NUMBER 91

MULE-COLT SHOW ATTRACTS 65 ENTRIES MON.

MRS. ELBERT SLOANE DEM. COMM-WOMAN ATTENDS MEETING

Mrs. Elbert Sloane, member of the State Democratic Executive Committee, represented this district at the session which was held in Mineral Wells Monday, November 7th. This was the first meeting of the committee since election at the Beaumont convention in September.

The general purpose of this meeting was to appoint standing committees for the next two years. The arrangement which was made by the committee of a proposed indorsement of Vice President John Nance Garner for the President in 1940 was of state-wide interest to the people.

Other supporters of Governor-nominate W. Lee O'Daniel who joined Mrs. Sloane were Mrs. L. K. Stephens of Waco, Mrs. R. T. Watson of Hillsboro, and another committee-woman from Corsicana whose name we did not learn.

CONGRESSMAN LEAVES TO ATTEND BRAZOS MEETIN

Congressman W. R. Poage left Saturday afternoon on the Texas Special for Washington where Tuesday, he with Senators Tom Connally and Morris Sheppard and other congressmen whose districts are included in the Brazos river flood control project will confer with Harold Ickes, secretary of the interior, and PWA administrator.

Object of the conference is to induce Ickes if possible to make an allocation of PWA funds totaling \$28,000,000 for 'Possum Kingdom dam and six other dams. The additional sum sought for 'Possum Kingdom dam project is \$1,500,000 for the purchase of more land, power machinery and transmission lines.

According to Poage, the initial allocation for 'Possum Kingdom, \$4,500,000 came from WPA sources. Nothing yet has been allotted by the PWA authority he said.

MORTON SCOTT'S IS OUT TODAY; IT'S A NEW FURNITURE JOB

Somewhere, some time today, you are going to come in contact with Morton Scott, house furnisher's new circular, which we understand was mailed out today.

This circular gives a line on the many bargains, which begin with entire roomfuls, and go on down to the smallest throw rug, and many other items of quality merchandise are offered.

If you ain't got one; get one! Get this circular, read the circular, and see the offerings at Morton Scott, House furnisher.

Mrs. C. B. Braden spent last Wednesday in Hamilton.

HOME ECONOMICS CLASS ATTEND BELTON MEET

Thirty-eight of the Home Economics class and members of the Home Makers Club in the chapter from Gatesville attended the first meeting of the Area Five Future Home Makers Club which was held in Belton Saturday, Nov. 5.

There are 99 schools in area five but only 55 of them were represented at this meeting, and only 38 chapters were represented.

From ten to three-thirty o'clock all the girls were entertained with a program. Plans for a possible camp site at Buchanan Dam for the Future Home Makers of Texas were approved.

Officers were elected for the entire area. Miss Anna Mae Perryman, president of the Gatesville Future Home Makers club, was elected vice president of the area organization.

At 3:30 in the afternoon 575 girls were entertained with a tea which was given by the Mary-Hardin Baylor College girls.

MRS. RUTH CARLTON NOW OPERATING BOARDING HOUSE

At her home on East Main street, Mrs. Ruth Carlton is now operating a boarding house, and we are told, there are plenty of good, well cooked home meals awaiting your —well, you can really go there and get filled up.

You can get your meals by the "each" or by the week, month or however, we are also told.

SCOTT'S NEW HACK IS CALLED TWICE MORE

Answering to two more calls, Morton Scott's new Meteor La Salle ambulance carried Mrs. Loyd Riddle to Mosheim, and Mrs. John Dudley and baby girl to McGregor from the Milton Powell Memorial Hospital.

Mr. Scott makes "long" as well as short hauls and, it seems, has been specializing in the "longs."

In all, the hack has hauled five, in answering three calls, and it is said there are still two more due.

CITY "CRACKING DOWN" ON TRAFFIC LAW BREAKERS

A little statistics from the city, shows the city is cracking down on traffic violators, according to City Secretary Eiland Lovejoy, who says, besides this, there is nothing new at the city hall except his new "scar". He's just now recovering from a recent operation for appendicitis.

Back to the traffic. There have been ten arrests or "tickets" passed out for running red lights, 10 for speeding, 2 for making U-turns 1 for running with cut-out open, and one for blowing one of the "fancy" horns.

We folks would do well to watch our steps, as there are plenty of "red" tickets left.

HOMER KELSO STARS IN "SILENT" GAME WITH COMANCHE

Homer Kelso, fullback for the Texas School for the Deaf at Austin, was one of the outstanding stars in the Comanche - Texas School for the Deaf, game being in Comanche Friday a week ago.

Young Kelso is the son of Mrs. Zada Kelso, and accompanied by Mr. and Mrs. Ernest Draper, and Lynn Jones, an alumnus of the school, these folk saw the game in Comanche.

MARKETING QUOTA TO BE DISCUSSED ON '39 FARM PROGRAM

Cards are being mailed by J. B. Roach, secretary treasurer of the Coryell County Agricultural Conservation Association, announcing a series of meetings to explain the 1939 Farm Program and Marketing Quotas as follows: all of these meetings will be held at school buildings except the Whitson meeting which will be held in the W. O. W. hall:

Oglesby, November 14, 3:30.
Pearl, November 14, 7:30.
Maple, November 14, 7:30.
Flat, November 15, 2:30.
Coryell City, November 15, 7:30.
Turnersville, November 15, 7:30.
Jonesboro, November 16, 7:30.
Pidcoke, November 16, 7:30.
The Grove, November 16, 7:30.
Purmela, November 17, 2:30.
Copperas Cove, Nov. 17, 7:30.
Harmon, November 17, 7:30.
Ewing, November 17, 7:30.
Whitson, November 18, 7:30.
Antelope, November 18, 7:30.
Gatesville, Nov. 19, 2:30, in the Dist. Court room.

VOTE! IT'S YOUR SAY TODAY. VOTE!

Between early this morning, and late this evening, you go vote!

We shouldn't have to remind you, but of course, we may have to be reminded ourselves, and while we think of it, we'll again remind you.

This is "mass voting" because, "who" you vote for, doesn't make much difference, but the big idea is a large vote, so that when the presidential election comes around in 1940, Texas will have more convention votes or delegates, which are given on the basis of the number of general election votes this year.

So, go VOTE.

"AGENTS" GO TO HAMILTON FOR FOUR-COUNTY MEETING

County Agent Guy Powell and County H. D. Agent Sidney Gibson go to Hamilton today where they will attend a "Whole Farm Demonstration" which will be attended by agents of Hamilton, Bosque, Lampasas and Coryell counties.

T. R. Timms, extension economist in Farm Management, and Louise Bryant, extension specialist in Home Management will be the principal speakers.

According to Miss Gibson, the "Whole Farm Demonstration" includes the entire farm, and all the work done by both the county agent and the county home demonstration agents.

GRADE OF ANIMALS IS ABOVE PAR; MANY SIGHTSEERS

Sixty entries in any county mule and colt show is excellent, but Coryell County is an exception. Bad weather yesterday kept many of the exhibitors and their colts away. The sixty entered yesterday were of a much better grade than is the usual experience of the judges of horse and mule flesh.

Taking the Champion Draft Horse prize, was the horse owned by O. W. Baker of Gatesville, and a ribbon was presented by the Texas Horse and Mule Association and a halter by Tom Padgitt Co, of Waco, one of the largest harness and saddle manufacturers in Texas.

Champion Light Horse and the Grand Champion Horse of the show was exhibited by Eustace Harris of Levita-Purmela community.

FURTHER STATISTICS ON MOUND SCHOOL WPA JOB

Here's some more facts and figures on the Mound School Project. The sponsors contribute \$10,200 and the WPA's part is \$23,933, making the total \$34,133.

The work includes in the school building, 4 class rooms, an auditorium and stage, a combination office and library, a storage room, and two toilets.

The entire building is to be built of sawed native stone, the rock work to be similar to that of the buildings of Neff Park.

Ground improvements include a playground ball field and a soft ball field, 2 tennis courts, one of these to be a combination volley ball court, and will be lighted.

The entire school yard will be enclosed with a stone wall and appropriate entrances and walks. Secrest and Shingle, local engineers are handling the project, and W. N. Noonan of San Antonio was the architect.

School officials who examined the plan said that when completed the school plant would be the most modern school plant in Texas.

MANAGERS OF PERRY BROS. STORE HELD MEETING HERE SUNDAY

Managers of the Perry Brothers' Stores of this district met in this city Sunday, November 6, for a general store meeting which is held annually.

Following luncheon at a local hotel, participated in by the several managers and their wives, the meeting proper was held at the local Perry Brothers store of which Howard Franks is manager.

Those attending were Mr. and Mrs. Bruno Kapycinski of Brenham, Mr. and Mrs. John Herring and children, and Bill Anderson of Stephenville, Mr. and Mrs. Robert Baker of Comanche, Mr. and Mrs. Dale Waldrop and son of Belton, Mr. Sheffield of Georgetown, Mr. and Mrs. Ned Chapman of Hamilton, Kirk Bennett and Mr. and Mrs. Howard Franks of Gatesville.

Mr. and Mrs. Vernon Perry and family of Round Rock are here visiting Mr. Perry's mother, Mrs. George Perry, who is sick this week.

Dagmar Wiggers, famous Danish writer, recently visited Treasure Island in San Francisco Bay and pronounced it the ideal site for the 1939 Golden State International Exposition.

nity. The prizes in this division were the same.

Champion Mule was exhibited by Roy Flemming, Gatesville, Rt. 2, and the halter and ribbon were also awarded these.

The Chamber of Commerce furnished one of the halters awarded during the show.

SOCIETY

Thursday Night Club Entertained Thursday

Members of the Thursday Night Club were entertained by Judge and Mrs. Floyd Zeigler at their home on Saunders street Thursday evening.

In games of bridge Dr. and Mrs. John Thomas Brown won high score prize.

Delicious pie and coffee were served to these members: Mesdames and Messrs. Johnnie Bradford, Billy Nesbitt, Rosser Saunders, Jack Odell, John Thomas Brown, and Billy Thomson.

Mrs. Floyd Zeigler Hostess to Club

Mrs. Floyd Zeigler was hostess to members of the Wednesday Contract Club Thursday afternoon

at her lovely home on Saunders street.

Mrs. Jim Brown and Mrs. Billy Thomson were awarded high and second high score prizes, respectively.

After the games of bridge had been enjoyed, the hostess passed a salad plate to the following: Mesdames Billy Thomson, John Thomas Brown, Jim Brown, Peyton Morgan, Doyle Morgan, Kirby Perryman, Charles Powell, Robert Scott, Jack Odell, Johnnie Washburn, Dean Jones, and Miss Grace Richards.

Mrs. Hill Entertains Jolly "42" Club

At her home on east Main street, Mrs. Jess Hill entertained members of the Jolly 42 Club Thursday afternoon.

Red radiance roses and yellow chrysanthemums were used as decorations. Tiny United States

flags were given to the guests as favors to help carry out the Armistice Day motif.

At the conclusion of the games, a salad course was served to the following: Mesdames Roy Chamlee, Frank Woodson, Sam McCreary, George Strickland, Robert Oldham, J. J. Wallace, and the hostess.

Mr. and Mrs. English Entertain With Party

Mr. and Mrs. J. D. English entertained their friends with an 84 party at their country home on the Georgetown road Friday evening.

Marigolds and other autumn decorations were used thruout the party rooms. The guests were served chicken salad and hot coffee at the conclusion of the games of 84.

The guest personnel included: Mesdames and Messrs. Bird Hair, Ed Schloeman, Lyman Yates, V. C. Ray, Rosser Saunders, Arthur Schloeman, Will Powell, Edgar Franks, Jeff Bates, John Voss, and Harmon White, and Mrs. Tom Davidson.

Mrs. McGregor Hostess To E. C. W. Club

Members and guests of the E. C. W. Club were entertained Friday afternoon by Mrs. Charles McGregor at her home on east Main street. Yellow chrysanthemums and rosebuds were used for decorating the home.

High score prize was awarded Mrs. Elmo White, after which the hostess served chili, coffee, and candy to those present.

Guests present were Miss Vera Sams and Mrs. Charles McGregor Jr., and members included Mesdames Gerald Wray, A. T. Ray, Richard Dickie, E. E. McAllister, Elmo White, and the hostess.

Morris Alexander Married Saturday to Mr. Kennedy

Simple decorations of white chrysanthemums and ferns in the First Methodist Church gave the background for a wedding of interest and charm Saturday at 5:30 p. m. when Miss Morris Alexander, daughter of Mr. and Mrs. W. B. Alexander of Temple, was married to David William Kennedy of Houston.

Tapers in tall candelabra furnished the light. A musical prelude before the ceremony was played by Miss Ruby atherine Barchard at the organ and Miss Alice Baldwin sang the wedding songs, "Because," and "I Love You Truly" before the wedding party approached.

Rev. B. B. Blaylock of Dallas, former Temple pastor, officiated at a single ring service, as Miss Burchard played softly on the organ.

The bride was given in marriage by her father. Her wedding dress was of hyacinth blue slipper satin fashioned Empire style with a full waist by a cord of the same material, short puff sleeves, and circular skirt.

The plain neckline was relieved by a strand of pearls, gift of the bridegroom. A hyacinth blue veil showered over her shoulders to her waist from a bandeau of satin.

She carried a fan shape bouquet of orchids and lillies of the valley and wore elbow length white kid gloves.

Mrs. Walter Huckabee Jr. of Carrizo Springs was her only attendant. She wore a cerise satin gown made similarly to the bride's dress with bandeau of the material and carried a colonial bouquet of Johannah roses.

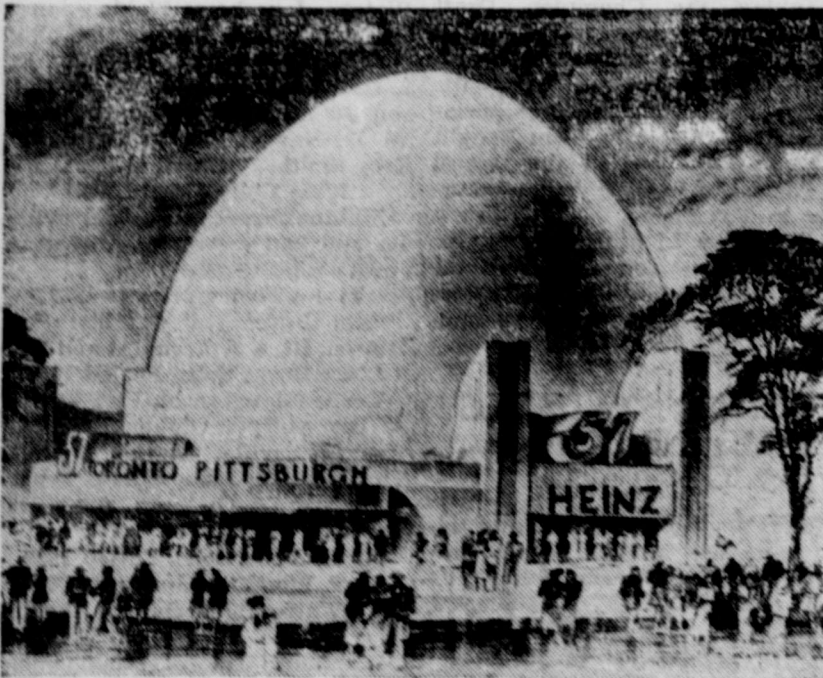

Miss Baldwin was in wine velvet with single dahlias at her wrists and Miss Burchard in purple velvet.

Henry Alexander, brother of the bride, served as best man and ushers were Alebert Flint Jr., Curtis R. Kuschke, Tillman Bond, and Walter Huckabee Jr. of Carrizo Springs.

A reception for the many out-of-town guests, the wedding party and a few close friends followed at the Alexander home. Serving were Mrs. E. W. Jones Jr. of Gatesville, Mrs. Henry Stone of Waxahachie, Mrs. Rufus McKinney of Goldthwaite, Miss Mary Frances Cox, Temple, and Mrs. C. A. McGee of San Antonio.

Jeffrey Ann McKinney, Goldthwaite, and Joe Lynn McGee of

New York World's Fair Honors Its First Completed Exhibitor's Building

NEW YORK, October 15—Flags of the great nations were raised over the New York World's Fair today when the first of the exhibitors' buildings were completed. It is a huge dome, towering 90 feet and 150 feet in diameter, and will be occupied by H. J. Heinz Company.

Grover Whalen, president of the Fair Corporation, members of his staff and others were the guests of Howard Heinz at a luncheon at the Terrace Club, Fair Grounds, after the party had inspected the building.

"We enlarged our plans when we reached the conclusion that this would be the greatest fair in history," Mr. Heinz said in an informal address, "and we agree with Mr. Whalen in anticipating an attendance of at least 60,000,000. It is logical to expect improvement in general business and this feeling is justified by barometric statistics. More employment and larger incomes will assure the success of the Fair, especially since it is being directed by such an able and energetic man as Grover Whalen.

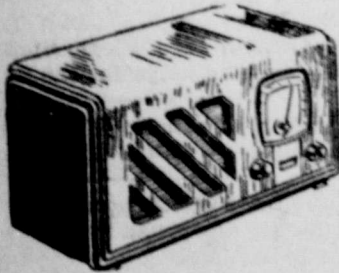

Mr. Whalen, in response, said: "I feel certain it would be impossible to find a community any-

where in the world that is not familiar with the name Heinz and the numerous and diversified products bearing that long-established name. For this reason, the presence of the Heinz organization in the Fair adds, in a way, to its international character.

"The statement of Mr. Heinz that his company is calling upon all its experience to produce an attractive exhibit at the Fair is all the assurance anyone would need that the exhibit is to be unusual, distinctive and memorable in every way.

Heinz dome, resembling a beehive, is in harmony with the theme architecture of the Fair buildings, most strikingly developed in the already famous perisphere and trylon. It is supported by nineteen columns, arranged in symmetrical lines. Startling lighting effects have been devised and the curvature of the interior will be flooded with light by the use of fluorescent tubes. Twenty thousand square feet of floor space are crowned by the dome, which has been treated with acoustical material. Part of the building will be air-conditioned. Exhibits will be as unique as the structure that houses them.

COMANCHE MARKETS NEARLY 8 MILLION POUNDS PEANUTS

(Comanche Chief)

There had been weighed at the Denny Cotton Yard approximately seven and a half million pounds of peanuts this season up to Tuesday, C. F. Denny, public weigher, said. Peanuts are still coming in and the eight million pound mark is expected to be reached this

THE AWFUL PRICE YOU PAY FOR BEING NERVOUS

Quivering nerves can make you old and haggard looking, cranky and hard to live with—can keep you awake nights and rob you of good health, good times and jobs.

What you may need is a particularly good woman's tonic—and could you ask for anything whose benefits are better proved than famous Lydia E. Pinkham's Vegetable Compound? Let its wholesome herbs and roots help Nature build up more physical resistance and thus help calm your shrieking nerves, give more energy and make life worth living again.

More than a million women have reported benefit—why not let Pinkham's Compound help YOU, too, to go "smiling thru" trying times like it has other grateful women for the past 3 generations? IT MUST BE GOOD!

Coryell County News

ually styled. Both are of compelling beauty. Both have hydraulic brakes.

Introduction of the new Fords climaxes a year of activity which saw the company embark on its current plant expansion program, bring out its entirely new Mercury 8, and establish the Lincoln-Zephyr still more firmly as the acknowledged style leader in the automobile industry.

The DeLuxe Ford V-8, with wholly new streamlines, has a distinctive appearance of its own. At the same time, both it and the Ford V-8 share a family likeness with the Lincoln-Zephyr and the new Mercury 8.

The DeLuxe has a deep hood with long lines unbroken by louvers, low radiator grille in bright metal, and wide-spaced head lamps set into the fenders. The words Ford DeLuxe, in script letters of chrome, are divided at the front of the hood. The hood handle is concealed in a vertical extension of the radiator ornament.

The 1939 DeLuxe is powered by an 85 horsepower V-8 engine of even more rugged construction than the 5,000,000 already in use. The Ford V-8 is offered with the same engine as the DeLuxe or with the economy 60 horsepower V-8 engine.

All Ford cars are now equipped with hydraulic brakes. Pedal action is exceptionally easy, and the brake shoes work in 12-inch cast iron drums with a total of 162 square inches of braking lining for quick stopping and long wear.

The bodies are of all-welded steel construction, and are fitted with safety glass throughout. They have clear-vision ventilation and ventilating windshield. All body types have large luggage compartments.

Both the new Fords have the

modern gauges, glove compartment, grille for radio speaker installation, cigar lighter, ash tray, choke, throttle and other controls well grouped on newly-designed instrument panels. Both have head light beam control operated by the touch of a toe, and a beam indicator on the panel. The DeLuxe also has a new instrument that shows at a glance the strength of the battery.

Proved Ford engineering features are continued in the new models. These include the center-poise ride which allows passengers to ride between instead of over the axles. The springs are of chrome-alloy steel, and are of the transverse cantilever type. All Fords also have four double-acting adjustable shock absorbers. They have rigid deeply-channeled frames reinforced with x-member. Wheelbase for both Ford V-8 and DeLuxe Ford V-8 is 112 inches.

The DeLuxe Ford V-8 is available in five body types: Tudor and Fordor sedans, coupe, convertible sedan and convertible coupe.

A VERY GOOD RAIN IN EVANT SECTION

(Four County Press)

A slow rain began falling Thursday morning about 4 o'clock and a very good rain fell which was much needed, and folks, including stock-farmers and everyone else could welcome more.

EVANT-BEE HOUSE ROADBED WIDENED

(Four County Press)

The Highway Department is surveying for the widening of the Bee House road leading into old Highway No. 7. This county contract under Commissioner H. E. Preston calls for 30-foot right of way in order to insure a longer driving division. This is just a widening of the present road.

\$120,000 PAID BY ONE FIRM IN COMANCHE FOR PEANUTS

(Comanche Chief)

Last week, \$60,000.00 was paid for peanuts here stored in the warehouses for the Southwest Peanut Growers Association according to H. Burks who said that a total of \$120,000.00 would be paid here within the next few days by the association to growers for the peanuts already in storage.

There are five other concerns buying peanuts in Comanche and this does not take into consideration the peanuts they bought amounting to thousands of dollars. Peanuts continue to come here from distant points.

COMANCHE COUNTY PEANUT THEFT ARRESTS MADE

(Comanche Chief)

James and Fane Smith of Gorman were arrested Friday morning by Sheriff Wid Spivey and Deputy Perry St. Clair for peanut theft. Fifty-five sacks of peanuts stole from Ed Foote of Duster were recovered when the arrests were made.

James Smith was placed in the Gorman jail under guard Friday morning while Fane Smith showed local officers where the stolen peanuts were hidden. While the Comanche officers were regaining these peanuts and making other arrests in the case, Sheriff Spivey reports that Clifford Eison, also wanted for peanut theft, held up the Gorman jail guard and forced him to release James Smith.

Neither James Smith nor Clifford Eison have been caught since the jail break.

Floyd Eison, a cousin of Clifford Eison, was arrested Friday afternoon for peanut theft, and made bond. A third Eison, a brother of Floyd, was arrested and is being held in the Eastland County jail, for the transportation of the jail breakers from Gorman to Eastland.

Fane Smith is being held in the Comanche jail.

The Republic of Ecuador has announced a special postage stamp issue commemorating its participation in the 1939 Golden Gate exposition.

Full grown trees were planted at the rate of 50 a day to beautify Treasure Island for the California World's Fair.

Hornets rest 'til Armistice!

On that day, it'll be another story, but what the story will be, we'll let the smart guys figure out!

Crawford-Hornet "B" game fell thru. Too much water, Crawford said. Don't think anyone worried about it much, anyway.

Now that we got hopped up over 6-man, there's a rumor in these parts that the 6-man is all over, due to a squabble. We don't know their rules—they made them, themselves—but we have heard, yes, only heard, none of them were kept. However, that's neither here nor there. The bad part of the entire difficulty is **THERE WON'T BE ANY MORE 6-man**, at least between some teams.

Seems like they need a "czar", "kingfish" or something, but then, that wouldn't do any good, unless there were forfeits or something, to force the wrong side to "get right."

Hamilton has an impressive record, as to scoring, but, as to who they scored on, that's different. We don't think so much about the majority of their victims—those they made the most on. Some of the others, against whom they did not do so well, never had too much team.

We're still with the Hornets, and will take them in the Armistice battle—if they'll think—and play, which we think and pray, they will!

Basketball is already starting in this county with Jonesboro, Ireland and some of the other clubs, such as Pearl already "tromping the boards."

'Case we don't get to it this week end, the SWC has the following games: Baylor vs. Loyola, at Los Angeles; Rice vs. A&M at the "station;" TCU vs. Texas at Fort Worth; SMU vs. Ark, Dallas. So it's going to be quite a week end.

ARNETT NEWS

Mrs. Archie Necessary who has been ill is better at this writing.

Johnnie Bell had the misfortune of getting shot through the hand but is resting at report.

Pete Hall of Port Arthur visited his parents, Mr. and Mrs. Charley Hall, over the week end. He was accompanied home by Mr. and Mrs. Woodrow Hall, who will visit in that city with relatives.

Miss Vondell Turner of Waco spent the week end with her parents, Mr. and Mrs. Emmitt Turner.

Miss May Pearl Taylor, nurse in Veteran Hospital, spent part of the past week with her mother, Mrs. W. O. Taylor.

Woodrow Hall, who has been working in the west, has returned home.

Mr. Arnold Neutzler of Baileyboro visited relatives and friends here over the week end.

Rev. Loper, Baptist pastor, filled his regular appointments here Sunday.

Miss Mildred Morse, primary teacher here, spent the week end with her parents, Mr. and Mrs. Charley Morse.

SOCIETY

Marriage of Mildred Grant Announced Friday

Miss Willie Frances Johnson entertained at the home of her sister, Mrs. J. M. Pancake, on west Leon street Friday evening with a surprise announcement party and shower for Miss Mildred Grant, who was married April 16 to M. H. Shepherd Jr. in Stephenville, Texas.

A color scheme of green and

pink was carried out by the hostess. For decorations she used yellow chrysanthemums, red roses, and September daisies.

Each guest wrote a suggestion for the bride, the last being one which told her to look a certain place where she found many lovely and useful gifts.

The table was laid with a lace tablecloth with a miniature bride and groom on the reflector. Refreshments of hot tea and cake were served to the guests. On each plate a scroll was placed, reading "One day not long ago, Mildred

and Skeet were married you know, April 16, 1938."

Approximately twenty guests registered in the bride's book.

V. O. Wrights Entertain With "84" Party

Mr. and Mrs. V. O. Wright entertained at their country home Friday evening with an "84" party.

Refreshments of candy, apples, and popcorn were served to eight couples.

Callers were Rev. Carroll Chadwick of Oglesby and Miss Kate Wilson of Lorena.

Betting on horse races is now legal in 22 states.

The cat is believed to be the oldest pet of mankind.

MANSFIELD
Tires!

TIRES FOR EVERY SERVICE

The extra mileage that Mansfield Tire users have received during the past twenty-five years has been responsible for the fact that the Company has grown steadily until it is now one of the six largest producers in the tire industry. Mansfield distributors dot the continent from coast to coast.

Mansfield Mudders

Designed and built to do just what their name implies — take you through the mud, slush, snow on any type of road, on their wide angled, heavy cleated treads.

Mansfield Cushion Balloons

Today's cars — built for small diameter wheels and low air-pressures — need special tires for high speed service. Mansfield Cushion Balloons bring out all the sparkling performance built into modern cars.

● There's a Mansfield Tire built to give extra mileage and extra safety on any make car or truck you drive — on any kind of work, in any season of the year, over all kinds of roads. That's the reason we are stocking them, yes, and selling them to your friends and neighbors who already have had the opportunity to see the extra safety, economy and performance of Mansfield Tires.

THREE WAYS SAFER

Mansfield Tires are three ways safer because they are built three ways differently from other tires. For instance, Cord-Lock construction puts 31% more full weight cord fabric into the sidewalls, reinforcing the tire against flexing strains. The high tensile, steel piano wire beads are seven times as strong as actually needed. Mansfield treads are made of tougher Duro-mix rubber, today still more resistant to high speed wear and pavement "burn" from fast starts and quick stops. Every Mansfield Tire gives you more mileage than you pay for.

WORK PROGRESSING ON COLORADO BRIDGE

(Goldthwaite Eagle)
The long, dry spell has hurt the county in many ways, but it has proved a blessing to workers on the Colorado river bridge who have been able to work uninterrupted for nearly three months. Concrete is being poured steadily and the relief bridges on each side of the river are practically complete. One of the big concrete piers is due to be finished within a few days. No piers will have to be built in the bed of the river.

MUCH TERRACING IS GOING ON THIS FALL

Farmers in the Gatesville area have taken advantage of the unusually favorable weather this fall for terracing construction. From three to seven terracing rigs have been in continuous operation during the entire fall season. All of these terracing outfits are privately owned. On farms cooperating with the Soil Conservation Service at the Gatesville camp, this equipment has already constructed 70 miles of terraces this fall which are controlling erosion on approximately

1345 acres of farm land, making a total of 285 miles of terracing protecting 5266 acres to date. At the present time most of these rigs are still operating in the Gatesville, Coryell City, and the White Hall communities; and before the end of the present season it is anticipated that considerably more work will have been completed. Farmers who have constructed terrace systems on their farms this fall should realize the importance of their investment and immediately complete all ends and fills in order to put their fields in condition to withstand erosion this winter. Proper methods of cultivation and maintenance of terraces must be given first consideration in order to receive the most complete and satisfactory protection from erosion.

In addition to the 5,266 acres of cultivated land in the camp area protected by terracing, strip cropping, contour tillage and crop rotation, 7,626 acres of additional crop land less severely troded is protected by a combination of strip cropping, contour tillage and crop rotation. Approximately 5600 acres of small grain has been planted in strips to date to help protect approximately 1,300 acres of cultivated land on 121 farms. Approximately 95 per cent of all strips are now planted with the remaining 5 per cent to be planted in summer strips of millet, cane or sudan.

The massive Elephant Towers flanking the main entrance to the 1938 San Francisco exposition will be finished in gold and crimson colors.

MISS NELL ROUTH HONORED BY STUDENT BODY

Denton, Nov. 4—Miss Nell Routh of Gatesville was voted counselor of Austin Hall, sophomore dormitory at Tex. State College for Women, in a recent election of student officials. She will assist the house president and other counselors in house duties. Having sophomore classification, Miss Routh is doing her major work in kindergarten-primary education. She is the daughter of Mr. and Mrs. Elmo Routh.

PIE SUPPER AT NEWLAND SCHOOL

There will be a pie supper at Newland school (Fort Gates) Friday night, November 11. Benefits will be for purpose of buying playground equipment. Everybody is invited. C.C.N. Oregon farmers are "earmarking" calves, lambs and other livestock to finance their trips to the 1939 Golden Gate San Francisco exposition.

The SNAPSHOT GUILD
"OFF-GUARD" PICTURES

For more natural pictures, catch subjects "off-guard"—unaware of the camera.

MOST people like to have their pictures taken. In fact, they like it so well that when they see the camera they put on a special "picture expression." And as a rule this special "picture face" isn't what we want at all.

There's a way to keep your subjects from seeming camera-conscious. Briefly, it is—"Catch them when they aren't looking." Don't let them know their picture is being taken.

Pictures so taken are known as "off-guard" snapshots. Such snaps attract attention because they picture the subject in a natural, characteristic pose and get away from the usual look-at-the-camera-and-smile type of picture with which we are all too familiar. An "off-guard" picture can tell a real story while the other type tends to be just a record picture.

How to take them? It's easy. Just learn to handle your camera unobtrusively. Wait until your subject is paying no attention to you. Then casually snap his picture. It's all a matter of using your camera non-

chalantly and efficiently. The better you can do that, the more easily you can capture snapshots that are truly "off-guard."

If you use a focusing camera, with fast lens, try to anticipate picture opportunities, and set the camera in advance for distance and proper exposure. Then when the snapshot chance develops, all you need do is shoot.

For example, to take the picture above, the camera was set in advance for six feet. Lens and shutter were set for an exposure of 1/50 second at f.11—less than normal, because the bright, sunny beach was reflecting plenty of light. On a grassy lawn, which reflects little light, exposure would have been 1/50 at f.8. With his camera pre-set, all the picture taker had to do was wait for the melon to be cut, and catch his companion's delighted expression. It was just a matter of lifting the camera and snapping the shutter.

If you haven't tried taking "off-guard" shots, try it. It's fun, and the results are a delight.

4 STEEL FACTS in one minute

Famous Descendants of Pioneer Ironmasters
George Washington's father owned important interests in several iron works, and Abraham Lincoln was a direct descendant of Mordcai Lincoln, who in 1703 built a forge at South Brook, Mass.

Stainless Steel Makes a Good "Sky"
Two recently built planetariums, in which movements of the stars are reproduced with startling realism, have domes of stainless steel on which star images are projected.

A Safe Place to Work
Steel is one of the safest industries. National Safety Council reports that only four industries have better safety records than steel. They are the tobacco, cement, laundry and textile industries.

Molten Steel Does Not Melt Iron Molds
The thick-walled iron molds in which molten steel solidifies into ingots conduct away heat so rapidly that the steel solidifies before it can melt the mold.

CORYELL COUNTY NEWS

TO BUILD 350 MILES ELECTRIC LINES TO SERVE 867 FAMILIES

(Goldthwaite Eagle)

A dispatch to the Eagle from the Rural Electrification Administration at Washington states that it has just allotted \$286,000 to the Hamilton County Electric Co-Operative Association for the purpose of constructing about 350 miles of electric distribution lines to serve 867 customers in Coryell, Mills, Hamilton, Comanche and Lampasas counties. Smaller allotments were made to Navarro, Bailey, and Erath counties, and the total for 30 projects in 15 states is \$4,942,000. This brings the total REA allotments since it was established in 1935 to \$153,283,910.

Connection for Mills county with the main distribution line will be made at Star from Evant. W. J. Marwitz, Priddy, director of the Hamilton Cooperative association advises that home owners along the lines already designated, who have not made application for membership, should do so at once. Blanks are available at the County Agent's office.

An effort will be made at once to extend the Star-Goldthwaite line to Big Valley, and another line from Goldthwaite to Democrat, and still another to Pleasant Grove.

Pearl Barely Holds Lead in 6-Man With 20-14 Over Ireland

LOOKIN' OVER THIS WORLD

By Anon E. Muss

DOROTHY THOMPSON

A few days ago, quite accidentally, I stumbled into a very interesting speech somewhere on my radio dial. The voice was that of a woman. Now, generally when I hear the voice of a woman issuing from my loud speaker, I interrupt it as quickly as possible to locate something else, however, in this instance there was something arresting about the manner of speech and about the subject that was being discussed. As it developed later, the speaker was one Dorothy Thompson speaking to the National Woman Forum meeting at the New York World's Fair grounds in New York City.

I believe that we men too often fail to remember that the women folks have brains and that they are capable of thinking on the same terms and about the same subjects that we think about, often times arriving at conclusions and reaching decisions that would make the men folks extend their mental capacities considerably to better or even to equal. It is easy for us to form the habit of believing that women are o. k. for raising children, cooking, keeping house, etc., but that they are incapable of mental gymnastics on an equal footing with men. The thoughts presented by this admirable lady very quickly brought me to the realization that there was a woman who had a viewpoint of world affairs and international relations and an understanding of our own national problems which far exceed that of myself and of most of the men that I have occasion to talk to.

The discussion dealt with two subjects, first—troubles threatening our nation from the inside and second—troubles threatening our nation from the outside. She placed great emphasis upon the fight between labor and the heads of industry (capital) as a cause of internal strife in our nation and felt that unless some method of handling the situation was found it actually threatened to wreck our nation and make it all the more vulnerable to the insidious political invasion by representatives of the various totalitarian states (Germany, Italy, Russia).

The basic cause of the strife between the laborer and the capitalist being that labor has been made into a commodity to be sold at a price, depriving the worker of any feeling of creative effort and pride in the work that he turns out. No longer can the workman view the finished product

with pride and say that he was of great importance in completing the job, his rewards are the same for disinterested work as for concentrated effort and he is interested only in getting as much pay as possible for the fewest possible number of hours of work. The modern industrial methods have taken all the element of personal accomplishment out of labor and leave the worker no opportunity to advance himself to the point of financial independence and security. Modern industry tremendously increased the luxuries of the laboring man but have decreased his security monstrously. She says that labor and industry will never get along on the present basis and that the solution lies in giving the working man a definite share in the proceeds of his efforts and not simply pay him according to the time he spends tightening a bolt somewhere in the expanse of a vast assembly line.

The sketch that has been given about represents only a small fragment of the discussion given by this member of the fair sex but it is sufficient to remind us very forcibly that the women of this nation are concerned with our future and are attempting to unravel the coming developments in the light of present day occurrences. It is altogether possible that on the decisions and beliefs of the women of this nation rests its future destinies.

STATISTICS ON SOUTHWEST CONFERENCE FOOTBALL TEAM STANDINGS

The current issue of the Humble Football News, available without cost or obligation at Humble Service stations and dealers, contains an article of much interest to followers of Southwest Conference football. Written by George White, sports editor of the Dallas News, the article analyzes the intersectional record of the Conference since its formation through the Rice-Auburn game of last Saturday. White has compiled numerous statistics showing the Southwest Conference's record against teams from other sections, the individual intersectional records of Conference teams, and the Conference intersectional record by years. It is interesting to note that Texas Christian University, which this year has drawn national attention to the brand of football played in the Southwest, has the over-all best intersectional record of any team in the Conference.

JONES, PETTY STAR FOR PEARL; LEMMER FOR IRELAND

In a 6-man game, it's hard to tell exactly who is the stars—there are six of them on each side. Everybody has to play.

At any rate, Pearl nosed out an also fighting Ireland 6-man team Friday afternoon on the Ireland gridiron by the narrow margin of 6 points, the final being 20-14.

This is rather remarkable, considering the first efforts of the Ireland team which resulted in the score of 0, while Pearl got 52. Here's a few high lights of Friday's game, which was a thriller from the opening to the closing whistle, and something for the dyed in the wool football fan, whether or not he has even seen 6-Man or no.

Pearl defended the south goal, Ireland kicked. After a few line plays by both teams, the ball changing hands once, Pearl again took the ball about mid-field, and a pass, Petty to Ballard was completed, and Ballard ran 45 yards for the touchdown. The place kick for the extra point was blocked, leaving Pearl leading 6-0, as the quarter ended.

Jack Lemmer, one of the outstanding players of Ireland, caught a pass tossed by Allen, and took the ball to the 4 yard line. Allen plunged for the touch. On a pass, Moore to Lemmer, was good for the extra point, and Ireland led, 7 to 6.

Petty received the kick on the 15, returning to Ireland's 40. Jones made 1st down. Petty took ball 25 yards, to the 8 yard line. Jones then took the ball over for the second Pearl marker. Pass, Petty to Ballard, added the extra point, putting Pearl out in front, 13-7.

Following the next kickoff, Ire-

land ended the half with the ball in mid-field.

Third Quarter

Ireland kicked to Pearl, taken by Jones and Petty, and is carried to the 24 yard line, their own. Pearl fumbles, ball going over to Ireland.

Russell for Ireland hit center for 10 gain. Behind good blocking, Lemmer makes touchdown. Extra point is added, and the score stands Pearl 13, Ireland 14.

Ireland kicks to Ballard, hands to Petty who fumbles, and ball is taken by Jones to the 25. Petty takes off from own 25 for another touchdown. Pass, Petty to Dumas, is good for extra. Pearl 20, and Ireland 14.

On the kick, Squyres took the ball on the 25 and returned to the 40 yard line. Pearson, after a number of line and pass trys, punts out from 30 to 36.

Pearl, with ball on 36, on first play, makes 14 and next play makes 1st down. Petty takes ball for 16, as the third period ends.

It's Pearl's, 1st down, on the 20. Petty to Jones pass, completed for 6 gain. Huckabee intercepts pass for Ireland on 10 yd line. Allen passes, incomplete. Allen passes 10 yards to Lemmer. Allen, after downs, kicks to 15, Petty returning to Ireland 36.

Mosley thrown for 10 yd loss on line play by Edwards. Pass, Petty to Edwards, makes 10. Petty passes to Smith for no gain, stopped by Lemmer. Ballard kicks from 11 out on Ireland 15 yard line.

Russell plows line for 12. Russell loses 5, thrown by Ballard. Huckabee kicks, Pearl fumbles, but recovers ball on 20 yd line as game ends.

Pearl 20, Ireland 14.

The most outstanding performance of the entire game was that of the Center of the Pearl aggregation, Stovall, a boy that is an

ace at center, and has no usable toes or fingers, a good blocker, a good player, and the star of all the league, to our notion. This boy does more with these hindrances than a lot of "football players" we have seen with all kinds of feet and hads. He is most certainly a remarkable player, and must be a remarkable boy to be able to overcome these difficulties.

Jones and Petty are the satellites of the Pearl team's play, but Ballard ain't to be sneezed at. Dumas and Smith at ends, turned in A-1 games, and played heads-up.

Out Ireland way, too, Jack Lemmer, Allen, Squyres, and Huckabee, were more than capable, with Russell looking good on power plays (incidentally, something we believe Ireland could do well to stress), and Edwards got in good blocking at his end position.

Here's the starting line-up of the teams:

Pearl	Pos.	Ireland
Dumas	LE	Edwards
Smith	RE	Lemmer, J
Stovall	C	Squyres
Ballard	Q	Allen
Jones	H	Moore
Petty	F	Russell

Substitutes: Pearl: Kelly, Connor, K, Smart, Conner, G, Sandlin, Harris. Ireland: Haines, Dodgin, Huckabee, Pearson, Lemmer, W., Boyd.

Officials: Wilson, I. J. C., Referee; Franks, Umpire; Robinson, headlinesman; Time Keepers, Tharp and Smith.

Birds which build nests in green trees frequently lay greenish eggs.

What Helps Business Helps You!

AGAIN- THE NEW CARS

● They're with us again—those shining new examples of the automotive engineer's ability to improve an already fine car. Each year, it seems, the automobile industry outdoes itself with increased comfort, economy, efficiency; and the new 1939 models are no exception to the rule. We recommend the new cars to your attention!

We also recommend that you shift the care of your new car to Humble's shoulders. Humble motor fuels, motor oils and lubricants are as modern as the new engines; Humble technicians have already foreseen and provided for 1939's innovations.

So drive your new car to the Humble sign for service. You'll find a station completely equipped and salesmen carefully trained to keep your car running right and looking good. You'll find a friendly, Texas welcome waiting for you, a genuine interest in giving you service with a capital S.

Gatesville BOWLING ALLEY

NEW MERCURY 8 ANNOUNCED BY FORD

The newest car in motordom—the Mercury 8—was announced Tuesday by the Ford Motor Company as its representative in the lower medium-price field. It fills a place in the Ford-Lincoln line between the DeLuxe Ford V-8 and the Lincoln-Zephyr.

The Mercury 8 is a big car. It measures more than 16 feet from bumper to bumper. Its wheelbase is 116 inches. It is a powerful car, able to crawl smoothly or accelerate in traffic, and with high road speed when desired. Its V-type 8-cylinder engine develops 95 horsepower. It is also an easy car to handle. Hydraulic brakes enable the driver to slow down or stop quickly with light pedal pressure.

In its modern streamlined styling the Mercury 8 bears a family resemblance to the Lincoln-Zephyr acknowledged style leader of the motor world. Despite this resemblance the new car has a distinct styling of its own, both in flowing body contours and in interior appointments.

Four body types are available on the Mercury 8 chassis and there are eight color options. The body types are a town-sedan, a sedan, a sedan-coupe and a sport convertible. The bodies are exceptionally roomy, comparing favorably with the Lincoln-Zephyr.

All bodies are extra wide, seating three persons comfortably in both front and rear seat. The belt and cowl lines are low, giving driver and passengers wide visibility. Running boards are narrow and the bodies are widest at seat level.

A notable characteristic of the Mercury 8 is the quietness of the interiors. With the windows closed passengers may converse without raising their voices even when the car is travelling 70 miles an hour or more.

Much of the new car's equipment is in pairs. There are dual windshield wipers, twin electric air horns, two sun visors and dual combination rear-and-stoy lights.

Chassis frame is of full box section from the X-member to both ends of the side channels. Springs are of transverse cantilever design, with four double-acting hydraulic shock absorbers. Transmission is of blocker type, preventing clashing in changing between second and high speeds.

LIFE STORY by RALPH HUSTON of
W. C. FIELDS
 star of
"POPPY"
 A Paramount Picture

CHAPTER VII

ANOTHER time (he's told the story innumerable times but it's still funny) Bill was supposed to be chased by lions. He was to go through one door while the lions ran into a door immediately adjacent.

Fields raced across the set with the lions gaining by leaps and bounds. As he was nearing his sanctuary, Fields heard a voice screaming, "Who the hell locked this door!"

Not pausing a fraction of a second, Fields kept on going and smashed right through the locked door. The well-trained lions went through their own door, anyway.

Fields started on the back track in a picture called "If I Had a Million," which dealt with what ten people did when they suddenly inherited a million dollars. Fields was teamed with Allison Skipworth and they did the now-famous "road-hog" sequence.

That was Fields' first big production in several years. It was followed by "International House," in which Fields worked with Peggy Hopkins Joyce. They had previously worked together in the "Follies." That picture proved that Fields was an attraction and Paramount offered him a contract.

Despite the fact that he needed the job badly, Fields put his foot down. He had had one experience with contracts and didn't want another. He would sign, he said, on one condition—that, as far as possible, he be permitted to write his own stuff and play it as he thought best. Permission was granted and Fields, in 1933, signed the contract with Paramount. He has been with that studio ever since.

His pictures include "Tillie and Gus," "Six of a Kind," "You're Felling Me," "The Old-Fashioned Way," "Mrs. Wiggs of the Cabbage Patch," "It's a Gift," "David Copperfield," "Mississippi," "The Man On The Flying Trapeze" and "Poppy."

Just before he started "The Man on the Flying Trapeze," Fields went to Del Monte for a vacation. There he played golf in the rain and caught a cold. Returning, he went to the desert for a few days to recuperate and returned to his Encino home, apparently in good health.

He tried to play tennis and in making a try after a wide ball, suffered a displaced sacro-iliac. The injury didn't seem severe at the time, and he started making the picture. The more he worked, the worse he got, but, having started the picture, refused to quit.

The picture was finished in June 1935 and it wasn't until March of this year that he was able to return to work.

At present, although he is looking for a new place to live, Fields resides in a small Spanish-type home in Encino, about 40 minutes from Hollywood, in the San Fernando Valley. His brother Walter, who

would calmly sit there and admire nature until sunset. Then he went home.

When he signed his latest contract, he rented a home at Toluca Lake, which is just "over the hill" from Hollywood. He selected the house because from one point in the grassy back yard, that sloped down to the lake, he could look in all directions and not see a single other habitation. It gave him a feeling of isolation.

Then a boom hit Toluca Lake and houses started springing up on all sides. Dick Arlen and Bing Crosby built homes. Mary Brian and George Brent took nearby houses. With Claude Binyon took a house.

"Drat!" said Mr. Fields and started looking for another place. He found his present domicile by chance.

The owners happened to be planning an extended vacation and were willing to rent to Fields during their absence. They returned while Fields was making "Poppy" and remarked that they would like to have their house back. Bill offered them almost double the rent he was paying—and it was a good sized figure to start with—but they were just

as fond of the home as Fields and although they permitted him to stay there until he finished the picture, he soon will have to move.

During his recent illness, Fields visited several hot springs in the vicinity. At one of them he launched a conversation with the owner.

"Are the waters any good?" said Fields.

"Are they any good?" scoffed the owner. "Why, the first time I came up here I had the D. T.'s. Took the baths and it cured 'em just like that," with a snap of the fingers. "Bout two or three years ago I had the D. T.'s again, took the baths and it cured 'em again."

"Sounds good," admitted Fields, "but I guess you aren't a drinking man any more, eh?"

"Hell, neighbor," said the proprietor. "I sure am. And I expect to have the D. T.'s twice more 'fore I die."

(To be continued)

once managed Fields, has been with him for several months. Also there are "Rod," the indefatigable majordomo of the establishment who acts as chauffeur, valet, friend, companion and general factotum, and a German couple, who take care of the house and grounds.

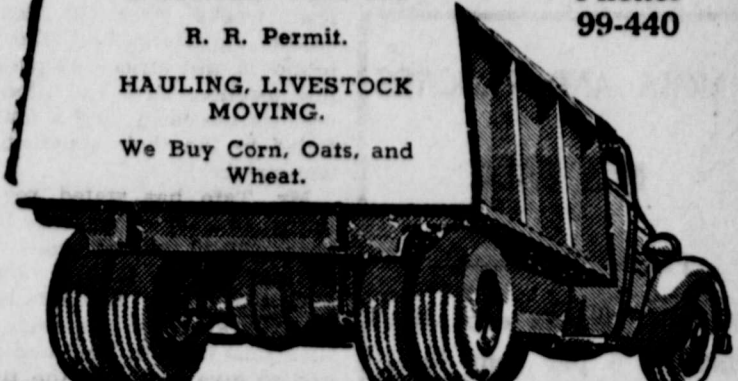

Fields is a great lover of the outdoors. He spends hours in the sunshine and never is happier than when walking about the 7½ acres of fruit trees that comprise the "estate" on which he lives.

Many of the scenes in "Mrs. Wiggs of the Cabbage Patch" were made on location at the Paramount Ranch, a huge expanse of open country an hour or more from Hollywood. Under state law, the children in the cast had to be back at the studio not later than 6 p. m., which meant that most of the company left the grounds early. But not Fields. With Rod at his side, Fields would plant a comfortable chair in a spot that gave him a commanding view and

him.—Written by one who loved Mrs. Frank Haines, Mrs. Allie Wynn, all of Purlima; Bud Mayberry, Mrs. Ross Jayroe of Gatesville, his niece and nephew, and a host of friends who will miss him.

WALTER ELMER MAYBERRY

Walter Elmer Mayberry was born in Coryell County near Gatesville on February 9, 1893, and died November 2, 1938, living to be 45 years, 8 months and 23 days old. He was laid to rest by the side of his father in the Levita cemetery at 2 o'clock, November 2, after having taken his own life, because his work on earth was done. His mother preceded him in death 5 years and 10 months.

Oh, how we will miss him. He was never called upon but what he was ready to answer the call. He raised a niece and nephew, Mrs. Burnice Woodall of Gatesville and Homer Mayberry of Hebu, Utah, and his brother who walked beside him all the time remains in the home together. Elmer always took the lead and the brother and sister looked to him as a father.

He is gone, a precious brother, never more will he return, to sleep and rest in peaceful slumber.

He leaves to mourn his going three brothers and three sisters:

In spite of wars, floods, drouths unemployment and other woes, expectancy of life has increased generally throughout the world.

In Africa, there are large land crabs that catch mice.

NOTES FROM THE COUNTY SUPERINTENDENTS OFFICE

A. M. Tate, State Supervisor for Coryell County, completed his visits to the schools for State Aid Budgets last week. He will be in the county again within the next few weeks checking teacher's credits, experience and other items found in the office. At present a few teachers have not filed their registration cards, and a few have failed to file their contracts, and transcripts.

Mr. Tate has stated regularly that the salary of teachers for the year 1938-39 will be based on the records in the County Superintendent's office. Teachers should mail in at once any record not filed thus far. Mr. Tate had promised to give notice of the time of his stay in Coryell County so that anyone desiring to see him might do so.

Schools desiring to use standard tests should report the number needed to the County Superintendent's office at once. Tests ordered in quantity are less expensive. Standard schools must use standard tests for remedial purposes.

The Coryell County School Board will meet on Friday, November 18. Transportation reports for the first month or first two months should come in at once. The Board borrows money for transportation. The amount loaned each school is based on 70 per cent of its possibilities. Please get these in at once.

WHITE HALL CLUB

The White Hall Club met October 26 with Mrs. S. Y. Meharg. The afternoon was spent quilting; one quilt was finished and a number of blocks were pieced on another. Delicious candy and apples were served to twelve members and two visitors, Mrs. Tom Bennett and Mrs. Dawes Groves.

On November 2 Mrs. Robert Leonard was hostess to the Club. The members arrived at Mrs. Leonard's early after the noon hours as she had two quilts in the frames. One quilt was almost finished and a lot of work was done on the other. At four o'clock the members were asked to assemble in the dining room. Delicious sandwiches, pineapple cake, milk chocolate and iced tea were served to twelve members and five visitors, Mrs. Tom Bennett, Mrs. Phillip Clearman, Mrs. Earl Clup, Aunt Rosia Chambers and Granie Vernon.

The club adjourned to meet with Mrs. Ollie Nicholes on November 9 for an all-day affair. Every member is asked to bring a covered dish, and don't forget your club dues. Visitors are always welcome.

FLENTGE DRUG STORE

BRAZIL NUT PUMPKIN TARTS

Plain pastry,
 1 1/4 cups canned pumpkin,
 1/2 cup sugar,
 2 tablespoons brown sugar,
 1/2 teaspoon ginger,
 1/2 teaspoon nutmeg,
 1/2 teaspoon salt,
 1/2 cup finely choppe Brazil nuts,
 2 eggs, separated,
 1 cup heavy cream,
 3/4 cup milk,
 Sliced Brazil nuts for garnishing.

Line individual pie pans with thinly rolled circles of pastry. Build up and crimp the edges. Prepare the filling as follows: Mix the sugar, spices, pumpkin and chopped nuts together. Mix 1/2 cup of the cream with the milk and the egg yolks, slightly beaten. Stir this into the pumpkin mixture. Beat the egg whites with the salt until stiff but not dry. Fold them into the custard mixture. Fill the pastry lined pans with this mixture. Place them on a baking sheet in a hot oven 8 to 10 minutes. Then turn down the heat to moderate and bake 20 minutes more or until the custard is firm.

LEMON SPONGE PIE

1 tablespoon butter,
 1 cup sugar,
 2 eggs separated,
 1 tablespoon flour,
 1 cup milk,
 Juice and grated rind 1 lemon,
 1/4 teaspoon salt.
 Cream butter and sugar. Add egg yolks and beat mixture until light and fluffy. Add flour mixed to a paste with a little of the milk. Stir the rest of the milk, lemon juice and salt. Fold in the beaten egg whites last. Brush the unbaked pastry with slightly beaten egg white and pour in the filling. Bake in a hot oven for 30 minutes or until a knife inserted in center comes out clean.

CRANBERRY WALNUT TARTS

4 baked tart shells,
 1 cup cranberry sauce,
 3 tablespoons cream cheese,
 1/2 cup cream,
 2 tablespoons confectioners sugar,
 8 marshmallows,
 1/4 cup chopped walnuts.
 Fill tart shells with cranberry

\$2.00

sauce. Mash cream cheese; cut marshmallows fine. Whip cream, fold in cheese, marshmallows, sugar and nuts. Pile on tarts.

APPLE PIE

3 pounds apples,
 1/2 cup granulated sugar,
 2 tablespoons lemon juice,
 1/2 cup butter,
 1 cup brown sugar,
 1 cup flour.

Pare apples, slice and mix with sugar. Chop apples rather finely and pack into pie pan. Sprinkle lemon juice over apples. Cut butter, brown sugar and flour together until the mixture is coarse like cornmeal. Spread mixture over apples and press down firmly, especially at the edges to retain the juice. Bake about 50 minutes in a moderate oven until the apples are tender.

CHERRY PIE

3 cups pitted canned red cherries drained,
 2-3 cup cherry juice,
 1/2 cup sugar,
 2 tablespoons quick cooking tapioca,
 1 teaspoon lemon juice,
 1 teaspoon lemon juice.

Put cherries, juice, sugar and tapioca together in a saucepan. Bring slowly to a boil. Remove from stove, add lemon juice. Line pie plate with pastry, fill with cherry mixture. Cover top with strips of pastry.
