PATHETIC PLEAS MADE FOR SHIPS

(AP) Newsfeatures
JOHANNESBURG, South Africa—A shipping bottleneck is keeping more than 200 South Africans from visiting Europe to hunt for missing next-of-kin, while more than 10,000 persons are waiting in England for passage to South Africa.

"Every day we receive pathetic letters," said an immigration and passport officer, "but there is little we can do. Our allocation works out at 50 berths a month, out of which urgent business and other priorities must be accommodated. "Some of the South Africans stranded in England are young war widows and children in dire financial straits because of being unable to return home.

The South African waiting for passage to Europe are mostly naturalized settlers from the Balkan countries, many of whom left their families behind. The Red Cross and other organizations have made strenuous efforts to find some trace of their kin, without success.

UNO CALLS FOR ACTION TO HALT WORLD FAMINE

LONDON, Feb. 14 (AP)—The United Nations general assembly by unanimous vote Thursday night called upon its 51 member nations for "immediate and drastic" action to head off global famine.

It asked them to conserve food supplies and to grow all the grain they could.

While the assembly was driving hard to clear its agenda, the security council agreed to take up Friday the issue of British and French troops in Syria and Lebanon.

Syria and Lebanon have changed that the presence of British and French troops in the Levant constitutes "a grave infringement of sovereignty" and "may give rise to serious trouble."

Anti-Famine Action

Discussing the world famine threat, delegate after delegate stressed the gravity of the international food situation. Big and small, the nations pledged support in anti-famine action.

Andrei Gromyko, Russian ambassador to the United States and a Soviet delegate, declared, "We can not underestimate the importance of this question."

A plea for the millions in India was voiced by Sir Ramaswami Mundaliar, delegate from India, who called upon Russia to help furnish "that which we need to keep our bodies and souls together."

He mentioned the announcement by Generalissimo Stalin Saturday that rationing would be abandoned soon in Russia, and referred to India's war contribution to the Allies, including Russia, before saying that "now we ask for a few grains from the rich tables of those who have enough".

"Prove that the UNO is taking care of the fundamental freedoms," he cried, "that freedom from want is a reality."

Edward R. Stettinius Jr. chief American delegate, pledged the U. S. Government and the American people "wholeheartedly in whatever measures are necessary and possible" to alleviate the situation.

Norway, offering what help it could give, emphasized through its London ambassador, Eric Colban, the value of the United Nations cooperation in solving the problem.

Australia Contributes

Australia's resident minister in London, John A. Beasley, told the delegates that his government recognizing the seriousness of the situation, had just decided to make a second contribution to UNRRA amounting to \$30,000,000.

Delegates and spectators alike applauded. Gustav Thomsen, Denmark's foreign minister, announced his country had decided to forego cereal imports this year.

The assembly's site committee approved a headquarters planning commission to survey the site area for the United Nations headquarters. Australia, China, France, Iraq, the Netherlands, Britain, Russia, Yugoslavia and Uruguay were placed on the planning commission.

The site committee also adopted an amendment defining New York City, selected by it for interim headquarters, as meaning within its immediate vicinity as well as within its legal limits.

Hume Wrong of Ottawa was chosen chairman of the committee on UNRRA. It decided to reassemble in Atlantic City in March.

A Bandit Can't Run
Three Ways at Once

BALTIMORE —(AP)—Three employes of a Baltimore all-night garage cooked up a new system of foiling bandits — at least it worked once.

Night manager Albert Johnson, James Horky and Cecil Houston were sitting in the office when a holdup man came in, pointed a pistol and said: "where is it?"

Johnson said "in the cashier's office," and started to lead the way, but broke into a run. Horky ran out another door and Houston fled through a third.

The puzzled holdup man hesitated, chased Johnson for a minute, then apparently gave up in disgust.

**HORNETS WIN DISTRICT TOURNAMENT
IN BASKET BALL PLAY MART NEXT**

Gatesville over the week-end hung up another district flag, and will meet Mart in a series of games for the bi-district, the first here, second at Mart, and the other to be decided.

In winning the district they first met Clifton Saturday evening there at 2:30, and Clifton held Gatesville to a close count at the half, but the locals moved on to end the melee 30-15 at the close, with Ward high point for the lo-

cal. Starting were Ward, Capt., and Patterson, guards; Davis, Center; Anderson and Necessary, forwards. Substitutes were Bone, Graham, Blum and Gilbreath.

In the final contest with West the Hornets met the Trojans at 8:30, and it turned out to be the easier victory for the locals, the final score being 51-30, and Ward he'd his place as high point man. Lineup was the same as before.

**NEWSPAPERMEN LOSE
PRESS FREEDOM SUIT**

AUSTIN, Texas, Feb. 13—Contempt of court finding of a Nueces County Judge against three Corpus Christi newspapermen was upheld Wednesday by the Texas Court of Criminal Appeals in the now-famous "freedom-of-the-press case."

Conway Craig, publisher of the newspapers Caller and Times; Bob McCracken managing editor, and Tom Mulvaney, a reporter, were sentenced to serve three days in jail after the appearance of several editorials criticizing Judge Joe D. Browning in connection with a case in his trial court.

An appeal will be made to the United States Supreme Court, the newspapermen announced.

The majority opinion of the high state court, written by Judge Lloyd Davidson, set out that it is the duty and the right of the press to comment freely and fairly upon the acts of the courts and that there is nothing sacred about the courts or judges.

COERCION OF COURT RULED

But in holding the contempt judgment valid, the opinion set out:

"When the several publications in the instant case are considered together and in their chronological order of appearance, there is no escape from the conclusion that it was the purpose and intent of the publisher thereof to force, compel and coerce Judge Browning to grant Mays (the defendant in the case) a new trial.

"The only reason for so doing was because the publishers did not agree with Judge Browning's decision or conduct of the case. According to their viewpoint, Judge Browning was wrong and they took it upon themselves to make him change his decision.

"To accomplish that end, Judge Browning's action in instructing the jury, without hearing argument on the motion, was editorially denounced as a "travesty upon justice" and "high handed"; as properly bringing "public opinion down on his head."

"It is hard to conceive how the public press could have been more forcibly or substantially used or applied to make, force and compel a judge to change his ruling or decision in a case pending before him than was done here," Judge Davidson wrote.

SANTA FE, N. M. —(AP)—Closing of the Los Alamos School for Boys has been announced by Director Fermor Spencer Church, who said one reason was association of the name with the Los Alamos, N. M., atomic bomb project.

The school for a time operated near Taos, N. M., after its original site was taken over by the War Department for atomic research.

**Candlestick Maker Has
His Day—at Night**

WARSAW, Poland —(AP)—Business is booming for hundreds in Warsaw who earn their living making candles. The city must do most of its night work by candle light.

The reason is simply stated by the manager of the Russian-rebuilt electric power plant: He turns off the power.

Since there's virtually no coal in Warsaw because of the lack of railway cars and trucks, thousands of families have purchased electric heaters. The result is that when people are at home nights there is more demand than there is current.

Turbines that replaced those removed by the Nazis are of limited power and must be turned off.

**GM CHIEF DENIES
PACT TO FIGHT
UNION PAY HIKES**

DETROIT, Feb. 14 (AP)—C. E. Wilson president of General Motors Corporation, testifying at a National Labor Relations Board hearing Thursday, denied that a meeting of American business leaders in New York last December brewed up a program for a fight against union wage demands and government price control.

The General Motors head was called again in the NLRB hearing on charges by the CIO United Auto Workers Union that his corporation had failed to bargain in good faith with the union in the wage dispute that has idled 175,000 workers for 86 days.

The question of the meeting was brought up by Attorney Harold Cranfield of the NLRB staff. He referred to a luncheon given by General Motors at the Waldorf-Astoria Hotel Dec. 19, the day before a presidential fact-finding board began its inquiry into GM's wage dispute with the UAW-CIO.

Wilson said representatives of such corporations as General Motors, United States Steel, Westinghouse and the meat packing industry were present at the luncheon.

"They were there, Wilson said, "because they were all looking down the same gun I was". He explained he meant all were facing strikes in their own industry.

"We just discussed the hell of a shape we were in," he said. "No agreements came out of that meeting; none was intended; there was nothing sinister about the meeting. In fact it's too bad that group can't make decisions for the country."

As the NLRB hearing proceeded, Federal Mediator James F. Dewey renewed his efforts to bring GM and the UAW-CIO together on a wage and contract agreement.

**NAVY SAYS
FLEET MUST
FIGHT ATOM**

WASHINGTON, Feb. 14 (AP)—The navy urged Congress Thursday to keep the nation's armed forces in readiness for immediate advancement of the nation's outposts, saying its carrier fleet might make an atomic air attack "very difficult".

Navy Secretary Forrestal, first witness to testify before the Senate naval committee on legislation for the postwar fleet, said the country must be prepared "for immediate advancement of our forward lines of resistance and offense" to meet the threat of atomic bombs and robot missiles.

Admiral Nimitz testified concerning the carrier fleet.

At the same time, the chief of naval operations said submarines hold promise of becoming "the most successful vehicle for carrying atomic weapons to within short distances of coastal tar-

gets. Appearing before the Senate naval committee to present the Navy's recommendations for the postwar fleet, Nimitz brought with him charts which showed plans for:

558,000 Men

A system of 53 overseas bases for ships and planes—33 in the Pacific and 20 in the Atlantic-Caribbean area.

A navy manned, afloat and ashore, by 500,000 enlisted men and 58,000 officers.

An active fleet of 319 combatant vessels, part of a total fleet of 1,079 active ready reserve and laid-up ships distributed in the two oceans.

An aerial striking force of 3,731 aircraft, 2,180 based on carriers.

In his prepared testimony Nimitz said, "there is no doubt that the use of atomic explosives and other new weapons will have a profound effect on the composition and employment of armies, navies and air forces in the future."

Unprofitable Targets

Declaring that while the ships, together with armies and cities, are vulnerable the admiral added "ships are difficult and unprofitable targets for atomic bombing and almost impossible targets for super rockets." Then he said:

"The ability of our carrier task forces to prevent penetration by hostile aircraft may make atomic bombing very difficult.

Nimitz said that in the years immediately ahead only Britain would have a fleet strong enough "to contest seriously our command of the sea areas vital to us."

There are in the fleets of Britain, Russia, France and Italy a total of 794 fighting ships, Nimitz said. But he did not explain whether these are active ships or, like the American total of 1,079, include ready reserve and laid-up ships.

Future warfare, Nimitz said, "may for us resolve itself largely into a struggle for the possession of air bases from which an enemy might bomb us effectively and from which we might effectively bomb the enemy."
