Lions' Banquet With Citizens of Pearl in New Visiting Program

Approximately 25 Lions were highly enthusiastic visitors with the citizens of the Pearl Community Wednesday night, when they held a banquet at Pearl High School building, arranged by the ladies of the Pleasure and Profit Club of that community.

A similar number of Pearl citizens and a few other invited guests were participants in the meeting.

Features on the program, furnished both by the Lion's and citizens of Pearl were Clinton Chamlee, local tenor, who was accompanied in two numbers by Jack Reesing, pianist, who also gave a piano number.

Pearl, grabbed in the limelight with its five piece orchestra composed of Henry Franks, piano; R. E. Goff, violin; Tully Ballard, guitar; Earl Hampton, banjo; Lee Bynum, tenor banjo, and M. "Peck" Tharp, mandolin, gave a number of snappy tunes. Also, a trio composed of "Peck" Tharp, mandolin, Miss Ann Hampton, and Miss Nona Jane Franks sang and played a series of popular numbers. A duo composed of Tully Ballard and M. Tharp, gave mandolin and guitar numbers as an accompaniment for their vocalizing.

Lion Wither outlined the aims of the Lion organization and expressed the desire of a better acquaintance of people in Gatesville with those in all outlying communities.

Menu for the affair consisted of fruit salad, fried chicken, creamed peas, tomato salad, mashed potatoes and gravy, which was followed by ice cream and cake. Decorations included vases of zennias for center pieces, and around the fountain in the court, were ferns on each of the four columns. Tables were arranged in a U-shape, and outdoors.

Officers and members of the Pleasure and Profit Club are to be congratulated on the splendid banquet, and the way the whole affair was handled. Officers of the Club include Mrs. C. C. Reynolds, President; Mrs. Tom Jones, Vice-president, and Mrs. John Lacy, Secretary.

During the process of the banquet, members of the Lion's Club were introduced, as well as all the guests from Pearl as well as the few guests from Gatesville.

Losses through fire in England are showing decided gains each year.

CHARTER MEMBER OF SPRING HILL BAPTIST CHURCH PASSES AWAY

Mrs. O. L. Bates died Monday afternoon, August 19, at 5:15 at the home of her daughter, Mrs. Fred Dyer, of Spring Hill, with whom she had been visiting the past six weeks. She had been in ill health the last several months.

Funeral services were held Tuesday afternoon at the Walker Cemetery near Spring Hill at five o'clock with Rev. C. A. Morton, pastor of the First Baptist Church of Gatesville conducting the services, assisted by Rev. F. J. Grubbs, pastor of the Baptist Church of Spring Hill. Mrs. Bates was a charter member of the Baptist Church of Spring Hill.

Mrs. Bates, who before her marriage was Miss Mary T. White, was born November 1, 1851 at Fabine, Louisiana. At the age of 15 she moved with her parents to Texas and settled at Spring Hill. She has

ACCIDENT ADDS TRAGEDY TO SADNESS AND DEATH

Mrs. Sara Merrill, age 93, of Irene, Hill county, and mother of Mrs. A. Shirley, Gatesville, passed away last Sunday night and was buried Tuesday. Mrs. Shirley had been at the bedside of her mother for several days prior to her death, and is still there administering to the needs of other relatives who were injured in a car accident. Mr. Shirley returned to Gatesville Tuesday night from attendance at the funeral of Mrs. Merrill.

Mr. E. R. Merrill of Lubbock, accompanied by his three children, C. E., Byron, and Ola, were enroute to his mother's bedside when a tragic accident occurred in which C. E. Merrill was instantly killed, and the other three received injuries.

Twenty-two miles west of Ft. Worth, Mr. Merrill's car, a Chevrolet, was smashed head-on by a new Ford pick-up, which had just passed around another car. In the collision, C. E. Merrill, age 47, who was sitting in the back seat, was instantly killed, and the others badly injured but no bones were broken. The man driving the pick-up seemed to have been severely injured and rushed to a sanitarium, but next morning he was missing. Both cars were smashed.

SEVENTEEN ABSENTEE VOTES CAST IN AMENDMENT ELECTION FOR SAT.

Report from Charlie Mounce, County Clerk, is that seventeen absentee votes were cast on the coming election Saturday, at which time seven amendments to the Texas Constitution will be voted upon.

According to Mr. Mounce, this indicates a light vote.

Bryan Arnold, member of the "summer staff" of the News, who was nice enough to furnish our readers with some interesting news on "Life at West Point," leaves Sunday to resume his work in the United States Army.

GO VOTE!

You pay \$1.75 (unless you have an exemption to vote) and here's your chance to get your money's worth. If you live in town, and vote in all elections you've paid \$2.75.

The 24th, Saturday, all of you have a chance to "exercise" this prerogative, with seven amendments to say "YES" or "NO" to, letting your own conscience be your guide. So, if you don't vote, don't kick. Best — Go Vote!

Definite Information Assures Post Office Bids Open Sept. 9

In conversation with C. W. Ford, Postmaster, Mr. Ford stated that bids for the site for the approved new Post Office will be opened officially September ninth. Blanks for those wishing to submit sites can be had at the Post Office, since he has these blanks on hand now.

According to information Mr. Ford has, the site must be approximately 120x180, if the location is a corner lot, and if in the middle of a block, it must be 145x180, allowing plenty of space for driving around the building and for parking space for carriers and mail trucks.

Latest reports are that \$70,000 has been appropriated for both location and completion of the building.

GATESVILLE TRIAL JURY DISMISSES JOHNSON CASE TUESDAY

Jurors in the case State vs. Mrs. Ethel Johnson of Dallas, were dismissed Tuesday of this week at 10:00 a. m. after having the case given to them Saturday evening, August 17, and being unable to agree, and were reported to stand eight to four for acquittal when discharged.

Maury Hughes of Dallas, Mrs. Johnson's attorney, was quoted there as saying that he would seek a change of venue if the case is set for trial again.

Mrs. Johnson had been accused of slaying her daughter-in-law, Bernice Davenport Blankenship. She was also charged with slaying her son but that case was dismissed.

BANKHEAD TAX EXEMPTION CERTIFICATES BEING HANDED OUT

Tax Exemption Certificates are still being handed out at the office of the County Agent, Guy Powell, in accordance with the regulations in the Bankhead Act.

Mr. Powell requests that those who have not received these come in and get them as they are now ready.

LIEUT. ROBERT SCOTT NOW IN CAMP BULLIS

Tragic Accident Takes Life of Young Man of Pidcoke Community

Shortly after sunrise Thursday morning the Pidcoke community was shocked to learn of the sudden accidental death of Mr. Elisha Kinsey, whose home is on the Cow House about four miles northwest of Pidcoke.

Mr. Kinsey had assisted a neighbor cut maize heads Wednesday and had started to the same Thursday. He carried his gun along, a single barrel shotgun, with the intention of killing crows on the way. Shortly after leaving home one report of the gun was heard, and in about an hour, not having arrived at the home of his neighbor, search was begun for Mr. McKinsey.

His body was found in the pasture where he had apparently attempted to crawl through a wire fence with a gun shot in the back of his head, his body being on one side and the discharged gun on the other.

Justice of the Peace A. Shirley, accompanied by County Attorney Alvis and Deputy Sheriff Ritchie, went to the scene to hold an inquest, and death by accident was the finding.

Mr. Kinsey was 25 years of age and was reared in Lampasas county. He was married to Miss Henson last Sunday and had just started out to make a home when this tragic death overtook him.

GATESVILLE STUDENTS GET DEGREES AT VARIOUS COLLEGES

Students from Gatesville have been recipients of degrees from several colleges and universities and among those we know of Everett L. Williams, who received his B. A. Degree at Baylor University this summer. Mr. Williams, during the past year was the principal of the White Hall schools.

Miss Vera Casey, of Oglesby and formerly of Gatesville has received her Bachelor's degree at North Texas State Teacher's College after the summer session. Miss Cayce is the daughter of Mrs. R. W. Cayce, and has been a member of the faculty of Oglesby schools.

MECHANIC GETS INJURY TO FOOT WHILE UNDER CAR THURSDAY

F. F. "Fuzzy" Chamlee sustained a painful foot injury Thursday morning, when repairing a car another car driven in his shop, and ran over his foot, which extended out from under the car he was working on.

Information received here is that one or more bones were broken in Mr. Chamlee's foot, and he is now using a crutch.

HOW ABOUT A RAM AND BILLY SALE? ASKS THE COUNTY AGENT

County's Eyes Focused on Athletics as Coach Worley Issues the Season's First Call to Players

About this time every year, people in these United States, begin to get "panicky" for the sight of "bruising" thundering herds that will be mashing grass in every athletic field, stadium, and vacant lot within the short time of a month, or less, we refer to football, really, America's national game at this

time. Coach Worley, speeded up this "infection," Thursday morning, when he came in with the first football story which has broken so far in 1935. His call for all boys that possibly to be at the gym Saturday, August 31, to draw suits for the coming Football Training, which will start Monday, September 2,

Every candidate for the 1935 Hornets is invited and expected to be on hand for the first practice. In order to get in trim mentally for a football season, Coach Worley urges, not only the boys themselves, but the citizenship to "get it on their minds" and think and talk football for now and throughout the season. Talk Football.

7 UP

Seven-up! That's a famous medium of exchange used by card sharks and other individuals, usually.

This time, it refers to the seven Constitutional Amendments that are UP Saturday of this week, for your dis- or ap-approval. It's entirely up to you. The News has published these SEVEN-UP in some corner of this paper under the caption "Proposed Constitutional Amendments," concise explanation given out by Secretary of State Gerald C. Mann. It was informational, and came from the Office of the Secretary.

These were, old Age Pensions, Temporary Commitment of Insane, Abolishing Fee System for Paying Officials, Repeal of Liquor Prohibition, Submission of Amendments at Special Sessions of Legislature, Suspended Sentence in Probation Amendment and Free Text Books for Private and Parochial Schools.

In presenting the above named articles, no comment has been made as to the "yea" or "nay" part of it. We believe voters are capable of doing their own thinking, and our idea has been to present a concise and authentic statement of the different amendments and let the voter make up his own mind and do his own voting, as it should be.

In conclusion, let us urge each of you who have the privilege, to go to the polling places Saturday and "speak your piece," and chime in with the other voters of the state, letting the Legislators know what you think about their proposed amendments.

The diplomats of France, Great Britain and Italy have gone home after a futile effort to avert war between Italy and the African kingdom of Ethiopia. Further negotiations will be made thru diplomatic channels and thru the League of Nations. Mussolini is not in the compromising mood, refusing partial control of Ethiopia as proposed by France and Britain.

Great Britain offered to obtain an agreement with negroid Emperor Haile Sellassie of Ethiopia affording Italy wide economic concessions in the African country but Duce demanded political control by the Italian army. War can now be expected by October 1, when Il Duce is expected to begin his campaign, unless Britain is willing to take drastic measures, i. e. closing the Suez Canal to Italian troops and supply vessels.

The British have a huge stake in Africa. They fear a black uprising if Italy attempts to subdue the last remaining free empire in Africa (excepting Liberia.) Britain and France control three quarters of Africa and a fight between whites and blacks, precipitated by an Italian invasion of Ethiopia or an Italian repulse in that country, would mean trouble and more trouble for them.

France and Britain also fear that Germany may go on a

rampage if Mussolini becomes embroiled in a long and expensive African war. Hitler may decide to take Austria or a slice of the Russian Ukraine. If Red Russia and Germany tangle, France will automatically become involved by a treaty of alliance and mutual protection with the Soviets. And Britain,—? The British have reason to fear an Italo-Ethiopian conflict, as do the French. Yet, will they dare close the Suez Canal?

One thing you can count on. The British people will not go to war to protect Ethiopia. The British populace vividly remembers the last war, much more so than do we Americans, because they had two more years of it than did we and they were on the "front," subject to German air raids, submarine attacks, a food shortage. They will not go to war if Germany attacks Russia. Thinking Frenchmen wonder if the British will fight to save them as they did in 1914.

British diplomats cannot go too far, with a population in this kind of humor. Mussolini is saved, from all except the Germans. No one knows what they will do, no one except one man.

Two interesting articles have been written on the Italian-Ethiopian dispute lately.

In the first, Gaetano Polverelli, member of the Italian Parliament and former chief of the Press Bureau of Premier Mussolini, ably presents Italy's case in Africa.

Most people ignore the general situation in Ethiopia itself, Senator Polverelli states. "Ethiopia has a population of 10,000,000; Italy has 43,000,000 inhabitants in a small area and is naturally desirous of ex-

ponding." All true. The Italian contends that Italy chose a policy of friendship, collaboration and pacific economic penetration in Ethiopia and was answered by attacks on the Italian colonies in Africa and obstacles placed in the way of Italian colonists and traders in Ethiopia.

"The main cause of Ethiopia's evils is the slave trade, still practiced extensively thruout the empire," says the Senator. "Ethiopia is a fertile territory which requires only systematic work and some legislative discipline to become one of the most productive in the world, but its populative, already sparse in the outlying districts, is being decimated by the slave trade. Arabs, Negroes, and Christians once ranging into the millions are now reduced to a few hundred thousand, owing to the periodical raids made upon them by order of the Ethiopian chiefs, who sell the human booty in the interior.

"Every year, every month, almost every day, hordes of Ethiopian savages assault entire populations, burning, slaying, kidnaping women, girls, and children. They bind them in chains, beat them, torment them, drag them naked to the infamous market-places where they are sold like animals.

"The Imperial Ethiopian Gov-

ernment is responsible for this disorder and anarchy that reign supreme in Ethiopia."

According to this writer, "Ethiopian farrriors make a habit of cutting off the right hand and the left foot of prisoners of war; they wear them on their saddle pommels. Such mutilation was inflicted upon 1,200 of Italy's native soldiers in 1896 and two thirds of them died from loss of blood.

"We think that the best means of introducing civilization into Ethiopia and of abolishing slavery forever would be to intrust Italy with the task or reorganizing the country on civilized principles. A semi-barbarous county, dedicated to war and the slave traffic, Ethiopia is like a rotten peach which constantly threatens to infect its neighbors with a decay of law and order."

Remember first dear readers that this article was written by an Italian nationalist. Remember secondly that the conditions of slaves in Ethiopia have caused England and the League of Nations in the past to make a formal protest to the Ethiopian Emperor. If such conditions as those described above really exist, does not Ethiopia need a "civilizer"—one who can abolish these age-old customs of brutality, free the slaves, and develop the country to the

benefit of all?

Let's consider the second article. It was written for "Today" magazine by an eminent Washington writer, Raymond Gram Swing, and was entitled, "Ethiopia Is Sold Out." Mr. Swing believes Italy will conquer Ethiopia if Mussolini cannot take over the country by bluffing. "Ethiopia has survived the imperialism of Europe," this writer says, "not because Europe was good, but because the country was highly difficult to conquer. England would have delighted to hold the northern region, including Lake Tana; Italy and France both coveted the Ethiopian plateau. But each power checkmated the other and in turn was fearful of the cost of conquering the wild tribesmen.

"Now, for the first time, Italy can invade Ethiopia without effective protest from other powers. This is because Europe itself is on the brink of chaos."

Secondly, "Ethiopia is the ideal site for Italian expansion. The plateau, with an average elevation of 7,000 feet, compares favorably with Central Europe. Moreover, it is fertile and sparsely settled."

Although international bankers do not consider Italy a good risk, Mr. Swing believes Mussolini can hold out as long as

FRANKENSTEIN MONSTER COMES BACK

"The Monster" is at large again!

Karloff, the grotesque creature of the original "Frankenstein," a murderous giant constructed from parts of dead bodies and brought to life at the height of a crashing electrical storm, comes to the Regal Theatre Saturday night at 10:30, also showing Sunday and Monday, in "The Bride of

Frankenstein," a sequel to the first picture.

In this strange drama, produced for Universal by Carl Laemmle, Jr., the Monster is seen in further adventures of such a hair-raising nature that the picture is said to furnish the very ultimate in ghastly thrills. At the conclusion of "Frankenstein," it will be remembered, the Monster was apparently destroyed in a burning mill but the opening scenes of "The Bride of Frankenstein" show how he escaped death and returned to throw the entire countryside into a stage of terror.

Henry Frankenstein, the half-mad scientist who created the Monster, finds himself forced to continue his experiments with the evil Dr. Pretodius, already successful in the creation of tiny living human being who lack only size to make them even more perfect figures than the Monster himself.

Meanwhile, the terrifying creature continues his murderous career, until he is befriended by a hermit who teaches him to talk but again lapses into savagery and takes to the hills. From this point the excitement increases, culminating when the mad scientist collaborate on the creation of a mate for the lumbering giant. Then follows what is said to be the most amazing climax in the history of the screen.

PURMELA BOY MARRIES GATESVILLE GIRL

Mrs. Rose Montgomery became the bride of Mr. Coyne Robinson of Purmela at a ceremony performed by Reverend Fred Grubb in Purmela Wednesday. Mr. and Mrs. Robinson are leaving for a honeymoon today in Los Angeles and vicinity. They will be at home in Purmela after their trip.

Mrs. Robinson will be remembered as a daughter of Mrs. J. B. Shows of this city. She is a graduate of Gatesville High School and is also a graduate nurse of Baylor University School of Nursing in Dallas.

Mr. Robinson is the son of Mr. and Mrs. Arthur Robinson of Purmela, well known citizens of that community, and he is a graduate of Purmela High School.

"LES MISERABLES" BY HUGO IS NEW STORY IN NEWS

"Les Miserables" an amazing story of an amazing man... a story that has thrilled millions with each telling... the story of Jean Valjean, is the new story beginning Tuesday in the News for its readers.

"Les Miserables," in six installments, is by Victor Hugo one of France's greatest writers, and is written in a simplified form with the story complete.

Students in schools are required at times to read this as "outside reading" and write papers on it, and we believe this will be a boon to them.

As a picture, it is played by Frederic March and Charles Laughton, Cedric Hardwicke, Rochelle Hudson, Frances Drake and John Beal.

So far, this picture has not been booked by any local theatre, but is playing in a Dallas Theatre and in the Capitol in New York City.

CARD OF THANKS

We take this method to express our sincere thanks to the good people of Gatesville for all the deeds of kindness shown us during the recent illness and final putting away of our brother, G. J. Morris. The flowers, the friendly hand, the tears of sympathy, and many other expressions of love and friendship have helped us in our distress. We sincerely thank each and everyone who in any way contributed to this work of love, and our prayers are that God's richest blessings may rest and abide with each of you.

Most sincerely,
Brother and Sister of
G. J. Morris.

RELIEF LOAD FOR JULY HAS GREATLY REDUCED FROM YEAR AGO

Austin, August 21.—Continuing its consistent drop, the Texas relief load fell to 158,506 cases in July, the lowest it has been since the Federal Emergency Relief Administration was established in April, 1934, figures compiled this week by the Texas Relief Administration revealed.

Significance is given the July figure when it is compared with figures for the corresponding month a year ago, when the case load was 236,732.

"The fact that 78,226 fewer cases were on the Texas relief load in July this year than in July last year is a cause for genuine optimism," State Relief Director, Adam R. Johnson declared.

"Moreover, with the cotton crop this year from two to three weeks late, the decrease is given even more importance, being due apparently to business gains and not to any seasonal employment in the cotton fields," he added. "Except for portions of South Texas, cotton picking is really just now getting well underway, and will not have its full effect on

employment until September."

With both the Works Progress Administration and the cotton harvest expected to make deep inroads into unemployment figures the latter part of August and particularly in September, relief officials are cheered at the prospective drop in unemployment to be shown in future reports.

The July figure is 70,000 under the September figure last year, which was 228,000 despite the fact that the month had full benefit of the cotton picking season. The "head start" September this year will have over last is obvious, it was pointed out.

Previous lowest figures since the FERA began, with the exception of June this year, was for June, 1934, when the case load totaled 189,000. This however is not considered a true reflection of the unemployment situation than as the FERA had just replaced the CWA and the case load did not indicate the degree of destitution. This is made pertinent by the fact that the next month, July, 1934, saw the case load jump to 236,000.

Each case averages 4.7 persons, making the number of

persons benefitted by relief in July approximately 745,000, compared to 1,112,000 in July, 1934.

SEDIMENT IN CREAM

By Prof. K. M. Renner
Texas Technological College

While the amount of sediment in cream cannot always be used as a measure of quality, it does serve as a good indicator for the care that was used in producing and handling the cream on the farm. The sediment disk presents indisputable evidence, not only to the cream buyer, but also to the producer, of the relative cleanliness of the cream. While a clean sediment disk may not mean that the cream is first grade, it does show that the producer is using care in keeping his cows and utensils clean.

There is considerable correlation between the keeping qualities of cream and the amount of sediment present in the cream. Good cream which is clean will keep longer than dirty cream. The type of sediment present will also have considerable effect upon the keeping qualities of cream.

The following kinds of sediment of animal or plant origin may be found in cream: barnyard manure, flies, ants, straw, feathers, dirt, and even small rodents. The presence of any of this foreign matter in cream is rather conclusive proof that the producer has been very careless in the production and handling of his cream, and this type of cream should be condemned as being unfit for human consumption. In some cases its presence is due to lack of information as to correct methods, and in others it is due to a general lack of observing sanitary methods. The first is more easily remedied than the second.

Barnyard manure usually gets into the milk during the milking period. The cow gets manure on her flanks and udder by lying down in a dirty barn or barn lot and if the cow is not properly cleaned and the udder and teats washed before milking, quantities of the dried manure will fall into the milk pail. While proper straining will eliminate the insoluble portion of this filth, part of it will dissolve, imparting to the milk a characteristic cowy flavor. Proper sanitary observances such as keeping the barn and barn lot clean, using small-top buckets, and washing the cows' teats and udder before milking will eliminate this difficulty.

The presence of cow hairs may be prevented by keeping the cows' udder and flanks clipped, and by brushing the flanks and thighs before milking; the use of small-top buckets will also help in eliminating these hairs. Cotton disk filters will eliminate them entirely from the milk as they cannot pass through the cotton strainer pad.

Ants, flies, feathers, small rodents, etc.; most of these types of sediment gain entrance after the cream has been separated and while it is being held on the farm prior to delivery to the buying station. Its presence indicates carelessness in handling the cream. Cream should be stored in either a stone crock or well-tinned can. The crock or can should have a loose fitting lid which will come down over the top side of the can or crock. The practice of tying a muslin cloth over the top of the cream can well prevent the entrance of small red ants, dust and sand.

Curd Sediment: Sometimes the sediment pad will show

small and rather uniform-sized lumps of curd. Usually this indicates that the cream is of high acid or has been held at a high temperature, or both. Frequent stirring of the cream during cooling, stirring the cream thoroughly each time a new batch is added, and again just before delivery will assist materially in remedying this defect. While it is not as serious as the other types of sediment it does prevent an accurate butter fat test from being made because a representative sample cannot be taken.

FIGHT WINTER COLDS WITH CIRCULATED HEAT

For Your Health's Sake...

Heat Your Entire House

Most people have from two to three colds each winter. Their cause is often a poorly heated house. So plan now to have it properly heated with healthful circulated heat. The new gas heaters supplying this kind of heat are economical to operate. They stop wall sweating. They knock chilling drafts. See them now and use them this winter to fight colds.

Thanks to my **NESCO Electric COOKER**

Cook in Cool Comfort on the Hottest Days of Summer

The NESCO cooks with built-in heat that cannot escape to raise room temperatures. The 6-quart model (above) will cook a whole meal for a family of four without causing any more discomfort than one would experience in preparing sandwiches and a pitcher of lemonade. The 12-quart NESCO is made for larger families and offers the same relief from kitchen heat. Either model may be purchased on convenient terms. Come in and see about it today!

THE woman who owns a NESCO can take the afternoon off, even though she has an evening meal to cook. She simply puts the meat and vegetables in the cooker, sets the heat control dial for the proper temperature and leaves the kitchen. When she returns, hours later, the food is piping hot and ready to serve.

Thousands of Texas women have discovered the convenience of NESCO electric cooking. They like the better taste of foods that are cooked in their own nourishing juices. They like the cleanliness of electricity, the absence of kitchen heat and the economy of operation. They find that NESCO brings them all of the advantages of electric cookery at a cost of only two or three cents per day.

his capitalists can supply him
with capital. As to the military
problem, this writer believes it
will be fairly simple, once the
plateau is reached. "Mussolini
anticipates one year of active
fighting with a large force,
probably a million men, includ-
ing native troops, followed by
five years of tedious subjugation
requiring relatively small
forces."

Because the Ethiopians have
not been able to buy modern
weapons, Mr. Swing declares
that Italy is assured of ultim-

In all, a pretty picture is
painted for Italy in Africa by
this writer. First, the League
and other European powers
will do nothing to stop Mus-

and will be able to conquer the
negroes, opening an ideal site
for Italian colonization, and,
lastly, the Ethiopians, with no
knowledge of modern warfare,
are doomed to defeat before
the campaign starts.

was obviously a responsible person, obviously set for a pleasant week end with his family—so the officer cut into papa's well-bred expostulations: "I'll let you off this time, but if you keep on this way, you won't last long. Get going—but take it easier." Later a passing motorist hailed the trooper and asked if the red Hispano had got a ticket. "No," said the trooper, "I hated to spoil their party." "Too bad you didn't," said the motorist, "I saw you stop them—and then I passed that car again 50 miles up the line. It still makes me feel sick at my stomach. The car was all folded up like an accordion—the color was about all there was left. They were all dead but one of the kids—and he wasn't going to live to the hospital."

Park on the pavement too near a curve at night and stand in front of the tail light as you take off the spare tire—which will immortalize you in somebody's memory as the fellow who was mashed three feet broad and two inches thick by the impact of a heavy duty truck against the rear of his own car.

GOVERNMENT EASING OUT OF RELIEF BUSINESS

Austin, August, 21.—Re-emphasizing the fact that the government eventually is getting out of the relief business, Texas Relief Commission officials have sent instruction to district administration offices to analyze more minutely than ever each relief client's private resources before giving him aid, making certain that his last possible private source of sustenance has been exhausted before he is allowed aid from the dwindling relief funds.

If a relief applicant has enough partially to live on, then the government can supply him with only supplementary aid to meet his basis requirements, but first however every available resource must be carefully taken into account, including possible aid from relatives.

"Family responsibility should be strengthened during these times of realignment," Relief Commission officials emphasize, urging that families able to assist destitute relatives recognize their obligations.

General "dig in" advice has been issued to relief clients. Pointing out that present federal funds have been narrowly limited and that no more appropriations are likely, relief officials urge the necessity of conserving every cent possible in order to stretch the present funds until the Works Progress Administration gets fully under way. They have told district administration officials, particularly case supervisors and case workers, to investigate thoroughly the client's ability to support himself at least partially through his own resources.

"By resources," officials say, "we include such items as garden products, milk from the family's cow, help from relatives, aid from churches and other sources, saving accounts, insurance loans, odd jobs, income of children, etc."

Another step toward weeding out the relief rolls was taken when the Board of Control ruled that tenant farmers who are actually growing a crop or have already harvested one this year are not eligible for relief. Assistant State Relief Director, J. T. Duke, has instructed district administrators to rule out all such applicants, pointing out that the responsibility for sustenance is with them and their landlords.

COPPERAS COVE NEWS

John E. Smith, 13 Died
Wednesday

John Elton Smith, 13, youngest son of Zack Smith, died in a Lampasas hospital Wednesday of ptomaine poison.

The youth, beyond aid of local doctors, was rushed to the Lampasas hospital Wednesday noon, but was too late to save his life.

He is survived by his father, one brother, five sisters and one half sister.

Interment was in the Smith Cemetery at Browning, with Rev. Avant of Browning officiating.

"Cotton" Adams Has Tonsils Removed

Gordon "Cotton" Adams, son of Mr. and Mrs. R. C. Adams, was carried to a Temple hospital Saturday to have his tonsils removed.

"Cotton" returned home Sunday and reported he feels fine and "it didn't hurt—much."

What Is It!

Is a newspaper in your town an asset? Do you think that without one your town would be what it is? Of course you want a newspaper in your town. From the daily papers one can read the news of the state, nation and foreign. But can you look in a daily paper and tell the price of merchandise in your home town?

While soliciting ads one week a merchant answered; "I can't advertise, I don't have anything to advertise." That merchant is very progressive. He expects patrons to guess what he has in his store. Some merchants never take part in the campaigns to get more patrons here. Yet, like parasites they expect to reap benefits from the other merchants' efforts. They are the ones a town can do without.

COUNTY AGENT—

and Billy sale? It has been suggested that the stockmen of this county would like to have a ram and billy sale. This sale to be a private sale and not an auction. The suggestion is that the sale be held within two weeks and

to be held in Gatesville. Every man having a ram or billy for sale or trade would be invited to bring quality animals to Gatesville on a given date. It would be widely advertised and prospective buyers would be urged to come here on that day. Will you answer the following questions and return to me now?

Are you interested in a sale like this?

Do you believe the stockmen would be interested?

Will you bring some rams or billies to this sale if it is put on?

How many rams

How many billies?

When is the latest date this sale would be practical?

(Name and address)

I believe that if we can start this sale this year and the stockmen get behind it we can have an annual affair which will attract both buyers and sellers throughout the state. Please answer the above questions and return to me by Saturday of this week.

Yours truly,
GUY POWELL,
County Agent.
