VOLUME VIII 3c A COPY NUMBER 84

Franklin's Out In Front: Willkie Lags: More Yet

They're coming in good, and thanks, folks. We're glad to see that you're interested in the News Presidential Poll. The "ballot box" will be on the piano stool as long as we're open, and until election day, and if you haven't "spoke your piece", you can do it just any time.

You don't need one of the coupons in the News. Just any kind of scrap will do, and we've got a pencil and pad tied to the box so you may use that. Anyway, let's vote. You need not sign your name as we only want to know how, not who.

Here's the total for this issue of the News:

FDR	39
WLW	9
Last Report:	
FDR	40
WLW	19
TOTALS:	
FDR	79
WLW	28

One vote, we didn't count, since this is supposed to be a poll of Coryell county, is one we got by mail from Wichita, Kansas. Of course, this gentleman's vote will count in the National Election, and we thank him for his interest in our poll.

Come on, folks, let's vote!

Two Negroes Enter Ussery Home While Mrs. Ussery There

Two unknown negroes Sunday morning entered the home of Ed Ussery of near Gatesville, according to Sheriff J. H. Brown, and ordered Mrs. Ussery to give them something to eat. When she started to scream, they told her they'd kill her if she did.

Mrs. Ussery gave them eggs and raisins and then they demanded a shirt and trousers, and she was forced to get them for them.

They then left the house, and have not been seen since. Mr. Ussery had just left the house a short time before. They had no car with them at the time.

Brazos Fair To Open October 18: Local Exhibits

The Brazos Valley Fair which opens Friday, October 18 and runs through Sunday the 27th will have the largest and finest collection of agricultural exhibits in its history according to word received from the officials. The stock show will be greatly enlarged also and will have double interest for most people because of the arrangement that actually makes two different and complete shows. There will be a fat stock show for 4-H club and FFA boys the first five days of the fair, and a breeders show on the last five days.

The midway entertainment will be supplied by the Goodman Wonder Shows who are making their first tour of Texas this year. On their brilliantly neon illuminated 'gayway' will be found shows and rides for every taste and every age.

Thursday the 24th has been set aside for the school children of Central Texas. President Harrison Waite has written the superintendents of the schools in all Central Texas counties asking that schools be dismissed at noon on that day in order that the children may visit the fair. A free ticket for a riding device will be given every school child and from noon until 6 p. m. admission to the midway will be free.

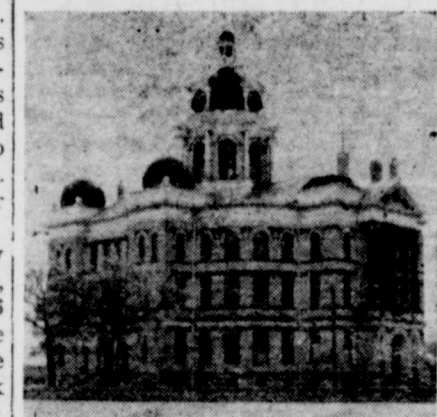

PEYTON'S CAFE IS NEW BUSINESS IN GATESVILLE

Sale of Paul's Cafe to Peyton Morgan has just been announced and in the future it will be known as Peyton's Cafe.

Mr. Paulos came here some time ago from Waco, and is now planning to go to Brownwood where he will open another cafe.

Mr. Morgan needs no introduction here, since he has been with the Gatesville Coca-Cola Bottling Company for a number of years, and knows the catering business from experience, and also how to meet the public.

WEDNESDAY IS "C"-DAY FOR SCRIBES OF THE NEWS TO BE OUR GUESTS

From just about every corner of Coryell County, they'll come, the Community Correspondents of the Coryell County News, and they'll have it all "on the house".

We're going to do our level best to show these folks a good time and let them have a better idea of what they are doing to make the News the medium of interest that it is for Coryell county.

There won't be any particular business session, but there are a few things we would like to talk about, and to interest each and every correspondent in. Too, there will be a short welcome, we understand, from some of the civic organizations.

The day will open at 9 o'clock at the News office, where all will gather, and receive the necessary passes, etc., and the other instructions which are necessary. We're going to take them thru the News office and show those who have not already seen "how the wheels" go around about what is done back there.

About 9:45 we'll all go to the City Hall, where whatever busi-

ness is to be conducted can be done so at that time. It's to be done so sweet and we promise you won't be bored. We'll be thru before 11 o'clock, and then the correspondents can shop, or do whatever else they want to, until noon.

At the noon hour, we'll eat, and one of the local cafes.

Then, at 2 o'clock, when the movie palaces open, they'll all be given admissions to the show, and adjourn for their homes when the show is over.

These folks, your neighbors, handle your "correspondence" in your vicinity, and are a very necessary part of any and all newspapers. We think they deserve a little something in the way of entertainment, and this is our opportunity to provide it.

Last week was National Newspaper Week, in fact, it goes thru until October 8, and we are climaxed this year's Week with this little treat for our Community Correspondents.

Well, we say, "we'll be see'n you here Wednesday!"

Three-In-One Is Shoe Polish, Also A Birthday for 3

That's it, three birthdays on one day, and it all happened Saturday, October 5.

That's the day Mary, Marion Dyess and Robert Leland Dyess all in one family, celebrate their birthdays every year.

Now, that's funnier, since Marion and Mary are twins, and, Robert Leland was unusually lucky one of his birthdays, since he was presented with "two big birthday presents" on one of his birthdays.

These "folks" (they wouldn't like to be called children) are children of Mr. and Mrs. R. C. Dyess Sr., incidently celebrated their twenty-eighth wedding anniversary on October 6.

It certainly must have been a big celebration.

Columbus Day To Be Celebrated In Waco

In Waco, on October 12, Columbus Day, a feature program will be given in celebration of that day, and will feature an address by J. J. Kiane, State Deputy of the Knights of Columbus for Texas of Austin.

Other speakers will be the Jewish Rabbi Wolfe Mache and Hilton E. Howell, well known Baptist leader of Central Texas.

Father John Domenge, Ph. D., D. D., a native of Spain will also give a short talk on Columbus the man.

A. E. Quinn of Waco, will be the master of ceremonies.

Gas Company To Aid in Defense Program

The gas industry's responsibility in the national defense program, ways to improve customer service, and preparations for meeting the peak demands for winter fuel were studied by more than 400 Lone Star Gas System foremen, managers and other key men who have just completed their annual conference in Dallas, according to Earl W. Heath, manager of the Gatesville district, who attended the meeting.

"The Lone Star Gas System is equipped better than ever before to furnish an adequate supply of gas in the face of extreme demands," he said. This will be par-

(Continued on last page)

Womanless Wedding To Be Feature of Show At Pidcoke

Friday night at Pidcoke School, a womanless wedding with all the trimmings will be given by the folks of that school, and, it's all on the house.

In addition, there'll be a box supper, and if you're hungry, it's a nice time to get nicely filled up. There's no admission charge to any of the festivities.

Singing Convention Held At Leon Junction, Sunday

The Coryell County singing convention was held at Leon Junction last Sunday and a huge crowd of singers and song lovers is said to have attended. Special groups from Belton, McGregor, Moody, Flat, Temple and other places were featured on the all-day program.

The place and date of the next convention will be announced later, according to Mr. Elms.

Joe Hinson Was in Car Wreck Near Oglesby Sunday

Sunday, about two o'clock, a car driven by Joe Hinson was in a collision with a transient's car near the Oglesby cut-off.

The transient's name was not learned. Both cars were badly damaged but no one was seriously injured.

Misses Rosa Lee Reed, Lois King, Lorraine Ward, Cordelia Watts and Waldean Dollins were among the Gatesville people who witnessed the West-Gatesville football game at West Friday night.

LONG ILLNESS FATAL
TO W. C. COWARD

William Cullen Coward of Levita passed away Saturday, September 28 at 7 a. m. after an extended illness. Funeral services were held Sunday afternoon at 3 o'clock at the Ater Church, conducted by Dr. A. R. Corn, who was assisted by Rev. Jack Shaw. Burial was in the Ater cemetery.

Mr. Coward was born September 29, 1862 near Oxford, Mississippi and moved to Texas in 1874. At an early age, he gave his heart to Christ and joined the Methodist Church at Ater. In 1891 he was united in marriage to Miss Mattie Yows of Hay Valley. To this union were born six children, three of whom preceded him in death. Surviving are his companion, Mrs. Mattie Coward; three children, Roscoe Coward of Ater, Stella Russell of Levita and Bettie Hill of Ireland; nine grandchildren and a host of other relatives and friends.

Since childhood, Mr. Coward had lived a devoted Christian life, now he has received his "inheritance, incorruptible and undefiled reserved in heaven" for him.

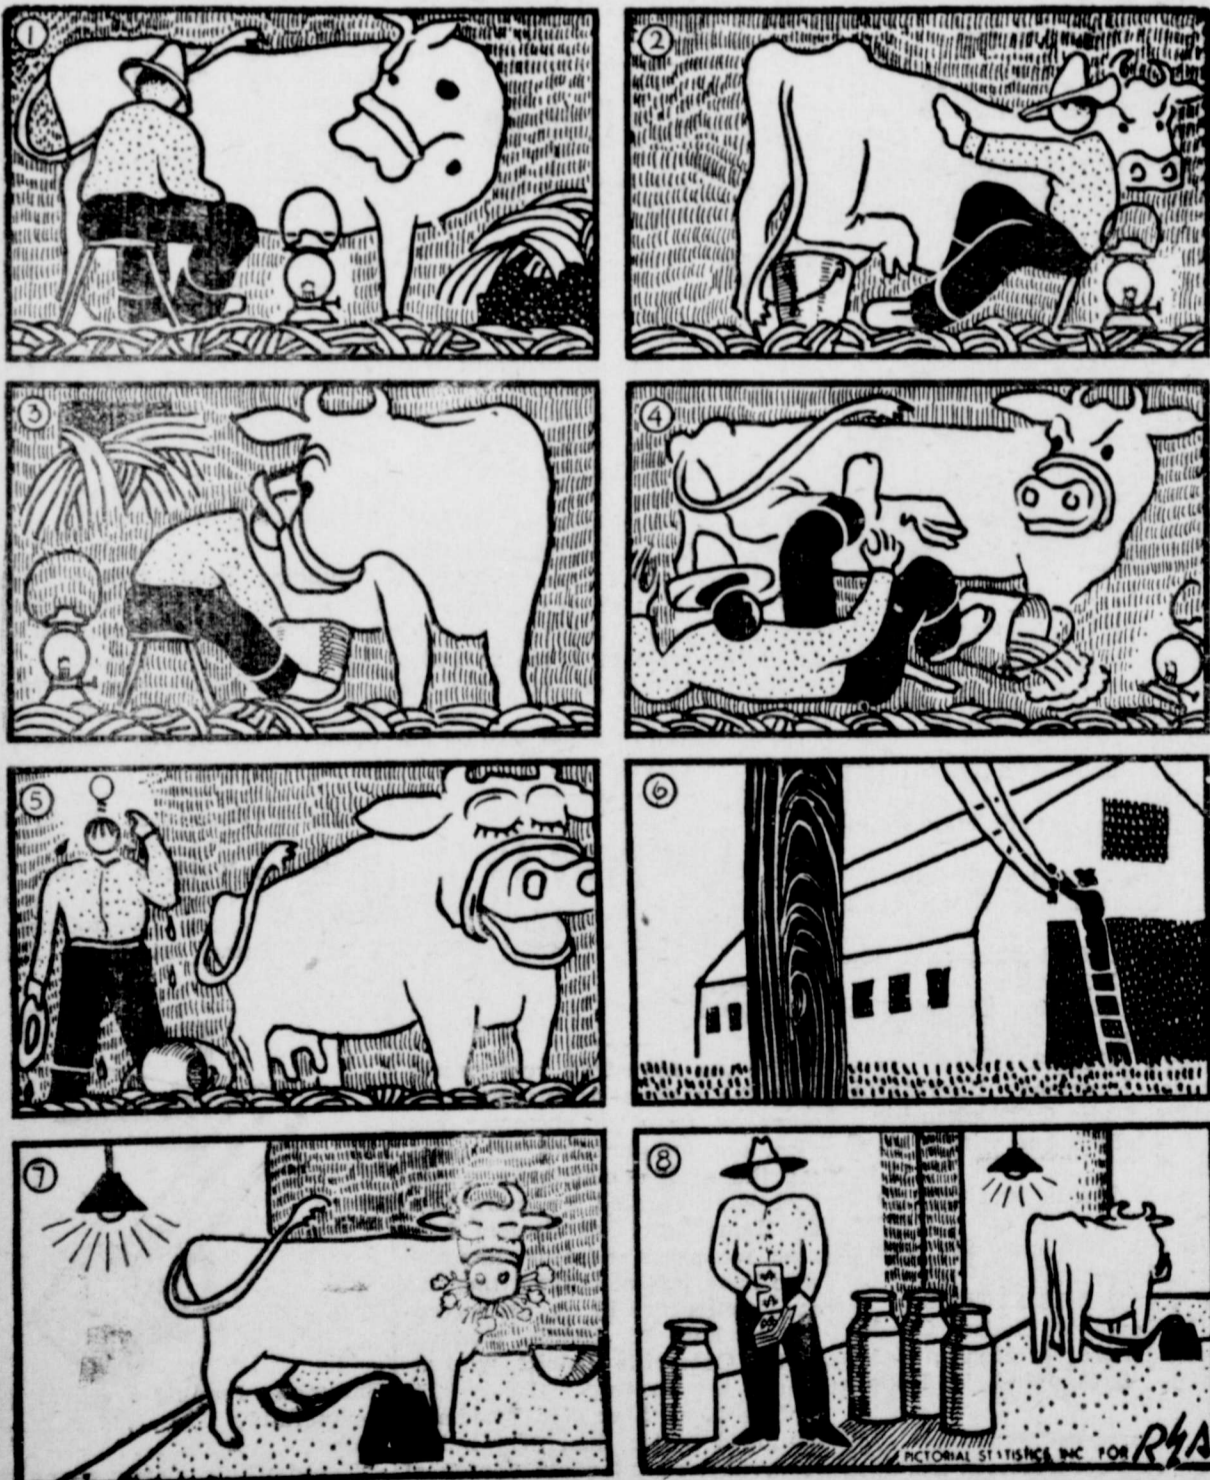

CARD OF THANKS

We wish to express our sincere thanks to our many friends who so faithfully assisted us during our bereavement.

May God's blessings be on you all.

Mr. and Mrs. David Corrigan
Mr. and Mrs. A. O. Welch
Mr. and Mrs. Ben Shelton.

Leaird's Dept. Store

OUR DEMOCRACY — by Mat

THAT WE MAY EAT AND LIVE
— NEHEMIAH V-2.

PRIMITIVE MAN HAD ONLY THE CRUEST OF AGRICULTURAL IMPLEMENTS, DEPENDED LARGELY ON NATURE'S BOUNTY.

ANCIENT EGYPTIANS WITH OX-DRAWN PLOW MADE FIRST GREAT STEP IN PROGRESS OF AGRICULTURE.

FOR CENTURIES METHODS AND IMPLEMENTS STOOD STILL. IT REMAINED FOR DEMOCRATIC U.S., WITH SELF-GOVERNING MEN TILLING ACRES THEY OWNED, TO BRING FARMING TO ITS PRESENT DEVELOPMENT. TODAY IN EDUCATION, LIVING STANDARDS, HOUSING, AS WELL AS METHODS, U.S. FARMERS LEAD THE WORLD.

GETS ALONG ON 38 ACRES

(Note— A public service feature of the Coryell County News in cooperation with the FSA.)

Out on a bare hill near Hamilton, Texas, lives Bruce Summerford, working 38 acres of land and making a living at it which is two or three times as good as the living which most Texas and Oklahoma farmers make on 100 acres. Summerford has only one complaint. "I have too much land," he says. "I have 38 acres, and I could get along better with 20."

When Summerford bought the farm in 1927, it had been in cultivation for 40 years, and was gullied and grown up in Bermuda grass. Such corn as it raised was about 18 inches tall and "most of that was tassel".

Summerford had been making a scanty living with a delivery truck in Hamilton. When he moved to his new farm, which he had bought for \$35 an acre, his first job was to build up the land.

Ranchmen have most of the land around him, because they say it is too poor for anything else. Summerford went to them and asked for the manure from their stock pens. "They let me have it gladly, for it saved them cleaning out the pens themselves," says Summerford. "But they warned me against putting it on my land. They said the climate was too dry, that manure would burn up the crops."

Summerford planted five acres of cotton the first year, got two and a half bales. He left two rows unfertilized, as a check. "If there was a single boll on that unfertilized cotton, I couldn't find it," he says.

As time went on, Summerford improved more and more of his land and grew as much as 25 bushels of corn to the acre. His sweet potatoes have made 125 bushels, and average 100.

But his secret is not in large yields, but in many yields. He grows at least two crops a year on all his land, and on some of it three. He has dropped cotton for peanuts, and this year is making fifty bushels to the acre.

Orchards and truck crops yield his principal revenue. In 1936, 2,000 berry plants gave him 2,600 gallons of berries. His peach and plum trees yield an average of \$100 an acre. All his trees are planted on terraces and of course fertilized. This year he has changed to commercial fertilizer. He prunes his trees low, to help them withstand the West Texas winds.

Summerford leaves the sides of his main hill in pasture, and breaks his heart that he hasn't time enough to terrace it properly or to sod all of it in Bermuda. "I just have too much land", he means.

He has built a dam across an old railroad cut at the foot of the hill which provides him plenty of stock water, fed by the run-off from fields, orchards and pasture terraces.

Summerford plants his crops in four foot rows between his orchard trees. "But that is too close" he says. "We are all too greedy".

Mrs. Summerford is one of the

wheel horses in the team. She says her husband can grow the crops but that if she'd let him "He'd give them away". She cranks up her ancient automobile and drives to town every day, taking her current offerings of fruit, vegetables and eggs to Hamilton hotels and special customers, who pay her 35 cents a pound for her butter and other prices in proportion, because she has established a reputation for quality. Most of the Summerford fruit is sold in the orchard to local customers.

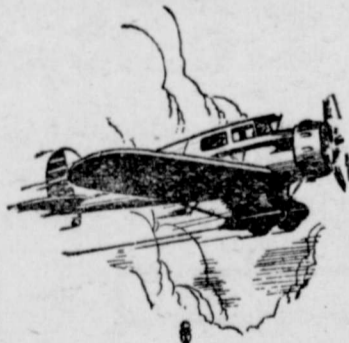

A herd of 15 sheep yield wool revenue and keep the grass down in Summerford's pasture. A flock of 150 laying hen supplies their table and adds to the cash income. Two cows give four gallons of milk each day, each, and "I could crowd them to five", says Summerford. Power is supplied by two work horses.

The dwelling on the Summerford place has been gradually improved in the 13 years they have owned it and is now a comfortable six-room cottage, furnished in a comfort and style rarely seen in farm houses. However, it still keeps its principal place as a cog in the work machine. Mrs. Summerford has one large closet filled with glass jars of preserved fruit, including her own grape-juice from their own grapes. Another large closet is completely filled with cans of vegetables.

The Summerford annual cash income is in the neighborhood of \$1,500. Besides that they supply their own food so that their grocery bill is next to nothing.

Bruce Summerford has never missed a payment on his land, and he owes no other debts besides his land note. His thoughts are all centered around making that land more productive. He has one great pride. "I am a farmer" he says.

**Mr. and Mrs. B. K. Cooper
Entertain Bridge Club**

Members and additional guests of the Tuesday night Bridge Club were complimented when Mr. and Mrs. B. K. Cooper entertained at their home on south Lutterloh avenue Thursday evening of last week. Placed at vantage points about the party rooms were bowls of lilies and marigolds.

A refreshment course, consisting of ice cream and ice box cake, was served to the following: Messrs. and Mesdames R. W. Ward, Francis Caruth, Troy Jones, Howard Franks, and Mesdames Dawson Coope rand D. R. Boone.

Winning high score prize among the women was Mrs. Jones, and Mr. Ward received high award among the men.

**Mrs. Clay Stinnett
Is Club Hostess**

Bowls of seasonable flowers decorated the reception suite of the Clay Stinnett home on east Bridge when Mrs. Stinnett entertained in compliment to members and guests of the Thursday Bridge Club on the appointed afternoon last week.

High and second high score awards were presented Mrs. E. L. Stewart and Mrs. Rufus Brown, respectively. Other players were, Mesdames Robert Brown, R. B. Cross, D. D. McCoy, R. W. Ward, Richard Dickie, C. E. Gandy, H. K. Jackson, J. W. Laird, Robert Scott, and C. E. Craddock.

The concluding courtesy of the affair was the serving of an appetizing ice course.

**Friends of Miss Musette
Tubbs Complimented**

Miss Musette Tubbs entertained a group of friends with a party last Friday evening at her home in Coryell City. Various games were enjoyed by the following: Misses Eva Louise Mack, Elsie Jayroe, Wilma Dean Heartwick, Pearl Gilmore, Ollidene Sadler, Celestine Rabbe, Faye Bradon, Rosalean Luning, Gladys Gibler, Florene Henning, Irene Tubbs, and Messrs. Dale Britain, Armen Weiss, Junior Lee, Olen McBroom, Fish Kilkerson, Levern Fry, M.

L. Bland, Robert Jayroe, Ervin Gibler, Paul Keener, and Pruett Tubbs.

**Jones-Adams Nuptial
Rites Held Sunday**

Miss Faye Jones, daughter of Mr. and Mrs. J. E. Jones of the Carden community, became the bride of Don Adams, son of Mr. and Mrs. A. Y. Adams of Jonesboro, Sunday at 7:15 a. m. at the home of E. D. Shelton in this city. Mr. Shelton performed the single ring ceremony in the presence of only a few friends.

The bride was attired in a green ensemble with which she wore black accessories. Her bouquet was of white roses.

Mr. and Mrs. Wilson Brazzil, Elton Edwards and Albert Yeilding were the only attendants at the wedding.

The couple left immediately following the ceremony for a brief honeymoon trip to Dallas, after which they will be at home in this city.

**Surprise Birthday Dinner
Honors Mrs. S. A. Clemons**

A group of relatives entertained with a dinner in Raby Park Sunday in celebration of the 82nd birthday of Mrs. S. A. Clemons.

Those who attended were: Mrs. Bob Thompson and children, Gail, Dorothy, Doris Glen and Roger, of Temple; Mrs. W. D. Craddock and daughter, Evon, Mr. and Mrs. Mike Edmondson and son, Davis Ray, Mr. and Mrs. H. O. Gilchrest and children, Ruth Eugene and Don Powell, of Waco; Mr. and Mrs. Walter Clemons, Mrs. Sol Cox, Mr. and Mrs. Clarence Vaughn and daughter, Linda, Mr. and Mrs. Lewis Hackney, Mrs. Joe Sasse, Mr. and Mrs. Minas Clemons and daughter, Bessie Fay, Mr. and Mrs. Ray Hollingsworth, Mr. and Mrs. Bob Clemons, Mr. and Mrs. J. W. Thompson, Mr. and Mrs. Alvie Clemons and children, Susie and Sam, Miss Josephine Clary, Mr. and Mrs. Homer Clemons and Waldine, Mr. and Mrs. Clifford Clemons and children, Inez and James Bewford, Mr. and Mrs. George Bamburg and Mary Louise.

**Ace High Bridge
Club Entertained**

Misses Mary Oldham and Wilhelmina Cayce were co-hostesses to members of the Ace High Bridge Club when they entertained at the R. G. Dickie home on east Main Friday evening. Adorning the reception rooms were bouquets of queen's wreath and roses.

Concluding the presentation of the high, second high and low score prizes to Miss Bess Holmes, Miss Lois Grantham, and Mrs. Ola Mae Parks, respectively, the hostesses passed a delectable salad plate.

In attendance were the following: Misses Aurora Yongue, Mamie Sue Halbrook, Lois Grantham, Maude Alyce Painter, Bess Holmes, Minnie Lou Witt, Christine Moran, Dorothy Culberson, Sidney Gale Gibson, Truie Pearl McGilvray, Thelma McGilvray, Linnie Fore, Ann Hill, and Mesdames Ola Mae Parks, and A. L. Freeman of Belton.

MAPLE CLUB NEWS

The meeting of the ladies' club has been discontinued during the busy season. We will begin our

work again next Thursday, Oct. 10, when it meets with Mrs. Sam Shults. Everyone be on hand and start our club work again.

Mrs. R. S. Farmer visited her daughter and son-in-law, Mr. and Mrs. V. C. Bradford, in Goldthwaite Sunday.

HELP STOMACH DIGEST FOOD

Without Laxatives—and You'll Eat Everything from Soup to Nuts
The stomach should digest two pounds of food daily. When you eat heavy, greasy, coarse or rich foods or when you are nervous, hurried or chew poorly—your stomach often pours out too much fluid. Your food doesn't digest and you have gas, heartburn, nausea, pain or sour stomach. You feel sour, sick and upset all over. Doctors say never take a laxative for stomach pain. It is dangerous and foolish. It takes these little black tablets called **Bell-sens** for indigestion to make the excess stomach fluids harmless, relieve distress in no time and put you back on your feet. Bell-sens is so gentle it soothes and cleans the stomach glands. Ask for Bell-sens for indigestion.

Irish Lose To Oglesby, Friday

In their 1st actual six-man contest of the season the Oglesby High School Tigers bowled over a classy Ireland team at Oglesby Friday by a count of 41 to 6.

From the very first the Ireland team had trouble holding the Tigers in check as McKelvain, Griffin and Terry and others plowed through the Irish line for huge gains.

The Tigers are strong contenders for the Six man crown this year as most of their players are seasoned gridsters who have had one or more years of experience in six-man football.

The Irish are usually a slow team to start but seldom if ever fail to pull their full quota of games out of the hat before the season is ended and their opponents this year can count on getting a battle from the Irish.

Here's the Tigers' lineup. The Ireland team was not available:
 McKelvain QB
 Griffin HB
 Clearman HB
 Ethridge E
 Terry C
 B. Clearman E
 Reserves were: Windham, Jackson, Davis and Spradley.

Junior Hornets Drop Games Thursday Nite To E. Waco Jr. Hi.

Thursday night, Coach Fred Schwarz's Juniors dropped their second struggle of the season to a passing East Waco Junior High club by a county of 0-13.

The east sides completed 17 out of 21 passes which counts for the defeat, Parker and Easter on the tossing end. Their first counts came in the first quarter and the final by a 30 yard to Carpenter in the final. Garner, for the east sides looked good also in the backfield.

Stars on the Jr. Hornets were not dimmed by the loss and Sam Ed Franks, diminutive Quarter staved off a touch by a nice bit of defensive play. Boynton looked good at end and Puckett on the opposite snared plenty of passes for back, Capt. Thomas, who did the margin of backfield play, being well supported by Morgan, Edwards, and Franks.

Line play for the Juniors was featured by Farquhar, Copeland, Ashby and McClellan. Substitutes were numerous and the locals turned in a good game.

Line up:
 Jr. Hornets E. Waco Jr Hi
 Puckett RE Farna
 Farquhar RT Lane
 Copeland RG Nallen
 Ashby C McDougal
 Edwards, D LG Williams
 Journey LT Carpenter
 McClellan LE Hamli
 Thomas, Capt. H Scott
 Edwards, S H Parker
 Morgan F Garner
 Franks Q Easter

Officials: Arnold, GHS, Referee; Jackson, Baylor, Umpire, Wilson, J.C.

Flat Wallops Pottsville, 30-12

Friday afternoon playing on their home field the Flat Yellow-jackets went to town with a convincing 30-12 win over the Pottsville half-dozen.

Flashing a strong running and passing attack the Jackets scored early in the first quarter on about the third play after they got possession of the ball. They scored twice in the second quarter, once in the third and once in the last. Pottsville pushed over their first marker in the second quarter when McPherson plunged over the line for the visitors first touchdown. Their second counter was also made by McPherson.

For the Jackets, Thomas, Whigham and Taylor scored one touchdown each while Love chalked up two.

McPherson was by far the most outstanding player on the Pottsville squad while Blackshear, Williams, and Taylor played brilliant ball for the Flat crew.

Junior Hornets Meet Hamilton

Thursday night of this week Coach Schwarz's Jr High Hornets will clash with the Hamilton Jr. High School aggregation, the game starting promptly at 7:30 on the local field.

The Junior Hornets thus far in the season have failed to break into the win column but have exhibited a classy little team that deserves the support of every Gatesville football fan.

The local Juniors were previously scheduled to play Mexia here Thursday night but this game has been cancelled and the game with Hamilton was matched.

The admission prices for these Junior games are exceedingly low and they'll be expecting to see you in the stands Thursday night.

Puckett, Farquhar, Copeland, Ashby, Edwards, Journey, McClellan, Thomas, Edwards, Morgan and Franks will probably all see service in the local lineup Thursday night.

STATEMENT of the Ownership
 Management, Circulation, etc., Required by the Acts of Congress of August 24, 1912 and March 3, 1933. Of Coryell County News published Tuesday and Friday (Semi-Weekly) at Gatesville, Texas for October, 1940.

State of Texas, County of Coryell. Before me, a Notary Public in and for the State and county aforesaid, personally appeared W. Mat Jones, who having been duly sworn according to law, deposes and says that he is the (Owner, Editor) of the Coryell County News and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation,) etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, as amended by the Act of March 3, 1933 (embodied in section 537, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: W. Mat Jones, Gatesville, Texas

2. That the owner is: (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding one percent or more of total amount of stock. If not owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding one percent or more of total amount of stock. If owned by a firm, company, or other unincorporated concern, its name and address, as well as those of each individual member, must be given.) W. Mat Jones, Gatesville, Texas.

3. That the known bondholders, mortgages, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities are: (If there are none, so state). Ayres Compton, Dallas, Texas; S. F. Bethel, Dallas, Texas; Mergenthaler Linotype Co. Brooklyn, N. Y.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

Signed W. MAT JONES, Owner.
 Sworn to and subscribed before me this 7th day of October 1940.
 (Seal) Harry W. Flentge.

(My commission expires June 30, 1941.)

INFANT SON OF MR. AND MRS. DAVID CORRIGAN DIES

J. David Corrigan, infant son of Mr. and Mrs. David Corrigan, was born Sunday at 1:18 a. m., and passed away about 10 a. m. the same day. Funeral services were held at the residence in this city Sunday afternoon at 5 o'clock, and burial was made in the City Cemetery.

Surviving besides his parents are: one sister, Patricia Gene, and his grandparents, Mr. and Mrs. A. O. Welch of Gatesville.

New Remington Portable Type-writers, \$3.00 down, \$3.00 a month, with case.

PILOTS PERSIFLAGE—

to a wing.
 Dep: Deperdussin, a type of control, named from its inventor.

Developed Area of a Propeller: A layout of the area of a propeller blade designed to represent the total area of the driving face, in which the elements of area developed as if unfolded onto the plane of the "drawing (necessarily an approximation on definite assumption, as no true development of the helix can be made).

Dirigible: A form of balloon, the outer envelope of which is of elongated form, provided with a propeller system, car, rudders, and stabilizing surfaces. Nonrigid, a dirigible whose form is maintained by the pressure of the contained gas assisted by the car suspension system. Rigid, a dirigible whose form is maintained by means of a rigid structure contained within the envelope. Semi-rigid, a dirigible whose form is maintained by means of its attach-

ment to an exterior girder construction containing the car.

Disk Area of a Propeller: The total area of the disk swept by the propeller tips.

Distance-piece: See Stringer.
 Dive: To descend so steeply as to exceed normal flying speed.

Diving rudder: See Elevator.
 Dope: A cellulose compound applied to airplane fabric to render it smooth, taut and strong.

Drag: The resistance to the forward motion of an aerofoil. On an airplane this is restricted to the resistance of the plane and control surfaces. It must not be confused with structural resistance, which is a resistance of the structural parts of an airplane—body, wires, landing gear, etc. Total resistance includes structural resistance and drag.

Drift: Misnomer, having in common parlance the same meaning as drag. Drift should not be used.

Drift, Side: Deviation from a course, due to cross winds. Distinct from yawing as the machine does not alter its direction.

Drift Indicator: An instrument for measuring side drift.

Droop: A downward curvature or the trailing edge of an aerofoil, resulting in an increased angle of incidence. This is used in aligning to obtain greater lift in one wing to counteract the effect of propeller torque. Wash-out accomplishes the same purpose but is used on the opposite wing. See Washout.

Edge, Leading (Entering, Cutting): The edge of an aerofoil which is first subjected to the action of the air. Trailing: The edge opposite to the leading edge.

Elevator: A hinged surface for controlling the longitudinal attitude of an aircraft i. e., its rotation about the athwartship or transverse axis.

Hornets Battle Trojans To 0-0 Deadlock At West Friday Night

FUMBLE ON 1 YARD LINE COST HORNETS VICTORY. CROW STARS FOR LOCALS

By WILSON BRAZZIL
News Sports Editor

In a game that was entirely void of football strategy but full of fumbles and thrills the West Trojans and the Gatesville High School Hornets battled to a 0-0 on the West gridiron Friday night.

Late in the third quarter with victory at their very finger tips the Hornets fumbled on the 1 yard line and lost an excellent opportunity to salt the game away in what turned out to be the only actual scoring play of the entire game.

Peters, 140 pound Trojan end, turned in a brilliant performance for the West team and at times ran the Hornets ragged with his spectacular running and passing. Garrison, Jaynes, Hutyra and Deitermann also looked good at their

respective positions and greatly aided the fleet-footed ball-carrier, Peters. The Trojans threatened in the third quarter via the pass route but the ball fell incomplete near the Hornet's 10 yard stripe and Gatesville gained possession of the ball.

Crow in the backfield, Gribble at tackle and White at guard were outstanding for the Hornets and played heads-up football during the entire game. Fry, a reserve, Sydow, King, Davis and others had their big moments and also turned in creditable performances for the locals. On the offense the Hornets topped the Trojans by a slight margin but fumbles during the crucial moments of the game cost them the contest.

Here's the play by play.

First Quarter

Hutyra kicks to Crow on 30 who returns to the 35 where he is stopped by Deiterman. Crow plunges through hole at center for 3. Fry fails to gain at C. King goes over RG for 3. Fry on long sweeping end run makes 15 yards and first down. Crow goes over RT for 6 yards, stopped by Garrison and Peters. Crow gains 2 on reverse. Oldham makes 2 at C. Fry is stopped at C for no gain and Gatesville loses ball on downs.

Hutyra fails to gain at center, stopped by Crow. Sydow stops Hutyra at LG and West loses 5 yards on the play. Hutyra punts from the 25 across Hornets goal line. Crow kicks out to 25 yard stripe where the ball is taken by Morgan and returned two yards before being hit by White and Davis. Journey goes in for Cross at center for the Hornets.

Husak stopped at center by Sydow for no gain. Pass Hutyra to Peters is complete for nine yards, Peters being stopped by Crow. Ball goes over to Hornets as Trojans fail to gain necessary yardage for a first down. Fry makes 3 at RE as first quarter ends. Score, GHS 0, West 0.

Second Quarter

Pass, Fry to Gribble nets 10 yards and a first down. Fry plows over center of line for 2 yards. Fry again goes over center for 6 yards and is pulled down by Husak and Jaynes. Fry is stopped at center, no gain. Pass, Fry to Gribble, incomplete. Oldham on reverse play is hit hard by Jaynes and Husak and no yardage is gained on the play. Crow kicks out of bounds on the West 25 yard line.

Jaynes fails to gain when hit hard by King. Sawyer is stopped at center for no gain. Pass, Sawyer to Deiterman is incomplete as Fry bats it down. Hutyra kicks to Fry on the 30 who returns it 5 yards before being stopped by Garrison. Pass, Fry to Gribble is incomplete. King on fake pass, makes 3 at center. Fry is blocked at RE for no gain. Crow quick-kicks to Trojan's 20 yard line. Jaynes is stopped at LG by Sydow for no gain. Pass, Hutyra to Husak is intercepted by Crow. Crow on end run makes 8 yds.

Third Quarter

Crow kicks to Peters on 25 yard line who is stopped by Gribble after an 8 yard return. King on hand-back goes around right end for 8 yards and a first down. West fumbles ball on snapback and Oldham recovers ball for Hornets. King goes high over center for 4 yards. Fry at RE makes 8 yards and 1 down. King gains 1 thru center. Fry carries ball to 1 yard line for first down. Davis fumbles and West recovers on Hornet's 1 yard line.

Hutyra punts out to Fry on 30 ball makes a wicked bounce and Garrison recovers the ball for Trojans. Pass, Hutyra to Peters is incomplete. Janes is hit hard by Sydow and Davis and fails to crash over at center. Morgan circles RE for 1 yard. Hutyra is thrown for 3 yard loss as Trojan's line leaks and Gribble makes the tackle. Hutyra kicks to Hornets 25.

Crow rolls over RT for 4 yards. White crashes through RG for 6 and a first down. White picks up 3 at center. Fry steps over RG for 3. Pass Fry to Gribble is batted down as third quarter ends.

Fourth Quarter

Fry makes 3 at center. Pass Crow to Gribble, incomplete. Crow's kick is blocked and West recovers possession of the ball on their own 30 yard line.

Pass, Hutyra to Peters complete for 10 yards, he laterals off to Husak who is downed by Davis. Hutyra stopped for no gain. Jaynes fails at center hit by Sydow and White, Pass, Hutyra to Peters is incomplete and it's Hornet's ball on the 15 yard line.

Fake kick and King makes 5 Hornets lose 4 as Crow is stopped by Garrison and Kucera. Crow, kicks, ball is received by Peters on the 50 yard line. Post for Williams in Hornet lineup.

White breaks through Trojan's defense and throws Hutyra for a 10 yard loss. Hutyra on long end run nets 10 yards and 1st down, stopped by Gribble. Pass, Hutyra to Peters is intercepted by Davis. Crow makes 5 at center. Pass Crow to Post incomplete. Walker for Post, Walker makes 1 at RE. Crow's kick is received by Morgan on the 25 who is stopped by Oldham after a three yard return. Golhke for Walker. Jaynes makes 3 over LT. Hutyra fumbles and Hornets recover. Thomas for Golhke. Crow fails to gain at center as game ends.

Final score: West 0; Gatesville 0.

Houston Post Hikes Subscription Price

The Houston Post, in its issue Tuesday morning, announced that its subscription price has been increased to \$1 a month, effective this date.

The statement of the publisher pointed to higher costs of news services and other items of operation imposed upon morning newspapers as responsible for the increased subscription price.

It was declared that the increase would cover only a small part of the increased costs of operation.

In 1937, New York and Alabama represented extremes of concentration of doctors. New York state had one physician for every 507 persons, Alabama one for every 1,390.

Nearly 4,000,000 adults in the United States can not write in any language.

TURNERSVILLE BUFFALOES ARE BEATEN BY COPPERAS COVE 61-6, FRIDAY

The Copperas Cove six-man team sparked by a dazzling back named Fabian, nipped the Turnersville Buffaloes 61 to 6 in a dizzy six-man football duel at Turnersville Friday evening.

The Copperas Cove team scored a safety on the opening kickoff and from then on it was their ball game. Miller and Adams aided Fabian in running up the count for Copperas Cove.

Tharp at center for the Buffaloes scored the only Turnersville touchdown of the game on a 20 yard end run late in the third quarter. Inexperience and lack of training greatly hampered the Buffaloes attack while the tough little Cove team swept thru the entire game without a sweat.

Here's the starting lineups:

TURNERSVILLE
Tharp C
Jacques HB

Smith HB
Derrick LE
Crawford RE
Clary QB
Vandiver HB

COPPERAS COVE

Horner C
Roberts LE
Miller RE
Fabian FB
Adams QB
Dewald HB
Officials were Balch, Young and Adams.

HAY FEVER

Test This Quick Relief

Try one dose "Dr. Platt's RINEX Prescription." Relief usually begins in a few minutes. A physician's internal medicine in convenient capsules, tasteless—a boon for sufferers from Hay Fever, Rose Fever, Head Colds, Catarrh, Asthma. Not habit-forming. Sneezing, wheezing, itching eyes, running nose quickly relieved. Satisfaction within a few hours guaranteed or money back. Your druggist recommends RINEX, \$1.00.

MUSCULAR BACKACHE - SORENESS - STIFFNESS PAINS-ACHES

If first good rubbings with soothing, warming **Musterole** don't bring you glorious relief from those torturing muscular aches and pains—due to cold—by all means see your doctor. But **Musterole** usually DOES THE WORK—

Musterole gives quick relief because it's MORE than "just a salve." It's a wonderful soothing "counter-irritant" which penetrates the outer layers of the skin to help ease local congestion and pain. Used by millions for over 30 years! 3 strengths: Regular, Children's (mild) and Extra Strong, 40¢.

Better Than A Mustard Plaster

GAS COMPANY—

ticularly beneficial in the national defense program where defense industries must have a dependable supply in order to carry on service. An interconnected system of miles of pipe lines bringing gas from more than 12000 wells in Texas and Oklahoma gives an adequate supply under the most extreme demands.

"Methods of helping consumers get maximum service from heating equipment through minimum operating costs was one of the chief concerns of the conference. According to recent survey, many customers fail to utilize their present heating equipment in a manner to obtain the most healthful and beneficial results. Because of this condition the company has shouldered the responsibility of educating customers in the proper use of heating appliances. Newspaper advertising is one of the ways by which we are teaching customers healthful heating habits. This campaign is incidental to the sale of appliances. We are trying to show how to use present equipment to get the best results from the standpoints of health and efficiency.

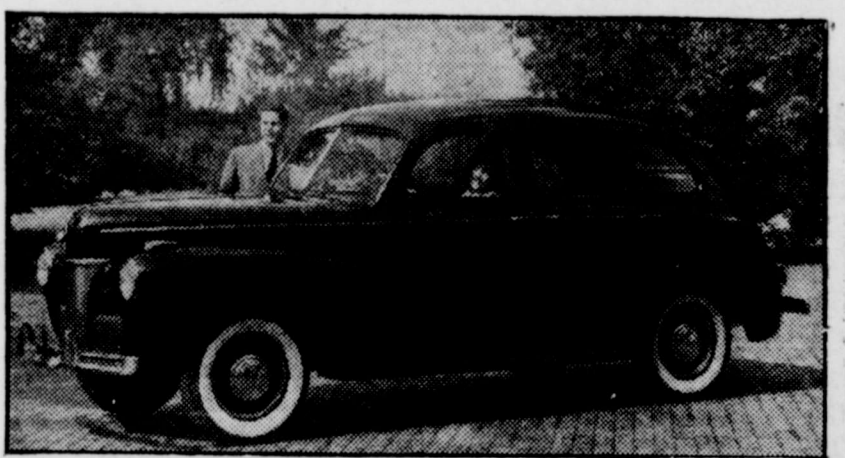

Purmela-Pidcoke 6-Man Game To Be Thursday

Thursday, will see the opening of the 9th grade 6-man football in Coryell county, when Pidcoke and Purmela meet for their first game. Ninth grade 6-man football is spanking brand new in this county, and both the coaches of these teams want games with other 9th grade teams.

This is another good idea, and it teaches the boys to handle themselves on the football field, whether it's 6 or 11 man football.

Joe Boyer and his mother, Mrs. Perry Boyer, of Waco were Gatesville visitors Friday.

WHY DO WE SHAKE HANDS WITH OUR RIGHT HANDS? (see below)

Partners in Liberty

BOTH SIGNED THE DECLARATION OF INDEPENDENCE, JULY 4, 1776, BOTH WERE SECRETARY OF STATE, BOTH MINISTER TO FRANCE, BOTH PRESIDENT, --AND BOTH DIED THE SAME DAY-- JULY 4, 1826!

The fires that never go out!

THE ORIGINAL FIRES STARTED IN THE OLD "HESTER STREET" PLANT (Feb. 14 1825) OF NEW YORK CITY'S FIRST GAS COMPANY HAVE NEVER TO THIS DAY GONE OUT!

In olden days men carried swords—and drew them with their right hands. Extending right hands was a sign of peaceful intentions—by clasping right hands men knew they were safe from each other!

New Yorkers received their first gas service long before our country's vast supply of natural gas was uti-

lized. On February 14, 1825, the first fuel manufacturing plant was started at Hester and Rhynder Streets, and the fires started that day have never gone out! Today, 115 years later, some 5,000,000 families in 8000 cities and towns use this universal fuel for cooking, water heating, house heating and refrigeration.

UNCLE SAM'S

SELECTIVE SERVICE

(Editor's Note: Below is one installment of a series of questions and answers on the peacetime military training program which has been prepared under the direction of the State Director of Selective Service, J. Watt Page.)

1. History and Purpose

1. Q—What is the purpose of the selective program?

A—The program's purpose is to train a body of reserves capable of meeting any military emergency that may confront this nation, and to select the men for this national duty by the fairest method possible—an enrollment of every man between the ages of 21 and 36, regardless of wealth or influence or social position. From this enrollment the United States Army will choose those men whom it deems best fitted to receive a year's training.

2. Q—Is the selective service program a newly-developed plan?

A—No. the selective service program was put into effect during the World War after the volunteer system of recruiting soldiers had failed to supply the nation's needs. After the war—in 1926—the United States Congress instructed the Army and Navy to work out a comprehensive selective service plan, and the program now being put into effect is the result of years of active planning by the nation's military authorities.

3. Q—How many men will be affected by the selective program?

A—Military authorities estimate that approximately 16,500,000 men between the ages of 21 and 36 will be registered under the program in the United States and its territorial possessions. In Texas approximately 90,000 men are expected to register. Approximately 5,000,000 are expected to be available for the training program.

4. Q—Who will administer the program?

A—The President of the United States will name a national director of selective service. In each state the Governor will serve as the coordinating head, and will appoint a State Director of Selective Service. Governor W. Lee O'Daniel has named Adjutant General J. Watt Page to hold this position in Texas.

5. Q—When will the selective service program go into effect?

A—President Roosevelt has issued a call for the registration of all men between the ages of 21 and 36 who are living in the United States and its territorial possessions. This registration will take place on Wednesday, October 16, and the first class of men called will probably begin their training about November 15.

6. Q—How long will this program last?

A—The present selective service law, passed by Congress, will remain in effect until May 15, 1945.

2. General Provisions

1. Q—I now have a job. If I am called for training and give up my job, can I get it back after my training is completed?

A—Congress, in the selective service law, seeks to insure that men called for training will regain their jobs. If the job is with the Federal government its return is guaranteed. If the job is with a private employer, it must be returned unless the employer's circumstances have changed so as to make it impossible or unreasonable to do so. If the job is with a state or local government, Congress advises that it be restored.

2. Q—What must I do to get my job back?

A—If you have completed your year's training and are still capable of holding the job which you gave up to enter training, you must make application for re-employment within 40 days after the training is completed.

3. Q—If the employer will not rehire me, what can I do?

A—You can take your case to the U. S. District Attorney who, if he believes you are entitled to reemployment, will file suit in Federal district court against your former employer to force him to rehire you and compensate you for any losses due to his failure to comply with the reemployment provisions of the law. The District Attorney will act as your attorney, and no court costs can be assessed against you.

4. Q—Will I lose my seniority and benefits such as insurance, by giving up my job to go into training?

A—The law provides that all persons who give up a job to enter training shall be reemployed in the same position, or in a position of like seniority, status and pay, without any loss of seniority or benefits such as insurance.

5. Q—I have already enrolled in college for the school year 1940-41. Will I have to drop out of school to report for training?

A—You can be called for training, but you will not have to report before July 1, 1941, giving you a chance to finish the school year.

6. Q—Will I lose the right to vote when I enter the training camp?

A—No. You can vote in person or by absentee ballot, although you cannot obtain a leave of absence of more than one day for the purpose of voting in person.

7. Q—What will the men called for training be paid?

A—The base pay for those called under the selective service program will be \$21 a month for the first four months, and \$30 per month thereafter.

3. Registration—Administration

1. Q—What is the purpose of the registration under the Selective Service Act?

A—The purpose is to get a complete census of all men between the ages of 21 and 36, with a view to determining which are most eligible for military training.

2. Q—When will the registration take place?

A—The President of the United States has proclaimed Wednesday

October 16, as national registration day. Registration booths will be open from 7 a.m. until 9 p.m.

3. Q—Where will the registration booths be located?

A—Each registrant will report to his usual voting box where he will be registered. Customary polling places are being used for registration because the public is familiar with their location.

4. Q—Who will be in charge of the registration?

A—The Governor of each state will be the directing head of the registration, but the key men will be the county clerks.

5. Q—How will the registrars at each polling place be selected?

A—The presiding judge and judges for each voting precinct, as provided by the County Commissioners' Court, are the registrars. The county clerk will appoint enough additional helpers to complete the registration in one day.

6. Q—Will these registrars be paid?

A—No. They will not be paid. It is the consensus of opinion that the election personnel should be willing to contribute one day's service to the national defense program.

7. Q—Where will the registrars get their instructions and materials for registration day?

A—The Governor will forward to each county clerk sufficient supplies and instructions for the registration. The clerk will then hold an instruction school for the chief registrars from each precinct, and these chief registrars will in turn instruct the assisting registrars.

8. Q—How many registrars can one registrar handle between 7 a.m. and 9 p.m. on registration day?

A—Experience has proven that it will take an average of 20 minutes per registrant, therefore the average number of registrants one person can handle will be about 30 during the day. Presiding judges will make sure they have sufficient helpers to take care of the registration for each voting precinct.

9. Q—Will the results of the registration be reported?

A—Yes. Local registrars will report results to the county clerk who will relay them to the Governor. When all returns are in, the Governor will make his report to the National Director of Selective Service in Washington, D.C.

4. Registration—Who is Affected.

1. Q—Who must register in October 16 under the selective service program?

A—Every male citizen of the United States and every male alien who has declared his intention of becoming a citizen, must register unless he is specifically exempted by law, provided he has reached his 21st birthday and has not passed his 36th birthday.

2. Q—What classes are exempted from the registration?

A—The Selective Service Law provides that the only classes exempt from registration are members of the armed forces of the United States, the National Guard, the reserve corps, the coast guard, the coast and geodetic survey, the public health service, and cadets and midshipmen at national military academies. The staffs of foreign diplomatic establishments in the United States are also exempt.

3. Q—Suppose a registrant is absent from his home voting box on registration day. What procedure does he follow?

A—Many registrants, such as college students, traveling men, and business men, will be away from their homes on registration day. They must go to the nearest polling place on that day and register. Their registration card will then be forwarded to the proper place.

4. Q—Suppose a registrant is sick on registration day. What should he do?

A—He may deputize some person to get a registration blank for him to assist him in filling it out. In some cases the person will be too sick to permit registration, so he will be allowed to register later on presentation of a doctor's certificate explaining the reasons for his non-registration.

5. Q—Suppose a man is married or suffers from some physical ailment which would make it impossible for him to perform

IT HAPPENS HERE . . . !

No, dear Reader, this isn't a picture of the fire caused from a bomb in England, Germany or some other part of War torn Europe, Asia or Africa!

It's a picture of a fire in the good old USA!

Caused, we expect, either by that demon Carelessness, or perhaps, it's an "on purpose" fire, for "investment" purposes. A Firebug's work!

Regardless, it costs, both you and me, alike. Since ours don't burn, and we certainly hope it doesn't, but this fire causes our insurance rate to ascend, just the same.

That's the reason for Fire Prevention Week, which is celebrated October 6-12.

Now, it's a good idea, to do a little "house cleaning" (most of us don't clean house too much) not as we think, and get the old papers, rags, and other "fire traps" out of our homes and businesses. This, alone, saves many \$\$\$ to the American insurer each year. What if they didn't clean up? They'd just be paying an extremely high insurance rate, which already, plenty that it is, is necessary for all businesses and individuals.

By the recent "hail" take a "victim's" advice. It pays to insure and be insured.

It probably pays more to be safe with clean premises, and this particular week is a darn nice week to make this extra money saving effort.

Maybe there'll be a proclamation, an effort on the part of the firemen, or something besides this, to call your attention to this necessity.

military service. Does he have to register?

A—Yes. All persons between the ages of 21 and 36, regardless of physical handicaps or conditions of dependency, must register on Wednesday, October 16.

6. Q—Can a man register late without being penalized?

A—Only if he can produce sufficient evidence to justify his failure to register on the national registration day.

7. Q—What is the penalty for failure to register?

A—A heavy fine and prison sentence is provided for failure to register. Registration officials will make up a list of those failing to register, and this will be turned over to law enforcement officials who will round up the truants.

5. REGISTRATION

The Actual Procedure

1. Q—What, exactly, will the registrant have to do on October 16?

A—He will report to his local polling place between the hours of 7 a.m. and 9 p.m. on Wednesday, October 16, 1940, to answer Questions on a registration form which will be asked by the registration officials.

2. Q—How long will this registration take?

A—The registration for each individual will require about 20 minutes.

3. Q—What questions will be asked?

A—The registration form includes questions on the registrant's name, age, mail address, telephone number, employer's name and address, the place and date of birth, the citizenship, and the name of a close relative of each of the registrants.

4. Q—Is a physical description required on the registration blank?

A—A brief physical description will be made by the registrar noting the race, height, build, color of hair and eyes, complexion, and obvious physical defects of each registrant.

5. Q—Will the registrant swear to his answers?

A—Yes. After the form is filled in, the registrar will read the answers back to the registrant who will then sign the registration form with the declaration that his answers are true. The registrar will also sign the form.

6. Q—What proof will an individual have that he has registered?

A—After the form is filled in, each registrant will be given a certificate showing that he has already registered.

7. Q—Will it be necessary to keep these registration certificates?

A—Yes. The registration certificate must be carried at all times so that it can be presented on demand to law enforcement or selective officials. The registrant also must notify his local board immediately of any change of address.

6. THE NATIONAL DRAWING

1. Q—In what order will the registrants be considered for classification and induction into service?

A—One of the basic principles of a selective service system is that all registrants shall be treated on an equal basis. The order in which individuals will be considered for classification and possible service will be determined by lottery—a national drawing.

2. Q—Will each local registrant receive a definite number?

A—Yes. After the registration is complete in each local area, the registration cards will be shuffled

(Continued on next page)

SELECTIVE SERVICE—

and mixed before numbering. Each person will then be assigned a serial number, and a list of these numbers in each local area will be posted for public inspection. It is contemplated that there will not be more than 3,500 registrants in any single area, so the serial numbers will run from 1 to 3500 or less.

3. Q—Will Number 1 in each area be the first man called for classification?

A—No. Numbers corresponding to the numbers in each local area—probably from 1 to 3500—will be placed in a container in Washington, D. C., and a drawing for

order will take place. For example, Number 2875 may be drawn first, then Number 147, then Number 3033, and so on, until all numbers have been drawn. The order in which they were drawn will then be made into a code list.

4. Q—Will the first number on the code list—say 2875—be the number of the first man in each local area to be called?

A—No. To insure the most complete impartiality in the administration of the selective service act, another drawing will be held. This time only one number will be drawn—possibly by the President of the United States. This number might conceivably be Number 3033, and will be known as the key number. This will be the number of the first man called in each local area for classification.

5. Q—After the numbers have been drawn in the national lottery, what will happen then?

A—A list of numbers, in the order in which the men will be called for consideration, will then be posted in each area so that all may know how soon he may expect to be called. Each man will then be assigned what is known as an "order number".

7. CLASSIFICATION—General Nature

1. Q—What does classification of the registrants mean?

A—It means that every person between the ages of 21 and 36 who registers on October 16, 1940, will be classified according to his availability for a year's military training.

2. Q—What will be the classes in which the registrants will be placed?

A—The main class—Class 1—will be composed of those who are available for training immediately. Persons whose service in civil capacities is of great importance (workers in munitions plants, for example) will be placed in Class II, and their call to training will be deferred. Those with dependents (wife, children, etc.) may be placed in Class III, deferred on the grounds of dependency. Certain individuals will be placed in Class IV when their service is undesirable on moral, physical, or other grounds or because the law defers them (ministers, etc.).

3. Q—How will this classification be made?

A—The local boards will classify all registrants on the basis of detailed questionnaires, interviews with registrants, and other information gained through private research.

4. Q—Will all registrants be placed in Class I, unless additional facts prove that they should receive a different classification?

A—Yes. If a registrant does not claim a deferment, for example, he will automatically go into Class I. If he fails to fill out his questionnaire he will be placed in the same class. The only way to get out of Class I, is to prove the right to a deferment or to be removed as the result of a physical examination which shows the registrant is not suitable for service.

5. Q—Suppose some citizen of the community isn't satisfied with the classification given to a registrant. What can he do?

A—Each citizen is interested to see that no favoritism or no errors creep into the classification. In each local board area a Government Appeal Agent, recommended by the Governor and named by the President, will appeal from any local board decision which he believes is wrong. If a citizen feels that Registrant X, who has been given a deferred classification, should be classified as available for training, he will present his facts in secrecy to the Government Appeal Agent who will then act. The Government Appeal Agent will also help ignorant registrants to secure justice.

8. Classification—The Questionnaire

1. Q—How will the classification of the registrants take place?

A—After the registrants have each received their order numbers, they will be given a detailed questionnaire by their local board which will provide the basis of their classification.

2. Q—How long will a registrant have to fill out this questionnaire?

A—The completed questionnaire must be returned to the local board within five days.

3. Q—Who can help the registrants in completing the questionnaires?

A—In each local board area, an Advisory Board for Registrants, composed of one or more members serving without pay, will assist registrants in answering the questionnaires.

4. Q—The questionnaire will consist chiefly of questions which will divulge the information on which the registrant's desirability for military training will be determined. It will call for detailed information on a registrant's family, economic, physical, and occupational conditions.

5. Q—Will this information be kept confidential?

A—All information of a personal nature given in the questionnaire will be kept confidential.

6. Q—What is the importance of this questionnaire?

A—On the basis of the answers given to these questions, the local boards will determine whether the registrant should be classified as available for immediate induction into training, or should be temporarily or permanently deferred from the training program.

7. Q—Must claims for a deferred status be made at the time the questionnaire is filed?

A—Yes. Unless the registrant demonstrates in his questionnaire by specific request, a desire for a deferred status, he will be classed as immediately available for the training program.

9. Classification—Procedure

1. Q—What does classification mean?

A—After all men between the ages of 21 and 36 have been registered, selective service officials must then determine which men are best fitted for immediate military training. In other words, each man will be classified as to his availability in one of the several groups—1. immediately available for training, 2. deferred for occupational reasons, 3. deferred because of dependent relatives (wife, children, etc.) or 4. miscellaneous deferments (death after registration, physical incapacity, etc.).

2. Q—Who will determine what classification a man shall receive?

A—The classification is left up to local boards, composed of three or more local citizens recommended by the Governor and named by the President. Texas will have 341 such boards, with no board having more than 3500 registrants under its jurisdiction.

3. Q—What procedure will these local boards follow?

A—First, each registrant will be sent a detailed questionnaire which will serve as the basis of the classification. After the questionnaires are returned, the local boards will consider them in the order in which the registrant's numbers were drawn in the national lottery.

4. Q—Will the classification be on the basis of the questionnaires alone?

A—In many cases it will be possible to classify a registrant on the basis of the questionnaire alone. In other cases, the registrant will be called before the board for personal inquiry, but all additional information must be reduced to writing.

5. Q—Suppose a registrant

wants to return the questionnaire. What will happen to him?

A—The Local Board will automatically classify him as immediately available for training. The same thing will happen when a registrant returns the application and makes no application for a deferment.

6. Q—How will the registrant know how he has been classified?

A—At the end of each day, the local board will notify all registrants who have been classified that day of action.

7. Q—Will the board order a physical examination for the registrants?

A—Ordinarily physical examinations will be ordered only after

a man has been classified as immediately available for training. A preliminary examination will be conducted by the examining physician of each board, who will be named by the President on recommendation of the Governor. The preliminary examination will weed out the obviously unfit. The final examinations will be made at regular receiving stations.

8. Q—Can the registrant appeal from the action of a local board?

A—Yes. If the registrant is not satisfied with the classification he receives from the local boards, he may carry his case before a Board of appeal which is set up on a regional basis. If there is a dissenting

AMES

The Ames Woman's Missionary Society enjoyed a one-act play Monday afternoon. Refreshments of punch and cookies were served. Mr. and Mrs. Floyd Patterson and family spent Sunday afternoon in Waco visiting their son, Clay Dean, who is studying for the ministry at Baylor University. Mr. and Mrs. Shafe Weaver spent Saturday night and Sunday in Fort Worth visiting their sons, Don and James, who are attending school there.

Mr. and Mrs. Chas P. Liljebblad attended church at Temple Sunday night. Mr. and Mrs. Curtis Lipsey of Gatesville spent Sunday visiting friends and relatives in this community. Mr. and Mrs. Joe Little visited in the home of Mr. and Mrs. Paul Hinson Sunday. Several from this community attended the funeral of Mr. Billy Coward at Ater Sunday afternoon.

FRANCES BROWN TO SERVE ON A.W.S. COUNCIL

Stephenville, Texas—Miss Frances Brown of Gatesville, Texas

has recently been selected to serve on the A. W. S. Council for the coming year at John Tarleton College. Frances is a representative from the Teas Club, a social organization at Tarleton. All members of the A. W. S. strive to be truly representative of the student body and encourage suggestions and ideas from all girls of the college. Each member must maintain a satisfactory disciplinary record and must be registered for and passing in at least twelve semester hours of work.

Jimmie Allen
"The SKY PARADE"

Serialized by Wallace West from the Paramount Picture of the same name

SYNOPSIS

After the war, Scotty Allen, Speed Robertson and Casey Cameron, flying solo in France, form an air circus to barnstorm the county fairs. Jerry Croft, a pretty parachute jumper, and Flash Lewis, mechanic, attach themselves to the troupe. When Casey deserts the troupe to fly contraband for Gat Billings, a gangster, the others get the help of Tommy Wade, another pal, in the organization of an airline which grows to tremendous size. Scotty is killed when attempting a transatlantic flight with Speed and Jerry takes over the care of Jimmie, his young son. Jimmie grows to manhood and Jerry is bringing him to Glendale to visit Speed and Flash, who, with Professor Manderson, are developing an automatic pilot for planes.

CHAPTER VI

"At that, I'll be kinda glad to see the kid," grinned Flash as he directed two mechanics in overalls who were swabbing the floor of the Continental hangar. Other men were

girl. "Why aren't you showing Jimmie the plant?" "Did you hear what I heard, Tommy?" cried Speed. "Come on, kid." The five of them—Flash had appeared by this time—made a hurried tour of the epic and span hangers, then waited for Jimmie's verdict. "Oh, gee. It's . . . it's swell," he burst out at last. "You like it?" Speed could hardly believe his ears. "When do I start? I want to learn to fly," answered the boy. "Speed," interrupted Jerry. "I tried to persuade him. I hoped he wouldn't want to—but flying's in his blood, I guess." "Well, I'll be hornswoggled. All right, kid, there's no time like the present. Come on." The two hurried off, deep in conversation.

"Atta boy. Now get yourself cleaned up and come in and meet the technical lads. You'll work with them a couple of hours a day, too." As the two started out, Jerry and Tommy entered the office. "You see," the girl smiled at Wade. "Speed's too excited about Jimmie to . . ." "But . . ." protested her companion helplessly. "I'll prove it to you," she smiled ruefully. "Oh, hello, Jerry," Speed said hastily as he started to pass the newcomers. "Sure is swell to have you around." "Well, if that's the way you feel about it, how's for taking me to lunch? I'm starved." "Gosh, I'd love to Jerry." Speed was flustered. "Honest! I've hardly had a minute with you since you got here. But today—well, I'm afraid I can't. I told Bliss, the aerologist, and Buzz, the radio operator, and all the technical staff to save the lunch hour, so I could get together with them and plan Jimmie's schooling for the . . ."

"Hi, kid," Speed said with tender gruffness. Then to the girl: "Jerry, it's good to see you."

busy polishing windows and sprucing up the place, but the head mechanic merely leaned against a propeller and looked important. "Well, I won't," grunted Speed, who was passing by. "It's just twenty seconds since you looked at that watch," chuckled Flash. "Maybe you just like looking at it, huh?" "The place does look pretty swell, doesn't it?" Speed conceded. As he spoke a company plane swooped down, made a perfect landing and taxied to the hangar. Jimmie and Jerry jumped out and hurried forward. The girl was as pretty as ever. Jimmie was big for his seventeen years—a straight, handsome boy who grinned all over his freckled face. "Hello, Mr. Wade. Hello, Speed," he cried. "Gosh, it's good to see you." "Hi, kid," answered Speed with tender gruffness. Then to the girl: "Jerry, it's good to see you." "You're handsomer than ever, Speed," laughed the girl. There was an instant of embarrassment before Tommy jumped to the rescue. "Well, I like that!" he said to Jimmie. "Where do you get that Mr. Wade stuff, anyway?" "Well, I kinda thought—it's so long since—I mean—okay, Tommy." "What do you mean, standing out here all this time?" demanded the

"He's forgotten all about me," said Jerry wistfully. "He'll remember," laughed Tommy. Then, to change the subject: "Say, we ought to be staging some kind of a dinner tonight—to celebrate your arrival. Glad you came, Jerry?" "Yes, and no," answered the girl. "I like being around. I'd forgotten how much I liked planes. And I'm glad Jimmie's going to have such a good time. But you're wrong about Speed, Tommy. I don't mean a thing to him." "Speed's shy," Wade objected. "And, as far as you're concerned, he doesn't want you to think he'd abuse your friendship. Give him time." . . . "But Speed," Jimmie was pleading as he and his friend sat in the operations office a week later. "I had machine shop in school. I don't want to be a mechanic but a flier." "There's worse things than mechanics," Flash piped up. "I was just telling him that you'd spend two hours with him every morning," Speed explained. "The first thing a flier has to learn is what makes things tick. He doesn't get near the inside of a ship for at least a year. There's no such thing as 'natural fliers' these days. Cockiness won't do you a bit of good all alone up in the air. You've got to have a thorough knowledge of . . ." "Okay, Speed," the boy surrendered. "Let me at it."

"It's your loss!" laughed Jerry. "Tommy's got a date with Professor Manderson so I guess I'll have to eat alone. Well, don't worry too much about entertaining me, youse guys. I'm used to looking after myself." She turned and hurried out to keep them from seeing the tears in her eyes. "You're a funny egg, Speed," was Tommy's comment. "I am?" The pilot's eyes opened wide. "Why?" "Skip it. What's this I hear about Flash teaching the boy two hours a day. We're kind of short-handed anyway and now, with the added work inside . . ." "I told Flash to promote Mac and get someone to take his place. That's okay, isn't it?" "Sure, that's okay." As Jerry stood disconsolately at the gates of the Glendale flying field she bumped into Casey, who had been waiting for her but did not show it. "Casey!" she cried delightedly. "The bad penny turns up," he grinned. "But how? What are you . . ." "I'm test pilot over there at the Marvin plant." "But the boys didn't tell me! Why?" "Speed and Tommy don't seem to be very much interested in what I do." "I've often wondered what happened to you. Tell me about it." "Come on then, let's have a bit of lunch. Come on," he urged as she hesitated. "You aren't having lunch with them or you wouldn't be out here by your lonesome." "I have to run up to the hotel . . ." "No, you don't—come on, we'll rub out a few years while we're on the soup and get back to where we left off." "Well, it's grand to know someone feels that way." Jerry gave him her arm. As they passed through the gates she threw a defiant little look over her shoulder in the general direction of the Administration Building and Speed as she added: "I knew there must be some way of getting attention around here." NEWS PRESIDENTIAL

POLL

MARK X FOR YOUR MAN

Note: Don't sign ANY name. Bring to News office, or mail. Vote only once! No one, not even the News staff will know how you vote. There is no object in this Poll except to have a little fun, and create a little interest. If you don't have a News Presidential Ballot, we will give you one at the News office. Read The NEWS for ALL the News—political, sports, home.

Men Behind the Mike on Humble's Football Broadcasts

These four announcers are featured on the Humble Oil & Refining Company's radio descriptions of Southwest Conference Football games; literally they fill the air with the air-minded football of the Southwest each Sat-

urday afternoon. At left is Kern Tips, one of the outstanding football announcers of the country. Next to him is Eddie Dunn, Texas radio personality who recently moved to Chicago, but plans to travel southward to handle sev-

eral of the Humble broadcasts. At right is Cy Leland, who followed up a brilliant career as a player at T. C. U. with a career fully as brilliant as a football announcer; like Kern Tips, Cy is a veteran of the Humble broadcasts. Center, outline, is Hal Thompson, the well-known sports announcer of Dallas. These four announcers will be supplemented and assisted on the Humble Company broadcasts by other well-known Texas radio men.

Ater

Mrs. Birdie Coward, cors.

Those in this community who are scarce of water are glad for the wind to blow. Everyone is busy gathering crops and breaking and.

Mr. and Mrs. Ernest Moreland and family accompanied by Mr. and Mrs. Gavle Pruitt of Houston visited in the names of Mr.

W. O. Moreland and Mr. and Mrs. Otis Pruitt Saturday night.

SELECTIVE SERVICE—

vote on this Board of Appeal, the registrant may appeal to the President of the United States in certain restricted cases.

10. INDUCTION AND MOBILIZATION

1. Q—How many men will be called for training under the selective service program?

A—The law provides that not more than 900,000 men shall be in active training at any one time.

This would indicate that 900,000 men will be called for training each year.

2. Q—When will the first men be called for training?

A—The first group of men—probably 400,000—are scheduled to report for training between November 15 and December 1, 1940.

3. Q—How will the number to be called from each state be determined?

A—quota system will be established to make sure that each state, and each section of a state, furnishes its fair share of the men called for training.

4. Q—How will this quota system work?

A—After all registrants are classified, each state will report the number of men in Class 1, (available for immediate training.) For example, Texas may have 5 percent of the total number of men in this class. If so, Texas will be expected to furnish 5 percent of the men for each call. The same system will be used within each state to make sure that each local board area furnishes its proper share of men.

5. Q—How long will be the training last?

A—Each man will receive 12 months training.

6. Q—After a man completes his training, what will be his status?

A—He will be placed in the reserves for 10 years, or until he is 45 years old, or until he is discharged from the reserves, whichever occurs first. As long as he is in the reserves, he will be subject to call should his services be needed.

7. Q—Where will the training take place?

A—The men will be sent to regular military camps where the staffs of the Regular Army and the National Guard will conduct the training.

8. Q—Who will pay for the transporting the men to these camps?

A—The Federal government will pay all transportation and maintenance costs while the men called for training are en route to their camps.
