

## Gatesvilleite Speaks Out At National Educators Convention

Miss Louise Colgin of Gatesville was one of 214 visiting Texas delegates at the Association of Classroom Teachers and National Education Association joint convention held in San Francisco May 30 through July 6.

Miss Colgin, known across the state for her undying efforts to further the cause of education, took to the convention floor during a discussion of the pros and cons of educators becoming involved in the questions of military operations in the orient. Addressing the assembled educators as an individual, the Gatesvilleite said "Educators should not take any official position concerning withdrawal from Vietnam and involvement in Indo-China." Miss Colgin stated in an interview that the general public, educators included, do not have access to the information that government officials have in their possession.

The Association of Classroom Teachers headed off the convention activity with a delegate assembly for discussion of business. The National Education Association convention followed the CTA meet.

Texas was cited for having the greatest number of visiting delegates. Two hundred fourteen educators from the Lone Star State squeezed into the convention hall.

Miss Betty Buford of Plainview, national president of the Association of Classroom Teachers, was presented a bouquet of 75 yellow rose buds in appreciation for her outstanding leadership in promoting the quality of education. She was awarded a life membership to the Texas Classroom Teachers Association by Oather Raynes of Dallas, president of the as-

tations by top performers from several fields. The show, entitled "A Happening In San Francisco" included the San Francisco Boys Chorus, famed oboe soloist, Mark Salkind, the John Handy Concert Ensemble's "Soaring New Sound of the 70's" opera selections and ballet numbers.

Miss Colgin is known across the state for her devotion and enthusiastic involvement in educational organizations. She is past State Chairman for Teachers Edu-

cation and Professional Standards Committee. Her duties as chairman of the state committee ended June 1.

A past District 12 officer, Miss Colgin has served as president of the Killen Classroom Teachers Association and was recently in Austin meeting with the commission to study certification standards for school administrators.

Miss Colgin teaches at West Elementary School in Killen.

## Hospital Bids Opened Today

Bids will be opened at 4:00 p.m. today in the county court room for a plan remodeling and enlarging of hospital's surgical wing.

County Commissioners and the County Hospital Board will review the bids and construction is expected to begin within a few days after the contract is awarded.

The remodeling calls for a complete remodeling of the surgical facilities at the Coryell Memorial Hospital along with modernizing X-ray facilities and kitchen. The remodeling will also include

three new patients rooms.

The Hospital board has been working on plans for this remodeling and enlarging for well over a year. Financial problems delayed the project for a time.

Commissioners and Hospital Board members would not estimate the cost of the present remodeling project. The construction is to be financed with the county issuing time warrants and the warrants are to be paid from hospital revenues.

Officials have hopes of completing the modernization project by mid December.

## Mrs. Brown To Begin Duties Thursday

Coryell County will have a County Home Demonstration Agent July 16 as Mrs. Wanda Brown, formerly of Mount Pleasant begins work at the position.

Mrs. Brown, a graduate of Baylor University, will fill the vacancy left by Miss Grace Chandler in December of 1968. Mrs. Brown received her degree in home economics in January of 1970.

Mrs. Brown will have her office at 2504 Main Street with the County Agents office.

Mrs. Brown and her husband Gary will move to Gatesville this week. Gary is presently a physical education major at Baylor University.

An old business has come back to life in Gatesville due to the centennial preparations. Austin Spence has begun repairing wagon wheels at his blacksmith shop on South 6th Street. Spence's Blacksmith Shop is in itself a page out of history but recently Spence received four wagon wheels which needed a variety of repair work. Spence will have to fit the steel outside rim around the old wooden wheels in a different manner than in the early days. He recalled that in the early days he could remember that a massive fire burning just south of his shop with from 15 to 20 rims heating. To fit the steel rims on the wheel blacksmiths heat the steel causing expansion. After mounting the hot steel rim the wheel is cooled.

## Summer Fires

Grass Fires, A Summer Symptom... Fire Chief, Pat Patterson rides the back of the Coryell County Fire Unit Stationed at Gatesville at a fire Friday on Straws Mill Road. Driving the truck was Volunteer Fireman, Don Powers. The two men had the small fire under control in about 15 minutes. The cow in the foreground never seemed to get upset over the fire or truck.

## Symptoms Of Summer Already Evident In Coryell

Hot-dry summer weather has arrived and the high temperatures are noted as evident in other ways besides "mercury readings."

The city water department is pumping at very high rates already this summer. Grass fires have already become a serious problem due to the dry grass and weeds.

Last year the city water department's largest single day of water consumption was 1,915,000 gallons in early August. City Manager, Skipper Wallace, noted that water consumption has begun to pick up over the city.

A look at temperatures

and water consumption is listed below:

July 1-1,435,000 gal.-96 deg.
July 2-1,415,000 gal.-96 deg.
July 3-1,485,000 gal.-99 deg.
July 4-1,700,000 gal.-103 deg.
July 5-1,308,000 gal.-97 deg.
July 6-1,562,000 gal.-98 deg.
July 7-1,644,000 gal.-100 deg.
July 8-1,704,000 gal.-100 deg.
July 9-1,663,000 gal.-100 deg.

Wednesday through Friday the weather reporting station at F. F. Curry's home reported four straight days of 100 degrees.

Friday firemen answered the alarm to a rural grass fire on Straws Mill Road to

open the season of grass fires. Pat Patterson, fire chief, said Saturday that "we have been lucky so far this year. Last year we had several grass fires in June."

The fire Friday afternoon burned about three acres of pasture land. The blaze was thought to have started when the sun focused through a piece of glass. Patterson notes that in the past during dry periods fires have been known to start with a piece of glass.

## CTCOG Receives \$11,250 Grant For Aging

The Texas Governor's Committee on Aging has awarded a grant of \$11,250 to the Central Texas Council of Governments for planning and development of programs for the aging. The program will be called Focus on Aging. The funds are part of a nationwide network of State and community programs for the elderly established by Congress in the Older Americans Act of 1965. The grant will be matched with \$3,750 from the Central Texas Council of Governments, which has headquarters in Belton, and will be used to serve the six counties of Mills, Hamilton, Lampasas, Coryell, Bell and Milam.

The Governor's Committee, chaired by S. R. Greenwood of Temple, has been interested in establishing planning programs for senior Texans on an area-wide basis. Presently there are local Committees on Aging in each of the 254 counties. See CTCOG page 7

## "Early Gatesville" Displayed In Chamber Of Commerce Window

The spirit of the centennial is beginning to come alive through our local citizens. Among the many Gatesvilleites readying for the 100 year celebration is the Chamber of Commerce office.

Mrs. Waldean Cummings, secretary at the Chamber of Commerce office, is in charge of the "early Gatesville" display. Many of the items that can be viewed on and through the window were contributed by local residents caught in the tide of centennial preparation.

The pictures were first put up by Mrs. Cummings to aid people in ideas of dress for the centennial. Gradually

more pictures were brought in depicting family background and old items handed down through generations.

The various pictures displayed include the Austin Spence Black Smith Shop, presently in operation, Raby Park, an old steam thresher, and the Leon Bridge with local Gatesvilleites in the foreground. Many of the pictures were found in the Chamber of Commerce office by Mrs. Cummings.

Others to be found include a family picture of Mrs. Cummings father taken in 1949; a football team featuring Kyle Vick and A. C. Vick, father and uncle of Mrs. Hy Da-

vidson; ice plant and welding shop owned and operated by Mrs. R. L. Clemons' father dating back to 1920; a candy wagon, which served local residents back in 1914, built by Mrs. Clemons' father for her brother.

Taken from a 1984 newspaper is a face view of Gatesville, complete with the Cotton Belt Railroad which built a track into Gatesville, the old depot and turntable being on North Lutterloh.

Decorating the inside window is an original French Renaissance table. The table was purchased at an auction in 1953 by Mrs. Bill Bowlan

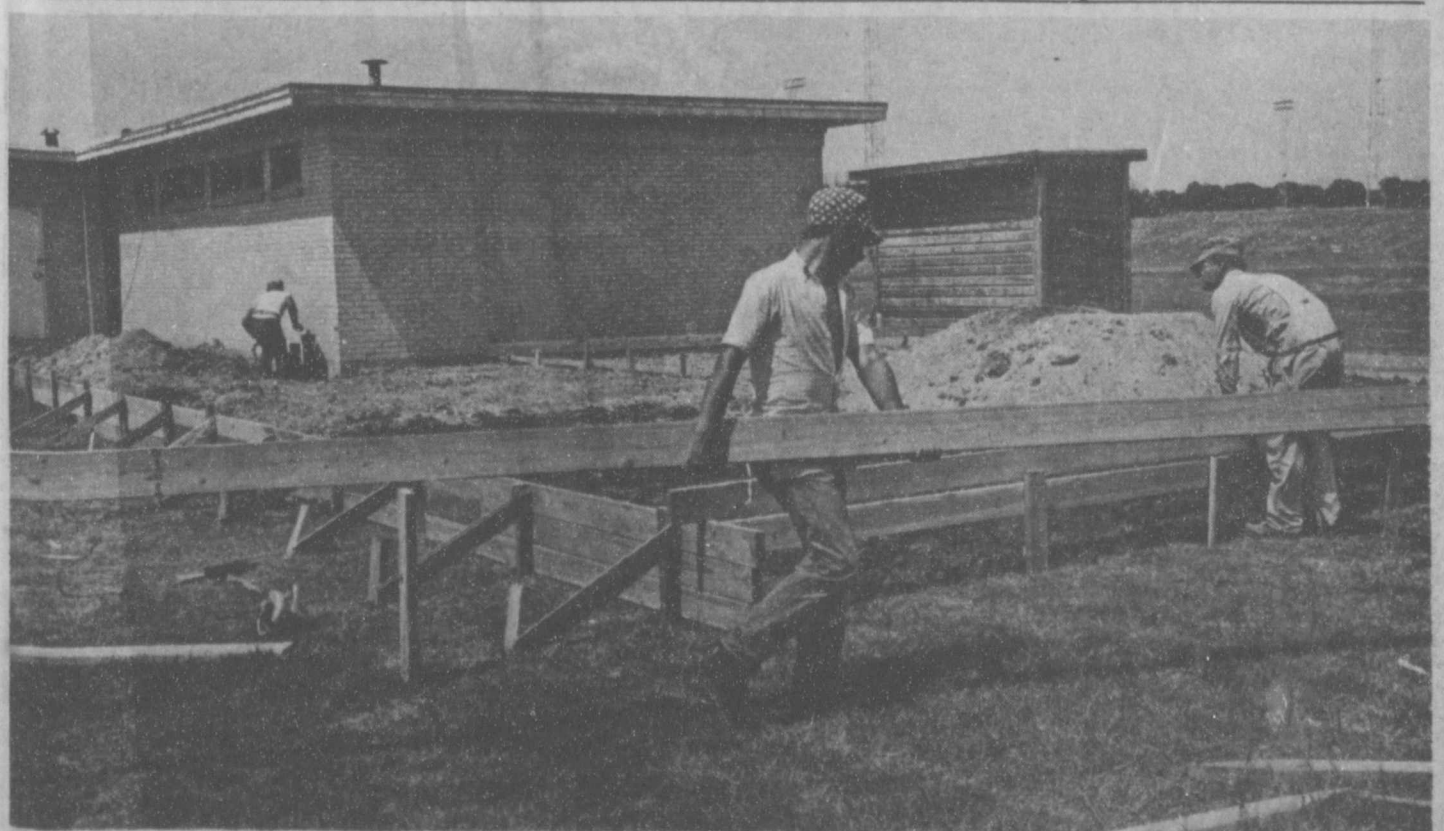

in St. Nazaire, France. The valuation of the hand carved marble top table is estimated between \$750 to \$1,000 dollars. The rocker, also owned by the Bowlans is 150 years old. It was rebuilt and upholstered by Mr. Bowlan. Mr. Harmond Sellers contributed a hoof knife used in the 1880's by his grandfather, Joel Sellers. The handle of the knife is made from the horn of a steer. A Woman's World magazine of 1919 was brought in by Mrs. Paul Henson. From Jim Miller's store, a Van Rattle,

see CENTENNIAL page 5

Work on the new National Guard Armory is moving along well with hot, dry summer days. The construction of the foundation and substructure should be completed soon. Workmen pictured above are concreting in the air conditioning ducts in the under the floor level.

The construction project east of Gatesville was contracted to Linden Coone Construction Co., of Waco for \$198,193.45. The contract allows 310 calendar days for completion.

## FIELDHOUSE TO DOUBLE IN SIZE

With an estimated 140 athletes expected to try out for the high school football team at Gatesville High School this year, an 1800 square foot addition to the athletic field house is now under construction.

The \$7,250 project will approximately double the present dressing facilities. New shower rooms are also planned in the new construction. The construction will be completed by August 15, the opening of pre-season workouts for the Hornets.

W. F. & J. F. Barnes Inc. will construct the interior walls of concrete tile. Exterior brick will be completed at a time after the August 15 deadline.

SNOW CONES, HAMBURGERS, POP CORN, ALL AT THE FAIR... Thursday evening turned out to be a action packed night for hubby David and I when we journeyed to Riesel to the annual Riesel Fair. The exhibition is known throughout the area for its warm, hospitable air and friendly "country" folks who make their annual pilgrimages to the grounds.

We Gatesville Junds met up with in-laws in the parking lot, quite by accident. We enjoyed "fairing" our way about the bumpy, rocky fairgrounds with Mr. and Mrs. Paul Jund, and Mr. and Mrs. Norman Erskine. We were glad to visit with aunts, Mrs. Jeanne Holze, Misses Alma and Edna Jund, Mrs. Lillie Hassell and Mr. and Mrs. Abert Bluhn.

Hamburgers, pie, soda pop and snow cones were on the menu for the delightful evening. At any rate, we "faired" pretty well.

NEW MEXICO RESIDENTS VISIT HERE OVER THE FOURTH... Mr. and Mrs. Frank Newton of Artesia, New Mexico spent the week of July 4th visiting in Gatesville with his mother Mrs. W. D. Newton and brother of this city. The Newtons' daughter Laurie was along for the visitations and Fourth of July celebrating.

A special treat came July 3rd when the Newtons welcomed the J. E. Blankenships and their daughter Nancy Newton, home from a trip to Europe, which centered around Vienna, Austria.

SPRY AS CAN BE AT 80... Two Gatesvilleites who celebrated sixty years of marriage this week are the picture of the golden years of life. The couple I am speaking of is Mr. and Mrs. J. E. Brazzil of 1412 Saunders.

When interviewing the delightful pair Friday, I was charmed by their warmth and humor. The Brazzils look back on their 60 years of marital bliss as just that--pure bliss. The happy couple reflected on their lives as centered around farm life and producing their own food and providing for their family through the soil.

Their unselfishness was recognized by a neighbor, a newcomer, for whom the Brazzils had prepared meals while his wife was ill. The neighbor surprised the elderly pair with a beautiful anniversary cake topped with a candle for each of their 60 years together.

We at the NEWS wish the Brazzils a most happy 60th anniversary and wish for them great happiness in the years to come!

GATESVILLEITE TAKES IN CHINA TOWN AND SAN FRANCISCO... The many worlds of San Francisco were discovered recently by Miss Louise Colgin of Gatesville. Miss Colgin was in San Francisco as one of 214 visiting delegates from Texas to the Association of Classroom Teachers and National Education Association conventions.

As part of the convention activities, Miss Colgin was a guest of Miss Betty Buford of Plainview, national president of the Association of Classroom Teachers, at the Classroom Teachers' Night activities in the San Francisco Opera House. World famous performers in a variety of theatrical and musical arts were cast in the show entitled "A Happening In San Francisco." Famed oboe soloist Mark Salkind, a 17 year old artist, was acclaimed by the crowd of educators. Young Salkind has been affiliated with the Leonard Bernstein orchestra. One performance on the bill, the John Handy Concert Ensemble, was somewhat strange according to the traveling Gatesvilleite. The group's "Soaring New Sound of the 70's" sounded like the musicians were "tuning up at the same time," says Miss Colgin. The "sound" sounded like the delegates on the convention floor do--"they just couldn't get together!" she added.

Quite pleasant entertainment was found in watching the ballet number and hearing the oper selections from "Madame Butterfly." Miss Colgin was much impressed with the sound of the San Francisco Boys' Choir. She thoroughly enjoyed sitting in Box A at the famed opera house with one of the stars of Room 222, television show.

"There was even a little time for sightseeing on our own," Miss Colgin said. Several of the Texas delegates including the Gatesvilleite took in several of the city of hills most lovely sights.

The Japanese Gardens, located in Golden Gate Park, offered a few moments of treasured quiet meditation in a most serene setting. The gardens are filled with streams and oriental bridges enhanced by cherry blossoms. Of course what trip to San Francisco would be complete without a crossing of the Golden Gate Bridge. The bridge spans across the San Francisco Bay, 266 feet above the water. The structure is the tallest and largest single span suspension bridge and was built at a cost of \$35,000,000.

The unique cable car system so characteristic of San Francisco provided an exciting trip up famed Knob Hill for Miss Colgin. The trip included the changing of the tracks at Powell and Market Streets. When the cars switch rails, the car is emptied of passengers and litterly pushed around while on a revolving diesel to the new track and proceeds to the destination.

China town offers the tourist a chance to cross the pacific Ocean on an Oriental tour without the fare and customs, too. China town is a delightful city within the San Francisco "limits" but is Eastern all the way. The restaurants in Chinatown are uniquely Eastern and provide the touring "Yankee" a chance to eat with chopsticks. Miss Colgin was no exception. When she and her party dined at one of Chinatown's most exclusive restaurants, she tackled the task of eating with the two sticks. She reported that she had good luck with the Oriental dishes--even rice! At the restaurant, the Gatesvilleite watched her meal being prepared in front of her eyes on a stainless steel grill in the center of the table. That's one way to see what you are eating.

Also on the Texas' itinerary were Fisherman's Wharf, Cliff House Restaurant, Seal Rocks and Sausalito Island, an artists' colony across the Bay.

## Last Session Of Summer Story Programs Held

July 8 was the last session of the SUMMER-STORY PROGRAM for children, ages 5-9. Thirty-six children listened attentively as Mrs. Bob Meharg showed souvenirs and told the story of Hans, the little BOY WHO HELD HIS THUMB IN THE DIKE so that Holland would not be flooded. She had some tiny wooden shoes which, at one time had been worn by children in Holland. She also had some smaller, decorated ones. She showed pictures of tulips which grow so profusely there. She had a large picture of a windmill, which helps supply the water supply for Holland. Hans proved that he was a good citizen, by holding his thumb in a tiny hole in the dike all through the night and until early in the morning, when the milkman heard his cries for help, and went for men to come and repair the dike.

Mrs. Meharg also told the

story of THE ELVES AND THE SHOEMAKER. The elves were good citizens because they helped the poor cobbler finish his work, so that he could buy more leather, to make more shoes. The shoemaker and his wife were good citizens because they made clothes for the little elves, who had none. She told the story of Jeppers, the frog, who came to live in a pool, where a little boy wanted a pet that he could care for all by himself.

There were 7 children who had not missed any of the programs, so they were entitled to wear their Uncle Sam hats home. They were: Alisa Thompson, Kay Allison, Robby Jones, Keith Allison, Culli Christian, Susan Hunt and Sherri Shelton.

The following children attended 4 or 5 programs, and could, therefore, wear their hats home. They were: Ken-

## Pamela Kay Holland-Gary Lee Paxton Exchange Baptist Wedding Vows

MRS. GARY LEE PAXTON

The Faith Baptist Church of Kountze was the setting Saturday evening for the marriage of Miss Pamela Kay Holland and Gary Lee Paxton. Reverend Edgar McNeely of Gatesville, uncle of the bride, officiated at the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Herman Holland of Kountze. Parents of the bridegroom are Reverend and Mrs. Bobby Paxton of Dublin and formerly of Gatesville.

An arch entwined with marguerita daisies and green foliage holding white tapers centered the nuptial scene. At each side of the altar stood an arch holding white tapers and enhanced with marguerita daisies and greenery. Two baskets of marguerita daisies and foliage were accented with rainbow ribbon trim.

Mrs. Sandra Wilson of Kountze, cousin of the bride, provided nuptial organ music. Miss Janie Barnes of Dublin sang "More" and "For I Can't Help Falling In Love With You."

Given in marriage by her father, the bride wore a formal gown of crisp white satin in a princess style. A panel of white lace trimmed in pearls accented the front of the skirt. A stand-up collar and short sleeves further enhanced the gown. A circular train accented with lace trim and pearls fell in fullness from the empire waist. The bride-elect is the daughter of Mr. and Mrs. Felix Wasson of Huntsville, formerly of Mexia, and the prospective bridegroom is the son of Mr. and Mrs. Wade Dyer of Gatesville.

Hostesses were Mesdames Gault Talley, Donald Goolsby, Jack Forrest and Clifton Burke, and Miss Nancy Forrest of Mt. Calm; Don McMillan of Huntsville, Blake Erskine and Miss Kathy Erskine of Tehuacana; Mildred Wright, Dick Neese and Cecil McDonald, and Misses Annela Wright and Sherry Neese.

The bride-elect's chosen colors of pink and white were effectively carried out in the decorations of the entire room. The bride's book was on a table laid with a floor length satin cloth overlaid with white tulle circled with white sequins. The book was flanked by a crystal holder containing a single pink candle with the Bible opened to the scripture I Corinthians 13, the "love chapter." It also held the bridal wreath containing two love doves perched on two wedding bells with a pearl heart background. On top of the bell was a wedding band set. A miniature bride-and-groom was placed at the base of the decor. Mrs. Maurice Young was in charge of the book.

The pink and white motif was further carried out in the decorations of the tea table which was covered with white tulle over satin. Centerpiece was a large floral arrangement of white stock highlighted by pink gladioli and greenery and flanked by four pink candles in silver candelabra. Mrs. Donald Goolsby served like squares topped with pink roses. Alternating at the Astoria punch bowl were Mrs. Don McMillan and Miss Annela Wright.

A bride's doll dressed in traditional white standing under an arch trimmed in pink tulle and pink roses adorned the appointment table. A bud vase of pink hydrangea and magnolia completed the decorations. Miss Sherry Neese presided at the table.

Gifts were displayed on the tables covered with white

damask with white bows placed at intervals. The smaller table was centered with an arrangement of white gladioli and greenery in a white china bowl. At the end of the tables were crystal vases, containing pink hydrangea and magnolia, and three silver candleholders with pink candles. Centerpiece was a massive floral decor of white magnolia blooms held in a footed crystal bowl. On each side was a doll dressed in pink.

Guests from out-of-town were Miss Sandra Dyer, sister of the prospective bridegroom, Mrs. Eldean Miller and Judy Miller, and Mrs. Fred Dyer Sr., grandmother of the future bridegroom, of Gatesville; Miss Katy Bays of Wortham; Mrs. John Pearson of Tehuacana; Mrs. Hazel Bays of Axtell; and Miss Leona Miller of Otillo, Calif.

ties of Texas, but the Central Texas Council of Governments (CTCOG) is the first area-wide organization to receive a planning grant. They expect to work very closely with the Committees on Aging in their six-county area.

Charles Cass, director of CTCOG, stated that there was

a real need for programs for the elderly in this area. One of these counties, Mills, has 25% of its total population aged 65 or over, the highest proportion of any county in Texas. Hamilton Co., with 24.5% of its population in that age bracket, has the second highest proportion. About 9% of the population of the State is 65 and over. There are about 24,000 persons age 65 and over in the six-county area.

The Council of Governments has hired Mrs. Tylee Smith of Killeen as project director. Mrs. Smith has a master's degree in social work and experience in working with senior citizens. She said, "I am looking forward to working with the older people of Central Texas toward the four goals of this project. We hope to develop more ways for older people to participate in and contribute to the

life of their communities. At the same time there will be research into some of the problems facing senior citizens in this area. We also want to increase community awareness of both the potentialities and needs of older people. And finally this project will facilitate the exchange of information among, and about, programs and resources for the elderly. Too often our older citizens are overlooked—we want to focus on aging." "The funding of this grant for the Central Texas Council of Governments is a further extension of the lines of communication and program development between the Governor's Committee on Aging and the local community," stated S. R. Greenwood, chairman of the Governor's Committee on Aging. "Our present local programs will be favorably enhanced and we are confident this method of planning will be highly beneficial to our Senior Citizens."

## Will Moon Landing Mark An Era Of Time For Man?

**A YEAR AGO**  
WASHINGTON—A year ago, July 20 at 10:56 p.m. EDT, to be precise, Astronaut Neil Armstrong placed his left foot on the surface of the Moon and uttered the now-famous words for all the world to hear, "That's one small step for a man, one giant leap for mankind." Eighteen minutes later Astronaut Edwin "Buzz" Aldrin joined Armstrong on the lunar surface and together they read the plaque which remains on the Moon. Inscribed are these words: "Here Men From the Planet

Earth First Set Foot Upon the Moon, July 1969, A.D. We Came In Peace For All Mankind." July 1969, A.D., Anno Domini for the year of Our Lord—how will that year be recorded by the historians? Does that time, so precisely marked by that first footprint on the Moon, end one age for man and herald the beginning of a new one? Historians have devised ways to reckon time and bracket eras and periods into neat packages. Religious historians use the Latin, Anno Mundi, for the Age of the

World and the years in our time are Anno Domini years. There have been other categories like the Prehistoric Age, the Age of Exploration and more recently the Machine Age, the Atomic Age and the Space Age. But whatever the age or the period or the method of reckoning time, throughout the history of man he has always had his eye on the Moon, wondering about its mysteries and dreaming one day to explore it. Now, just a year ago, man has done this, and this great dream and aspiration long held by man has been realized. So now there are all those aeons before the lunar landing by man, and that short one year since this epochal event, the time when man left Earth and physically extended his influence to another planet.

We simply take note of the first anniversary of man's landing on the Moon. But some historians, exercising their prerogative to mark that very precise date—July 20, 1969 A.D.—more auspiciously for the history books of tomorrow, may well devise another way of reckoning time after this event. Thus, it is not unlikely that our scholars may record time from the manned lunar landing at 1 A.M. for 1 Anno Adventis ad Lunam, which roughly translated from our even rougher Latin means the first post-lunar year. Latin scholars may argue with our Latin, but historians will not quarrel with the fact that on July 20, 1969 at precisely 10:56 p.m. Eastern Daylight Time, an era ended for man and a new one began.

### THE REAL POLLUTERS

### LESS TALK—MORE ACTION!

All America seems to be on an ecology kick... and there are as many sources of pollution as there are people.

We have had an Earth Day. Good. Tons of flyers distributed to arouse the public add to the refuse heap!

TV grinds out spectaculars. Photo stories flood the press. Politicians call meetings... and also pass laws about it.

If words were capable of cleansing the air and water, we would have attained ecological purity months ago.

Action isn't quite that simple.

Industry and government are spending millions to clean up the environment... with billions more needed.

Who made it dirty in the first place? And who must pay for the cleaning?

The answer is simple: people.

If each one of us, every day, thinks about the problems of clean air and water and litter prevention, and do something about them, then we will begin to make progress.

Remember, we are the ones who can keep America beautiful—and it sure is worth trying!

# 4-H HORSE OWNERS REACH ALL-TIME HIGH

**SPECIAL** - Handicappers figure odds on horses by combining a lot of figures: age, track time, starts, wins, post position, weight and so on.

Another handicapper has figured out how many horses there will be in the U. S. starting with 7 million in 1970, which averages about one horse for every 30 people.

By 1977 he predicts that the horse population will reach 10 million, when 82 million people are expected to ride a horse at least once a year.

Among those 82 million will be a sizable number of ex-4-H members who learned to ride, train, show and take care of horses as teenagers. They were in the national 4-H horse program su-

pervised by the Cooperative Extension Service.

Enrollment in the 4-H horse program has jumped 600 percent in the last 10 years. Now 225,000 boys and girls between 9 and 19 years of age own or have access to one or more horses.

Two years ago, according to the Extension Service, nine of the 50 states reported horse

program enrollment of lead than 1,000 members. Today there are only four states in that category: Alaska, Delaware, Hawaii and Rhode Island.

But small in number does not necessarily mean small in performance. Last year one of six national 4-H horse scholarship winners was a Delaware girl.

Four states reporting the highest total membership enrollment ranging from 16,800 to 12,300 are: Tennessee, Ohio, Oklahoma and Michigan.

This marks the fifth year that the 4-H horse program is sponsored nationally by Merck & Co., Inc., of Rahway, N.J. The company has cooperated with the Extension Service and the National 4-H Service Committee in producing 4-H manuals on horse science and horsemanship.

The sponsor also provides funds for six annual scholarships of \$600 each, hosts the top winners at the National 4-H Congress in Chicago and pays their expenses. The county horse medal last year was won by 7,846 young equestrians in 2,450 counties.

The 4-Hers benefit not only from guidance of leaders in their horse clubs, but from cooperation of horse breed associations.

Besides fun, comradeship and pride or ownership inherent in the 4-H horse program, there is preparation and conditioning for part-time jobs, or full-time careers in the fast growing equine industry.

4-H HORSE OWNER

"I've got to get Julie clean for the show," says 4-H'er Lori Ferreri. This scene is repeated many times as 4-H horse club members spruce up their mounts for the show ring or just a ride along the trail. Lori is one of the 7 million horse owners throughout the U. S. She participates in the national 4-H horse program sponsored by Merck & Co., Inc., in cooperation with the Extension Service.

## Card Of Thanks

We wish to express our thanks to each and every individual who helped make the pre-birthday celebration for the Mayberry twins a big success. To each of you we are grateful.

If people throughout this Nation could have witnessed this celebration and the relationship that existed among friends, we feel we would have a much better place in which to live.

We found in order to have friends, we must first show ourselves friendly. We have put our trust in God, because He is our Keeper, day by day. Our Bible tells us in Phil: 14-13, all things can be done through Christ Jesus who has given us the strength. We have all striven very hard to make the Pre-birthday dinner a pleasant and happy one.

The affair was given in honor of our Fathers, Grand Father and Uncle, the twins: Porter and Gordon who wish to also express their thanks to each of you, and for the many kind expressions of love, gifts and love offerings.

God bless each of you tis our Prayer.

Ophelia Mayberry Hall and Son, Frank P. Harris, R. G. and Elmer Mayberry.

## WPCA Completes 37th. Year Successfully

The Waco Production Credit Association completed its 37th year of operation on June 30, 1970 with a new high of \$12,988,702 in loans closed to its members. This compares to \$5,157,744 in 1965 and \$4,538,291 in 1960, states Frank N. Anderson, President of the Association. Other interesting facts concerns the average size in loans in these 3 comparative years--1970 - \$29,320; 1965 - \$9,957 and 1960 - \$7,824. At the same time the number of agricultural operators using loans funds through the Association were: 1970 - 443, 1965 - 518 and 1960 - 580, representing 23.6% decrease in the number of loans and 73.3% increase in the size of each loan, states Anderson.

The members of the Association completely capitalize the organization which reduces the requirements for larger profits to build capital. The net profit earned by the Association over the last 12 months was 2.17%.

Directors of the Association are W. T. Shoemaker of Gatesville, Chariman, William Magee of Mart, Vice-Chairman, Frankie Bedrich of Temple, Sam Radde of Meridian and George Phillip of Marlin.

Martin says, Martin held that county attorneys can, but don't have to, represent the state in such proceedings.

In other new opinions, Martin ruled that:

\*Special option purchase agreement between the State Department of Agriculture and International Business Machines Corporation on data-processing equipment is constitutional, since there is no obligation to spend money beyond revenues available at the time the debt is due.

\*Legislature left to Commissioners Court determination as to whether office space should be furnished by the county for its home demonstration agent and county farm agent. In the absence of contractual obligation, says the AG, the Court isn't required to provide offices but has authorization to do so. gas rate hike--state Railroad Commission granted Pioneer Natural Gas Company, serving 61 West Texas communities, a new rate of 32 cents per 1,000 cubic feet on its gas.

That amounts to four cents of the 6.43 cent increase the company requested.

Rate is still subject to approval by individual city governing bodies before it finally goes into effect.

## TEXAS TO RECEIVE FEDERAL MONEY FOR WILDLIFE RESTORATION PROGRAM

ALBUQUERQUE-- The State of Texas will receive \$793,500 in federal money for its wildlife restoration program, it was announced today by Acting Regional Director W. O. Nelson, Jr. of the Bureau of Sport, Fisheries and Wildlife in Albuquerque.

These funds come from the 11 percent excise tax on sporting arms and ammunition levied by the Federal Aid in Wildlife Restoration Act of 1937 (Pittman - Robertson). Interior distributes the funds using a formula based on the number of hunting license holders and the area of each State.

An additional apportionment will be made in the fall. The sum announced today will enable States to continue their wildlife restoration program from July 1 until the fall payment.

Under the Federal Aid in Wildlife Restoration program, States are reimbursed for up to 75 percent of the cost of approved projects, including acquisition of land suitable for wildlife habitat, development and manipulation of wildlife habitat, and research to aid in the management of game species.

These funds will be available July 1, according to Nelson.
