GATESVILLE MAN IS HOSPITALIZED AFTER SHOOTING

Bobby Don Stubblefield, 26, of Rt. 1, Gatesville, was listed in satisfactory condition at King's Daughters Hospital in Temple late Saturday night after being shot in the shoulder about 6:30 p. m. Saturday.

Stubblefield told Temple police officers that he was shot accidentally with a .22 cal. pistol.

Later Saturday night, Stubblefield's father drove his car to the Temple Police Department and showed officers two bullet holes in the door on the driver's side. The holes appeared to be made by a .30 cal. bullet and a .38-40 Winchester rifle was behind the back seat.

Investigation is being continued by the Bell County Sheriff's Department. Deputy Sheriff Paul Butler is heading the investigation.

FORT HOOD TO CELEBRATE ITS TWENTY-FIFTH ANNIVERSARY SATURDAY

FORT HOOD — Fort Hood, the free world's largest armored training center, will have its 25th anniversary celebration from 9 a. m. to 3 p. m. Saturday in ceremonies open to the public.

The observance will begin in front of post headquarters with the dedication of a monument, in honor of the officers and men who have trained at Fort Hood, by the Central-Texas Fort Hood Chapter of the Association of the United States Army.

Next will be a mounted review at 9:30 a. m. at the North Avenue mounted review area. Some 150 tracked vehicles will pass in review, including both armor and artillery.

Reviewing officers will be Lt. Gen. George R. Mather, III Corps and Fort Hood commander, Col. George R. Dunn, III Corps and Fort Hood Chief of Staff, will be commander of troops.

The 2nd Armored Division will conduct a live-fire demonstration beginning at 11 a. m. The demonstration will be at Sugar Loaf Tank Table V. Transportation will be provided from the mounted review area and from Fort Hood's Prichard Stadium. The demonstration will include a tank heavy Task Force attack with artillery and tactical air support.

Other events include tank rides (in the North Avenue mounted review area from 10:45 a. m. to 3 p. m.; train rides (at the Fort Hood railroad across from Prichard Stadium from 10:45 a. m. to 3 p. m.), and displays at Prichard Stadium.

An added attraction will be performances by the Fort Wolters, Texas, precision flying helicopter team of "Bozo" and "Bingo" at 11 a. m., 1 p. m., and 3 p. m. at Prichard Stadium.

Also scheduled are two skydiving demonstrations, at 11:45 a. m. and again at 2:15 p. m. at Prichard Stadium.

Lt. General A. D. Bruce, Fort Hood's first commander, will be

CORYELL COUNTY PLANS TO ISSUE TIME WARRANTS

Coryell County Commissioners Court has announced intentions of issuing two batches of time warrants in the maximum amounts of \$150,000 each—one to meet the county's share of the cost of modernizing Hwy. 190 near Copperas Cove and the other to finance enlargement and improvement of the Coryell Memorial Hospital plant.

The commissioners have set Oct. 9 as the date to pass formal orders for issuance of the time warrants. The warrants will not be issued, however, until they are needed and then only in the amounts needed. The maximum rate of interest the warrants are to bear is 5 per cent. All are to be retired within ten years.

County Judge Norman Storm said a study by the commissioners court has indicated that the warrants can be paid off without any general tax increase.

He stated the expectation is that the hospital time warrants will be retired with hospital revenue. Planned for the hospital are some additional patient rooms and enlargement of the kitchen along with a possible enlargement of the surgery department.

GHS STUDENTS ELECT '67-68 CLASS OFFICERS

Friday, Sept. 1, the students of each class met to elect officers for the 1967-68 school year. The senior officers elected are as follows: Charles Ivy, president; Donny Brown, vice president; and Bob Gillette, secretary. The junior officers are Larry McCutchen, president; Mike Rogers, vice president; and Kay Spencer, secretary. The sophomore elected Mike Barr for president, Gary Rainer for vice president, and Joy Brookshire for secretary. Chris Bone was elected freshman class president, La Lee vice president and Kay Petsick, secretary.

Generally, class presidents preside over class meetings; the vice presidents take over for the presidents when they are absent, and the secretaries take care of all the written business. However, the officers of each individual class have varying duties. The senior class president, along with his job of presiding at class meetings, is asked to give a speech at the junior-senior banquet and the graduation exercises. The secretary of the senior class becomes the permanent secretary of alumni.

The junior officers actually have more duties than any class in high school. The president is head of the committee for planning the junior-senior banquet and is also master of ceremonies at the banquet. The vice president is in charge of writing the invitations and also helps in decorating committee.

among honored guests during the celebration.

Bus service to and from the various events will be available throughout the day. Visitors may park their cars at one of the designated parking areas to use this free service.

GATESVILLE BOOSTS TAX RATE FOR CITY PROJECTS

Gatesville city council has voted a 10 cent tax rate increase to finance municipal projects that have long been in the proposal stage. The new tax rate is \$1.35 per \$100 valuation.

Additional revenue will all go into the permanent improvement fund, Mayor Wendell Lowrey said, for expenditure on such projects as remodeling the city-owned Chamlee Building in the 800 block of Main Street into quarters for the library and building a new swimming pool.

The mayor said there is a possibility both these projects can be carried out within the next year or two. The library is presently in the city hall. The council hopes to replace the present municipal swimming pool in Raby Park with a more modern one.

This is the second time in the 1960's the city tax rate has gone up. The rate was increased from \$1 to \$1.25 five years ago. Current city tax valuations totals \$7,459,971.

Structure of the new \$1.35 tax rate is: general fund, 25 cents; permanent improvement fund 25 cents; street fund 25 cents; special street fund, 25 cents; public works fund 17 cents; parks and recreation fund, 7 cents; library fund, 6 cents; and cemetery fund, 5 cents.

The council also ordered City Manager Eiland Lovejoy to obtain plans and specifications for a new water well next to the city's million gallon reservoir on Hwy. 84 east of Gatesville. The well will be drilled within the next few months.

Lovejoy said plans call for a well that will produce from 750 to 1,000 gallons of water a minute. He told the council the city's present wells pumped 35,000,000 gallons of water during August.

The sophomore and freshmen class officers have basically the same general duties. Whether the officers do regular or special tasks, however, all of their jobs are important.

What To Do In a Tornado

- People in open country can view the approach of a tornado and move at right angles to its path. If there is no time to escape, lie flat in the nearest depression, such as a ditch or ravine.
- In towns or cities, seek shelter inside, preferably in a substantial building. Stay away from windows.
- The southwest corner of the basement of a frame house is safer than in a brick or stone house. If there is no basement, lie down on the first floor under a table or bed (preferably in the southwest corner).
- Urban schools: Stay inside, away from windows; remain near an inside wall on a lower floor. Avoid auditoriums and gymnasiums.
- Rural schools of frame construction: Teachers should remove children to a ravine or ditch if storm shelter is not available.

OGLESBY SEEKS WATER WORKS BIDS

The City of Oglesby is asking contractors' bids on the construction of a new water and sewer system. Bids will be opened by the city council at 8:30 p. m. Sept. 29 in the Oglesby City Hall.

The project will be financed with a \$220,000 loan secured by Oglesby from the Farmers Home Administration. The systems will serve about 200 residences and business establishments.

Included in the \$220,000 loan is \$25,000 for the purchase of Oglesby's present water system from Frank Lam. Oglesby has no municipal sewer system now.

Plans call for use of only a small portion of the present water system. A new well, 1,200 feet deep, will be drilled and most of the distribution system will be new.

HERE ARE THE HUNDREDS! DO THEY MAKE YOU HOTTER? MANY MORE TO COME

Here are the hundreds as they have appeared on Mrs. Pat Holt's official weather thermometer.

These are enough to burn you but there probably will be many more where these came from.

We'll add to 'em as they show up'

LAMKIN NAMED BAND DIRECTOR

Joe Lamkin, 25, of Waco has been named Gatesville High School new band director. He resigned as an assistant band director at Baylor University to take the Gatesville post.

He succeeds Clive McClelland, who resigned Sept. 1 to become director of the Brownwood Junior High School band.

Lamkin, formerly of Pasadena, has worked in the band departments of the Pasadena, Belton and Stephenville schools. He holds a bachelor's degree in music education from Baylor and is currently working toward a master's degree there. He will continue to live in Waco, commuting to his work in Gatesville.

NO FEDERAL WATCHDOGS NEEDED!

NOT NEEDED

A bill (HR 7114) entitled the "Consumers Act of 1967" is pending in the House Government Operation Committee. It would establish a Department of Consumer Affairs in the Executive Branch headed by Secretary of Consumer Affairs of cabinet rank.

The proposed legislation would transfer to this new department certain consumer functions currently administered by other government departments. It would also create within the department offices on consumer information, a national consumer information foundation, consumer safety and an institute for consumer research.

The new department would be authorized to carry on widespread economic surveys and investigations. In addition it would handle complaints, provide information on consumer products, conduct

annual consumer conferences, and consumer research and safety. Federal agencies are now effectively engaged in 296 consumer protection activities, and there is no reason to create a new Cabinet level department.

Any effort to superimpose new government bureaus and departments seeking to represent American citizens solely as consumers is unnecessary and undesirable. Established departments and agencies of government are fully aware of the interests of consumers and there are sufficient laws on the books to protect them.

Sept. 3, 1898—The first municipal subway was built for street railway transportation in Boston—the Tremont Street Subway.

Sept. 7, 1813—The nickname "Uncle Sam" stems from this day when a writer for the Troy (New York) Post used it as a symbolic reference to the United States.

Sept. 10, 1919—General John J. Pershing, America's World War I military leader, and 25,000 soldiers of the United States First Division were welcomed home by the City of New York in one of the greatest parades and receptions ever tendered by that city.

Sept. 13, 1909—Oskar Straus' operetta The Chocolate Soldier, with its waltz song "My Hero" opened at the Casino Theatre in New York.

Sept. 16, 1630—The village of Shawmut, Massachusetts changed its name to Boston, taking its new name from Boston, England.

Sept. 18 1927—The Columbia Broadcasting System went on the air with a basic network of sixteen stations.

Sept. 21, 1938—A great hurricane swept the Atlantic Coast of New England and New York, leaving at least 450 persons dead in its wake. Many lives were saved as a result of an early warning by the Yankee network weather observatory.

Sept. 25, 1690—The first American newspaper "Publick Occurrences, Both Foreign and Domestic" was published by Benjamin Harris in Boston, Mass.

1966 1967 TEXAS ALMANAC

It's brand new and completely modernized, all facts and figures updated plus many brand new features. The Texas Almanac is the "Encyclopedia of Texas." Contains millions of facts to settle any argument about Texas. Invaluable reference aid to businessmen, teachers, students, salesmen, farmers, etc. Ideal as a gift.

Covers every phase about Texas—economics, politics, geography and history. Full details on each county. Extensive information on manufacturing, livestock, crops, oil, transportation. Has many brand new historical features. If it's about Texas—it's in the 1966-1967 Texas Almanac.

Happiness Is Birthdays

by Betty Crocker

Happiness is the birthday song . . . or blowing out all your candles . . . or when you're young, just being surprised in little ways. So when a birthday rolls around, proclaim it the birthday child's day — "Jane Jones Day" — all day long, and start with tiny presents at the breakfast table. For the birthday cake surprise later in the day, try cupcakes. They're pretty, personal — and practical. Especially baked in no-wash, paper-lined muffin cups. To frost cupcakes quickly, swirl cake tops lightly in a bowl of fluffy-type frosting — and see how they peak. Now for a cupcake recipe that's sure to make your kitchen happiness headquarters, Mom.

VELVET CRUMB CUPCAKES

- 1/3 cups Bisquick
- 3/4 cup sugar
- 3 tablespoons shortening
- 1 egg
- 3/4 cup milk
- 1 teaspoon vanilla

Heat oven to 400°. In large mixer bowl, combine Bisquick, sugar, shortening, egg and 1/4 cup of the milk. Beat 1 minute at medium speed on mixer, scraping sides and bottom of bowl frequently, or beat vigorously by hand. Add remaining milk and vanilla; beat 1/2 minute. Pour into paper baking cups set in muffin cups. Fill 1/2 full. Bake about 15 minutes. Makes 18 medium cupcakes.

Cupcake clue: Use medium-sized ice-cream scoop to put cupcake batter in muffin cups.

Decorating ideas? Almost anything goes. Frost cupcakes and decorate with crushed peppermint candy, animal crackers, gumdrops, chocolate sprinkles or colored sugar. Or try these ideas for children's cupcakes.

Chocolate-Mint Cupcakes: Immediately after removing cupcakes from oven, top each with a chocolate-covered mint patty. When the patty melts, spread lightly for marbled/mint frosting.

Little Clown Cupcakes: Make faces on frosted cupcakes with bits of candied fruit.

Porcupine Cupcakes: Stick peanut halves or slivered almonds into frosted cupcakes.

Serve with the birthday child's favorite ice cream. And all together now, "Happy Birthday to you."

C. F. STOCKBURGER DIES; SERVICES HELD IN MCGREGOR

Charles F. Stockburger of Austin died at 6 p. m. Friday in an Austin hospital. He was 79.

Funeral services were held at 2 p. m. Monday at Lee Funeral Home Chapel in McGregor, Rev. M. E. Fairchild officiated with burial in Post Oak Cemetery at Oglesby.

Mr. Stockburger lived for many years in Oglesby and served as postmaster there from 1915 to 1922. He was bookkeeper at the state schools in Waco and Corsicana and was later with the state labor department and the state railroad commission.

He married May Lively in 1937.

He had lived in Austin for the past 30 years.

Surviving are his wife; one daughter, Mrs. E. M. Foster of Madison, Wis.; two brothers, L. W. Stockburger and J. A. Stockburger, both of Oglesby; one sister, Mrs. Winnie Parker of 2074 Lasker Avenue; and one nephew, Robert Stockburger.

ARTHRITIS-RHEUMATISM

Do claims and double talk make you doubt you can get any relief from arthritic and rheumatic pains? Get 100 STANBACK tablets or 30 STANBACK powders, use as directed. If you do not get relief, return the unused part and your purchase price will be refunded. Stanback Company, Salisbury, N. C.

MAKE SURE YOUR CHILDREN HAVE GRADE "A" STUDY LIGHTING

... make seeing and learning easier

You'll give your school age youngsters a helping hand with homework when you provide them with the best possible study light. There's less chance of eyestrain . . . more chance for productive study. For proper lighting, they'll need a good table lamp with a 150-watt bulb and a diffusing bowl to prevent glare. The lamp should be properly shaded to conceal the light source from the eyes, and tall enough to spread light evenly over the work surface. Check now to make sure your children have grade "A" study lighting . . . the kind that leads to better learning.

Fix An Ice Cream Finale

Here's the scoop on a tri-color ice cream pie created in the Borden Kitchen. Just scoop out generous-size balls of ice cream . . . strawberry, chocolate, and vanilla, roll in coconut, stack in a crunchy chocolate crust, and pop into the freezer until serving time. A word to the wise cook: To prevent melting, cover a jelly roll pan with aluminum foil and place in freezer. As each ball is finished, arrange it in a single layer on the foil-covered pan. When all the balls are scooped, remove from freezer and arrange in the chilled crust.

Triple-Treat Ice Cream Pie (Makes one 9-inch pie)

- 3 (1-ounce) squares unsweetened chocolate
- 3 tablespoons butter
- 3 tablespoons hot milk
- 1 cup sifted confectioners' sugar
- 2-2/3 cups (two 3-1/2 oz. cans) flaked coconut
- 1 pint each Lady Borden strawberry, chocolate, and vanilla ice cream

Line 9-inch pie plate with a piece of aluminum foil large enough to extend about an inch over plate, keeping the foil smooth and even. In top of double boiler over hot, not boiling, water, melt chocolate and butter. Blend well. In a small bowl, combine hot milk and sugar. Stir into melted chocolate and butter. Add only 2-1/4 cups of the coconut. Mix well. With spatula or back of large spoon, press mixture evenly against bottom and sides of foil-lined pie plate. Chill in freezer 25 to 30 minutes, or until firm. Remove from freezer. Lift foil out of pie plate. Carefully peel foil from firm chocolate mixture. Replace shell in pie plate. With a #10 ice cream scoop, quickly make strawberry and chocolate ice cream balls. Roll them in remaining coconut as they are made. Arrange alternate flavors in pie shell. Top with vanilla ice cream balls. Place a piece of aluminum foil loosely over top of pie and return to freezer until serving time.

**ROVING REPORTER
VISITS LIBRARY**

As this reporter was wandering through the library, Janice Simons and Marsha Foote were seen, among other 8th graders, choosing classics to read. Both Janice and Marsha, who are great readers, discovered they had already read some of the books of classical and modern fiction on Mrs. Dessa Lee Carson's English 8 reading list.

A new teacher, Mr. Tommy Harson was also seen pushing a cart loaded with library books about Texas toward his seventh grade classroom that should make history more interesting.

Larry Brazzil and Mike Farrell are sixth grade boys who know exactly which kind of books they want to check out. When they come to the library they go straight to the 700 section for books on football, baseball and other sports.

Success In Summer Entertaining ...

The equation for perfect summer entertaining ADDS convenience foods to handsome electric aluminum appliances, DIVIDES preparation time, SUBTRACTS a smoky grill and messy cleanup chores, and MULTIPLIES the success of a patio party.

Planning and cooking meals for family or company on a sizzling summer day can often make the lady of the house wish she could turn in her working papers.

However, summertime can be the best and simplest time of the year to entertain and cook for a crowd if you head for the great outdoors with a pre-planned menu, several quick and easy frozen foods and a staff of electrical servants to do the hot and bothersome chores for you.

First, plan one simple but elegant or intriguing main dish. Theme it perhaps around a foreign country or a local region specialty for a new twist. Then take advantage of the vast array of frozen foods to complement the meal. A large dash of your imagination will turn them into something a little extra special.

For example, for one company dinner, intrigue your guests with a Chinese flavored menu — it looks picture pretty with all the contrasting colors and textures, and it's speedy to prepare — easy on the hostess.

Our Chinese menu is built around the use of two appliances, a skillet and a griddle. Electric casseroles and saucepans are also ideal for this kind of easy outdoor cooking. All these appliances have thermostatically-controlled heating elements embedded in even-heating aluminum cooking surfaces, to assure cooking and warming at the exact temperatures called for. Non-stick and

non-scratch finishes on new cooking appliances will further reduce your kitchen work load when cleanup time comes.

Plan to serve buffet style in a large shady backyard, patio or porch, choosing a spot close to an electrical outlet, or if that isn't possible, a temporary solution can be rigged up by using heavy-duty rubberized extension cords.

Assemble the ingredients and bring them outdoors for the final cooking period, which is delightfully short. With the electric skillet plugged in and ready to go, the ingredients are added and are cooked quickly and evenly with no hot spots or stick-to-the-pan problems to spoil the tender-crisp perfection that is synonymous with delicate Chinese cuisine.

At the same time, your second electrical helper, the aluminum griddle, is heating egg rolls piping hot. You can stir up a batch of homemade egg rolls on a cool morning and freeze them until party time rolls around or pick up several packages of the frozen variety at your supermarket.

For the finale serve icy cold kumquats and pineapple chunks that have been skewered into a golden pineapple along with crunchy crisp Fortune cookies. Top it off with hot coffee — it's been perking quietly to a perfect brew in an electric coffeemaker while you were relaxing with your guests.

Here are recipes for a Chinese creation for six — add your own bright touches or Oriental specialty if you wish.

SHRIMP-HAM FRIED RICE

- | | |
|---------------------------------------|-----------------------------|
| 4 tablespoons cooking oil | 1/2 teaspoon pepper |
| 2 cups diced onions | 3 eggs, beaten |
| 1/2 cup diced Chinese water chestnuts | 5 cups cooked rice |
| 1 cup diced mushrooms | 1 cup diced cooked shrimp |
| 1/2 cup diced green pepper | 1 cup diced boiled ham |
| 1 teaspoon salt | 4 scallions, finely chopped |
| | 1/4 cup soy sauce |

Heat oil in aluminum electric skillet set at 375° F. Add onions, chestnuts, mushrooms, green pepper, salt and pepper. Cook and stir for 4 minutes. Stir in eggs and cook until eggs are set, about 1 minute. Add rice, shrimp, ham, mix well and cook, stirring constantly, 4 minutes. Stir in scallions and soy sauce. Serves 6.

**Sooner or later, that day comes,
the day when a woman feels she's changing.
It's not a good feeling either. And she could
use a good old-fashioned medicine then.**

Could be you feel a little edgy, or maybe cross. You might even have what we call hot flashes and feel sad and slightly off-balance.

Whatever you feel, we have something for the day you need a little comforting. Lydia E. Pinkham Tablets. They're made with gentle, natural ingredients that work to give you a better sense of well-being.

With an old-fashioned problem like this, couldn't you take an old-fashioned medicine?

Make the Wedding Cake at Home

For this most romantic cake, three tiers of golden pound cake are made from a mix. Fresh roses, white or pastel to match the bridesmaids' dresses, garnish the snow white frosting.

CAKE: This cake requires 8 (1-pound, 1-ounce) packages DROMEDARY Pound Cake Mix. Prepare according to directions on the package. Line all pans with wax paper. Bake three 13x9x2-inch rectangular layers using a total of 5 packages of mix; three 9-inch square layers using 1 package of mix for each pan. Bake all layers in a preheated slow oven (325°F.). Bake the 13x9-inch layers for 1 1/4 to 1 1/2 hours and the 9-inch layers for 45 to 50 minutes or until a cake tester inserted in the center comes out clean. Cool slightly in pan. Remove from pan and cool thoroughly. Cut one of the 13x9-inch layers in half and place at end of one of the other large layers. Spread top with frosting. Arrange remaining large layer and half on top. Put two 9-inch layers together with frosting and center on top of large layers. Cut remaining 9-inch layer in quarters. Put two quarters together with frosting and center on top of 9-inch layers. Cover entire cake with an even layer of frosting, smoothing with a spatula dipped in boiling water. Use remaining frosting and pastry bag with rose tip to decorate as shown.

FROSTING: Cream 1 cup white shortening; add 1 teaspoon salt. Gradually add about 1 cup sifted confectioners' sugar, blending well. Add another 23 cups sifted confectioners' sugar (total about 8 pounds) alternately with 10 unbeaten egg whites and 1 cup milk; beat until spreading consistency. If desired, add 1 tablespoon lemon extract. While frosting cake, keep frosting bowl covered with a damp cloth. Cake makes 50 servings.

LATEST FASHIONS AT GHS

by Patsy Graham
WHAT: A fashion show.
WHEN: Every week day from 8:00 to 4:00.
WHERE: Halls of Gatesville High School.
WHY: To show what's the latest in school wear.
HOW: Fashions, compliments of the parents.

Do you know what the other "kids" are wearing this year? If you don't and you want to know, all you have to do is come to the Fashion Show now in progress at GHS.

The new fashions involve everything from head to toe, not just clothes. And the best way to tell you about them is to start at the top and work down.

The hair styles are very varied this year. The very long or the very short look is definitely "in". The new dyed falls are making a big interest this year with many of the girls. In the short hair look the boy-cut is the most popular.

The boys are much like the girls in their choice of hair styles (they like long hair). Some of the boys have hair so long that one doesn't recognize them by their faces, but by their hair.

The really big things are hap-

producers, meat processors and marketers and speakers will devote considerable time to discussions dealing with the long-term outlook for the livestock industry.

A MUST FOR HORSEMEN — The 7th annual Texas A&M University Horse Short Course will be held November 10-12, reports B. F. Yeates, Extension animal husbandman. He says the program should be of interest to every person interested in horses and will feature discussions on horse nutrition, genetics, health and demonstrations on many subjects of wide interest to horse owners, including horsemanship, cutting horses, early handling and training and others.

DESTROY COTTON STALKS EARLY — Because of the tremendous boll weevil populations which have developed in many sections of Texas this year, John Thomas, Extension entomologist at Texas A&M University, urges cotton producers to carry out an early stalk destruction program. He recommends the use of a flail type stalk shredder and plowing under to a depth of at least 6 inches all cotton plant residue as soon as possible after the harvest is completed.

RAINS COULD WORSEN SCREWWORM SITUATION — Rainfall in much of the barrier zone along the U. S.-Mexico border could cause an increase and spread of screwworms, report officials of the eradication program from Mission. They emphasize that the fall build-up last year began in mid-September and carried into December. To avert this situation, the officials urge stockmen to treat all animal wounds, collect worm samples for positive identification and follow good management practices in working livestock.

ITCHING LIKE MAD?

Get this doctor's formula! Zemo speedily stops torment of externally caused itching... of eczema, minor skin irritations, non-poisonous insect bites. Desensitizes nerve endings. Kills millions of surface germs. "De-itch" skin with Zemo—Liquid or Ointment.

The Road Report . . . BY ARBA

AMERICANS MAKE TWO MILLION ROUND TRIPS TO THE MOON

ON OUR NATION'S HIGHWAYS SOME 103 MILLION LICENSED DRIVERS TRAVELED ABOUT 922 BILLION MILES IN 1966—THAT IS THE EQUIVALENT OF NEARLY 2 MILLION ROUND TRIPS TO THE MOON.

AMERICAN ROAD BUILDERS' ASSOCIATION

pening in clothes. The girls like the bright psychedelic colors. Most frequently, outfits that give girls freedom and mobility are chosen. Tent dresses and the mini-skirt are the "most in" things. Also, the rillyart look, with brass buttons has become very popular. All types of decorations—chain belts, buckles, and big zippers—are worn on dresses. The pant-dress is really "in", but in GHS it had rather a "short life."

With the boys the Carnaby Street look is still the most "in" thing. The louder the shirts, the better they are liked. The colors are more brilliant than ever.

Boys socks haven't changed much, although some still think that "the thing" is to go without any at all. Whereas, with girls, stockings are really coming out big this year. Most popular are the fishnet hose which vary in color from hospital white to shocking pinks. One of the most recent fads that is slow on catching on at GHS is the window pane hose. These make the girls' legs look as though they are captured in a large "rope"

For fall the girls are wearing suede shoes, which will probably be popular for some time. Boys shoes are pretty conservative except for a few evident pairs of sandals and brightly colored "sneakers."

The New York Bank for Savings to Administration of Veterans Affairs, lot 5 block 2 of the Highland Heights Addition, 1st Extension, 2nd Unit, city of Copperas Cove, \$10 and other considerations.

Carve Like a Master Chef

Newly developed cordless electric carving knives make carving and slicing of meat, poultry and other foods easier and fun — no longer a job only for experts. Professional results can be had by following a few simple rules.

Chef Mario Tanzi of the Antlers Restaurant on New York's Wall Street, tells and shows how to carve two of the most common meats — roast turkey and ribs of beef.

ROAST TURKEY

To carve a roast turkey, Chef Tanzi says, first grasp the leg

and pull it away gently while cutting through the meat and joint between thigh and body. Cut the thigh from the drumstick at the joint.

Carve meat from drumstick and thigh parallel to the bone and set it aside. With fork astride breastbone, cut the wing from the body.

To carve breast, start just above where the wing was removed. Cut thin slices parallel to the breastbone, then turn the bird and repeat the procedure.

It must be remembered that an electric knife is different from an ordinary carving knife.

The lightweight cordless model used by Chef Tanzi, made by Rival Manufacturing Company of Kansas City, Mo., requires no sawing back and forth. A slight downward pressure to guide the blade is all that is needed.

RIB ROAST OF BEEF

To carve a rib roast of beef, place the roast with larger cut surface down and rib side to your left. Insert carving fork between two top ribs. Starting at the right outside edge, carve across the face of the roast toward the rib side with slices about a quarter-inch thick.

To release the slices, cut along rib bone with the end of the knife. For easier carving, ask your butcher to cut the backbone from the ribs when you buy the roast.

Best results are obtained if you let hot roasts stand 15 to 20 minutes before carving. This allows juices to set and makes carving easier and neater. It also keeps juices in the meat.

The most convenient electric carving knife is the cordless type operated by rechargeable nickel-cadmium batteries. The batteries can be recharged over and over again after use, while the knife is stored.

were Bill Barton of Waco; Jack Barton and son of Gatesville, Hollis Barton, Junior Loer, Joe New, Mrs Bob Wallace and Robert, Mr. and Mrs Darrell Jones and family.

Mr. and Mrs. Darrell Jones and family spent the week end in Adamsville with their parents, Mr and Mrs Luther Jones.

NEWS

AP SPORTLIGHT

BROWNWOOD RIPS GATESVILLE, 35-0

Brownwood's Lions led by the passing of Si Southall shot down the Gatesville Hornets 35-0 in a district game Friday night. Southall connected on 9 of 19 passes for 201 yards and three touchdowns.

It was the second victory in two starts for the Lions. Gatesville is 1-1.

Brownwood took the opening kickoff and drove 87 yards to score with fullback David Wallace diving over from the one. Damon Smith kicked the first of five conversions for the night.

Wayne Denton carried over for the second Brownwood tally in the first quarter and Smith again kicked good to give the Lions a 14-0 lead.

In the second quarter Southall hit wingback Lane Bowen with a 44-yard scoring pass. Smith kicked the point to give Brownwood a 21-0 halftime lead.

Southall passed 10 yards to Smith for a touchdown in the 3rd period and connected with Bowen on a 64 yard scoring play in the final stanza.

Gatesville 0 0 0 0 — 0
Brownwood 14 7 7 7—35

Scoring: B—Wallace, 1, run (Smith kick). B—Denton, 3, run (Smith kick). B—Bowen, 44, pass from Southall (Smith kick). B—Smith, 10, pass from Southall (Smith kick). B—Bowen, 64, pass from Southall (Smith kick).

MARLIN SHUTS OUT COPPERAS COVE, 13-0

In a game between Bulldogs, Marlin proved to be the strongest by adding another win to its laurels in Defeating Copperas Cove in Copperas Cove, 13-0, in a Friday football squabble.

Marlin took a chunk out of Copperas Cove's hide the first time it got its hands on the ball with a 56-yard march to the goal line.

James Wesak did the honors from one-yard out and Gary Kindred booted over the extra point making the score, 7-0, before Copperas Cove's offensive unit had joined the game.

The Bulldogs added another score in the second quarter after a long march. This time for 55 yards. Halfback Joe Collier received his call at the one-yard line and made the scoring tally. The extra point try was fumbled making the score 13-0.

Copperas Cove bounced back with a drive of their own only to be run out of downs by a strong defensive unit lead by center David Lightfoot.

Both teams remained scoreless in the third quarter and neither team could muster much of a threat until Marlin's offensive standout Collier blasted through a whole over tackle and romped 56-yards before being nailed on the 10-yard marker with less than two minutes left in the game.

Copperas Cove tightened its defense and after three pass incompletions and a line plunge that netted only inches the Marlin Bulldogs gave up the pigskin for the remainder of the game.

Besides ruling the scoreboard, Marlin took charge of statistics in all departments. In total offense Marlin ate up 256 yards as compared to Copperas Cove's 84. Most of Marlin's yardage was on the ground with the Bulldog backs gaining an even 200 yards for the night's work.

EVANT TEACHERS TO ATTEND SMALL SCHOOLS WORKSHOP

School will be dismissed Monday afternoon September 18 at 2:50 to allow the teachers time to get to Morgan for a Texas Small Schools Regional Workshop. The entire faculty is expected to attend. This is part of the requirements set up for a school to be a member of the Small Schools Association.

Evant Schools got off to a good start with 227 students enrolled September 7. This is a decrease of 3 from this time last year. We must maintain an average daily attendance of 204 plus to keep what we have.

SIGMA RHO HAS ANNUAL DINNER

The annual end of the year dinner staged by members of Sigma Rho chapter of Beta Sigma Phi sorority was held Aug. 29 at the Chateau Ville restaurant.

Fourteen members marked the close of the 1966-67 season by revealing the identities of secret sisters and exchanging gifts.

A Hawaiian luau honoring members and pledges will be held Thursday, Sept. 14, in the home of

Even though Marlin only completed two passes for the evening out of ten tries they gained 56 yards for their effort.

TROUBLE-SHOOTING YOUR OUTBOARD

Despite warnings to the contrary, many outboard owners start out a new season without a glance at the engine.

The result is usually frustration. Any mechanical device, subject to long periods of storage, is equally subject to problems. In fact, Bill Spaeth, manager of engineering at Evinrude Motors, states that improper storage can cause more damage to an outboard than several seasons of rugged use.

If you find yourself stranded at the dock, don't give up the ship. A careful reading of your owner's manual and a few simple tools can help you save the day.

Spaeth made special mention of the owner's manual. This handy booklet, packed with every new engine sold, will explain proper corrective measures for all minor problems.

Here's a list of the most common early season problems. Check through it and then refer to your owner's manual.

The motor won't start. Look for the easy answer first. Check your fuel supply; proper fitting of connectors at the engine and tank; pinched fuel line; or fuel filter or line obstruction.

If the engine does start, many times the idle is rough. It could mean a needed adjustment of the carburetor setting; fouled spark plugs; or improper fuel mixture.

If the motor starts but then loses power, look for fouled spark plugs; restrictions in the fuel system or contaminated fuel.

Excessive vibration is also a common problem. The propeller blades may be bent or broken; weeds or other foreign material on the propeller or gearcase; or an improper setting on the carburetor.

In all cases, your owner's manual will point out the right corrective measures. Of course, you can't perform any of these without a few simple tools. The Evinrude engineer suggests the following basic kit: Spark plug wrench and extra spark plugs; screwdriver; pliers; adjustable wrench; electrician's tape; spare oil; filter and water and heat pins.

Copperas Cove Schedule

- Sept. 8, Gatesville at Copperas Cove.
 - Sept. 15, at Marlin
 - Sept. 22, Llano at Copperas Cove.
 - Sept. 29, At San Saba
 - Oct. 6, Cameron at Copperas Cove.
 - Oct. 20, Burnet at Copperas Cove*
 - Oct. 27, At Round Rock*
 - Nov. 4, At Georgetown*
 - Nov. 11, Del Valle at Copperas Cove*
- * Denotes District 18-AA game.
