6th Annual Press Club Edition Of News Friday

Another old Coryell County News custom, that of having the Gatesville High School Press Club issue one edition a year of the News.

They start Tuesday! And, their edition will be out on Friday of this week.

There will be a compete staff of Press Club students, including the Editor, Sports Writer, Society Editor, and all the other departments if you want to call 'em that, except the mechanical department. If there are any so inclined, we'd like to have them on that, too.

This is the 6th Annual GHS Press Club Edition of the News, a feature started by the News 6 years ago.

SAM POWELL AND MILROY POWELL BACK FROM HOUSTON

Sam Powell and Milroy Powell returned Friday from the Fat Stock Show in Houston. Bringing with them many prizes.

A list of the prizes won will be in Friday's paper.

Mrs. A. J. Embry and son spent the week end in Brady with Mr. and Mrs. M. B. Embry and her husband.

Evacuation Of Southern End Camp Hood

Clarence O. Bussa, Project Manager, War Department, Gatesville, has issued the following notice to citizens in the Southern Extension of Camp Hood.

"On and after March 1, 1943, the United States Army will occupy the area known as the Southern Extension to Camp Hood.

"Since the entire area will be utilized by the United States Army, all persons are requested to evacuate the area, with their household goods and livestock, on or before March 1, so that the army may not be hampered in its operations. Your cooperation in this emergency will be appreciated."

TIRES, TUBES, TIRES TUBES, WHY'D THEY TAKE OUR EXTRAS?

Gosh, is there anybody in Coryell county that hasn't been issued a tire or tube certificate. May be they just get the certificates, and not the tires. Thought there was a shortage.

Anyway, here's the official list.

Leon Junction Boy Is Of Famous 19th Bombardment Group

Sgt. Walter L. Robinson, 28th Squadron, 19th Bombardment Group, who saw service on Bataan peninsula and Mindanau, was among those honored Friday morning, when 4 citation streamers were affixed to the colors of the 19th Bombardment Group.

They had a year-long struggle in the Philippines, in Java, in New Guinea and Australia, and are now stationed at Pyote, Texas, as a new army post, where they will teach fledgling Flying Fortress crews the art of war.

The 19th Group left almost 1,000 men to their late in the Philippines because there were no planes or ships to take them out and because some were fighting as infantrymen. Only a handful of its combat crews were able to get away, establish a base in Australia and sneak back to Mindanau for bombing raids and the pickup of a few personnel. Only a handful got out by submarine. It was an all-Texas outfit.

Up until Feb. 27 when doom was beginning to sound over the island of Java, the Texans were at Singosari, the flying field near Malang.

BUY BONDS BY CHECK FROM NEWS OFFICE GIVE TWO NAMES

Of course, in buying a War Bond by check, somebody has to sign the check. The check is in this and other issues of the News.

After you sign the check for the amount of the bond, we must know the right names to write on the bond. If your name is J. D. Jones, be sure and write either John D. Jones, or J. Dawson Jones. There must be 2 names on the bond, so if you've given any other person's name, if she's your wife, write her "given" name, like Mrs. Sally Jones, or Mrs. Jonh D. Jones, or Mrs. J. Dawson Jones.

This is just a little extra that will save both of us time. Thanks.

Lt. Steve Lindley Heard Here From London 3:15 Sat.

Lt. Steve Lindley, grandson of Mr. and Mrs. N. Pederson of Gatesville, and now in the 8th Air Force, stationed somewhere in England, was heard over the Blue Network, and KRLD, Dallas, at 3:15 Saturday.

Questioned by the program announcer, Steve, in answering the questions said, in part.

"I live in Gatesville, 'Deep in the Heart of.'"

Lt. Lindley is pilot on the Good Ship Chief Sly II, the first one being knocked out by the Nazis. On his

over Western Germany he said as soon as they were across the channel, which at the height they fly, looks like a good sized river, they would see the flax or explosions of the anti aircraft guns, and 20 seconds later would hear the sound. He gave an imitation of the sound, which we can't reproduce in print. Commenting on the cold, he said on the last raid over enemy territory it was 25 below zero Fahrenheit. One man in his crew is from North Dakota, and the others from "south of there".

His commanding officer said "write to us, we never get too many letters."

Steve's voice came over the air clear enough, but interference downtown in Gatesville made it a little difficult to understand, and then, our shorthand isn't working.

WAAC NO. 2 NOW AT DES MOINES FROM PURMELA

Auxiliary May Alma Basham of Purmela has begun training at the First Women's Army Auxiliary Corps Training Center at Des Moines, Ia.

She was assigned to a Receiving Center company for a week of elementary training, and was issued clothing and equipment, instructed in the rudiments of drill, and given Army classification tests.

During the next four weeks, she will be assigned to a basic company for more detailed training.

Here Are The Main Topics Of The "Point" System

In the meeting at the courthouse Friday night, two government officials discussed the "point" system with wholesale and retail grocers of the county, and the following "shorts" were taken down by Mrs. Tom Mears of the Gatesville Chamber of Commerce. Most of it is of interest to all citizens of the county.

"Freeze Week" begins Feb. 20, runs thru 28th. No. "point" goods will be sold.

Frozen will be fruit juices, fruits, canned vegetables, frozen foods and vegetables, excepting only the above that come in gallon containers.

Registration will be at schools Wednesday Thursday and Friday of this week.

To get a War Ration Book No. 2, you MUST present War Ration Book No. 1. If you don't have it, get one.

At registrations, everybody will be allowed a total of 5 cans of either fruits, vegetables, or both, exclusive of home canned rationed items, and exclusive of those in cans of less than 8 ounces.

War Ration Book No. 2, is divided into 8, 5, 2 and 1 point stamps. Use the big ones first, so you'll have "change" later.

When buying, you have to count the "points" as well as the Cash.

"Point" value of the various commodities will not be released until after the beginning of freeze week and will be mailed out of Washington to the local merchant.

Books of individuals less than 15 years of age, if the Coffee Stamps are gone, these stamps will be made up by the registrars by taking a like amount out of the ration book.

If you have more canned stuff in your pantry than is allowed, 5 cans per person, one 8 point stamp will be taken out for every one over the allotted amount.

FIRE AT BLUEBONNET PLANT RAZES SHED: ORIGIN IS SOUGHT

Fire of undetermined origin broke out at the Bluebonnet Ordnance plant Saturday at 5:30 p.m. destroying a shed used as a storehouse for pipes, pipe fittings and other miscellaneous articles.

The shed, of wood, was not the shop area, but not close to any other buildings. The fire department put out the blaze before the building was destroyed.

EGG DRYING PLANT ADDS NEW EQUIPMENT

New equipment was installed this week at the Producers Produce Company's egg drying plant which will increase the output of the dehydrated eggs some 25 percent. A large pump was installed to pump the eggs to the "hopper", the drying chamber, and the small one which was removed was transferred downstairs and added to the one already in use there to increase the amount of liquid egg pumped to the first floor for relay to the dryer.

An American soldier is entitled to one egg a day. However, in some of the barren countries where Americans are fighting, a fresh egg is just a legend. But the Army Field Kitchens still serve up piping hot, delicious scrambled eggs—thanks to the "fresh eggs in powder form." The biggest wartime advantage of powdered eggs is that they are remarkably easy to handle and keep. They need no refrigeration, keep indefinitely and are always ready for use simply by adding water. They are so compact, one 5-oz. package of powdered eggs equal to one dozen fresh

eggs in the shell. One shipload of powdered eggs going to England is the equivalent to 6 shiploads of fresh eggs in the shell.

Wherever fresh eggs are available, our fighting men get them. But in foreign fields, powdered fresh eggs come to the fore. Army cooks use them for scrambled eggs, puddings, corn bread. The greatest quantity is going to feed our Allies overseas.

In order that the drying plant here can be kept operating at full capacity, especially with the in-

creased capacity caused by the new equipment, it is vitally urgent that this section produce as many eggs as possible, and thousands of new layers should be put to work for the cause of victory.

This dehydrating plant employs more workers than any other business in town. At the present time there are 75 men and women working in the breaking and drying departments, other employees such as truck drivers, floor men to handle the eggs, office help, etc. raise this number to around

125. With the addition of the new equipment at least 12 or 14 more persons will be needed to keep the plant operating at top speed.

Week starting Feb. 21st is WAAC Week in Gatesville—

Volunteers for the Woman's Auxiliary Corps are urgently needed. Present strength of the WAAC is only about 22,000. President Roosevelt has ordered expansion to the full 150,000 authorized by Congress, and it is desired to achieve this goal as rapidly as possible.

Most women can meet the WAAC entrance requirements easily. Age limits are 21 to 44, inclusive. Reasonably good health is sufficient to pass the physical examination. No educational minimum is fixed, it merely being required that a WAAC enrollee pass a mental alertness test.

Evidence of good character is required.

Opportunities for promotion in the WAAC are great. The authorized expansion, which will increase the force to 7 times its present strength, will create a big demand for officers. The corps will need 13,000 officers by June 30, 1943. All promotions and selections for Officer Candidate School are being made from the ranks.

HIGHWAY 190 OPENED WEDNESDAY, FEBRUARY 10

D. D. Nixon, resident engineer, said that U. S. Highway 190 was opened through Lampasas county Wednesday. The new asphalt had all been completed and dried sufficiently, inspection made and the work accepted by the authorities. The new pavement is 6½ miles in the county of Lampasas, part of it on this end from Fourth Street bridge to the east part of town and the balance from this side of Kempner to the county line. It is one of the best highways in the county and will be a busy avenue of traffic for both civilians and army personnel. The distance to the county line now is about 16 miles. The Lampasas River Relief Bridge is completed and open, and the other two bridges, the Lampasas River bridge and the one across Sulphur creek here in town, will be completed in about 2½

months, Mr. Nixon said, with favorable working weather. The basework of this highway from the Lampasas county line on to Killeen has been completed and the workmen are now pouring asphalt. It should be open before long, Mr. Nixon stated, and the distance to Camp Hood entrance then will be about 24 miles. —Lampasas Record.

February 5, 1943

Dear Friends:
 Evidence accumulates to show that there is no effort on the part of the executive departments to carry out the clear intention of Congress. Early this week Mr. McNutt issued an "order" which completely disregarded the evident intention of Congress that married men with children should not be called for military service until after all single men and married men without children had been called. That Mr. McNutt's purpose was to force men from one industry to another where he felt they could better serve does not change the fact that he ruthlessly flouted the expressed will of Congress and that he has sought to use the threat of military service somewhat as the threat of criminal prosecution. I feel that this is most unfortunate. Military service should not be looked upon as something to be inflicted as a punishment. It is and it should always remain an honor to serve in the armed forces of the United States, but to my way of thinking it is a serious mistake for the Nation to call fathers of dependent children until all other sources of man power have been exhausted.

administration. We all know that we would have a much more efficient administration if Congress could simply outline the policies it wanted followed and if the bureaus and departments would then follow these policies with full freedom of action as to details. The attitude of the bureaus is such that we are being forced to limit their proper administrative powers to keep them from trying to assume outright legislative powers.

I have been very deeply interested in protecting our section from the imposition of a system of price differentials that might be enforced against our various farm products. We have had two examples of the effort this week. The first was in regard to peanuts. The Departments of Agriculture wrote an official statement that they expected to pay through the Commodity Credit Corporation \$130. per ton for Southeastern Spanish Peanuts (from Georgia, etc.), and \$127.50 for the same grade Southwestern Spanish Peanuts (from Texas, etc.) in event the peanut bill passed. I immediately called upon the officials of the Department and protested. After those of us from the Southwest were able to convince them that we would surely kill the legislation they wanted in regard to peanuts if they did not accord Texas the same treatment they accorded Georgia, they agreed to put Southwestern peanuts up to the same level as Southeastern peanuts of the same grade.

Later in the week an official of the Department of Agriculture came before our Committee on Agriculture and stated that his Department and the OPA felt no obligation to fix ceiling prices on agricultural products as high as the highest price between January 1st and September 15th, 1942, as the Congress tried to provide in the last price control bill. They say that they have the power to "adjust" prices for seasonal variations and that that gives them the right to fix a ceiling even less than 50% of the September price. In fact, this is exactly what they have done in the case of grapefruit. Of course, if they can do this in one instance, they can do it in others, but it is interesting to note that they never "adjust" any price upward so as to favor the farmer. I asked the representative of the Department if he could name any instances where they had "adjusted" the ceiling to a point higher than the prices between the dates mentioned in the act. He could not.

As far as I can see, the only remedy for this sort of abuse is for Congress to write detailed regulations covering every point of administration. This is, of course, bad because it is obviously impossible for Congress to pass intelligently on the details of ad-

ministration. This is, of course, bad because it is obviously impossible for Congress to pass intelligently on the details of ad-

THE COW THAT DIDN'T GET MILKED

She was a Holstein. There are many like her on our farms.

But this cow was not on an American farm. She was grazing in a little pasture in Holland, native country of the Holstein, when hell broke loose. A new kind of horrible hell called a blitz.

She went crazy. She ran until her tongue hung out. She wasn't milked that morning, or that night, or the next day, or the next. Her beautiful udder spoiled.

But maybe it is just as well—Hitler and his men take all the milk. They take everything from enslaved Holland.

Remember this story as you milk your good herd. Keep on remembering it—and buy U. S. War Bonds—every dollar's worth that you possibly can.

Buying Bonds will help with the war right now—and be one of the best investments you ever made. They never sell for less than you pay for them. They increase in value every year. If held for ten years, they return \$4 for every \$3 invested. And they can be cashed any time after sixty days if you need the money. Buy Bonds—for yourself and for your country—at your bank or post office.

FROM Camp Hood, Texas

The Houston Symphony Orchestra will appear at Camp Hood Tuesday night for a special concert under the camp's auspices.

Camp Hood is expecting its first company of WAACs April 1.

Col. Wendell Westover has returned to his post after completing a 13 months course at the Command and General Staff School at Ft. Leavenworth. He took a 10 day leave and visited home in Albany, N. Y. Mrs. Westover accompanied him back from New York.

More GC&SF tracks, 4 of them, have been laid near the Camp warehouse district. Troops as well as equipment are being unloaded in the area.

Pvt. Geo. A. Sturm of Dayton, O., in Camp Hood was formerly a member of Kay Kyser's original band at the U. of N. C. He also plays the guitar.

Capt. Samuel H. Kraines, noted psychiatrist is at Camp Hood, and was graduated from the U. of Ill. Medical school in 1930, and also attended John Hopkins at Baltimore, and National Hospital in London. He was assistant state alienist of Illinois and has since 1933 been an associate in psychiatry at the U. of Ill. He has written a book on the subject and more than 20 articles in medical journals.

Pvt. Frederick Y. Herrin, 823rd T. D. battalion at Camp Bowie bought \$5,000 worth of war bonds.

Capt. John L. Denson, Jr., billeting officer at Camp Hood's northern camp, saw action overseas for a year in World War I as a first lieutenant with the 360th infantry 90th division. He spent 76 days in the front lines in the St. Michiel and Meuse-Argonne battles and stayed in Germany with the army of occupation.

After the war, he came back to Texas and worked in Dallas prior to re-entering the army as a captain last September. Assigned to post headquarters at Camp Hood, Captain Denson, whose home is in Temple, was first custodial officer before being transferred to the northern camp at Gatesville.

USELESS SPENDING

Senator Harry F. Byrd, in a recent press release, said in part:

"The United States Civil Service Commission reports as of August 31, 1942, that there were 2,606,300 employees of the United States government . . . On Armistice Day, November 11, 1918, there was a total of 917,760 civilian federal employees. We have three times that many now. In the last World War we had one civilian employee for every four and one-half members in the armed service. In this war, we have so far one civilian employee to every one and three-fourths members of the armed forces, the ratio being two and one-half times more per soldier, and we are still increasing our civilian personnel at the rate of over 3,000 daily . . . On November 11, 1918, there were thirty agencies of the government. Today there are 81 distinct agencies, many of these making no direct contribution to the war effort."

This remarkable statement should receive the careful consideration of every American citizen. When we consider that, since the release by Senator Byrd, the President has submitted his budget to Congress for the fiscal year, calling for 100 billion dollars for our war effort and nine billion additional for civic expenditures, we gain some idea of what the conduct of this war is going

to mean in the tax burden of the next generation.

Curtail Civic Spending
 No one wants to limit a single activity necessary to win the war, but just ordinary common sense and economy indicate that every unnecessary civic expenditure should wait until the emergency of war has passed.

Right now our new Congress is confronted with the problem of preventing excessive profits on war contracts. Present law provides for "renegotiation" of their separate contracts by the Army and Navy departments and the Maritime commission. There are some three million of these contracts, but probably not 5 per cent will show excessive profits after taxation.

The Internal Revenue department will find every case of excessive profits and, where such profits remain after taxes, can report such cases for "renegotiation." This is practical economy and does the job the most efficient way.

Industry and agriculture, both of which feel the pinch of shortage of manpower, should support Congress in any method it decides upon as practical and economical. Preventing new additions to the payrolls and cutting out useless civic expenditures and payrollers who have nothing to do that is constructive in the war effort will help solve the manpower problem and ease the burden of taxes.

Miss Louise Griffith Weds Charles Odom Saturday Night

Miss Louise Griffith became the bride of Charles Odom, Petty Officer, second class, in a ceremony performed in the parsonage of the Methodist church in Waco, Saturday night at 7:30. Rev. H. F. Draper, pastor, read the single ring ceremony.

The bride chose for her wedding motif a navy blue with black accessories. A corsage of gardenias. For something borrowed she wore a necklace belonging to Miss Nella Ruth Hartwick.

Miss Wanda Miller attended the bride. She wore a black alpaca with black accessories, corsage of red roses.

Sgt. M. C. Goddard of Camp Hood was best man.

Other attendants were Miss Bertha Marie McClendon of Waco and Pat Green.

The bride is the daughter of Mr. and Mrs. Guy Griffith of Gatesville.

After finishing Gatesville High School she has been employed in the County Clerk's office for the past three years.

Mr. Odom graduated from Flat High School. He is in the U. S. Navy stationed in Utah. He is the son of Mrs. Paralee Odom of The Grove.

Miss Louise Griffith Entertained Friday Night

Misses Wanda Miller and Mary Etta Lipsey were joint hostesses to a miscellaneous shower honoring Miss Louise Griffith bride-elect of Charles Odom, Friday night at their home on 1600 East Leon Street.

The evening was spent in playing games after which the honoree was presented with her gifts.

Refreshments of cookies and grape juice was served to the guest.

Miss Dorothy Richards, daughter of Mr. and Mrs. W. O. Richards, became the bride of Sgt. Millard Gillmore Tuesday evening, Feb. 8, at Gatesville.

The bride wore a light blue suit and hat. Her accessories were of black.

The couples attendants were: Mr. and Mrs. W. O. Richards, and Mr. and Mrs. Otis Richards and Gracie Ann.

Mrs. Gillmore was a graduate of the 1940 class of Gatesville High School.

Sgt. Gillmore's home is in Lima, Ohio, but is stationed at Camp Bowie.

The couple left on a short wedding trip to points in Oklahoma.

Miss Frieda Koch Weds Corporal Otis Walter In South Carolina

The marriage of Miss Frieda Koch of Gatesville to Cpl. Otis Walter was solemnized Saturday, Jan. 9 at 4:30 at the Chapel at Ft. Jackson, South Carolina. Chaplain Albert M. Wright officiated at the single ring ceremony.

During the ceremony nuptial music from the Hammond organ enhanced the solemnity of the marriage vows.

The bride wore a very becoming dress of powder blue and matching fitted jacket with full bishop sleeves. Her hat of the same color had a shoulder length veil. Her shoulder corsage was of Burgandy rose buds and feverfew. For something old and borrowed, she carried a gold lace hankie belonging to her sister, Mrs. A. F. Chassang.

Mrs. Charles O'Shanghnessy, the bride's only attendant, wore a tan suit with blue accessories and her corsage was of mixed sweet peas.

Sgt. Donald E. Hoyte attended the groom as best man.

Mrs. Walter is the daughter of Mr. and Mrs. John Koch of Irving, who until a few months ago lived near Gatesville. She is a graduate of Ursuline Academy, Dallas. Was

FSA STILL COLLECTIN' BETTER'N EVER IS THEIR REPORT

Repayments on FSA rehabilitation loans in the 48 jumped to 92.0 percent on 12-1-42, compared to 75.4 a year before. That's a jump.

Notice a lot of FSA houses moved off of farms in the Blue Bonnet Ordnance Plant area. Musta been a loss there, and, how about in Camp Hood? Maybe, when the government pays for the land, the FSA'll have a prior claim on it. Maybe that made the percentage jump. You know, there are lots of camps in Texas. In fact, Texas isn't much larger than Rhode Island, now.

FSA FARMSTEAD WATER FACILITIES PROGRAM IS STARTED

Yes, farmers can now get loans for repairing, enlarging or extending water facilities on farms in Coryell county.

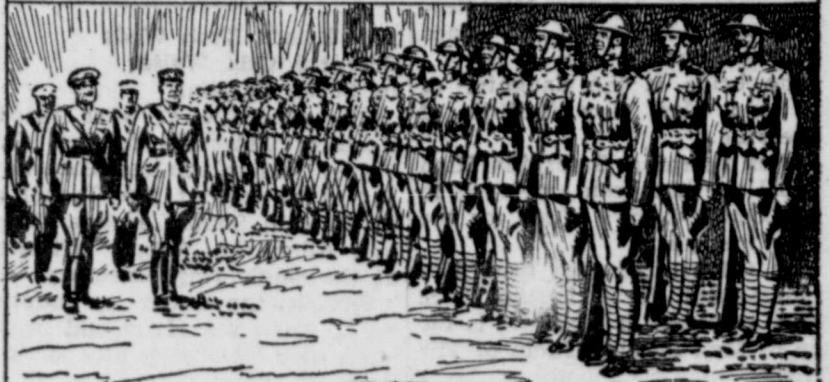

The WPB is allotting materials for the manufacture of certain specific water equipment, and it is expected that necessary pipe, pumps and other equipment for farmstead purposes will be available to farmers who can qualify. Only loans will be made on farms where it is clearly evident that such improvement will materially help increase the production of food and fivers.

Dear Editor:

Altho it has never been my privilege to be a resident of your fair city, I was a member of Gatesville High School for three years (1937-1940), and I think that the school is a very fine organization.

I moved away from the fair county of Coryell in 1941, and have never been back but one time, and then only on a short visit. I have been a member of Uncle Sam's armed forces (the Air Corps) for two years, and I often wonder where my old buddies from down Gatesville way are, and what they are doing. After thinking the subject over a bit I decided that the best way for me to obtain this information is by putting in my subscription for "The Coryell County News." I don't know the subscription price of your paper, but if you will please be so kind as to send me the paper I will gladly remit to you, by postal money order, the subscription price for one year.

Dear Mat:

We are sitting here on guard

duty and thought we would write you a letter to print if you like, but say we don't blame you if you don't.

Someone usually sends us your paper every week, and don't think we don't enjoy it. We are out here in a detachment of the Air Force at Aero Industrial Technical Institute, 4500 Brazil St., Barracks C 6, L. A., Calif. It is really a nice place, but when it comes to places and people, give us Coryell county. Well it is about time to go on guard so tell everybody hello for us.

Sincerely yours,
Pvt. L. Z. Edwards,
Pvt. Willie C. Huggins, Jr.

Here's another from the same boys addressed to "Dear Public", and, naturally, since the letter isn't ours, we know Mr. and Mrs. Public (We think they mean, "Dear Friends, relatives and acquaintances" here you are.

L. A., Calif.
Feb. 8, 1943

Dear Public:

We know you all are anxious to know how Coryell Co. boys are serving Uncle Sam. Well, we have not the situation well in hand yet, but we are still trying. It is lonely out here in Little Sunny Calif (and the Chamber of Commerce didn't pay us to say this). Some mornings, we can even see thru the fog.

We aren't far from Hollywood, and of course, everytime we go to the Hollywood Canteen, we have

quite a time evading the auto-graph hunters.

We are in great grief today since one of the Sergeants of the trio that usually wakes us up singing "Good Morning to You", has a sore throat and the Corporal that took his place isn't a very good tenor.

It seems as if everything has gone wrong today. When breakfast was served this morning, Edwards turned the coffee over on his bed.

Of course, it isn't all easy (but we will soon get that straightened out). We take a few simple exercises every day but they only last about an hour, and sometimes the Sergeant feels good and has us go down to the little obstacle course and we run a mile or so.

People don't be surprised if you find boys from other states in the Army. I have met some of them, and they say they are on Texas' side. But just between us, I think Texas is doing the most (but that is just 2 men's opinion.)

Excuse us, but we must get out while the houseboy makes up our bed.

Your Friends,
L. Z. Edwards,
Willie C. Huggins, Jr.

These boys' letter remind us of a World War I letter, or book entitled "Dear Mabel", which was written by an Illinois boy named Streeter. They were all comical.

Here's a letter from Mrs. J. W. Nicholson, now a "Californian", but not yet, a "Native Son". Most Californians are not "Native Sons". "We left Texas Dec. 23 and got to Los Angeles Dec. 28 and have been living in Inglewood since arriving here, but have bought a place in Hawthorne.

We like it here fine, but we are always glad to get the County News, it's just like getting a letter from home.

This is a real pretty place and the climate is fine. Just barely have ice, but the nights are fine. We have lots of friends back in Coryell and Bell counties that I hope sees this in print. I have several sisters and brothers in good old Coryell County.

Yours,
Mrs. J. W. Nicholson,

My Dearest Mother:

Well, I have made a move, and a long one, too. Way up here to Connecticut. That's about as far as they could have sent me without sending me across. It took us 4 days to make the trip, on a troop train. We came thru 15 states to get here, Louisiana, Arkansas, Tennessee, Mississippi, Alabama, Virginia, North Carolina, South Carolina, Georgia, Delaware, Maryland, Washington, D. C., New Jersey, New York, and Connecticut. I enjoyed the trip very much, seeing all the cities,

etc. I was very tired when I got here tho.

It is terribly cold here. Snow covers the ground everywhere. It won't take me long to get used to it tho. Hartford is the closest big town to us. Springfield, Mass., isn't far, about 20 miles. This is an air base. We will be training men how to build airfields. I don't know how long we will be here, but my guess is about 2 months. This is a pretty country. Lots of hills and trees. We have been getting lots of new men lately. No Texans, tho.

Mother, I don't know much to write as usual. Our barracks are nice and warm. The food is better than it was. I am doing O. K. so don't ever worry about me. Write me often, I love you, very, very much. Tell all my friends where I am.

Bye, Bye,
Your Son,
Hazen.

**LOWER INTEREST RATE
FOR FARMERS AND
MINIMUM WAGE LAWS**

There's a bill been introduced in Austin last week, a proposed constitutional amendment to cut interest rate on loans when secured by a lien of farm machinery and equipment, livestock, crops or other farm produce or on real estate. Maximum rate would be 8 percent, whereas 10 percent is permitted now.

Another bill, H. B. No. 88, introduced "regulating employment of women and minors, with a purpose to establish standards of wages and labor for women and minor workers in Texas.

**What You Buy With
WAR BONDS**

Stop Spending, and Save for the future. That has been good advice since biblical days. You cannot buy tires today, but you can start saving to buy that new set of tires when they go on the market again.

Your regular investment of ten percent or more of your earnings in War Bonds through your Payroll Savings Plan will provide the necessary funds to buy those tires later and help win the war now. Let's "Top that Ten Percent."

YOUR STAKE IN THE COST OF WAR

"Renegotiation of war contracts" is a heavy-sounding term, and newspaper readers in the sections of America where public interests are localized and largely agricultural may wonder how such a subject can concern them.

But since every taxpayer has a personal stake in any measure that increases government expense and adds to the public payroll, especially at a time when every dollar is needed for the war effort, then this question of contracts for equipment and supplies becomes vital to all.

"Renegotiation"

In the early days of lend-lease and of the huge task of mustering an armed force of millions of men, a few contractors receiving fat orders saw in these government contracts only a new gold mine. To meet the relatively small number of abuses which were brought to light, the last Congress passed a law requiring that all new and old Army, Navy and Maritime Commission contracts be written with a "renegotiation" clause, so that they could be refigured in the search for cases where contractors were making too large a profit.

This law requires that the Army, Navy and Maritime commission each employ a separate force of men to re-estimate all contracts for buildings, machinery, tanks, airplanes, guns, clothing, and the thousand items industry must turn out for war use.

The law seemed wise and harmless at first, but evidently it was not realized how large an "army" of employees would be needed to enforce it.

It is estimated that there are some three million such contracts, over 20,000 contractors, and an unknown number of sub-contractors. If the original law were carried out, it might easily require 200,000 new public payrollers, and 300,000 new employees hired by contractors to prepare the data for the federal authorities, and this at a time when manpower is scarce and every able-bodied person is needed for service in uniform or production work at home. The job would take years even after the war.

Amendments Not Sufficient

Agriculture and industry are short of machinery and manpower, and these men are too badly needed in producing crops and equipment for ourselves and our allies to be wasted in checking up on contracts, especially when there is already an efficient means of doing that work.

True, the original bill has been amended; but the amendments still authorize each department concerned to refigure contract prices. This means the employment of a vast number of special auditors and accountants.

Congressman Disney points out that there should be an automatic method of screening out contractors from those whose profits are not excessive, "so that we will not have to use, in renegotiation, all of the accountants in the country."

A proposed amendment whittles at the original law and limits renegotiation to contracts which show more than 2 per cent profit. But this is no time for half-way measures. That sort of plan would still require a lot of unnecessary employees on both government and contractors' payrolls.

The Solution

The Internal Revenue department has a yearly check on all profits. It figures the taxes paid in all industries, including those with Army, Navy and Maritime commission contracts. If the Internal Revenue authorities discover an abnormal profit from any war work in any business, after payment of taxes, it could so certify to the department concerned so that renegotiation could be started. The ones that are within the fair and reasonable limit of 2 per cent profit after taxes would require no attention, and in that way millions of man-hours would be saved and duplication of effort, and delays caused by extra forces of employees refiguring contracts, would be avoided.

The Disney amendment, which seems simple and effective, has not yet been adopted. Yet it amply guards against excess profits, with a minimum of interference with war-time production and at the same time providing escape from the new load of non-essential payrollers which the original law threatened.

The ordinary man therefore concludes: Why not let the Internal Revenue tax man do the whole job at one sitting? Why not save the time of industrial management and employees for vital work? Why not use the established check on costs, and at the same time save the expense of extra payrollers?

Most of those payrollers could well be used in the armed service, or on farms, or in factories, or in some other productive kind of work, instead of occupying desks in Washington. They would then be doing something to help win the war.

DANCE HELD AT THE FORMAL OPENING OF NEW BUS STATION

An open house dance was held Saturday night at the formal opening of the new Creamer Stage Line and Arrow Coach Line bus station, located at eighth and Leon streets.

A large crowd enjoyed the affair in celebration of another new business in Gatesville.

One of the main attractions was a jitter bug dance rendered by two of the local colored citizens.

TWO COMMON CAUSES OF BLOWN FUSES

---and how to eliminate them

Frayed cords and loose plug connections that permit bare wires to come together are among the most frequent causes of short circuits that result in blown fuses. Here's how you can eliminate them and prevent needless interruptions in your electric service.

1. CORD FRAYED IN MIDDLE

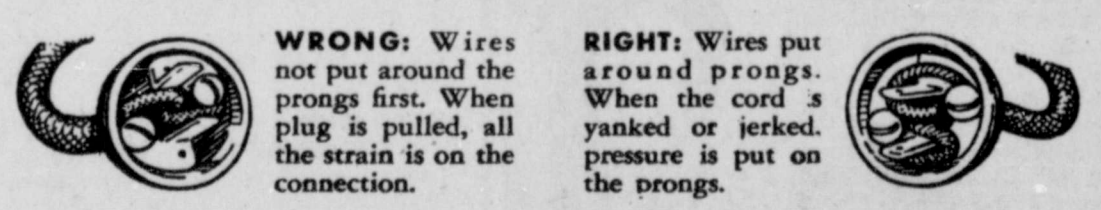

Clean away the frayed or crumbled part. Tape up each wire separately, using electrician's tape. Then tape wires together. Adhesive tape cakes and cracks quickly.

2. CORD FRAYED NEAR PLUG

Unloosen screws and pull wire out. Cut off frayed part of wire. Reinsert wire in plug, and screw in place.

RIGHT AND WRONG WAY TO WIRE A PLUG

WRONG: Wires not put around the prongs first. When plug is pulled, all the strain is on the connection.

RIGHT: Wires put around prongs. When the cord is yanked or jerked, pressure is put on the prongs.

BLOWN FUSES may also be caused by defective or overloaded appliances, overloaded circuits or, occasionally, by defective house wiring. It's a good idea to keep extra fuses on hand and to know how to use them. Then you can restore service quickly without waiting for a serviceman, who may be delayed by war-time restrictions on the use of cars and trucks.
