## HWY. 26 THRU HOOD TO BE MARKED: TRAFFIC THRU NOW

Frank Higginbotham, Manager of Gatesville Chamber of Commerce in conversation with Col. B. F. Delemater, finds that traffic thru North Camp Hood is open to the public and shortly all streets in the camp will be marked with markers showing "Hwy. 36".

Traffic will of course be controlled, as far as violations of traffic, by Camp Hood authorities, but all traffic will be permitted to pass through, going or coming.

This will give people of Flat, the Grove and other sections of the southeast part of the county, a better opportunity for going and coming, and possibly better roads.

Col. Dalamatier has taken up with Washington, Mr. Higginbotham says, the widening of the highway so that better use of it may be made.

## PROSPECTS FOR HOOD STILL IN AIR: TOM AND BOB RECOMMEND

WASHINGTON, Sept. 11. (AP)—The proposal to establish Camp Hood as a permanent army installation will depend primarily upon the course congress adopts in regard to the future military strength of the nation, Texans here said today.

This was the view expressed by Senator Tom Connally and Rep. W. R. Poage (D-Tex.) after a conference with War department officials in which they urged Camp Hood be maintained for peacetime training.

The camp covers about 160,000 acres in Coryell and Bell counties. It is proposed that about 100,000 acres be included in a permanent camp.

Secretary of War Stimson, after a tour of army centers several months ago described it as one of the most modern and best equipped army camps in the United States, Connally said.

Whether it can fit into the future military picture depends upon both the size of the peacetime army to be authorized by congress and the type of troops to be trained. Permanent army camps also are individually authorized by congress.

## COACH MITCHELL THINKS THESE WILL START TONIGHT

## "TONIGHT'S THE NIGHT": HORNETS KANGAROOS MEET

Summer's gone! The birds'll be going south if they are not already, since this norther hit, and tonight, again, in the high school stadium, the yearers of the green and gold will again go forth to do battle (playground battle) with a miscellaneous contingent from many other "camps".

Cutting all the bull out: "football season opens here tonight".

And, the team will be KILLEEN!

Killeen, the south end of Camp Hood, and dubbed by GIs of that end as "Gua-jalkilleen" was plenty tough last year, taking the Hornets 6-0 in the opening game of the season, and really really, we've not only forgotten, but wanted to forget what they did to us in that "that meant so much game" with them Kangaroos in the twilight game of that season. They walloped us and, plenty, and with precision and finesse that makes the difference between just teams and FOOTBALL TEAMS. Killeen had it last year (and we had a whole lot, too), and they've got a good part of it this year. As for "our side" as the smaller kids say, we've got 4 lettermen and a few players who have won their "stars" or good conduct medals on the gridiron, but have not carried the ball long enough to wear the "overseas service stripes"—you might say, they've not had 6 months of it yet.

All in all, it's liable to be a rough night for the hornets tonight, but then there's that man Mitchell, and he's got as many sleeves as a centipede and has always got something up one of them, and no one knows which one or what, except perhaps, "someone in a high official position, or a high source that cannot be disclose'd" as they say in Washington.

So, we've got everything before us, and a lot of hope, what after winning two straight district championships and the same for bi-district, if we're correct, at least. We have a much coveted record to keep, and, here are the boys on whose shoulders rests the problem of keeping these records and making or losing higher ones.

## TODAY'S EVENTS By Associated Press

### MACARTHUR'S "LIST" BEING ROUNDED UP

TOKYO, Sept. 13. (AP)—Eighth Army Headquarters empowered the Japanese government today to round up the remaining Japanese on General MacArthur's "Wanted List".

No time limit was set, and it was indicated the government will have to show some progress within two days or the privilege will be withdrawn.

The Jap government asked permission to handle further arrests after Hideki Tojo, deposed wartime dictator, shot himself two days ago. Now in "satisfactory condition" able to talk with correspondents. Tojo-headed MacArthur's list of those sought for questioning.

### 800,000 DISCHARGES A MONTH, DEC. 1

WASHINGTON, Sept. 13. (AP)—The army told Senators it expects to be discharging 800,000 a month by December 1.

The Navy asked Congress again not to reveal part of Pearl Harbor's story, the part about the Japanese code. ABC & NBC BACK ON AIR: ENGINEERS OUT

NEW YORK, Sept. 13. (AP) The American and National Broadcasting companies returned to the air at 7 a. m. CWT today, their regular opening time, but the engineers who walked out yesterday remained away from their jobs.

### FIRST BALE IN FROM DONALDSON FARM, FLAT

G. L. Waller, tenant on the John L. Donaldson farm near Flat, has the honor of having the first bale of cotton of the 1945 crop. Brown's gin made a bale of it.

Thru the Agriculture Committee of the Gatesville Chamber of Commerce, a \$25 war bond will be presented for being the first bale of cotton to be ginned in 1945. The bale weighed 620 pounds (a big one) and was brought in at 3:15 Wednesday afternoon.

### FOOTBALL TICKET SALES FRIDAY AM: REACH DOWN

Reach down, because Friday, there'll be a man around.

A man around to break down and let you have as many football tickets as you need, and more. Yes, season tickets, and the others too.

So you won't have to wait at the gate, get'em now, and be ready to give those waiting at the gate that "umph" look, which you always get when you are standing in line for a ticket and your "friend" passes by and sees you. Anyway, buy a ticket!

### FBI SAYS "CRIME GOING UP": PREPARE TO CURB IT

Crime in Texas showed an upward surge of 3 percent over the Nation-wide crime picture during the first 6 months of 1945, says M. W. Acers, of San Antonio.

Overall for the USA was 8.4, and for Texas it was 11.4

Only Oklahoma, of the states bordering Texas, leads Texas.

Major crimes, 22,566 of them in TEXAS, including negligent manslaughter, murder, rape, robbery, aggravated assault, burglary, larceny and auto theft.

One thing Texas leads in, we just ain't proud of, thank you.

### DISTRICT COURT GIVES 2, 2 YEARS ACCUMULATIVE

In District Court Thursday morning, Bob Seaman and M. L. Miller plead guilt on charges of burglary and were given 2 years each on counts each, accumulative.

Both of the boys were ex-inmates of Gatesville State School for Boys.

### MEMORIAL FOR WORLD WAR II URGED BY POST COMMANDER

Sons of Coryell County, victorious battle worn veterans, participants in the world's most bloody and costly global war are returning to your midst every day. They are finding that Coryell County by all appearance and lack of interest and enthusiasm has done very little concerning a memorial to her brave sons who fought, bled and died for the preservation of Democracy.

These veterans return to find that their names are not posted in any public place as a reminder to those at home that they are away attending one of the biggest jobs that ever confronted our peace loving country. Those unselfish, freedom-loving, red blooded Americans who made sacrifice upon sacrifice are returning to find that in no way have we done anything to distinguish those who have served from those who stayed out of the service because their importance and essentiality were so dearly needed here.

I appeal to every clear thinking Coryell County citizen who appreciates these sacrifices and the prices paid, and all the sufferings expended by these fighting sons of your homes and surroundings.

Wake up and do something besides talk concerning a Memorial to those who fought, bled and died. Let us erect a memorial that will stamp an indelible memory on the minds of those mothers, fathers, wives, and children as evidence that we are and shall be eternally grateful for their loved ones who participated and those who made the supreme sacrifice.

Bill Nesbitt  
Post Commander of American Legion.

Q. In recent months have all World War I and II pensions rate been raised?

A. Public Law 312, 78th Congress, increased all war time pensions awarded according to the rating schedules of 1925 and 1933 by 15 per cent. Public Law 469, 78th Congress increased peace-time rates in the same proportion. Statutory awards have not been increased. Non-service pension is increased from \$40.00 to \$50.00 or to \$60.00 if the veteran remains on the payroll for 10 years, or attains age of 65 years, was provided by Public Law 313, 78th Congress.

Q. When a veteran is awarded a pension how is the effective date determined?

A. Usually the effective date of an award is the date the application is received in the office of the Veterans Administration. However the effective date of an award in favor of a World War II veteran discharged after July 13, 1943, is

fixed as the day following the veteran's discharge. If the claim is filed within one year, but in no case is it retroactive so as to fall prior to July 13, 1943.

Q. Does a veteran apply for educational benefits under the G. I. Bill in the State in which he lives or in the state where he wants to go to school?

A. Application will be made to the Regional Office in the State where he now resides.

Q. Can a veteran secure a loan guaranty the proceeds of which will be used to paint, paper, and generally remodel a home he already owns?

A. Repairs, improvements and alterations are included in the permitted purposes for which a loan guaranty will be granted.

Q. If a veteran has a service incurred disability and is permanently and totally disabled by reason of non-service disability, will he receive pension for both disabilities?

A. The veteran will be rated for both and will receive the greater benefit but may not receive both.

Q. Is out-patient treatment furnished for veterans for non-service disabilities?

A. Out-patient treatment is furnished only for the treatment of service connected disabilities.

Q. Is it possible to go to school for a longer period while taking a course in vocational rehabilitation than while taking courses under the educational provisions of the G. I. Bill?

A. The permitted periods of training is different in each case. Length of schooling or training under Public Law 16, which provides for Vocational Rehabilitation is determined by the length of time it takes you to complete the training objective. Length of schooling or training is determined by length of service. It is possible to go to school for four years under the provisions of either law but no longer.

Q. Is any provision made for a loan to a veteran to assist him in getting started on a course of education under the G. I. Bill of Rights?

A. No provision is made for such a loan to those who go to school under the provisions of the G. I. Bill. An amount not to exceed \$100.00 will be loaned to those who are beginning a course of training in Vocational Rehabilitation.

Q. Does a veteran who receives a pension continue to receive it while in a veterans administration hospital?

A. If the veteran has dependents he continues to receive the full amount of his pension. If he has no dependents \$20.00 per month will be paid while in the hospital if the disability was service incurred, or, \$8.00 per month if the disability was not service incurred.

Q. Is a person following a course of vocational rehabilitation entitled to a vacation during that period?

A. Yes, a leave of absence may be granted but not in excess of 30 days in any consecutive months.

Q. Are women members of the armed forces eligible for a course

A. Yes inasmuch as Public Law 110, seventy-eighth Congress made them a part of the army of the U. S.

# FIVE BILLION DOLLAR FAMILY BUSINESS

WHEN Grandma was a farm girl, she tended the chickens, milked the cows, churned the butter (72 percent of the nation's butter was home-churned then; less than 20 percent today). When she produced more eggs and butter than the family could eat, she would trade the rest for "pin-money" or frills.

Today, Grandma's "pin-money" has become BIG money. Last year it added more than five billion dollars to the income of U. S. farmers. That's more than hogs brought in—or cattle—or sheep. Just look:

1944 Gross Farm Income	
Dairy Products.....	\$2,969,000,000
Poultry Products.....	2,295,000,000
Hogs.....	2,796,000,000
Cattle and Calves.....	2,607,000,000
Sheep, Lambs and Wool.....	450,000,000
<b>Total</b>	<b>\$5,264,000,000</b>

And believe it or not, dairy products alone returned more money to farm families than the entire corn and wheat crops combined!

Any way you look at it, cows and chickens is a great industry. It is nation-wide, too. California and Texas are crowding close on the leaders—Wisconsin, New York, Minnesota, Iowa, and Pennsylvania. From millions of small dairy herds and chicken flocks in every state, as well as from large-scale operations, comes the enormous volume of dairy and poultry products that are such a vital source of our nation's food.

## Here We Are Again!

This series of advertisements is renewed in this issue and will appear monthly. We again invite you to send in good ideas which will help others in the business of farming and ranching. We will pay you \$5 for each good idea accepted by the judges, whose decisions are final. And don't forget to come in and see us whenever you are in Chicago—or if you haven't time to visit, phone us at Yards 4200, Extension 710, or write us at any time about any matter which pertains to agriculture. Remember our address: F. M. Simpson, Agricultural Research Department 128, Swift & Company, Chicago 9, Illinois.

## Martha Logan's Recipe for SKILLET DINNER

Pan fry 1 lb. bulk sausage meat with 2 tablespoons onions until brown. Pour off the drippings. Add 2 cups cooked rice, 1 1/2 cups canned tomatoes and 1/2 cup chili sauce. Blend well. Cover and cook over very low heat for 30 minutes. Do not raise the cover. Serve with lettuce salad and crusty bread. Serves 6 to 8.

## CULL THE NON-LAYERS Now!

Hens in your flocks that are still producing eggs regularly in the early fall months are superior layers. They are the ones to save for breeding stock, writes H. L. Kempster, chairman of the department of poultry husbandry at the University of Missouri.

Mr. Kempster says it's easy to select the good layers. They are the hens with white bleached shanks and with old, frayed and brittle plumage. The slick hens with yellow legs and smooth feathers are the ones that should be used for poultry meat. They should be culled out of your flock to make room for mature, ready-to-lay pullets now on the range. As it doesn't pay to sell laying hens, try to examine all individuals in your flock carefully. A red comb and moist, expanded vent are sure signs of a layer. If the vent is dry, puckered and yellow, you may be certain that hen has stopped laying for some time.

## ROY GUY REALLY KNOWS SHEEP

When Roy F. Guy, head lamb buyer for Swift & Company at Chicago since 1931, was a lad of 17, he answered an ad in a Kansas City newspaper. That led to his first job with Swift as a \$4-a-week messenger boy. Before his first year ended, he had doubled his salary and was getting a start in calf buying. At the ripe age of 22, Roy Guy was head calf buyer at Chicago. He held this post for 10 years and then went back to the starting line to learn lamb buying. In his 46 years with Swift, Roy Guy has bought many million lambs and judged in many a show ring. But his greatest pride is in the boys he hired and trained who have made good with the Company. "I always told a new boy to be careful in choosing his Company... and to stay with it," he says.

## Reclaim Croplands with Wheatgrass

Ranchers who have need of extra grass can often bring abandoned croplands back into production with crested wheatgrass. In tests conducted by the Colorado Agricultural Experiment Station, in cooperation with ranchers, and reported by Clinton H. Wasser, good stands of crested wheatgrass established on abandoned croplands in northeastern Colorado have supported as much stock per acre as two to four acres of good native sod will in the spring and early summer. And it makes pasture two or three weeks earlier in the spring, and later in the fall when the moisture is good.

**Time to Reseed:** September is a good time to reseed lands to either crested or western wheatgrass. The job may also be done in the late fall or early spring. For best results, try six to eight pounds of seed per acre drilled into grain, sudan, sorghum, millet or weed stubble. Land badly grown up to perennial weeds may first require heavy discing or even plowing before seeding.

## LIVESTOCK MOVIES FOR YOU

We will lend you films for school, church, or other farm meetings: "Livestock and Meat," "A Nation's Meat," "Cows and Chickens... U.S.A.," and two brand new animated movies—"By-Products" and "Meat Buying Habits." All for 16-mm. sound projectors. You pay transportation one way only. ## LET'S KEEP THE MACHINE IN GEAR

In these days of mechanized farming practically everyone is familiar with the gears that make the wheels of tractors, combines, and other equipment go 'round. We know that should one gear be removed or get out of line—or even if a single gear-tooth is broken—the machine won't run smoothly, if at all.

It is much the same with the livestock and meat industry. The three main gears are the producer, the processor and the retailer. When any one of these "driving gears" gets out of order, then the entire industry suffers. Coordination of their interests can contribute greatly to the smooth functioning of the industry as a whole. None of us gains by insisting too vigorously that our part of the industry is the only one which has problems that matter. We gain more by trying to look at our particular problems as they affect all of us. In other words, whatever hurts or helps the producer hurts or helps the processor and the retailer also.

The livestock and meat industry is an important part of the national economic structure. We at Swift & Company believe that we can contribute most to the welfare of America—and ourselves—by promoting harmonious practical working relations between producers, processors and retailers.

## Miss Robitaille Gets ARC Promotion Mdiwestern District

Mrs. J. H. Hamilton, Chairman of Nursing Activities, announces that Miss Eva Robitaille the Red Cross visiting Nurse has accepted the position of a nursing field representative for American Red Cross, Midwestern Area.

Miss Robitaille came to Gatesville as the visiting Red Cross Nurse in July, 1944. She has done a splendid work here among the servicemen and their families. The Shapter is sorry to lose her as a worker and also as a member of the community. Mrs. Hamilton explained that she is unable to say at this time whether or not Miss Robitaille will be replaced.

## THE Army Answers Your Personal War Problems

Your questions on allotments, matters as they relate to Army personnel and their dependents will be answered in this column or by letter. Write Headquarters Insurance, legal problems or other Eighth Service Command, Dallas 2, Texas.

Q. Does the Bronze Arrowhead count five points for discharge?

A. No credit points for discharge under the adjusted service rating system are allowed for the Bronze Arrowhead, which is awarded to

those who have participated in a combat parachute jump, combat glider landing or initial assault landing on a hostile shore. They will count their battle stars for the same engagements, however.

Q. My son was inducted to serve in the army for the duration of the war plus six months. Because VJ Day came in September, does that mean he will automatically be discharged in March?

A. No. Although the Japanese have surrendered, the war is not yet officially over. The date selected as the official end of the war will be announced by a peace treaty, a Presidential proclamation or by a joint resolution of both houses of Congress. Any period up to the date thus fixed will be considered as part of the war's duration.

Q. My husband is a sergeant in the army. Now that the war is over will I continue to draw my family allowance?

A. Under the servicemen's Dependents allowance act of 1942, as amended, family allowances will continue to be paid to enlisted dependents of men in the service until six months after the date of the official end of the war. See question immediately above to learn how the war will be declared officially at an end.

Q. I will soon become eligible to be drafted. Is it true that the army is again accepting enlistments? If so, are there any advantages for those who volunteer?

A. Enlistments have been reopened. You may enlist in the reg-

ular army for three years. Among advantages for volunteers are a choice of arm or service (i. e. Infantry, Artillery, etc.) and a choice of overseas theatre.

Q. If a person is in vocational training on the job and the employer pays him for any part of his service, will the trainee still receive the increased rate of pension referred to above?

A. The administrator is authorized to reduce the pension of such person to an amount considered equitable and just but not below the amount of pension or retirement pay to which he would be entitled to for service connected disability if not following a course of vocational rehabilitation.

SAYS SECRETARY OF AGRICULTURE:

# Despite Victory Used Fat Saving Must Go On!

Every woman in America should know that our country continues to face a serious fat shortage. And victory over Japan won't solve the problem immediately. We must keep on saving used fats in our kitchens!

If you have any thought that saving used fats is one of those wartime chores we can drop, now that Victory is here, please consider these facts and tell them to your neighbors.

**America still needs salvaged fats.** Not even at the peak of our war effort, when fats were required for mountains of shells and bombs and medicines, in addition to the ever-present need for soap, were our needs for salvaging fat greater than now. Our stocks have been drained by four long years of war, and there isn't enough on hand to meet all requirements.

**Don't let "Victory psychology" blind you to this national need!** If housewives stop saving fats now, the shortage will become even more critical.

**Don't let a single drop of used fats go to waste!** Little trimmings of fat left on the platter at the table, scraps left on plates, and even the skimmings of soups and gravies are important. It is the consistent saving of even these small amounts that counts.

**Don't turn in fats that can be re-used!** But some fats, such as those rendered from lamb and mutton, are not suitable for re-use. Put them immediately in the salvage can. And, with other fats, after you've got all cooking good out of them, there is always a little left. No matter how little it is, save it.

Your butcher will still give you 4¢ and 2 red points for every pound you turn in. Save consistently—save every drop you can—every day—until Uncle Sam says the job is done.

*Benjamin P. Anderson*  
Secretary of Agriculture

Approved by USDA and OPA. Paid for by Industry.

Britain and Russia before the world had an atomic bomb. It seems to me to be even more vital that we cooperate now.

We must also make doubly sure that Germany and Japan are not allowed to maintain any heavy industry with which to rearm. To do this job of policing these countries we are going to have to maintain large forces overseas for a long time, and this fact is already causing many a heartache. Every wife and mother wants her husband or son to come home as soon as possible. As I see it, every father is needed at home with his family. Every young boy who has not completed his education needs to get on with his schooling. Every older man is anxious to get an opportunity to re-establish himself in business before he is too old. Many single men have a right to look forward to coming back and establishing homes of their own. Each group can make a perfectly good case. At the same time we cannot ignore our duty to police the occupied countries, nor can we answer the question simply by continuing to draft more men as replacements. The army has testified that under any circumstances there will be nearly 2,500,000 overseas a year from now—not because we will need that many but because transportation over the vast distances of the Pacific will make it impossible to bring more men home.

I am, therefore convinced that we should make a real all-out effort to provide the occupation forces we need by a volunteer system. I believe that if the army will but make a sincere effort to get the men they need this way they can do so. If only one man out of ten now in the service would volunteer to stay, it would meet our needs. I think more than this number will want to stay, particularly if we increase the compensation and reduce the length of the term for which men must sign up. The military affairs committee is now working on this question, and I hope they will bring out some plan along these lines.

On the first day of the new session of Congress, I introduced a resolution to do away with "War Time" and to return the first of the next month to regular "Standard Time". Several other members had the same idea, and I am hopeful that we will get action soon. On the second day of the session I appeared before the Rules Committee trying to get them to set for early consideration my bill to make surplus soil building equipment available to soil conservation districts. Two of the members of his very exclusive committee expressed the fear that this bill would make it

difficult for contractors to buy any of this machinery, and as a result the committee took no action. I simply cannot understand the attitude of these members as it seems so clear to me that this bill offers the only way of actually putting this equipment to use on a real job for the public good.

With best wishes, I am

Yours sincerely,  
"W. R. POAGE"

W. R. Poage, Congressman,  
11th Texas District.

Dear Friends:

Since I wrote my last newsletter the world has entered into a new era. Whether this new era will be one of lasting peace and unequalled prosperity, or whether it will be one of complete destruction will depend on our ability to get along with our neighbors in other parts of the world. I say neighbors because in this day of rapid transportation there is no spot on the globe more than 0 hours of flying time from any other spot. We are therefore all neighbors in a physical sense, whether we want to be or not. I say that unless we get along with our neighbors we invite universal destruction because it is inevitable that within the course of a few years all people will have some type of atomic weapons—some of them will doubtless be even more terrible than the bombs we used on Japan. The world simply cannot afford to fight another war, but fight we undoubtedly will unless we can devise a practicable means of securing the cooperation of at least the major powers of the world.

The United Nations offers the only means available for such cooperation. Our country has recognized the need for such an organization. We must now work at the job of cooperation with our allies

It'll just surprise you how much can be packed in such a small store.

**NEWS of MEN AND WOMEN IN UNIFORM**

Here's a letter from one of our friends in the Pacific. This is from Hazen Ament, who worked with us for a while. A good egg.

Here's the first. "Dear Mat: Just received the V-Mail news bulletin and enjoyed it very much. Seems that things are not going to be so good for the average soldier when he returns home from the hell holes, fox holes and disadvantages of the Pacific.

I hate to think about having to return, if the picture you have painted, is as bad as all that. We have sweated out some damn bad times down here. Made two D-day invasions and they were not a bed of roses by any means. I realize that the home-frontiers have had it hard too. You have had to do without many necessities and bought many, many War Bonds and contributed to everything that had to

physically, mentally and financially suffered. But, if and when we do have the pleasure of coming back to the mainland once again, and find conditions so bad that we will have to help pay for the jobless days of those men and women who had several years of prosperity and good times, while we were combating every known enemy to white man, then what are we fighting for? What is the use? That is bad, is it not?

The way to victory seems some brighter (this was written and received before the Japs surrendered) from where I stand. But this damn thing is over or nearly so. Fox holes are still nice things to have. I think that a total victory is the only way out.

I don't get the paper very often. Fact is, I received several Oct. and Nov. issues last month. But let me tell you, they were just as good as brand new issues to me. There are so many things in them that I have never heard about. I especially enjoy the news from boys overseas. It helps one to kind of keep up with all his old buddies. You will note the change in my address. I am finally north of the equator again, and west of the International date line.

Keep the paper coming—also the bulletins. Best regards to you and yours. I remain, your friend,

Hazen Ament

Hazen, thanks. I might have been "singing the blues" so to speak, but things are NOT what you folks left here. There's more and more regimentation, and the \$25 a week for 26 weeks (6 months) bill for War Workers has been Okehed by the president, and the letter I wrote you was away before that. There's lots of votes tied up in those war workers, and they vote

It's our privilege!

**How good is your "P. L. C.?"**

There's no need to run to the dictionary to look up "P.L.C." It simply means "Party Line Cooperation," which, as you know, is what it takes to make good party line neighbors . . . better telephone service. So won't you please keep your "P.L.C." rating high? It will help us to better serve both you and your telephone neighbor.

**EMPTY SOCKETS**

*Breed Eyestrain*

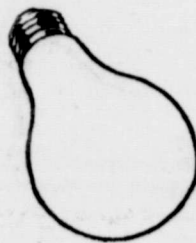

**Fill 'em with right-sized bulbs . . . now!**

Empty sockets are eyestrain breeders. They rob you and your family of needed eyesight protection for the long winter evenings ahead.

Better check your portable lamps and lighting fixtures today. Then buy enough right-sized bulbs to fill those empty sockets and replace blackened bulbs.

With lamp bulbs more plentiful, there's no need for anyone to be without better light for better sight. Eyes are priceless . . . good light is cheap.

do with winning the war. You have paid overwhelmingly high prices for your essential food and clothing. That is all true. We have both in blocs, and "blocs" are what politicians like, presidents not excluded. Yes, when they started paying them these high (super-high) wages, they told them there'd be no after-the-war-bonus, and that they were paying them plenty so they'd have something to tide them over in the unemployment period after the war. Many night clubs, hoskey-tonks, fine cars, fur coats and jewelry were bought with this "heavy dough" and they had a pretty good time. Now they want "25 for 26". What you boys get is O. K. by me, and the sky's the limit, but as for them—they've already got it, as far as I'm concerned—That is, if I had anything to do with it.

Yes, it's a different country, in many respects, than it was when you left it. A filling station that used to pay \$15 to \$20 a week, now pays \$50, and they work when they want to. You'll see a LOT of differences than what you left in the states.

Think, it'll all work out, but some of us won't look the same, and I guess that'll be O. K. too.

### JUDGE R. B. CROSS "POSSIBILITY" FOR TENTH COURT

In a story in the Waco News Tribune, Judge R. B. Cross of Gatesville, has been mentioned as a possible replacement for the place vacated by Chief Justice Ben H. Rice, Jr., who has been appointed Judge of the Western Texas Federal Bench.

Judge Cross has made an enviable record as District Judge in the 52nd Judicial District, and many of his friends locally and throughout the state would be pleased to see this promotion awarded him. As we understand it, the appointment is made by Governor Coke R. Stevenson, and lots of them will be after it.
