

County-Wide Basketball League Organized With Six Allstar Teams

The Commercial Basketball League which has been discussed freely for the past few weeks has been made into a permanent organization.

At a meeting held in the district courtroom last Monday afternoon, attended by basketball enthusiasts from various communities over Coryell county, C. E. Alvis, Jr., was elected chairman of the executive committee and League manager. Other members of the executive committee are Monroe Mayhew and Doyle Baldrige. Rev. J. W. McLean, was named arbitrator, whose job it will be to settle all controversies arising between players and clubs. Rev. McLean will pass judgment on all matters pertaining to rules of the game and regulations of the League.

Monday and Thursday nights have been set by local school authorities for games. Each of the six participating clubs will play on each of these nights,

Hornets to Be Hosts To Marlin Bulldogs In Grid Game Today

MARLIN TEAM IS FAVORED

Gatesville coaches tapered off yesterday with a light workout in preparation for the game with the Marlin Bulldogs on the home grid here today. The game will start at 3:30.

The Hornets were put through their paces the first of the week topped with a scrimmage Wednesday afternoon, in which coaches gave particular attention to offensive tactics.

The Gatesville club suffered a decisive loss when they lost to Mart last Friday. At the same time Marlin lost by a narrow margin to the Mexia team, 13-6. The week before Marlin lost to Mart, 31-0.

On paper the Marlin team is several touchdowns better than the Hornets, who have failed to show any improvement since their first loss of the season. According to those from here who saw the game in Mart the Hornets displayed more fight than at any previous time this year, despite their rounded defeat.

Predictions are that Coach Ewing will instruct his quarterbacks to employ a passing attack early in the game today.

ALL DAY SINGING

There will be an all day singing and dinner on the ground at Leon Junction next Sunday, November 4.

The song service will be directed by Mr. D. W. Diserens of Gatesville, and all singers are requested to bring song books.

making three games each night or six each week.

Leon Junction, Levita and Jonesboro will have key teams and these respective clubs will be composed of players from communities in the vicinity of each of these towns. Besides these, Gatesville will offer three teams, namely: Roundtable, Baptists and one other independent team yet unnamed.

Thursday night, November 8, has been set as the opening date of basketball competition. The opposing teams have not been announced to date but will probably appear in the next issue of this newspaper. At this same time a complete schedule for the entire season will also appear.

Interest in the forthcoming basketball season is growing at a rapid clip and it is evident that by the time the schedule gets underway, both the players and fans throughout the county will be eager to follow their favorite teams through the tournament.

CHAIR LEFT HIGH AND DRY

About the most noticeable thing we have seen as evidence of Hallowe'en is the cain bottom chair perched atop the city stand-pipe water tank.

Chances are that the populace will be more concerned about how it got up there than they will be about how it can be retrieved.

Imagine my luck; having just finished a cup of coffee about five minutes before hand and along comes John Reesing and offers to buy me another. And to make it worse, Ben West steps in a few minutes later and offers to "set 'em up." J. A. Seeing Dr. Ed Graves on one of his occasional visits to Gatesville reminds me of those terrible pink powders he used to give me for aches and pains. Bud Rivers reminds me that he and I haven't much longer to wear our summer suits and "it's the truth that hurts." Bud. There will be dinner served on the ground at noon. In the afternoon a song service will be rendered. Mr. Powell's two sons, Robert and Francis, and daughter, Miss Ruth Powell, all of whom are actively engaged in the firm have made the preparations for a mammoth celebration in the form of an open house.

Plans Completed for Rummage Sale to Be Put on by S. S. Class

SALE OPENS TODAY (FRIDAY)

The members of the Mary Martha Sunday School Class, group of Methodist women, will sponsor a Rummage Sale beginning this afternoon and lasting all day Saturday, November 2-3. The Sale will be located in the Norris Hammack Building next door to the Gatesville National Bank.

Mrs. Irvin McCreary, chairman of the committee on arrangements, together with her co-workers and other members of the class have been making preparations for the Rummage Sale and according to reports have collected some unusual bargains in the way of clothing and other useful necessities, besides many attractive novelties and other articles.

The affair will be similar to a previous Sale held by churchwomen a year or so ago which proved to be highly successful on the part of those in charge as well as patrons.

The proceeds will be devoted to the classroom and will be used to purchase furniture and other fixtures.

GOVERNMENT AGENT REPORTS ON COTTON

Census report shows that there were 12,709 bales of cotton ginned in Coryell county from the crop of 1934 prior to October 18, as compared with 22,333 bales ginned to October 18, 1933 crop of that year, declared W. R. Goodson, special agent.

During the fifty years of service to the public, Mr. Powell has remained active in his business, and holds that same prestige today.

Jonesboro and Pearl Boys and Girls Teams Will Test Gym Floor

RIVAL TEAMS WILL MEET

Four of the best basketball teams in Coryell county will be the first to test the maple floor of the new high school gymnasium when the boys and girls teams of Jonesboro meet two teams from Pearl here Saturday night. The first game will start at 8 o'clock.

The rivalry between the two outstanding boys teams has been very keen for the past several years. In 1933 Pearl won the county championship. Last year the same honor went to Jonesboro. Both schools have turned out first class teams during the past several years.

The two games are expected to draw a large crowd of spectators from each of the two communities besides many fans from other parts of the county. The games will be scouted by any number of Coryell county coaches who have ambitions of taking the championship laurels away from the best of the two contesting teams.

The Proposed Constitutional Amendments to Be Voted On November 6

By Rob't W. Brown, Co. Judge

There are eight proposed constitutional amendments to be voted on in the November General Election. Some should carry and some should be defeated. Some are of vital interest to the people of Coryell County and some have little if any effect on us.

The subject matter of the amendments in the order they will appear on the ballot is as follows:

1st Proposed Amendment

This amendment is to authorize the legislature to reclassify property for the purpose of taxation. The object of the amendment is to make notes, corporation stock and similar property bear their just share of taxes. Certainly it should pass from the standpoint of the Coryell County Citizens. Among

others reasons I would enumerate the following:

(1) You can not hide your farm from the Tax Collector, but the man who holds your note against your farm can and often does fail to render it for taxes.

(2) Coryell County farmers owe approximately three million dollars on their farms, and we have approximately one hundred thousand dollars in notes rendered for taxes.

(3) I have been informed from a reliable authority that a check of the records as Austin show seventy-two million dollars in corporation stock in one Texas city has been reported on franchise reports and that none of this seventy-two million dollars in stock appear on the Tax Rolls of that county. Numerous other reasons can

be given, but the above is sufficient to convince any one that such property as notes, stocks etc. should be registered for taxation. It this amendment carries it means that this class of property will be registered and small tax levied against it. Its passage is being urged by the Hon. James V. Allred, Democratic nominee for Governor and practically all of the leading school authorities in Texas.

2nd Proposed Amendment

This amendment authorizes the Legislature to change the form of County Government and is so general in its scope that its effect can not be determined.

3rd Proposed Amendment

This is the amendment seeking to limit the Taxes that can be levied by the State, and in

Pledge

I will think—talk—write . . . Texas Centennial in 1936! This is to be my celebration. In its achievement I may give free play to my patriotic love for Texas' heroic past; my confidence in its glories that are to be.

CENTENNIAL AND THE BUSINESS MAN

(Texas Press Centennial News)

Much has been said of the necessity for holding a giant Texas Centennial in 1936. This argument, in the main, has centered about the fact that Texas, with its romantic history, and its long line of achievement, should hold a great exposition setting forth the stirring events of the past for the inspiration of this and future generations.

That idea continues to be the central one in all Centennial plans. However the business man is entitled to know what, if any, material benefits may accrue to him as a result of the exposition. For after all is said and done the merchants, the manufacturers, the bankers and those engaged in the various ramifications of commerce must meet the bills, contribute mainly to the support of government and take the losses in the way of increased taxation when any occur.

One great central idea surrounds the deliberations of the finance committee of the Texas Centennial Commission. In the first place it might be said the membership of the Texas Centennial Commission is a roster of substantial Texas citizens, engaged in various lines of business and professional activities, some of the members being among the very large taxpayers of the State. The chairman of the finance committee is General John A. Hulen of Fort Worth. For more than thirty years General Hulen has been actively, and in an executive capacity, connected with business enterprises which are among the largest contributors to the maintenance of government in the way of taxes. General Hulen has been for all these years engaged in the railroad business.

Let it be borne in mind that the legislative plan for the exposition envisions one which will take the visitor to almost every section of the State while he is our guest. Regardless of the city in which the central exposition is held it will not be the only attraction. It is true that in it will be concentrated the great buildings in which will be housed those displays of the material, cultural, artistic, religious and educational wealth of the State. There also will be consolidated historical displays and there will be rendered great programs and pageants. In the central city will be staged an exposition of the first magnitude, far away and beyond the county fair or the State fair idea. It will be national and international in its extent, and it will attract visitors from every state in the Union and from abroad.

But the Centennial realizes that the Alamo, Goliad, San Jacinto, Nacogdoches, San Augustine and the scores of other historical shrines of Texas, cannot be moved from their native setting and shown in the central exposition city. Therefore the plan is laid for secondary expositions, at appropriate times and of the proper character, at the various places of interest.

It goes without saying that visitors in overwhelming number, will not be content with their visit to Texas until all these places are visited.

FOOTBALL CHATTER

By TEDDY

The Gatesville Hornets will meet the Marlin Bulldogs on the local gridiron this afternoon. Marlin is primed for this game, after losing two heartbreaking games, one to Mart and another to a strong Mexia team. The Bulldogs are out of the race for the district unless McGregor can defeat Mart. McGregor will have a harder time defeating the Panthers than any team in this district.

Local Basketball fans have almost completed arrangements for a City League. This league is different from the City Softball League in one respect, that is it could be called a County League as much as a City League. Although it is run by city officials, there are as many teams in it from over the county as there are teams from Gatesville.

November football is at its peak in the Southwestern Conference. Baylor will journey to Cow Town and will probably meet defeat at the hands of the T. C. U. Hornet Frogs. Arkansas will come to College Station where they meet the Aggies. The Porkers will probably defeat A. & M., but will find those Aggies fighting to the last shot. S. M. U. will invade Austin Saturday to take on the Longhorns. The Mustangs, although they lost their mascot, Peruna, who was killed by a hit-and-run driver will not make the trip, are doped to win over Texas. Rice will not play a conference game this week, but will have a breather against Texas A. & I.

Of the rivers which bound the United States the Rio Grande bounds it for the greatest number of miles.

At My Office Headache Treated Free

How many revolutions does the blood make in 24 hours? Over 100,000. Does it wear out? Yes. What becomes of the worn out or waste matter? The glands are used as strainers. How does the glands dispose of them? Through the skin and kidneys. If the skin and kidneys fail to filter what happens? The glands become clogged and fevered, causing pains, high and low blood pressure, rheumatism, in fact all pains are caused by poor circulation.

Give me a chance to assist nature in removing the cause. I will treat all headaches free.

Constitutional Amend.—

(Continued from page one)

my opinion is sponsored by the group of tax dogers who are afraid their notes, stocks etc. will have to be brought out and registered for the benefit of the tax collector. Of course it should be defeated. This amendment is being opposed by the Hon. James V. Allred and practically all of the leading school authorities of Texas.

4th Proposed Amendment

This amendment proposes to put County officials on a salary instead of a fee basis. It should pass for the benefit of the large counties, but for Coryell and other small counties it has no particular importance.

5th, 6th, and 7th Proposed Amendments

These amendments relate to changing the boundries of Counties and consolidating one County with another and extending the authority of Home Rule Cities, and in my opinion is a part of the program of the big cities to take over their counties and adjoining counties and extend their authority thru Home Rule Charters to the rural sections of Texas. I may be out of harmony with the trend of modern times, but I

have stood so long for local self government that I can not now give my consent to further centralize the authority of Government.

8th Proposed Amendment

This amendment is to authorize some West Texas Counties to tax University Land for School Purposes. It is import-

ant to these West Texas counties concerned, but is of no local importance to us.

I believe that the passage of the First Amendment and the defeat of the Third Amendment is of such importance to every tax payer and citizen, that no voter should fail to vote in the election on November 6th.

of

Courtesy Extended to Holders of Cotton Option and Rental Contracts

JUST AT A TIME When so many have been expecting their checks to arrive, something must happen in Washington to delay them.

JUST AT A TIME When the needs of the people are the greatest for winter wearables, this disappointment came.

We ANNOUNCED in last week's issue of this paper that in all probability it would be December 1st to December 15th before checks would arrive and proposed to extend the courtesy of making purchases on a very low cash basis immediately with a pledge against such option or rental checks in the amount of purchases.

Many have already taken advantage of this courtesy and have expressed themselves as being highly pleased with the privilege.

Government officials have given their encouragement to the plan as it will in many instances meet an immediate convenience.

Our stocks are complete in every department, making selections is really a pleasure when you have so much to select from, and too, it is dependable.

OLD DISTILLERY FLUME

UTICA, Mich.—An old distillery flume, which had been underground for approximately a century, was uncovered here recently by workmen working on the streets near the Utica flour mill. The flume was made of pine boards two inches thick and was still in fair condition, despite the fact it was placed underground about 100 years ago. At that time it was employed to carry water to the distillery.
