Mayes, down at Austin, and he's
lonesome for Gatesville, which,
brings up a good idea if we do
say so.

Wouldn't a County-Wide Family
or Families reunion for a certain
week or month each summer be a
grand idea. Somebody could put
up some conveniences in Raby
Park, a stand might open there,
and ALL Coryell County families
invited, urged and encouraged to
"Goin' to Coryell" homecoming

Hook it up with any other pro-
motion and it'd make all of them
go!

Make 'em Coryell Conscious!

BAND MEETS TONIGHT

Band Director Lafayette Lamb
has called a meeting of all band
members to report Tuesday night
at 7 o'clock at the band house at
school.

Our calendar has bone screw.
Summer is officially, June 21.

However, Texas weather (not
climate, mind you) is just as
danged independent as the Decla-
ration of Independence, and as
you well know, as you're swel-
tering and sweating thru this, that
IS independent.

It's our kind of weather, and we
well remember just a paltry three
months back we swore if we ever
got warm, yea, verily, even hot-
ter'n again we'd smile and take
it. This IS our kind of weather.

Say it was 102 on the Guaranty
corner Saturday, and suppose no-
body looked at it Sunday (wasn't
here) and it's too blamed hot to
look now, and anyhow, all we
have to do is look at our shirt—
it tells. Good old Summer Time,
and we likes it!

Gotta make this bunch of bunk
short. The Rodeo's just taking
up too much space free) in this
edition, and well, it's the big event
of the summer, so, why nct?

Forecast. Was dead before.
Wait til after.

Got a long letter from A. L.

**Grasshopper Bait Is
Being Issued At
County Agent's Office**

The County Commissioners
Court in cooperation with the
County Agricultural Agent, and
the Federal Government is issu-
ing grasshopper bait.

Apply at the County Agent's of-
fice Monday, Wednesday or Sat-
urday. The bait is only dry mix
and sacked. Farmers are asked
to bring sacks to replace the ones
containing the poison. This dry
mixture should be moistened with
water and spread over the

part of the field where the grass
hoppers are working.

Put it out early in the morning.
Chlordane is still the most effec-
tive grasshopper insecticide. Any
failure to kill with Chlordane is
due to covering too much ground
with the spray,—one pint of chlo-
rdane to 50 gallons of water, and
this pread on 1 acre of ground.
See that all vegetation is uni-
formly covered with the spray
and only vegetation that hoppers
are eating.

Miss Vera Sams of Waco, was
a visitor in Gatesville over the
week end.

FALL FASHIONS SHOW LONGER SKIRTS, DEEPER COLORS, SIMPLER DESIGNS

By Martha Cole
Associated Press Staff
Skirts are still longer, colors are deeper and the design is simpler.

Other than that, there's not much difference in this fall's advance fashions from last year's. What's more, there is very little evidence of fashion's latest wrinkle—petticoats peeking out from skirts.

No startling innovation appeared in the fall showing of the American Fashion Association for Southwest buyers in Dallas in May. Some 4,000 buyers from 16 states, most of them from Texas towns, picked and bought from the offerings of 650 manufacturing lines displayed in hotel rooms.

The fashion revolution that stirred hold the hemline clubs to a counter revolt last summer was undisputed winner of the melee.

"The New Look Jitters are over", one salesman explained. "The women have by now either worn out their shorter styles, lengthened them or bought new clothes."

Fuller and longer skirts reign supreme. Not that everybody likes it.

"I thought we were through with these full circular skirts", one salesman remarked, holding up a black faille number, "But the women asked for it."

As for the hemline, it's still going down and it's a "terrific shame" another said.

"We're making our skirts so on the average they're 11 inches from the floor", said Emmet Pryor, representative for Betty Rose coats and suits. "Furthermore—this is something new—we're making the unior misses just as long as the regular sizes. The high school girls are demanding long skirts, too."

Dresses, coat and suit designs—all were much simpler than last year's. All the little furbelows were missing. The dresses had full skirts but not extremely full. Back interest was emphasized with unpressed pleats and flaring peplums.

The basic little black dress was still there, still just as basic, embellished sometimes with a full back or a portrait neckline.

Back-to-school cottons were of dark calico print—like the women who crossed the plains in a covered wagon wore.

The only apparent change in suits was at the collar—the ailor collar, the button-under-the chin collar and the big rounded romantic collar.

Very few of the manufacturers showed a single fitted coat. All of them were full with a swing back. The box coat was a dead duck.

If the women already have lengthened last year's dresses, all they have to do now is take off a few frills and dye them a darker color to be in style. Spruce green, forest green, corsair blue,

CORYELL COUNTY'S MEMORIAL PARK

A PERSONAL MESSAGE OF CONCERN TO YOU AS A CITIZEN OF CORYELL COUNTY ABOUT THE VETERANS MEMORIAL PARK NOW UNDER CONSTRUCTION AND HOW YOU CAN BECOME A PART OF THIS COUNTY WIDE PROJECT.

Not over 60 days ago a mere handful of the Veterans of two wars got together and with a lot of nerve and spunk took it upon themselves to proceed with a project that will prove to be one of the finest steps that has been undertaken in Coryell County in many years. These Veterans decided it was time to quit talking and act, this, they have done.

Purchased Site and Building—

In order to get this project started, six of the Veterans personally signed their names to a note at one of the local banks to get money. They purchased one of the finest buildings in the hospital area of North Camp Hood and a beautiful site of 25.15 acres located 2 miles east of Gatesville on Highway 84. The building has been moved and the clearing of brush has already started, already a baseball diamond is in use.

A Memorial to the Veterans of Two Wars—

This is our way of showing our appreciation and making this a living monument to those Veterans of World Wars I and II who served their country so gallantly, giving their best efforts, and many their lives.

The Plan Depends on You—

The Plans are to work this fine building over from every angle, making it good as new, both inside and out. As stated, this is one of the choice buildings, consisting of hardwood floors, rest rooms, showers, etc. all of which will make this a real club house and meeting place for the Veterans.

We Must Finish the Job—

This is Gatesville's and Coryell County's opportunity to finish a well started job. In order to finish this job, it will take money. The committee has estimated conservatively \$15,000 which you will agree is a bargain after you have seen it when completed. This means almost every person in the County will have an opportunity to contribute while this drive is on, also, we will appreciate your moral support and in the end we will give to the Veterans a club house and park second to none in the neighboring towns who have long ago completed theirs and now in operation.

A Conservative Estimate—

In order to carry out the plans for this undertaking, here are only a few of the many things that MUST be done before this will be the type place everyone will appreciate. Paying for the 25 acre site, the cost of moving the building, digging well with electric pump and cost of plumbing, digging septic tank, repair building landscaping, lighting baseball field, furniture for building and various other incidentals that will go to make this site complete and attractive.

Other Clubs Have Access—

Not only will this be a meeting place for Veterans of both wars, by special arrangement and consent of the board of directors any responsible ladies or mens club or reputable group will have access to these quarters at any time provided it is not being used by Veterans at this particular time.

A Business Organization—

The originators of this idea have gone at it in a strictly business manner. In order that your dollar will be protected when donated to this organization before and after the completion of same, a constitution and by-laws have been drawn up and recorded in records of Coryell County, Texas. They have elected a president, a Secretary and board of directors who will be the governing body at all times of this organization. Three directors from the American Legion who were selected were Roger Miller, Ray Hollingsworth and Wade Sadler; the three from the Veterans of Foreign Wars are Carl McClendon, Carl Chambers and Winfred Cummings; and the three non veterans are E. H. Nesbitt, Paul H. Martin and Geo. B. Painter. Bob Ward is Secretary and Treasurer.

This is Your Opportunity—

This is your opportunity to express your appreciation for the wonderful services rendered by the young men of this County who served in World Wars I and II, at the same time giving Gatesville and Coryell County a recreation center which has been needed for many, many years. A center after it is finished will make you glad you had a part in making it possible.

Finance Chairman—

Byron L. McClellan has been selected by the board of directors to head this money raising campaign. Many of you will be called upon to serve on his committee, when you are called upon for your donation, then meet them in a co-operative spirit as it means as much to you as the committee who is calling on you.

CORYELL COUNTY'S MEMORIAL PARK

A PERSONAL MESSAGE OF CONCERN TO YOU AS A CITIZEN OF CORYELL COUNTY ABOUT THE VETERANS MEMORIAL PARK NOW UNDER CONSTRUCTION AND HOW YOU CAN BECOME A PART OF THIS COUNTY WIDE PROJECT.

Not over 60 days ago a mere handful of the Veterans of two wars got together and with a lot of nerve and spunk took it upon themselves to proceed with a project that will prove to be one of the finest steps that has been undertaken in Coryell County in many years. These Veterans decided it was time to quit talking and act, this they have done.

Purchased Site and Building—

In order to get this project started, six of the Veterans personally signed their names to a note at one of the local banks to get money. They purchased one of the finest buildings in the hospital area of North Camp Hood and a beautiful site of 25.15 acres located 2 miles east of Gatesville on Highway 84. The building has been moved and the clearing of brush has already started, already a baseball diamond is in use.

A Memorial to the Veterans of Two Wars—

This is our way of showing our appreciation and making this a living monument to those Veterans of World Wars I and II who served their country so gallantly, giving their best efforts, and many their lives.

The Plan Depends on You—

The Plans are to work this fine building over from every angle, making it good as new, both inside and out. As stated, this is one of the choice buildings, consisting of hardwood floors, rest rooms, showers, etc. all of which will make this a real club house and meeting place for the Veterans.

We Must Finish the Job—

This is Gatesville's and Coryell County's opportunity to finish a well started job. In order to finish this job, it will take money. The committee has estimated conservatively \$15,000 which you will agree is a bargain after you have seen it when completed. This means almost every person in the County will have an opportunity to contribute while this drive is on, also, we will appreciate your moral support and in the end we will give to the Veterans a club house and park second to none in the neighboring towns who have long ago completed theirs and now in operation.

A Conservative Estimate—

In order to carry out the plans for this undertaking, here are only a few of the many things that MUST be done before this will be the type place everyone will appreciate. Paying for the 25 acre site, the cost of moving the building, digging well with electric pump and cost of plumbing, digging septic tank, repair building landscaping, lighting baseball field, furniture for building and various other incidentals that will go to make this site complete and attractive.

Other Clubs Have Access—

Not only will this be a meeting place for Veterans of both wars, by special arrangement and consent of the board of directors any responsible ladies or mens club or reputable group will have access to these quarters at any time provided it is not being used by Veterans at this particular time.

A Business Organization—

The originators of this idea have gone at it in a strictly business manner. In order that your dollar will be protected when donated to this organization before and after the completion of same, a constitution and by-laws have been drawn up and recorded in records of Coryell County, Texas. They have elected a president, a Secretary and board of directors who will be the governing body at all times of this organization. Three directors from the American Legion who were selected were Roger Miller, Ray Hollingsworth and Wade Sadler; the three from the Veterans of Foreign Wars are Carl McClendon, Carl Chambers and Winfred Cummings; and the three non veterans are E. H. Nesbitt, Paul H. Martin and Geo. B. Painter. Bob Ward is Secretary and Treasurer.

This is Your Opportunity—

This is your opportunity to express your appreciation for the wonderful services rendered by the young men of this County who served in World Wars I and II, at the same time giving Gatesville and Coryell County a recreation center which has been needed for many, many years. A center after it is finished will make you glad you had a part in making it possible.

Finance Chairman—

Byron L. McClellan has been selected by the board of directors to head this money raising campaign. Many of you will be called upon to serve on his committee, when you are called upon for your donation, then meet them in a co-operative spirit as it means as much to you as the committee who is calling on you.

Italy—
**Pope Exposes Rus Deceit
To Italians.**
ROME Italy—Translated into

the language of the Middle West, Pope Pius XII, in his letter to President Truman, declared the Catholic Church would not compromise with Communism and charged Russia with lying to the people engaged in administering simple sacraments.

The Holy Father had good and just cause for his eloquent appeal to the Christian world. Here in the shadow of the Vatican, Moscow-trained Soviets are carrying on the shrewdest but most completely deceitful campaign of propoganda to be found anywhere in Europe.

Through their many newspapers and at mass meetings speakers tell the Italians there is no conflict between the Church and Russia. They tell them an Ital-

ian can be a good Catholic and a good Communist at the same time. Thousands of poor Italians, all devout Catholics, but confused by the chaos of postwar disruptions, have believed these vicious lies. The poor people of Italy are grasping for hope and the Soviets have promised them everything.

In the recent elections the Communists orators here in Rome promised that all old people, who did not have homes of their own, would be given free apartments in Vatican City a woman showed up in Vatican City to announce she would have to have a first-floor apartment because her rheumatism was too bad to permit her climbing up stairs.

In Southern Italy the Communists printed a picture of St. Joseph, who is a popular saint in that section, on the "Red" ballot. Thousands upon thousands of ignorant peasants voted the Communist ticket, thinking they were voting for St. Joseph. In Sicily, the Communists used the great Italian hero Garibaldi huge posters urged the peasants to vote "for Garibaldi and Communism". They did by the thousands. As a result, instead of the Conservatives sweeping Sicily, as was generally predicted, the Communists won a majority of the Sicilian seats in the national assembly.

Just this week Vatican officials were shocked to receive verified reports of the brutal murder of a young priest in northeastern Italy by a mob of Communists who were led by Yugoslavians carrying Red banners.

All along the Po valley the Soviets have organized underground forces, thoroughly trained and well armed. An Associated Press correspondent, who has just completed an investigation of the Communist underground, says there are at least 50,000 men in the "army", all taking orders from Moscow and ready to clear the way for a Russian sweep from Yugoslavia to Marseilles whenever the word comes for them to go into action.

In the light of such evidence of the Soviet's belligerent determination Pope Pius' letter to President Truman takes on serious and prophetic significance. The Vatican knows and understands the utter ruthlessness of the Russian program of aggression. So it was no idle use of eloquent words when the Pope said in his letter to the President:

"The divinely given mission of the church often brings her into conflict with the powers of evil, whose sole strength is in their physical force and brutalized spirit, and her leaders are sent into exile or cast into prison to die under torture. This is history today. But the Church is unafraid. She cannot compromise with an avowed enemy of God."

That is the nearest to a militant statement that any Pope has made in probably 100 years. Christians the world over know how the Catholic church, at least, will neither appease nor compromise with Soviet Communism.

Many newspaper correspondents here believe the Pope's letter will have tremendous influence in checking the spread of Communism among the Catholics of Europe, who now have been told by the Holy Father himself that the Russians are lying when they say, "You can be a good Communist and a good Catholic at the same time."

This Week in History

JUNE 6 to JUNE 12

One of the most appalling disasters of modern times occurred 40 years ago this week (June 7, 1908) when the Italian cities of Reggio di Calabria and Messina succumbed to a violent earthquake. Almost 100,000 people were covered by the rubble of structures which had been weakened by three previous shock and many of the survivors drowned in the subsequent tidal wave. A million or more were left homeless.

What's the Secret?
What makes American living the best living known? What makes the American standard of living so much higher than that of other nations? Our country is in no favored position as to raw materials, geography, population, climate, or the other factors usually thought of as making up a nation's economy. In fact, we have less of the world's territory, fewer people, and not as many natural resources as some other nations.
All these things you will find in the almanacs. Looking further and with a little more discrimination, you will find that America does much, much, more with what it does have. What I mean is that America produces. The figures will tell you that our "industrial and agricultural output" is great. This does not mean that Americans work any harder than anybody else. Actually, they do not have to work as hard as workers in other countries.

Method That Works
Then where's the difference? What's the secret? It is the system that makes the difference. Our high standard of living, our good living, is the pay-off of this system. This is where we reap the benefits of the right system, a system that really works. Once in awhile, maybe, we have a shortage or an inequity. Maybe we lack production here, or there. But right away, enterprise goes to work to meet that demand. With no interference from a dictator-state, the system takes care of little dislocations and progress keeps going. Our standard of good living continues to rise. Only in this way may all the people reap the rewards of their inventiveness and their enterprise. You see, the fellow who invents a light bulb or a self-starter is not the only one to profit. The fellow who uses them profits most.

Trial and Error
This system would bog down under heavy-handed statism. Let the government step in to manage, and you have a dozen ways the system can go haywire. Demand no longer becomes the basis for production. Profit is penalized, and nobody gets the benefits of enterprise. People lose initiative and inventiveness, and everybody suffers. This has been America's experience, wherever she has tried "statism."
Notwithstanding large funds spent by the Russian state on putting electric vacuum cleaners and refrigerators into production, it is reported from Russia that these things are not being produced anywhere. One factory made 300 manually-operated washing machines. They sold quickly, but no more were made despite heavy demand. The report said a good potato-peeling machine exists and demand is heavy, but it is not in production.
These are nothing more than the fruits of the mismanagement that takes place when government starts tinkering with a nation's economies. The British press reports that one of its state-owned airlines will lose seven million pounds in its first year of government operation; another has already reported a loss of thirty pounds for every passenger it carried. These are some of the fruits of socialism. If we want to keep our high living standards, we must hold fast to the American way.

"Second Section" County Baseball Playoff Starts: Running True To Form: Ends 8-1

"They're off" you might say, here it is: and this is baseballically speaking this time, but the second half of the Coryell County Baseball League started Sunday, June 6, and the locals, VFW outslammed a Turnersville club to maintain their winning streak, 10-7.

Jonesboro stopped Pearl 11-9, and Coryell City stopped Seattle with a shutout, 10-0, and (hear say) Pidcoke beat Oglesby.

In the Turnersville-VFW game,

Jack Barton got 3 strikeouts, and Jader Barton winning pitcher got 4, Jader made a wild pitch and hit two batters. Johnson in one inning got 1' strikeout and Watts racked up 7, being relieved again in the 8th by Johnson, and then in turn relieved Johnson in the 9th. Balch hit a 2 baser to

start arally for Turnersville offer VFW had them tied in the 4th, VFW came back and ran in the winning runs, and the locals were never able to catch them. Bad throwing, continues to be the worst killer of baseball wins, and slow games are still evident.

Richter for Coryell City, got a shutout, with Mattiza receiving. Heres the box:

Coryell City	10	11	2
Seattle	0	6	3

Batteries for Seattle were Lee pitching, and Tuffy, receiving.

First Diesel Train Here Friday A. M. Replaces 3 "Steamers"

Gatesville's now on the "diesel line". Friday morning, without any fanfare (and what a publicity stunt the Cotton Belt missed) the first diesel locomotive came into Gatesville.

In defense of M. V. Aven, local agent, he said he didn't even know the oil burner was coming in until 5 o'clock Thursday.

He also said this particular piece of machinery replaces three steam locomotives, and makes the run here, one, Waco to McGregor, and one other.
