ONE IS KILLED OTHERS INJURED IN HOOD WRECK

Wednesday morning about 8:15 G. D. Bradley, civilian employee of North Camp Hood was killed when an army vehicle and a Gatesville man's car collided at the intersection of 16th street and Headquarters avenue in North Camp Hood.

A Lt. Lewis, also in the army cor was seriously injured, and Grady Carson, of Gatesville was taken to the local hospital with head and leg injuries, which so far are not considered serious. Lt. Lewis was reported Wednesday to be in bad condition. Bradley was killed instantly.

Three other enlisted men in the army vehicle whose names we could not get, were only slightly injured.

The civilian car was reported going toward Flat where Carson teaches, on Highway 36, and the other vehicle west on 16th street, and they met at the intersection. From the looks of the cars, it appeared, Carson tried to turn west to avoid the army car, and the army car tried to turn toward Flat on highway 36. Evidently, they met "alongside" and Carson's car grazed a light pole and came to stop near a sign. The other vehicle turned over landing on all four wheels. The army vehicle had the top out, and the front wheel smashed. Carson's had the driver's side caved in and also the front.

Bradley, only discharged recently from the U. S. Marines, had been a civilian employee for two weeks. He has a wife and a 2 year old baby, and they live at North Village. He was in the Marine Corps on Okinawa with one of Charlie Baker's boys.

TWO GATESVILLE BOYS INJURED IN HEAD-ON, MONDAY

Seriously injured, and in a Waco hospital are Bill Maxwell, 24 of Gatesville with bad scalp wounds, head and chest injuries and Smilton Maxwell, also of Gatesville, with a badly cut face and injuries to his right shoulder and left leg.

Sgt. A. L. Chilcote of the State highway patrol, who investigated the crash near McGregor, said the three Maxwell men were in one car, driven by Bill Maxyell, headed west on the Gatesville highway (U. S. 84). Davis and O'Bannon were in the other automobile, believed by Chilcote to have been driven by O'Bannon. They were driving east toward McGregor.

Davis, who's first names are Charles Winson, of McGregor was killed, and Robert O'Bannon, 23, of Blue Bonnet Acres, McGregor received head injuries. Grady Maxwell, also with the Maxwell boys suffered a broken nose and lacerations.

FORMER GATESVILLE BOY IS HIGH IN TEXAS LEGION

AUSTIN, Texas, March 10 (P)—G. Ward Moody of Waco was elected department adjutant of the Texas American Legion by its executive committee here today. Moody has been acting department adjutant since Jan. 10, when Harry Rather, who had been holding the post, resigned.

Ward Moody is a former citizen of Gatesville, and many old timers will remember his father, Dan Moody who had a harness and saddle shop here in the "horse and buggy days."

TOO LATE TO CLASSIFY

CORYELL COUNTY 4-H AND FFA MAKE CREDITABLE SHOWING AT FORT WORTH

A total of \$170.00 was won by is Seth's fourth year as a 4-H 4-H Club boys and girls at the Club member, and by winning Fort Worth Fat Stock Show. The first place with his shorthorn outstanding achievement of this Junior Heifer, he definitely established himself as ready for the group was made by Seth Turner established himself as ready for the 4-H Club boy from Purlmela. This big time. He won a \$50.00 award

CHAMPION RIBB. OF FORT MORTH SHOW

This Hereford junior yearling, The Prince Domino 175th, owned by George D. Keith (left) of Wichita Falls, Texas, was adjudged champion bull of the Southwestern Exposition and Fat Stock Show at Fort Worth. Holding the animal is Bill Mitchell, Keith's herdsman, who showed it to the championship. Oliver Hereford Ranch of Tallulah, La., bought the animal for \$10.450. (AP Photo).

and a blue ribbon in a class of animal's exhibited by the best Shorthorn breeders in the United States. It is understood that Seth has already received a private offer of \$550 for this heifer and will probably sell when they make the bid \$1000.

Joanne Robinson, who showed the Grand Champion calf at the Gatesville Show, won fourth and fifth on two of her steers, and added \$55.00 to her receipts. She had won \$36.00 in the Gatesville Show.

Daymon Graham won fourth place on his white Shorthorn Heifer, which attracted more attention from the ladies than any other calf from Coryell County. Daymon has a secret formula for making them snow white. Daymon's calf was tied next to Joanne's black steer, and one poor lady was made to believe that snowball, Daymon's calf was originally an Angus before going to the beauty parlor for Blondene. Of course the boys had to have their fun.

Mary Claire Reasor showed an eighth place Angus calf and won

\$16.00. Doyle Johnson, local FFA boy, exhibited the second place light weight barrow and won \$15.00. The State Training School had a third place Shorthorn steer that won \$20.00.

There was a very large number of fat calves brought to the Fort Worth Show, over 500. This necessitated a rather severe sifting, and Coryell County, as well as all the other counties, had several calves sifted. These calves were sold through the Auction ring Friday and brought around 25.50 cents a pound.

Every year the requirements naturally get more exacting for the kind of calves that are kept in the show. This means that every prospective exhibitor should select only typy animals and get them in show shape. This means finished and well groomed. Calves that were good enough to win the Grand Champion ten years ago were sifted from the list this year and this definitely indicates an improvement in the work the 4-H and FFA Club members are doing.

WOULD A CHURKEY EAT CELTUCE?

MELBOURNE, Australia—(P)—A cross between a chicken and a turkey has been produced at Glenfield Veterinary Science Research Station in New South Wales. The birds, called "Churkeys," look like large chickens but walk like turkeys. Some are cream, others b'ack-and-cream.

WAR HATH NO FURY LIKE A SHIRT SALE

NEWARK, N. J.—(AP)—Facing Japanese gunfire in the Philippines is one thing, but Sgt. Rocco Marucci of 272 Ivy Court, Orange, drew the line when it came to buying a shirt at a sale.

Marucci took one look at the screaming shoving crowd of women trying to buy white shirts advertised at \$2.15 each, returned home and sent his aunt to get the goods.

Music Lovers' Motto: On Cuff is Off the Cob

SALT LAKE CITY—(AP)—Dr. Nikolai Malko, Russian conductor, says, "You can't give music away."

"People don't believe music or musicians are any good if they are permitted to hear them for nothing," he said during a concert here.

"They will look at and enjoy a beautiful painting, whether it is free or not, but it seems to be a fascinating quirk of human nature that their music is only good music if they have to pay for it."

900 SHIPS RETURN 4,884,000 TO STATES

NEW YORK—(AP)—Ships are bringing back service men and women from overseas at three times the rate after World War I. They returned 4,884,024 from May, 1945, through January, 1946. Ships magazine reports, compared with 1,481,673 from November 1918, through June 1919. More than 900 vessels were used in the

movement. The high point came last November, with over a million brought back.

GI No Joe College; Questions Please Prof

LINCOLN, Neb.—(AP)—University of Nebraska professors say they are "kept on their toes" these days because veterans in their classes ask questions more freely than the average college student and demand proof of statements made by their instructors.

"They have injected a new spirit into my classes by stimulating lively discussions, and when they want to know something they ask intelligent questions which go right to the core of the matter," said Prof. J. P. Senning of the political science department.

BUSINESS PICKING UP ON CRIME SCENE HEREBABOUTS

State boys walk, 5 of them. 2 DB's out, and a little pilfering going on, Sheriff Joe White says. One boy from Gatesville State School for Boys got out early in the week, went up toward Jonesboro, tried, it is thought, to start Shafe Weaver's car, entered Monroe Perason's house, and a Mr. Buckner's home, got a shirt, overalls, cap and something to eat, and was picked up in one of the houses by the officers, Jim Nichols and J. T. Shultz, of the school. Four more took off the next day and were caught at Mound by Roy Cole. It's said they stopped at the DB Barracks and told them they were from Oklahoma and got a "feed" on Sam.

About the same time during the week, a couple of DB's got out, but, whether they were caught or not, was not announced.

Sheriff White says also there are some petty thieving and burglarizing going on, and somebody's snitching gasoline.

Here's Information On "Milk Rules" By Health Dept.

Note: Farmers in this vicinity have been hearing about new regulations promulgated by the Texas State Health Department for controlling the production of milk and cream, which now, it seems requires certain kinds of sheds, handling and other facilities if the small farmer is to be able to sell the milk.

Dr. Cox, Texas State Health Officer, after a conference with Bayne Blankenship, told him facts, which he sends in a letter to the News, which we quote, in part.

"The regulation originated in the State Health Department, Dr. Cox said, because the big cream and butter producers of this state wanted it. These big producers supposedly have had some of their interstate products destroyed by Federal Health Agents because of excessive dirt and so forth in their products.

"Dr. Cox seemed to believe that unless something is done to remedy this situation, our cream and milk markets would decrease until it would be unprofitable for the farmers to sell their produce. He gave this argument as a justification for the regulation when I told him that I thought it would tend to eliminate the small producer such as are in Coryell county. He also claims that in the long run it will increase the price of the produce.

"Dr. Cox offered some hope for the small producer and in the first place, this regulation is to be followed as a guide rather than as a strict rule; the State Health Department will give a good deal of leeway to the individual milking setup. There will be no formal inspection for quite some time, he said.

"Building materials were discussed, and Dr. Cox said that ample time would be allowed so that the producer could get this material, and an allowance of several months would be allowed for the individual to get the material, in many instances, as late as July 1 or later.

"Also he said this regulation is being interpreted much too strictly and that in a great many cases farmers would already have suitable sheds or used material which could be fixed up with a minimum of expense. The whole idea, it seems, is not to build a fancy Grade A dairy barn, but to have a small milk room which will effectively keep out flies and dirt and make the produce more sanitary.

"Using all new materials, figures given by the State Health Department, say that a shed of this type could be built for as little as \$60. County Agents or produce buyers may have plans of a shed of this type, and if not, the News has the one sent by Mr. Blankenship, if you're interested.

We pass this on to you for whatever use you may make of it, and if you'd like this shed plan, we'll be glad to let you use it. There are complete instructions with it—except how to get the lumber, if you don't have it.

AUTOMOBILE IS HIS JUST FOR THE AXING

HARRISBURG, Ill.—(P)—Wendell Baker wanted an automobile, but he had to turn woodsman to get it.

Matt J. Fiala sold Baker his 1931 car, which Fiala had stored in his garage when he stopped driving in 1935. Baker found a tree taller than the garage had grown six inches in diameter to block the garage door. Baker chopped down the tree to get at the car.

to prevent the development of static electricity which seriously clogs machinery.

POSSUM FLATS . . . "MEETING THE EMERGENCY"

By GRAHAM HUNTER

AS YOUR COMMUNITY GROCER I'VE BEEN ASKED TO TALK TO THIS TOWN MEETING ABOUT OUR GOVERNMENT'S SHIPMENT OF AMERICAN WHEAT TO EUROPE AND HOW IT MAY AFFECT YOUR FLOUR. . . . IT MEANS WE WILL HAVE EMERGENCY TYPE FLOUR FOR AWHILE.

PSSST!— I'VE ALREADY USED GLADIOLA EMERGENCY TYPE FLOUR! IT'S SIMPLY WONDERFUL!

SO HAVE I!! MY BISCUITS ARE DARKER BUT MY FAMILY LIKES THEIR "WHEATY" TASTE. THERE'S NO EMERGENCY ABOUT THIS FLOUR, SISTER!

THE SECRET OF LIGHT, TENDER BISCUITS WITH GLADIOLA EMERGENCY TYPE FLOUR IS THE USE OF FRESH BAKING POWDER.

THAT'S RIGHT! I ALWAYS ASK FOR FRESH, ACTIVE GLADIOLA BAKING POWDER AND MY GLADIOLA BISCUITS GO RIGHT ON BEING TOP FAVORITES WITH ALL MY FAMILY!

BY SENDING WHEAT TO EUROPE WE'RE HELPING SAVE LIVES, AND BY USING GLADIOLA EMERGENCY TYPE FLOUR WITH FRESH BAKING POWDER I'M MAINTAINING MY REPUTATION AS AN A-1 BISCUIT-BAKER!

DARK OR LIGHT, BY EVERY TEST, THAT GLADIOLA'S STILL THE BEST!

Consider The Lilies: They Saved Utah Twice

SALT LAKE CITY—(AP)—Twice have the people of Utah been saved from starvation by the state flower, the abundant sego lily—once in legend, once in fact. In 1848, a year after the Mormons entered the Salt Lake valley, their crops had not matured and their provisions had been exhausted. The settlement survived principally by eating lily bulbs. In another instance, a Ute Indian legend would have it, the

survivors of a great battle were saved from famine by lilies which miraculously sprang up on the bloody field.

TOY RAILWAY SOUND SETUP REALLY CLICKS

NEW YORK — Eric Carlson, 29-year old lawyer, who is a miniature railroad fan, has equipped his model railroad system of four locomotives and 35 pieces of rolling stock with complete sound effects. "I have actual recordings of locomotives going through mountain tunnels, across praries, the sound effects of cars going over rails where they cross rails—you know, real railroad sounds," Carlson explains.

So whether one of his streamliners or an old fashioned engine is coming into the station you can hear the sounds of sand being put on, brakes being applied and steam being let off.

The reason Carlson is so particular about the sound is that he is blind.

"I don't miss much," he said, fingering the new features of a model.

Before a childhood affliction deprived him of his sight he watched trains making up in a Staten Island yard and the sights still

stand out vividly in his memory. He likes to ride in regular engine cars, too, which gives him a chance to brush up on the sound.

Newport (R. I.) News: Dorm To Become Factory

NEWPORT, R. I.—(AP)—Mayor Herbert E. McCauley is dicker with a Fall River, Mass., realtor about reconverting a former servicewomen's dormitory to a factory that will employ more than 200.

The Perry Mill on Thames St. had been vacant for years before the government made it into a dormitory early in the war at a cost of \$120,000.

Mayor Macauley appealed to the Federal Housing Authority in Boston to declare the property "surplus" and "relieve the serious unemployment in Newport."

RIO SEES ITS FIRST SANDWICH MAN

RIO DE JANEIRO—(AP)—During a recent bank workers strike in Rio De Janeiro, a new sight—the sandwich man—appeared on the streets as a picket. This tactic a common sight in more industrialized countries, caused much comment as crowds watched strikers walking around with

sandwich type signs. One columnist devoted a column in the afternoon paper O Globo, to the innovation.

ABSENCE MAKES TAXPAYERS PONDER

HOLYOKE, Mass.—(AP)—A municipal "truant list" to curb absenteeism has been suggested by the Holyoke Taxpayers Association.

Executive Secretary Edwin A. Seibel notified the mayor that the association stated on all municipal payrolls the number of days each employe is absent from his or her work, either for reasons of illness or annual vacation leave.

A similar policy for the police department made effective some time ago resulted in a pronounced reduction of absentees, Seibel said.

Play Safe, Son!
Don't Fly Your Kite Near a Power Line

KITE flying is great fun but danger lurks when kites are flown near power lines. Many a child has lost his life by using wire for kite string or climbing a pole to get a tangled kite. Don't take any chances. Play safe by following these suggestions:

Rules for Safe Kite Flying

1. Don't use wire or metallic kite string.
2. Don't fly your kite with wet string or in damp weather.
3. Don't use metal kite sticks.
4. Don't climb poles to get tangled kites.
5. Don't poke sticks at tangled kites or try to pull them down by their tails.
6. Always fly your kites in open fields away from power lines and busy highways.

If your kite becomes caught in electric wires, call our office. We know how to remove it safely without causing a service interruption.

FRENCH MAYOR GIVES MEDALS WHILE ON VISIT TO TEXAS

The mayor of Metz, France, personally will present Medals of Metz, decorations commemorating the liberation of that famous French city by the American army corps in November 1944, to all eligible officers and enlisted men in a special ceremony at the Hall of State, in Dallas, March 11, Lt. Gen. Walton H. Walker, commanding general of the Eighth Service Command and former commander of the XX Corps, said today.

Paying Dallas a goodwill visit at the invitation of the Chamber of Commerce, Mayor Gabriel Hocquard of Metz will make the awards in recognition of the efforts made by members of the XX Corps in liberating his city from the Germans. All individuals, still on active duty or now separated from the service, who served in units assigned or attached to the XX Corps during the month of November 1944 are eligible to receive the medals, Gen. Walker said, and should immediately get in touch with Major David W. Allard in the Office of the Commanding General, Eighth Service Command, to get their names placed on the award list.

The medal, embossed with a replica of the cathedral at Metz and the flags of the United States and France, and hung from a black and white ribbon, will be presented only to eligible personnel who attend the special ceremony.

Gen. Walker listed the units assigned or attached to the XX Corps during the specified period as follows: Headquarters and Headquarters Company, XX Corps Headquarters and Headquarters Battery, XX Corps Artillery; Headquarters III Corps Artillery; 5th 90th and 95th Infantry Divisions; 10th Armored Division; 3rd Cavalry Group; 4th Tank Destroyer Group; 1103rd and 1139th Engineer Groups; 5th, 40th, 193rd, 195th, 203rd and 204th Field Artillery Groups; 7th Field Artillery Observation Battalion; and 69th Signal Battalion.

OLD AGE ASSISTANCE

Old age assistance in Texas this year will cost the State Tax payers nearly three times as much as the ceiling predicted by sponsors of the aid plan when it passed the Legislature in 1935, the Texas Research Institute points out in a report issued this week.

The report is a factual study of the cost of ten years of old-age assistance in Texas.

When the first pension law was enacted, its sponsors said annual payments would not exceed \$9,000,000 from State funds. This year, the Institute points out, the aged people of Texas will receive \$25,400,000 from State funds.

Total cost to State taxpayers of ten years of old-age assistance has been, in round figures, \$155,000,000, the report declares. The cost has skyrocketed, according to the Research Institute, because the original idea of old-age assistance has been transformed into a system of old-age pensions. The policy of "granting assistance to people who are not needy has resulted in less funds for those who are in need," the Institute states.

Figures show that 452 out of every 1,000 Texans sixty-five or older are receiving assistance, while the national average is but 210.

Let's Tackle Inflation While We Can

You don't want your dollars to buy less and less and less!

You don't want your savings to melt away! Or the value of your life insurance to dwindle!

Yet that is what inflation can do to all of us. Therefore, thoughtful people everywhere are concerned with ways to smother it before it gets out of hand.

One major cause of inflation is a shortage of goods when people have money to spend for things they want.

That cause can be eliminated by the production of goods — fast — in quantity.

BUT THERE'S A BOTTLENECK

During the war there wasn't enough labor and materials to meet the needs of war and still produce all the civilian goods people wanted and could buy.

Therefore price controls on civilian goods were substituted for competition to keep prices down.

Today this country has all the labor and materials necessary to turn out the things people want.

Yet goods are still scarce. Store shelves are still bare. The national pocketbook continues to bulge. Inflation grows.

Why? Because price controls in peacetime hinder the production of goods. Business cannot live by producing at a loss. And so, goods that can't be made to sell at the prices fixed by the government just don't get made.

Nor will the raising of price ceilings solve the problem. When costs and selling prices are subject to change at any moment by government action, production has to be on a day-to-day basis.

That means uncertainty . . . reduced output . . . more inflation.

ISN'T THIS THE ANSWER?

Remove price controls on manufactured goods and production will step up fast.

Goods will then pour into the market and, within a reasonable time, prices will adjust themselves naturally — as they always have — in line with the real worth of things.

Competition has never failed to produce this result.

This is the way you can get the goods you want at prices you can afford to pay.

Please think this over. Then tell your representatives in Congress what you believe should be done. You owe it to yourself . . . and to your country's welfare.

LET'S SMOTHER INFLATION...A postcard addressed to the National Association of Manufacturers, 14 West 49th Street, New York 20, N. Y., will bring your copy of a booklet explaining in detail why price controls cause inflation.

The OPA investigated, refunded 50 cents each to the trio, then collected \$1,116 in triple damage settlements for overcharges on 774 other sales of stockings turned up in the in-

vestigation.

AUSTRALIA PROVIDES VICTUALS FOR BRITAIN

CANBERRA, Australia —(AP)—Australia during the war sent Britain 9.8 billion pounds of food worth more than half a billion dollars. In the last two years about 360,000,000 pounds of food was supplied the British Admiralty, about two-thirds for the Pacific Fleet. The fleet now has moved its base from Sydney to Hongkong but still depends largely on Australia for food.

IRBY NECESSARY IS GUARD ON ALL-STATE CLASS A BASKETBALL

Irby Necessary, stellar guard for Gatesville High School Hornets has been placed on the All-State Squad in Class A, according to a story in the Fort Worth Star-Telegram of Thursday morning, by Dub King, Star-Telegram Sports Writer.

There are 3 men from Pasadena, one from Levelland, one from East Mountain, one from Bowie, one from Quitman, one from Gatesville, one from Brenham and one from Perryton.

They are: CVIary, Levelland; Huffman, Henry and Moore, Pasadena; Carington, East Mountain; Kirbyath, Quitman; Cleveland, Bowie; Sommers, Brenham, and

Flowers, Perryton.

Coach Loyd Mitchell, in commenting, said Necessary had made all-tournament in every tournament he had played in for the last several years, and was one of the better basket ball players he had seen in his coaching career.

Three of Coach Mitchell's exes at Pasadena made the all-state squad. They told him they would win the state title when he coached there two years ago, and they did.

Congratulations are in order for Necessary and Coach Mitchell, especially, since the local team was eliminated from the State meet by Bowie. Placing a man on the all-state squad without going to the Austin meeting, makes it even an extra added honor to both men. Congrats!

RED TROOPS SWING TOWARD TURK BORDER

UPDATED, RUSSIAN. (AP)—Russian troops which left Tabriz, Azerbaijan, are reported swinging westward in Iran toward Khoi on the Turkish border near the area Russia claims should be ceded to her. Another column was reported at Mianeh, moving at night. Tanks, fuel, and troops are observed. Marshall Ivan Bagraiam, Russian Tank warfare expert has been reportedly in Tabriz for three weeks.

British Foreign Secretary Ernest Bevin declared in London, "Britain would regret" the settlement between Russia and Iran which "appeared to be extracted" from the Tehran government under duress while Soviet forces were occupying the country.

An article in Izvestia, Russian official newspaper, accused Iran of trying to sieze Russian territories in 1919, and is currently harboring politicians with imperialistic designs against the USSR.

DISCHARGE OF ARMY OFFICERS SPEEDED

WASHINGTON, March 14, (AP)—The War Department announced intentions to speed the discharge of 47,000 officers. The action came amidst rumors that the Army had alerted reserves because of the tense international situation.

The War Department declared the reports were "without foundation".

You aren't getting machinery, Mr. Farmer, because...

PICKET LINES

have taken the place of

PRODUCTION LINES!

... so don't blame your Implement Dealer!

YOUR implement dealer had planned and expected to have his display floor filled with new implements and tractors weeks ago. And we had planned to make them—had told our dealers and our farmer customers they would have new equipment and plenty of service parts for the 1946 spring work. And we had hoped to sell these machines at no advance in price.

Real Production Had Started

When the war ended, our organization bent every effort to increase production, with the result that in the last months of 1945 machinery was being built in very substantial quantities. Here are a few figures:

ITEM	PRODUCTION	
	NOV. 1945	DEC. 1945
Tractors.....	7,271	7,432
Combines.....	2,345	2,526
Cultivators.....	3,482	3,308
Hay Loaders.....	209	982
Plows.....	6,185	6,702*

*Plows are made in our Canton and Chattanooga Works, which are not on strike. January production was 7,747 plows.

Both your dealer and we were encouraged by this production picture at the turn of the year. But the strike changed all that. As you know, the CIO United Farm Equipment & Metal Workers of America called a strike in ten of our plants, on January 21, 1946.

What Is The Strike About?

Wages are a basic issue. At the time of the strike, Harvester employes were among the highest paid workers in American industry. When the strike began, the average hourly

earnings in the ten plants, not including overtime, were \$1.15 1/2. If present wage proposals are adopted, this figure will become \$1.33 1/2 per hour.

When the strike began, negotiations were broken off by the Union on the issue of compulsory union membership. The Company has no desire to weaken the Union. It recognizes certain reasonable needs of the Union. But the Company does oppose compulsory unionism. It feels strongly that an employe's membership should be a matter of his own choice.

Material Costs and Price Relief

Wages and materials are the great costs of operating our business—together they consume all but a few cents of every dollar the Company takes in. Wages are obviously going to be high—and nobody knows just how high material costs will go.

In the face of rising costs of materials, the Company does not see how it can pay the wage increases recommended by a Government fact finding board until it has definite and satisfactory assurance from the Government that reasonable price relief will be granted to the Company within a reasonable period of time. This matter is of such importance that it will not be discussed here, but will be covered by future advertisements devoted to both prices and profits.

Speaking for our dealers and ourselves, we can assure you that no customer is more eager than we are to resume production. We are doing and shall continue to do everything in our power to bring about a fair settlement as soon as possible.
