## Huddleston Views the Situation at Austin; Handling Many Bills

The Legislature has been in session something over a week and something like one hundred bills have already been introduced. Of course, the three most important questions are old age pensions, the liquor question, and salaries for state and county officials.

The Sunday's Austin paper stated that there was the largest lobby in Austin that had ever appeared before any Legislature. I know it is the largest that I have ever seen since I have been a member. Big interests always have their representatives here.

There is an effort being made by some members of the Legislature and by outside influences to put off the question of old age pensions to a later date. I have taken the position that the Legislature should not sidetrack this question, but that we should act upon it this session of the Legislature the same as the liquor question and the question of salaries, because the people overwhelmingly voted for an old age pension. Therefore, I believe we owe it to them to pass such legislation. The question is being discussed as to whether we should give the pension to all in the age limit or whether we should restrict it to those who only are in need of assistance. This is a very difficult question to decide. If we give it to everyone who is in the age, it is estimated it will cost something like forty million dollars (\$40,000,000) per year, and, of course, we will have to raise that much tax money. But I am of the opinion that the people when they voted for this, realized these facts and it seems to me the only fair way to do it is to give it to everyone in the age. I would be glad to hear from the people as to what they think on this question. I do not want to vote any additional tax on anyone and have constantly opposed taxing anyone any more, since I have been a member of the Legislature, but, of course, in this case everyone realizes that if we pass this bill, we must have some additional tax money. Numerous kinds of taxes have been suggested to pay this pension bill, a number of which are: A tax on Sul-

## COUNTY SUPT. ANSWERS NATIONAL YOUTH ADM. LETTER

The following letter to the National Youth Administration is written in reply to their inquiry. All who are concerned should call on their school principal at once.

National Youth Administration, 603 Littlefield Bldg., Austin, Texas.

Dear Sir:

In answer to your inquiry will state that the County Superintendent will meet with the Case Workers to allocate jobs for high school students on Friday, October 4, at 10 a. m.

The High School principals will conclude the acceptance of applications for high school work on October 12.

The County Superintendent's deadline for receiving applications for the allotment of jobs from schools is October 12.

They County Superintendent's office will complete all its work on applications October 16.

The completed forms will reach the office of the National Youth Administration by October 18.

Yours truly,

(Signed) J. M. WITCHER,  
County Superintendent.

## VOCATIONAL CLASS ATTEND WACO STOCK SHOW

The vocational agriculture class of Gatesville High School visited the fair at Waco Saturday. This trip was the first of a series to fairs and other places where farm products are shown. The instructor, Mr. Lasseter, believes that such trips will be of great educational value to the students as well as being a good source of clean, wholesome amusement.

Many fine exhibits were shown at the fair, but the show that inspired the most admiration was the fine display of saddle horses and thorough-bred cattle.

After a pleasant day among the interesting sights to be seen at the fair, the class returned home where they are looking forward to other trips in the future.

phur, Oil, Gas and other natural resources, and some are advocating a sales tax. Of course, some revenue can be derived from liquor. I intend to weigh all of these matters and vote for the plan which I think is the fairest and best for the people.

I think a representative should endeavor to carry out the will of his people and this is what I am trying to do. It is too early at this date to make a prediction as to what will be done. I will have more to say at a later date. As I have stated in these columns before I welcome suggestions from any of my people at any time. These are problems of interest to all. Therefore, I feel it is the people's right to make their wishes known on the same.

Respectfully,

EARL HUDDLESTON,  
Representative.

## Attend "First Monday" Here October 7; It Is Old Time Trades Day

Next Monday will be Coryell County's old time trades day, better known as First Monday.

For years it has been the custom for people over the entire county to come to the county seat on this day where they can make swaps and trades profitable to all parties concerned. Nearly every kind of farm animals and farm commodities are to be found on the courthouse square or other streets and lots offered for sale or trade by the owners.

The day also serves to bring old friends and acquaintances together again where they can swap yarns as well as horses and pigs. Come to Gatesville next Monday, October 7, and bring something along with you to trade your neighbor from another section of the county.

## ADULT NIGHT SCHOOL TO BEGIN A SCHLEY AND SPRING HILL

Announcement has come to this office of an adult night school to be taught at Schley school beginning Monday evening of next week, according to Young W. Lee, who is to be in charge of the school.

Tuesday evening the school at Spring Hill will start under the direction of Mr. Lee also.

## 'D' YOU GET ONE! YEAH! 'D' YOU! YEAH! DAVIDSON'S CIRCULAR

That's the question being asked now-a-days! It's hollered from back doors, over back fences, on party lines, and street corner gossip. They're all wanting one of Davidson Bros. & Co's., big circulars that were mailed out in the wee hours of yesterday morning, picturing in print and cut, values, values and more values, which this progressive store is offering its patrons and prospective patrons. Better get one, if you haven't.

The Davidson boys are featuring Winter wear just before the winter hits, so you won't come in shivering and wanting to buy after a blue norther comes across these Texas prairies.

## QUIT TOWN AND AIN'T GOIN' BACK, SAID FORMER LOCALITE

Deleting any names of principals, we've this week got one that's got us.

Last year, a year Tuesday of this week, we called on a man in Gatesville who was moving to the country and he wanted the News. We fixed him up.

One year later, and he hasn't been to Gatesville, or any store in the county, and to no town anywhere. He's quit! Could it be possible, he gets plenty of news without coming to town—but we wouldn't be that vain.

Anyway, it's been ONE YEAR AND FOUR DAYS since Mr. Blank has been to any town. He's certainly hibernated—and how.

## JONESBORO SCHOOL OPENS OCTOBER 7TH.

The Jonesboro High School will open the 1935-36 term on Monday, October 7. We are looking forward to one of the best school terms in our school's history.

On Friday night, October 4, at 8:00 p. m. the school and community are having the opening program at the High School Auditorium. We invite everyone to come and be with us in this program. We feel that such a meeting at the beginning of the school year will add to the fine school spirit that the people of this community have always shown.

Remember, also, that your presence will be an encouragement and inspiration to the teachers and the student body.

P. T. LEMMONS.

## PURE FOOD SHOW OPENS AT TURNERSVILLE OCT. 11 AND 12

According to V. P. Morrison, chairman, Turnersville's Pure Food Show opens there Friday, October 11 and 12th.

Features of the show will be the Ames string band, a combined orchestra of string music composed of 10 to 15 instruments. The colored quartette from the State Juvenile Training School will also be a feature of the show.

Sessions of the show are from 2 to 5 p. m. and 7 to 10 in the evenings.

Co-operation has been received from surrounding towns including Gatesville, Clifton, Valley Mills and Waco, and large crowds are expected.

This show is held under the auspices of the First Methodist church of Turnersville, whose pastor is Rev. Van P. Morrison.

## SENATOR VISITS CITY WITH WACOANS ALMOST INCOGNITO

Senator Tom Connally, accompanied by his two sisters, Mrs. C. N. Smith and Mrs. Rose Staton of Waco, were visitors here for a few hours Tuesday afternoon.

Senator Connally is supposedly resting and recuperating after the strenuous sessions of Congress.

## SHERIFF WHITE ELECTED CHAIRMAN LEGISLATURE COMMITTEE

Sheriff Joe White, Coryell county's popular sheriff has been elected as the chairman of the Legislature committee for District 21 of the Sheriff's Association, which consists of Bell, Coryell, Hamilton, Bosque and Erath Counties.

Sheriff White and also the Sheriff's Association are to be congratulated upon this mutual honor.

## LOCAL BOY ELECTED TO OFFICE IN UNIVERSITY FRATERNITY

A. H. Meadows, Jr., who is a student at the University of Texas has just been elected vice president of the Delta Chi fraternity at Austin.

"Butch" is a sophomore student, and well known here in Gatesville as well as at the University. He is the son of Mr. and Mrs. A. H. Meadows.

## Co. Taxes Show Healthy Increase; Notices Are Being Sent Out Now

Tax rolls for the year 1935 are complete and have been approved by the Commissioners' Court and are forwarded to the Comptroller's Department at Austin, according to advices from Tax Assessor/Collector Dave Culberson's office yesterday.

Averages for the increase show one hundred dollar increase in land taxes, totaling a gain of \$31,000 over last year on real estate. Personal property assessed was \$87,335 in the county. Public Utilities lowered their taxes owing to a suit by the Atlantic Pipe Line Company, which contests the assessment of their intangible assets, which were placed on the 1934 roll at a valuation of \$244.00 but the tax was unpaid on this property, pending litigation which is now before the Supreme Court.

Mr. Culberson's office is now preparing to mail out the tax notices at this time.

## F. F. A. OFFICERS AND MEMBERS ATTEND MEET IN WACO

Saturday the officers of the F. F. A. Training school held a meeting at the high school building in Waco. The object of this meeting was for the following reasons: to inspire the officers of the local chapters to do the best possible work while serving their organization, to outline for each officer the work assigned to him, make the necessary suggestions on the procedure each one should carry out in the discharge of their duties, and to continue training until the local chapter officers may satisfactorily carry on the work.

The meeting was called to order by Mr. D. K. Willingham, President of Waco District Teachers' association of Agriculture. He introduced the speaker of the morning, Mr. R. B. Mefford, who spoke on the subject of progress made by the F. F. A. in the past year. Mr. J. M. Wilson of Martin outlined the duties of the presidential and vice presidential officers, Mr. W. E. Lasseter of Gatesville instructed the secretaries and treasurers and Mr. Weatherly, the reporters and historians.

The representatives from Gatesville who attended the meeting were: Henry McDonald, treasurer, Elwood Young, reporter, Woodrow Hall, farm watch dog, and Earl Scott, parliamentarian.

## YOUR COUNTY OFFICERS

Time and knowing is what you are paying them for! So, what's the reason for this. It's not solicited, requested or approved by them. They are your servants, trying to do your will, and the will of 20,000 other Coryell county citizens. They are glad to talk to you about all your troubles, or anything else that you may have on your mind.

**BUT!** 19,999 other people over the county want to see this officer, or he has some business to do for them, some information he must get out to the citizens. He's a busy man—if he's attending to your business. He's always glad to see you, to help you attend to your business or in any matter that he possibly can; to discuss any subject with you or to just pass the time with you.

**HOWEVER!** Bear in mind that the other 19,999 citizens need some of his time, thought, information and advice, and make your visit as brief and to the point as possible. Give him time to work for someone else who also needs him. During office hours, this County Officer is a busy man—if he's keeping up with the county's business—, so, treat him as such and state your business and then give him time to attend to the other important business of his office. Think this over, we believe you'll agree with us.

## NATIONAL FURNITURE WEEK

It's always "National Something" Week. This week it's also National Furniture Week.

Furniture makes a home just as much as the home itself. Not necessarily new furniture or stylish furniture. If it's just plain ordinary furniture, or the last word in ultra-modernistic furniture, it still goes to make up that word called Home. However, like the home, the furniture must be used to make it a part of the home, and the styles change even in furniture, many pieces of furniture become as dear as the home itself. Then, whether it is your new furniture, or an old piece that has been handed down for generations, furniture, as well as the home will or does carry as many dear memories and reminders as the home itself. So, think of your furniture, this National Furniture Week.

**World Comment**  
By **JOE BURNS**

GREAT BRITAIN has abandoned all efforts to avoid war in Africa between Italy and Ethiopia and is now striving to localize the conflict and prevent a general war. Talk of more peace plans comes from Geneva but neither Mussolini nor Haile Selassie is ready to give in to the other—neither can afford to give in to the other—and war can now be expected minutely.

You can expect war unless Great Britain closes the Suez Canal to Italian ships and blockades Italian ports. We say this because of one thing only: Mussolini has 200,000 soldiers in Africa, \$50,000,000 has been spent on war preparations, all Italy hums to the tune of war and conquest. The Duce can't back down. Should he do so,

it would be the end of the Fascist regime in Italy—and no one knows this better than Mussolini. For this reason you can expect war.

The only "unless" to this statement hinges upon what have already been fruitless efforts to persuade Haile Selassie to cede part of his empire to the Italians. The plucky little ruler can't do this; proud chieftains, confidently expecting to annihilate the Italians, would promptly depose their ruler should he concede a single point to the Duce.

How can the League of Nations or anyone else alter this situation? No one, no thing, can change this set-up except Britain. Britain can close the Suez Canal, isolate Mussolini's troops as Nelson cut off Napoleon's army of conquest in Egypt over 100 years ago, and expect war with Italy an hour after the gateway to the East is closed.

Reports from London the first of the week stated that Italian troops have already crossed the Ethiopian border from Eritrea and Italian Somaliland. It's time for the ex-

pected advance. The spring rains have ceased and the mud is rapidly drying. Mussolini must strike fast; the rains begin again in January—only three months hence. No time for League dickerings that consume valuable time.

Military observers say five Italian armies will strike, three from Eritrea and two from Italian Somaliland, all aiming at an ex. Addi Ababa. Ethiopian chieftains are finding it difficult to restrain their warriors, who would like to attack the Italians before they cross the border. Sunday the Emperor warned the League that he could not postpone mobilization as the Italians were massing along his borders, obviously intent upon invading his realms. Il Duce and his advisers would like nothing better than for Haile Selassie to order a general mobilization of his troops and invade the Italian colonies. Italy would then be waging a war of defense, to protect its dominions against the barbaric Ethiopians. What could the League do then? Obviously it would be a way out, it would save the League's face but it would not be according to the wishes of Britain, who is the spearhead and guiding force behind the League attacks upon Italy. Should Ethiopia attack Italy in self-defense, the League could brand the black empire as the aggressor and justify the seizure of the country by Mussolini's forces.

But you can't blame Haile Selassie. With 200,000 Italians and 100,000 hostile natives facing his country in anticipation of an early invasion, has he not a right to take defensive measures. Germany was confronted with the same predicament in 1914. As a result of the declaration of war against Serbia by Austria, Russia mobilized her forces along the German and Austrian borders as a gesture for her ally, Serbia. Germany, realizing that war was imminent and the disadvantage under which she would suffer should Russia's full military strength be concentrated along her borders, declared war against Russia in self defense and war branded as the aggressor. Germany had a right to take precautionary measures; she was right in this, but she was not right when she provoked the Russians into attacking Austria.

Meanwhile, for the first time in history, Britain looks to France and asks for a promise of help in case of an Anglo-Italian naval war in the Mediterranean. For years, it's been the other way, France constantly seeking assurances of British help in case of an unprovoked attack. Now, Britain wants the help of the French navy should a naval war start with the Fascists. France is with the British. Yet, does she dare go to war against Italy on the south while cocky Germans parade along her northern borders, while Hitler spent 270 millions a month on rearmament (estimate of the British Foreign Office.) Would not this be an ideal setting for a German invasion of Austria or an alliance of Germany and Poland against Soviet Russia?

Truly it is a crucial period. It all seems to be playing into the hands of Herr Hitler, who may turn out to be the smartest statesman of them all. Italy is going to war—with somebody—and this will mean a poorer, a weaker, Italy, be it victory or defeat. Italy will be less able—less inclined—to rush to the defense of Austria should the Nazis putsch again or should the new German legions march into Vienna. Obviously, it will

now depend upon France; will France, backed by Britain, rush to the defense of the Austrians, when 60 per cent of them want no defense against the Nazis, want to unite with Hitlerized Germany?

Europe is aligned against Mussolini. Hitler, for once, is out of the spotlight and can have a breathing spell. Economic conditions in the Reich are worse. Housewives in Berlin dash madly from grocery to grocery, vainly attempting to purchase butter, bread and lard that is not to be had. Hitler may have to fight—or face a revolt at home. Is that not what Mussolini is doing? Assuredly, most experts agree that an outlet for Italian expansion must be found or an explosion faced at home. Britain, with 13,000,000 square miles under its control, refuses to let Mussolini civilize a few million savages, colonize the rich Ethiopian plains with his landless farmers. Germany faces the same situation. Austria, or a slice of Russia, anything would help.

## SYSTEM FOR SCHOOL GROUND IMPROVEMENT WORKED OUT BY PWA & NYA

State Superintendent L. A. Woods, through the National Youth Administration, is sponsoring a State-wide project to build playground equipment, improve playground facilities, and beautify the school campus of any public school in the State that desires these improvements. Independent School Districts, as well as Common School Districts, are eligible to participate in the project.

Each school district that wishes to participate will budget \$5.00 per teacher for the purchase of materials for the improvement of playground facilities. The National Youth Administration through the Works Progress Administration will provide all necessary labor. Only youths unemployed and

from relief families will be given work. When available these youths will be drawn from the school community. For each five dollars spent for materials, the Federal Government will spend \$57.60 for labor.

If you are interested in having your school ground improved under this method, see the County Superintendent within the next few days as these projects must be sent in soon.

## LITTLE THEATRE MEETING CALLED FOR THURSDAY IN COURT ROOM

Members and prospective members of the Little Theatre are called to meet in the District Court room at 7:30 p. m. Thursday evening of next week, according to Eugene Alvis, Jr., Director.

Any one in the county who is interested in The Little Theatre movement is invited to be present since the local club can always use new talent.

A discussion of coming plays and plans for the theatre season will be held at this meeting.

## HAMILTON COUPLE ARE MARRIED HERE

Miss Ethel Pearl Myers became the bride of Mr. S. Collier of Hamilton Tuesday evening at 6 p. m. at the Baptist Parsonage, with Rev. C. A. Morton performing the marriage ceremony.

Mr. and Mrs. Collier will make their home in Hamilton.

## CARE OF PEACH TREES

Are your peach trees affected by peach borers? Check up and see. The following is taken for Bulletin No. 73, "Home Orchards," Texas Extension Service:

"The peach tree borer is a yellowish-white worm about an inch long usually found under the bark around the ground line of the trees. Its presence is indicated by a gummy or jelly-like substance oozing on the body of the tree near the ground line in July and August. They hatch in a short time, burrow into the tree, and here they live during the winter and early spring. The time of greatest damage is during the following spring. The tree should be examined for borers in September, and if any are found, treatment should be given between October 1st and 15th. In North Texas treatments can be made October 1st but in South Texas treatments should be delayed until October 15th, as there is danger of damaging the trees if the material is applied while the weather is still hot. Best results are secured in treating the infested trees when the daily temperature is approximately 70 to 80 degrees Fahrenheit.

"Paradichlorobenzene is a chemical that will control borers if it is properly applied. For trees three years or older, the proper dose is one ounce. Trees under three years should not be treated as damage may result. In treating trees for borers, first pull the soil back to the crown of the root system, and scrape all gum and loose bark from the body. Then mound the soil around the body to a height of 4 to 6 inches, and pour one ounce of paradichlorobenzene on top of the mound in a circle two inches from the body of the tree. Do

## Senator Capper Pilots 4-H Club Tractor

Not every farm boy or girl can boast of having a United States Senator as "Chaufeur", but that was the unusual experience of 28 4-H Club members who attended a picnic recently at Topeka, Kansas. Senator Arthur Capper is at the wheel of the air-tired Allis-Chalmers tractor, which pulled a trailer load of young Kansans to the picnic, held in conjunction with the state fair.

not let the paradichlorobenzene come in contact with the bark of the tree. The mounds should remain around the tree for six weeks, after which time they may be pulled down to the surrounding soil level."

## NOTICE TO STOCKMEN

Stockmen of Coryell County who offer for sale stecker cattle, should apply at the County Agent's Office for T. B. Exemption Certificates to accompany these cattle so that they will not be stopped from going into any other state or county.

In order to move cattle into any T. B. Free County in Texas, it is necessary that these

cattle be accompanied by a Certificate showing that they are from a T. B. Free Area or have been recently tested for T. B.

The Livestock Sanitary Commission has placed in the County Agent's Office, certificates which are available for stockmen of this county desiring to move their cattle. Even though the cattle are going to the general markets and they are classed as stockers, if a certificate accompanies these cattle, they can be sold through the yards and shipped to the new buyer without an additional test. This courtesy saves many long delays and a large expense to both the seller and the buyer.

**RUNNING THE SIDELINE WITH TWO NEWS' HOUNDS**

As an abuser of the truth Coach Tommy Schneider of Bruceville-Eddy takes the cake. On two or three occasions the past two weeks he complained of his small team. He led "these writers" and some of the local fans to believe he had a group of school boys with which to build a team. In fact, so loud and mournful were his pessimistic outpours, we were surprised that he ever showed up on the scene. But as all coaches and sports writers are notorious provocators (liars) it wasn't so surprising after all that Schneider presented a well balanced, scrappy and excellently coached aggregation to the local fans Friday afternoon for the Hornets initial appearance. In fact a team so well advanced the locals were rather lucky to win. The score was Bruceville-Eddy 6, Gatesville 21.

The Hornets offense clicked brilliantly at times, and at other times it appeared as a stampede so poor were the blocking assignments carried out. The offense rolled up 14 first downs, but was so inconsistent that it accounted for only one "touch." The other scores resulting from two touch-down runs with intercepted passes and a fasety. The air attack with the midget Hair doing some nice tossing and Clark and McDonald, the ends equally as good in receiving them, accounted for quite a few yards and made possible the only touchdown the Hornets made from their own offensive efforts. Out of 21 attempts 11 were completed, 9 incomplete and one intercepted. Culberson displayed some nice drive and gave promise of becoming quite a line smasher. But what looked impressive and showed the fine coaching they have received, was the blocking of Dickie, Byrom, Colgin and Weaver, among others. Still their work needs polishing, but we have a faint idea that that process will begin this week. The offensive line as a whole was fair but still shows the lack of experience which will come with each game.

The defense was even more spotted than the offense, at times a stone wall but more often a sieve. To be sure the opposition only made 4 first downs but it wasn't the Hornet defense that made it so, as much as it was the poor offensive work of the Bruceville backfield. The Hornet line backers got more tackles than they should have. Tackles that should have been made by linesmen. The Hornet secondary were lucky that the passing attack of the visitors was no better, for they might of had quite a busy afternoon.

All in all though the team looked good and gave much promise of being rather tough to handle before the season passes. The above criticism is not born of dislike for anyone concerned but is derived from what we think to be true facts. The fans can be assured that all the flaws that cropped out Friday will have disappeared to a great extent by 3:30 next Friday afternoon and much to the dismay of the invading Badgers from Lampasas.

**FROM THE COUNTY AGENT**

Have you treated your oats for smut? Two Coryell county men visited the Experiment Station last week. While there it was very definitely brought out that treating oats for smut reduced to the minimum the smut damage. Much damage was done to

oats throughout this section last year, therefore all seed oats should be treated before sowing.

The following information is taken from Farmers' Bulletin No. 1583 and recommended for the consideration of Coryell county farmers:

**Treating for Smut**  
 "Smut infection in oats annually causes material losses. At present the best means of controlling smuts of oats is by the use of formaldehyde, which may be applied by spraying, sprinkling, or dipping the seed. In all methods 1 pound of formaldehyde is used to each 50 bushels of oats. If fewer bushels of seed are to be treated, make up a correspondingly smaller quantity of solution. The methods differ only in the quantity of water used and the manner of applying the solution. Regardless of the method used, the seed should be thoroughly fanned and screened before it is treated.

**Directions For Spray Method**  
 "Add 1 pint of formaldehyde to 1 pint of water. This is sufficient for 50 bushels. Put the quart of solution in a hand sprayer (not a sprinkler) and spray the oats while shoveling them from one pile to another. Cover the treated piles with clean sacks or canvas for at least five hours or overnight. Then sow immediately or spread out to aerate.

**Directions For Sprinkle Method**  
 "Add 1 pint of formaldehyde to 40 gallons of water. This quantity is sufficient to treat 50 bushels. Spread the grain to be treated in a layer on a clean granary floor or on canvas. Apply the formaldehyde solution from a sprinkling can while the seed is being turned with a shovel. After treatment shovel the grain into a pile and cover with clean sacks or canvas for at least five hours or overnight. Then sow immediately or spread out to dry.

**Directions For Dip Method**  
 Add 1 pint of formaldehyde to 40 gallons of water. This quantity is sufficient to treat 50 bushels. Put the seed in loosely woven burlap or gunny sacks. These should be only half filled and tied at the top. Successively dip the grain in this solution and drain until the seed is thoroughly wet. Remove the sacks from the solution and let them stand at least two hours or overnight. Then sow immediately or spread out to dry.

The treated grain should not be allowed to come in contact

with bags, bins, or machinery in which there may be smut spores. To avoid danger of re-infection, all containers should be sprayed with the formaldehyde solution before being used for the treated grain.  
 "Surplus treated grain may be fed to farm stock without injurious results, provided it is thoroughly dry and has been exposed to the air for a few days."

# LETTER FROM SENATOR POAGE

By voting an amendment to the Constitution, the people of this state prohibited the open saloon. At the same time the same time the Legislature was given the power, and it became its duty "to define the term 'open saloon' and to enact laws to prohibit the same." On Friday morning the Small bill, defining the term "open saloon," passed the Senate by a vote of 17 to 8. The bill was then sent on to the House to receive final action. The Small bill, as finally passed, defines the term "open saloon" as follows:

"The term 'open saloon' as used in this Act means any place where spirituous liquors or medicated compounds capable of producing intoxication or any intoxicant whatever manufactured in whole or in part by means of distillation or any liquor compounded of or composed in part of distilled spirits is sold, bartered or exchanged, or is offered for sale, barter or exchange in broken or unsealed containers or where such sale, barter or exchange or offer of sale, barter or exchange is made for human consumption on the premises where sold, bartered or exchanged or offered for sale, barter or exchange."

That is, an "open saloon" is any place where distilled spirits are sold by the drinks, to be drunk on the premises. Of course, this definition is not going to satisfy either the extreme wets or the extreme dries, but it sets out what most of the people think of as a saloon. This bill does not attempt to regulate the sale of liquor in unbroken packages. These regulations will be contained in another bill, several of which are pending in both House and Senate. I understand that the House is now working on their regulatory bill, and that they have substituted the Moffett bill, which establishes a state monopoly for the Morse bill, which legalizes the sale of hard liquor by the drink. I believe that before this session adjourns both sides will come to realize that they first agree on an honest and fair definition of the term "open saloon," and then provide reasonable and just regulations for the sale of liquor where authorized by the local will of the people.

There has been quite a bit of attention given to the minor legislative matters. Both the Senate and the House passed a \$200,000.00 appropriation to build a Courts building in Austin. In the construction of which the State is to receive over \$700,000.00 of Federal aid. Dozens of other appropriation bills have been introduced, and I am afraid this session may be the means of again raising all State salaries. Of course, it would be fine if this could be done, but the income of the State has not been increased, and I do not feel that we can at this time embark on a general increase in salaries. The usual bill has been introduced

to raise the judges' salaries, and if passed there will be no just reason denying the raise to all State employees, for certainly the judges are among the best paid at present. I have always believed, and still believe, that the very low salaries should be the first to receive an increase.

The matter of county officers' salaries is still unsettled, and of course, they are all combining with the State employees to get a general revision upward. Some of the fee officers have shown a very fair and helpful spirit, but many of them have appeared before the Legislature with the apparent idea that they were justified in getting any salary they could. These officers are always politically strong, and as people as a whole take very little interest in these salaries, the county officials are likely to get about what they want. I feel they should be fairly compensated, but I cannot understand why they should receive a salary greater than the fees they have heretofore collected.

The House passed a chain store tax, levying a steeply graduated tax on chain stores, increasing as the number of stores increase. This bill is now in the Senate Committee on State Affairs. It seeks to equalize the tax burden of the locally owned store which has always paid a substantial sum in taxes, with that of the foreign owned chain store which generally takes all of its money out of the State and pays very little in local taxes. Of course, this bill has brought a very powerful lobby to oppose it. By coincidence, Hon. Wright Patman was in Austin yesterday to conduct a Congressional investigation into the lobby activities of these chains. Their representatives refused to testify but the Senate Investigating Committee had Mr. Patman before us and discovered that those national chains were spending great sums to defeat any legislation of this kind in Texas.

The old age pension continues to be the most troublesome matter before the Legislature. In the Senate three bills are before a sub-committee, but I can see little prospect of working them into one. In the House a bill was brought out of committee with a tax measure attached, but the House re-referred it with instructions to take the tax off. However, the Attorney General held yesterday that even the Senate might put a tax measure on a pension bill for the purpose of providing revenue to pay the pensions. As I see it, it would be worse than futile to pass a pension bill without a tax measure. I think we are obligated to pass a bill providing at least enough funds to meet the Federal grant for the aid to the needy aged. To do this we must levy some very substantial new tax. Of course, I believe this should be a natural

resource tax, and that at the time we levy this new tax we shall give some relief to the present ad valorem tax payers. I have my natural resource bill which levies a 10 per cent tax on sulphur, oil and gas, and which abandons the ad valorem tax for State General Revenue and public school purposes, ready to introduce as an amendment to any pension measure. I am afraid that the sales tax people are planning to wait until the end of the session and then get the pension bill in a conference committee picked by themselves, and bring out a measure levying a sales tax to pay the pensions and tell the Legislature that we must vote for a sales tax if we are to pay any pension. Of course, you cannot amend a conference report—you must take it as written or leave it. It is an old game and I think a most unfair one, but I do not expect to vote for a sales tax today, tomorrow or the last night. There is something very wrong with any measure that cannot stand any open debate, and if it has to creep in on the last night, I think it better be dealt with as other night prowlers.

W. R. POAGE.

### Presbyterian Church

One good thing follows another. We have just closed a week of preaching by the Rev. John P. Kidd of Austin. Next Sunday is Rally Day in the Church and Sunday School. The week's revival brought a deeper devotion to the membership. Every member of the Church is called upon to show their devotion and loyalty by being present on next Sunday.

Miss Mary Louise Woodson, Director of Religious Education for Central Texas Presbytery, will be with us from Friday until Monday. While she is here, she will help us to strengthen our Sunday School organization, and assist us in the organization of a Young People's Society. The young people of the church will meet at the home of Mrs. Bradley tonight (Friday) for organization and an evening of fun. All the young people of the church are urged to come.

Our program for Sunday starts at 10 a. m. Let each one be present and on time. Each department of the Sunday School will have a part on the program. The theme of the Program is "Growth in Christ." The program includes Installation of Sunday School Officers and Teachers; Installation of Young People's Officers; Talks by the leader, Mrs. R. W. Ward, by Miss Woodson, by the Superintendent, and by the pastor; and consecration of infants by baptism. Parents with infants are asked to present their children for baptism. This will be about 10:30 or 11 o'clock. The program of the morning will conclude with a Congregational meeting to elect officers of the Church. An opportunity will be given for those desiring to place their membership with us.

The public is most cordially invited to worship with us. You will receive a hearty welcome. The worship starts at 10 a. m., with no break in the program. Come and worship with "The Friendly Church."

### Methodist Church

First, next Sunday at 5:30 p. m. tune in on WSM Nashville at 650 and hear the choir sing the new hymns of our Methodist Hymnal just purchased at our church. These hymns all are in the book that the choir will sing.

Second, be present at 7:15 p. m. at the Church to hear the choir render some special features in singing as we begin our autumn work. Thirty minutes of song and worship.

A sermon to follow that will challenge, persuade and convince.

9:45 a. m. General Assembly of all Departments.

10:10 a. m. class work in all sections in new places.

10:50 a. m. sermon by the pastor.

6:30 p. m. our Young People.

7:15 p. m. special choir music.

7:45 p. m. sermon by the pastor on "What Next, America?"

### First Baptist Church

The Apostle Paul wrote: "Bear ye one anothers' burden and so fulfil the law of Christ" —Gal. 6:2. This is our mission in life. Read these lines and worship with us Sunday.

"If any little word of mine  
May make a life the brighter,  
If any little song of mine  
May make the heart lighter,  
God help me speak the little word,

And take my bit of singing,  
And drop it in some lonely vale  
To set the echoes ringing.

"If any little love of mine  
May make a life the sweeter,  
If any little care of mine  
May make a friend's the fleetier,

If any little lift of mine may  
The burden of another,  
ease

God give me love and care  
and strength

To help my toiling brother,"

Sunday School Sunday 9:45 a. m. J. M. Witcher, General Supt. will preside at his first service, honor him and the retiring Supt. L. D. Martin.

The Baptist Training Union Sunday evening 6:15. The intermediates will welcome Mr. and Mrs. Cyril Hudson as new sponsors.

The pastor will preach Sunday morning. Services begin ten minutes till 11 and close ten minutes before 12 o'clock. The word of God will be preached. "God's Title To Me."

The Sunday evening begins at 7:15 and lasts one hour. The Gospel will be preached "The Parable of Building Barns on Earth or Mansions in The Skies."

The Y. W. A. and the Women's Missionary Society meet Tuesday.

Mid-Week Services Wednesday night 7:15.

You will find a Christ like Christ and welcome in all of our services.

EVANT NEWS

After another series of fine rains we are enjoying wonderful days of beautiful sunshine that calls every nature-lover to the great out of doors. The days are also cool and much more pleasant than formerly.

Mr. J. Y. Hamilton and family were enjoying the big circus in Waco last Thursday.

Mr. and Mrs. Cunningham of Comanche were visiting their daughter Mrs. Beckham Guthrie Sunday.

Mrs. Nellie Halley returned to her home after spending a week with her brother Mr. W. B. Preston.

Dr. M. W. Cole and Mrs. Cole and "Sonny" enjoyed the ball game in Lampasas last Thursday night.

Miss Juanita Cox of Quanah, Texas, is here staying with her aunt Mrs. R. C. Campbell and attending school. We're hoping for her a pleasant and profitable year's work, and feel sure she will make many friends while living in our midst.

Bro. O. O. Newton of Pottsville preached at the Church of Christ Sunday at the eleven o'clock hour, bringing a message both inspiring and uplifting. While in our midst, he and his family were guests of Mrs. Betty Christian, and son Emmett Christian, mother and brother of Mrs. Newton.

We are sorry to report Mrs. A. B. Dehart on the sick list this week.

Mrs. R. C. Campbell spent several days last week with her brother Mr. Ben Cox of Star.

Miss Viola Woff has the role of housekeeping for Miss Ollie Preston while the latter is teaching in the public schools here.

After some little difficulty all the members of the faculty are settled for the ensuing school year, with Miss Scott at Mr. R. M. Hill's taking meals with Mrs. Bessie Winters, Misses Mehar and Welch at Mrs. Earl B. Pinson's, and Mrs. Avery with Mrs. Nora Lovelady and Mr. O'Neal at Mr. and Mrs. Geo. Armstrong's, Mr. Carter, Mr. Warren, Mrs. "Dude" Lee and Miss Ollie Preston live in town or near enough to go back and forth.

The professional duties of Mr. Carter have become such that it was necessary to employ a secretary, so Miss Mary Jane Youngblood, sister of Mrs. Lee is serving in this capacity.

NOTES AND NOTICES FROM COUNTY SUP'T. OFFICE

Coryell County Teacher's Institute will convene at 9:30 a. m. October 26. This meeting will be held in the high school auditorium. School organization and operation will be the general theme.

Deputy State Superintendent Ercell W. Brooks and Mrs. Henry Maxwell of Waco will be present to advise with Coryell County school people.

Teachers are required by law to be present. Trustees are welcome and will be appreciated. The full program will be published later.

Twenty three of Coryell county's best schools are running at this date. Sixteen others have reported opening on the seventh of October. Those opening later must close May 29 or June 5th if an eight month term is had. All contracts filed to date call for an eight month term.

School budgets will be sent to the State Department by Wednesday of next week. State aid applications which must be signed by trustees will be mailed by Saturday, October 12. Trustees not signing applications by this date endanger their state aid.

Many schools have been unusually agreeable in filling out that eight months' term may budgets. These schools are willing to cooperate every way so be had. A few boards who are composed of good men, want all that can be had meaning to spend it some way. The latter idea is a wrong one and will call for a general shortage in state aid funds.

The interest manifested by the patrons and students of Coryell County is wholesome in its trend this year. There seems to be a general demand for standard or accredited work. Coryell county is now operating twenty-six buses. Which means that almost all high school pupils are able to reach some accredited or affiliated school and yet be at home each night. In this matter it is impossible to arrange for students to go to special schools without their paying their own way. Cooperation among school people will make a good system throughout the county.

There hasn't been a world series without a home run since the war. In 1918 neither the Cubs nor Red Sox could find the fences, but since then there has been at least one circuit clout in every autumnal classic.

TRANSFERS FROM DOLE IS GOING RAPIDLY

San Antonio, Sept. 30—With several thousand Texans already transferred from the dole to creative labor, Works Progress Administration officials today were preparing to cut still deeper into the diminishing relief rolls of this state with the release of work authorizations for thousands more during the coming week.

Although 5,530 former relief clients have been assigned to projects by WPA, officials stated that other work orders have been mailed to the districts and estimated that many more will be at work by the end of this week.

Cheered by President F. D. Roosevelt's approval of \$3,990,134 for expenditures in Texas, state WPA officials were confident that many millions more will be flowing into the state to provide more jobs soon. To these federal allocations local sponsors will add \$1,135,309 for completion of the work.

Flood damage repair jobs, recipient of first federal approvals for Texas, have been started in more than a score of localities and allotment of the final portion of this \$300,000 allocation will be made shortly. It was on work of this nature that the first group of laborers last week were automatically removed from the dole by receipt of their first checks in Sweetwater.

News of federal approval of the \$30,500,000 Brazos River flood control and water conservation project, which contemplates the construction of thirteen flood control dams and reservoirs on the 900-mile long river, had prompted sponsors to seek land for initiation of the job which reposes to provide jobs for thousands of laborers in several Texas WPA districts.

TWO YOUTHS ROB RAIL STA. AND ARE ARRESTED

Italy, Sept. 27.—While A. W. Dinsmore, local agent for the M.-K.-T. Railway Company, was at lunch, two youths broke into the office and robbed the cash drawer of \$6.94. Upon his return to the office he discovered the burglary and after notifying the local officers drove south about three miles and found the boys in hiding by the roadside. They readily admitted their guilt and turned the money over to the agent. Upon his return to town he notified the officers, who went out and arrested the pair, aged about 16. They were transferred to Waxahchie.

## Hornets Play Lampasas This Afternoon at 3:30

### THE TWO TEAMS HAVE WON THREE GAMES EACH AND TIED ONE SINCE 1928.

By TED HARRIS  
News' Sports Editor

This afternoon at 3:30 p. m. on Hornet Field between 500 and 1000 football fans are expected to witness the rivalry of the Lampasas Badgers and the local Hornets. In the last few years this annual classic has become more or less a grudge fight. Since 1928 the teams have met every year and the total victories stand at three each with one tie.

Getting off to a poor start, suffering a 39-to-0 defeat at the hands of the M. E. Home, and a 13-to-6 defeat by the Hamilton squad, the White and Blue clad Lampasas team will be on hand this afternoon trying to spoil the fast diminutive Hornets' football playhouse.

Data on the two teams of size, weight and experience, we find that Lampasas has the upper edge. Slow, but with plenty power, and mediocre aerial attack, the Badgers should be ready for many stings from the fast locals.

Coach Earle Worley with his assistant Maurice Ewing have been putting the boys through the mill this week, ironing out the kinks with strenuous scrimmaging practically every day. The Hornets came through the game last week with but few minor injuries, and the entire squad with the exception of Francis Rutherford is ready for the contest.

Probably starting line up: Lampasas; Hunter and Hammett at ends with Berry to replace either when needed; Sullivan and Harwell, tackles with Landrum, Williams and Hendrix in reserve; Patterson and Montgomery at guards with Palmer, Sewell and Briggs reserves; Feild at center with Fumlinson for new strength; Waldrop, quarterback; Bub Perry and Jones halves; McEver or Moses at fullback. Smith and Witten could be used to rest the above men at intervals.

Gatesville: Clark and McDonald at ends; Myers and V. Adams or Brown, tackles; Chapman and Lowrey guards; Royce Davis center; "Sonny" Hair quarterback; Byrom and Dickie, Hall or Colgin at halves; Culberson fullback.

This afternoon the locals will meet a rival team since 1928, each winning three games with one tie. It will be a much harder game for the Hornets than the game of last week, and if old man luck isn't with them, you might as well count on a "licking." So boys toss your shickles and pick your team, it's a toss up.

In a letter from Coach Jenkins of McGregor, we find him very pessimistic, as well as not getting his eight hours of sleep. I believe I am correct when saying the McGregor Bulldogs will not have to "shoot the works" tonight to defeat the Clifton Cubs, however a good game is promised.

The college game this week holding the spotlight is the contest in Tyler between the A. & M. Farmers and Coach Pop Warner's feathered tribe of Owls from Temple University. Being played Saturday afternoon during the Rose Festival 15,000 fans are expected to witness the game. Pop Warner is a native Texan (cross your fingers) Jinx Tucker made that statement. Pop's team, after traveling the many miles, is doped to defeat the Farmers, but not as bad as they did last year.

Local fans who have not bought a football sticker, expressing their support of the Hornets and want one, may see

Hazen ment or Grady Dickie.

Coach Earle Worley stated yesterday that a Captain for the 1935 Hornets had not been elected, and Dave Culberson would probably act as Captain again today. Harold Chamlee, better known as "hot man" has been appointed Manager of the local club.

### McGregor Bulldogs to Play Clifton Cubs on Wood Field Tonight

McGregor, Oct. 3. (Spl.)—Under the lights, described as the best in Central Texas, the McGregor Bulldogs meet their first conference foe in the Clifton Cubs. Interest in the lights will be secondary to the interest in the outcome of the game. Clifton brings a good team that has hopes of going far in the chase for the district championship. McGregor offers a greatly improved squad of fighting Bulldogs. Between the two teams there is little to choose according to the dope. In this immediate territory the strength of both teams is unknown. McGregor is expected to show to advantage before a home crowd. It is tradition that a team must be vastly superior to the McGregor team if it takes the Bulldogs measure on Wood field.

McGregor expects the Clifton Cubs to take to the air early and often in the game. It is with this expectation that the Bulldogs are working overtime each day to form a tight defense against the aerial game.

The Bulldog's own aerial game is being brushed up, and special emphasis will be made in practice on a wide-open attack. McGregor's backfield is new but sturdy, and may be expected to match the backfield play of the Clifton team. The line is also becoming steady after a shaky start. The play of the whole team in the Belton game was good enough to revive hopes in the breast of the weakest Bulldog fan.

By way of comparison, this year's McGregor team does not boast of the straightaway strength of last fall, but plenty of strength was shown in making six first downs against

a highly rated Belton Tiger team.

Two lettermen are turning out for the team this fall. The team is new from end to end and back to back. However, much hard work was put in in spring practice. With a squad of approximately twenty men, the Bulldogs cannot hope to have much reserve power. Thirteen men played the entire Belton game.

In fact, if the Bulldog's retain their present condition, the coach is planning on getting three hours of sleep the night before the game, instead of his usual two hours.
