) Floyd may be already ended or close to an end at least.

The notorious southwestern desperado and nation-wide "bad-man" was wounded as police pursued a number of bandits believed to be responsible for the Tiltonville bank robbery last Friday. Confirmation of Floyd being wounded came direct from the department of justice at Washington. A blood stain was left on the cushion of an automobile in which

Floyd was seen riding in an effort to outrun pursuers.

The fight between bandits and police was reported in a story released by the United Press, which it stated took place in the woods near Wellsville, Ohio.

One of Floyd's henchmen was captured but the former escaped into the dense wooded area where his trail was lost for the time. A policeman stated emphatically that he was positive he had shot Floyd through the abdomen.

Radio reports at 5:30 Monday afternoon stated definitely that only a short time before hand officers surrounded and shot Pretty Boy Floyd as he resisted arrest. He died soon afterwards.

The capture and death of the notorious criminal took place in a field a short distance from the place where he was wounded and escaped officers late Wednesday.

## West Trojans Down Local Gridsters in One Sided Contest

HORNETS LOSE, 34 TO 0

The Gatesville Hornets lost their third straight game out of four starts when they were swamped by the West Trojans, 34-0 on the West gridiron. With only one conference loss to mar their record, the West team made a valiant fight to put themselves back into the district running and succeeded in doing so.

West chalked up twelve first downs to 3 for the locals, two of the latter being made on penalties.

The McLennan county team scored two touchdowns in the first quarter and converted the point on the first, the second falling short. In the second period the Trojans made two more markers, converting the extra point on the second touchdown. A safety came in the third quarter after West had punted to the Gatesville safety man, who received the ball on his own five yard line. On the next play Chamlee, attempting to run the ball out of danger was tackled behind his own goal.

The final touchdown came in the fourth quarter. The extra point was bad.

Hair and Dickie were the only backs to receive recognition for their performance. Bauman and Ward stood out at times in the Gatesville line.

## AMENDMENTS APPEAR IN TODAY'S EDITION

A copy of the eight proposed amendments to be voted on in the general election on November 6, appears on another page of this issue of the News. The amendments are copied in the same language and in the same order that they will appear on the ballot.

Voters are urged to familiarize themselves with these proposed changes to the state constitution in order that they might realize the importance and value of each.

## Where Comes The Bride?

A mysterious atmosphere has developed all facts concerning one of the strangest wedding ceremonies ever to be held in this city and which will take place at the Methodist Church at 7:00 o'clock Wednesday evening.

Who is the groom? Who is the bride? Nobody knows, yet everybody seems to care.

Two popular and well known characters will be united in wedlock. The ceremony is ready. The wedding feast has been arranged. Flower girls and the ring bearer await the opportunity to perform their solemn tasks.

The only clue is that Wednesday is Church Night at the Methodist Church.

## Rose Queen

Here is Miss Louise Boren, Queen of the East Texas Rose Festival held at Tyler. Queen Louise rode on a silver throne in a parade which rivaled major flower festivals of America, according to distinguished florists who attended the celebration. The rose industry is gaining much headway in East Texas, where soil and climate are especially suited to rose culture. (Texas News Photos.)

According to an old, old legend, the Chinese first learned to make paper by watching the wasp build her nest.

## STATE TEAM TO MEET CRANFILLS GAP FRI.

The State Training School will engage Cranfills Gap in a return engagement football game Friday afternoon on the Training School field, according to W. T. Hix, local coach.

The State previously won from Cranfills Gap, 13-6.

No admission will be charged for the game, which starts at 3:30 p. m.

## MOUNTAIN REVIVAL OPENED SERVICES LAST NIGHT

The Church of Christ Revival at Mountain, which is being conducted by Bro. Chas. Watkins, of Petersburg, Texas, opened there last night.

The meeting will continue through the fourth Sunday and probably longer.

Bro. Watkins came to this county highly recommended as a preacher of the Gospel and the public is invited to hear his messages. Mountain is five miles east of Gatesville.

## PIE SUPPER AND PROGRAM AT OAKTON SCHOOL

There will be a pie supper and free program next Friday night, October 26, at the Oakton School.

All women of the community are urged to bring pies. Funds derived will be used for playground equipment.

The public is cordially invited to attend.

## Ducks Seek Water As Hunters Seek Fouls; Season Opens Friday

FEDERAL STAMPS REQUIRED

It remains for hunters to find out whether or not ducks will make this section one of their stop-overs this season. At least the shortage of water holes will be little inducement for the "flyers".

Never-the-less, duck hunters will have certain game laws to observe whether they kill any of the fouls or not.

The season, which opens Friday, will include thirty full days but will be extended over a period of ten weeks, October 26 through December 30.

Of common varieties, the hunters may kill 12 in one day, but must have no more than 24 in possession at one time. Limits of five a day are placed on the less common varieties.

## Federal Stamps

According to postmaster W. C. Ford, the local postmaster now has on hand federal hunting license stamps, required of every hunter who kills ducks or other waterfowl this season. The stamp sells for \$1 and must be affixed to the license, where licenses are required.

## CORYELL GIRL NAMED STEPHENVILLE BEAUTY

Miss Irma Doyle, graduate of Gatesville High School in 1934, was elected one of the three Stephenville's prettiest girls in a contest sponsored by the Retail Merchants Association of that city. Miss Doyle was accorded second place.

The popular daughter of B. P. Doyle, of Pearl, was a senior declaimer in the Gatesville school last year. She is attending John Tarleton College this year, where she is prominent in social and scholastic circles.

Miss Doyle is the niece of Mr. and Mrs. Ivy Edmondson and Mr. and Mrs. John Coskey, of this city.

## ARNETT COMMUNITY WILL HOLD BOX SUPPER

Residents of Arnett will conduct a box supper Saturday night, October 27. The public in general is invited to attend this community sponsored affair.

## THREE INJURED WHEN TRUCK TURNS TURTLE

John Woodward, Thurman Estes and J. D. Johnson, sustained injuries Tuesday afternoon when a truck in which the three were occupants overturned about two miles north of Marlin.

The three had driven to Marlin to get a truckload of cottonseed cake and were enroute home when the vehicle got out of control, went into a ditch and overturned.

All three of the victims were taken back to Marlin for treatment.

Woodward had lacerations about the head and forearm, while Estes had a chest and shoulder injury. John Woodward had lacerations of the head and shoulder.

## NOTICE TO SCHOOLS

The management of the News is at all times glad of the opportunity to publish school news from the various schools over the county, and does not intend to make a distinction between the privileges of any schools to use the columns of this newspaper for their publicity.

Due to the number of schools in the county it would be impossible for this newspaper to give a great deal of space to each and for that reason it is requested that reporters limit their news to something like 300 words. This will greatly benefit each one and will not cause the newspaper staff the embarrassment of reducing the correspondence when it is sent in.

The school news should be edited by a member of the faculty before being submitted.

Grasshoppers do not chirp when it is colder than 62 degrees Fahrenheit.

## TWO LARGE SNAKES KILLED WITH 1 SHOT

Two large rattlers, one weighing 15 pounds and having 18 rattles, and the other weighing 12 pounds and having 13 rattles, were killed with one shot from a .22 calibre rifle near here last week. Henry C. Nahrang was the one who shot them on the C. E. Williams farm near Cedar Hill.

Nahrang states that Mrs. Williams came running across the field to his neighboring farm at 7 a. m. last Tuesday morning, calling for him to get his gun. Arriving, armed, at the Williams home, he found the two snakes and killed both with the same bullet, he reports.

## WORK CENTER PROPOSED FOR MCGREGOR

A community Work Center in McGregor will be the subject for discussion at a mass meeting held at 7:30 p. m. Tuesday, October 23, at the city hall. Mr. Walker of the McLennan County rehabilitation division will be chief speaker.

Under the proposed plan the federal government will finance 50 per cent of the costs of building and equipment and furnish all the labor required to erect such a work center. This building can be used to house not only the work of the rehabilitation client but, also, can be used for trades days, fairs, farmer's marketing place, community hall, etc. McGregor needs such a building. Every civic and public minded citizen of McGregor should attend this meeting. You will be given an opportunity to ask questions concerning this work.—McGregor Mirror.

The number 100 is always reserved for the President's car.

The Market Report, a regular semi-weekly feature of this newspaper, apparently is of more general interest than any other one item published in the News. We hear on every hand in various sections of the county of the relative importance which this feature holds for the farmers of the county. If it were not for the cooperation of the local produce buyers of Gatesville we could not make the Market Report possible and for that reason we wish to let our readers know the important part they play in this department of our paper. There may be times when producers seek the prices quoted by this paper from certain buyers but find that they are not paying the same prices. This may be explained by the fact that the News, in most cases, fines the maximum quotations, which it is felt naturally would be to the advantage of the farmers. Also, the prices quoted often times change the day after the paper is published.

+ + + +

Our attention was recently called to the fact that in a certain foreign country, instances where debtors fail to repay their creditors promptly, the two are subjected to punishment. The method is very simple. Both the borrower and lender are chained together until a reconciliation is made and the debt paid. Such a practice, if it were not too barbaric, in this country might prove beneficial, yet on the other hand it might be hard to borrow the price of a cup of coffee from one's best friend with such humiliation being a likely consequence.

+ + + +

The old saying was, "Don't believe half you hear." And nowadays with more doubting Thomases among the general populace of the country the saying would be "Don't believe anything you head and only half of what you see." At least that is the safest way to look at a thing anyway.

+ + + +

A resident of Holdenville, Oklahoma, says he expects war next year. He bases his theory on the fact that two years ago one of his hens laid an egg with the inscription on the shell, "War in 1935." He did say however, that someone dropped the egg and broke the prophesy to bits. We hope then that in case a war seems evident that its likelihood can be banished as easy as that.

+ + + +

In Coleman county the Commissioners Court has agreed to underwrite 25 per cent of the cost of drilling water wells in communities making applications and the State Relief Commission has agreed to furnish the remainder of the money needed, so a state newspaper reports. Coleman is in the thick of drought stricken territory and despite this fact, "where there is a will there is a way" so it seems.

+ + + +

Some folks say there isn't any sense to saving up for a rainy day, for after all, who wants to go anywhere cases, fines the maximum quotations, which it is felt naturally on a rainy day?

## Japan and Our Cotton Exports

According to the Dallas News our Foreign exports of Cotton are as follows:

From August 1, 1933 to October 15, 1933 . . . . . 1,786,000 Bales  
From August 1, 1934 to October 15, 1934 . . . . . 972,031 Bales

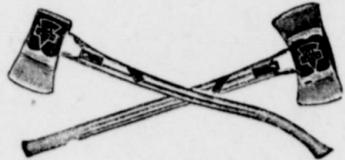

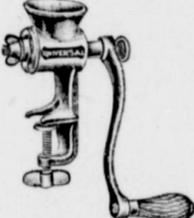

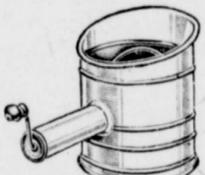

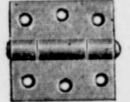

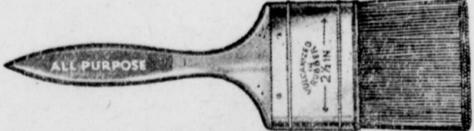

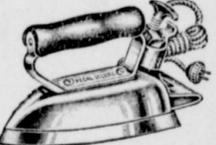

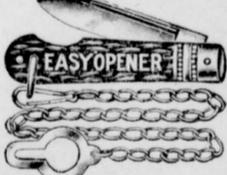

This shows loss of 813,969 Bales

To this loss Japan contributed by buying 125,000 bales less than she did in the same period last year. She evidently could have used the cotton and more because her exports to date this season to the countries South of us have increased tremendously. Below are her exports to South American Countries:

1932 Textiles exported amounted to 3,254,000 Yen, about . . . . . \$813,000  
1933 Textiles exported amounted to 10,960,000 Yen, about . . . . . \$2,744,000  
1934 (First 5 months) amounted to 16,385,000 Yen, about . . . . . \$4,895,000

If something is not done to counteract her inroads on our Textile markets to the south of us and cotton markets in her own as well as European countries it will be only a matter of time, and a short time at that, until nine and half million crop under the Bankhead bill this year will glut our home market and reduce the price of the Staple to 5c or 6c.

### Response to Editorial

With reference to an editorial concerning the strained relation existing between Copperas Cove and Gatesville, which appeared in a recent issue of this paper the writer wished to correct the inference made that the AAA forces shared in continuing the unfortunate attitude of the neighboring community toward Gatesville. The writer and everyone else knows that such a relation existed prior to AAA and that this former benefiting organization should not have the blame pushed off on it unjustly. Persons writing such articles as appeared in a late issue of this paper should secure the facts of the case before they pass judgement. The truth is, concerning copying after Bell and McLennan counties in delivery of checks, that this is impractical in Coryell county. Copperas Cove has no bank as in most of the communities of Coryell. If delivered in one community checks should be delivered over the entire county, which policy has not proved successful in other counties. While delivering checks in one territory farmers go to the county office for checks, the records are in county office and most farmers desire information from the county files. The present method is more efficient and checks are received quicker. Farmers are very few who grumble about coming for their checks since the benefit payments are helping the farmers more than many realize. Cards go to farmers the same day as checks arrive and most checks are delivered within two or three days. The facts of the case are that Copperas Cove merchants sent a committee to secure the above mentioned plan and after discussion with officials agreed to the suggestion, approved, of the community farmers sending receipts for checks by one person to Gatesville and the respective checks could be taken to Copperas Cove for distribution. If the Community spirit of Copperas Cove will permit this and if some public spirited citizen will do this all will be satisfactory. It seems to the writer that instead of the AAA "adding oil to the nasty fire" that the editorial of last issue is not only adding oil but also dry timbers when the fire had already been put out to some extent even by the AAA program which has certainly caused the whole county of Coryell to act as one complete unit. Benefits in store for those who cooperate in the Agricultural Adjustment Program certainly far outweigh any supposed inconveniences. The blame for any unfriendly relations should not be laid on the AAA Administration.

(Signed) D. W. Sherrill.

### LEVITA RESIDENT ENROLLS AT ABILENE COLLEGE

With several students still expected to register for part time work, Abilene Christian College has begun its twenty-ninth annual session with the largest enrollment in the history of the school, it has been announced from the office of Jas. F. Cox, president. The enrollment is an increase of fifteen per cent over this time last year, with an increase of sixty-nine per cent

### FOOTBALL CHATTER

By TEDDY

The local Hornets fell before the mighty Trojans of West last Friday afternoon at West. The locals never threatened the Trojan goal line, and were outplayed in every department of the game. Dickie and Hair, the two smallest men on the Hornet squad, showed improvement over other games of this year.

This writer had the pleasure of witnessing the game between Hillsboro and Waco last Friday night. Hillsboro out-played Waco three quarters which makes this writer think that the best team of the night did not win. It wasn't the first time Paul Tyson's boys had been out-played and then come through with the large end of the score.

The State Training School football squad will take on the Cranfills Gap boys here Friday afternoon at 3:30 at the State Training School park. Coach W. T. Hix recently carried his squad to Cranfills Gap where they defeated them 13-6.

Coaches Ewing and Baldrige will accompany their squad to Mart Friday afternoon where they will meet the Mart Panthers. Mart is favored to win this class B district, and is doped to defeat the locals by a lop-sided score.

from that of three years ago.

A check of registration figures shows that on October 10 there were registered in the regular college department 587 resident students; in the elementary and high school divisions there were 128 students; while 289 were registered in the extension department. Two students, not registered for other work, are taking fine arts courses—making a total of 1006 students enrolled in all departments of the college.

Among those students enrolled are: T. H. Adams, of Levita, Texas, who was graduated from the Gatesville High School with the class of 1929. Mr. Adams is an active member of the Freshman football team.

Mrs. John Berry, Mrs. Kemp Ruby Berry and Comellia Jackson visited Mrs. Lizzie Williams Friday evening.

## RUBBER POSSIBILITIES FROM TEXAS GUAYULE

When and if the United States has to supply its own rubber or when and if crude rubber prices ever reach the level they held during the Stevenson plan's effectiveness, Texas will be able to furnish a considerable supply from its guayule and the rest of the States the remainder needed from goldenrod, common flower that grows in every part of the country.

That, at least, is the prediction of USDA experts who have been experimenting in the production of latex from those sources. In addition, the Federal Government has 30,000 rubber trees growing in Florida. Commercial rubber can now be produced from both guayule and goldenrod, but the cost of production is too great at present prices for the tree-produced article. Experimentation is being continued in the effort to reduce costs with fair prospects of success.

## THIS CANDIDATE HAD A HARD TIME

When a candidate for sheriff in an Arkansas county complied with a law to report expenditures in his campaign, he did not stop at the money spent, but listed his time lost, his effort and energies wasted as revealed in the following report:

Lost four months and 20 days canvassing. Lost 1,360 hours of sleep thinking about the election. Lost 40 acres of corn and a crop of sweet potatoes. Lost two front teeth and a lot of hair in a personal combat with an opponent. Donated one beef, four shoats and five sheep to barbecues. Gave away 2 pairs of suspenders, 5 calico dresses, 5 dolls and 13 baby

rattles. Kissed 126 babies. Kindled 14 kitchen fires. Put up eight stoves. Cut 14 cords of wood. Carried 24 buckets of water. Gathered 7 loads of corn. Pulled 475 bundles of fodder. Walked 4,000 miles. Shook hands 9,080 times. Told 10,001 lies and talked enough to make 1000 volumes. Attended 25 revival meetings. Was baptized four times by immersion and twice by sprinkling. Contributed \$550 to foreign missions. Made love to nine grass widows. Got dog bit 19 times—and then got defeated.—Exchange.

## World Comment

By  
JOE  
BURNS

THE LITERARY DIGEST has made a great contribution to the Republican campaign. A nation-wide test poll of political sentiment, reported in last week's issue, indicated that the New Deal is waning and that seventeen states are definitely hostile to the Roosevelt administration.

The figures also indicate that President Roosevelt's policies obtain only a fractional majority of nation-wide support. A recheck of the poll taken last spring, in which Delaware was the only state to report an anti-New Deal majority, shows 50.7 per cent for the New Deal and 49.03 per cent against.

Although The Digest has been accused of favoring Roosevelt, it must be remembered that its editor is the former editor of a Republican newspaper.

When most children are thinking of marbles, toy autos,

and dolls, Peter II of Yugoslavia will have to be learning how to govern a nation of 15,000,000 people. His people have accepted his rule stoically, a regency has been appointed to rule for him during his boyhood, and the three Regents themselves, the Government, Army, Navy, and the Bishops of the Orthodox Church have taken the oath of allegiance to him.

But the troubles of this eleven-year old boy are just beginning. His kingdom is torn with the dissensions of varying races, each jealous and hating the other. And only three of eight Serbian kings have died natural deaths, so this boy must be guarded as closely as was his father.

The Democrats are primed to the gun-whales for the November 6 election. Our own junior senate has been brought to the firing line with a prediction that "reviving business will make unnecessary imposition of additional taxes at the next session of Congress," and other optimistic reports which are intended to better the prospects of Democratic congressional candidates who want to keep the New Deal in power.

Meanwhile, George Durno, National Whirligig editor, re-

ports that election sharps now figure that the G. O. P. will not gain over twenty seats in the House and will lose five in the Senate. If true, this will be indeed good news for the Democrats. Even optimistic Mr. Farley predicted that the Republicans would regain forty seats while Republican stalwarts have maintained that they would capture seventy seats. But, Republicans and Democrats seem to be agreed that the next Senate will have more Democratic faces than the last.

### IRELAND OIL WELL TO START UP AGAIN

IRELAND, Oct. 18, (Spl.)—The Pugh-Pace Doyle No. 1 is about ready to start drilling again, after overcoming its difficulties. Their trouble started with a cave-in when they were drilling with 900 feet to open-hole. This caused the tools to become stuck. They set 1600 feet of 8-inch pipe, but failed to get the bailer beyond 700 feet. The casing was pulled and water trouble developed.

Now they have set 1600 feet of casing, the water is shut off and the hole has been cleaned and work of drilling will proceed in the next day or so.—Hamilton Co. News.

### Figures Reveal Facts of Interest in Southwestern University's Big Family

Georgetown, Tex., Oct. 18.—Much has been said and many lines have been written about the "Southwestern University Family." Last year 47 per cent of the students registered came to the institution imbued with Southwestern spirit, being relatives of former students. The fact that 50.637 per cent of the students enrolled this session are related to former students of the institutions indicated that the "Family" is growing in numbers.

One freshman, Thomas Baldwin, grandson of the late Robert A. John and Mrs. John, of Houston, both of whom are graduates of the institution, is the great-great-grandson of the first president elected by the people to serve the Republic of Texas, the late General Sam Houston. Thomas is the son of Mr. and Mrs. F. T. Baldwin of Houston. He is a pre-law student.

One other student is the granddaughter of a former student. Three others point with pride to the fact that their grandfather and mother are graduates of historic Southwestern. Ten other students

are children of former students whose romance began on the campus. Thirty-one students indicated that their fathers graduated at Southwestern; thirteen others indicated that their mothers received their college training here. Eleven students had both brothers and sisters among former students. Eighteen had brothers here, while thirty-five had sisters registered in other days. Four students had an uncle and aunt registered. Three had an aunt. Ten had an uncle. Twenty-two students had cousins galore. Only one hundred-fifty-two students enrolled this fall can not claim relationship to some former student of the ninety-four year old institution.

Delta county has gone in for onions. L. E. Foster made a net profit of \$40.50 on one-third acre. Five carloads from Cooper this year and the market for onion plants and seed is brisk.

P. T. Calhoun of Charco community in Goliad county says it does his heart good to watch his terraces work during "gully washer" rain. He has some around 3,000 feet long and worried at first about their holding. But they have never even been in danger of breaking.

Wool sacks solved the drapery problems of Mrs. Julius Sadowsky for her small son's room. Mrs. Sadowsky who is a Van Horn home demonstration club woman used the sacks in their natural color with a design in shades of blue and orange worked in wool.

Elizabeth Carter, 12, food preservation demonstrator for the Blackwell 4-H club in Holan county, has canned 343 containers of fruits, meats, pickles, relishes, preserves, jellies, fruit juices, and vegetables for use on the family table this year.

Out of the 19 4-H club boys feeding baby beef calves under the supervision of farm demon-

stration agent Jake Tarter in Wheeler county 12 have reported gains of weight on their calves which average 2.1 pounds per day over a period of 71 days.

San Angelo—A mattress pad of flour sacks and home grown cotton has been made by Mrs. C. D. Hannum of Tom Green county without any expenditure except for a spool of thread, according to Miss Nette Shultz, home demonstration agent. The two covers of the pad were made with flour sacks sewed together and filled with one and one-half pounds of cotton, quilted diagonally and hemmed around the edges. The pad is 75 inches long and 56 inches wide.

Anson—Mrs. Walter Kelso of the Stith Home Demonstration Club in Jones county is moving, but she is taking her subirrigation tile with her because she attributes the supply of tomatoes in her garden this year to subirrigation, according to Miss Sue Benner, home demonstration agent. The tile was laid in 1933 and proved its value then, but since the drought Mrs. Kelso says that it has doubled its worth. "I have had sufficient tomatoes for my family of five since July 6 and have approximately 1 1/2 gallons daily since August 10," she added.

Cameron—"I have more than 400 cans and jars of food products on my pantry shelf for the winter—the most I have ever had in my life," Mrs. Tom Turner, pantry demonstrator for the Curry Home Demonstration Club in Milam county told Miss Bertha Fae Strange, home demonstration agent. As a part of her first year as a home demonstration club member, Mrs. Turner has added 24 feet of pantry shelving, with the 400 containers of food properly arranged on the painted pantry shelves, a pressure cooker, and a bulletin and recipe file.

From the fall garden which she has planted, Mrs. Turner hopes to raise enough to complete her family budget.

San Saba—R. G. Murray from the Liveoak community in San Saba county will make two or two and one-half bales of cotton on six acres this year as a result of terraces constructed last year to prevent water logging, according to N. E. Scudder, farm demonstration agent.

The field belonging to Mr. Murray is low, flat and sandy and catches all the hillside water. In the past it has always been so wet and boggy in the spring that early planting and cultivation was impossible. The terraces on the hillside withheld the water this year, however, and left his flat field just moist enough for ideal planting and cultivation. When the dry weather set in there was sufficient moisture to make a good yield.

Gilmer—"I am making more money from this one acre of truck than from from any 15 acres of my field crops," S. R. Senn of Upshur county told W. M. Burkes, farm demonstration agent. Mr. Senn has dammed a spring branch so that he can deliver water to about two and one-half acres of bottom land. He killed out Bermuda sod in early July and then fertilized

his seed bed and planted turnips, radishes, squash, beans, beets, cucumbers, mustard, peas, and okra. He sells his truck to people in the nearby oilfields.

Hebbronville — "Extension methods enabled me to succeed at raising baby chicks," Tommy Williams of Jim Hogg county told G. W. Brown, farm demonstration agent. "I bought 1000 baby chicks this spring and just forgot what I knew about them and decided to follow methods

recommended by the farm demonstration agent and the Extension bulletins," he added. Mr. Williams raised 950 of the 1000 chicks to frying size and sold more than enough to pay all costs. He had more than 400 pullets left.
