

NEAR TRAGEDY . . . "There'll be no dove season this year," said Gary Don Statham of North 30th Street, Waco as he looked over the wreckage of one of two jeeps that were demolished in a near tragic accident Friday night.

Statham and his hunting companion Kenny Hill, also of Waco, were in route to their hunting lease in the Big Bend area when the wreck occurred.

Miraculously, injuries to the men were negligible. One jeep was in tow.

Investigating officer assistant Chief of Police, Everett Gribble said the accident occurred as the Waco men were traveling west on Main, when Danny Whitt of Gatesville turned in front of the jeeps into the Snak Shak.

The driver of the two hunting vehicles lost control and the jeeps jackknifed turning over in the local drive-in's parking lot.

Statham remarked at the scene that he had purchased the lead jeep only two weeks earlier. The second jeep was a 1966 model full of groceries and supplies for the hunting excursion.

**Rebuilding May Be
Key For
Evant Squad**

Rebuilding could reach a climax this season for the Evant Elks.

The Elks, coached by Bruce Jones, will feature a hard hitting inside attack lead by Kyle Arnold, a 205 pound fullback, Arnold seemed unstoppable last season and this season should be even more concerning.

Coach Jones has a full array of experienced backfield talent with Kyle Arnold, David Pruden and Keith Suggs. The quarterback spot will be an unknown factor as Coach Jones probes for talent.

Presently, the Elks are trying out David Pruden, Stanley Stanford, and Doug Freeman.

The Elks have six returning starters to lead them this season including Kyle Arnold, John Conner, David Pruden, Terry Hartman, Darrell Forrest and Keith Sugg.

The interior line will have some new faces replacing old reliables, mainly at tackle.

Coach Jones has four boys working for the tackle spots, presently John Conner, a definite starter and Bob Grba, a 170 pound sophomore, Terry Brown, a 200 pound freshman and Scotty Koether, a senior at 146 pounds.

Jones will play a ground gaining type of football using his power to offset speed deficiencies. Coach Jones was a longtime six man coach, before coming to Evant in 1968 and he will be experimenting with some wide open offensive plays this year.

**Arts And Craft Program
Successful At State Schools**

School at the Gatesville State School for Boys is an eleven month program from September to the end of July.

During the one month summer vacation students of the school complex turn to the Arts and Craft programs available at the schools.

This year marks the second year of the Arts and Craft program and the entire student body participates in the activities.

State School Superintendent, M. B. Kendrick reported enthusiastic response from the students in such activities as ceramics, painting, weaving, and other art areas. "We were better prepared for the program this year," stated Kendrick.

A & C Director at Terrace School, Mrs. Tom Shoemaker said, "It is one of the most satisfying programs we conduct." The boys enjoy the 1 1/2 hour sessions each week day.

The massive program is conducted under Title I Federal Assistance program and will be a regular feature of the summer vacation at the schools.

At the Terrace School the Arts and Crafts Program was conducted by Mrs. Tom Shoemaker. Administrators pictured above are Mrs. Odessa Haywood, Mrs. Tom Shoemaker, M. B. Kendrick, and Mrs. Eddie Conlin.

**Dove Hunters
Take To The Field**

Dove season opened yesterday at 12:00 noon and hunters found doves light. The season runs for 60 days and bag limits for the 1969 season is ten doves per day and 20 in possession. The bag limits have been dropped from last year's 12 doves per day and 24 in possession.

Local Wildlife Manager, Jerry Noles, said late last week that doves were few and far between, right now. He noted that with cool days like we are having, the doves could quickly move into the area.

There are no dove census lines in Coryell County, but Noles said that just random inspection pointed to a low population now.

Concerning guns used for dove hunting, Noles noted no rifles are allowed and shotguns must be "plugged" to three shell capacity.

The biggest problem facing Noles during the coming hunting season will be "road hunters," Noles said, "it gets bad this time of year." Recent changes in the laws governing "road hunting" will make it expensive for hunters in cars.

Noles said state law now sets minimum fines at \$50 and maximum at \$200. Noles pointed out that charges can be filed on all occupants of a vehicle which is involved in a "road hunting" incident.

Noles asked livestock and property owners to help in the problem this year by reporting road hunting incidents to the sheriff's office. License numbers of vehicles will help in locating violators.

"By October 15, we will know if and where any doe permits will be issued," said Noles concerning the upcoming deer season. Noles speculated that there could be some doe permits this year, but only if census counts show the need.

"Archers will have a deer season in Fort Hood this year," Noles reported. There should be some good hunting for the bowmen in the Hood area. Noles said the special season will be limited to October weekends.

The group coming deer hunting season will start with an Archery Season in Coryell County from October 1 to October 31. Then the regular season opens on November 8 and ends December 31.

Noles said the period from Nov. 1 to Nov. 7 is not to be hunted by any type hunter. The seven day period is closed to all deer hunting.

**Judge Storm Cited
By CTCOC Group**

The Central Texas Council of Governments saluted, County Judge Norman Storm, recently in their monthly Action Report. The CTCOG formerly the Central Texas Regional Planning Commission cited Storm as "involved in the concept of regional planning since the beginning efforts were made to organize planning activities on a regional scale in Central Texas."

Judge Storm, while having his time well occupied by handling the reigns of one of the fastest growing counties in Texas, has taken time to help develop the "good neighbor" policy in regional planning. Judge Storm was instrumental in the initial stage of helping the CTCOG become a reality to help provide the planning needs for the 6-county Central Texas area.

We salute Judge Norman Storm the Vice-President of the CTCOG, as truly being a progressive, and outstanding leader in Central Texas.

In other CTCOG business, Charles Cass, executive director, announced that the Coryell-Hamilton Soil & Water Conservation District has joined the ever growing membership list in CTCOG.

The report noted:

"At a regional bi-monthly meeting of the Chamber of Commerce Advisory Committee, chamber officials gave conditional approval to the action of creating a regional Industrial Development Council to be established within the framework of CTCOG. Fourteen chamber officials from Killeen, Copperas Cove, Belton, Gatesville, Rogers, and Temple met with Judge J. F. Clawson, President of CTCOG, and Charles Cass, Executive Director of CTCOG, to discuss opportunities in the region for Industrial Development and overall regional planning. A committee with Dan Mantuff of Killeen as chairman; Bob McElroy, Belton; Craft Harrison, Copperas Cove; and James Hestand, Temple, was appointed to establish guidelines for the regional industrial council. A meeting has been scheduled in Killeen, August 20, at 10:00 a.m., to begin work on the guideline policies.

The Central Texas Law Enforcement Council discussed the alternative of implementing law enforcement action funds in the Central Texas region. Approximately \$14,000 will be received for the 6-county area to put its 5-year law enforcement plan into action. Chairman Gordon Cass presided at the joint meeting of the CTLEEC and the Metropolitan Youth Committee. The Criminal Justice Council has established a priority system for the distribution of the law enforcement action funds. The first priority action is educational advancement for law enforcement officers and the second priority is improved communication systems. The CTLEEC has indicated that these first two priority items will probably exhaust the limited amount of action funds for this 6-county region. A joint meeting of the CTLEEC and the Executive Committee of the CTCOG is to be held the latter part of August with a representative from the Criminal Justice Council being present to discuss and make recommendations for the disbursement of the action funds.

Poage To Run In 1970 Primary

WASHINGTON (AP) One of the chores for Texas congressmen in their three-week recess just ended was to test the political climate of their districts to see who is running next year.

Rep. W. R. Poage of Waco, for example, toured his Central Texas district.

He, too, has heard whispers that state Sen. Murray Watson, also a Democrat, may either oppose him in the 1970 primary or may be counting on his not seeking re-election at all.

Poage, 68, definitely plans to run again, according to close

friends. He has been in Congress 32 years and, as chairman of the House Agriculture Committee, has no inclination to drop out now. The Nixon administration will have to present its future farm program to his committee. Much of the work on it may not be complete by next year.

In a speech to a milk producers meeting in Waco during the recess, Poage repeated again his argument that Americans still get the world's best bargain in food.

The consumer spends only 17 per cent of his disposable income on food in the United States, compared with 25 to 30 per cent in Western Europe and 40 to 50 per cent in Rus-

sia, Poage said.

He said the farmer gets only 3.3 cents per pound for what, including government subsidy payments, for all the wheat used in a 25-cent loaf of bread.

Wheat brings the farmer less now than 20 years ago, he said. A dairyman takes home about half the retail price of milk but from that must pay rent or taxes and interest on his real estate investment, for the purchase and upkeep of his herd, and for the cost of labor.

Poage said housewives complain about the high cost of dressed meat in the grocery store. Last week round steak brought \$1.59 per pound in Washington, he said. But choice steers brought no more than 31 cents per pound in Omaha.

He also told voters that, in exchange for the vital city block support for future farm legislation, the congressmen would need to support measures to help the cities.

He said the food stamp program was a case in point, of interest to both city and country persons.

Poage opposed a proposal for free issuance of the food stamps. He said he prefers a program where at least some cost is borne by low-income recipients.

...Crime

from page 1

up 7.2 percent and thefts up 3.9 percent.

In Texas, the crime clock ticked off one major crime ev-

ery 1 1/3 minutes for the January through June period. There was one murder every eight hours, a rape every 4 1/2 hours, and a burglary every five minutes. An aggravated assault occurred every 21 1/2 minutes, a theft every 2 1/3 minutes, and an auto theft every 16 minutes.

The greatest increase in crime was in urban areas where the overall rate increased by 8.5 percent. In rural areas throughout Texas, the average rate increased by less than one percent.

An analysis of crime rate changes in urban areas by population indicates an upswing of almost nine percent in cities of over 100,000 population. The rate is up 7.1 percent in cities of over 50,000 and up 18.8 percent in cities having populations between 25,000 and 50,000.

Cities having populations between 10,000 and 25,000 had an overall rate increase of 6.9 percent, while those between 5,000 and 10,000 had a 12.4 percent decrease. Smaller towns from 2,500 to 5,000 population report an increase of just over 18 percent.

Statewide crime clearance

rates for the first six months held at 27 percent, the same as 1968. However, DPS statistics indicate an 84 percent clearance rate for murders and 66 percent for rapes, with a 39 percent clearance rate for robbery.

In urban areas, the 1969 crime clearance rate is 26 percent, the same as last year. Rural clearances stand at 37 percent, as compared to 43 percent at mid-year 1968.

New Clean Air Car

CHICAGO — This Clean Air Car which runs on liquefied petroleum gas can help reduce air pollution and smog because the engine exhaust is from one-third to one-half lower in hydrocarbon emissions than for most late model cars. The Clean Air Car, shown during an actual demonstration, is a 1969 stock production sedan that was converted to run on LP-gas engine fuel with simple external engine modifications. This fuel is readily available and powers city buses, over-the-road trucks, industrial lift trucks, taxi fleets, farm tractors and other vehicles.

Baptist Rights Unite Miss Cynthia Draper And James Farmer In McGregor

Mrs. James Farmer
Formerly Miss Cynthia Draper

Miss Cynthia Draper and James Farmer were united in marriage Saturday evening in College Avenue Baptist Church in McGregor. Rev. Jack Riley, uncle of the bride, performed the candlelight ceremony.

The bride is the daughter of Mr. and Mrs. Roger H. Draper of McGregor and the granddaughter of Mrs. E. O. Draper of Gatesville. The bridegroom is the son of Mrs. John Hodde, also of McGregor, and the late Cliff Farmer.

Mrs. Belva Graham provided the wedding music and Rev. Dewey Baldwin was soloist.

Given in marriage by her father, the bride wore a formal gown of white peau de soie. The scalloped neckline bodice and tapered sleeves were of chantilly type lace and a lacy front cascaded down the A-line skirt. The detachable chapel train was trimmed with lace. Her shoulder length veil was held by a crown of seed pearls and crystals. She carried a cascade of autumn colored daisy mums and pompoms. For something borrowed she wore a pearl necklace belonging to an aunt. A ring belonging to the bridegroom's grandmother provided her with something old.

Mrs. Donna Darrington of Nacogdoches was matron of honor and Mrs. Rick Lawson, sister of the bridegroom, was bridesmaid. Amy Permenter, niece of the bridegroom, was flower girl. They wore street length dresses of olive crepe trimmed with ecru lace and carried cascades of flowers similar to the bride's.
