Five men, charged with robbing a Center City filling station of between \$125 and \$150 in equipment and stock were rounded up by Sheriffs Brown, Gohson and Hallmark, their deputies and trained dogs. The captured men were in a '34 Chevrolet allegedly stolen in Brownwood, and all but one were rounded up quickly. The other, feinting snake bite got a Hamilton county farmer to start to the doctor with him in another car, and before they got outside the pasture fence, he saw the officials and dogs coming and stopped. FORT WORTH BOYS TAKEN NEAR HERE AFTER STEALING CAR

Yesterday morning, J. F. Clarke manager of the Raby Ranch, north of the State Juvenile Training School discovered two boys, 18, asleep in a Dodge coupe on the ranch. They were Odell Thompson and Ernest Bland, both of Fort Worth and formerly inmates in the school for boys here.

According to Sheriff J. H. Brown, received the boys from Training school officials, Rufus Burleson, S. L. Bellamy and Walter Scott, the boys used to haul wood from the ranch and knew where the key opening the gates was hidden and went in the ranch to sleep and rest. After a search, no fire arms were found. The car was alleged to have been stolen in Fort Worth Tuesday night, and boys are said to have driven to Oklahoma and Arkansas before coming here to "rest".

Detectives Cobb and Smith came to Gatesville yesterday afternoon from Fort Worth to get the boys and took them back to Fort Worth.

The boys are reported to have "buddies" in the local State school and were here probably to make another "delivery" it is thought.

In '35-'36 seven more credits were granted. Since then credits in home making, typewriting and bookkeeping have been added. Mr. Grubb mentioned the fact that under the supervision of Supt. S. V. Dickerson the Ireland gymnasium was constructed, and that the high school enrollment had grown from 37 to 117 in the last two years, giving Ireland high school the third largest high school enrollment in Coryell County. Mr. Grubb expressed regret that Supt. Dickerson was resigning to accept the superintendency at Godley.

JONESBORO RE-JOINS FIVE OTHER TEAMS COMPLETE BASEBALL LEAGUE

We were informed, since Tuesday's issue of the News, that Jonesboro was definitely going to continue in Coryell County Baseball League.

It had been our intention to be able to announce a complete schedule, May 14, but as there is still a possibility of a local team, it has been decided to wait until Tuesday, at which time the complete schedule will be announced.

Plans are to make two halves of the league play, and use the first for "limbering up" and to last three weeks. The final half, will be longer, and for the Coryell

County News County Baseball League Cup.

Managers are asked to mail, this week, or by Friday of next week, a list of the members of their respective teams. In this way it will be known by the time the league starts who is going to play with who, and they can be later certified, when the managers meet and elect directors of the league play, which should be Saturday, May 20, and not later.

Already, we have Moshem's list, and will be glad to receive the lists of the other teams immediately.

GATESVILLE'S RODEO AND FRONTIER CELEBRATION READY TO GO SAYS BOB

The Management of the Gatesville Rodeo announce Ready with the 1939 show to be held in Gatesville, on June 1st, 2nd and 3rd, Four Big Shows filled with Thrills Spills, and a few Chills.

We pride ourselves on our past shows, they were good shows, but in our 1939 show we bring you our supreme effort in the way of Western entertainment, at a much greater expense we have contracted with the World's Championship Rodeo Corporation to bring a full line of Rodeo Stock to Gatesville, to put on a show that will equal the best in the U. S. A.

The Arena will be under the personal direction of Col. Everett E. Colborn, of Blackfoot, Idaho and Dublin, Texas, who puts on each year, the celebrated Madison Square Garden Rodeo, in New York City, the largest Rodeo in the world.

These Stock are given up to be the Best in the Rodeo world and are kept in A-1 condition at all times, on a beautiful ten Thousand Acre Ranch used exclusively for that purpose alone. They are under contract to the Madison

Square Garden Corporation, and have only been shown at Houston and San Angelo, Texas, during the season of 1939, until you see them at Gatesville, on the above dates, in their Work Out to keep them in the best of condition for the New York Show, after the Gatesville Show these Stock will be returned to the Ranch to rest until the Garden Show in New York City in October of this year, where they are used for thirty days.

We deem ourselves very lucky in getting this celebrated line of Stock in one of their three Work Outs in Texas.

Gatesville believes in giving Coryell County and Central Texas folks the best in anything she undertakes, and she certainly will do it in her 1939 Rodeo and Frontier Celebration, which will be better than ever before and at no advance in price, we do expect a much larger attendance, so take a "Tip". Don't follow the crowd, beat them thru the gate and get a good seat where you can enjoy every minute of these shows. All of Gatesville invites you to be with them on June 1st, 2nd, and 3rd, 1939.

WARDROBE WISDOM

MISS OLIVE CAWLEY, former debutante, model and actress, gives some practical wardrobe tips for the World's Fair in San Francisco and New York in the June issue of *Cosmopolitan*. Miss Cawley advises a light woolen coat to wear over simple sport dresses, an afternoon gown of gay, striped, silk shirting which will not muss, made along soft lines and worn with bright glass jewelry, dinner dresses which will be easy to pack with extra jackets to change them up and vary daytime clothes at the same time. For traveling she suggests a navy blue pique suit with a red-checked gingham blouse and a white pique sailor, veiled in red. Washable gloves and plenty of comfortable shoes are also advised.

Miss Cawley, who was born twenty years ago in Montclair, N. J., graduated from the Kimberly School and made her debut. She appeared in the motion picture *Vogues of 1938*, modeled clothes in an Eastern Air Lines fashion show aboard a Miami-bound plane and worked in a fashion movie in Bermuda. She posed for the cover design of *Cosmopolitan* for June.

YOU GET ALL 3 IN THE NEW OLIVER GRAIN-MASTER

SEE IT TODAY!

Here is the small combine that gives you a better method of harvesting all small grains, beans and seeds—the Oliver Grain-Master. It is the new low-cost way. Low in first cost, low in power needed. It ends your hard work of binding, shocking and threshing; ends your wife's work, the feeding of threshing gangs.

The Grain-Master saves more grain and does it at lower cost.

The Oliver hinged and balanced header cuts a full 6-foot swath and lays the standing grain on the draper, straight and smooth. The "hinge-float"

feeder house automatically follows the level of the header. Both are controlled by a single, easily reached, squeeze-grip lever. The grain is carried straight to the feeder house and fed straight to the cylinder. Then grain and straw move straight through the final threshing and cleaning operations that save more of your grain, cleaned to a bright merchantable grade. Draft is light. Weight is light. Price is low.

Roller bearing, air-tired wheels move easily even over soft soils. See us about an Oliver Grain-Master and an Oliver "70" to handle it. Make certain of saving your high-priced crop this year.

MAPLE CLUB NEWS

The Club met with Mrs. Finis Carroll on Thursday, May 4th. The afternoon was spent hemming quilts and embroidering cup towels and pillow cases.

Refreshments of sandwiches, pie and iced tea were passed to eight members, and the hostess.

Mrs. Bert Hill will be hostess to the club on Thursday May 25. Visitors are always welcome.

MOUNTAIN H-D CLUB

"When removing stubborn paint and varnish from an old surface, use a lye paste", said Miss Gibson, County H-D Agent to the Mountain H-D Club at a meeting Tuesday, May 9, in the home of Mrs. T. M. Coon.

To make the lye paste use one cup cooked starch and cup strong lye water. Apply a thick coat of this paste surface to be cleaned, and after it dries, scrape off with dull knife. After the surface has been scraped off, rinse with vinegar water made with one-fourth cup vinegar to one gallon of water.

During the business meeting the Club started formulating plans for the program to be given in November when the County H-D League meets with the Mountain Club.

Refreshments were served to 8 members and 4 visitors.

The next meeting will be with Mrs. H. Reneau.

LIBERTY CLUB NEWS

Every home should have a grass lawn in both the front and back yards, the Liberty H-D Club women learned from Miss Imogene La Grone, County H-D Agent, at a called meeting held at the Liberty School house on May 2 at 2 o'clock.

Grass on the lawn makes the house cooler in the summer, keeps down dust, glare and mud, and keeps the soil from washing away.

A smooth unbroken lawn gives a neater orderly appearance than one spotted with flower beds.

Roses and other flowers look best and grow best when planted in separate flower beds at the back of the house.

Fish ponds and bird baths are informal and are more attractive

placed in the side or back yards.

Stepping stone walks with grass growing between the stones are both inexpensive and attractive. The front walk should be wide enough to accommodate three or four persons at a time while the back walks need only be wide enough for one person.

Foundation planting about the house of shrubs that stay green and attractive all winter make the house look more livable and home-like. In general tall shrubs should be planted at the corners, low shrubs at the entrance, and medium sized shrubs at the windows.

Those present were Mesdames, L. C. Perryman, Joe Glaze, Albert Tyson, Henry Gatlin, Calvin Perryman, Eldon Harris, Ralph Wright, Willie Winzel, A. G. Kautzsch, Wallace Parrish, Loyd Hengepeth, Bertha Troutt, and Misses Imogene La Grone, Lois Jones, Imogene Harris, Ray Seward, Josephine Parrish, Clara Parrish and Marie Brown.

The next regular meeting will be in the home of Mrs. Bertha Troutt on Tuesday, May 23.

CRYSTAL UPTON TO RECEIVE B.S. DEGREE FROM ABILENE CHRISTIAN COLLEGE

Clinton Davidson of Jersey City, N. J., noted insurance man and head of the Estate Planning Corporation, will deliver the commencement address to the Abilene Christian college graduating class Monday evening, May 29.

Crystal Upton, daughter of Mr. and Mrs. F. I. Upton of Izora, Tex. is a member of the senior class, graduating with a Bachelor of Science degree in Education.

Arthur R. Holton, well-known minister of the Church of Christ now located in Sherman, Texas will deliver the baccalaureate sermon, Sunday, May 28. Holton is father of John Holton, president of the senior class.

Senior examinations were conducted last week, and the class play, "Dying to Live," was presented May 12th. Senior week will begin May 21, with the fourth-year students in charge of affairs for the entire seven days. Also a trip to the famed Carlsbad Caverns is being arranged for the graduates.

COUNTY LEAGUE "PREP" SCHEDULE TO OPEN SUNDAY

The 1939 baseball season will get under way Sunday as all six teams go into action. Jonesboro, who had previously joined the Hamilton county league in preference to waiting until this county's circuit was organized, have now come back to their home county, and will meet White Hall on their home grounds Sunday. The defending champions will be favored to take this one.

The other games will find Moshem at Blackfoot and Mound at Pidcoke. All of these teams were in the county race last year, Pidcoke and Mound finishing in the first division.

The plan as worked out by various baseball men over the county in the News office last week was to have a three-week "preparatory schedule" with the championship race really starting on June 4 and running on thru the latter part of September, with the cup being awarded the winner of the Saughnessy playoff that will follow the close of the schedule.

Your correspondent has attempted to work up interest in a Gatesville team, but after contacting several baseball men of this city we find that they are all ready to play, but none of them will shoulder the responsibility of managing the team. If a manager can be found, a local team could be organized that would be strong enough to be in the thick of the fight for the News championship trophy.

Sunday's Schedule

Mound at Pidcoke
Moshem at Blackfoot.

PROSPECTIVE SCS COOPERATORS REQUEST TOUR OF WORK AREA

Last Wednesday fifteen prospective cooperators of the McGregor community, looking forward to using practices recommended by the Soil Conservation Service in controlling erosion on their farms, requested the Technical staff of the Gatesville Soil Conservation Camp to conduct them on a tour of the Coryell City work area.

These farm operators were interested in observing and evaluating the different phases of a complete soil conservation program that has been in operation for several years. On the tour they were shown contour tillage; terraces and methods of controlling terrace outlets to avoid finger gullies starting at the outlets; small grain used as strip crops to spread and check the flow of water and hold sheet erosion to a minimum between terraces; and waterways sodded to pasture grasses for terrace outlets which was being utilized as pasture for livestock.

At the completion of the tour the farmers praised highly the work they had seen and the entire group expressed their desire to become cooperators and secure the aid of the Soil Conservation Service to control the ravages of soil erosion and water loss on their farms.

All who made the tour have since signed agreements with the Gatesville Soil Conservation Camp and are anxious to get under way with the program on their places. Those who made the tour are: Gilford Allison, Aubry Pollard, Ernest Davis, Bill Leos, Fred A. Bischoff, Ben Weiss, E. L. Lightfoot, Glyn Kilgore, Will Leueker, A. M. Cooper, W. N. Orr, Guy Williams, Oma Pennington, Robert Duncan, Ernest Meador.

FILM RIOT EXPOSES CHARLIE MCCARTHY IN BLACKFACE
 Charlie McCarthy in blackface! This is one of the most startling features in Universal's hilarious comedy, "You Can't Cheat An Honest Man," at the Regal Theatre Saturday, Sunday, and Monday.

Even Hollywood, accustomed as it is to the unusual, gasped with astonishment and roared with laughter at the sight of dapper Charles with his face overed with burnt cork.

People were astonished because they hadn't the slightest inkling of what was coming when they attended the preview of the picture. For once a secret had been kept in the film colony. All during the filming of the blackface scenes a heavy guard kept everyone away from the set except those actually needed on the production. And the crew was sworn to absolute secrecy. Studio executives wanted a surprise reaction—and got it.

W. C. Fields is starred in "You Can't Cheat An Honest Man" with Edgar Bergen and McCarthy. In the supporting cast are Mortimer Snerd, Constance Moore, Mary Forbes, Thurston Hall, Princess Baba, John Arledge, Charles Cole-Hohl, Blacaman and Eddie Anderson.

GATESVILLE, TEXAS, FRIDAY, MAY 12, 1939

NUMBER 41

ZEKE SEZ

By NUGENT EZEKIEL BROWN

AUSTIN—(Spl.)—With the regular session ending this week, it still looks like at least 20 extra days of this Legislature. While some predict adjournment within a week, most members feel the boys will not quit before the 20th or even the 27th. Some of the members irk visibly at the prospect of only \$5 per diem whereas many of them have been spending all of their \$10 per day and then some.

At this week-end, it begins to look like the odds favor final passage in the House of the controversial sales tax-natural resources S.J.R. No. 12, the constitutional amendment proposal. Supporters now claim 89 votes with only 11 more to get before final passage. The belief is now prevalent that no other tax measure would have a ghost of a chance unless the legislature should be forced to remain on for 30 more days. Seventy-six members of the House can keep them in session if they decide to vote against adjournment. If the constitutional amendment should fail to get 100 votes, the session may possibly be prolonged until June. Departmental appropriation bills will not reach the floor of the House before Wednesday; it will take two or three days to pass them.

Thornton and Roberts Deserve Praise

Representative E. H. Thornton of Galveston, chairman of the House appropriations committee, and Senator Morris Roberts, chairman of the Senate appropriations committee, are to be congratulated upon their guidance of these two most important committees. The large and awkward departments, packed with high-salaried department heads are due for a general scaling down, while some of the small but important departments are to fare better. The Labor department, for instance, actually needed a substantial increase in their appropriations and have thus suffered for several years. Although it will not get an increase, it will be given the same appropriation it had two years ago. The Legislature feels that if they force cheap-John wages in the Labor department, the humiliation to labor in Texas will more than offset the small amount gained in appropriations.

House Refuses to Disfranchise Old Folks

An attempt by Representative Joe Keith of Sherman to put on an amendment to S.J.R.12 that would disfranchise the old folks who receive pensions from voting for Governor, Lieutenant governor and members of the legislature lost by 125 to 12, thus dealing such a movement the death knell in no uncertain terms. Those voting for the amendment were Boethel, Bradford, Burney, Colquitt, Davis of Upshur, Hankamer, Keith, McAllister, McFarland, Stoll, Thornton, and Vint.

Harrell Takes to Radio Against Loan Sharks

While Homer Leonard of McAllen, strong contender for the next speaker of the House, was making every attempt to get his loan shark bill up for consideration, Mason Harrell of Bastrop went on the radio Sunday afternoon in a speech denouncing loan sharks and their iniquitous methods, also calling for public support of the bill to outlaw the loan sharks. Leonard, at week end, announced the bill will be brought up on suspension.

Important Pending Bills

A glance at the daily calendar will show there is still much work to be done. They include: creating department of public welfare, farm tenancy act, R.O.T.C. act for

the university, re-creating the Texas Planning Board, etc., etc. The House passed finally the bill which will give counties part of the surplus road bond money along the Tarwater plan, thus defeating the original so-called "county judges plan."

Anderson Get Out His Paper

Jan Anderson, the Pensions Union director, who is still in jail at Austin over the week end refused to make bond or allow anyone to make his bond, preferring to "stay in jail until these charges are cleared." Anderson still gets lots of mail, he says. He also had a copy of "Security" printed this week, a four-page pamphlet paper which contains copies of telegrams which he sent the legislators last week when he was cited for contempt for failing to appear before the House to explain his campaign in which he collected \$1 membership from old folks. "I have a plan," Anderson says, "if the legislature will let me come before them and explain it in detail, I shall be glad to do so." Anderson is in jail on a charge of violating the "assumed name" law. The daily papers have about "dropped" Anderson because they consider his antics no longer news.

Invited to Use Hall of the House

Governor W. Lee O'Daniel has been invited to use the Hall of the House of Representatives on Mother's Day Sunday for his regular Sunday morning broadcast, a resolution having passed unanimously offering him its use. "Mother" Turner, a grand old lady from Houston, "mother" to all former war veterans of all wars, will officiate at a ceremony one day this week when she will confer special U. D. C. medals on World War veteran members of both houses. Mother Turner also has been very active in getting a preference bill thru both houses which requires state department heads to hire 10 percent of their help from the ranks of war veterans. Having worked with legislators many years, Mother Turner is universally loved by one and all.

Representative Albert Derden announces a resolution calling for an investigation of the administration of the old age assistance commission here in Austin will be offered one day next week. Evidence will be tendered to show the alleged unfitness of the present director of the set-up.

WOOD BROS. TAKE 2 TO 0 DECISION FROM LOCALS IN SOFTBALL OPENER

Scoring in the third and sixth frames, the fine Wood Bros. softball club took a close decision from a local All-Star club Friday night.

Woodrow Wilson hurled a beautiful game for the locals, only one of the All-Star could not manage to hit Bob Foster, the Wood Bros. moundsman, garnering only two hits all night.

Bugg Jones was the star for the locals afield, making several beautiful plays from his first base post.

BUSY BEE CLUB

The Busy Bee Club met with Mrs. S. R. Porter on May 2 in the afternoon. There was very little work done. Miss Gibson was present and gave some interesting talks on making old furniture new, and also how to arrange furniture in a room to make it more attractive.

The hostess then served cake and iced grapejuice to nine members and four visitors. The club then adjourned to meet with Mrs. C. O. Russell on May 16 in an all day meeting. Visitors are welcome.

CHAPTER VII
DESPITE his best efforts and the good offices of Brooks Bowen Sweeney was unable to meet Colonel Marchbanks the man who must be convinced it mules were to be purchased by the British Army.

Porgie Rowe had done a masterly job of convincing Colonel Marchbanks that tractors were the thing. "It's a plain, unadorned fact that your re-armed program calls for concentrated emphasis on mechanization," Porgie had pointed out. "And that means motorized units not mules." Rowe added glancing at Brooks Bowen who had persistently urged mules and tractors for the Army. "Besides you can always buy plenty of mules."

"I beg leave to doubt that, sir," Brooks Bowen protested. "My survey of the American market was a nasty one but good army mules are scarce."

"You must have been in a hurry," Captain Porgie countered. "Why, it wasn't six weeks ago that my friend, General Barse Stonebreaker, procurement officer of the American Army, told me the market was simply glutted with mules."

"It just happens that General Stonebreaker is now in London," Brooks-Bowen cut in.

"He is?" Porgie was apprehensive.

Brooks-Bowen turned to Colonel Marchbanks. "I suggest, sir, that I could arrange to talk to General Stonebreaker."

"A capital idea!" Colonel Marchbanks agreed enthusiastically. "Gad, we mustn't be caught short on mules—just in case."

"General Stonebreaker is a Missourian and might be biased in favor of mules," Porgie protested, secretly worried.

"We will arrange to have the Colonel meet the General casually," Brooks-Bowen suggested. The Colonel agreed.

A few minutes later, Captain Brooks-Bowen presented himself at Julie's pretentious house. He came straight to the point. "Mrs. Bliss, I wonder if I could bring a friend to the reception you're giving for General Stonebreaker?"

"Of course," Julie agreed.

Brooks-Bowen turned to Sweeney. "And Sweeney, I have news for you."

"I've persuaded Colonel Marchbanks to have a look at Samson."

Sweeney wrung Brooks-Bowen's hand. "Captain, there ain't any use of me tryin' to tell you," he said earnestly. "You know how grateful I am."

"Don't mention it. It's quite all right."

"But there's somethin' I've got to mention," Sweeney hesitated. "Maybe I shouldn't if I want to be polite."

"Go on. Out with it, man," Brooks Bowen insisted.

"Well sometimes I feel like we're just usin' you," Sweeney said reluctantly. "I mean just because you're interested in Lola is no rea-

son, you'd better turn in to the bridge path. You'll be safer there. It's straight ahead."

Sweeney thanked the officer and advanced cautiously. Presently he came to a large entrance. Two men passed him carrying nampers of laundry in the fog. Sweeney was unable to read the lettering above the entrance. Actually it read "Marble Arch Steam Baths." But Sweeney did not know that. Unhesitatingly he led Samson through the doorway left open by the laundrymen.

In the anteroom he passed a counter on which sheets were piled. A small placard read: "Get Your Sheets Here—Sixpence."

"Well that's mighty convenient," Sweeney mused. "The English sure know how to meet an emergency." He placed a couple of coins on the counter and proceeded to drape Samson and himself in sheets.

Sweeney and Samson advanced slowly through the ever warmer and denser steam. Through the shadows Sweeney could see dim figures moving like shadows out of the inferno. Presently the neat halted him. Letting go of Samson's bridle he unloosened his tie and collar. Released Samson wandered away into the haze.

As Sweeney searched through the murky haze for Samson he heard the sound of hoof beats and hurried toward them just in time to see an agonized drunk plunge through a door marked "Ladies Steam Room" with Samson in full pursuit!

Arrested—with Samson—Sweeney attempted to explain the situation to the inspector behind the desk at the police station. But the official was adamant. "Put up bail or go to jail," he insisted.

Sweeney telephoned Julie Hearne answered the phone. Both Julie and Lola were out shopping. "But they've got to come shopping for me," Sweeney insisted. "It may surprise you to know that I'm in jail."

Hearne's voice over the wire was frigid. "No, sir, I'm not surprised. I'll tell Mrs. Bliss when she returns."

When Julie finally appeared at the police station she was agitated and excited. "It's after banking hours," she explained to the inspector.

"Well, now, it's a pity you went to all that trouble, Madam, it is indeed," the inspector said.

Julie was really alarmed. "Don't tell me you won't release him," she cried.

"He's already released an hour ago, Madam," the inspector explained. "A lady paid 'er bail. Er name was"—he consulted his blotter—"Miss Allison Rowe."

"Oh, that woman," Julie gasped.

(To be continued.)

Sweeney placed a couple of coins on the counter and proceeded to drape himself and Samson in sheets.

Museum—Then Observatory; U. T. Nears Research Goal

Austin, Texas—McDonald Observatory has been added to the already array of research laboratories thru which The University of Texas serves science, industry and commerce.

With research listed as the institution's Number One objective by President-elect Homer P. Rainey, the University points to its present fact-finding agencies as a sound start in the direction of placing the school among the front rank universities of the country.

Already functioning are: The Texas industrial and Commercial Research Council, composed of already existing bureaus of business, engineering, chemical and geologic research, which directs its energies toward development of the State's industrial and commercial resources.

The Texas Memorial Museum, not a static display of historical relics, but a fact-finding and object-collecting agency for every phase of Texas development—historical, social, economic, industrial, artistic, cultural.

The Bureau of Research in the Social Sciences—an agency for pursuing investigation of projects in social and political sciences—labor, farm tenancy, juvenile delinquency, history, governmental problems. A sub-division of this bureau is the Bureau of Municipal Research which carries on intensive studies of Texas municipal functions, not only ascertaining existing policies but suggesting remedies for shortcomings.

Scientific laboratories in chemistry, botany and bacteriology, physics, zoology, home economics, in which University professors spend much of their time outside the classroom discovering new facts which advance the frontiers of science and make available new fundamental truths on which medicine and industry can progress.

TRUTH about ADVERTISING

By CHARLES B. ROTH

THE RESPONSIBILITY OF SUCCESS

WE OFTEN say when we discuss various things we acquire that it isn't the original cost that counts. It is the upkeep. This is particularly true of success.

The fact is that there is a responsibility of success which failure or mediocrity never knows. The man who is successful, who achieves in whatever line he may enter, has an obligation and a responsibility which requires that he continue to do his very best.

Especially is this true of business. To make a brief success of a business isn't hard. To build a lasting success requires close application and a fine sense of the obligation which success implies and demands.

If advertising served no other purpose than to create the obligation of success it would perform a useful social and economic act. For advertising holds up this obligation of success and demands that it be observed constantly.

Whenever a manufacturer or a merchant begins to advertise he sets self-imposed standards on himself. By these standards do others judge him. By these standards do they also classify him.

He has an obligation to live up to every day thenceforward.

Charles Roth

If he hadn't advertised, he could give good quality one day and poor quality the next and get by with it. But when he comes out boldly in print and advertises, the die is cast, and he must forever live up to the highest ideals.

Shrewd men have thought that they could controvert this law. By putting quality and good value into a product and then by advertising it, they have succeeded in a short time in building up a big business. And then came temptation.

"Why maintain all this quality?" they ask themselves. The public will never know. Why not cut the quality but continue the advertising and clean up? They have tried. But the public does know quality. It is quick to perceive deception, and abandons the man or product which tries to substitute inferiority for honest merchandise.

There is no quicker way to ruin a business than to set up a standard and then violate it. There is no better way to build a business than to set up a standard and then live up to it.

Advertising is the great setter of standards in American business life, and advertised goods are the standards by which you spend your income, confident of getting your money's worth every day.

The man who advertises has assumed the responsibility for success. You'd rather deal with a responsible man, wouldn't you?

Nutritional Value of Meat

By RUTH J. COOPER, Consulting Home Economist
Breeder-Feeder Association

Plan your meals around meat and you are assured of satisfying, nourishing meals that all of the family will enjoy. What other food offers so much? Meat satisfies; practically everyone enjoys its flavor; it is easily and thoroughly digested, though somewhat slower than some other foods; it contains more of the recognized nutritional essentials than any other food and is therefore called one of our "protective foods."

The U. S. Department of Agriculture, many state experiment stations, and The National Livestock and Meat Board have been doing co-operative research on meat for many years and are responsible for our newer knowledge of meat cookery as well as on nutrition. They point out nine food essentials found in meat:

1. Protein, builds and repairs body tissues.
2. Iron, prevents anemia.
3. Copper, helps body use iron.
4. Phosphorus, builds strong bones and teeth; regulates the body needed for body processes.
5. Fat, produces heat and energy; carries certain important vitamins.
6. Vitamin A, promotes growth; increases body resistance.
7. Vitamin B. Complex (Thiamin) stimulates appetite; promotes growth; prevents and cures beriberi; is necessary for utilization of carbohydrate.
8. Vitamin B. Complex (Riboflavin), promotes growth; protects against certain nervous disorders and liver disturbances.
9. Vitamin B. Complex (Nicotinic Acid), prevents and cures pellagra.

The dietary habits and conditions which have been so much publicized and condemned are not typical of Southwestern rural diets, and where they exist can be corrected when people understand the danger of poor diet and the elements which go to the making of an adequate, health-giving, disease-preventing habit of eating. While the "Three M's" diet (meat, meal and molasses) is not as common as its publicity implies, it is too common—like small pox, one case is too many—and is responsible for the scourge of pellagra which still plagues the South.

The Breeder-Feeder Movement has enlisted the cooperation of various home economists and dietitians thruout the state in a concentrated effort to touch the subject from many angles. The Safe Diet is being explained and publicized. This diet calls for lean meat at least once a day with liver once a week.

Medical science now prevents and even cure pellagra with nicotinic acid, an identified substance in vitamin B complex or G, as some authorities call it, of which meat is an excellent source. If the substance is present in the regular diet, pellagra will not occur.

Dr. Joseph Goldberg of the U. S. Public Health Service laid the foundation for pellagra research and his work today is still used as basis for further study. He once stated that the only way to prevent pellagra is to be sure that the diet included the food containing the pellagra-preventive factor at all seasons of the year such as lean meat, milk, and such vegetables as turnip green, tomatoes, green peas, spinach and cow peas.

Only by practicing each day the Safe Diet can we insure the family diet against the deficiency diseases. Use of the protective foods liberally, with daily menus containing milk, meat, fruit and vegetables in variety, and in sufficient quantity, and in sufficient requirements of the family is the best insurance against doctor's bills.

City people dependent upon cash earnings may find it impossible to buy all the elements of a safe

diet. Country people can produce them for themselves, regardless of what they cost their city neighbors.
