HOT! HOT! HOT! It reached record high for the year of 06 degrees Sunday, August 10

in Gatesville. Previous high for the year of 105 was set on July 15. The local weather bureau had recorded twenty days in July and six days in August of 100 degrees

The heat wave has gripped Central Texas since late June. The Waco weather bureau recorded 45 days of 100 degree temperatures and August 10, proke the all-time temperature record for that city at 109

Rain has been recorded in traces at the Gatesville Weather

Bureau since early June. The Gatesville area has recorded a scant 12.68 inches of rain in the first seven months of 1969. Mrs. F. F. Curry

checked last years rainfall for the same seven month period noting 32.36 inches of rain. By noon Monday, the temperature had reached 100 again in the Gatesville area.

A five-day state forecast for the period through August 16 calls for temperatures to be slightly above normal.

peratures and only occasional showers add up to the explosive situation each summer. Last week Gatesville volunteer firemen answered over seven alarms for grass fires

in and around Gatesville. Friday, just before noon, firemen fought a stubborn blaze on the Osage road just outside the city limits for nearly three hours. Control of the fire would

be gained only to see flames

jump a road in another area. Three units of the Gatesville Fire Department and one unit from the North Fort Hood Fire Department were used in the Friday fire. An estimated \$4000 gallons of water were pumped onto the flames.

From Gatesville, thirteen firemen helped to put out the blaze. A check of flame eaters

Sunday the same old scream-ing alarm interrupted late after noon naps, pre-season football, and just leisure time for Gates-ville Volunteer Firemen.

Summing up the past week there were two trips to Flat, one to Leon Junction, one to FM 107, one to Osage Road, and one south of town.

To say all of this is part of the job would be pushing a point.

Everyone can play a part in the prevention of many of these summer grass fires. Trash burning if necessary should be completely supervised with adequate precautions against fire.

Seven days of special evangelistic services will start Monday morning, August 18, at the Live Oak Baptist Church. The Evangelist will be Rev. Jesse J. Powers of Alvarado, Texas, and the song evange-

Poage Is Guest Speaker At Fair

Riesel, Tex., Aug. 10. Central Texas Congressman W. R. (Bob) Poage declared here tonight that inflation is one of the greatest dangers facing Amer-

Speaking at the Reisel Fair appreciation dinner, Poage noted that legislation designed to curb inflation has just been passed by the House and is pending now in the Senate. After pointing to soaring prices on various necessities of life, he

"I doubt that anyone can clearly explain all of the factors which have a hand in creating this situation but it doesn't take a Ph.D. to understand that if this thing goes on and on, it will destroy the value of your savings, of your pensions, and of your investments

'Just as nobody can say with absolute certainty what will bring about inflation, neither can anyone say with absolute certainty just how we can avoid inflation, but we do know that one of the fundamental factors in avoiding inflation is to balance our budget."

He observed that cutting governmental expenses is a painful affair, but that Congress is making a sincere if sometimes faltering fight on inflation.

One of the other big problems facing Congress, Poage continued, is lawlessness and crime.

"Frankly," he added, "I don't believe that is the primary responsibility of the Congress, I believe that most criminal laws should be enacted and enforced by the States, not by the Federal government. To the extent that there has been a breakdown of Federal enforcement, I think it is clearly the responsibility of the Supreme Court of the United States and not of the legislative

GATESVILLE MAN INJURED BY VIET CONG MINE

Don Jones, 25 year-old son of Mr. and Mrs. Weldon Jones of Gatesville, was injured in Vietnam when a truck he was driving struck a Viet Cong mine,

Jones, who was activated with the 113th Light Maintenance in May of 1967, received injuries to his left arm and hand as a result of the mine explosion,

He was stationed with 442nd Artillery of the 1st Calvary Di-vision near Plei Ku, South Viet-

Mr. and Mrs. Jones received word of the injury in a letter from Don Friday morning. The letter noted that the injury occurred on July 26, as Jones was involved in the relocation of a "base camp" near Kontun, 25 miles west of Plei Ku.

Jones, a company clerk, has been in several near misses recently. One month earlier, a truck just in front of the one he was driving hit a mine and injured three.

The letter from Jones noted that he will be shipped home August 21. He arrived in Vietnam on May 2, 1969,

tional amendments elections. Water bonds -- to finance the state's share of the \$9 billion Texas water plan--were defeated by only a few thousand

votes out of some 700,000 cast. Meanwhile, say water experts, the master plan is not dead. Preliminary negotiations for out-of-state water can continue, and another vote can be scheduled on the bonds in 1971 Hopefully by then, some of the major objections will be re-

solved. Texans, in the amendments election, solved one of the state's pressing problems, for the time being at any rate. They voted nearly two-to-one in favor of raising the welfare aid ceiling \$20 million a year, to \$80 million. This will get aid to families with dependent children (AFDC) payments back to par, and stave off any more cuts in the near

Voters also favored issuing \$200 million more in college student loan bonds to continue the Texas Opportunity Plan of aid to needy youngsters bent on higher education.

Elimination of deadwood from the state constitution met strong favor. So did payments to survivors of volunteer firemen. reserve or auxiliary police and other state or local government employees killed in line of hazardous duty.

On the other hand, voters were antogonistic toward four other proposed amendments on the August 5 ballot.

They overwhelmingly rejected pay raises for state legislators and annual sessions of the legislature. They disapproved property tax exemptions for non-profit water supply corporations by a fairly strong margin and narrowly rejected lifting the constitutional inter-

est rate ceilings on state bonds. Defeat of the annual sessions amendment put an end to hopes of many legislators that another single-year, no-tax state budget can be passed in the current special session and accepted by Gov. Preston Smith.

(04FR004901) DANANG, VIET-NAM (FHTNC) Aug. 5-- Electrician's Mate Third Class Thomas D. Chambers, USN, son of Mr. and Mrs. Carl Chambersof Gatesville, Tex., is serving at the U. S. Naval Support Activity Danang, Vietnam.

NSA Danang is the Navy's largest overseas shore command, providing logistic support to more than 190,000 U.S. and Allied troops throughout the five northernmost provinces of the republic.

In keeping with their motto "They Shall Not Want" the men at NSA Danang move thousands of tons of cargo each month, working two shifts, seven days a week, to keep cargo moving 24 hours a day.

The activity supplies troops with everything from mortar shells and amphibious tractors to aviation gasoline and dog food for sentry dogs.

DPS HAS NEW WEAPON AGAINST DRUNK DRIVERS

Colonel Wilson E. Speir, director of the Texas Department of Public Safety, said today that the State's new implied consent law which becomes effective September 1, 1969, gives law enforcement a much needed weapon to combat drunk driv-

NB 9 to 4.

The team received praise

"Depending on area, drinking drivers figure in 40 to 50 percent of the fatal rural traffic accidents in Texas," Speir said, "This is especially significant when you consider that traffic mishaps claimed 3,481 lives in the state last year."

Under terms of this law, a motorist is "deemed to have given consent" to a breath test if arrested for any alleged offense arising out of his actual operation or physical control of a motor vehicle while under the influence of intoxicating liquor.

If the suspect refuses the breath test, the officer certifies this fact in an affidavit, together with his probable cause for stopping the person, to the Department of Public Safety. This affidavit, when it reaches the DPS, forms the basis for the petition filed by the Department in the corporation or justice court of the county of residence of the person refusing the test to determine if the officer had probable cause for thinking the person was driv-

ing while intoxicated. Should the judge find the officer had probable cause to arrest the person for driving while intoxicated, the Department of Public Safety, acting on the court's finding and the of-ficer's sworn statement that the subject refused the test,

suspends the subject's driver license for the period set by the judge. The suspension, which may run for as much as one year, is subject to appeal to a higher court.

The implied consent law allows the person detained the right to have a test of his blood alchohol taken by his own physician, qualified technician, chemist or registered professional nurse, if taken within two hours after his arrest.

The law also places the responsibility with the Texas Department of Public Safety to certify breath testing equipment and persons authorized to administer breath tests. Consistent with its policy of

assisting local authorities when ever possible, the DPS will offer at least three schools to train city and county officers in operation of the Breathalyzer. These schools, which will be conducted at the Law Enforcement Academy in Austin. will be limited in enrollment to key personnel from localities which now possess, or plan to obtain, breath testing in. Ju-

Currently, the DPS is utilizing breath testing equipment in a voluntary program. The Breathalyzer instruments are located at central points in some 90 counties, and are operated by DPS officers who have completed an intensive traning course. The instruments are checked and serviced weekly

by qualified DPS chemists. With the advent of the new law, we hope to obtain at least one breath testing instrument for each county, and plan to train additional personnel in their operation," Speir said.

In view of my firm belief that

our whole economy will be lost if we do not take immediate steps to slow down inflation, and in view of the fact that the bill was considered under what is known as a "closed rule", prohibiting any kind of amendments, I felt, after we balanced the good and the bad, that it was better to send the measure on to the Senate, where the Chairman of the Finance Committee has promised that he would eliminate at least some of the objectionable features. HOSPITAL AID CUT LOOMS

Texas hospitals got warning from Texas health authorities that federal building funds may be sharply curtailed under White House budget proposals. Twenty-eight Texas appli-cants for Hill - Burton hos-

pital construction aid were notified that the State Health Department received a tentative allocation indicating a 'drastic reduction' in U. S. money for the state.

Tentative allotment is re-ported about \$2,1 million for general construction and 689,000 for modernization of Texas hospitals in 1970. About \$1 million would go to public health centers, according to health officials who said they hope Congress will raise White House recommendations. About \$8 million was allotted Texas for general construction this year and \$2 million for modernization.

mese government stated both individually and jointly that the single non-negotiable issue at the Paris peace talks is self determination for the Vietnamese people. That view was enuciated clearly and it has been repeated again and again.

But the Hanoi regime has still not responded in any positive way that can be construed as indicative of any sincere desire for peace. There has been an apparent reduction in level of the fighting in South Vietnam. Hopefully, this will continue and eventually develop into a sign of peace. But thus far, Hanoi has not even been willing to pretend that they are actually scaling down the level of fighting and of course, they could be build-ing toward another main force

Dickie - Crayne Pledge Wedding Vows In Dallas

Now, this is by no means a religious column, and I don't like to think of myself as being religious, but a Christian, for there is a big difference, but as our teenagers would put it, this kind of program is really my thing!

And, it is my privilege to write what I like, so here goes.

No preaching could have been more effective and it's as shame there were not more in the congregation to receive such

As these kids lifted their voices in praise to God, I felt a sense of pride that we have young people we can depend on in

Spiritual Memories were kindled as the choir sang song after song. Working with seven-year olds in the primary department the past years has been one of the most enlightening experience of my life. These kids love to sing and they do a good job. As the Red Bridge Choir sang "Somebody's Knockin' at Your Door" 'He's Everything to Me," and "His Sheep Am I," I remember quite vividly these were some of the primaries' favorite songs. I know very little about music, but I know a job well done.

Another song on the program that stirred my heart was "Heaven Came Down and Glory Filled My Soul." This is a favorite of mine, because the church I belonged to before coming to Gatesville loved this song. If a church choir ever had a theme song, "Heaven Came Down" was ours. This always put everyone in the mood to worship.

"Kum Ba Yah" was the invitational song Thursday night of-iered by the choir. This is an African song, translated means, "Come by Here." This also brought back memories. When I was Young Women's Auxilary Councilor, the YWA girls had a program on Africa, giving some history, interesting facts, and customs on the country. To break the ice with our invited guests from another church, we even played an African game. At the closing of the program we sang "Kum Ba Yah" which was very effective and left good memories for a very successful pro-gram.

made us feel so young again!

The appearance of the room, with luggage, curler bags, makeup kits and clothing reminded me of the slumber parties my
group of YWA girls had and also those wonderful house parties.

Book of Memories--Yes, that's what I should do, write a book on all my personal experiences and recollections. It is fun and rewarding to reminisce and I'll always cherish these memories and look forward to adding others.

I Must Comment on the "Summer Moon-In" party hosted by Laura and Scott Stephens, July 31.

No, I was not there, but a write-up was brought to the paper about it. This must have been the "party of parties" for this season with such a host of cute ideas.

Other Moon Ideas for parties suggested by Vivian Brown, A. P. Newsfeature writer is to use old moon tunes for background music such as "Harvest Moon", "It's Only a Paper Moon," "Moonlight and Roses," and "Moon Over Miami"

which are in keeping with the spirit of the thing.

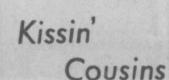

If you plan to have a moon-in or out-of-this-world party, you might add "Half-moon Surprises" to the menu-cut a watermelon lengthwise, hollow it out by using a scoop to make small balls of it. Fill the hollowed watermelon with melon balls from cantaloupe, honeydew, or other melons for color

Now, is the time to launch a moon party and invite your favorite local astronauts. Have fun!

Bridge Street Baptist young married couples Sunday School class had a sandwich supper and fellowship Friday night. Anita Haralambou is still talking about the many different

varieties of sandwiches and how mmm good they were.
Out of Pocket this week are David and Melanie Schipper who left Sunday on vacation. Their first stop was to be in Freeport where they were to visit with her uncle's family, the Harold Wolf's. From there they are going to Shreveport, Louisiana, to visit with a friend, Dwain Alderson, who is stationed with the Air Force at Barksdale Air Force Base.

On their way home they will stop in Tyler to see Melanie's grandmother, Mrs. Vera Wolf.

To the left--Pamela Michell Palmer, daughter of Mr. and las. Mrs. Donnie Palmer, and Steven Douglas Rhodes, son of Mr. and Mrs. Ronnie Rhodes, celebrated their first birthday Saturday, August 9, on Pam's birthday. Steven's was on August 7. The toddlers were feted with a party Saturday afternoon in the Pal-mer home. Pink and blue was the color theme used in plates, cups, and cake.

Party favors were hats, blowouts, masks and balloons, Fruit punch was served with the white sheath cake.

Guests were relatives and close friends.

Out Of State Visitors

Mr. and Mrs. Earl Carpenter of Leon Junction have had out of state visitors in their home the past two weeks. These enjoyable visitors are Mr. and Mrs. Howard Boyd and daughter Charlene from Pittsburg, Pennsylvania.

This was the first trip to Texas for the Boyds. They will begin their journey home on Tuesday, August 12.

Faith Sunday School Class Has Social

The Faith Sunday School class met in their regular monthly and social meeting August 6 in the Fellowship Hall of Gatesville's First Baptist Church.

The president, Mrs. M. B. Martin, presided over the business meeting. Percepts were

Conference Slated

"The Shape of Things to Come" is the theme for the 13rd annual conference of Professional Agricultural Workers of Texas. The meeting will be held Aug. 21-22 at the Worth Hotel in Fort Worth.

President Joe Rothe, state agricultural agent, Texas Agri-cultural Extension Service, said "We will take a close look at factors which may shape the future of agriculture and relat-

The Thursday afternoon program, beginning at 1:15 p.m., will deal primarily with problems relating to corporate farming. "What is Corporate Agriculture" will be discussed by Dr. Wm. E. Black, Texas Extension economist in marketing and policy. He will be followed by President Tony T. Dechant, National Farmers Union, Denver, Colo., on "The Corporate Invasion."

"Corporations and the Consumer" will be discussed by President Stanley Ward, Kern County Land Co., Bakerfield, California. The final afternoon speaker will be Dr. J. D. Preston, Texas A& M University sociology professor, on "Socioeconomic Aspects of Corporate Agriculture."

Friday morning's session will include "Future of Convenience Foods" by Harvey Hearl, Griffith Laboratories, Union, N. J., "Food Substitues" by Dr. Lloyd W. Rooney, Department Soil and Crop Sciences, Texas A & M: "Trends in Fibers", Manager E. J. Stavrakas, Soft Goods Testing, J. C. Penney Co., New York City and "A Layman Speaks," Mrs. Jean Davis, a homemaker from

The noon luncheon speaker will be Dr. H. O. Kunkel, dean, College of Agriculture, Texas A & M University, and acting director, Texas Agricultural Experiment Station, on "The Shape of Things to Come in

Agricultural Research." Rothe said a large turnout is expected for the conference because of the widespread interest in the subjects and program speakers. He added that the program is fast-moving but time has been set aside for question and answer periods following each of the sessions. Membership in the organization is now more than 600,

"And Jesus answered and spake unto them again by parables, and said;

The Kingdom of Heaven is like unto a certain King, which made a marriage for his son, and sent forth his servants to call them that were bidden to the wedding, and they would not come.

Again he sent forth other servants, saying, Tell them which are bidden, Behold, I have prepared my dinner, my oxen and my fatlings are kill-ed, and all things are ready, come unto the marriage, but they made light of it, and went their way, one to his farm, another to his merchandise, and the remnant took his servants, and entreated them spitefully and slew them. But when the King heard thereofhe was wroth and he sent forth his armies, and destroyed those murderers, and burned up their city; Then saith he to his servants: 'The wedding is ready, but they which were bidden were not worthy; Go ye therefore into the highways, and as many as ye shall

find, bid to the marriage.' So those servants went out into the highways, and gathered together all, as many as they found, both bad and good, and the wedding was furnished with guests. And when the King came in to see the guests, he saw there a man which had not on a wedding garment, and he saith unto him, Friend, how camest thou in hither not having a wedding garment? And

he was speechless. Then said the King to the servants, bind him hand and foot, and take him away, and cast him into outer darkness, there shall be weeping, and gnashing of teeth, For many are called, but few are chosen." Matt. 22:1-14

The above scripture is selfexplanatory. It says the Kingdom of heaven is like unto this. Jesus always made his teaching so simple and plain, usually by parables.

He wanted them to know what the Kingdom of heaven was like, and that all things were ready, and what it would take to enter

Today the provision has beer made for our salvation. Jesus hanged on the cross until every need was met for mankind Having been beaten with mar stripes for the healing of our bodies, His life blood poured out for the atonement of our sins, He cried out:"It is fin-

Ephesians 6:10-18 teaches us what the armour of God is: we quote: "Finally, my breathren, be strong in the Lord, and in the power of his might. Put on the whole armour of God, that ye may be able to stand against the wiles of the devil--that ye may be able to withstand in the evil day, and having done all, to stand"

Since it is the life we live here on this earth, which determines whether or not we are able to be at the marriage of the Lamb, and this is the requirement of being ready: "For his wife (the church) hath made herself ready, and to her was granted that she should be arrayed in find linen, clean and white, for the fine linen is the rightousness of saints" Rev. 19:7&8. "These are the true sayings of God." (9th verse.)

As the man, in the parable Jesus gave, was speechless, when he had not on the wedding garment, and he said the Kingdom of heaven was like unto that, so we will be speechless before God, if we have not on the robe of rightousness for all things have been made ready.
