Here's more things to think about: "Location of Fata! Home Accidents", title of graph, based on National Safety Council tabulations of accidents in specific locations. This, an AP feature, shows where they are located in the home.

37% in the bed room, 17% in the yard, 17% on stairways, 15% in the kitchen, 5% in the bath room, and 9% in the living room. According to that, your longevity depends on how much time you spend in the bath room. By gosh, plumbers ought to sell a lot of bath tubs on the strength of these figures. Not so good for the furniture people, tho.

Something else. We're extending too much courtesy to out-of-town tradesmen. Or, have we said that before?

You can't double park without a "move-on" signal. But, with these tradesmen, then can stop up the alleys, but, preferably, double park in the business section, and if you want to get out, that's your hard luck.

They go in and clear off the magazine racks, change the ice cream containers, change the milk bottles, stak up their bread, pies, pastries and cakes, get your dirty laundry, sell you auto parts, and a thousand and one other so-called services, and if you want to get your car out, you can ust "cool your heels" and wait.

None of them are spending a "soo" with anybody we know of in town, but they pack off a lot of money in trucks gassed elsewhere, eat elsewhere, live elsewhere, and spend nothing, not even advertising with Coryell County newspapers, but, they really RATE here.

Don't see why it's so, but it is. Used to be a rule in some towns, the tradesmen could work the trade before 9 a. m., and had to scam or park their vehicles after that. It could be done here many times, there IS parking space (like the rest of us have to have) but they of "special privilege out-of-towners" won't use it.

We think there's a remedy!

The Texas Poll The Statewide Survey of Public Opinion

By JOE BELDEN,
Director, The Texas Poll

AUSTIN, Texas, Sept. 25.—Public demand for price control is back at a peak level in Texas.

A 56-percent majority, same as last January, thinks it is a good idea to give the President power to put ceilings on food prices. This demand is floating on public fear that living costs will continue to rise while family incomes remain fixed.

THERE IS ALWAYS DANGER

710 Main - Ph. 127

The Texas Poll has surveyed public opinion on price control five times this year. In January, 56 per cent favored food price ceilings. Then in February came the break in the commodities market. Some of the public was led to believe inflation had been halted. By March, demand for price control had dropped 11 points.

But as the commodities market steadied, and the cost of living resumed its climb, demand for price control increased.

Here is the record of The Texas Poll's measurements, showing percentages of the adult population voting for food price ceilings:

January	56%
March	45
May	54
July	53
TODAY	56

The climate of opinion that supports price control is charged with fear of inflation. This is shown by the results of several surveys by The Texas Poll.

Note in the table below that only in March was there much hope that the cost of living would decline and only then did the demand for price control drop.

"Six months from now, do you think the cost of living will be higher, lower, or about the same as now?"

**TEEN
TALK:**

Eye-glasses can make a plain Jane look very dramatic. Of course this doesn't mean that a girl with perfect eyesight should wear glasses just to improve her looks. However, if she must wear glasses, how wonderful it is that she can find some that will even flatter her.

Before you purchase eyeglass frames, try on various shapes. It is best to take a friend along so that she can give you an honest opinion. After the frames are selected, pick your color. Tortoise-shell type frames seem to be the most practical as they will go with everything. Gay glasses in brilliant red, blue, or green frames may be impractical unless you have several pair of glasses.

Hollywood wonders whether the bobby-soxer is a thing of the past. At one studio where they were all set to make a picture about a bobby-soxer, a studio fashion scout set out to observe a teenager so that the picture's star could be put on the beam. In the script the girl was described as wearing sloppy-joe sweaters, wool skirts and bobby-sox.

What happened?

The fashion scout prowled casually by North Hollywood High School and says "there was hardly a bobby-soxer to be seen. The girls all look so grown up I'm frightened that maybe now there will be no teen-age group at all—we'll just jump from childhood to adulthood in one bounce."

So now the studio's dilemma is this: Most people still think teenagers wear bobby-sox, they'll complain if they don't wear 'em in the picture. On the other hand the high school set will resent bobby-sox being worn when they are old hat.

If bobby-sox are out in the West, that isn't necessarily so of the East. Girls at the Mahopac High School in New York are wearing Pom Pom Sox. The Pom Pom on the ankle of the sox matches their class colors and this is a fad, say the girls, that definitely will catch.

Style Awhie.....Fall dresses are all set at twelve inches, coat and suit lengths at eleven and twelve inches, say fashion experts. They should stay that way and on into the winter so you won't have to worry about lengthening your dress hems for a long time.

Start with a good foundation. Matching girdle and bra sets in maize, blue, black, some with lace trimmings, bows, hearts, fans and flower appliques make a hit with fastidious teen-agers.

When buying girdles remember to buy them high enough to control waist flesh, long enough to keep hips and legs flesh in line and so that boning doesn't conflict with hipbones.

Do Profits Rook You?

Profit is a word that folks must utter today only in whispers. In fact, it is a nasty word, the way most people use it. And this is a pity. Actually, the word has in it a great measure of progress and once meant the results of that which was "proficient," or usefully productive. But folks today have twisted their ideas on profit around so that the word indicates to them the ability of business to take advantage of somebody, especially the worker.

Our economic processes are interesting and exciting when you understand them. Without properly understanding the ways of money, trade, and commerce, an unthinking person can become a dupe for every ISM that Dr. Utopia has to offer. It is amazing to me that I find young people and a few old ones, too, so taken in by glamorous ideas that have no basis in fact. Some of these folks dream that profit is loot. They look at profit as lacking in morals and as the worst kind of sin.

Work and Progress

The thing that is directly responsible for human progress and human welfare is work. Work is human energy. Without work, and without the pay that people get for their human energy, progress would be at a standstill. But, there is something else. The tools, the factories, the land, the buildings—all the things men use in drawing upon their human energy—these things are simply human energy stored up for use.

Workers Like Profit

Payrolls and profits: these two items are vital to the well-run business enterprise. Nearly everybody understands already how important payrolls are to the welfare of our economic community. But not nearly so many people understand that profits also are necessary. In fact, it would be impossible to have good wages without correspondingly high profits. Then, a worker whose company makes a profit is well-blessed indeed.

Why is that so? Only a business that makes healthy profits can offer steady, good-paying jobs to the community. Only a company that makes sufficient profit can buy modern tools and replace worn-out ones. What worker does not like to operate good machinery? Only a business that makes good profits can afford to plan and to expand its facilities. In other words, all workers who think right about it would want an employer to make good profits.

How to Prosper

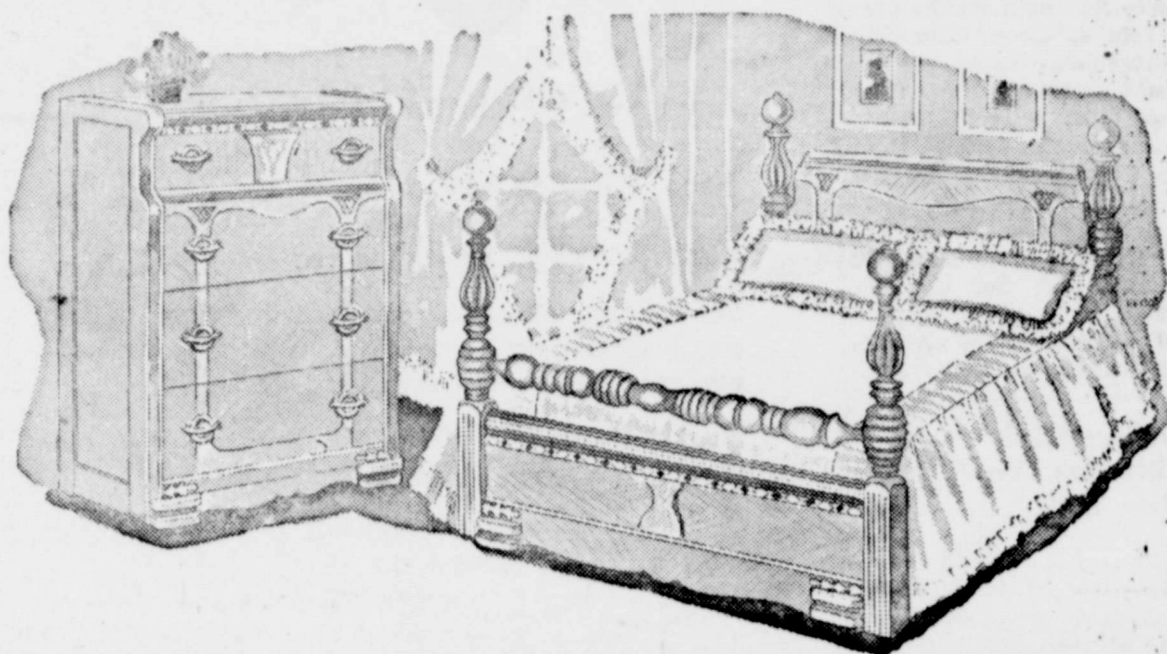

Many workers think that wages are paid out of profits. This is not so. Money for the work comes right out of sales and goes directly to payrolls, just as money for profit comes out of sales and goes for the use of tools and the replacement of tools. When profit is high, the chances are that wages will be good. This is nearly always true unless taxes come in and take too large a chunk, or unless the company is so much in debt that profits cannot be used for new tools.

If I were an employee of a company or working in an industry, I would be very much concerned that my employer makes a profit. I would do all I could to make a profit for him. Knowing that my chances of having a good job and of growing with the company would depend upon the success of the whole enterprise, I would work hard to keep my employer "out of the red." Then I would know that my efforts really are building a greater America.

Copperas Cove Stops Oglesby In 6-Man Opener, 53-0

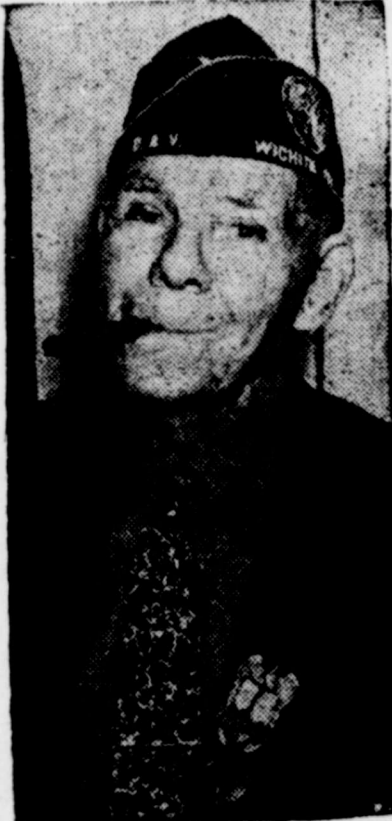

Playing under the lights at the new field built by Copperas Cove Lions Club, in the first game of 6-man football in Coryell County, the Copperas Cove club banged out a 53-0 victory over Oglesby High School.

Starring for the locals were Stanley Gribble who garnered 22 points, E. O. Montgomery, 18, and Edward Urbantke, 13, which counted for the 8 goal stripe sorties for the evening, with none for the visitors.

Mr. W. R. Goodson, coach of the Copperas Cove club, says no record was made of the first downs. We have no card from the Oglesby coach, so know nothing of their side of the story.

Mike Brazier of Baylor visited his parents, Mr. and Mrs. Burt Davis over the week end.

**Ethel Dean Dyer is
Bride of Charles L. Straw
In Rites September 17**

Miss Ethel Dean Dyer, daughter of Mr. and Mrs. Fred Dyer, Sr. of Slater, Texas, became the bride of Charles Lee Straw, son of Mr. and Mrs. Lee C. Straw, 1807 E. Bridge Street, Gatesville, Friday, September 17, 1948.

Dr. Clarence A. Morton of the First Baptist Church, Gatesville,

performed the single ring ceremony which was held in the home of the bride's sister, Mr. and Mrs. Jack Wicker, Pearl Star Route.

The traditional custom of something old, something new, something borrowed, and something blue, was carried out. For something old the bride wore her mother's watch; a strand of pearls for something new; and for something borrowed and true, she carried a lace handkerchief belonging to her grand-mother.

The bride chose a gray street length dress with brown accessories, an orchid corsage, as her wedding costume.

Only attendants of the couple were Mr. and Mrs. Jack Wicker. Miss Dyer was a graduate of Gatesville High School, and also a student of Clifton Junior College. At the time of her marriage she was employed as secretary of Resident Engineers, of South Camp Hood, Texas.

Mr. Straw also was graduated from Gatesville High School, he is now employed with Mitchell's Radiator Shop of this city.

After a short wedding trip, Mr. and Mrs. Straw are at home at 1304 East Waco Street, Gatesville.

Tuesday, September 21, 1948, at the home of Mrs. Bill Ford, of Slater, approximately fifty guests gathered for a shower honoring Mr. and Mrs. Charles Lee Straw, Mrs. Ford being the hostess.

The menu for the evening consisted of ice cream and cake.

Miss Mary Martin, sister of the hostess, registered the guests in the brides' book.

Mr. and Mrs. Straw received many beautiful and useful gifts which were opened for inspection in the living room of Mrs. Ford's home.

September 26—October 2

Ten years ago this week, a new term for political appeasement and defeat was born..... "Munich." On September 29-30, the Munich Pact was signed by Hitler, Mussolini, Chamberlain and Daladier. As a result of this Czechoslovakia was forced to give up part of its territory to Germany. The Munich Pact was one of the tragic blunders which led up to World War II. "Another Munich" became the phrase for other attempts to appease aggressor nations.

BONES

Well, for the benefit of the local fans who like to travel to their games, the Gatesville Bees travel to Lorna Thursday night, and it will be their fourth game of the season. They've picked off some tough ones and are yet to be on the winning side.

Also, the Junior High Hornets travel to West next Thursday nite for their first game of this season. Haven't the starting lineups of either club, but one backfield man in this contest will be Gordon Jones, and maybe James Guimon.

Had the pleasure of seeing Baylor stomp everything out of Tulsa Saturday night. Tulsa had the best aerial attack I've seen in the first quarter, but that didn't help 'em in the rest of the game. Final score, Bay'or 42, Tulsa 19.

ALL ELEVEN AND MORE SHOW IMPROVEMENT OVER PREVIOUS GAMES

"Soetmning has been added", and the 1948 Gatesville High School Hornets (not yet a machine) at least, looks better. That one didn't count, however.

Mart is next, and does! The Hornets in Friday's exposure, managed to rack up three touchdowns, without too much trouble against a fighting Lampasas Badger club, which had previously played Killeen's Kangaroo's to a 7-7 tie, which shows the Hornets have not improved so vastly, even tho, it is possible, the Badgers did a little improving on their own. Thomas, the star Back for the visitors went out early in the game, which probably had something to do with the night's play. He wasn't bad. According to our count, the Hornets wracked up 11 1sts to the Badgers 4.

It happened this way (the scoring plays): Looked like the Hornets were going to have trouble on the ground, but they managed to make two first downs, putting the ball on the Badger 34, after a series of plays, then Davidson flipped one to "Burr" Roberts who gathered it in on the 22 and continued to the 17. Painter then takes, and with good blocking, goes over standing, and Daniels fumbles at line, dropping the extra. That was in the first period.

In the second quarter, the Hornets had the Badgers backed up to the 2 yard line, when they couldn't penetrate the Badger defense from that mark, and the ball went over. Hammitt kicked from back of his goal to Davidson on the 45, and Davidson is tagged on the 31 by Barry Roberts, the scoring ace of the evening, on a reverse carried it over, being heeled just as he crossed the line. It was a beautiful, shifty run, and Daniels fails on a plunge for the extra.

And, in the third, shortly after the start, Hammiee kicked over goal from the 50, and Hornets take over from that point. Daniels passes to Roberts, he's boxed, pitches to Collins, and he's stopped on Badger 48. Davidson then completed to Roberts on the 30, and he is overhauled on the 14. Daniels at left goes to 5 for 1st d., and on next trip, puts it over. Neumann substituting for Daniels fails to add extra, and that ended the Hornet and Badger scoring for the evening.

For the evening, the Badgers hardly threatened, and when they did, it was mostly on Hornet misques. They were outweighed, but not out fought, and displayed a lot of courage, even in losing one of their star backfield men.

Bristol and Hammitt starred in the backfield, with the latter doing the most work. Payne, Co-Capt. McMillan, Alderson and Vann turned in good line games, as did Co-Capt. Rush.

In the GHS show, call the names in the backfield, and in checking over the tackling, Dickie, Brookshire, Cook, W. Meeks, Anderson, Meeks, Franks, Collins, Walker, Baize, showed up, and in the blocking, they were good, at times. Roberts in pass snatching, made 'em look difficult, but he

got Herschel Jones' little boy locally. We're glad to have 'em, but something's got to be done with that press box, which boasted 3 seats left, and no elbow room, or "spotter space" for the Public Address system. What if the two local newspapers had needed statisticians, spotters, and what if KCLW-Gatesville had been operating?

Heard something about the Radio-Newspaper feud at the Texas Coaching School at Abilene. Tell me they'll "radio" pay, \$25 to \$200 a game to broadcast games. Maybe, with that, they could build a press box for 'em.

Price and Crowd Travel To Meridian to be Defeated By Score of 20-0

First Quarter

Meridian kicks to Gv. Rauschenberg takes the ball on the first play and plows his way through center for about 8 yards. Blanchard is forced to kick after a few p'ays. Meridian's ball. Meridian then tries a few plays and then a tricky back lateral works and they make first. After a few plays the ball goes over to Gatesville. Then Price connects for a pass from Walker. They picked up about 13 yards on that play. A few more plays and an incomplete pass, and Blanchard is forced to punt while running. Meridian's ball. Perry skirts around right end for a good 11 yards. Weehunt passes to Perry for about 8 yards. Weehunt is forced to punt after a few plays. It is too near the goal to try any plays so Blanchard punts. Meridian takes the ball over and Perry slips around right end for a good 6 yards. Then McKinney picked up about 8 yards around left end. Then a backward lateral clicks and they are 1 yard from the goal.

Second Quarter

Weehunt then does the honor of carrying the ball over the line. They make the extra point. Score 7-0. Meridian kicks to Gatesville, Holt takes it and zigzags his way up to the 38 yard line. Then a few ground plays that do not go off just right and Blanchard gets off a bad punt. Meridian takes the ball. Perry goes around right end for about 8 yards. He is downed by Walker. Then a penalty is declared against Gatesville for being offside. Gallaway of Gv. drops McKinney 10 yards behind the line of scrimmage. Weehunt gets off a good punt. Wolf takes the ball and brings it up to the 28. An incomplete pass and a few ground plays gives the ball to Meridian. Hall snaps the ball and Wolf gets him on line of scrimmage. Gv's ball. Hall intercepts a pass and runs for about 13 yards. Weehunt to Perry for about 8 yards and that brings up the half. Score 7-0.

Third Quarter

Gatesville kicks to Meridian, Weehunt takes it and runs out of bounds. Meridian throws two incomplete passes and McKinney punts a good one. Wolf gets it and is stopped 5 yards from Meridian goal. Blanchard punts. Meridian tries a few plays. Ball goes over to Gatesville. Wolf intercepts a Meridian pass and Blanchard is forced to punt after a few plays. Hall takes it and runs to the 28. An end run by Perry picks up about 7 yds. Weehunt runs over right guard

has a hard time running without stumbling.

The Hornets were penalized 5 times, 5 yards each, and the Badgers lost 25 yards on 3 penalties, and we might have missed some of both.

Former Coach Earl Worley, Bill Boyd, Bay'or and Koleski of West were the officials.

Gatesville	pos	Lampasas

72 Painter	B	Turner 17
77 Roberts	B	Bristol 20
85 Daniels	B	Thomas 30

Now, that's not sour grapes, or our original idea. Three times, at three of Gatesville's most important games, have we been squeezed out of the press box for "visiting celebrities". We like the "celebrities" but they ought to be provided for.

Maybe, for 6 to 15 writers, technicians, spotters, announcers, play-by-players, more than one 75-watt light globe could be provided?

Thing is, newspapers give publicity before and after; radio, only during, and, might, keep down gate receipts—who knows?

MUSTANG PASS

Doak Walker, SMU halfback, goes into the air himself as he tosses a pass (arrow) to Paul Page
