HORNETS INVADE A No. 1 CONTENDER'S LAIR TONIGHT FOR 2nd CONFERENCE TILT

With one win, and no losses it's a major question: "Will it last?" Friday evening about 10 o'clock, in the beautiful little city of Clifton, Texas USA we'll have the answer.

That's when the B&G boys tangle with the Swenskas, Nordskas and others at Clifton and they're pretty darned good football players, whether we want to admit it or not.

So even with "the great one" showing Gatesville one up on Clifton and admitting he'll know more Saturday morning (he won't bother before) the ballgame of

the season as far as this edition of the Hornets are concerned will be unreel tonight right over there.

Coach Mitchell hasn't told us his lineup but it'll feature Gene Anderson, Ross Vandiver and Francis Davidson in the backfield and Bill Collins who replaces Daniels when he was injured in the West Game. Of course this may be jumbled up and he may use some linemen like Larry or Gilmer or even Deavers.

Anyway—Hornet fans are needed in Clifton—and TONIGHT!

Coryell City-Purmela Game Off: We Don't Know!

Mr. Dreyer said Newt Westfield's arm was sore, they'd played every Sunday nearly since February, uncertainty as to where and Curtis Smith said his arm was sore.

That's what we got prior to this edition of the News, so it doesn't look like there'll be one.

Maybe it can be arranged next season.

Mr. and Mrs. Clarence Bauman have moved to Goldthwaite where they will make their home.

Mrs. J. B. Graves and Mrs. Mat Jones attended a Floral Telegraph Delivery flower school in Waco Thursday.

Rev. Leslie Rogers Preaches Sunday at First Baptist Church

Rev. Leslie Rogers assistant pastor of Columbus Avenue Baptist Church of Waco will preach at both hours Sunday. The morning hour is 10:50 and the evening hour is 7:30. The public is cordially invited to attend.

The Sunday School observed Promotion Day and new classes are being set up to meet the present need. Mr. Troy Jones is the superintendent and it is believed that the School is ready for advancement. The time is 9:45 a. m.

The Training Union hour is 6:30 and a cordial invitation is given to everyone who has a desire to know more about Christ to come and receive training that will equip him for service.

Not Talkin', But You're Goin' To Find Out Somethin'

It's that time a year, and we're not talkin' until some more of you hear the bad news.

It's something that comes forth from one of Coryell County's biggest organizations—in fact, it covers the entire county.

But, you've been coasting along easy and "cleaning up" on your production, business, vocation, vacation, etc. and the "equalizer" is ust about going to hit you "down for double" as they say in certain illegal games.

But, we ain't talkin' because when you hear it you're goin' to do the talkin' AND LOUD!

Floored us!

Success stories are coming in from our advertisers, and unsolicited.

One ran an advertisement, a "Classified" in the News and the same advertisement in another newspaper, and 8 out of 10 said they saw it in the News.

Co-operation on Meatless, Eggless Days By The Associated Press

More widespread cooperation than on meatless Tuesday was expected today for eggless, poultryless Thursdays in support of the President's food conservation program.

However, a survey showed most Texans ate eggs for breakfast as usual. Most cafes served eggs if customers ordered them. Two Dallas restaurants specializing in fried chicken said they were staying open but may close next Thursday.

NAGGING BACKACHE

May Warn of Disordered Kidney Action. Don't Neglect It!

Modern life with its ceaseless hurry and worry, irregular habits, improper eating and drinking, exposure, contagion, whatnot, keeps doctors busy, hospitals crowded. The after effects are disturbing to the kidneys and oftentimes people suffer without knowing that disordered kidney action may cause the trouble.

After colds, fever and similar ills there is an increase of body impurities the kidneys must filter from the blood. If the kidneys are overtaxed and fail to remove excess acid and other harmful waste, there is poisoning of the whole system.

Symptoms of disturbed kidney function may be nagging backache, persistent headache, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of strength and energy. Other signs of kidney or bladder disturbance sometimes are burning, scanty or too frequent urination.

In such cases it is better to rely on a medicine that has won world-wide approval than on something less favorably known. Use Doan's Pills. They have been winning new friends for more than forty years. Be sure to get Doan's. Sold at all drug stores.

THE REASON DOAN'S ARE FAMOUS
All over the country grateful people tell others: "Doan's have helped me; I recommend them to you." That is why we say, Ask your neighbor!

Mr. Hulcy was also appointed to the AGA promotional committee which originated the slogan "Gas Has Got It", tying in with the industry's million-dollar national newspaper and maga-

zine advertising campaign to stimulate replacement of more than 12,500,000 assertedly outmoded gas ranges with modern automatic ranges, and to educate the American housewife on modern gas cookery. Mr. Hulcy had served as chairman of the promotional group since its inception 3 years ago.

Mr. Hulcy, native of Franklin Texas began his career with the Lone Star Gas Company in 1920 when he was assigned to special accounting work and in 1924 he was appointed chief clerk of the accounting section. THIRD GRADERS GET A CAROLINA READER

COLUMBIA, S. C.—(AP)—A third-grade reader "Gateway to South Carolina" based entirely on state material and produced in the state, is believed by its authors to be unique in its field.

Mrs. Mary C. Simms Oliphant and Mrs. Mary Simms Oliphant Furman, her daughter, are the authors. In story form, the state theme is carried through Indian lore, nature study, history, geography, state recreation facilities and industry.

Mrs. Furman explains that the text is developed in words most pupils learn in the second grade so that the third graders will not be handicapped.

The book is extensively illustrated. It is being distributed through the State Textbook Commission.

The concertina was invented in 1829 by Sir Charles Wheatstone—the year in which the accordion is reputed to have been invented.

"Commedia dell' Arte" was the name given to mediaeval Italian comedy in which the plot was written out but the dialogue improvised by the actors.

POAGE WRITES:

Copenhagen, Denmark.
September 13.

DEAR FRIENDS:
The past week I have traveled in Austria and Southern Germany. We have visited in the French zone in both countries as well as in the American zones and in the British and Russian sectors of the city of Vienna. On the whole this area is in better shape than northern Germany. Austria has had considerably more rain and most of this area has a larger percent of its people living in the country.

Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor and business manager are: W. Mat Jones, Gatesville, Texas.
 2. That the owner is: W. Mat Jones, Gatesville, Texas.
 3. That the known bondholders, mortgagees and other security holders owning or holding 1 percent or more of the total amount of bonds, mortgages or other securities are: NONE.
 4. That the two paragraphs next above, giving the names of the owners, stockholders and security holders if any contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain the statements embracing affiants full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association or corporation has any interest direct or indirect in the said stock, bonds or other securities than so stated by him.
 5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise to paid subscribers during the twelve months preceding the date shown above is 1015.
- Signed—W. Mat Jones, Owner
Publisher and Editor.
Sworn to and subscribed before me this 7th day of October, 1947.

The city of Vienna was seriously damaged by the fighting between the Russians and the Germans but most of the damage is along the river and large sections of the town are entirely untouched. Most of the stores seem to have some goods and the people move around as if they intended to try to improve conditions. Austria has a national government which all Allied Powers recognize although Russia has so far refused to negotiate a peace treaty. Each of the four major Allied administer a part of Austria just as they do of Germany and just as in Germany the Capitol City is entirely surrounded by the Russian zone. However, each power has a sector of the city for administrative purposes. We have agreed that all the food that comes into Austria shall be pooled and distributed by the Austrian Government in all the zones. The Russians allow us no right of inspection in their zone, but it seems clear that here the local people are trying to see that the whole country is revived together. We had a long conference with the American Commander, General Keys and also a "briefing" by his staff. These "briefings" are nothing more than a series of lectures and make me think I am back in school. Our people in Austria feel that it is extremely important that we keep his country from falling into Russian hands and I agree with them.

We went through a farm house up in the French zone of Austria. The house was two stories and very large, but we found that the larger part of the house was barn. They keep their cows, pigs and chickens all in the back part of the house. This seems to be the universal custom over most of this country. The front of the house was very nicely painted and had bright colored window boxes with beautiful flowers. There were also pear and apple trees growing flat against the house so that they took up very little room. Another interesting custom on this place and all through the area was the practice of stacking fire wood, cut stove length, around the house. Many houses have wood stacked ends to the wall completely around the house up two stories high.

In northern Austria and in Southern Germany there are some good valleys with nice crops, but the percent of land in cultivation is very small. Most of it is steep hills. All the people keep a few cows. In this area most of the rural people live in the country on their own farms rather than in villages as they do farther up north. However, the country is so thickly settled that it is im-

possible to produce enough food even for local use. Everywhere the people do all kinds of work by hand and the women do the biggest part of it. They carefully save all the barnyard manure and we saw dozens of women loading it to spread on the fields.

I drove to Dachau and visited the Torture camp there. I also visited a large farm near the city where the German owner used slave labor. Our authorities had attempted to work the place with "D P's" or displaced persons, but without any success. This was a very large farm by German standards. It had housing for many families and barns that looked very much like our A & M College barns. In spite of this its production had dropped to about one fourth of what it had been. The D P's sent there simply would not work. I saw a large "camp"—actually housed in good substantial brick apartments—where they would not even grow gardens or cut wood for their own use. I think it is high time our Government stopped spending another penny on people who won't try to help themselves. I don't want to give the idea that all themselves. shrdlu cmfwyp gw l D P's are utterly worthless. Some of them seem to be very fine people. I saw a camp of Baltic people all of whom seemed to be working and which was just as neat and clean as any American City. All I am saying is that we should not spend our people's money to care for folks who won't work to help themselves.

We found Munich badly battered by our Air Force. Munich was the site of Hitler's Beer Hall and of the place where Mr. Chamberlain signed the infamous Munich agreement to let Hitler dismember Czechoslovakia. Both buildings are now in ruins. Here we saw an exhibit of gods Germany (British and American Zones) is now making for export. It was quite a substantial display including a large amount of electrical and medical equipment. In every case we were told that more goods could be produced if they could get more coal. In the coal fields they claim they could produce more coal if the miners had more food. Of course, they could buy more food if they produce more goods for sale abroad. It seems to be an endless circle, but I am hopeful that we can break it and get Germany to producing enough goods to pay for the food she needs, and I for one still believe this can be done without restoring her heavy war industries which would still endanger the world.
