HOLD-UP MEN TAKE \$964 AT FRIONA BANK

BANDITS GET MONEY NEAR CLOSING TIME

Employees Forced to Lie On Floor—No Arrests Made

On Monday afternoon about 3:30 o'clock, while the officers and employees of the Friona State Bank were about their usual business of getting ready to close business of the day, they received a visit from two unknown armed men, who robbed the bank of \$964.

Charlie McLean, cashier and Mrs. McLean, who is assistant, were at the teller windows busily engaged with their respective parts of the work, when one of the men stepped within the enclosure and pointed a large automatic at them, bade them lie down, which command they obeyed.

Hugh Lee, a customer, who was at the small table in the front part of the lobby, was accosted by the other stranger and quite rudely ordered to move to the back. Mr. Lee was reading a deed at the time, and thinking it was some of his friends who has thus jokingly accosted him, at first paid no attention to the fellow's demands, but when another large automatic pistol was pushed in front of his face and then jabbed against his ribs, he concluded it was no joking matter and proceeded to obey instructions, being rudely kicked by the man who he had just moved along. Mr. Lee said "He kicked me like I was a dog." On reaching the rear end of the enclosure he was bade to enter and lie down with Mr. and Mrs. McLean.

Miss Lucille Curry is the house guest of Miss Molly Ward, of Bovina, this week.

Parties at Black, seven miles east of Friona had seen what was supposed to be the same car that was parked across the street from the Maurer building which came on west toward Friona after having received a supply of gas and oil at the Black filling station, and in a short while the same car passed Black again, this time going eastward at a high rate of speed, and this is supposed to be the car that carried the robbers.

After Mr. McLean and Miss White returned to the bank they began making a check of the funds in the bank in order to ascertain how much had been taken by the robbers and it was found that \$964.00 had been taken. An amount of over \$5,000.00 in bills had been overlooked by the robbers, there had also been a group of travelers checks taken.

No one was hurt and within a remarkable short time reporters from newspapers of neighboring cities were here getting the details of the robbery, and finger-print men from the J. Edgar Hoover force were here before the bank closed, which was about eleven o'clock.

The local agent who placed the bond, wired the state agency Monday evening of the robbery and estimated loss, and adjuster for the company arrived here shortly after noon Tuesday to make the adjustment of the loss.

This is the third time within the past ten years this bank has been robbed. The first time the robbers got very little for their trouble, but were never caught. The second time a larger haul was made, but both men were eventually caught and sent to prison. At this writing there has been absolutely no trace found of those who robbed the bank yesterday.

CROPS GROWING

Farmers report that their early planting of cotton and row crops, that is, the first they planted following the good rains, are all up to a good stand and growing nicely. In fact, many of them state that they have never seen crops grow so rapidly as they do this season.

It appears, however, that the later plantings, or that which has been planted during the past week or ten days, is not coming up so well, and some of it will require more moisture before it will come through the soil.

A. H. Boatman and Jesse Jones, who live in the Homeland community south of town, each state that their cotton shows a fine stand as they have ever seen and that it is growing more rapidly than they have ever known cotton to grow and that their grain and forage crops are doing equally as well.

Farmers to the north and west state that their grain and forage crops are up nicely with the exception of that planted during the past week, and are growing rapidly, and while there is still plenty of underground moisture, a good shower of surface moisture will do lots of good.

WPA WORKERS TEMPORILY OFF

Word was received here the first of the week from the superintendent of the WPA at Farwell, to the effect that the workers are laid off temporarily until further orders from headquarters.

Messrs. Baker, McLellan and Johnson, who have been engaged in the work of making the Tax Survey, will now be idle indefinitely awaiting further order to work. Incidentally their pay stops with the order to cease work. No reason is given for the delay.

Paul J. Fry, of Amarillo, was a business caller in Friona Monday.

Miss Lucille Curry is the house guest of Miss Molly Ward, of Bovina, this week.

man in it. These two men came across the street and onto the sidewalk in front of the Maurer building, which is immediately south of the bank building. They stopped and talked to her little son who was playing there on his tricycle, and being asked if they wished to see her husband they replied in the negative with some casual remark, and in a few minutes passed on up the street and entered the bank. This seems to have been the last seen of the men or the car by Mrs. Maurer or any other person in town, and in just a few minutes it was learned that the bank had been robbed.

Parties at Black, seven miles east of Friona had seen what was supposed to be the same car that was parked across the street from the Maurer building which came on west toward Friona after having received a supply of gas and oil at the Black filling station, and in a short while the same car passed Black again, this time going eastward at a high rate of speed, and this is supposed to be the car that carried the robbers.

After Mr. McLean and Miss White returned to the bank they began making a check of the funds in the bank in order to ascertain how much had been taken by the robbers and it was found that \$964.00 had been taken. An amount of over \$5,000.00 in bills had been overlooked by the robbers, there had also been a group of travelers checks taken.

No one was hurt and within a remarkable short time reporters from newspapers of neighboring cities were here getting the details of the robbery, and finger-print men from the J. Edgar Hoover force were here before the bank closed, which was about eleven o'clock.

The local agent who placed the bond, wired the state agency Monday evening of the robbery and estimated loss, and adjuster for the company arrived here shortly after noon Tuesday to make the adjustment of the loss.

This is the third time within the past ten years this bank has been robbed. The first time the robbers got very little for their trouble, but were never caught. The second time a larger haul was made, but both men were eventually caught and sent to prison. At this writing there has been absolutely no trace found of those who robbed the bank yesterday.

The two men who did the work were neatly and cleanly dressed in khaki work clothes and were without coats. They were described as being rather good looking men of medium size and apparently about 30 years of age. One was light of complexion and light hair and blue eyes while the other was rather dark and somewhat heavier.

Fair Texan Nominates Centennial

Politics did not completely dominate the stage in Philadelphia at the Democratic National Convention. The Texas Centennial celebrations had their charming emissary in the person of Marion Fore (right), whose father, Sam Fore, Jr., is the popular publisher of the Floresville Chronicle-Journal. Her commission was signed in Austin by Governor Allred and presented in Tyler at the annual convention of the Texas Press Association by President Louis Ebert of Galveston. First to congratulate her was Janice Jarratt of San Antonio, lovely sweetheart of the Texas Centennial, who is shown examining her official commission, while the gentleman in the center, also an honoree at the Philadelphia conclave, looks on approvingly from his portrait.

FELL FROM WINDMILL TOWER

Monday Thomas Leon, five year old son of Mr. and Mrs. Arthur Hughes, narrowly escaped being seriously, if not fatally hurt when he fell from a windmill tower on his grandfather's farm home, two and a half miles northwest of Friona.

The little fellow had climbed up the tower to a place about twenty feet from the ground, where two pieces of board had been fastened across the tower as a support for either the sucker rod or the stand pipe, and when he stepped on one of these boards the nails, by which it was held in place, came loose and the board gave way and allowed him to fall to the ground.

His grandfather, T. H. Hughes, saw the child just as his head struck a block on the ground, which supported the casing of the well. He was picked up unconscious, but soon showed signs of reviving and was rushed to a physician who pronounced his injuries not at all serious.

VISITING SON AND BROTHER HERE

Mr. B. Lange and daughter, Mrs. Percy Haggmeyer, of Llano, Texas, arrived here on Thursday of last week and are the guests of their son and brother, O. F. Lange, manager of the Rockwell Bros. & Co. lumber yard.

Mr. Lange has visited Friona on several former occasions and has won the friendship of all of our people who have had the pleasure of meeting him. We of the Star, have always regarded him as one of good friends, and he has been a regular reader of the Star for several years.

He paid the Star office a greatly appreciated visit of a few minutes Saturday morning and made arrangements for the Star to come to his home each week for another year. Mr. and Mrs. Lange took their guests for a visit at Amarillo Monday.

Misses Benna Burton, Lucille Routh and Dorothy Laughlin were in Clovis, Wednesday of last week.

Hugh Hill of Portales, N. M. who has spent the past week with friends here, returned home Monday.

Conway Frost, of Amarillo, spent the week end here with home folk.

Mrs. Mignon Johnson spent the week end with friends at Portales, N. M.

J. L. Landrum and son Ray, were visitors at Plainview Monday.

John T. Burton, of Littlefield, spent Sunday here in the home of his parents, Mr. and Mrs. John T. Burton.

J. M. and J. A. Blackwell are enjoying a visit this week from their son and brother, of Maryland.

The Vacation Church School got off to a good start Monday morning with about fifty children enrolled.

DIAMOND DUST

Friona Cardinals lost to Farwell Sunday in their game at Farwell, by a score of 5 to 3, for their first defeat of the season. The defeat was due to errors.

The game was slow and dragging, the high lights of the game being the pitching and hitting of E. Minyard, who was just from the East Texas League, having been forced out of the league on account of a finger injury.

Newell pitched fine ball for Friona during the five innings he pitched, allowing only four hits and one run.

Friona will play Hereford at Hereford on Friday and Saturday of this week July 3 and 4, games beginning at 1:00 p. m., and they will play Amherst at that place on Sunday, beginning at 3:00 p. m.

The Cardinals will have a strong line-up for these games, as some of their players, who were out last Sunday and which crippled their playing, are expected to be back in the games this week. They have five pitchers ready if need be. The Amherst game promises to be a hard one.

Score by innings for last Sunday's game:

Farwell	100	001	30x	5	8	2
Friona	000	300	000	3	5	4

Friona Batteries: P. - Newell and Barnett. C - Newell and Wilson.

Farwell Batteries: P. - E. Minyard. C - Porter.

Game Summary: Runs - B. Jones 2; Porter, Moore, Walling, Hinson, each and Magness Two-base hits, B. Jones, Hinson and Pruitt. Stolen bases, Leach and Moore. Left on bases, Friona 4; Farwell 6. Strike-outs, E. Minyard, 9; Newell, 7 and Barnette, 5.

Newell gave four hits and 1 run in five innings; Barnette, 4 hits and 4 runs in four innings. Losing pitcher Barnette. Hit by pitched ball, Pruitt by Minyard; J. Minyard by Newell. Error on balls, Newell 2; Barnette 1; E. Minyard 1. Umpires, Trigg and Henry. Time of game, 1 hour and 50 minutes.

E. S. White, Reporter.

RETURNED TO FRIONA

Ira Parker and family, former residents of Friona, last week moved back here for residence. Mr. Parker has gone into the garage business as a partner with Charley Bainum in the Hicks building south of the railroad.

WEATHER

No rain has fallen in the immediately vicinity of Friona during the past week, but a good shower is reported having fallen from Homeland south to the Jesko settlement on Monday afternoon.

The temperature has been a little more moderate this week than it was last week, and there has thus been little cause for complaint of the weather. A shower is being rather coveted for the near future, however, which we hope to receive within the next week.

RECEIVED VISIT FROM SISTER

A. D. Smith enjoyed a short visit from his sister, Mrs. Dr. Smith, of Clovis, who came home with him Monday evening on his return from Clovis. Mrs. Smith is a candidate for the State Senate of New Mexico, with bright prospects for success in the election.

CANDIDATE MEETING

There was a political meeting called at Lazbuddy on Friday night of last week, wherein each of the local candidates were given an opportunity to introduce themselves and say a word in favor of their candidacy.

It is reported that most of the candidates were present. Judge Smith of this place, who is a candidate for the office of county attorney, was present. He was accompanied by R. L. Chiles.

ARKANSAS PEOPLE HERE

Mrs. E. D. McGowan and daughter, Miss Thelma Lynn, of Oklona, Arkansas, arrived here on Thursday of last week for several days visit with Mrs. McGowan's sister, Mrs. Berit Shakelford and family.

Mrs. and Miss McGowan will also visit other relatives in Parmer county while they are here.

Roy Williams left Monday for Abernathy, his former home, where he will remain indefinitely.

Mrs. Jerry Blackwell and small daughter are shopping in Clovis, New Mexico, Friday.

Mrs. Orvie Allen left Monday for Floydada where she will visit relatives and friends.

Cogitations & Aphorisms of Jodok

I received a nice letter from Governor James V. Allred one day last week. It was no circular letter, written by some one else with his name typed on it, but it was a genuine letter signed in ink by the governor.

He said he had just finished reading my column in the Friona Star of June 19th, and wanted to tell me how much he appreciated what I had said about him. He also inclosed a pamphlet which he asked me to read and stated that it gave his opinion and position with regard to the old age assistance law.

I read the pamphlet, and I learn from it that the old people have nothing to fear in regard to their pensions so far as Governor Allred is concerned. He is the man who proposed it and has stood by it through "thick and thin", until it became a law. It was not just the kind of a law he wished, but it seemed to be the best he could get from the legislature.

After I lost faith in Mr. Fischer as a candidate for governor, I was beginning to get interested in what Mr. Hunter had to say as a candidate; But I got a letter from Mr. Hunter. (That is a circular letter) in which he said so many things about Governor Allred, that, if I find them to be true, I shall "sure enough" have to vote for Mr. Allred. If he is like Mr. Hunter says he is he just suits me to a "T". So there.

I read Mr. Hunter's circular to a friend of mine and he said "It just looks like Mr. Hunter is determined to make us vote for Mr. Allred whether-or-no."

When I received and read Governor Allred's letter I had forgotten what I had said about him, so I had to go and hunt up a copy of that issue of the Star and read it myself. Well, I found I had not said anything bad about the Governor, but had just casually expressed my mind as I usually do, and I really believe the Governor did appreciate my statement.

Saturday is Fourth of July, and our boys here on the streets are already shooting fire crackers in anticipation of the good times they will have Saturday. I do not blame them, for I do not remember anything that I liked to do when a boy, than to "shoot fire crackers."

And I still like to hear them and I believe I would enjoy shooting them now just the same as I did then. I guess I never will get too old to enjoy good fun and I like to see the boys have their fun, just so long as they do not harm, hurt or impose on others in order to have their fun.

But say, boys, be careful about shooting your fire crackers so that you do not get something on fire from them. There is lots of stuff lying around the buildings here in town that would catch fire mighty easily, and might start a big fire before people would find it out. There is lots of dry grass and dry weeds in between buildings that has been blown there by the winds and if one of the burning fragments of a fire cracker should chance to light in some of it we could easily have a big fire, that would destroy buildings and other property and maybe destroy some lives. So—Have lots of FUN but be careful about starting a fire.

One time many, many, MANY years ago, I was shooting firecrackers, and one of the burnt ends went into one of my trouser pockets, but I did not know it, and pretty soon it looked like smoke was coming out all over me, and I began to feel something burning. A good old neighbor saw what was the matter and he grabbed me and jerked my trousers off of me in a twinkling so I did not get burned much. But that was Christmas instead of Fourth of July, and it was mighty cold to be out there without any trousers on. JUST MAKE THIS A SAFE AND SANE FOURTH OF JULY AND STILL HAVE YOUR FUN.

The Friona baseball team will play the Hereford boys at Hereford on the third and fourth, the coming Friday and Saturday, during the big celebration at the city on those days.

WILL THE PEOPLE SWALLOW SMALL'S STATEMENT

State Senator Clint Small opened his recent campaign for reelection at Spearman and he told the good people of Hansford county that he had not received \$500 from corporations in 25 years of practice of law.

And the honorable senator must have been quoted accurately, for he has not been denying the assertion, that Apostle of Clint Small, the Amarillo News-Globe, had a staff reporter at Spearman and the News-Globe would never deliberately do anything to injure the chances of the senator for reelection.

Further evidence that the Small is proud of his record of not having obtained much money from corporation practice during all these years was shown when the senator's campaign department sent out that \$500 story to the press of the Panhandle.

But that \$500 takes another angle when Curtis Douglass, the next state senator from the 31st senatorial district, takes the stump. Douglass has court records, reports of the railroad commission and newspaper stories to show that Senator has represented 18 corporations during the past few years. So far as we have heard, the senator has not attempted to refute this statement.

As late as May of this year, the Amarillo Daily News listed Small as an attorney for the Shell Petroleum Co. in a news story. The Shell is regarded as the world's largest petroleum co. Again, the state senator represented many of the larger oil companies in a trial at the circuit court of appeals at New Orleans.

It is really amusing to notice how a crowd takes that \$500 story that Small attempts to make the people swallow. Douglass has told it amid "hee-haws" and titters, indicating how much the people believe it. Nearly all the farmers of the Panhandle have had some experience with lawyers and they know that \$500 won't get a man very far in paying fees in important cases.

Without digging too deeply in the records, Douglass has found that Small has represented 18 corporations in recent years. Douglass has every reason to believe that there are additional corporations, and it is probable that he will give further names before the campaign is over.

Just why should this emphasis be placed upon the corporate record of the state senator? Well, the interests of many of these great corporations do not exactly coincide with the people's welfare.

When an effort was made to pass a measure for state senators and representatives to give their incomes from corporations, we know the senate journal showed that Small voted to table the measure. Let the senator explain why he did not want the people to know what corporations he represented. If there was nothing to be ashamed of, why should not he have voted for the measure?

It is high time that Texas have state senators who will not be embarrassed with special interests. It is time for the 31st senatorial district to make a change. Let us send Senator Small back to the ranks of private citizen, so he will have ample time to represent his clients.

That will be done Saturday, July 25. Curtis Douglass is going to Austin as the next state senator, regardless of the support that his opponent may receive from big corporations, gas strippers, the Amarillo News-Globe and others.

Sidebones in Horses

Sidebones in horses are caused by an inflammation of the lateral cartilages of the foot, this may be caused by hard work on pavements, bruises, or sprains, says a writer in the Ohio Farmer. A sidebone cannot be removed, but the lameness can be relieved. Keep the hoofs soft by either standing in wet clay or water a few hours daily. After they have become soft, apply a blister over the sidebones of one-half ounce each of red iodide of mercury and powdered cantharides and four ounces of vasoline. Wash this off in 48 hours and apply a little vasoline every few days. Tie the horse so it cannot reach the blister with its mouth.

Silage Not Harmful

Every now and then the claim is made that silage is injurious to live stock. It is claimed that the acids in the silage will destroy the teeth. This is not true, according to the Missouri College of Agriculture. There is no evidence that the weak acids of silage injure the teeth. Such acids as are present in the silage are doubtless neutralized by the alkalies of the saliva. Upon reaching the stomach, and the stomach acids are utilized in such the same way as other food substances.

International Sunday School Lesson

By DR. J. E. NUNN

For Sunday, July 5, 1936

General Topic: The Coming of the Holy Spirit in Power.

Scripture Lesson: Acts 1:6-9; 2:26-38.

6. They therefore, when they were come together, asked him, saying, Lord, dost thou at this time restore the kingdom to Israel?

7. And he said unto them, It is not for you to know times or seasons, which the Father hath set within his own authority.

8. But ye shall receive power, when the Holy Spirit is come upon you; and ye shall be my witnesses both in Jerusalem, and in all Judea and Samaria, and unto the uttermost part of the earth.

9. And when he had said these things, as they were looking, he was taken up; and a cloud received him out of their sight.

1. And when the day of Pentecost was now come, they were all together in one place.

2. And suddenly there came from heaven a sound as of the rushing of a mighty wind, and it filled all the houses where they were sitting.

3. And there appeared unto them tongues parting asunder, like as of fire, and it sat upon each one of them.

4. And they were all filled with the Holy Spirit, and began to speak with other tongues, as the Spirit gave them utterance.

5. Now there were dwelling at Jerusalem Jews, devout men, from every nation under heaven.

6. And when this sound was heard, the multitude came together, and were confounded, because that every man heard them speaking in his own language.

7. And they were all amazed and marvelled, saying, Behold, are not all tall these that speak Galileans?

8. And now hear we, every man in our own language wherein we were born.

36. Let all the house of Israel therefore know assuredly, that God hath made him both Lord and Christ, this Jesus whom ye crucified.

37. Now when they heard this, they were pricked in their heart, and said unto Peter and the rest of the apostles, Brethren, what shall we do?

38. And Peter said unto them, Repent ye, and be baptized every one of you in the name of Jesus Christ unto the remission of your sins; and ye shall receive the gift of the Holy Spirit.

Golden Text: Ye shall receive power, when the Holy Spirit is come upon you; and ye shall be my witnesses both in Jerusalem, and in all Judea and Samaria, and unto the uttermost of the earth - Acts 1:8.

INTRODUCTION

The book of Acts was written by the author of the third Gospel, Luke, the physician (cf. Luke 1:3 with Acts 1:1); the Gospel records the things that Jesus "began to do and to teach" until his ascension; the Acts of the Apostles is a record of what Christ continued to do through his apostles, by the power of the Holy Spirit, after his ascension. Each book covers, approximately, a period of one generation. The opening verses of Luke's second book, the Acts, refer to the same event with which he closed his first book, the Gospel of Christ forty days after his resurrection and the commission which he gave at that time. Christ has just commanded the apostles not to depart from Jerusalem until they should be baptised with the Holy Spirit, according to the promise he had given them. (John 14:16, 17, 26).

THE DISCIPLES' MISTAKE AS TO CHRIST'S KINGDOM - Acts 1:6, 7

Ver. 6. "They therefore, when they were come together, asked him, saying, Lord, dost thou at this time restore the kingdom to Israel?" The disciples are here assembled together not far from Bethany, on the Mount of Olives, from which point the Lord was shortly to ascend. The kingdom concerning which the disciples were asking was, in their minds, strictly a material kingdom with geographical areas, with a visible throne, with sovereignty exercised over men.

Ver. 7. "And he said unto them, It is not for you to know times or seasons, which the Father hath set within his own authority." The Lord does not rebuke their supposed ignorance, nor does he tell them that they are mistaken. This answer approves the subject of the question. The kingdom is to be restored, the times and the seasons were not then to be revealed. For his sakes he may come at any time. The Lord, anticipating this, gave them this answer. "It pointed them away from the earthly hope of the kingdom." - A. C. Gashelein.

POWER PROMISED - Ver. 8

"But ye shall receive power," "If men are to be delivered from their sins, if men are to be emancipated from the bonds of this world, then a supernatural power is indispensable." - A. B. Bruce. "When the Holy Spirit is come upon you." The book of Acts has frequently been called "the Acts of the Holy Spirit." There are forty-five different passages in this one book where reference is made to the Holy Spirit of God. The Holy Spirit is the third Person of the Godhead, truly a person, and omnipotent in his power. He is invisible, but nevertheless real. "And ye shall be my witnesses both in Jerusalem, and in all Judea and Samaria, and unto the uttermost part of the earth." Here is an actual outline of the book of Acts: Jerusalem is the center of the events recorded in 1:1 to 2:3; Judea and Samaria witness the events recorded from 2:4 to 13:18; while the events occurring in the rest of the book of Acts may be described as taking place in "the uttermost part of the earth."

Ver. 9. "And when he had said these things, as they were looking,

he was taken up; and a cloud received him out of their sight." This is the last time the disciples were to see the Lord Jesus on earth. As they watched the Lord go into glory, two angels drew near to them with a divine message. First, they were no longer to continue gazing up into heaven - there was work to be done for the Master. And then these messengers from heaven strengthened the apostles with the wonderful promise that Christ would come back again visibly in glory as they saw him go.

THE DESCENT OF THE HOLY SPIRIT UPON THE APOSTLES - Ver. 1 - 8

Ver. 1. "And when the day of the Pentecost was now come, they were all together in one place." Probably the room in which the disciples were previously assembled. (1:13). Ver. 2. "And suddenly there came from heaven a sound as of the rushing of a mighty wind, and it filled all the house where they were sitting! "The whole phrase is descriptive of a powerful, tempestuous commotion of air by some extraordinary cause." - J. A. Alexander.

SIGNS OF THE SPIRIT'S PRESENCE - Ver. 3-4

"And there appeared unto them tongues parting asunder, like as of fire." "Fire, like wind, was symbolic of the divine presence (Ex. 3:2), and of the Spirit who purifies and sanctifies." (Ezek. 1:13; Mal 3:2) - R. J. Knowling. It is not necessary to assume that these tongues were of actual material flame, but they were as of fire. "And it sat upon each one of them." That is, one tongue like as of fire sat upon each one of those assembled in this room. "The thought here is not so much of fire as the token of divine favor, as of the tongue (as of fire) conferring a divine power to utter in speech special divine things." - R. J. Knowling.

THE RESULT OF PETER'S SERMON - Acts 2:36 - 38

Now when they heard this, they were pricked in their heart." - Ver. 37. The Holy Spirit had used the message of Peter as a two-edged sword piercing even to the dividing of soul and spirit. (Heb. 4:12). They were moved not only to accept certain facts with their mind, but were under conviction in their heart. Three thousand souls were told, were born into the kingdom of God on this first day of the Church's true history. This is the greatest miracle of all. It could not have happened until the Holy Spirit came upon the disciples. It could not have happened, as far as we know, except through the yielded instrumentality of the life of a believer such as the apostle Peter. It could not have happened had not the apostle Peter, filled with the Holy Spirit, led his unbelieving audience to behold the Lord Jesus Christ and to recognize him as the predicted one of the Holy Scripture.

Bernard Meeks called on relatives in Amarillo Sunday.

The Misses Thelma and Melba Chenister were shopping in Hereford last Saturday evening.

Mr. and Mrs. J. L. Landrum and daughter, Miss Ella Marie, spent last Thursday in Portales, New Mexico.

Miss Ida Mae Gaines, of Amarillo, spent the first of the week here visiting relatives and friends.

Mack Flippen, of the Lunsford Chevrolet, spent Tuesday of last week visiting relatives and friends at Adrain.

Mrs. Billie Wilson and daughter visited friends in and near Friona last week before going on to Portales where she will visit.

CURTIS DOUGLASS CANDIDATE FOR STATE SENATOR

PLEDGES YOU TO VOTE FOR:

1. PROMPT PAYMENT OF OLD AGE PENSIONS.
2. ECONOMICAL ADMINISTRATION.
3. TAXES BASED ON ABILITY TO PAY.
4. CONSERVATION OF NATURAL RESOURCES.
5. DISCLOSURE OF PRIVATE INCOME OF PUBLIC OFFICERS.

C. P. McCOLLOUGH, Sec'y
Douglass For Senator Club

MILLER TALKS TO HUGE RALLY CROWD

A part of the large crowd of approximately 1,200 people who gathered for the Townsend rally basket-dinner at Le Fors is shown above. John R. Miller, democrat for congress, is shown in the upper right hand corner addressing the audience. Many of the Miller boosters came to the picnic in the two bannered busses shown in the picture. Enthusiastic picnickers from many towns gathered in the shady grove for the day's entertainment and celebration.

The 1936 annual Short Course will be held at College Station July 20 to July 24. The complete program has not been received by the office here but will probably be within the next few days.

The Home Demonstration office will be open each Saturday and Monday, except July 6 afternoon, to issue receipts for room reservations which must be in by July 10.

GIRLS BEDROOM IMPROVEMENT WORK

Some of us would believe we were in fairy land should we walk into the six beautiful rooms which were improved by girls ranging from the ages of 10 to 15 years.

Pictate yourself in a home of 13 children where the family is as happy as any family. The home itself was unfurnished, with just open spaces for doors. Amy Donaldson took paste board boxes, joined by gummed tape and made her second wall. This was covered by wall paper of a pretty all-over design.

Amy's closet is one to be proud of costing her only \$1.20 in standard measurements, which means 5 feet long 26 inches wide. On the inside are her linen shelves, her hat shelf, a rod for coat hangers and a shoe rack.

"My dressing table was made from the one my parents started house-keeping with thirty years ago," she proudly told the judges. "Also my writing table was made by my brother and me out of scrap lumber to say nothing of the flower stand. My mother and I made the rugs out of old scrap cloth to carry out the color scheme."

Really there is no way to tell you what a pretty cool, airy, girlish room it is until you see it. The total cost being \$13.75.

HOW I IMPROVED MY BEDROOM

Ernestine Drager of Rhea, Farmer county has proved that a bedroom may be made comfortable out of very little. Ernestine tells her story of how she improved her bedroom.

"Our house was built ten years ago, at that time we did not finish all the walls. Several holes were knocked into the sheet rock.

"Before I started with the bedroom demonstration my room contained two beds, trunk, flower stand, an old dresser, chair, and an open closet. Now it is containing only one bed, a dressing table, flower stand, wastepaper basket, bathing center, and a good closet.

The closet was the first thing that I began to improve. I took pastboard and put it in for inside wall of the closet. The rod on which I hung my clothes was not long enough now we have the rod all the way across the closet. My shoe rack is made out of the end of an old orange crate and broom stick. My brother made a door for the closet which before had a curtain. This improvement cost \$2.00.

The holes in the walls were fixed with gummed tape and then painted over. The walls were a light pink, rich was painted too thin and made it look dirty. The painting cost \$8.

"My writing table is made out of scrap lumber and is a very simple affair. I have a small box where I keep our pencils.

My wastepaper basket is made out of cardboard, which did not cost me anything.

"Our bathing center is made out of lemon crates. There is room for the bowl, towels, and hand lotion in the inside. All of this cost 10 cents.

"We removed the paint from the dresser and bed with lye water. The dresser was an old dresser with the mirror broke, this was taken off and a different one bought at the cost of \$3.50.

For the bed we bought a new spread, and blanket.

This improvement received ideas from our club sponsor, Miss Helen Schlenker, and our home demonstration agent, Miss Margaret St. Clair.

The total expense of my bedroom amounted to \$18.72. Some of the money was taken out of the cream and eggs. My father bought the paint for the bedroom and floor paint for the other rooms which were very much in need of paint.

JENOYCE BROWN, BOVINA Tied Second

Before my bedroom was improved it did not look like a bedroom that would be very comfortable. It did not have a closet and the wall paper was of a dark color and was ragged and dirty. The window did not have a glass in it, but had a piece of cello-glass tacked over it. The window did not have curtains or shade. The floor was not painted or stained, it was rough and uneven.

The bed was brown and scratched up, and did not have the protectors on the spring or pillows.

There was a chest of drawers in the room which was green and scarred up. It had a big mirror on it which was unhandy.

There was no dressing table or reading table in the room.

The wood work was painted a dark grey, which made the room darker than it already was.

After my bedroom was improved, it had a standard closet, containing all of the necessary things. A rod for the clothes, a shelf for the quilts, hat racks, shoe racks and a bathing center. The closet, which was built of scrap lumber cost me \$2.00.

I papered the wall with rather light colored paper, making the room lighter. After papering the room

and the inside of the closet it amounted to \$1.50.

I removed the cello-glass from the window and put in a glass making the room lighter. The window cost a \$1.00. I also added curtains and a shade, which were \$0.60.

After the floor was smoothed up, I oiled it with a quart of oil which we bought for a dime.

I removed the old paint from the bed and painted it ivory. The paint was taken off with a lye solution. I also added a spring protector and pillow protectors. The spring protector was made from old overalls which we used the best parts and sewed together. The pillow protectors were made from unbleached domestic costing 5c. I added bed linens which cost me \$2.00. I added a comfort which cost me \$1.75.

The paint was removed from the chest of drawers and painted ivory. The mirror was also removed.

My reading table was made of a little table which we did not use and covered with oil cloth which cost me 12c.

My dressing table was made with two orange crates which were placed about a foot and a half apart, a board was placed across it, making it smooth. It was covered with unbleached domestic with the pink stitching run through it. It cost 30c. A mirror was bought and placed in front of the dressing table which cost \$1.00. A seat was made for the table out of a nail keg cover with domestic which cost 10c.

A chair was painted ivory to use at the reading table. It cost \$1.10.

The wood work was painted ivory and the bed, chest of drawers, chair and wood work cost \$1.50.

Rag rugs were added to the floor, so that it would not be attracted by the blank floor.

The bathing center, which was in the closet, was fixed on a shelf and the expense of it was 60c.

A lamp was added to the room. The expense of all of it was \$14.02 but as a gift from the owner of the house he paid for the wall paper, closet and window which left our expense \$9.52.

More of this series of stories will be run next week.

See Soy Bean Progress in Various Industries

Moving about these days, it is impossible to avoid the soy bean, even if one wanted to. In Dearborn we saw car parts being stamped out of soy bean meal; also we were served soy bean muffins. Last summer we attended a picnic where baked soy beans were served. Good, too, notes a writer in the Country Home.

The vegetable soy we grew in our own garden were a decided success from the standpoint of edibility and resistance to the Mexican bean beetle. They came along later than ordinary string beans, and have to be shelled like lima, but the family liked the flavor. Undoubtedly they can be improved by breeding to make them earlier and heavier yielding.

Nearly 5,500,000 acres of soy beans were planted in the United States in 1935 for harvesting, almost a third more than in 1934. The consumption of soy bean oil for paints, soaps, vegetable shortening, linoleum and oil-cloth, glue and printing inks, to name but a few uses, is increasing. In all, more than 300 widely assorted uses for the soy bean have been found. Supply may temporarily run ahead of demand, but the future of this lucrative legume, the acreage of which in 30 years has increased a hundredfold, seems boundless.

NEW KIND OF CIRCUS SAYS IT WITH GIRLS

"BRING ON THE WOMEN," ECHOES BRAINY BOWERS IN ROSE SPECTACLE

TOP—A Fair Deuce Who Serve as Bridesmaids in the Colorful "Wedding in the Air." CENTER, LEFT—A Comely Equestrienne. CENTER, RIGHT—A Maid of Honor. BOTTOM—Eight Well Turned Specimens of What Has Been Termed "Perfect Understandings."

When Billy Rose set out to produce a new kind of circus he did. Truly it may be said that "Jumbo" is the first upset to tradition in the sawdust ring in 100 years. As Brainy Bowers, the comic character in the big show observes with scorn, "Women? Women in a colic? Dames wid big muscles. No sex appeal. Sex appeal, dat's what dey want." And that's precisely what they get in "Jumbo" which is one of the main attractions at the Fort Worth Frontier.

What Makes the Wheels of Jumbo Go 'Round

Artist's Conception of the Innards of Billy Rose's Spectacle

Billy Rose's circus-musical comedy-drama-revue-extravaganza "Jumbo" will be seen to even greater advantage during its stay at the Fort Worth Frontier Centennial than during its season-long run at the New York Hippodrome. True nearly a quarter of a million dollars was expended making the famous Manhattan playhouse habitable for the elephantine spectacle.

But the "little ol' cow town way 'n' west" has gone the big town on the Hudson one better. At Fort Worth a complete circus amphitheatre has been constructed, the first to be devoted exclusively to a circus in over seventy years. Designed and supervised by Albert Johnson it represents an investment of \$300,000.00, over a third of which is allotted to electrical equipment and another \$100,000.00 to paraphernalia.

New Building to House 325 Workers Is Erected at College Station; Starting Farm Program Requires Extra Offices

COLLEGE STATION—When the Federal government's new business with farmers came into Texas four months ago, action and speed became the keynotes of the agricultural center at the Agricultural and Mechanical College.

The two-wing building, shown in the upper left, was built by the A.

and M. College in which to house the 325 trained workers of the general auditing and general accounting divisions. It has 18,820 square feet of floor space.

The brick building, on the campus of A. and M. College, shown upper right, with a floor space of 4,000 square feet, was rapidly turned into the dispersing office, a branch of the U. S. Treasury with a personnel of 82 who are busy writing checks for the Texas farmers participating in the various agricultural programs.

Lower left to right. Here are the 325 men and women carrying on the auditing and accounting work of clearing the remaining old AAA contracts, the checking and certifying of the cotton price adjustment program applications and the working out of the details of the agricultural conservation program with its more than 300,000 farmer cooperators.

A majority of the work of these divisions, during the last few months, has been on the cotton price adjustment program. An average of 4,000 cotton price adjustment applications per day are being certified for payment, amounting in number up to date to 186,082 and totaling \$6,880,503.28.

Lower middle. The state agricultural conservation committee holding its first meeting at A. and M. College to plan for the tabulation of the work sheets of the 300,000 farmers who have indicated their intention to cooperate in the 1936 agricultural conservation program.

From left to right, they are: George Slaughter, Wharton, chairman; V. L. Cade, Slaton; L. C. Touse, Houston; A. H. Montgomery, Darrousett; A. L. Smith, College Station, executive secretary; J. H. Watson, Newcastle. In the back row: George G. Chance, Bryan; A. A. Terry, Clarksville.

Political Announcements

Those whose names appear below have authorized the Friona Star to announce their candidacy for the nomination for the offices under which their names appear, subject to the action of the Democratic Primary election of July 25, 1936.

For County Judge and ex-officio Superintendent of Schools.

WALTER LANDER

For Sheriff, Tax Collector and Assessor:

EARL BOOTH

J. H. (Jim) MARTIN

For County and District Clerk:

E. V. RUSHING (re-election)

A MESSAGE

TO EVERY MERCHANT

What Advertising in The Star Can Do for Your Store----

- 1.—Sell more goods.
- 2.—Create favorable impressions—build public good will.
- 3.—Create a demand for goods people would not otherwise desire.
- 4.—Sell the public on values, offered by your store.
- 5.—Increase public respect for the value of the store to the community.
- 6.—Educate public to new styles and kinds and classes of merchandise which can be had at your store, also to new uses of merchandise.
- 7.—Inform public where merchandise they have heard or read about can be secured.
- 8.—Protect your customers from buying inferior or old style goods.
- 9.—Establish leadership for your store in your retail field. Keeping your store constantly before readers will make them think of yours as the leading store in your field.
- 10.—Keep down new competition.
- 11.—Enable you to reach new families not now customers of the store.
- 12.—Keep your old customers sold on your store and
- 13.—Draw trade to your town instead of letting it slip away to rival towns.
- 14.—Keep your sales people informed of merchandise and store's policy.
- 15.—Decrease operating costs and overhead through increased volume.
