## Farm News

### SUPERPHOSPHATE

Farmers who plan to use super-  
phosphate on winter legumes and  
pasture this fall should make ap-  
plication at the A.C.A. office as  
a car of superphosphate is ex-  
pected in the county within a few  
days.

Farmers will be expected to get  
this phosphate from the car when  
it arrives at Gatesville, and it  
will be used on a first come,  
first serve basis.

### APPROVALS ON SOIL BUILDING PRACTICES BEING GIVEN

Prior approval are being issued  
daily to carry out soil building  
practices on pastures, building  
terraces, enlarging drainage ditches,  
drilling wells, eliminating mos-  
quitoes, and cedar. The Coryell  
County A.C.A. still has about \$18,-  
000.00 with which to issue prior  
approval for carrying out soil  
building practices approved for  
the county. Farmers are urged to  
get prior approval before starting  
on any practice.

### DAIRY PRODUCTION PAYMENTS

Farmers are requested to turn  
in sales receipts for their dairy  
products sold for the month of  
April, May and June and have  
them separated by the months, as  
there are two rates of pay for  
the payments are, Whole milk,  
70c per cwt. for April, and 55c  
for May and June.

The rates on butter fat are 17c  
per pound for April and 15c for  
May and June. Final date for fil-  
ing sales receipts on these will be  
August 31, 1946.

## YOUR CITY, AND MINE

First thing, the City Fathers  
Howell, chairman, A. A. Harper  
and Andrew Kendrick as mem-  
bers of the Equalization Board.  
All Aldermen voted "aye".

Plans for the new Vocational  
Agriculture-Garage Building which  
has already been akehed by the  
Gatesville School Board were pre-  
sented to the Council, and all  
voted "aye" to take the matter  
under consideration, meaning, to  
try to find some place to get the  
estimated \$25,000 to build it with.

Bill Thomson, Manager of the  
Gatesville Chamber of Commerce,  
submitted a plan whereby the City  
would lease Scott Airport, and  
thru the CAA get a runway fixed  
which would handle heavy traf-  
fic, for air freight and heavier  
air traffic, then sub-lease to Scott  
Airport for operation. What ac-  
tion was taken was not announced.  
Minutes were read and approv-  
ed, and all bills were read and ap-  
proved, 4 ayes.

Street lights were ordered at the  
corner of 7th & College, and on  
the 400 block on South 7th. 4 ayes.

Authorized payment and exten-  
sion of water and sewer lines in-  
to McClellan property, opposite  
South Street in Wells Addition,  
and also water into Wells Tourist  
Park subdivision. All ayes.

Voted not to extend any sewer  
service outside of corporate limits.  
All nays.

Authorized standardization con-  
nections on all fire plugs. All ayes.

Authorized the mayor to receive  
bids and to purchase 500 feet of  
fire hose. All ayes.

Besides Aldermen Louis Thom-  
son, Donald McKinney, Wade Sad-  
ler, Jim McClellan, and Mayor K.  
R. Jones Bill Thomson and John  
Frank Post were present at the  
meeting which was postponed  
from Tuesday to Wednesday nite  
on account of some business that  
could not be postponed.

## PHONE 700, POLICE

If you've got trouble at night,  
just phone 700, and a member of  
the City Police will be down right  
away.

This arrangement is made be-  
cause the "night office" at the  
courthouse is extinct.

## LOOKS LIKE A BIG VOTE: ABSENTEES COMIN' IN FAST

County Clerk A. W. Ellis, says  
it looks like lots of paper will be  
used, come July 27, Election Day.

Already, 14 have voted in per-  
son and thirty-eight have re-  
quested votes by mail.

In Tax Assessor-Collector Bert  
Davis' bailwick, he says any GI's  
discharged May 5, 1945 or later  
may vote without poll tax. Before  
that, they'll have to squander the  
\$1.75, or should have, but it's too  
late now.

## STATE POLITICS ARE HITTING TOWN ON SCHEDULE NOW

Starting off the week's fireworks  
in the political scene was Jesse  
Owens of Wilbarger County, can-  
didate for Judge of the Court of  
Criminal Appeals.

Next was Benjamin F. Hill, Dal-  
las county who's after the job of  
Commissioner of Agriculture.

Weaver Baker, of Kimble coun-  
ty who would like to be Judge of  
the Court of Criminal Appeals  
was the No. 3 here.

## GENERAL DUMAS GUEST SPEAKER AT TEMPLE ROTARY CLUB

Brig. Gen. W. A. Dumas, form-  
erly of Camp Hood, will be guest  
speaker at the Thursday noon  
lunch on of the Rotary club at the  
Kyle hotel, Temple.

General Dumas went to the  
Pacific theatre with Maj. Gen. A.  
D. Bruce, former commanding  
general of Camp Hood, and later  
was assigned to General Douglas  
MacArthur's headquarters.

### HISTORY OF CORYELL PART OF STATE'S HISTORY

By The Associated Press

AUSTIN, July 11. (AP)—The State Historical As-  
sociation's 20-year old project for a history of every  
Texas county reached its halfway mark today with  
the history of Coryell County, written as a Master's  
Thesis by Zelma May Scott of Gatesville at the Uni-  
versity of Texas.

### 'APPARENTLY ILLEGAL' EMPLOYEES SALARIES

AUSTIN, July 11 (AP)—"Apparently illegal" salaries  
payments to certain employees and former employees  
of the Texas State Agriculture Department was reported  
today by State Auditor C. H. Caviness.

The individual named in the report said the Auditor's  
statement was misleading and he "obviously was con-  
fused between politics and auditing".

### PHONE TRANSCRIPT RELEASED IN D. C.

WASHINGTON, July 11 (AP) — A new telephone  
transcription was released at the Senate Munitions in-  
vestigation today depicting Representative May of Ken-  
tucky, as protesting the production cutback in 8-inch  
shells ordered for a "friend of mine".

The "friend named as Henry Garson. Cutback was  
ordered May 7, 1945.

READING, Pa., July 11 (AP)—Three to five persons  
were killed today in the crash of a TWA Constellation  
plane four miles north of here, the Pennsylvania State  
Police reported.

### EARL HUDDLESTON HAS STATEMENT FOR VOTERS, REP.

Earl Huddleston gives stand on  
Old Age Assistance and other is-  
sues.

I have written the Governor  
and members of the Legislature  
and have made a protest of Old  
Age Assistance Grants being cut  
taking the position that the aged  
should be paid the full amount as  
voted by the people. I have asked  
the Governor to submit this ques-  
tion if a Special Session is called  
in September. The last Legislature  
placed about 7 million dollars  
yearly in Old Age Funds but on  
account of moreper sons being placed  
on the rolls and after the last  
constitutional amendment was passed  
allowing more to be paid each  
there is not now sufficient funds  
to take care of same unless the  
Legislature can be permitted to  
appropriate funds to take care of  
this so I think in fairness to our  
aged this should be done.

I also favor the Legislature provid-  
ing for separate schools for  
Negroes in Texas and think this  
is an emergency matter. I think  
the Legislature should provide ad-  
ditional funds for the proper Law  
Enforcement in Texas in order to  
protect the property and lives of  
our citizens.

While I have had a small part  
in getting the State on a cash  
basis and hope we can keep it this  
way yet I think we can attend to  
above mentioned emergencies  
without weakening our State Treas-  
ury only slightly and take care  
of the needs of our people at  
this time.

Sincerely,

EARL HUDDLESTON

Candidate, Representative, 94th  
Dist. Pol. Adv. Itc)

### START OF HOOD HOUSING SLATED FOR THIS WEEK

A \$1,667,000 building program  
at Camp Hood which will convert  
162 barracks into 648 apartment  
units will get under way this week  
officials there announced Saturday

The program is expected to ex-  
tend over a period of eight months  
depending upon the availability  
of materials and labor.

The units will consist of a liv-  
ing room, one, two or three bed-  
rooms and a bathroom.

Of the 162 buildings, 64 will be  
used by officers, 7 by warrant of-  
ficers and 91 by non-commissioned  
officers.

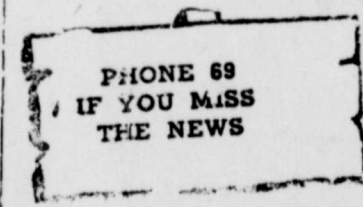

The structures to be erected un-  
der this program are temporary,  
pending the building of permanent  
housing units. The erection of the  
permanent buildings will begin as  
soon as Congress approves the ap-  
propriation of funds, it was ex-  
plained.

The building contract for the  
temporary units was awarded to  
Montgomery Builders and Engin-  
eers, Contractors of Dallas. Con-  
struction will be directed by Mr.  
Phillips of the Montgomery Con-  
tractors and Mr. Dunway, construc-  
tion superintendent of the Post  
Engineers.

### EARL PATE OF TEMPLE TO OPEN BUSINESS; ELECTRICAL

Another young man is going to  
"try" it here. Earl Pate of Temple  
is here and has a little merchan-  
dise, but no location yet.

He'll be owner-operator of an  
Electrical Appliance firm but of  
course is waiting on "location".  
He has some merchandise, and you  
will probably be hearing about it.

**WASHINGTON NEWS**  
FROM OUR CONGRESSMAN  
**W. R. POAGE**

June 28, 1946

Dear Friends,

The Government's fiscal year begins on July 1st. Many pieces of legislation expire at midnight June 30th. It is therefore, important that many bills be passed and sent to the President before that hour. The result is that the House has been functioning very much as it does just before adjournment. We have been meeting two hours earlier than usual, and the sessions have been running into the night.

All day we have a succession of Conference Committee reports and of bills that must be passed before the June 30th deadline.

It is now five o'clock Friday afternoon. I have just come to my office from the Floor to write this letter. The House is considering the Urgent Deficiency Bill which involves appropriations for many agencies. One of these is additional money for relief in foreign countries. We have had astounding vote (we will later have a roll call vote)

on the question of limiting our relief to those countries which allow freedom to American news men to report on conditions where we are spending our money. This same limitation was proposed last year. I supported it then, and I still support it as I believe that we should at least be able to get full reports on conditions where we spend our money.

Earlier this week the House voted on conference reports to increase the pay of service men, to extend the draft (I explained the provisions of this bill last week), and to extend the O.P.A. with many specific limitations on the power of this agency. Fundamentally, this report seeks to require O.P.A. to allow a producer a reasonable price so as to encourage production and at the same time to allow O.P.A. to prevent unreasonable prices. As an example, we say that if a pair of shoes costs \$4.00 to produce, O.P.A. cannot fix a \$3.50 price and thereby stop the production of the shoes, but on the other hand, we still allow O.P.A. to prevent a merchant from charging \$10.00 or \$12.00 for the \$4.00 shoes. I voted for all these conference reports.

Washington is enjoying another transportation strike. This time the taxis are out of action. The union cab drivers are striking because Congress has not limited the number of permits for taxis to what the drivers feel is a sufficient number. Of course, that number is much smaller than some of the people who want to ride taxis and some of the returning service men who want to drive taxis feel is reasonable. Frankly the strike does not bother me as I do not often ride the taxis anyway, and I am not prepared to pass on the merits of the dispute, but I must condemn the violence which has accompanied it. A number of drivers who have not struck have been attached and their cabs have been wrecked. I cannot believe that this is the way to secure public support.

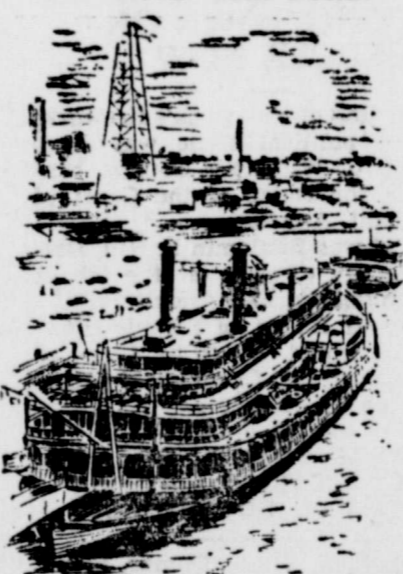

For many years I have suspended these letters during any political campaign in which I was involved. This year the people of our district have been very kind to me, and I have no opponent. I have, therefore, continued my letters a little longer than I would have otherwise done as I knew that my newspaper friends who publish them could not be criticized or charged with political favoritism as a result of their publication. At the same time the campaign is now beginning to "warm up", and with the present shortage of news print, I know that these letters may become a burden to some papers. I always want to avoid that. I am, therefore, suspending them until after the campaign, and as the Congress will probably adjourn before that time, it is unlikely that I will write any more until next year. Our office will, however remain open at all times for any service we can render.

In the meantime, with all good wishes, I am

Your friend,

W. R. POAGE

### LOUISVILLE'S INDUSTRY

Three-fifths of the output of Kentucky's 1,700 industries by dollar value comes from plants in Louisville. About 75,000 wage earners in the state are paid some \$70,000,000 annually to turn out items valued at over \$600 millions. It's a fine showing for an essentially agricultural state and will go far to guarantee Savings Bonds for years to come.

### Saddles

Casper, Wyo., boasts a saddle maker who has been at the business for forty years in that city. He knows his trade, a fact not hard to prove. You see there are a great many people in his state who know a good saddle when they see one and a saddle maker has to be good to stay in business long in Wyoming. Not many days ago I dropped into his shop and got introduced.

I was a prospective customer. We need a couple of good saddles at the Harding College stable and had shopped close to home with no success. To my astonishment the Casper saddler was no better able to supply our needs than those in Memphis or Little Rock. He was able, however, to give me some facts I had not learned before from any of the saddle stores visited earlier.

### Saddletrees Scarce.

A good saddle is built on a wooden frame called a tree, much as a shoe is built on a wooden last, except that the tree is built into the saddle and becomes a permanent part of it. Saddletrees are made by men of a highly specialized craft. Trees have to be shaped right, no bulkier and no heavier than strength and design require. Men able to do such things with wood are by no means common.

During the war Uncle Sam needed skillful saddletree men in the construction of gliders. "The government employed most of them at about \$160 a week," the saddler declared. Good saddles, not being made any more, might have skyrocketed in price but the Office of Price Administration fixed a ceiling to stop it. Stocks of new saddles soon were bought up by users at ceiling prices.

### But the War Is Over

Now the glider business is slack. Wonders have been done with gliders and they are not being forgotten, but fewer are being built. Unemployed saddletree men would like to start building saddletrees again—there's quite a demand. Living costs have built up, however, and they think they ought to have \$120 a week. That's \$6,000 a year and 25% under their defense-plant scale of pay.

Saddle manufacturers, like the one in Casper, want trees because—no trees, no saddles. They are willing to pay tree builders \$120 a week and wouldn't kick a bit if saddles might be sold at prices they would easily bring. I guess there are thousands of customers besides me who are ready to pay more for a saddle than it would have cost in the months immediately before the war.

### Ceiling Lingers On

"If today I engaged a good tree builder," said the Wyoming saddler, "paid him \$120 a week in return for his best services and most competent work, and then sold the total product at ceiling prices, it would pay about three-fourths of the wages of the man who made the tree." Obviously it is out of balance. Craftsmen, manufacturers, dealers and users are all waiting for ceilings to lift.

The saddle business is not large when you contrast it to automobiles and railroads, but it is no isolated case. Many small business men are smothering for sales that are tied up by O.P.A. Small plants, employing less than 1,000 men, provide jobs for 78% of industrial workers. Carried too far, this price policy can bring panic and poverty. Liquidating some war-year bureaus would help balance the national budget and help clear the way for new and much needed production.

Natural gas pipelines in the United States now total approximately 220,000 miles, as against about 141,000 for oil pipelines. The 25,846 oil field wells drilled in the United States in 1945 attained a total footage of 90,486,215 feet. For the first time in history, except during wars, a government oil and gas agency has been set up—in the Department of Interior. A non-rusting gasoline pump made of plastic glass has been developed to eliminate paint problems of filling station operators. Your attic is a **HEAT TRAP** without ventilation

**COOL** breezes replace heat with attic ventilation

Remember those stifling hot nights last summer, when you sat outdoors until late, hating the idea of going into the hot house to bed?

This summer can be different if you install an attic ventilating fan now. An attic fan draws in cool, refreshing air through the windows, circulates it about the house and blows hot, stale air out through the attic vents. It makes your entire house as cool as a breeze-swept, shady, open porch. You can retire early and enjoy a comfortable night's sleep no matter how torrid the weather.

A limited number of attic fans are available now for immediate installation. See your electric appliance dealer or this company for full information about this low-cost way to summer comfort.

About 15,000 drugs have been tested experimentally to destroy malarial infection in the human body.

There are four poisonous snakes in the United States, the rattler water moccasin, copperhead and coral snake.

There are two basic types of snake poison, one of which attacks the victims nervous system, the

other the blood cells.

Small quantities of cobra venom have been found useful for reduction of pain from various human ailments.

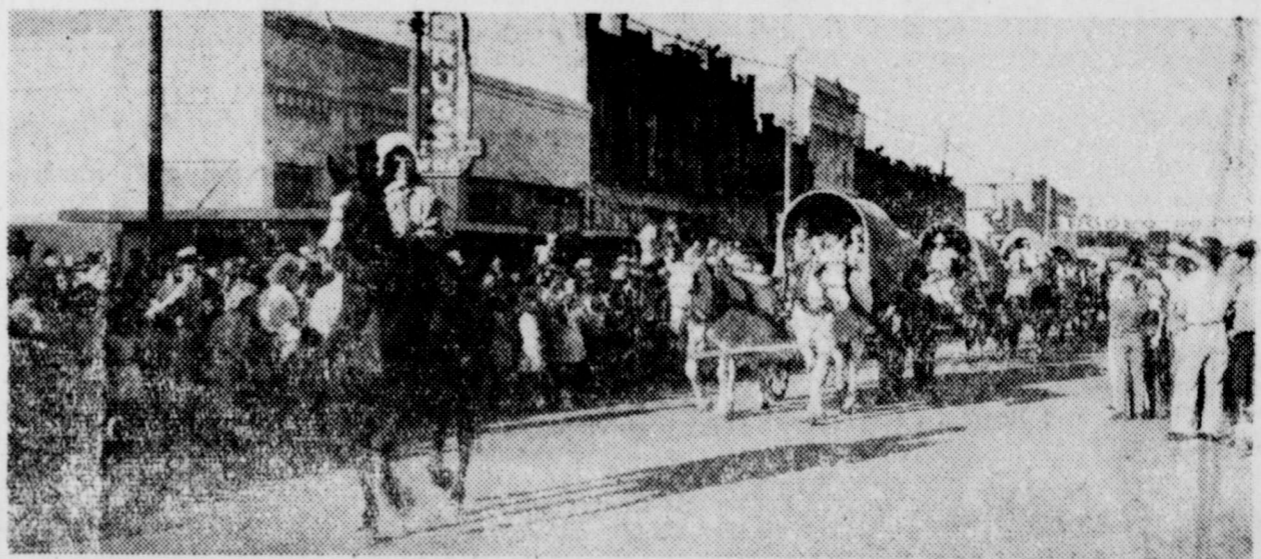

The air consists of 78 percent nitrogen and only 20 percent oxygen, but the oxygen is the only part useful to human beings.

Electronics equipment has been developed which removes dust

from the air by giving an electric charge to the particles, which can then be gathered by an oppositely charged device.

Til is one of the world's oldest building materials. Even the word is ancient, originating from the Anglo-Saxon "tigel" which is a derivative of the Latin "tegulo" from "tego" meaning to cover.

**RIGHT PARADE: WRONG NAME OF GIRL**

We ran this picture before, but got a "bum" steer as to who this little leading lady was. The Firemen didn't give us a "release"

and we were to'd wrong. This little girl is Miss Dorothy White, daughter of Mr. and Mrs. "Stump" White of Jonesboro. Em-

mett Dickie, who told us didn't know Mr. White's first name, so we had to use "Stump".
