CIVIL COURT DOES ALL DONE THIS WEEK IN COURT

And, the only jury case was that of J. E. Woodson et al vs. H. C. Floyd et al, a damage suit, which, according to District Clerk Carl McClendon was a judgement for the plaintiff.

The other case, a non-jury case, was Thomas Warren vs. Gladys Warren, divorce, granted.

3 203 "DAMS" OR "CAMPS": NO "VOTES" IN CORYELL COUNTY

Early Thursday morning the grand total of poll taxes paid was 3,203.

That, ladies and gentlemen, is about 1,000 short of the usual, but with the veteran vote, it might reach 4,500 which is about what we had "before the war".

As far as dams or camps are concerned, the new way to spell either is "vote", and there's not much of a dam or camp in 3,203 votes.

Put yourself in their places and figure that one out for yourself. Where'd you put the dams and camps?

CAR STOLEN AT BELTON RECOVERED IN HOOD RESERVATION

A Chrysler '41 which belonged to a Belton or Temple Doctor and was picked up on the streets of Belton has been recovered where it was abandoned in Camp Hood. That's the entire news from the Sheriff's Department this trip.

FULL COURTHOUSE HEARS PAPER READ AND PASSES

One of the largest crowds ever assembled in the District Court room, the occasion of which was a called meeting by H. J. White, Chairman of the Post War Planning Board, of Coryell County. The building was full, and they were turned away, possibly 1,000 to 1500 people would have been in the court room if they could have.

Chairman White made a brief welcome address, then introduced L. M. Stinnett who stated the purpose of the meeting was either "do or don't" in relation to Camp Hood's permanency.

Coryell County, he said, had furnished thru government purchase, 137,000 of the 155,000 acres in the Camp Hood area, and now, since the emergency is over, citizens of the county either want their land returned to small home and farm owners, or the "business" and not the "shootin'" end, adjacent to Gatesville.

In other words, if this one-sixth of the total taxable land of the county is to be permanent reservation during peace time, it is imperative to the economic welfare of the citizens of the county to have the headquarters at North Camp Hood, instead of the "shootin'" and range areas.

Should this not be done, the resolution passed states that it is respectfully requested that the government buy chalk hills in Bell county for the maneuvering, and release to this county no less than 130,000 acres, maintaining the 7,000 acres in South Hood that holds both (in Coryell County) the headquarters of the military reservation and the cantonment area.

Robert Brown read the prepared resolution which embodied these facts and requests or demands, and every citizen in the courthouse signed the resolutions, which will be photostated and mailed to the interested congressmen, senators. War Department officials and whoever else might have anything to do with it.

The resolution was put in motion by Mr. Brown, and was seconded by H. K. Jackson, and passed the body almost unanimously. After a motion was made by Stinnett and seconded by Harry W. Flentge for a steering committee, the chair named a sub-committee to handle the presenting of the resolution, and on this committee were named L. M. Stinnett, Glenn Perryman, B. K. Cooper, Dan E. Graves, John Hobin, C. H. Graham and Evant Brooks.

Chairman White suggested that this would take money and he named the trustees of the county as the "takers" of the money and those endowed with the privilege of getting the most amount of signatures on the resolution which will later be photostated and sent to Washington.

CLOTHING DRIVE MUST STILL BE ON: ANYWAY WE'RE GETTIN' DUDS

Since the only place we know of where you can leave the clothing for the Victory Clothing Drive is in the News office here, you can bring them here, until further announcement is made.

We're getting a little all the time, and since we haven't heard from chairman John Morgan as to whether there is another place, well, you're welcome to use ours.

The drive, supposedly from January 7, thru the 31st has just been started, and chairman Morgan told us last week the time would be extended, and we are sure it will but he hasn't told us.

Anyway, bring your duds here, "Duds for your Buds"!

WITH THE ARC

VETERAN'S CASES.

(Arthur A. had distinguished himself as an athlete in high school. He volunteered for service shortly after the declaration of war with Japan. After training, he was shipped to New Guinea. One day during a barrage a mortar shell exploded within ten feet of his foxhole. He was not physically injured, but from that day he seemed nervous and peculiar. He was hospitalized shortly thereafter. His condition was diagnosed as combat neurosis.

He was treated in various hospitals and finally shipped to the states for reassignment. Somehow, he had changed. His nervousness had disappeared, but he seemed to have grown cruel and abusive. He disobeyed orders, went AWOL and was insubordinate to his superior officers. He finally was discharged with an "other than honorable" discharge, popularly known as a "blue" discharge.)

The G. I. Bill provides for the establishment of army and navy review boards to reconsider blue discharges. Arthur's case is not unique. It has been experienced time and again. Under the pressure of war, many things happen that bring about personality changes.

The discharge review boards that are authorized to review cases like Arthur's are composed of men of the highest integrity whose duty it is to consider all of the facts surrounding the issuance of a blue discharge.

In providing for these boards, Congress recognized the problem both to the veteran and the community in saddling ex-servicemen with the evidence of failure represented by the hated blue discharge certificate.

When he makes application for review, the veteran is permitted to state his own case and to produce any evidence he wishes to use in his defence. He can either be represented by counsel or can appear personally.

Organizations recognized by the Veterans Administration can act as counsel for the veteran, if he so designates, without cost to the veteran.

The American Red Cross early recognized the importance of these review boards and has engaged professional representatives to develop necessary evidence and appear personally for the veteran in his application for review.

Forms and assistance can be obtained by veterans with an other than dishonorable discharge by contacting the home service chairman of the local Red Cross Chapter.

Your local Red Cross Chapter (headquarters, City Hall) is prepared to give you counsel and as-

sistance with reference to benefits available to veterans and their dependents.

AAA ASSISTANCE AVAILABLE FOR FARMERS, 1946

Under the 1946 AAA Program each approved conservation practice requires a written approval from the county committee prior to the starting of the practice in order for the farmer to receive payment for carrying out the practice. This is necessary since the county has been allocated \$89,819 for AA assistance during 1946, and each approval given is charged against this allocation. The local AAA office advises that since January 1st approvals have been given for approximately \$15,000. The practices selected for Coryell County are:

Construction of standard and spreader terraces for which proper outlets are provided, diversion terraces, enlarging drainage litches, of earthen dams or reservoirs, drilling or digging wells for livestock water, strip cropping on the contour, contour listing or furrowing of cropland or land planted to crops in 1946, contour farming intertilled crops, seeding drilled crops on the contour, seeding perennial pasture grasses, seeding adapted pasture grasses, pasture legumes, or mixtures of grasses and legumes.

Establishing a satisfactory cover of winter legumes seedbed in the fall of 1945.

Establishing a satisfactory cover of ryegrass seeded on cropland or in orchards in the fall of 1945.

Establishing a satisfactory cover of small grains (except wheat) seeded in the fall of 1945 and the growth not harvested for grain or hay.

Growing green manure or cover crops.

Application of phosphate other than raw rock phosphate.

Control of destructive plants on noncrop pasture and range land, including pricklypear and cactus, mesquite and cedar.

Favorable Interim Report On Leon Dam Sent to Washington by Army Engineers

FREEMONT, Jan. 28.—A favorable interim report on construction of the Leon river dam has been sent to Washington by the army district engineer's office at Galveston, General Manager R. D. Collins reported to the Brazos River Conservation and Reclamation district board of directors meeting here today.
 The Leon is one of 13 original dams proposed by the Brazos district, and is the key flood control unit in the lower Brazos valley.
 The interim report puts the Leon dam in line for favorable attention when the army engineers prepare the next flood control program for submission to congress.
 A hearing to gather information on the need for the Leon dam was held at Belton last November by the army engineers. At that time, it was hoped the interim report would be acted upon favorably during 1946. However, there is no definite indication now as to just when the action will come.—Temple Daily Telegram.

The Ground Hog Says—

Don't count on my predictions.

No, sir! I know Texas and what people say about anybody or thing that predicts weather in Texas.

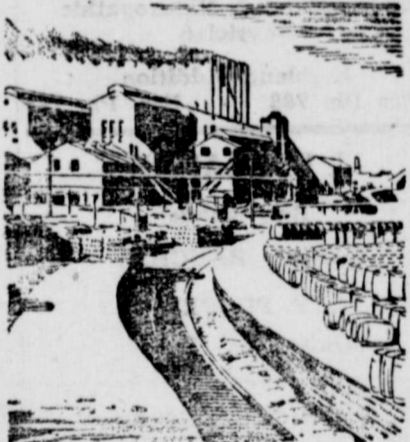

And, I'm not either one of them.

The best thing you folks can do is to be "prepared for any eventuality" because it's just liable to happen, shadow or no shadow.

This Ground Hog business may work in some states, but, Texas, NEVER!

Behind Your Bonds Lies the Might of America

TURPENTINE SERVES

Turpentine, taken from Florida trees for decades, contributes to the war effort both as a necessary chemical and as an asset to insure payment of War Bonds. Still it is only one of Florida's varied products that feed and equip service men while adding to financial resources behind your bonds. China, glassware, insulation, cotton goods and vegetables, valued at over 300 million dollars annually are purchased by world markets. After the war the demands will increase.

MISS MARGARET ANN MORTON BECOMES THE BRIDE OF GRAYSON RICHARD CRAWLEY

daughter of Dr. and Mrs. Clarence A. Morton of Lamesa and Graydon Richard Crawley, son of Mr. and Mrs. W. H. Crawley also of Lamesa were married Friday evening January 18 at 8 o'clock at the First Baptist Church at Lamesa. Dr. Morton, father of the bride, and pastor of the church, officiated in the double ring ceremony.

Given in marriage by her uncle, C. C. Hausy of Waco, the bride chose a gown of gardenia white duchess satin designed with a high round neckline and long fitted sleeves which extended to points over the hands. The sheer marquisette yoke was bordered with a ruffle of Chantilly lace and from the midriff a full gathered skirt fell into a long train. The fingertip veil of bridal illusion had four circular tiers which were attached to a seed pearl tiara. The only ornament she wore was a bridegroom's gift of a diamond clasp string of pearls. For something old she carried a beautiful sheer linen embroidered handkerchief, well over a hundred years old, sent from Italy by the bridegroom. She carried a shower bouquet of white hyacinths centered with a white, yellow throatel orchid surrounded by white maline.

Miss Elizabeth Hughes of Mertzon, was maid of honor. Brides matrons were: Misses W. F. Campbell of Coleman, Kenneth Hamond and Charles H. Jacobs of Brackenridge. The attendants wore full skirted frocks of crisp petal pink net, with long torso bodices and

three-quarter length sleeves. The deep round necklines were finished by ruffles of self material. Their headdresses were little French bonnets of matching pink net, and all carried colonial bouquets of pink and blue carnations.

Little Buddy Bryant and Ladella Likes of Throckmorton, a cousin of the bridegroom, were ring bearers. Buddy was dressed in navy blue suit and Ladella wore a frock identical to the attendants with a band of pink and blue mums in her hair. Both carried the rings on white satin pillows.

Mrs. Morton, mother of the bride wore a black and ice blue crepe street length dress trimmed in black sequins with blue and black accessories and a corsage of gardenias.

Mrs. Crawley, mother of the bridegroom, wore a brown crepe trimmed with brown and gold sequins with brown and beige accessories and a corsage of gold daffodils.

Tom Wilkes was best man. Ushers were Carvin Wilkes, Fred Flaniken and Kirk McKinnon.

The altar of candelabra was banked with smilax. Tall white cathedral tapestries starting at the baptistry, flanked either side with a background of palm. Josh and Pat Beckham lighted the candles.

LOOKING AHEAD at ELECTRICAL LIVING

You'll enjoy garden-fresh foods the year around with an **Electric Home Freezer**

Imagine having fresh strawberries at Christmas... homegrown asparagus in November... corn-on-the-cob whenever you want it. These are just a few of the fascinating possibilities open to owners of home freezers.

No question about it, you'll eat better with a home freezer... and you'll save money, too. You can freeze surplus garden vegetables and fruit that would otherwise go to waste... freeze poultry and meats when they are cheapest and most plentiful and serve them months later. Regardless of season, you can serve the finest of fresh foods the year 'round.

The home freezer is only one of many new or improved postwar electrical servants that will soon be available. Plan now to add the appliances you need. Enjoy better living electrically!

Electrical Living Is Better Living

Since pioneer days, women have dreamed constantly of better, easier living. Today home electrical servants bring fulfillment of this age-old longing. The automatic washer, ironer, automatic electric range, dishwasher and other appliances bring new release from drudgery, more leisure time. And thanks to low-cost electricity, they are economical to operate. It costs little to live better electrically!

DEVERS TELLS CENTRAL TEXANS OF CAMP PLANS

WASHINGTON, Jan. 29—The Second Armored division, only peace time regular army division thus far designated, will make Camp Hood its permanent home.

That was the statement of Gen. Jacob Devers, chief of the army ground forces, today to a central Texas committee composed of Charles Eubanks of Waco, county Judge Floyd Zeigler of Gatesville and the writer.

The second armored is now on its way home from Europe. It will arrive at Camp Hood in about 45 days, for activities into a regular army unit.

MAXIMUM OF 15,000

As a matter of fact, after its men with sufficient points have been discharged, only a cadre of the World War II Second Armored will be stationed at Hood. But the famed "Hell on Wheels" division will probably take in what is left of the 20th Armored division, also due at Camp Hood soon from Camp Cook, Cal., for deactivation. Additional regular army personnel will be added to the division at Camp Hood, up to a maximum peacetime strength of 15,000 men.

The second is the only armored division so far registered for peacetime regular army service.

General Devers told the committee that the peacetime use of Camp Hood as an armored division training center will mean large housing requirements on all towns and cities in the Central Texas area, since many more regular army men have families with them than did men undergoing wartime training.

NEED NORTH CAMP

Of the entire terrain and facilities of Camp Hood—which includes what we termed during the war "South Camp" and "North Camp"—only the temporary construction at North Camp is likely to be declared surplus. Everything permanent at North Camp will be retained by the army, at least until the size of the peacetime army is finally determined.

Should another division or other sizeable units be added to Camp Hood, the army will need permanent use of North Camp's terrain and facilities, and the housing project built in connection with North Camp will be needed as soon as the second armored is assembled at Hood.

TO AID ALL TOWNS

General Devers pointed out that one factor influencing the army's decision on Camp Hood was that all the terrain is owned by the army.

In training and maneuvers of the Second Armored and any other units which may be stationed at Hood, the policy of the army will be to handle the economic angles

Your questions on allotments, insurance, legal problems or other matters as they relate to Army personnel and their dependents will be answered in this column

Q. I was discharged from the army in December and I believe that I will receive the pension for which I applied. Will the receipt of the pension keep me from going to college under the G. I. Bill of Rights?

A. No. A veteran receiving a disability pension is eligible for the benefits of the G. I. Bill of Rights.

Q. My husband will be getting out of the army soon after nearly four years of service. He wants to continue his National Service Life Insurance. Neither he nor I, his beneficiary, has ever received a policy or certificate for the insurance, although premiums have been paid regularly. Is there any way we can get some notice that the insurance is in force?

A. Yes. Your husband should write the Veterans Administration, Washington, D. C., requesting a letter which will show that a policy has been issued, the number of the policy and its date of coverage. (He should be careful to include his full name, rank, serial number and organization). This letter will serve in lieu of a certificate or a policy. Policies themselves have not been printed or issued during the war. It is anticipated that they will be resumed at some future date for those whose applications have been approved by the Veterans Administration.

Q. My brother, an army veteran, is going to go to college under the G. I. Bill of Rights, I will be taking care of his child for him. Could I get an allowance for the child under the provisions of the bill?

A. If the child is dependent upon its father for support, the father should receive \$90 per month for living expenses, instead of the \$75 paid to those who have no dependents. Fifteen dollars of this amount will be for the child. However, it will be paid to the father.

Ground Hog Weather!

They say no Texan predicts the weather but all these weather reports must originate with someone. Mark Twain is quoted as saying: "Much is said about the weather but little is done about it."

Possibly all this is beside the mark and somewhat far-fetched to link up with that . . .

COOPER'S BEST COFFEE

Our only reason for mentioning the weather in connection with COOPER'S BEST COFFEE is that it's that time of the year when a cup of COOPER'S BEST has its greatest appeal. It's really refreshing and somehow it does do something to offset that cold and disagreeable weather we frequently have.

CIVIL COURT DOES ALL DONE THIS WEEK IN COURT

And, the only jury case was that of J. E. Woodson et al vs. H. C. Floyd et al, a damage suit, which, according to District Clerk Carl McClendon was a judgement for the plaintiff.

The other case, a non-jury case, was Thomas Warren vs. Gladys Warren, divorce, granted.

3 203 "DAMS" OR "CAMPS": NO "VOTES" IN CORYELL COUNTY

Early Thursday morning the grand total of poll taxes paid was 3,203.

That, ladies and gentlemen, is about 1,000 short of the usual, but with the veteran vote, it might reach 4,500 which is about what we had "before the war".

As far as dams or camps are concerned, the new way to spell either is "vote", and there's not much of a dam or camp in 3,203 votes.

Put yourself in their place, and figure that one out for yourself. Where'd you put the dams and camps?

CAR STOLEN AT BELTON RECOVERED IN HOOD RESERVATION

A Chrysler '41 which belonged to a Belton or Temple Doctor and was picked up on the streets of Belton has been recovered where it was abandoned in Camp Hood.

That's the entire news from the Sheriff's Department this trip.

FULL COURTHOUSE HEARS PAPER READ AND PASSES

One of the largest crowds ever assembled in the District Court room, the occasion of which was a called meeting by H. J. White, Chairman of the Post War Planning Board, of Coryell County. The building was full, and they were turned away, possibly 1,000 to 1500 people would have been in the court room if they could have.

Chairman White made a brief welcome address, then introduced L. M. Stinnett who stated the purpose of the meeting was either "do or don't" in relation to Camp Hood's permanency.

Coryell County, he said, had furnished thru government purchase, 137,000 of the 155,000 acres in the Camp Hood area, and now, since the emergency is over, citizens of the county either want their land returned to small home and farm owners, or the "business" and not the "shootin'" end, adjacent to Gatesville.

In other words, if this one-sixth of the total taxable land of the county is to be permanent reservation during peace time, it is imperative to the economic welfare of the citizens of the county to have the headquarters at North Camp Hood, instead of the "shootin'" and range areas.

Should this not be done, the resolution passed states that it is respectfully requested that the government buy chalk hills in Bell county for the maneuvering, and release to this county no less than 130,000 acres, maintaining the 7,000 acres in South Hood that holds both (in Coryell County) the headquarters of the military reservation and the cantonment area.

Robert Brown read the prepared resolution which embodied these facts and requests or demands and every citizen in the courthouse signed the resolutions, which will be photostated and mailed to the interested congressmen, senators. War Department officials and whoever else might have anything to do with it.

The resolution was put in motion by Mr. Brown, and was seconded by H. K. Jackson, and passed the body almost unanimously.

After a motion was made by Stinnett and seconded by Harry W. Flentge for a steering committee, the chair named a sub-committee to handle the presenting of the resolution, and on this committee were named L. M. Stinnett, Glenn Perryman, B. K. Cooper, Dan E. Graves, John Hobin, C. H. Graham and Evant Brooks.

Chairman White suggested that this would take money and he named the trustees of the county as the "takers" of the money and those endowed with the privilege of getting the most amount of signatures on the resolution which will later be photostated and sent to Washington.

CLOTHING DRIVE MUST STILL BE ON: ANYWAY WE'RE GETTIN' DUDS

Since the only place we know of where you can leave the clothing for the Victory Clothing Drive is in the News office here, you can bring them here, until further announcement is made.

We're getting a little all the time, and since we haven't heard from chairman John Morgan as to whether there is another place, well, you're welcome to use ours.

The drive, supposedly from January 7, thru the 31st has just been started, and chairman Morgan told us last week the time would be extended, and we are sure it will but he hasn't told us.

Anyway, bring your duds here, "Duds for your Buds"!

WITH THE ARC

VETERAN'S CASES.

(Arthur A. had distinguished himself as an athlete in high school. He volunteered for service shortly after the declaration of war with Japan. After training, he was shipped to New Guinea. One day during a barrage a mortar shell exploded within ten feet of his foxhole. He was not physically injured, but from that day he seemed nervous and peculiar. He was hospitalized shortly thereafter. His condition was diagnosed as combat neurosis.

He was treated in various hospitals and finally shipped to the states for reassignment. Somehow, he had changed. His nervousness had disappeared, but he seemed to have grown cruel and abusive. He disobeyed orders, went AWOL and was insubordinate to his superior officers. He finally was discharged with an "other than honorable" discharge, popularly known as a "blue" discharge.)

The G. I. Bill provides for the establishment of army and navy review boards to reconsider blue discharges. Arthur's case is not unique. It has been experienced time and again. Under the pressure of war, many things happen that bring about personality changes. The discharge review boards that are authorized to review cases like Arthur's are composed of men of the highest integrity whose duty it is to consider all of the facts surrounding the issuance of a blue discharge.

In providing for these boards, Congress recognized the problem both to the veteran and the community in saddling ex-servicemen with the evidence of failure represented by the hated blue discharge certificate.

When he makes application for review, the veteran is permitted to state his own case and to produce any evidence he wishes to use in his defence. He can either be represented by counsel or can appear personally.

Organizations recognized by the Veterans Administration can act as counsel for the veteran, if he so designates, without cost to the veteran.

The American Red Cross early recognized the importance of these review boards and has engaged professional representatives to develop necessary evidence and appear personally for the veteran in his application for review.

Forms and assistance can be obtained by veterans with an other than dishonorable discharge by contacting the home service chairman of the local Red Cross Chapter.

Your local Red Cross Chapter (headquarters, City Hall) is prepared to give you counsel and as-

stance with reference to benefits available to veterans and their dependents.

AAA ASSISTANCE AVAILABLE FOR FARMERS, 1946

Under the 1946 AAA Program each approved conservation practice requires a written approval from the county committee prior to the starting of the practice in order for the farmer to receive payment for carrying out the practice. This is necessary since the county has been allocated \$89,819 for AA assistance during 1946, and each approval given is charged against this allocation. The local AAA office advises that since January 1st approvals have been given for approximately \$15,000. The practices selected for Coryell County are:

Construction of standard and spreader terraces for which proper outlets are provided, diversion terraces, enlarging drainage litches, of earthen dams or reservoirs, drilling or digging wells for livestock water, strip cropping on the contour, contour listing or furrowing of cropland or land planted to crops in 1946, contour farming intertilled crops, seeding drilled crops on the contour, seeding perennial pasture grasses, seeding adapted pasture grasses, pasture legumes, or mixtures of grasses and legumes.

Establishing a satisfactory cover of winter legumes seed in the fall of 1945.

Establishing a satisfactory cover of ryegrass seeded on cropland or in orchards in the fall of 1945.

Establishing a satisfactory cover of small grains (except wheat) seeded in the fall of 1945 and the growth not harvested for grain or hay.

Growing green manure or cover crops.

Application of phosphate other than raw rock phosphate.

Control of destructive plants on noncrop pasture and range land, including pricklypear and cactus, mesquite and cedar.

Favorable Interim Report On Leon Dam Sent to Washington by Army Engineers

FREEMONT, Jan. 28.—A favorable interim report on construction of the Leon river dam has been sent to Washington by the army district engineer's office at Galveston, General Manager R. D. Collins reported to the Brazos River Conservation and Reclamation district board of directors meeting here today.
 The Leon is one of 13 original dams proposed by the Brazos district, and is the key flood control unit in the lower Brazos valley.
 The interim report puts the Leon dam in line for favorable attention when the army engineers prepare the next flood control program for submission to congress.
 A hearing to gather information on the need for the Leon dam was held at Belton last November by the army engineers. At that time, it was hoped the interim report would be acted upon favorably during 1946. However, there is no definite indication now as to just when the action will come.—Temple Daily Telegram.

Don't count on my predictions.

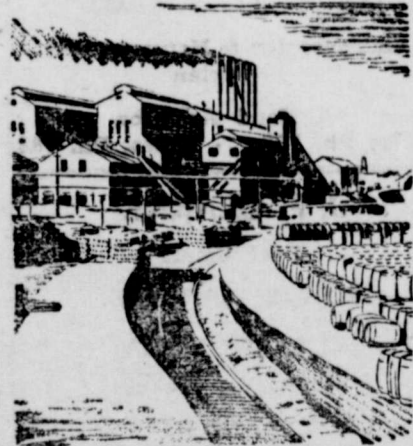

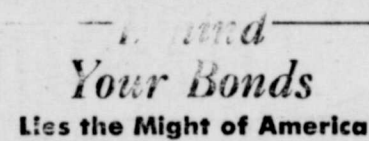

No, sir! I know Texas and what people say about anybody or thing that predicts weather in Texas.

And, I'm not either one of them.

The best thing you folks can do is to be "prepared for any eventuality" because it's just liable to happen, shadow or no shadow.

TURPENTINE SERVES

Turpentine, taken from Florida trees for decades, contributes to the war effort both as a necessary chemical and as an asset to insure payment of War Bonds. Still it is only one of Florida's varied products that feed and equip service men while adding to financial resources behind your bonds. China, glassware, insulation, cotton goods and vegetables, valued at over 300 million dollars annually are purchased by world markets. After the war the demands will increase.

MISS MARGARET ANN MORTON BECOMES THE BRIDE OF GRAYSON RICHARD CRAWLEY

daughter of Dr. and Mrs. Clarence A. Morton of Lamesa and Graydon Richard Crawley, son of Mr. and Mrs. W. H. Crawley also of Lamesa were married Friday evening January 18 at 8 o'clock at the First Baptist Church at Lamesa. Dr. Morton, father of the bride, and pastor of the church, officiated in the double ring ceremony.

Given in marriage by her uncle, C. C. Hausy of Waco, the bride chose a gown of gardenia white duchess satin designed with a high round neckline and long fitted sleeves which extended to points over the hands. The sheer marquisette yoke was bordered with a ruffle of Chantilly lace and from the midriff a full gathered skirt fell into a long train. The fingertip veil of bridal illusion had four circular tiers which were attached to a seed pearl tiara. The only ornament she wore was a bridegroom's gift of a diamond clasp string of pearls. For something old she carried a beautiful sheer linen embroidered handkerchief, well over a hundred years old, sent from Italy by the Bridegroom. She carried a shower bouquet of white hyacinths centered with a white, yellow throatel orchid surrounded by white maline.

Miss Elizabeth Hughes of Merton, was maid of honor. Brides matrons were: Mmes. W. F. Campbell of Coleman, Kenneth Hamond and Charles H. Jacobs of Brackenridge. The attendants wore full skirted frocks of crisp petal pink net, with long torso bodices and

three-quarter length sleeves. The deep round necklines were finished by ruffles of self material. Their headdresses were little French bonnets of matching pink net, and all carried colonial bouquets of pink and blue carnations.

Little Buddy Bryant and Ladella Likes of Throckmorton, a cousin of the bridegroom, were ringbearers. Buddy was dressed in navy blue suit and Ladella wore a frock identical to the attendants with a band of pink and blue mums in her hair. Both carried the rings on white satin pillows.

Mrs. Morton, mother of the bride wore a black and ice blue crepe street length dress trimmed in black sequing with blue and black accessories and a corsage of gardenias.

Mrs. Crawley, mother of the bridegroom, wore a brown crepe trimmed in brown and gold sequins with brown and beige accessories and a corsage of gold daffodils.

Tom Wilkes was best man. Ushers were Carvin Wilkes, Fred Flaniken and Kirk McKinnon.

The altar of candelabra was banked with smilax. Tall white cathedral tape s starting at the baptistry, flanked either side with a background of palm. Josh and Pat Beckham lighted the candles.

Mrs. Weldon Lindsey, organist, played a medley of love songs preceding the ceremony and accompanied Miss Ernestine Cumbill who sang "I Love Thee" by Craig and "Dedication" by Franz. Mrs.

Lindsay played "I Love You Truly" during the ceremony, and the additional wedding marches.

Reception Followed Ceremony

A reception following the ceremony was held at the home of the brides parents. The guests were greeted at the door by members of the house party and presented to the receiving line which was composed of the bride and bridegroom, Mrs. Clarence Morton, Mrs. W. K. Crawley and the bridal attendants.

The white satin damask laid table was centered with a bowl of white gladioli and snapdragons on reflector. A large three-tiered wedding cake topped by a miniature bride and groom, was at the end of the table. Mrs. C. C. Ramsey of Waco, Mrs. Dutton of Seymour, served the cake with Mrs. R. R. Townsend and Mrs. Andrew Housley of Albany presiding at the punch bowl.

Gifts were shown by Mrs. Wright Boyd and Mrs. Dee Hull, Miss Maurine McKenzie presided at the bride's book.

Other members of the house party were Mmes. Kirk McKinnon, N. N. Yates, R. J. Yates, Weldon Lindsey, R. A. Stewart, Jr., S. D. Liles, Jr., of Throckmorton, T. V. Adams and J. N. Adams of Seagraves, N. C. Lindsey, A. H. Jacobs, Owen Taylor. French Pruitt and Miss Tennie Gambill.

Immediately following the reception the couple left for a two weeks wedding trip to Santa Fe N. Mexico. For traveling the bride wore a two piece suit of lime wool, a brown crepe blouse, brown straw hat and brown reptile shoes and bag, brown gloves and her corsage was a white orchid.

The bride is a graduate of Ballinger High School and Baylor University, Waco. She received her degree in Business Administration in June, 1944. While in Baylor she was a member of Beta Sigma Chi, F. F. B. and Phi Gamma Nu, a national business sorority.

The bridegroom a graduate of Lamesa High School. He attended Hardin-Simmons University, Abilene one year, going from there to the Conservatory of Cincinnati, and graduating from the Conservatory and the University of Cincinnati in June of 1941, where he was a member of the two national music fraternities. Before entering the service in January 1942, he played in the Cincinnati Symphony and was with Frank Simmons Armco Band.

Going overseas with the 115th A. G. F. Band in November, 1942, he served in Africa, Sicily, Italy, France, Germany and Belgium, returning to the states in September of 1945. He is now employed at the First National Bank of Lamesa.

Discharged Veterans and General Public Invited to USO's Fifth Birthday Party

On this Saturday Night, February 2nd, millions of men and women still in uniform, as well as veterans wearing their discharge buttons, will join a grateful nation in saluting USO on its fifth anniversary. In our local USO Club men in uniform will play hosts on that night to volunteers, discharged service men and women and the general public which has so loyally supported the USO through its contributions to the National War Fund.

A large number is expected to be present from 7:30 - 8:30 P. M. at the Open House during which the huge birthday cake will be cut. A varied musical program will be presented including vocal numbers by Miss Leslie Thorpe, hostess at Leon Drive Service Club, accompanied by Miss Chappelle Kuhlman, post librarian at North Camp Hood; violin selections by Mrs. Drexel Mollison, accompanied by Mr. Mollison, who is a Red Cross Executive at North Camp Hood; piano solos by Patricia Painter and Etta Ruth Jones, and several vocal selections by a trio composed of Misses Bonnie Ruth Fowler, Margie Jones and Lela Beth Fowler, pupils of Mrs. Ora Mae Parks.

The Gatesville High School Orchestra, under the direction of Mr. Allan Allen, will begin the program promptly at 7:30 o'clock with a short concert. They will

LOOKING AHEAD at ELECTRICAL LIVING

You'll enjoy garden-fresh foods the year around with an

Electric Home Freezer

Imagine having fresh strawberries at Christmas... homegrown asparagus in November... corn-on-the-cob whenever you want it. These are just a few of the fascinating possibilities open to owners of home freezers.

No question about it, you'll eat better with a home freezer... and you'll save money, too. You can freeze surplus garden vegetables and fruit that would otherwise go to waste... freeze poultry and meats when they are cheapest and most plentiful and serve them months later. Regardless of season, you can serve the finest of fresh foods the year 'round.

The home freezer is only one of many new or improved postwar electrical servants that will soon be available. Plan now to add the appliances you need. Enjoy better living electrically!

Electrical Living Is Better Living

Since pioneer days, women have dreamed constantly of better, easier living. Today home electrical servants bring fulfillment of this age-old longing. The automatic washer, ironer, automatic electric range, dishwasher and other appliances bring new release from drudgery, more leisure time. And thanks to low-cost electricity, they are economical to operate. It costs little to live better electrically!

ELECTRICITY IS YOUR MOST ECONOMICAL HOME SERVANT

also play, later in the evening, popular numbers and dance tunes.

Colonel John L. Dunn, Commanding Officer, U. S. D. B., of North Camp Hood will address the assembly briefly in recognition of USO and its Fifth Birthday.

Dancing for the enlisted men, G. S. O. girls from Gatesville and nearby twons, and visitors will follow the open house.

The local committee in charge of arrangements and cooperating with the director is Mr. Carl McClendon, Rev. Gaines B. Hall and Mr. A. W. Ellis, all members of the USO Operating Committee. The entire membership of the USO Operating Committee is to serve as an informal reception committee with soldiers of the 184th S. C. U. North Camp.

DEVERS TELLS CENTRAL TEXANS OF CAMP PLANS

WASHINGTON, Jan. 29—The Second Armored division, only peace time regular army division thus far designated, will make Camp Hood its permanent home.

That was the statement of Gen. Jacob Devers, chief of the army ground forces, today to a central Texas committee composed of Charles Eubanks of Waco, county Judge Floyd Zeigler of Gatesville and the writer.

The second armored is now on its way home from Europe. It will arrive at Camp Hood in about 45 days, for activities into a regular army unit.

MAXIMUM OF 15,000

As a matter of fact, after its men with sufficient points have been discharged, only a cadre of the World War II Second Armored will be stationed at Hood. But the famed "Hell on Wheels" division will probably take in what is left of the 20th Armored division, also due at Camp Hood soon from Camp Cook, Cal., for deactivation. Additional regular army personnel will be added to the division at Camp Hood, up to a maximum peacetime strength of 15,000 men.

The second is the only armored division so far registered for peacetime regular army service.

General Devers told the committee that the peacetime use of Camp Hood as an armored division training center will mean large housing requirements on all towns and cities in the Central Texas area, since many more regular army men have families with them than did men undergoing wartime training.

NEED NORTH CAMP

Of the entire terrain and facilities of Camp Hood—which includes what we termed during the war "South Camp" and "North Camp"—only the temporary construction at North Camp is likely to be declared surplus. Everything permanent at North Camp will be retained by the army, at least until the size of the peacetime army is finally determined.

Should another division or other sizeable units be added to Camp Hood, the army will need permanent use of North Camp's terrain and facilities, and the housing project built in connection with North Camp will be needed as soon as the second armored is assembled at Hood.

TO AID ALL TOWNS

General Devers pointed out that one factor influencing the army's decision on Camp Hood was that all the terrain is owned by the army.

In training and maneuvers of the Second Armored and any other units which may be stationed at Hood, the policy of the army will be to handle the economic angles

Your questions on allotments insurance, legal problems or other matters as they relate to Army personnel and their dependents will be answered in this column.

Q. I was discharged from the army in December and I believe that I will receive the pension for which I applied. Will the receipt of the pension keep me from going to college under the G. I. Bill of Rights?

A. No. A veteran receiving a disability pension is eligible for the benefits of the G. I. Bill of Rights.

Q. My husband will be getting out of the army soon after nearly four years of service. He wants to continue his National Service Life Insurance. Neither he nor I, his beneficiary, has ever received a policy or certificate for the insurance, although premiums have been paid regularly. Is there any way we can get some notice that the insurance is in force?

A. Yes. Your husband should write the Veterans Administration, Washington, D. C., requesting a letter which will show that a policy has been issued, the number of the policy and its date of coverage. (He should be careful to include his full name, rank, serial number and organization). This letter will serve in lieu of a certificate or a policy. Policies themselves have not been printed or issued during the war. It is anticipated that they will be resumed at some future date for those whose applications have been approved by the Veterans Administration.

Q. My brother, an army veteran, is going to go to college under the G. I. Bill of Rights, I will be taking care of his child for him. Could I get an allowance for the child under the provisions of the bill?

A. If the child is dependent upon its father for support, the father should receive \$90 per month for living expenses, instead of the \$75 paid to those who have no dependents. Fifteen dollars of this amount will be for the child. However, it will be paid to the father.

Ground Hog Weather!

They say no Texan predicts the weather but all these weather reports must originate with someone. Mark Twain is quoted as saying: "Much is said about the weather but little is done about it."

Possibly all this is beside the mark and somewhat far-fetched to link up with that....

COOPER'S BEST COFFEE

Our only reason for mentioning the weather in connection with COOPER'S BEST COFFEE is that it's that time of the year when a cup of COOPER'S BEST has its greatest appeal. It's really refreshing and somehow it does do something to offset that cold and disagreeable weather we frequently have.
