MAN FOUND DEAD

Yesterday morning, October 5, at approximately 9:30 a. m. a 50 year old man, Cecil Garret was found dead in his cabin on State Highway 36 about 3 miles south of Gatesville. Garret was employed at the rendering plant at Mound.

Coryell County Sheriff, Winfred Cummings reports that Garret died of natural causes. Sheriff Cummings asks that anyone with information about the dead man please contact the Coryell County Sheriff's Department.

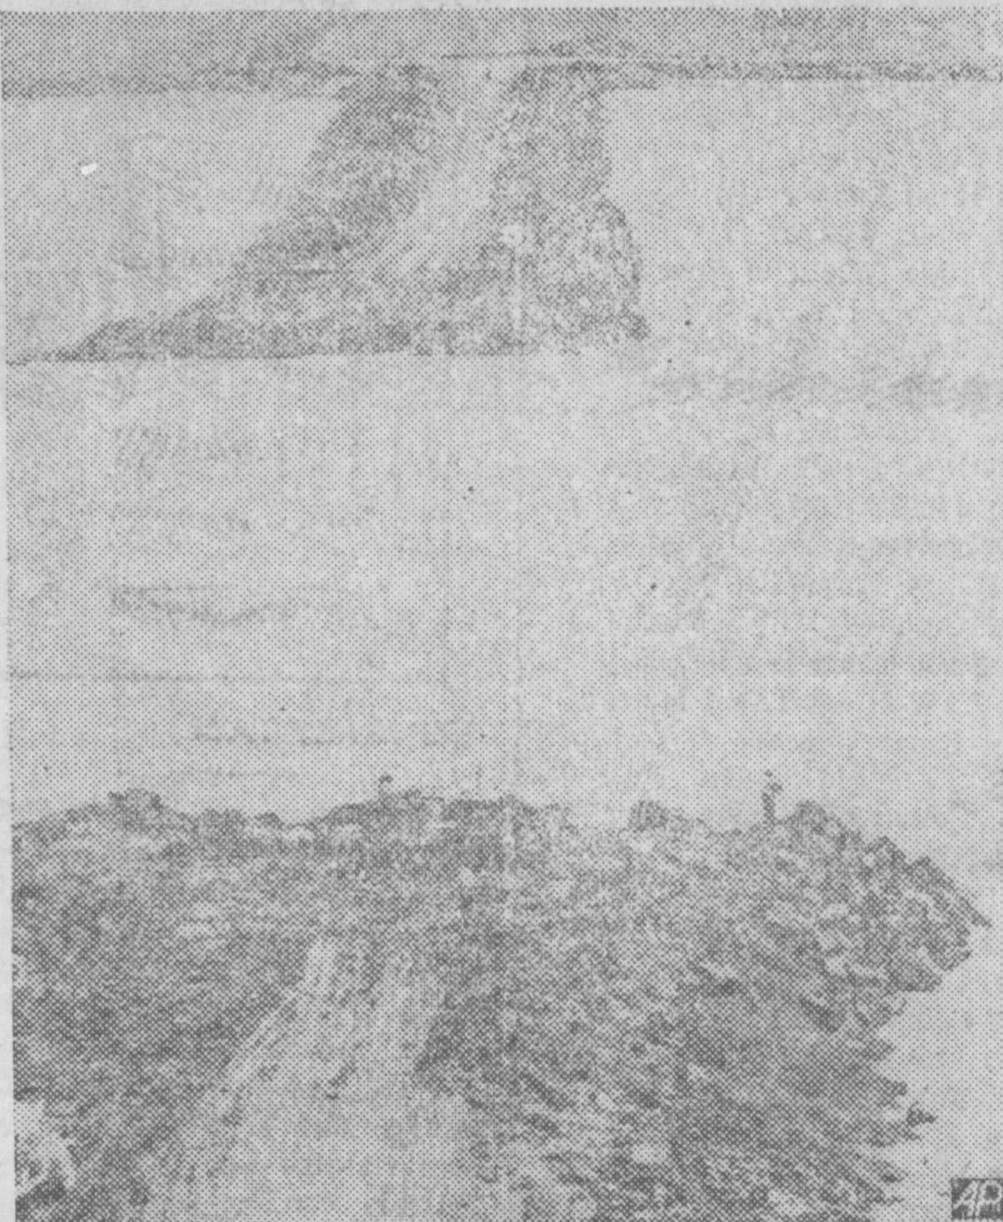

Garret is described as 50 years of age, 5' 10" tall, weighing 135-140 pounds, with greying hair and brown eyes. He is believed to have come to Gatesville from Fort Worth and to be a resident of Florida or Delhart, Texas.

MISS JO ANN WATSON BECOMES GOLD STAR GIRL FOR CORYELL COUNTY

The Gold Star Girl of 1967 for Coryell County is Miss Jo Ann Watson of Jonesboro. She is the daughter of Mr. and Mrs. Hayden Watson. Jo Ann has been in 4-H Club work for six years.

She was the Senior winner of the County Dress Revue this year and participated in District Dress Revue. She has won the Junior Division of the Dress Revue in 1964 and 1965. In 1964 she won the County Ideals in Dress Revue. In 1966 Jo Ann won a medal in Clothing. She won a blue ribbon in the Favorite Foods Show in 1965. In 1963, Miss Watson won the County Medal in Home Improvement, and in 1962 the medal in Recreation.

In the Share the Fun Contest in 1962, Jo Ann won first place. She

ALSO THEIR GRANDCHILDREN!

TEMPORARY TAX?

In the nation's capitol the word "temporary" often has a definition not found in the dictionary. All too frequently in Washington "temporary" simply means "permanent." Remember the "temporary" wartime buildings that were still standing decades later, the "temporary" commission that never finished their assignments? Certainly none of us can forget the "temporary" taxes that have been imposed upon us.

Here's one example; in June, 1932, Congress levied a tax of one cent a gallon on gasoline as a temporary measure. It was de-

scribed as an emergency step to help the Federal government meet the financial crisis brought on by the depression. This tax produced \$57 million revenue in its first year.

Thirty-four years later and with a rate of four cents a gallon, the tax yielded \$2.9 billion, bringing the total since 1932 to netarily \$33 billion. In 1967, this "temporary" tax is expected to have an even higher yield.

We are not raising the question here of whether the gasoline tax is good or bad, but we are stressing the fact that "temporary" in Federal language may mean "forever." During the Korean war many excise taxes were enacted to help pay for the conflict. However a great many of these so-called temporary taxes have been retained either at the same rate or in slightly modified form.

This phenomenon of government should be borne in mind when there's talk of new or increased taxes.

Spring Cleaning

Spring is the time for evaluation—for taking stock of things from yourself to your home. This year, in your Spring cleaning, resolve to restore the good looks of your house by taking aim at problem areas. For example, if dirt-buried carpets are your problem, resurrect them by giving them a good shampooing. First vacuum, to remove the dust, then use a rotary shampooer to bring the nap back up on the rug and give it a new lease on life.

Bulging closets often need to be put on a diet. Slim them by eliminating all paraphernalia you no longer want or need. Or if you can't bear to part from certain odds and ends, organize them by arranging them in neatly stacked boxes.

Is there a villainous greasy stove in your life? Foil it, by using Pine-Sol household cleaning and disinfectant agent. This effective liquid cleans like steam, penetrating deeply to clear away all grease deposited by cooking vapors. And it deodorizes and disinfects too.

If the children—bless their little hearts—have gone creative all over the walls, resolve to wipe this matter up. Pine-Sol, an all-purpose liquid cleaner will help you solve this problem easily.

If you follow these tips, it'll be easier to lift that mop, tote that broom and wield that dustcloth more effectively. Clean up problem areas and you'll be on target for Spring cleaning.

HOW DO YOU RATE ON FREIGHT?

Orchids... eggs... lobster... fashionwear—you'd be surprised at the variety of items in your life that are shipped by air.

Whether you're a shipper, retailer, purchasing agent or in any other field where you have a say in deciding how goods are to be shipped, you may be able to save money—get better service, too—by updating your shipping know-how.

It has only been in recent years that major airlines have turned to big jets for use as freight carriers. According to information from researchers at Lufthansa German Airlines, air cargo volume throughout the western world has risen from 75 million ton-miles in 1945 to 4.2 billion ton-miles in 1966.

Two principal factors are largely responsible for this trend: One, the dynamic aggressiveness with which airlines have expanded their cargo operations. Larger and faster planes enable them to transport almost any kind of cargo, regardless of size or weight.

And, two, airlines have been able to demonstrate over and over again, that the compound transport costs for air cargo are not only equal to,

but often lower than other ways of shipping.

These cargo flights operate with the timetable precision of passenger service. In this age of modern jet transportation, you can think in terms of minutes: 75 minutes from Frankfurt to London, 140 to Madrid, 55 to Milan—these are regular flight times for the swift Boeing 727 jets of Lufthansa German Airlines. Many manufacturers find that the reduced time lapse is enabling them to bring in the money from their sales to overseas markets more rapidly.

With air freight, you can get your goods to any spot within a maximum of 48 hours. Via Lufthansa, 20 tons of air cargo arrive in Frankfurt barely 8 hours out of New York. From the Frankfurt terminal, the carrier's jets speed your goods to the major commercial centers of the world.

Air freight also eliminates the need for warehousing. Less handling means lower costs, and thus, higher profits. Insurance rates are lower, because chances of theft, loss and damage are reduced to a minimum. Packing costs are also lower, since items sent by air freight require only light, inexpensive containers.

EXCITING THINGS ARE HAPPENING IN THE LIBRARY

Mr. Mendell Morgan, Assistant Director of Field Service Division of the Texas State Library visited our library recently and gave us both encouragement and helpful suggestions.

The library has become a member of the Fort Worth Public Library Centralized Processing Center, which means that the Centralized processing center orders, catalogs, classifies and physically processes books without charge for its member libraries under provisions of the National Library Service and Construction Act. This is a privilege and a great help to the librarians, who have difficulty in finding time for the processing of books.

Yearning For Yogurt?

Yogurt with the fresh flavor of fruit stars equally well in individual servings or a generous-size pie. Here's the Borden Kitchen recipe for a strawberry yogurt-gelatin pie featuring a vanilla cookie wafer crust. It proves the point.

Strawberry Yogurt-Gelatin Pie
(Makes one 9-inch pie)

CRUST:

- 35 vanilla cookie wafers
- 1/4 cup sugar
- 3 tablespoons Danish flavor margarine, melted
- 1/2 cup sugar
- 2 cups water
- 2 cups (two 8-oz. containers) Swiss style strawberry yogurt

FILLING:

- 2 envelopes (2 tablespoons) unflavored gelatine

CRUST: Set aside 14 cookie wafers. Crush remaining 21 wafers into fine crumbs. In a small-size mixing bowl, combine crumbs, sugar and melted margarine. Blend thoroughly. Press mixture firmly and evenly onto *only the bottom* of a 9-inch pie plate. Stand the 14 reserved whole wafers around sides of pie plate, with rounded sides facing toward the center. Chill in refrigerator while preparing the filling.

FILLING: In a medium-size saucepan, thoroughly combine gelatine and sugar. Add water. Place over low heat; stir until gelatine is dissolved. Remove from heat. Stir in yogurt. Place pan over ice water. Stir gently until mixture thickens and mounds slightly when dropped from a spoon. Turn mixture into prepared crust. Chill in refrigerator about 4 hours, or until firm. If desired, garnish with fresh strawberries.

Frank-ly Fun Food

by Betty Crocker

I think you'll agree that it's sometimes hard to tell whether teens gather as an excuse to eat . . . or use eating as an excuse to gather. Either way, when the teen crowd is at your house, be glad that easy, versatile, nutritious hot dogs are such a great teen favorite. Try Frank-a-Bobs for a new twist. Cut each frankfurter into 5 pieces; alternate with pineapple chunks on skewers. Brush with salad oil. Grill 4 inches from medium coals 7 to 10 minutes, turning often, until browned. Serve with mustard or barbecue sauce on toasted buttered buns. Homebaked buns? Why not? Here's a quick and easy way:

MUSTARD BUNS

- 1 package active dry yeast
- 3/4 cup warm water (105 to 115°)
- 2 1/2 cups Bisquick
- 2 tablespoons prepared mustard
- Butter

Dissolve yeast in warm water. Mix in Bisquick and mustard. Beat vigorously. (If dough is soft, add 2 to 4 tablespoons Bisquick.) Turn out onto well-floured surface. Knead until smooth, about 20 times. Roll dough into oblong, 12x6 inches. Cut into 1 1/2-inch strips. Place on lightly greased baking sheet. Shape ends to make hot dog buns. Cover. Let rise in warm place (85°) about 1 hour. Heat oven to 400°. Bake 10 to 15 minutes, until browned. Brush with butter. Serve with hot dogs. Makes 8 buns.

Special Franks: Here's a combination the teens will like. Split franks lengthwise. Spread cut surfaces with pea-

nut butter. Wrap in a strip of bacon secured with a wooden pick. Barbecue on grill until bacon is done as desired, turning once. Serve on toasted buttered bun.

CHEESEBOATS

Ideal for outdoor grilling.

- 10 slices bacon
- 1 pound frankfurters
- Liquid smoke
- 2/3 cup shredded Cheddar cheese

3 tablespoons chili sauce
Panfry bacon 2 minutes on each side. Split frankfurters lengthwise, not cutting completely through. Brush cut surface lightly with liquid smoke. Mix cheese and chili sauce; fill each frankfurter with 2 teaspoons of the mixture. Wrap each with a slice of bacon; secure with a wooden pick. Grill 4 inches from medium coals 12 to 15 minutes or until bacon is crisp, turning occasionally. 10 servings.

FREEDOMS COUNCIL SPEAKS OUT MAN AND HIS GOVERNMENT

By Paula Bromser

There is a significant question which has challenged and will always challenge men who want to govern themselves. The question is "What is the relation of the nature of God and the nature of man to the nature of government as we know it?"

God is the omnipotent, omniscient, omnipresent Creator of our universe. He is the Lawgiver of the universe and the Supreme Judge who administers justice with mercy. God is the joyful, compassionate, patient, living Father of man, whom He made in His own image by implanting in him a "spark of the Creator." This brings us to the question, "What is the nature of man?" Science tells us man is matter and a form of animal life; however, he is really much more than that. Man is made in the image of The Creator and is given the choice to use his creative powers as he likes.

Each and every man is distinctive. No two individuals have identical creative abilities or inner powers. All individuals approach fulfillment of their potentials by expressing their unique inner powers in the time, manner, and place they select. Man is so constituted that he must use his choice to strive for what he believes will reward him. Man must be free if he is to fulfill his destiny. This is his "nature." In his effort to be free, man must create a government. But what is the "nature" of government?

A government is confined within the natural law—the "laws of Nature and of Nature's God" as our Constitution states it. In other words, the purpose of the government is to provide the chance for the individual's fulfillment of his destiny by guarding his God-given right to freedom.

George Washington said, "Government is like a fire, a dangerous servant and a fearful master". James Madison said, "We have staked the whole future of America, not on the power of government—far from it—but on the capacity of mankind for self-government." Thomas Jefferson may have stated the role of the government in his First Inaugural Address in which he stated, "With all these blessings, what more is necessary to make us a happy and a prosperous people? Still one thing more, fellow citizens—a wise and frugal government, which shall restrain men from injuring one another, shall leave them otherwise free to regulate their own pursuits of industry and improvement, and shall not take from the mouth of labor the bread it has earned. This is the sum of good government." Such a government fits the higher Nature and the Rights of Man.

STUDENT COUNCIL STARTS DEVOTIONALS

The GHS student council held its first regular meeting Wednesday, Sept. 27. Members that attended the meeting were the officers: Doyce Wright, president; Wayne Shirley, vice president; and Carla Pfeiffer, secretary. The senior representatives were Janis Daniel and Stanley Kopec. Representing the junior class was Larry McCutchen. Representing the sophomore class were Jeffrey Neel, Donnie Pruitt and Larry Smart.

A devotional committee consisting of Janis Daniel and Larry McCutchen was formed. Its job is to see that each teacher knows when it is her time to provide a devotional for presentation to the student body.

The group along with Mr Sidney Pruitt, the sponsor, decided to give the devotionals on Tuesday mornings at 10:00. The first devotional was given by Carla Pfeiffer and Wayne Shirley Oct. 3.

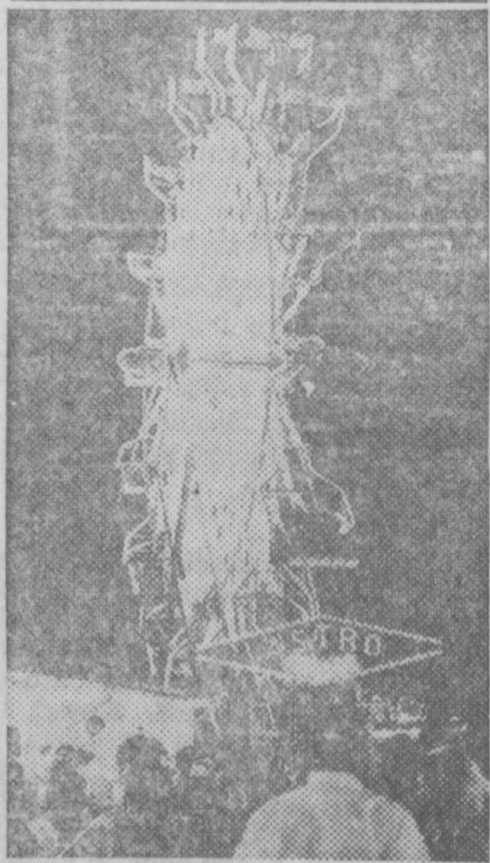

PHOTOGRAPHY CLUB DOES MAN-SIZE JOB

One of the hardest working groups in Gatesville High School is the photography club. This group of boys takes pictures of every school event that takes place in Gatesville High School and every event Gatesville High School takes part in.

Leading this group of expert photographers are their officers: Freddie Schloeman, president; Billy Dworsky, vice president; and Mike Campbell, secretary. The other photographers are Bobby Bird, Donny Brown, Pat Cole, Eddie Floyd, Tommy Lengefeld, Paul Pollard, Harmon Rogers, Mike Schloeman, David Schoenewolf, and Jim Williams.

These boys not only take the pictures, but they also develop them. All of the pictures used in the yearbook are taken by the photography boys. Besides making their own proofs and reprints, they do all of the enlarging themselves.

CAR NAMING IS RENEWED FAD

by Linda Lam

This week, after doing much questioning, this reporter discovered that many of the GHS students have given "affectionate" names to their automobiles. A few of the students finally broke down and disclosed the names of their cars simply because they couldn't stand to see a reporter cry.

Martha Kidd confided that her family car is named Teddy Roosevelt. When questioned as to the reason of the car having such a name, Martha explained that the car was really a "rough rider."

Larry Smart has a car which he refers to as Reliable Ruth alias the Green Bomb. He also owns a pickup known as the White Lightning Express.

It seems that cheerleaders Cherry Tatum and Jackie Fry have a matched set of cars. Cherry's is named Thelma and Jackie's is called Sam, and I've heard that this pair get along well together.

Doug Freeman is the proud owner of a white pickup named the Blue Goose. Figure that one out

CHUCKLE CORNER

"WE JUST HAD ONE OF THOSE 'ONE-DISH' MEALS!"

if you can.

Mickie Matizza has a beautiful 1948 Plymouth christened "The Plymouth Rock."

Linda Smith drives a car which is well known by the name of Shot Rod. Linda says that anyone who has ridden in this car would not have to ask for the reason behind the name.

The Mean Green is a pickup owned by Jerry Ashby. Jerry says that when the pickup is in running order, it is a real mean runner. The only problem is that at the

moment the pickup won't move. Bobby Hodge's pickup is proudly known as the Greenback dollar. Bobby told me that this pickup makes money for him wherever he goes.

4-H CLUBS OUTGROWTH OF BOYS' CORN CLUB AND GIRLS' TOMATO CLUB

By Don Callahan
County Agent

The present 4-H Clubs movement in Texas is an outgrowth of boys' "Corn Clubs" and girls' "Tomato Clubs."

In 1908 the first boys Corn Club in the state under the supervision of a County Agent in Jack County by the Agent Tom Marks. It was started as a result of the failure of an adult corn show held the previous year.

He enrolled 25 boys and using the demonstration method of teaching, showed them the latest corn production practices. Marks followed up his demonstration with individual helps on the farm. At harvest time the club had its first achievement exhibit in a train caboose in Jacksboro. Here skeptics could see for themselves the results of teaching farm youths the latest research method of farm products.

The first "beef calf" club was organized in Coleman County in 1910 through the support of the late J. E. Boog-Scott a prominent Cattleman of Coleman. Sam L. Mathews, a member of the 1910 Southwestern Exposition and Fat Stock Show in Fort Worth.

The first 4-H Club emblem adopted Nationally about 1911 had only three H's one each for the head, hart and hands, some years later another "H" for health was added to make the four-leaf clover also in the symbol of good luck to many people, but some 76,000 Texas 4-H Club members it is a part of the emblem of their organization and a lot more.

The roots of 4-H go deep in Texas and Coryell County. Boys and girls for more than 60 years have been proud of members of the organization. As has been the case for many years, they will join with some two and a quarter million members and 23 million the observance of National 4-H Club Week, September 30 to Oct. 7.

WOMEN PAST 21 WITH BLADDER IRRITATION Suffer Many Troubles

After 21, common Kidney or Bladder Irritations affect twice as many women as men and may make you tense and nervous from too frequent, burning or itching urination both day and night. Secondly, you may lose sleep and suffer from Headaches, Backache and feel old, tired, depressed. In such irritation, CYSTEX usually brings fast, relaxing comfort by urbing irritating agents in strong, acid urine and by anal-

During this week Texas and Coryell County 4-H members will be out to tell of the past years of achievements and their plans for the year ahead. For boys and girls between the ages of nine and nineteen may join 4-H by signing up and choosing a project. 4-H offers opportunities to develop good character and leadership. The main requirement willing to learn in doing. Learning to work together and accept responsibility along with exploring career opportunities and learning skills are all a part of the Texas 4-H Club program.

In Texas and across the Nation 4-H Club work is directed in the counties by the County Extension Agents with assistance from both adult and junior 4-H leaders. In Texas more than 13,000 volunteer adult leaders work with the members of more than 2,500 local 4-H Clubs "To Make the Best Better" Statewide the 4-H Program is guided by Texas A&M University, the states land-grant university. Nationally the U. S. Department of Agriculture Administers the program as the youth phase of the Cooperative Extension Service.

In 4-H young people learn skills in a wide variety of projects in Agricultural, home economics, citizenship and personal development.

Boys and girls enjoy the 4-H Club. Here they elect their own

officers, conduct their own programs and hold regular meetings. They take part in community activities and the County-wide 4-H program. Boys and girls may join a 4-H club by agreeing to work on a project and to follow 4-H ideals and standards.

Most club meetings have three parts. business, education, and recreation. The club meeting teaches parliamentary procedure, how to make group decisions, how to use elected officers effectively and how to plan group activities. They teach the duties of a citizen in a democracy.

The educational part of the club meeting centers around individual projects and activities that interest the group. Demonstrations, judging practice, illustrated talks discussions are teaching tools.

Recreation is important at club meetings. Group singing, parties, games and active sports help youths learn social skills and add to fun of belonging to 4-H.

There are some 50 projects that a 4-H member can choose from. 4-H is the Nation's most effective out-of-school educational program. One out of every six U. S. adults is a former 4-H'er most of them want this experience for their children too.

In Coryell County there are six organized clubs with a total enrollment of 163 members with 23 adult leaders working with the 4-H members in the county.

Let's Go Boating!

SAFE BOATING ONLY USE OF COMMON SENSE

Safe boating doesn't require expert knowledge of a rigid set of rules or even years of experience. It's simply a matter of using common sense, according to the Evinrude News Service.

The first common sense rule is a thorough knowledge of your boat. How does it handle and perform? When possible, put it through its paces. Does it slide or skid on sharp turns? Does it broach or wallow in heavy seas? When caught in a sudden summer storm, you'll know what to expect from your boat. You'll be able to safely maneuver it to shore. Respect the weather. You don't have to be a meteorologist to know when a summer storm is possible. When planning a boating holiday, pay close attention to weather forecasts. When in doubt, consult a competent authority. If this isn't possible, it's best to stay safely ashore.

Carry the proper boating equipment. In addition to items required by the U. S. Coast Guard and local or state regulations, carry any "recommended" items as well.

Too many boatmen think there are only two speeds — stop and full throttle. Don't ask for trouble. Regulate your speed taking into consideration the weather, winds and possible congestion.

Stay alert. This is the simplest of all rules of the waterway, and, unfortunately, one of the most violated.

Keep your equipment in good repair. Your boat, and especially your outboard motor, need periodic maintenance. Don't let a minor mechanical failure jeopardize you and your family.

Don't overload your craft. Most boat builders affix a capacity plate somewhere on the inside of the boat. Just because a boat has a seating capacity of eight doesn't mean this is a safe load.

Obey the law. In addition to U. S. Coast Guard or federal waterway regulations, most areas have local rules. Know and obey these laws. They were made for your protection.
