

"Old Santa And His Reindeers" To Be Here Monday At 4

Yesterday was THE day at the Dam!

A few went down, including the Chamber of Commerce financed GHS Band, and, bein' our busy day, we just don't know who else.

Maybe, we're all wet, but the dam is supposed to be for the farmers, but, at least, from this direction, we didn't notice any what you might call "farm migration" that way.

If that \$1,005,000 was scattered up and down the Leon River Valley (which of course, it won't) SCSing these farms we don't believe there'd be any reason on the Lord's green earth, (not now, when there's no rain) for a dam, that is, unless those in charge of these projects, and pushing them, are after another segment of "business in general", and more particularly, the utilities!

In raw nature, the only dams we ever heard of are beaver's dams, and they only use them to live in, and rear their young. The Creator, or, if you're an infidel, nature has NEVER built a dam, so, it's not "natural". Nature has thrown up mountains, but it never did dam nothing.

But they're still going to have this dam, and t'heck with anybody agin it O. K. We hope the GHS Band plays a Funeral Dirge to those hundreds or thousands of Coryell County Acres that's going to be covered up by this malignant cancer; this battle between government and utilities.

Would say something about poisoning dogs, but it might be a dare for somebody to come back. They got one of ours, but we guess the poisoners are sorry—we still have 5 kids left—and one dog. Bunk Hasty lost his means of locomotion, his mule, by rat poisoning, too. We're for poisoning the rats, but please, oh, please, you low down so and so, leave our mules, dogs and kids alone.

There's another thing the City has heard about recently. That is speed. One vehicle was clocked going toward the bridge Thursday makin' 60—a lady clocked it with her own speedometer, and offered to pay her speeding fine, too.

She didn't mind vehicles of somekind making this speed, but these special kinds—you know. A truck blew up in West Texas recently, and they don't know yet, how many there were in the cab. Some of our transient vehicles might do the same, and might burn up some homes, people, and, you old dog poisoner, some dogs, too.

Ain't going to be healthy in these parts if this dog poisoner is found—CCN—

CUB SCOUTS MEET AT SCOUT HOUSE SATURDAY: PLAN GIFTS

Cub Scouts are called to meet at the Scout House in Raby Park at 1 p. m. Saturday.

Mrs. Don Saunders and Albert Dickie will show them how to make Christmas Gifts for their mothers, and others.

CHRISTMAS SEASON, THO OPE NOW, BUT TO BOOM FOR NEXT ELEVEN DAYS

Old Santa Claus has been a very busy, busy man. He's trying to see all the boys and girls, and he's a bit late getting around to Coryell County boys and girls, but he'll be here MONDAY AT 4!

Every boy and girl in Coryell County is urged to be in town on that day to greet the man with the long white whiskers, and see his reindeer and sleigh—they'll all be here.

Altho not yet worked out, there may be a parade of floats, and then Gatesville High School Band will add to the festive spirit.

It's a time of year—the time for happiness, and expectation for all the youngsters of the county and elsewhere, and there'll literally be thousands here Monday to see and greet the Children's friend.

And, don't forget, he'll be giving candy, and other things that please when he comes down good old Main St., makes the "square" and possibly Leon St.

Gatesville, always the good host to Coryell County and its environs wants every citizen here for the event, and then we can take care of others from Lampasas, Bell, McLennan, Bocque, and Mills counties.

Yes, it's Merry Christmas time for everybody, in GATESVILLE!

Over 700 Already X-Rayed By Health Mobile Unit Here

Over seven hundred Coryell County citizens have walked up to the X-ray machine at Miller Motor Company in Gatesville, and had an X-ray made of their chest.

The search is to locate TB bugs that you might or might not know you have, and EVERYBODY should take a second to get this done.

Anybody over 15 can go down, and there's no undressing, no fuss or bother, and it's for your good and you're footing the bill anyway

The local boys and girls basketball teams traveled to earl last Tuesday night. The Hornettes

had the Pearl girls outclassed, so they won the game by a margin of 39-16. Lengerfeld was high point again.

The Hornets put up a good fight before finally bowing to the Pearl Dragons in a hustle and tussel basket ball game. They played a good offensive game and a poor defensive game. Charles "Burr" Roberts was high point for Gatesville. The local boys did a good job, although this was their first game of the season. These two games were only practice games to get them in shape for the big tournament.

In Christmas Party**

Mrs. Nell Robinson entertained members of the Coryell County Home Demonstration Council in her home in Gatesville, Saturday afternoon.

Mrs. G. M. Rowe, Council entertainment chairman, and Mrs. Robinson, County H. D. Agent, met the ladies at the door, and pinned pictures of different objects on the backs of each. Powell gave a report on her work with the Red Cross in holding open house and bringing gifts and entertainment for patients at the Veterans Hospital in Waco. After Mrs. Powell's report on her work the ladies engaged in gift wrapping. There were fifty four gifts brought for the veterans.

Mrs. A. D. Gartman, Council President, reported that her Club, The Arnett Group, made \$80 at a turkey banquet held on November 27th.

Mrs. Robinson announced the Texas Home Demonstration Meeting to be held in Eastland on April 27, 28.

Only the Beginning

Some of the people supporting proposed "federal aid" to education bills admit frankly that these represent only a beginning. Once the principle has been adopted, they say, increasing amounts could be expected. Those acquainted with the way federal projects grow and grow and grow, would naturally expect this to happen. Within a decade the federal government would be carrying the chief burden of public education.

Is this bad? Just to suggest the idea is to show the danger. Decisions of policy for public education would be made on the national level. After such nationalization of the public schools, it would be easy to obtain legislation requiring all students to attend public schools for "national indoctrination" purposes. This is exactly the type of thing we decry in Russia. These were the methods that made millions of school children just like Hitler and Mussolini wanted them.

How to Control

To favor federal aid is to argue for the exchange of our present public school system, with locally controlled public schools operating alongside many private and church related schools, for a nationally financed and nationally controlled educational system. No two ways about it, federal aid would mean undesirable federal controls.

Controls do go along with financial assistance, and our federal government has no record to the contrary. In fact, the Supreme Court of the United States has already declared, in the case of farm subsidies, that the federal government may control that which it subsidizes.

Political Spoils

When we recall powerful influences within our own generation to get political influence into nearly every American institution, it doesn't take much imagination to see federal control of the American school system following any general aid program. We can all remember when, at election time, WPA workers were told: "Remember who your friends are" when you vote.

Dependence upon Washington sets up a political system, super-deluxe model. I would look upon the nationalization of American education, which could be expected to follow federal aid bills, as a decisive step in the development of a totalitarian state. Should America nationalize her education, it is my conviction that full nationalization of industry, distribution, and agriculture would follow within a generation.

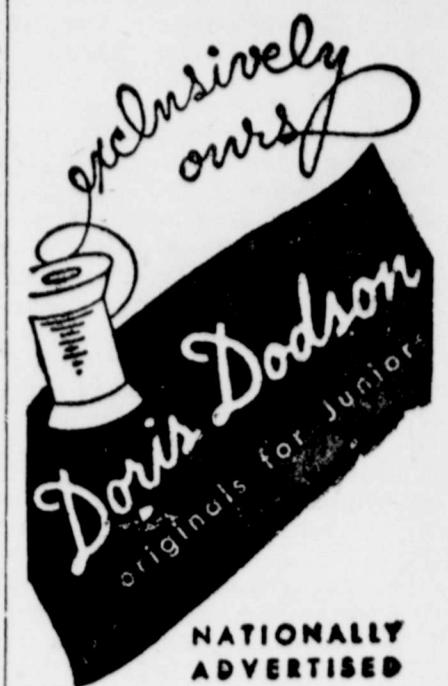

Let's Keep Freedom

We must remember that the one nation in the recent war which was able to arm itself against the axis powers was not a socialized state. The one nation that was able to lend arms to its allies was not a socialized state. The one country now being called upon to help all the rest of the world is not a socialized nation. The one nation now providing the greatest educational system the world has ever seen is America.

I am not one of those who believe that in order to remain great we must discard suddenly the methods and principles by which we became great. Two years after England started nationalizing her industries she was forced to vote power to the government to tell her citizens where to work and what to do! We want none of this. But, if we nationalize education through so-called federal aid, we will get all of these ills and more!

DECEMBER 5 TO
DECEMBER 11

A distinguished but unhappy man died 52 yrs ago this week on Dec. 10, 1896. His name—Alfred Nobel. Nobel, a Swedish scientist, developed dynamite, blasting gelatin and several types of smokeless powder. His inventions brought him great wealth but also ill-health, for the use of his works for purposes of death and destruction, sickened him. In his will, he left about \$10 million to provide 5 annual prizes for the most outstanding scientists and persons contributing most to world peace.

Farm News
By
County Agent
W. P. GRAHAM

Dry weaner is getting to be more serious every day. Farmers and ranchmen are going to have to do more than put green glasses on their cattle. Alfalfa hay and cotton seed cake should be fed to breeding livestock to avoid stiffness and probable more serious troubles. Even a good rain at this stage would do little to supply protein in permanent pastures. Temporary grain pastures might develop by January.

Feeding Cattle

here are many small bunches of calves on feed throughout the county. Most of the feeding is of the 75-90 day type, getting calves from 400 lbs. to 550 lbs. or 600 lbs. All the indications are for a scarcity of fed cattle by January 1st. Cattle numbers have been gradually decreasing. Dry weather has sent too many undeveloped animals to slaughter. There has been a lack of replacement in breeding herds with its consequent effect in catt'e production. There was not enough turkey for Thanksgiving

and Christmas. Good rains would stop the exodus of cattle from the ranches and create an over night shortage of beef unless the polling in this turned out like the presidential poll.

Creep Feeding Calves

At this point I would like to plug one for creep feeding calves. My experience has proved it a paying proposition. At a 400 lb. calf uncreep fed on the scales beside one that has been creep fed since June 15, and compare their weights and selling prices and figure the cost of creep feed.

Don't forget all the other little boys and girls.

Gatesville Hornets Travel To Pearl Monday Night

It was a tight game from the time the game started til the last whistle blew.

The Pearl Dragons had a fast breaking team, and were very good on the long shots.

The local boys played them a good game although this was their first game of the season.

At the end of the first quarter Pearl held a 6-5 margin over the Hornets; Pearl held their one point margin over Gatesville in the

second quarter, making the half-time score 14-13. Gatesville held a two points lead the end of the third quarter, making the count 27-25. Gatesville hot rods played them a fairly even game in the last quarter but when the final whistle blew the score was 38-35 with Gatesville traveling behind.

Smith was high point man for Pearl with 11 points to his credit, while "Burr" Roberts had chalked up 14 for the locals.

Starters for Pearl were: Corwell, Smith, Bates, Oney, and Lovell.

Starters for Gatesville were: Daniels, Roberts, Anderson, Bradley and Davidson.

New Hearing Device To Be Show Here At L & L Hotel On December 10th.

A revolutionary new hearing development, the Acousticon HEARETTE, will be demonstrated at the L & L Hotel in Gatesville on Dec. 10th from 9:00 A. M. to 1:00 P. M. and other times by appointment.

The demonstration will be in charge of an Acousticon factory trained hearing expert who has a record of wonderful results in fitting difficult cases.

The new Acousticon HEARETTE does or the hard of hearing what reading glasses do for those with defective vision. There is nothing to wear! There is no receiver in the ear! And there are no cords nor extra batteries to carry around!

This instrument is so different that the services of an expert has been secured for the demonstration of the HEARETTE. All the hard of hearing are invited, especially those who have never been able to successfully wear the usual type hearing aid.

A limited number of appointments will be made for private home demonstrations or at other hours than those stated. If you cannot come in to see our Acoustician, telephone him, or write for free booklet.
