We understand that the hunting trio of Gene Alvis, Jack Wollard and Henry Yonogue shot the "Worlds Championship" off Thursday morning. Alvis was high with seven squirrels; Yonogue got four and Wollard trailed with three. Unofficial reports are that the last mentioned used a shotgun, which he shined all the way to the hunting ground, while the others used .22 rifles. When you find a combination like Frances McCoy and Nell Goodall it is hard to beat; if you don't believe it try talking about one in the presence of the other. A younger pair with the same mutual affection is Helon Post Chamlee and Nettie Jane Thomson. Anyone who knows him wouldn't mistake that walk of Coach Ewing. Charley Lane tried to catch me on a mathematical problem but being naturally dumb I didn't answer Yea or Nea. Jim Hix and Chuck Dansby must be early risers; they were in town yesterday morning before the streets were rolled out.

Massachusetts was the first state to undertake to limit the hours of labor, passing a law in 1842 that made ten hours a working day in factories for children under 12 years of age. In 1847 the law was extended to women.

Detective Fans Slumber While Parole Jumper Parades Streets

"The villiage buzzed with excitement"—an expression common to those stories often found in a ten-cent novel, a detective story magazine perhaps, is highly appropriate for a recent local incident.

"Modern Detective" magazine—a current issue, had been on the news-stands around town for several days, a week perhaps. There is no telling how many sleuth fans had peered its pages. Among the "Wanted" criminals whose pictures and descriptions graced the pages of the magazine was one William Kessler, 32. A hundred dollar reward was offered for his apprehension. The amazing part of this story is the fact that Kessler was in Gatesville all last week, publicity agent for a tent-show which came to this city last Monday. And the still more amazing thing is that the young

Rep. Huddleston For Centennial Without Additional Taxation

OPPOSES ADDED TAXES

Concerning the activities of the present session of the Legislature, this newspaper is in receipt of the following letter from Rep. Earl Huddleston on bills now pending before that body, dated October 20.

"As to the question of the Centennial, several bills have been introduced, the purpose of which is to finance the Centennial. Some of these bills would levy additional taxes on various items, classed as luxury and necessities. One bill has been introduced which would impose a luxury tax on certain commodities.

"There have been bills introduced relative to financing the Centennial which would levy no additional tax. One of these, by Mr. Savage, was to levy three-fourths per cent of one cent excess gas tax. This bill would provide that the other one-fourth go to the school. Another bill, by Mr. Glass, provides that advertising for the Texas Centennial be done by the State Highway Department, with funds of the same going into the Centennial fund.

"I do not believe that any additional tax should be voted on the people for the Texas Centennial, and I shall oppose the same.

I am studying these propositions and trying to do what I think is best for our State and people, and should appreciate a suggestion from any citizen at any time on these questions."

Sincerely,
(Signed) Earl Huddleston.

TRAFFIC LINES DRESSED WITH COAT OF PAINT

The traffic lines around the square and through the business sections of Main and Leon Streets were gone over with red paint Tuesday evening and Wednesday morning. Prohibitive parking signs around fire plugs up-town were also repainted as a warning to drivers seeking parking space.

The traffic lines were first adopted some few years ago as a means of helping motorists to park at the proper angle thus avoiding traffic irregularities.

HON. O. H. CROSS VISITS GATESVILLE FRIENDS

Meeting of Basketball Fans Considers Plans For Sponsoring League

MUCH INTEREST IS SHOWN

A group of some twenty basketball enthusiasts attended the mass meeting in the district courtroom last Monday afternoon, where plans were discussed relative to the proposed local commercial league.

Two representatives from Coryell County towns other than Gatesville were present to indicate their interest in joining the basketball league.

Dr. Otis Ray, of Gatesville, acting in the capacity of chairman of the meeting appointed Eugene Alvis and Pat Olsen as committeemen to meet with the chairman in determining the number of rural teams which will be included in the local league and who these other teams shall be.

Sup't Frank L. Williams informed the assembly that two nights each week will be set aside for the games, provided plans can be worked out.

A second meeting has been called for next Monday afternoon.

Hornets Chances For Victory Are Void In Game With Mart Today

ONE-SIDED SCORE IS DOPED

Coach Maurice Ewing will carry his grid squad to Mart today for the third district game, and one which the dope indicates will be just another game for the Hornets.

The strong Mart team, serious contenders for the district championship, and tooted to be the best team in the running will attempt to annex another conference victory to their list.

Word from the Mart camp indicates that the McLennan county team is taking the game with Gatesville lightly, due to the Hornets' record thus far and the fact that Mart has one of its best teams in years. Mart won handily from Marlin last Friday, 31-0, while Gatesville was losing to West by a similar score.

The Hornets have shown more spirit and fight in their practice this week than during any previous week and if the morale continues they may give Mart a better game than is expected by dopsters. If the locals play the type of game of which they are capable certain local merchants have promised that they will see the Waco-Corsicana game tonight.

Miss Pauline Haney is spending the week end with her sister, Mrs. W. J. Alhfinger, at Dallas. Mrs. Alhfinger will be remembered as Miss Opal Haney.

The City Council of Gatesville, at a meeting of that body last Tuesday evening voted to rescind the Election Order on the proposed municipally owned power and water plant indefinitely.

The following signed statement was given out by M. W. Lowrey, Gatesville Mayor:

"The City Council met last evening and on account of the misunderstanding and the propoganda for misunderstanding and confusing the public mind on the proposition for "owning our own plant," for light and power and the brevity of time, decided to rescind the order of election and postpone it to a later date, so that the electorate may know definitely what they want. The Council has studied the proposition and are convinced it's the thing to do, but the uninformed public are shifted about by uncertainty caused by sinister interests.

Pledge

I will think—talk—write . . . Texas Centennial in 1936! This is to be my celebration. In its achievement I may give free play to my patriotic love for Texas' heroic past; my confidence in its glories that are to be.

It was Hon. James Stephen Hogg who once said, "Yes, we desire harmony, but, by gatlins, we do not want to sacrifice our principles and just suffocate with harmony." The late Governor's philosophy can justly be applied to the Tax-Shifting Amendment which will confront the voters of Texas on November 6, at the general election. Patrons of the wonderful school system of Texas and conscientious citizens of this state should by all means vote "AGAINST the Amendment of Section 3 of Article 8 of the State Constitution providing for the levying and collection of taxes and fixing the maximum amount thereof which can be collected and expended each biennium." In substance the proposed amendment, if passed, would deal a mighty blow to the public schools of Texas and the highways of this great state. These two important elements would suffer untold consequences beyond any doubt, besides shifting the tax burden from the State to local communities, and from large to small taxpayers. When the Democratic Convention met in Galveston recently that body discovered unforeseen developments which caused the Convention go on record as recommending the defeat of the Tax-Shifting Amendment. As pointed out by an editorial in the Houston Chronicle, "the eventual result of such an amendment would doubtless mean the increase of all local tax burdens, and of federal activities within the state.

Modesty on the part of college youth often times prevents the "folks at home" from learning of the achievements of their young friends on the various university and college campuses over the country. Letters to their families are not enough to spread the good news to the many friends and acquaintances of some of these youngsters. When the collegians failed to write the home town newspaper something of their doings, the newspapers heretofore have heard little about them. A large number of higher educational institutions take it upon themselves nowadays to send the local newspapers news pertaining to students from each particular town. Departments of publicity have been organized, at little expense to the college but a great help to the home town paper. It is from this source that so many small newspapers are now able to impart the news to local friends of what "our boys and girls" are doing at college.

We heard a great deal about "tree sitters" a few years ago. It became quite a fad on the part of many grown-ups as well as youngsters—just who could endure life in a tall oak the longest. The nearest thing we have heard to "tree sitters" recently is news of the Piccards' stratosphere flight and the landing of their balloon in a tall elm. The Piccards, however, evaded the tree by landing their gondola in a field nearby, while their balloon took to the sturdy elm.

Japan and Our Cotton Exports

According to the Dallas News our Foreign exports of Cotton are as follows:

From August 1, 1933 to October 15, 1933	1,786,000 Bales
From August 1, 1934 to October 15, 1934	972,031 Bales

This shows loss of 813,969 Bales

To this loss Japan contributed by buying 125,000 bales less than she did in the same period last year. She evidently could have used the cotton and more because her exports to date this season to the countries South of us have increased tremendously. Below are her exports to South American Countries:

1932 Textiles exported amounted to 3,254,000 Yen, about	\$813,000
1933 Textiles exported amounted to 10,960,000 Yen, about	\$2,744,000
1934 (First 5 months) amounted to 16,385,000 Yen, about	\$4,895,000

If something is not done to counteract her inroads on our Textile markets to the south of us and cotton markets in her own as well as European countries it will be only a matter of time, and a short time at that, until nine and half million crop under the Bankhead bill this year will glut our home market and reduce the price of the Staple to 5c or 6c.

The Hallow'een motif was attractively carried out in decorations, refreshments and other colorful arrangements. Pumpkin pie and coffee were served to thirty-five ladies.

Mesdames C. E. Stockburger, Charlie Powell, A. A. Harper and Homer Wilson were hostesses to the unusual affair.

Surprise Party for Gene Hodges.

Gene Hodges was the recipient of a surprise birthday supper party at his home near Carden last Monday evening. It was Mr. Hodges 65th birthday anniversary and the affair was symbolized by a huge cake bearing sixty-five candles.

State Fair Awards Won By Coryell Poultrymen

Two local residents whose hobby is in raising chickens were rewarded for their efforts when each had birds to win places in the State Fair at Dallas.

Roy Chamlee, who sent twelve specimens to be entered in the chicken competition, was very much surprised to receive word that his cock bird was awarded fifth place in a contest in which something like 31 birds were entered. The surprising thing to Mr. Chamlee was the fact that the winner was what he termed the "poorest" one of his flock. He sent besides the winning bird, two hens, two cockrels, four pullets and one young pen of three birds.

Cohen Richardson, the other chicken fan, sent three bantoms to Dallas and in another contest, in which the competition was not so keen, and all three placed. Mr. Richardson was also surprised with his awards.

There were 3,000 entered in the big chicken class and 1,000 in the bantam class.

Benefitted

To Whom This May Concern: This is to certify that Dr. S. S. Wolfe has treated me for Neuritis and Anemia of the blood also a severe nervous breakdown and I received great benefit. I take great pleasure in commending him to the general public as a sincere, honest gentleman of the highest and noblest character and any treatment you might receive from him will be worthy of your consideration.—Respectfully, Cephas Thompson, Carlton, Texas.

WARNER' MAMMOTH NEW MUSICAL SAID TO BE BEST

"Dames," Warner Bros.' latest mammoth musical comedy romance with spectacular ensembles by Busby Berkeley and an all star cast headed by Joan Blondell, Dick Powell and Ruby Keeler, is scheduled as the feature attraction at the Regal Theatre beginning Saturday night at 10:30.

The story, by the well known playwrights, Robert Lord and Delmer Daves, is said to be hilarious comedy tingled with a glamorous romance. It treats of a somewhat hypocritical and highly eccentric multimillionaire whose chief concern in life is other people's morals, but who eventually gets drunk on cough medicine and is taken for a sleigh ride by a gold digging chorus girl.

In addition to the all star cast there are 300 of Hollywood's most beautiful chorus girls who dance in the Busby Berkeley numbers.

Berkeley, who created and staged the ensembles for "42nd Street," "Gold Digger of 1933," "Footlight Parade," "Wonder Bar" and many other musicals, has gone himself one better in each new production, and in "Dames" his creations are said to be so spectacular as to dwarf anything he has done before. Two especially beautiful, as well as novel and fantastic—the Ruby Keeler "Mirage" number, in which the catchy song, "Eyes for You" is sung, and the "Kaleidoscope" number, which carries the theme song, "Dames."

Many catchy airs are sung, the music and lyrics for which were written by three teams of the best known song writers in the country, Warren and Dubin, Fain and Kahal and Dixon and Wrubel.

Joan Blondell heads the all star cast in the role of a chorus girl who eventually weds the millionaire morality censor, after compromising his fat cousin who is in deathly fear he will be found out and cut off of the will. Hugh Herbert, the screen's drollest comedian, has the role of the millionaire and Guy Kibbee is the cousin, with ZaSu Pitts playing the part of his straight laced wife.

The romantic interest is furnished by Dick Powell and Ruby Keeler, this popular pair of screen lovers again being paired.

Others in the cast include Arthur Vinton, Phil Regan, radio's singing cop, Sammy Fain, Arthur Aylesworth, Johnny Arthur, Leila Bennett and Berton Churchill. Ray Enright directed.

Junior Team Defeats Turnersville 12 to 6
Last Monday the Gatesville

Junior football team defeated the Turnersville team 12-6 at Turnersville. In the first quarter both teams scored but failed to make the extra point. In the second quarter the Gatesville team drove over another touchdown and that ended the scoring. Although Gatesville got down to the six-inch line, they lacked the punch to put it over. The Gatesville team had Turnersville back in their own territory almost all of the second half.

Sidney Gregory, Pat Hollingsworth, and Steve Lindley shared honors for being the outstanding players on the field for the Gatesville team. Pat Hobin was by far the best player on the field for Turnersville team.

Goodrich, of course, guarantees the new Safety Silvertown passenger car tire, with the Life-Saver Golden Ply, for a full 12 months (business use, 6 mos.) against accidental damage due to cuts, bruises, blow-outs, rim cuts, faulty brakes, wheels out of alignment, and ordinary wear and tear as specified in the written Certificate of Warranty given with the purchase of every Goodrich passenger car tire. STUDY LAMP
Belongs on
Every Study Table

Wherever books or papers are read there is a need for this New Study lamp—the first lamp specifically designed to help safeguard eyesight.

It should be in every child's bedroom and study; on every library table where folks read; in every dormitory, for it is designed to reduce eyestrain, lessen fatigue and decrease nervous muscular tension.

Its height—width of shade—and special diffuser have been worked out to conform to the principles of the New Science of Seeing.

It gives soft, glareless light over the entire top of study desk or table. It eliminates annoying contrasts.

The Sight Meter, an instrument for measuring light, reads 30 footcandles under an approved Study lamp.

APPROVED BY IMPORTANT ORGANIZATIONS
 SPECIFICATIONS BY: The Illuminating Engineering Society.
 CERTIFIED BY: The Electrical Testing Laboratories.
 ENDORSED BY: The Lighting Committee of the Edison Electric Institute, and the National Better Light-Better Sight Bureau.

How You May Know It. The genuine Study lamp bears the approval tag of the Illuminating Engineering Society and the Electrical Testing Laboratories. It can only be placed on a lamp that has met the specifications of these organizations.

When Will Cotton Checks Come?

THIS QUESTION is being asked by all who co-operated with the cotton acreage reduction program.

We are advised that because of an unavoidable delay in Washington that in all probability it will be December 1st to December 15th before these checks will be received.

Hundreds of families have delayed the purchase of their winter needs in Dry Goods awaiting these checks. The delay in many instances will be a slight dissappointment as winter is very close at hand.

Last year we extended to hundreds of families the co-operative courtesy of making their purchases in advance of their checks at the lowest cash price on a pledge of payment out of checks on receipt.

Again we are going to extend this courtesy to all who hold or have interest in contracts or checks with a pledge of payment out of same on receipt. This being permissible by Government Authorities and also being encouraged by them in order that conditions may be met with the least inconvenience.

Our stocks are in fine shape and our prices are very low considering the quality of merchandise being offered.

You will feel just as free trading on these pledges as though you had the actual cash, as they will be handled as cash items and not charge items.
