

"OLD WHISKERS" CARAVAN TO BE HERE DECEMBER 7: 'OLD BOYS' ATOMIC

Something new has been added to Old Santa Claus, who'll make his maiden trip to this locale Thursday, December 7.

Boys, girls, 9 minutes to 99, mark this date on your calendar.

Santa Claus will roll in here in his Mobile Rocket Ship, and will take all ind sundry for a ride in this post-reindeer vehicle.

Santa, of course, in his red and white costume with black boots, and he'll have candy and goodies for all and every.

Equipped with sound, the Mobile Rocket Ship will play Christmas Music, and Old Santa will greet the little guests as they enter the ship, which will carry 40 to 60 comfortably, and he'll talk to them in his portable microphone. The full day will be used in taking any and all kids riding, and merchants will give free tickets which in turn are traded for reservations to the ship.

Helpers are a pilot to drive, and an attractive hostess to help all the children. Loading will be at the south side of the courthouse and a round trip of the town will be made.

In Candy Cane Land, Santa's Shetland Ponies will be stationed to give the children a free ride.

Come on, Kids, let's have a ball.

Merchants who have made payments on the Xmas program should call at the C-C office for 'ride tickets' to Old Santa Claus' Rocket Ship Ride and the Shetland Ponies.

Inebriated Lady Ignites Mattresses In Jail: Firemen Called Out

An Oklahoma lady enroute to see her husband in and around Killeen, stopped too many times, and was picked up and charged with being drunk. She was put in jail, about 2 a. m. Thanksgiving morning, and at 3 a. m. a fire started. Firemen were called, and Sheriff Winfred Cummings says he's out 3 mattresses. It cost her \$81 for being drunk and resisting arrest.

1 SSB got out and the St. Hyw Patrol got him.

1 DWI was brought over from Copperas Cove, and paid off.

One of the greatest causes of world trouble today is that stupid people are so sure about things—and the intelligent folks are so full of doubts.

NEW HIGHWAY BRIDGE PLANNED OVER LEON RIVER

A new bridge is to be constructed over the Leon River at Jonesboro as part of a modernization project on Highway 36. The section of new highway will start at the Coryell-Hamilton County line in Jonesboro and run 2.8 miles west.

McKenzie Construction Co has been awarded a \$425,967.71 contract for the project by the State Highway Department, and dirt work has already begun.

The new bridge, to be 30 feet wide, will be located several hundred feet north of the existing span. The present bridge, built in the early 1930's, will be torn down

ONL 417, TRAFFIC: FIRES 35; OTHERS 80 TOTAL: 532

The 4-day Thanksgiving Holiday only got 532.

Didn't do as well as we've been doing. It was 442 last year, 51 in fires, 106, others.

Maybe we're getting sense. Incidentally, only one bump-in was the Coryell County count, and we don't have dope on it.

Nice going, Coryell County

Is it time to Renew, Lew?

MUCH ADO ABOUT SOMETHING

This week we want you to share with us a sprightly editorial which appeared in the Harmony (Minnesota) News—courtesy of publisher Illa W. McGentry:

"As if the President didn't have enough things to worry about, the head of some labor union wrote him a letter of protest because the rocking chair in which he finds comfort from his World War II injuries was not union made.

"For once we are on equal footing with a President.

"This beautiful world over which we love to roam wasn't union made either.

"And from what we've read it wasn't created during an eight-hour day, or a 40-hour week.

"How silly can they get?"

And it seems clear from here that this old world of ours was made even more beautiful by con-

tributions from master artisans who never asked for fringe benefits.

It's a historical fact that Michelangelo decorated the magnificent Sistine Chapel without demanding overtime pay.

Also, we understand on excellent authority that Leonardo da Vinci, who painted the world famous Mona Lisa, never paid a lira in union dues.

As for the celebrated Greek statue Venus of Milo, they've yet to discover the name of the chap who sculptured her—but we'll make a standing offer of 100 to I he never carried a union card, either.

LIGHT

A beautifully lighted tree indoors is traditional, but decorative Christmas lighting outdoors says "Merry Christmas" to everyone . . . guests, neighbors, passers-by. Outdoor lighting provides a friendly welcome . . . adds to the spirit of the holidays. Use strands of many colors, or of a single color. Trim sidewalks and windows, as well as evergreen shrubbery. MISS WUNSCH JAMES SCHAUB EXCHANGE NUPTIAL VOWS

Miss Sharon Wunsch became the bride of James Schaub in a double-ring ceremony at 9 a. m. Saturday at the Church of the Visitation in Westphalia, with the Rev. Leonard Buxkamper officiating.

The bride is the daughter of Mr. and Mrs. Rudolph Wunsch of Barclay and the bridegroom is the son of Mr. and Mrs. Fred Schaub of Gatesville.

Given in marriage by her father, the bride wore a floor-length gown of imported Chantilly lace over taffeta and tulle. The scalloped scoop neckline was enhanced with sequins and pearls. Her fingertip veil fell from a delicate headpiece of Chantilly lace trimmed in sequins and pearls. She carried a bouquet of American Beauty roses.

Mrs. Ruth Downes was matron of honor. Bridesmaids were Miss Gladys Jahn, Miss Linda Hensel and Miss Nancy Hensel, cousins of the bride.

They wore magenta bell shaped dresses of velvet and satin. Their headpieces were crowns of velvet with nose-length veils. They carried cascade bouquets of white chrysanthemums.

Kenneth Schaub, brother of the bridegroom, was best man. Groomsmen were Jerry Bob Price, Mike Trewitt and Harlen Wunsch, brother of the bride.

After their wedding trip, the couple will reside at 2529 Live Oak St. in Gatesville where the bridegroom is employed by Gulf States Telephone Co. in Gatesville

YOU CAN SURVIVE ATOMIC ATTACK—6

If Family Is Scattered, Then What?

By Prof. Willard F. Libby

It is night; families are sleeping. It is a weekday, children at school, husband at work, wives at home or shopping.

Secretly, rocket missiles are fired and 30 minutes later they strike.

Of what use then, many people ask, is a family fallout shelter? Some give this doubt as a reason for doing nothing.

But the fact is you have one to several hours to assemble your family, to have your children run home from school, unless you are in the immediate blast area. Neither you nor I can predict whether we will be right under a bomb, and so have relatively little or no chance at all.

If children are in school, should they really run home if the locality has not been severely damaged, or is some distance from the blast?

Home The Only Refuge

My unequivocal answer is YES. Provided you have a fallout shelter at your home. The really shocking fact is that practically no schools in the land have provided fallout shelters. Children have no place else to go but home, or to public shelters. Distraught parents would be wondering whether they were safe.

Many hospitals have done little more than schools about shelters for their patients.

School fallout shelters are urgently needed. School basements, or shelters beneath playgrounds, would offer a haven. Such facilities might be used normally for play, for clubs, for school activities or community activities.

Husbands whose jobs are near enough to their homes could get home also in a majority of circumstances. In big cities, where mass movements would jam up commuting, most men should seek shelter in their factories or offices, or in public shelters. Delays in trying to get home might find them caught in the open. But everyone has to judge for himself.

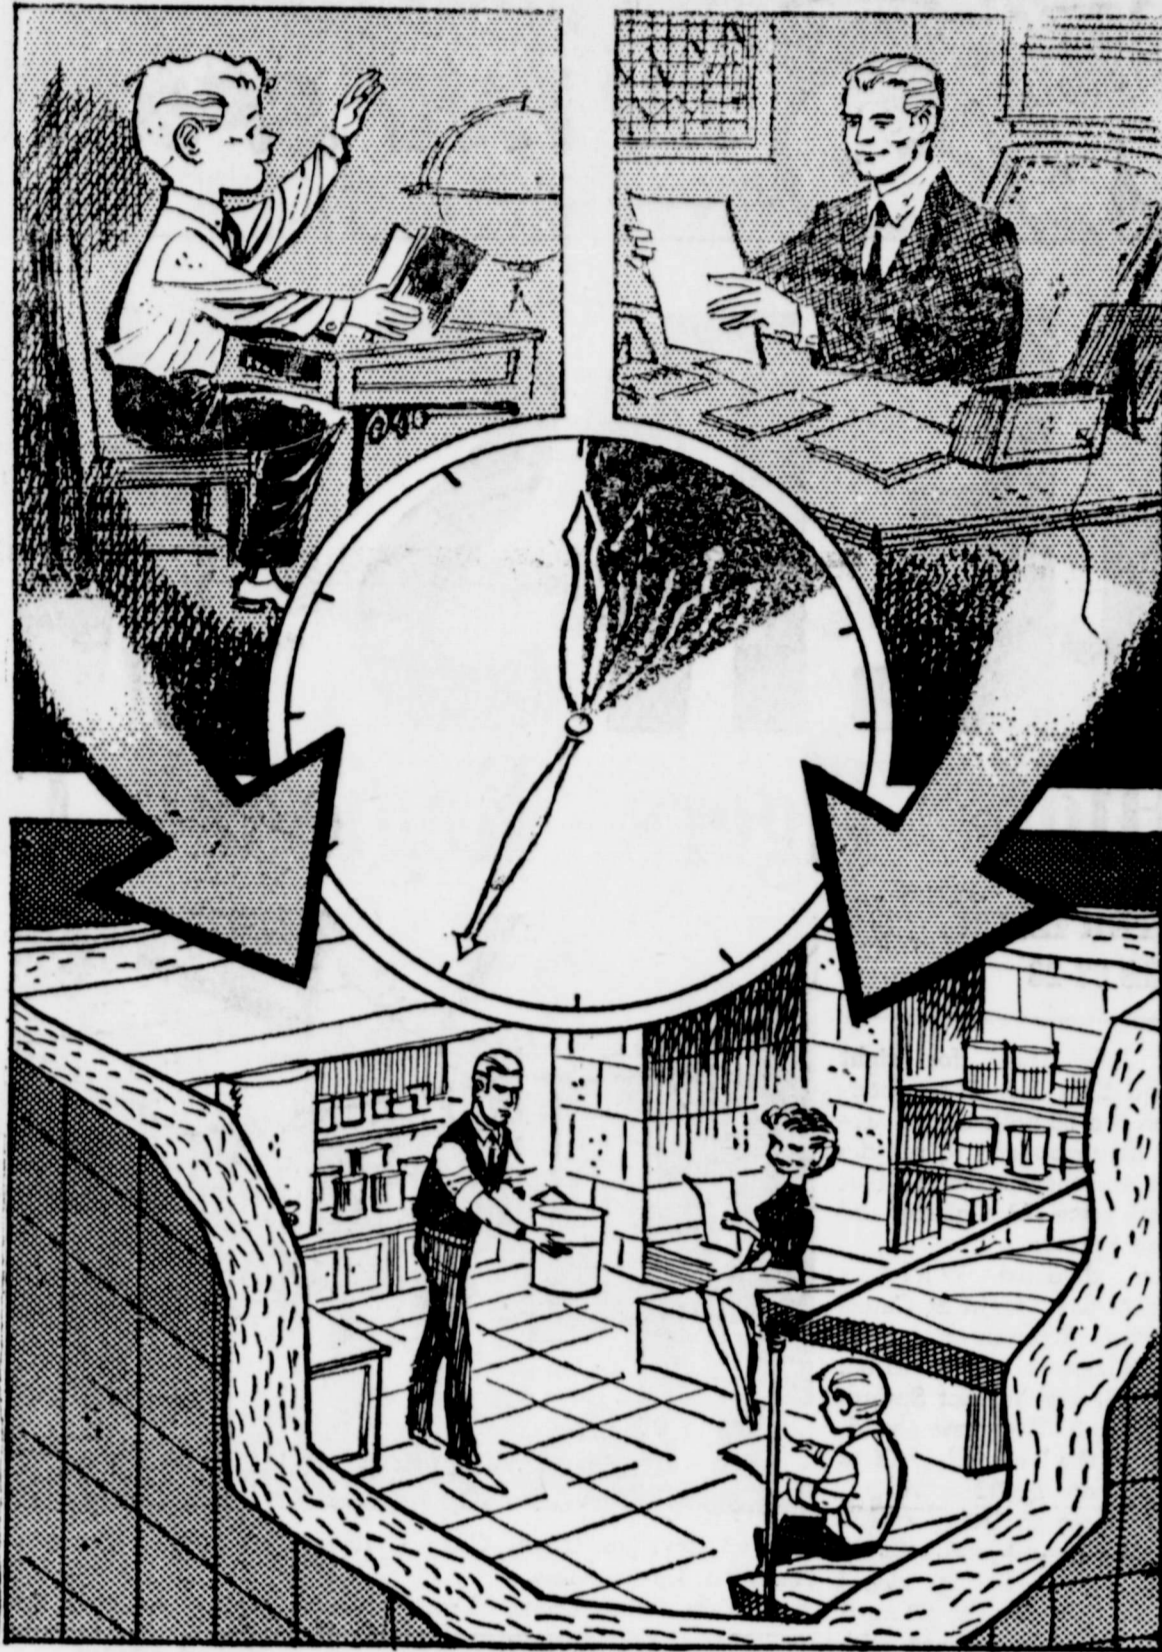

The odds are very strong most of us shall have warning of an impending attack. Memorize the Civil Defense siren signals, which could wake you at night, or give added time by day for reaching or final checking of your shelter preparations.

You Will Have Time

A steady siren tone lasting three to five minutes means an attack is believed imminent, and you should be ready for the blast and heat—early direct radiation effects. Three minutes of warbling sound, or short series of blasts of the siren means attack is due any moment, and you should take over.

Remember, if you are some distance from the center, you have a fair amount of time to think and act intelligently before intensive and dangerous fallout can ever arrive.

You have a greater chance of being on the fringes, with the possibilities of completing preparations, than of being directly

under the center of the explosion. Many or even most of us tend to think— and some with real justification— we are living in prime target areas.

It is an enemy who will be choosing those targets. His errors in aiming, or defensive actions, can put the center of an explosion somewhere else than over your head, no matter how prime a target you consider your city or neighborhood.
