Industrial Program Drive Runs Up To \$10,400: Continues

The drive for funds for the pro-
posed Industrial Foundation is
reported to be going nicely, and
already some \$10,400 has been
subscribed, with only a partial
working of the town and commu-
nity completed.

Next week, the drive will be
intensified, and worked to com-
pletion, according to Bill Thofson
Manager of the Gatesville Cham-
ber of Commerce.

Intention and purpose of the
Industrial Foundation is to secure
funds to induce industries to lo-
cate in this vicinity by providing
land and buildings, or both, which
will be refunded to the corpora-
tion out of rents, or a purchase
by the industry. The corpora-
tion is to last five years, and the
funds returned, interest free if
no industries are located here.

The News opinion is it is a
good idea, with proper manage-
ment, and is one that should in-
crease payrolls, business and em-
ployment opportunities in Gates-
ville.

TEEN TALK:

DEAR JUDY:

Jitterbug Jargon is the subject of much debate among the kids these days. They came up with the idea that most jive talk is purely local stuff and what might be hep language in one part of the land might not be understandable in another. There are some

kids who have never resorted to jive and think it's pretty silly. Others like the idea of having a few words of their own, even though Mom and Pop don't always approve of this mangled chatter.

The man usually credited with inventing jive talk is Cab Callo, way, who says he uttered his first "jive word" 20 years ago. He says he was sitting on the edge of a stage in a beat-up ballroom listening to "Fats" Waller pound on a tired old upright piano. The only way Cab could describe this beautiful music was "solid" and that he thinks was the first word of his now-long "square" vocabulary.

Cab still thinks there is a need for jive in our modern age. He

says: "Why call a bass violin any thing so ponderous as that when when it actually looks like a dog house? Why not call it a dog-house?"

One professor of semantics (study of words) calls Cab a true "poet of the people" because he has lifted language from its inhibitions.

Cab says he thinks kids can't be more explanatory in their own set than by saying "but def" which sounds founng and to the point. But on the other hand he doesn't think we should go too far in the use of jive talk. Cab believes there is a time and place for everything. You don't have to talk jive in front of your entertaining important guests. And of course you shouldn't antagonize your school professor with your jargon.

If you want to be understood by less imaginative folk, by all means talk straight, says Cab. But when kids are by themselves, he says, let them give off with this language if they like it.

NAGGING BACKACHE
May Warn of Disordered Kidney Action. Don't Neglect It!
Modern life with its ceaseless hurry and worry, irregular habits, improper eating and drinking, exposure, contagion, whatnot, keeps doctors busy, hospitals crowded. The after effects are disturbing to the kidneys and oftentimes people suffer without knowing that disordered kidney action may cause the trouble.
After colds, fever and similar ills there is an increase of body impurities the kidneys must filter from the blood. If the kidneys are overtaxed and fail to remove excess and other harmful waste, there is poisoning of the whole system.
Symptoms of disturbed kidney function may be nagging backache, persistent headache, dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of strength and energy. Other signs of kidney or bladder disturbance sometimes are burning, scanty or too frequent urination.
In such cases it is better to rely on a medicine that has won world-wide approval than on something less favorably known. Use Doan's Pills. They have been winning new friends for more than forty years. Be sure to get Doan's. Sold at all drug stores.

Coryell County News.
Mr. Mat Jones, Editor,
Gatesville, Texas

Dear Sir:
In reporting the Concert of Monday evening at our Municipal Auditorium, permit me to suggest that you make some reference to the large audience. This was the most cultured, most attentive, and most appreciative audience that I was ever in, anywhere. The excellent conduct, manners, and attention of the children and teenagers, without exception, was remarkable. They were a compliment to their parents and to their teachers. These same children yell as loud as they can at our football games; and they also respectfully listen to and encore the presentation of a Concert of the Classics. The successful future of this County is in their hands.

As for the pianist, Walter Robert he was appreciated all along; and when his program arrived at Liebestraum and Polonaise, we all realized that we were listening to music long to be remembered; and that it was being delivered

by an Artist of rare ability. As the members of the audience left the Auditorium, the expressions on their faces, indicated that they had heard and enjoyed something unusually fine in their old home County.

Sincerely,
H. C. STINNETT.

ADMIRATION COFFEE STARTS NEW CONTEST FOR NEWS READERS

An unusual contest is brought to the attention of the News's readers by Admiration Coffee in their Five Thousand Dollar "My Favorite Grocer" contest.

In this contest not only does the Grand Prize Winner receive a thousand dollars in cash, but the grocery store named in the winning entry receives Five Hundred Dollars in cash. Winners are judged on the best statements of fifty words or less completing the sentence—"My Favorite Grocer is (name of favorite Grocery store) because"....telling why this grocery store is the favorite of the contestant.

It was pointed out by contest officials that since this is strictly a regional contest—that is, confined to the Southwest—and not offered nationally—contestants have eight times better chances of winning than any contest offered throughout the United States.

In addition to the grand cash prize of \$1,000 for the contestant, the second and third grand prizes are a Philco Refrigerator and a Crosley Radio-Phonograph Combination, respectively. Before the judging of the grand prize winners, there are six weekly contests with the winners receiving the items mentioned above, plus Westinghouse Electric Roasters, Dormeyer Electric Mixers—Man-

ning-Bowman Electric Percolators Dominion Electric Toasters and dozens of others.

Not only do these prizes go to the winning contestants' but the "favorite" grocers named in the winning contestant's entries, also receive valuable prizes.

The contest started September 29th. Weekly contest winners will be selected from entries received before midnight Saturday at the end of each week for the following six weeks.

Entry blanks may be secured from grocers, or contestants may merely write on one side of a plain sheet of paper. Anyone may enter as many times as he wishes but each entry must be accompanied by the label (or mummy picture) from the Admiration Package or jar or the strip that unwinds from the vacuum can. All entries should be mailed to "Admiration Contest, Box 285 - Houston Texas."

About 50 million acres in the western part of the United States are highly fertile, but cannot produce crops because of lack of water.

Hornets Face Trojans in First'un That Really Counts At Stadium Here Tonite

Now, we're getting down to brass tacks. The kind that really make their mark on a season's play, that is, football reputations. Tonight under the lights at the stadium, the West Trojans will be the guests of the Gatesville High School Hornets.

„Now, early season like it is, there's no telling what will happen, but this'un ought to be the Hornets, if they put out like they did in the first two games of the year. We're simply ignoring another trip.

West has had some formidable opponents, and how they fared is another question, but, they've got a lot of what they had last year and the name that stuck with us was Pustejovsky, Smetak, Glomb and Cervenka. Names mean nothing in this sport, tho, and we're expecting a close game from our friends from West.

So far, West has played Birdville, Hillsboro 'B' and Waco Kittens, which doesn't seem to be such an array of talent, and if they won or not don't know, our records are misplaced.

Gatesville has by far a more

impressive list of teams, including as you well know, Killeen and Taylor and some other team.

So on the points of competition, we expect the Hornets to go this week, but it's not going to be a pushover.

Condition of the club is not too hot. Big Joe has a shin he's petting, Price still nurses an ankle, and there are abrasions and bruises among the others. These, however, come with the game.

It's the FIRST CONFERENCE GAME OF THE SEASON, which makes it doubly important. After tonight, we're going to be either 1.000 percent, or .000 percent. We'd prefer the 1.000.
