This IS National Newspaper Week!

It's our week to 'take a bow' but, we're not taking - YOU our readers, make anything we do possible, so it's a BOW you merit.

You invest your hard earned money in subscribing to THE NEWS (but we admit there are not enough of you) and you go to our advertisers and buy their merchandise (and we hpe you give us mention) and that helps the very good advertisers to know that you DO read our newspaper, and, this chain-reaction maes go. Only this, CAN make us go.

We can get it together, edit it, get the type set, after typing it, put the casting, sawing, routing, make-up, the advertisements, features, columns, classifieds, pictures, etc., in the forms, put the forms on the press, run the pages off, fold them, mail them or deliver them to your yard or to the post office, and then: --

YOU, Mr. and Mrs. Reader, take over. It's on your judgment, likes, dislikes, your pecularities, that make or break us. If you don't like it, sometimes you say so; if you do like it, you say so seldom. We simply 'shoot' blind. We never know. We've carried advertisements trying to get vou to say what you DO or DON'T like, and so far, you've not said.

One thing remains: We think we aree continually 'promoting' for your interest and ours, churchchools, community and town programs, your clubs, societies, socials, personals, community news and we record your births, marriages, graduations, movingins, moving-outs, your grandchildren, great-grandchildren, anniversaries, and lastly, your sad demise. We don't know ANY other BUSINESS that's so much as on HOME-TOWN NEWS-PAPER - THE Coryell County News, and, this is NOT simply a Gatesville newspapeer, it's your County Newspaper. No color-circular, or daily newspaper can acquaintance resulted i romance were married in Greece, are make THAT statement.

YOU and WE go together on the aim you'd want us to have. that's our aim, and, we think, it's ment in your town and county, or in theer, just naturally! all the things that concern us - vour life!

COPPERAS COVE'S EXES HAVE BIG TIME AT HOMECOMING, 1,000

One thousand Copperas Cove High School Exes had a 'big un' Friday night, as the Bulldogs clouted Marble Falls 20-6 to complete the festivities.

They were astounded to find the school had grown since Cove present military boom town of some 9,000 folks.

The CCHS band led off with "Hail, Hail, the Gangs All Here," followed by a precision marching drill.

Homecoming Queen Chester Cowan surprised majorette Barbara Harned, a pretty senior, with the announcement she had been chosen 1960-61 band sweetheart.

Linda Scofield was presented as football sweetheart by Capt. Cecil Newton, while her boy friend, Co-Captain, Billy Ham- sleep near the atreetion of RM mack, stood by and burned 1829 and Hwy. 36, South, skidded through the congratulatory kiss.

Following the game was a homecoming social and dance at the high school.

Cold weather is just around the corner...

Time to check your all-year central air conditioner for winter use

To assure maximum efficiency of operation, All-Electric Heat Pumps should be checked now for winter use. Filters should be inspected and cleaned or replaced if necessary, so that blowers can function properly. Fans and other moving parts should be lubricated as necessary for winter service. A similar check-up is recommended for combination central heating and cooling systems.

Call a qualified serviceman now for a check-up before the first cold Norther hits.

Wooden floors in a home are a mark of distinction and a sign of value. But a wooden floor must be properly maintainel in order to retain its beauty. This is neither difficult nor costly. It does require inspection and care.

Hardwood floors are generally finished to resemble the natural color of the wood. This is accomplished through the use of transparent finishes. There may be arnish, shellac, lacquer or wood sealers. When properly applied quality finishes of these types will provide many years of service. The durability of these finishes can be improved by keeping them waxed. However, wax should be a plied in very thin layers.

A wood floor requires refinishing as soon as any portion of the finish wears thin. Worn spots e more pronounced in areas of heavy usage, such as around clost-were. All wex should be at aroughly removed bemore refinishing floors. Wax can be remored by serul bing with a cloth mo'stener in turpentine or other paint thinners. After the floor dries, re-application of the same the of finish originally used can

Only finishes of the same type or compatible. If one wishes to -home from a varnish to a shalhas or other type finish, the origiand first he removed

Fresh varnish, lacquer or shellae, is difficult to blend with the old coating since a thick laved is built up on the less worn areas. Therefore, one coat is generally applied over the worn area. When it dries, a second coat is added der the entire floor. After repeating maintenance applications, builds up and color differences the thickness of these finishes may become marked. It is then necessary to remove all the old coatings with liquid removers or by sanding. Then a new finish can be applied.

A sealer type floor tinish may be refinished by applying fresh sealer to the worn areas. The excess is then wiped off and the retouched area is buffed with steel wool.

The Glory and the Faith

IQIOR ... ITS LESSONS

FOR MODERN LIVING

What would David, the greatest poet of them all, say today if he looked up into the heavens and saw the vehicles that science has thrown out into space?

Would he be frightened, as we?

No one, of course, will ever know. But the poet in him would even proclaim this wondrous beau ty and majesty and peace that one feels when he stands alone in the night and gazes into infinie space.

This is indedd the work of Gol. This realization alone should be enough to renew our faith and calm our fears.

When you enter God's house on Sunday morning, there, too, you will feel that everlasting peace and security that comes to one only in a holy place.
