Well, the big fracas comes off this week end, and it's Nov. 21 according to our calendar.

Sure, and we mean the Gatesville-McGregor Game, which form this angle, we'll just say is a toss-up but, tossing up what, is your guess, too.

This is THE game of the season, and even if we'd won all of them and, this'n would still be the "pay-off".

Somebody ought to get a trophy on this one. A Bell is the last-week end trophy, and this'n ought to have one with the entire record pu on for all the years of play. Maybe we'll do that little thing.

Humble, again, says there'll be "air" or ozone, next week end, at which time SMU-Baylor will play from Waco, and it's to be thru Charles Jordan at 2:20 over WFAA, WBAP.

Rice-TCU at 1:50 from TCU, and KMAC, Austin with Ves Box doing the airing. That's all they said.

There were not any games of much interest to report in 29-A last week.

The worst thing we've seen is the fact that we let the Copperas Cove-Potsville District 12 Championship be played in Hamilton, without the local C of C or anybody even making a bid for it. Looks like we slipped a gear. Maybe they'll (somebody) get the courthouse, next. 'course, we might not have gotten it, but we could have tried. It was played Thursday, November 20, at Kookan Field.

SCW Scores: Baylor 7-Tulsa 6; SMU 14-Ark. 6; Texas 20-TCU 41; Rice 41-Aggies 7.

Abraham Lincoln's official career in Washington began in 1847 when he took his seat in Congress as the lone Whig representative of Illinois.

Here's Outline of The Too-long Historical Ass'n. Constitution

With the usual "formal rhetoric", the constitution states, of the Coryell County Historical Society, that it's "for historical and literary purposes and the object is collection, etc., of such data for itself and the Texas State Historical Association, The University of Texas and the Texas State Library, and to preserve, assemble and care for them, etc.

November 14, 1947
 DEAR FRIENDS:
 For some weeks I have reported on my visit to Western Europe during September. This has made it impossible for me to tell you of the activities of the Agriculture Committee which has been holding hearings in various parts of the country in an effort to get first-hand farmer opinion as to the most desirable elements for a permanent farm program.
 Many of our present farm programs will automatically end the last day of next year (Dec. 31, 1948). This means that if we are to have any effective farm program in 1949 we must act not later than the 1948 Session of Congress. Most of us feel that we should try to write a permanent and lasting program—not simply another temporary or stop gap program. The Committee held rather extended hearings on this matter at the Regular Session last spring. At that time we heard representatives of most of the or-

ganized groups who desired to be heard. The first week in October the Committee met in Washington and heard the Secretary of Agriculture, and representatives of his Department. It also heard unofficial groups and organizations. We want the views and suggestions of all these groups, but we also want the ideas of farmers and farm women who never have a chance to come to Washington. We, therefore, determined to hold a series of hearings in various parts of the country.
 The first of these hearings took place at Durham, New Hampshire and the last was held in Temple, Texas. The Committee had additional meetings scheduled in the Western States but felt that with the calling of the Special Session it would be impractical to complete our tour. It is hoped that we can finish these hearings at some future date.
 We found lots of interest wherever we went. In every commu-

nity it became necessary to limit the time of the witnesses and to limit and then abolish the privilege of the Members to ask questions. This, of course, did detract from the effectiveness of the hearings but when we were in one day you can see that such limitations were necessary. At Temple we set a record for both witness and spectators. There were 800 people present at one time, and as they continued to come in and out it is probable that more than a thousand people sat in on part of the day's proceedings. Seventy-four witnesses from Texas, Oklahoma, Arkansas and Louisiana actually testified in person during the day, and many more filed written statements. I feel that this evidenced a real interest in farm problems, and I was quite proud of the cooperation and hospitality of our people of Central Texas. I am trying to make Members of Congress understand our problems and conditions and I know of no better way than to get them to meet our people and see our country.
 In fact this first hand knowledge was one of the most important products of the trip. The hearings gave us the views of the people, but the trip itself (most of which was made by bus), gave the Members of the Committee an opportunity to get an acquaintance with the various types of agriculture throughout the land, which they could not get any other way. It enabled those of

us from the South to see the apple orchards and the poultry industry of New England, and it enabled men from up there to see cotton gins and real ranches. We made a practice of stopping along the road. We watched a corn picker at work in Iowa. We visited a vegetable cannery in Pennsylvania, a cotton gin in Alabama, a cheese plant in Wisconsin. We went through the stockyards at Sioux City, and visited soil conservation activities in a number of States. We visited Flat Top Ranch in Bosque County, where we saw its fine Hereford cattle and its modern pasture improvements and soil conservation practices. We made several other stops in Bosque, McLennan and Bell Counties. Before leaving Temple the Committee flew over the Elm Creek water shed, and on over Falls and Milam counties, and observed from the air the effect of soil conservation and the tragic consequences in areas where it is not practiced. We flew back up the Little River from its mouth well into Coryell County. Thus the committee got some idea of our flood control problems and at least saw every one of the six counties of the 11th Congressional District.
 Congress convenes in Special Session on Monday, (Nov. 17), therefore, my Waco office will be closed and any correspondence should be sent to Washington.
 With best wishes I am,
 Your Friend,
 W. R. POAGE.

ACA Notes of Interest To Farmers of Coryell County

Farmers still have time to plant winter cover crops of vetch, winter peas and clover, according to Frank Blair, Chairman of the Coryell County ACA. The ACA office will issue prior approvals on winter legumes until December 1, 1947. This will give the farmer until December 22, 1947 to get his phosphate applied and the legume seeded.
 Mr. H. R. Haase of the Pidcoke community received 3000 pounds of superphosphate under purchase order this fall, which was to be applied to 150 pounds of hairy vetch. Mr. Haase was by the office a few days ago and stated that the vetch is up and in good condition.

Farmers who have their phosphate on the land and have not planted their winter legumes should plant the legumes as soon as possible so that a good stand and growth can be obtained by April 15, 1948.

The ACA Community Committees met with the County Committee this week to discuss the 1948 ACP Program.

In a few days notices of 1948 peanut acreage allotments will be mailed to peanut farmers by the ACA office, also information on the '48 peanut program.

Len-Iex Six-Man Team Rolls Up Amazing Two-Year Record

By Lefty Byers
Temple Telegram Sports Editor
COPPERAS COVE, Nov. 13.—Hidden beneath the glory of today's conventional-brand football is a story of an unceasing struggle of a comparatively new sport to gain at least a foothold in this athletic-minded country.

It concerns the gradual rise to popularity of six-man football, and the part a Central Texas school is playing in giving it the necessary boost.

And in the process it has rolled up one of the most enviable records imaginable.

Copperas Cove for the past two years has devoted its fall sports activities to six-man football, and so far, still is undefeated.

Last season, the Bulldogs breezed through district competition and went on to win the bi-district championship, playing a total of nine games for the season.

In these tilts, Copperas Cove chalked up 63 points, compared to 2 for its opposition.

So far this year, the Bulldogs have played seven games and have yet to be scored on—they have collected a total of 215 points from their unfortunate victims.

They have hopes of stretching their present string of 16 victorious battles to 19 by the end of this season.

It is doubtful that a more outstanding record exists in the rank of six-man football.

"And an important fact to be

noted" says Coach W. R. Goodson "is that only two men from last year's squad are with us this season."

The mentor credits an exceptional conditioning program for the glaring success of the team.

Six of these nine boys who are considered the first team are from the Variety Club Boy's ranch near Copperas Cove, and they are subject to year-round training as part of their scheduled activities.

"Marshall Brown, athletic director of Boy's ranch, is due lots of credit for keeping his boys in prime condition," Coach Goodson declared.

The sparkplugs of this year's team are Captain Stanley Gribble and Ed Montgomery, a 14-year-old six-foot-three-inch lad. These two boys lead in the scoring department, each boasting a bag of 66 points for the current season.

Other members of the team include Alton Brantley, Glen Gibson, E. C. Kattner, Gene Lewallen, Clifton Osborn, Jack Turner, Edward Urbantke, Bobby Coleman, Winfred Grimes, Bob Hillin, Joe Hillin and Bobby Lindsey.

The coach was quick to point out that sparkling work on the part of the three linemen has attributed plenty to the successful showing of the team.

"Their outstanding work is emphasized by the fact that no opposing team has scored on us this year," Coach Goodson explained.

The Bulldogs sometime believe in finishing a game quick.

One of the rules of six-man football states that a team has an option of stopping the game if it is trailing by at least a 45-0 score at half-time.

At Oglesby this year, Copperas Cove led at the half by a 46-0 score, so the tilt was halted at this point.

The Bulldogs will play Jarrell Friday in a conference game, and will journey to Hamilton Nov. 21 to meet Pottsville for the District 12 Championship.

Because the district covers such a large area, it has been divided into two zones and Copperas Cove already has copped the top spot in the eastern zone.

Pottsville is winner of the western half, so a tilt between the pair of teams is necessary to decide the district chafp.

The winner of District 12 will play the number one team in District 11 in Hico around Corsicana, for the bi-district title.

Copperas Cove's Bulldogs are taking their games one at a time, and it's a pretty sure shot they'll do just that—take them.
