Senior-Junior Divisions

In this year of the mini skirts, shorts, summer breezes, the bald head row is almost, if not obsolete but at GHS Auditorium Saturday, April 29 patrons of the bald-head row will again have their inning.

It's "Miss Gatesville Pageant" time, and with a theme, "We Are Tomorrow" they'll get to see what's making today before tomorrow.

Besides the 8 "Seniors" already publicized, there are 9 "juniors" that are comers in this beauty business and are: Barbara Bennett, daughter of Mr. and Mrs. Allen R. Bennett; Paula Kathleen Bromser, daughter of Mr. and Mrs. Paul E. Bromser; Janice Fay Byrom, daughter of Mr. and Mrs. Ray Byrom; Suzanne Drake, daughter of Mr. and Mrs. Carl Drake; Deborah Jean Dyer, daughter of Mr. and Mrs. Fred Dyer Jr.; Sara Nell Lowrey, daughter of Dr. and Mrs. O. W. Lowrey; Martha Ann Parrish, daughter of Mr. and Mrs. J. B. Parrish; Corliss Ann Worthy, daughter of Mr. and Mrs. Clifford N. This is one of 3,500 similar contests, that climax in the Convention Hall at Atlantic City where the finals of the Miss America Contest is held.

At the local show, pre-contest stars will be "Miss Gatesville 1966", Heidi Skelton Trewitt and Miss Mecca Gann. Carolyn Maxwell will present the crown and trophy to the new Junior Miss Gatesville.

GHS Stage band will furnish the Miss America theme music score, and GHS Choir will add to the entertainment, with a speciality by Bill Rucker, Sue Yows, Heidi Trewitt, Mecca Gann, Carolyn Maxwell and The Rebellions.

Mistress of Ceremonies will be Catherine Williams of Abilene formerly of Gatesville. She has coached several girls into the "Top Ten" at Ft. Worth.

Sigma Rho and Xi Iota Epsilon Chapter of Beta Sigma Phi are pageant hostesses and will serve as chaperones for contestants and will be in charge of backstage activities, and will have a reception immediately following the pageant in GHS Cafeteria, honoring the new Miss Gatesville and the contestants, and the public is cordially invited and to personally meet the girls.

Judges will be G. J. Post Jr., Executive Director, The Miss Texas Pageant Corporation; Walter Echols, Executive Producer, The Miss Texas Pageant, and John Malmay, Executive Publicity Chairman, The Miss Texas Pageant, all of them prominent Ft. Worth businessmen. Mr. Post is manager to Miss Texas and accompanies her and her chaperone Mrs. Pat Vinsant to the Miss America Pageant in Atlantic City.

Now, DST! What else are they (State and Feds) going to tell you?

This time, tell you "when" to go to work—Daylight Saving Time!

They tell us Who you can employ, how long he can work, what you can pay him. We need no head The State and Feds have the "heads" for us. All we need do is do what the State and Feds tell us. That's the way they've got it planned. We even have a County Planning Board via the Extension Service in this and other counties.

This thing Daylight Saving Time was first started during World War I so people could go home and plant a war garden. Now, the USDA pays for not planting. It's just like any other law—once it's on the book, it's never repealed—the 18th Amendment excepted, but local option circumvented that.

Why not Daylight Losing Time? Personally, we'd rather get up an hour later than an hour earlier. We've seen all the sunrises we want to. It used to be the farmer worked from 'can'til can't but even they don't do this anymore.

This "planning" for you and me is not "creeping" up any more—it's rolling in like the tide, and like the tide, it seems nothing will stop it.

Since 1935 we've been having "plans" and each one has curtailed our freedom just a little more and nearly all have created more jobs, departments, bureaus, or what have you.

And, since 1932, we've protested openly (in this newspaper) and elsewhere for this "lost cause" of freedom to the individual, but it's unpopular and seemingly unnecessary, and we're considered just an old "griper" and sourpuss.

So, if this is what you like, bless you, you're getting it more and more, and will continue to get it, more and more.

So may it be!

THE GROWING DEBT

When visionaries insist upon federal spending beyond our tax productive capacity to pay—at some point Mr. and Mrs. America will be pressed to call a halt to the accelerated federal spending, which places our children and their children's children in hock. Rep. H. R. Gross (R-Iowa), in commenting on the annual Economic Report to the Nation, said that the net public and private debt of this country as of January 1, 1967, was one trillion, 368 bil-

lion, 300 million dollars. That's an increase of 98 billion dollars in the twelve months since January 1, 1966, and an increase of 420 billion, 600 million dollars since January, 1961—making us the worst debt-ridden nation in the world. The federal debt alone exceeds that of all other governments in the world combined. Isn't it about time that our legislators, federal, state, county and local, started to flyspeck—and to make sure that for every dollar spent we can be assured of value received?

Time For Texas To Act!

One of the major issues facing the Texas Legislature today is the question of a teacher pay raise. Regardless of Governor Connally's recent recommendation to the Legislature calling for a one-year appropriation, the fact remains unchanged that Texas will face its most critical teaching shortage next fall.

Texas Classroom Teachers Association, representing 45,000 classroom teachers across the state, has gone on record in support of the proposal by Texas State Teachers Association to raise teachers' salaries an average \$775 a year.

Many Texans agree that teaching salaries in Texas are inadequate, but many do not realize the real urgency of the situation. TCTA contends that action on teaching salaries is imperative this session.

If nothing is done now, not only will Texas' recruitment situation deteriorate, but so will the quality of education offered to Texas youth.

Twelve states have teacher salary bills before them at this time, and seven of these states rank below Texas. If Texas does not advance, how long will it be before these states join the 26 others in outranking Texas teachers' salaries?

Texas has now dropped to 33rd in the nation in the ranking of our average classroom teachers' salaries. The national average is now \$6821; Texas' average is \$6025. How far down the scale will we drop before Texas realizes that professionals must be paid professional salaries?

Consider what other occupations and professions offer as starting salaries to attract educated prospects into their fields.

Engineers	\$7994
Accounting	\$6943
General Business	\$6600
Sales	\$6558

Yet what does teaching in Texas offer? \$4104 on the Minimum Foundation Program. Even the average starting salary for a teacher is only \$4600.

In 1965, 40 per cent of the teacher education graduates in Texas failed to enter the teaching profession. This number continues to grow each year. Texas Education Agency's reports show that in Texas 25 per cent of all elementary teachers currently employed have 39 years or more experience—which means that many of these teachers will retire in the next five years and will need to be replaced. Where will these replacements come from unless Texas alleviates its teaching shortage?

We can well afford to spend more money on education in Texas. In total personal income, Texas ranks seventh in the United States, with \$24,761,000 in 1965. In public school enrollment, Texas ranks third. Yet in per capita state and local expenditures for local schools, we rank 22nd. On the amount of money spent per pupil in average daily attendance, we rank 36th.

How is this affecting teacher salaries? We have already stated that Texas ranks 33rd in the average salary paid to classroom teachers. In addition, only 22.4 per cent of the 116,895 teachers employed as instructional staff in Texas are paid more than \$6500—ranking Texas behind 35 other states.

In ten years (1957-67), Texas increased teacher salaries by 54.8 per cent, but 38 other states increased their salaries by larger percentages.

How is this lack of attention to education paying off?

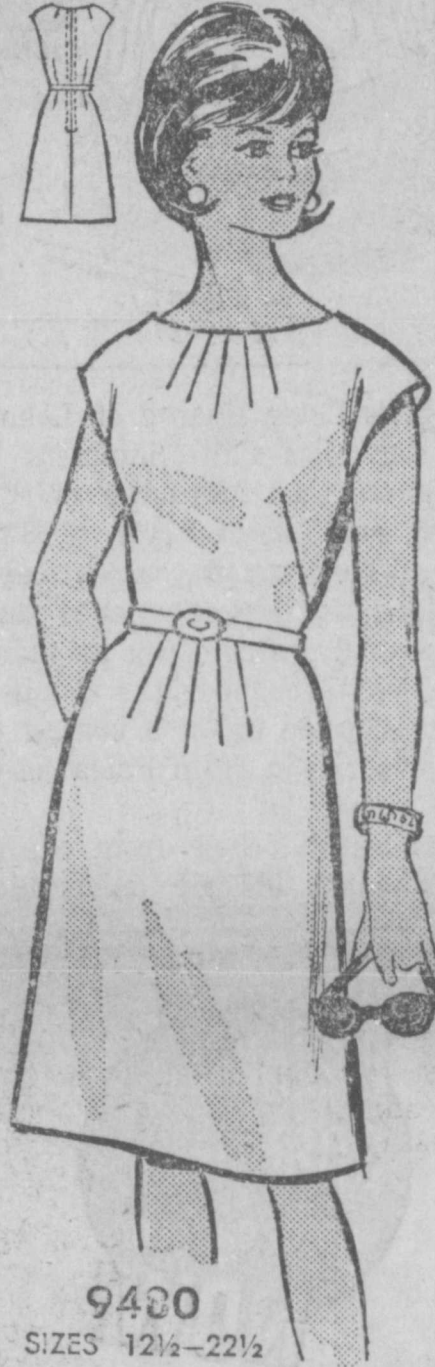

- In overcrowded classrooms—Texas ranks 31st in the nation in teacher load.
- In illiteracy—In 1960, 4.1 per cent of Texas' population older than 14 was illiterate. Only six other states had worse records.
- In drop-outs—In 1960 Texans over 25 had completed on an average of only 10.4 years of school. Non-whites had completed only 8.1 years. Our ranking? 31st.
- In mental incompetence—Texas had 38.6 per cent of its 18-year-olds disqualified for military service for mental reasons between July, 1964 and December, 1965. (Only 9 states had more rejections.) Our ranking? 41st.

Statistics can prove anything, sceptics are fond of saying. But these statistics were not pulled out of thin air by TCTA in a search for substantiating evidence. They were prepared by the National Education Association and published in a national research publication, "Ranking of the States, 1967."

What's more, these statistics prove something specific. They prove that it is long past time for Texans to take a hard, close look at the way they support their schools and the results they are getting.

The time for action is now.

BEE HOUSE NEWS

This finds the folks here making preparations for one of the biggest events of the century, when the A'Capella Choir from Southwestern University of Georgetown will stop in for a visit; Chicken fried supper (Methodist style) then entertain with an hour and a half "Service in Song". The date is Sunday the 30th and time is 6 p. m. (5 o'clock old time) for meal and 7 p. m. (daylight saving time). A most cordial invitation to everyone as this is county-wide Methodist meeting on our regular 5th Sunday.

Only two weeks since the long dry spell was ended with that good refreshing rain. Have had 4.5 inches and Eden Valley has literally come alive. A wonderful country. Our FM road 183 looks like Ladybird would dream about.

From the hills you can see two well lit towers recently erected and in the next few days a geographic survey team will be flying a large weather balloon from a 1400 ft elevation at a 200 ft. altitude. This will be located over on yonder hill south of the highway.

This finds everyone busy almost too busy to even stop and

kill a rattlesnake, and there is an unusual amount of them this year.

A good day to remember is May 4 when the Coryell County Pecan Growers hold a full day in regard to improving the native pecan. Begins at 9 a. m. county courthouse. Drafting and budding both pecans and walnuts here on these rich spring fed creeks hold a great future.

Mr. David Russell moved recently so he could help care for his aging parents. His address is 2321 S. Walnut St. Oklahoma City Okla.

A fine program and Fashion Show by our FHA girls, some 40 strong, was enjoyed Tuesday night in the Evant Gym. These young ladies are still sugar and spice.

An outstanding date to remember is May 7. It's all day singing at Pearl.

The outdoor life. Any indoor man will tell you how great it is. But only an outdoor man can tell you what it does to human skin.

Constant sun dries skin out. Leathers it. Burns it over and over again. And that can be dangerous.

If you are out in the sun a lot (or even if you're not), check into any sore that does not heal. Promptly. It could be a warning signal of cancer. And cancer is easier to cure when it's detected early.

Lorne Greene knows the seven warning signals of cancer. So should you:

1. Unusual bleeding or discharge.
2. A lump or thickening in the breast or elsewhere.
3. A sore that does not heal.
4. Change in bowel or bladder habits.
5. Hoarseness or cough.
6. Indigestion or difficulty in swallowing.
7. Change in a wart or mole.

If a signal lasts longer than two weeks, see your doctor without delay.

It makes sense to know the seven warning signals of cancer.

It makes sense to give to the American Cancer Society

JUVENILE WORK CAMPS BILL SLATED FOR FINAL READING IN TEXAS LEGISLATURE

The House Monday refused to suspend its rules and pass the bill by Rep. Ronald Bridges of Corpus Christi which would allow establishment of forestry or park maintenance camps by boys from Texas Youth Council at Gatesville. That means SSB and MV.

Rep. Bob Salter of Gatesville and others opposed the bill. Salter moved to postpone the bill until May 8, but the House tabled that motion 77-43. The bill probably came up on hrd reading Tuesday.

One amendment would make it strictly permissive for the council and Parks and Wildlife Department, which would have to work with the council in setting up he camps for juvenile delinquents.

The original bill requires the agencies to initiate the program. Another took out the provision that the council could pay the delinquents for their work in the camp, even tho that section was permissive and payment was left up to the council. Most opposition was opposed to it because there is already provision in the law for such camps and no additional legislation is needed. It'd be a good way to rescue some wasted boy-power.
