## 6-COUNTY DELEGATION TO PRESS FOR BRAZOS BRIDGE, N-S HWY.

Representatives of six counties will meet in Cleburne Thursday to lay plans for unified support of a state highway commission application for federal aid in building a bridge across the Brazos at Kimbell Bend at the juncture of Johnson, Hill and Bosque counties. Judge Floyd Zeigler of Gatesville will attend from Gatesville.

Federal funds will be sought to supplement the \$200,000 earmarked by the highway commission for construction of the bridge, which is the key to the building of a long sought highway south from Cleburne.

The committee was formed after a hearing at Austin last Wednesday at which the highway commission said it is ready to proceed with construction of the bridge at Kimbell Bend, in spite of the Fed-

eral government's plan for a dam on the Brazos near Whitney that will flood the structure.

The decision to go ahead with the bridge project was based on recent engineering studies showing the presence of the future lake would not make it unfeasible to build the structure there.

From highway 174 at Cleburne the new highway would extend south by way of Meridian or Clifton to Gatesville, Copperas Cove and Briggs, where it would tie in with Hwy 29 to Austin.

It will split the largest and richest area in Texas now without a south highway. Besides forming a new airline route between Ft. Worth and Austin, it would cut substantial distances from travel between towns of the 6-county area and Ft. Worth.

Here's the check for your college expenses... more money from the Victory Bonds we bought for your education.

Money from some of those other bonds we bought back during the war is now fixing up the kitchen for Macher and paying for the new barn. Certainly is helpful to get back \$4 for every \$3 we invested in Victory 6 Bonds!

Keep up the good work at school son.

### FAMOUS U.S. ARMY DIVISIONS

#### 26th INFANTRY DIVISION

**THE YANKEE DIVISION**—it was composed originally of National Guard troops from the New England States—has made history in two World wars. In 1918 the 26th Division was among the first 50,000 American soldiers to arrive in France and took part in the Champagne-Marne, Aisne-Marne, St. Mihiel and Meuse-Argonne operations. It stood fourth on the list of American divisions in the matter of citations. It was again called into the Federal service on January 21, 1941, its personnel being composed principally of the Massachusetts National Guard. The Division went overseas in August, 1944, its components then being the 101st, 104th and 326th Infantry Regiments, and 101st, 102nd, 233d and 180th Field Artillery Battalions.

Relief of the beleaguered American forces at Bastogne and the prominent part it played in spearheading the drive of the Third Army to link up with the Seventh Army are among the highlights of the Yankee Division's combat record in the present war. The 26th first went into action on September 29, 1944, southeast of Verdun and by October 5, some 20 miles east of St. Mihiel, it was getting its combat indoctrination the hard way. On October 8 it relieved the 4th Armored Division near Nancy and by the end of the month was realizing gains north of the forest of Parroy. In November it was designated to help reduce the fortress of Metz and attacked on a line from Pont-a-Mousson to Amneville. The YD outfit next crossed the Saar river and on December 21 broke into the German frontier, quickly capturing Habkirchen.

Christmas Day, 1944, will never be forgotten by the soldiers of the Yankee Division. It had been rushed to the Ardennes to hit the southern side of Von Rundstedt's salient in Belgium and on the holiday was engaged in the brutal and heavy fighting to relieve the forces surrounded at Bastogne. Along with the 4th Armored Division the Yankees smashed through to reach the 101st Airborne Division. Its triumph in the Ardennes was complete. Late in January it took up positions near Saarlautern. In February it relieved the 95th Infantry Division.

In March, 1945, the Division spearheaded the Third Army drive which resulted in the junction with the Seventh Army, slicing the Saar Palatinate and the routing of the German defenders. The Yankees drove into the heart of the Reich and by April 17 was holding a 15-mile front west of Nurnberg. On V-E Day it had advanced 20 miles north of Linz. Commending the YD Division, Maj. Gen. Manton S. Eddy, commanding the XII Corps wrote Maj. Gen. Willard S. Paul, then the Division's commander: "The remarkable speed with which your fighting troops have acquired the spirit of veterans deserves commendation second only to the high courage and constant aggressiveness with which you have battled across Lorraine."

### LET'S TALK THINGS OVER

My husband and I have been married more than 25 years. He has been the most wonderful husband in the world to me until recently when he has been fractious and unkind to me. I could not understand what had come over him. Then he began to let little things drop that showed me that his mother with whom I had thought all these years was my friend, was turning him against me. We have one son and another in college and our home has been truly happy but now I am scared for it looks like my mother-in-law has determined to separate Tom and me, in fact, he has admitted she has advised him to quit me and has refused to tell me what she used for an excuse for doing so. I love my husband and he has always seemed to adore me, but since his mother has been telling him things on me he has even began drinking, a thing he has never done since before we were married.

Please tell me what to do. Theresa.

Dear Theresa:

Your mother-in-law is old and lonely and she is scared too. She does not know what will become of her. Hold your poise and know if you could win your husband in the first place and if you could hold him happily for 25 years you can keep your place when another woman, his mother is trying to take him from you.

Treat your mother-in-law kindly but if she continues to try to break

up your marriage, just talk to her firmly telling her you will still be her friend, but if she continues, you will bring your husband before her and demand that she discontinue causing trouble or she must stay out of your hfoe.

But in the meantime, get into Tom's arms and stay there until he will not let you go. I will admit a mother-in-law is far more dangerous than the "other woman" for you can't fight the mother of the man you love.

Dear Emma M. Henderson:

My wife and I married just before I went overseas and our little daughter, Lucille, was born while I was away. No one knows I loved the little tike and longed to see her; I simply wore her pictures out showing them to everybody I was with, and, yes, I'll admit it, and kissing them. It seemed like the beautiful little thing was an angel lent to us; I could hardly believe she was ours and my great desire to hold her in my arms and be with her did as much as anything else to bring me safely home again.

When I got here, I found that everything about her was more than I had imagined; she has the sweetest smile in the world and uses it most of the time. Her little arms around my neck are the loveliest thing that ever happened to me. Well, what I am writing you about, Mrs. Henderson, before I had been home twenty-four hours, Marie, that's my wife, SPANKED, yes I said SPANKED little Lucille and made her cry terribly. Let me tell you, I saw red; if somebody else had done it, I wouldn't have been so shocked (they hadn't the reason to love her Marie did) and I didn't think Marie could be so cruel. I grabbed my hat and left the house in the worst turmoil I ever experienced. Before the day was out, Marie whipped her again. I remonstrated with her but she only said children had to be dicplined. Our child is just a baby, not quite two years old and I feel I simply can't stand to see her scolded and hit, I be-

lieve it will make me physically ill and I know it is terrible for the nerves of a little thing like our tender daughter. What can I do? I'm frantic.

Leslie,

Dear Leslie:

You are right but just remember Marie is not the first person who ever whipped a child, even a baby, most of our parents have and many fathers and mothers of today do. Most parents have to learn to be parents on their children. If there has been a large family where children, especially girls, are reared, they often get practice tending the younger children and, under the supervision of parents, get experience that helps them when their own children come along. It is said school teachers make the best mothers on earth because they have learned on other people's young ones, and they did not dare vent their irritations on them and learned to control their dispositions. Sunday school teaching is good opportunity, too, although I have personally known one young Sunday School teacher to slap a pupil as hard as she could; and I knew a Boy Scout Master to soundly thrash a Boy Scout, too.

Hod on to your temper and do not drive Marie to further anger when she is stirred up enough to strike and take the baby off her hands as much as possible, sometimes it is sheer nervousness from being tied to a child too long that often makes mothers fractious. ble, for it is not easy for a young girl who has always gone and had a good time to be penned down as a nurse day in and day out. Soon, she will punish less and less.

Miss Janet Sadler, student at the University of Texas, was a visitor here this week with her parents, Mr. and Mrs. C. C. Sadler.

Mr. and Mrs. W. A. Prewitt leave today for their new home in Mississippi, where Mr. Prewitt will be associated with his son in the motion picture business.

Between now and November 21,  
thousands of Army veterans will  
reenlist in Uncle Sam's new volun-  
teer peacetime Army. Because—  
men who have been discharged be-  
tween May 12 and November 1 of  
this year and reenlist on or before  
November 21 will be able to return  
to the Army with the same grade as  
they held when discharged.

Men with six months of satisfac-  
tory service discharged as privates  
will, on reenlistment before Novem-  
ber 21, be given the grade of private  
first class.

Men now in the Army who apply  
for discharge after NOVEMBER 1  
for the purpose of reenlisting in the  
Regular Army will also retain their  
present grades, if they enlist within  
20 days after discharge and before  
FEBRUARY 1, 1946.

### "BEST JOB IN THE WORLD"

These special privileges are typical  
of the new law recently passed by  
Congress. Few opportunities for a  
lifetime career offer as many attrac-  
tive advantages.

Can you think of any other job  
that would give you good pay, your  
food, clothing, quarters, free med-  
ical and dental care, world-wide  
travel, 30 days' furlough every year,  
education and training in any of  
nearly 200 skills or trades, and  
enable you to retire with a life in-  
come any time after 20 years' service?

There isn't any! That's why a  
job in the Regular Army has been  
called "The Best Job in the World."

### HIGHLIGHTS OF THE NEW ENLISTMENT PROGRAM

1. Enlistments for 1 1/2, 2 or 3  
years. (1-year enlistments permitted  
for men with 6 months' service.)
2. Men reenlisting retain their  
present grades, if they reenlist with-  
in 20 days after discharge and before  
Feb. 1, 1946. The same applies to  
men discharged between May 12 and  
Nov. 1, 1945, who reenlist before  
Nov. 21, 1945.
3. An increase in the reenlistment  
bonus to \$50 for each year of active  
service since the bonus was last paid,  
or since last entry into service.
4. 20% extra pay when overseas.
5. Paid furlough, up to 90 days,  
depending on length of service, with  
furlough travel paid to home and  
return, for men now in the Army  
who enlist.
6. Mustering-out pay (based  
upon length of service) to all men  
who are discharged to reenlist.
7. Option to retire at half pay for  
the rest of your life after 20 years'  
service—or three-quarters pay after  
30 years. (Retirement income in  
grade of Master or First Sergeant up  
to \$155.25 per month for life.) All  
previous active federal military ser-  
vice counts toward retirement.
8. Benefits of GI Bill of Rights.
9. Family allowances for the  
term of enlistment for dependents of  
men who enlist or reenlist before  
July 1, 1946.
10. Choice of branch of service and  
overseas theater in Air, Ground or  
Service Forces on 3-year enlistments.

Shanghai, China—Charlie Ray Boswell, 23, WT-1-c of Turnersville, Rt. 1, helped to bring about the surrender and immobilization of a Jap "suicide" garrison a month after the official surrender of Japan's armed forces.

Aboard the USS WALTER, a 21-man landing force aided Chinese authorities in the demobilization, on an isolated island off the China coast. Natives said the destroyer was the first U. S. Warship in history to visit the ancient Chinese island.

It was the tiny Bunji Island, a suicide naval base in the Chusan Archipelago, 80 miles southeast of Shanghai. The Jap Garrison had two gunboats and 87 high-speed craft, designed for suicide attacks against allied shipping. Personnel of the WALLER also assisted the Chinese in arranging for the collection of Japanese arms in the area of Tinghai, capital city of the island, where 2,700 Japs were stationed.

Fifth Air Force, Tokyo—Cpl. Wayne N. Payne, son of Mr. and Mrs. Harvey Payne Rt. 1, Turnersville is now in Korea serving with an airdrome squadron of the Fifth Air Force. He's been over 21 months and is a cook. He has just been awarded the Bronze Arrow-head Device for participation in the original assault wave in the amphibious landings on Wakde Island, Dutch New Guinea, May 18, 1944.

# HORNETS WIN OVER LA VEGA CLUB 33-0 HERE

## HORNETS SWARM OVER PIRATES: OUTCLASSED

With no disparaging remarks about the launty little La Vega Pirates, Gatesville high school Hornets swarmed all over them her Friday night and it never was a question as to who would win—only for the first few minutes—when the Pirates had the ball. They just couldn't go, only they did scare the Hornets a time or two.

It was really a class "B" team meeting a Class "A" team. It being that, no one starred for the Hornets—they couldn't without more opposition.

These "set-ups", and Clifton has been the only contest we've had in conference play this year, don't seem to good, bearing in mind the tough one next Friday with Hamilton here, and that super-duper with McGregor there.

Yes, it was a good ball game, but not the kind that prepares a team for a crucial series like the next two. The Hornets are going to have to extend themselves to take these two, and, we think they know it.

Shelton, Kucera and Everetts bore the brunt of the Pirates attack, which smothered, nearly everywhere, save maybe sneak runs at end.

For the Hornets, everybody played so everybody starred. Tomblin, perhaps stood out, and made two dashing runs that looked awfully good, and the second stringers looked as good at most times as did the "shock troops".

Well, you read it, and here it is as it was unraveled.

Franks holds, Tatum kicks, Hornets kiaking from the north end, La Vega defending South goal, ball goes to Shelton on the 5 and he is stopped on the 11 yard line. Davis stoppini him. Center play

gets nothing. Whitt stopping. Again they don't go. Davidson kicks to Davidson on the 45, he fumbles, and Vanzant recovers for La Vega. Shelton passes to Everetts, stopped by Tatum and Bone, 8 yard gain. Brooks tries C and is stopped by Whitt for no gain. Everett carries cuts over LT making 5 yards and 1st down. Time, La Vega. Shelton passes, incomplete to anzant, incomplete, Shelton passes incomplete over C. Shelton passes third time, incomplete. Behler punts to Davidson on the 15, returns to 25, stopped by Kucera.

Tatum to Necessary, and he makes 5 yards. Tatum at rt end makes 11 and 1st down. Tatum to Bone and he goes to the 43 yard line and it's another 1st down. Tatum carries and butts his way to the 26 yard line, and another 1st down. Shelton slightly injured. Time, La Vega.

Kucera stops Bone after he makes 2 yards. Necessary goes wide stopped by Everett, 1 yard. Bone over guard carries to the 12 and 1st down.

Tatum to Necessary at left side makes 2. Tatum carries, and is stopped by Kucera, they measure, and it's not first down. Williams for Wilkins, Bone goes over LT for 6 points. Bone holds, Tatum kicks and it's 7. Hornets 7, Pirates 0.

Gilmer for Painter. Hornets kick, ball to 10 taken by Everett, and he goes out of bounds on the 28, stopped by McDonald. Everett carries, goes over LT, stopped by Gilmer, 3 yards. Kucera takes, stopped at scrimmage by Whitt, Gilmer and McDonald. Next play Hornets offside, and that makes their 1st down. Pass over C is short, Shelton passing. Wilkins for Williams out. Shelton is stopped for no gain by Featherstone. Everetts breaks through tackled time after time and runs almost thru entire team carrying to the 13 yard line. A very grand run, over some sleeping Hornets, stopped by Featherstone.

Kucera carries fumbles and it's recovered by Gilmer. ball on the 13 yard line. Necessary plows thru for 9 yards, stopped by Brooks. Bone plows C for 1st down. Necessary takes, stopped by Vanzant, for 3. Tomb'in carries to the La Vega 46 yard line, stopped by Graham, Time. Hornets. Davidson in. Necessary out. Painter for Gilmer.

Tomblin carries thru C again to the 12 yard line and it was another nice 30 yard run. Tomblin makes 4 thru C. Gartman for Patterson. Davidson runs wide at left end and is knocked out on the 1 yard line. 1st D. Tomblin goes to the 1 ft. line. Tomblin goes over left side for 6. Placekick is good. Gatesville 14, La Vega 0.

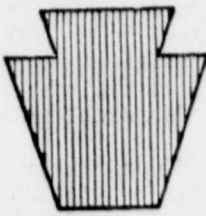

Hornets kick. ball to Everetts on the 10, returns to the 35 where he is stopped by Davidson. Kucera carries, stopped by Davidson no gain. Shelton at C is stopped by Featherstone and Painter. They kick to the 35, Tomblin fumbles and Wilkins recovers on the 38. Shelton passes, incomplete. intended for Everetts.

Shelton passes, intercepted by McDonall, ball on the Hornet 38 yard line. Davidson passes, no one there, incomplete. Davidson passes over Gartman, incomplete. Pennington for Davis. Davidson passes, intercepted by Everetts on his own 42 yard line. Freddie for Pennington. Everetts picks up 7 at left side, stopped by McDonald. Kucera carries and it's a 1st down and 7 yards, McDonald tackling. Kucera carries and then half ends. Gatesville 14, La Vega 0.

Between halves. Miss Htrve Jean Hamilton was honored by being

## FAMOUS U. S. ARMY DIVISIONS

### 28th INFANTRY DIVISION

THE KEYSTONE DIVISION, composed originally of units of the Pennsylvania National Guard, was nicknamed the "Bloody Bucket" Division by the Germans who wilted before the fury of its attacks. Its history includes all the wars in which the country has participated. The 109th Field Artillery Battalion had three separate companies in Washington's Continental Army; the 108th Field Artillery dates back to 1840; Battery B of the 107th Field Artillery had a brilliant record in the

War Between the States; the 110th Infantry Regiment served in the Philippines in 1898-99, and the entire Division distinguished itself in France in 1918. In the present war it entered the Federal Service February 17, 1941, under command of Maj. Gen. Edward Martin, a veteran of the old 110th Infantry in the World War, and now Governor of Pennsylvania.

The 28th went overseas in October, 1943, its components being the 109th, 110th and 112th Infantry Regiments, and the 107th, 109th, 229th and 108th Field Artillery Battalions. It entered combat early in July, 1944, with the First Army in Normandy and was in the thick of the hedgerow fighting until August 20 when it could enjoy rolling down the highways of France. It assisted in the bagging of thousands of German prisoners trapped west of the Seine and on August 29 entered Paris. Advancing an average of 17 miles a day, it swept on into Belgium and Luxembourg. It came up before the Siegfried Line September 11, the first Division to enter the Reich in force. The Division endured all the horrors of the fighting in the Hurtgen Forest and captured the towns of Vossenack, Kommerscheidt and Schmidt.

When Von Rüdtedt unleashed his offensive in December, 1944, the 28th Division stretched along a 25-mile front faced the full fury of the attack. At one time the 28th faced nine German divisions. The Keystone rocked under the weight of this assault but it did not become panic-stricken. The Division's defense was termed by one correspondent as "one of the greatest feats in the history of the American Army."

Early in 1945 the 28th went on to defend the Meuse river and the following month captured the city of Colmar. It continued on by crossing the Rhine-Rhone canal and by February 23 took positions along the Olet river near Schleiden. During the weeks which followed the Division cashed in on the disorganized condition of the German forces and by the war's end was at Kaiserlautern, Germany. The 109th Infantry Regiment received the French Croix de Guerre for the capture of Colmar.

Maj. Gen. Norman D. Cota commanded the 28th from August, 1944, to the present. Brig. Gen. James E. Wharton was commanding general for one day in August, 1944. While visiting a regiment a few hours after taking command he was fatally wounded.

## PUBLIC IS WARNED AGAIN TO AVOID HOOD RESERVATION

Col. F. B. Delamater, Jr., post commander of Camp Hood, has asked that the public be warned not to enter into camp range areas and t ostay on the hard surfaced roads when driving through the Hood reservation. The tremendous amount of firing being conducted makes it impossible to locate all of the shells, grenades, etc., which have failed to explode upon being fired.

The post commander also warned against picking up any scrap metal or "souvenirs" on the reservation since frequently a small and relatively harmless-looking piece of metal contains enough explosive to cause considerable bodily injury. The only safe rule is to avoid touching or moving anything of this nature.

**Oil and Mold**

Apostles of government ownership of business agree sometimes that private management can do better with little things. When it comes to filling prescriptions, mending shoes or making clothespins, they admit, private operators may be more efficient. Not so with the big stuff, they argue; coal, iron, oil, railroads are different. These just beg for bureaucratic bossing.

Of course big industries are more interesting to politicians because they employ large numbers of people and affect the daily lives of millions more. The fact remains however, that government can and does make mistakes in the operation of big industries. Moreover, appropriate encouragement from government in relatively small enterprises has been known to result in much good.

**Significant Decisions**

Since government enterprises tend ultimately to become monopolistic, mistakes in them can be far more fateful than private blunders. Our government made two important decisions in 1942 which illustrate the case perfectly. One, to take a speculative flyer in Arctic oil, has cost American taxpayers 300 million "good-bye" dollars already. The other decision had to do with penicillin.

Penicillin is a drug, a mold extract that most people know less about than they do about gasoline. Some perfectly astounding cures are being worked with it, including cure of meningitis. It was discovered by an English scientist, Sir Alexander Fleming, in 1929 but production was tedious, slow and costly and consequently few sufferers were helped by it for 13 years.

**In Mass Production**

By 1942, our first war year, some American capitalists had taken a hand with marked success. The product was costing \$20 a bottle then, and the average patient required three bottles. Government authorities realized that war would create a need for it so they guaranteed a large market and provided capital for mass production. History will record the splendid results.

With the government's big purchase of this successful item, volume production started. Now there are 20 factories. The largest cost more than 3½ million dollars but penicillin is costing less than \$1 a bottle, \$3 per treatment. Many lives have been saved and more will be. Mankind will be healthier and happier. Government encouragement of this business proved wise and beneficial.

**Smell of the Yukon**

How different was the Canol oil venture. The Army drilled wells on the Mackenzie river, built a 27-million-dollar refinery at White Horse and tied into Fairbanks, Alaska, with 1,000 miles of pipeline. Nothing was gained. Gasoline from the white elephant plant at White Horse costs 26c a gallon. Oil companies can ship a better product there from the states for 18c. The venture has been abandoned.

The Canol experiment failed. Very apparent obstacles made the operation too costly. Known sources of supply are better and 300 million dollars of taxpayers' money is gone. Government's support of one beneficial drug can't justify its management of big business. What official, spending public money, is cautious and thorough like a private investor with his own money? Never has government management achieved the efficiency of American private management.

Dear GI & GILL:

Still, we go on with this V-Mailer. When the ox is in the ditch, there's nothing else to do. Of course, Uncle Simoleon says you can't V-Mail'em now, but he don't say you can't mail 'em, and they tell us some of the straight mail got there before the V-Mail did anyway, so we didn't lose much. Besides, you couldn't do much more on a V-Mailer than, figuratively throw your hat in and either it stayed, or it was thrown out. That wasn't getting the job done much, but Eastman didn't do bad, or whoever invented it, sold the fillum, etc, etc, and we couldn't even patent or copywrite this. That's the way it goes.

Comes a time, when correspondence is all gone, or not, in, nothing has happened that's reported or reportable, and then, you've really got a job on your hands. If you don't put in a flood of uninteresting free publicity of some kind or other, that no one reads, or wants to read, then right there, folks—the job in the front end of a newspaper takes on a serious aspect. That's right where we are today (Friday afternoon), so with our folks in the shop unbusy, and time going on like it will, and they of necessity must be here, then, we scratch our heads, and consume columns in an

effort to have something that will also take up your time Tuesday morning.

Just thought of something. Maybe us fellers that have small business had better turn in to Uncle Simoleon the fact that we want 52 hours profit for 40 hours stay open. And too, now they're talking about 20 percent raise for all civil service employees. Any raise in our estimation is O. K., provided they can do that percent more useful labor.

And, how'd it do for all the newspapers, radio stations, card writers, billboard operators, job work shops, sound cars and every sort of publicity to advise our "dear politicians" in Washington, Austin, Coryell county and Gatesville that it was going to cost them 30 percent more to advertise, or otherwise inform 'the pepul' that they were in line for that soft graft in Washington for another two, four, or 6 year term in the "big state of confusion". How'd that strike home? Especially, when in nine out of ten cases, the "home-folks" are footing the bill (local bills) for these folks, so they can get back in the public feed trough for another term. How'd that be? Bet they wouldn't pass out so many raises to everybody under the sun, if their "press agents" had to plunk down

the hard cash, and 30 percent more of it than before. But, suppose, they'd sick the OPA on us, and that'd hold us in line. Already, with these bit unionist getting more and more out of a cut, the fact that they are getting it seeps down to the "podunk", and in "podunk" the Social Security is really doing most of the hiring and that's one branch that don't turn them away and hagn out the sign: "No Help Wanted". Instead, they fire free publicity releases urging them to step up the public feed trough and drink of the nectar provided by themselves, and their bewildered employers, who are clipped for half of the "kittie" that is supposed to be in the Social Security till which is filled with I. O. U's to the extent of some \$15,000,000, or 15 billion, according to Nation's business.

Well, they're paid to worry about that, but we do it free (the worrying) and shouldn't, but we can't help it. So, on to other things.

Think he local C. of C. should get behind this 4th Army Maroon Club. They've got something — something that has put them ahead of all service teams in Texas—a very nice honor. They've got stars galore, and only thir proximity to the small town of Gatesville has hindered in getting them their

deserved publicity in state newspapers, altho, via Associated Press, they are getting a good play in and around Chicago, and other Eastern points. We've suggested to the management that they get a Texas boy on the club—even if they only run him in a few minutes, and that preferably he be from some Texas metropolis like Houston, Dallas, San Antonio, or other. That's the ducat that gets good state-wide publicity. Even the mighty Sky-masters of Ft. Worth, with two former TCU players have been beaten, but not yet, the 4th Army. Of course there is some difference between the opponents, and they don't have C-54's to travel in, and that does slow them up traveling by six-wheel truck or bus line—when others go by air in a 4-motored job.

Well, we thought the boys let us down. They didn't Halloween. Did you ever read Chick Sales' "Specialist". Well if you did, the boys did bring one of those in, and where was it—right in the front of Superintendent George Wier's house. We know, Mr. Wer's big enough to appreciate the fact that things like this in a boy's life are just about as necessary as "readin', ritin' and rithmetic", all of which shows, they're just human and just boys.

### North Hood Maroons Thump Fort Sill Redlegs, 13 To 0

4.(P)—The Fourth Army Maroons maintained an undefeated record here today by overpowering the Fort Sill Redleg eleven, 13 to 0, before 5,000 fans at Butner field. It was the sixth straight victory for the North Camp Hood gridlers, who have but 13 points scored against them this season. Fort Sill held the Fourth Army scoreless until the last two minutes of the first half, when a redleg fumble set the stage for the

initial touchdown. Cpl. Joe Szeckley, hard-driving Maroon left half, tossed a 12 yard pass to Sgt. John White, left end, who took one step to pay dirt. Placement kick attempt failed to pay and the Fourth Army led at half-time, 6-0.

Another redleg fumble paved the way for the final tally late in the third period. Szeckley scooted right end to score from the 10. Cpl. Charley Roffine, right end, kicked the extra point.
