

Dove Population Booming For Coryell Hunters

Tuesday, September 1, at noon it's open season on the dove population in Texas "north zone". Coryell County hunters are expected to be out in numbers to track down the plentiful game birds.

Abundance of doves in this area, especially around farm tracts has been reported by Game Warden, Jerry Noles. If present weather conditions stay the same, this year's season has all possibilities to exceed last year's hunt. Farm tank and farm pond areas should prove to be excellent hunting plots due to the long dry spell the county has experienced. Changes in the weather, such as a general rain, however, can scatter the fowls or move them out.

Noles pointed out a few laws governing game bird hunting for Coryell County. He specifically mentioned that the \$4 per gun per day hunting

license need only to be obtained by those who will hunt outside the resident county. Noles stated "If you hunt in the county of which you are a resident, the only game requiring a license is deer and

turkey."

The warden noted that the season's run is from noon September 1 to October 30. Hunting is permitted only between noon and sunset. The bag limit for dove in this

zone is ten per day or twenty birds in possession.

Other reminders to local marksmen include the fact that no hunting is to be done from public roads or from a motor vehicle. It is illegal to hunt these game birds with a rifle and the gun used by the hunter can have no more than 3 bullets in it. This calls for two bullets in the magazine and one in the chamber. Failure to comply with these laws of the Texas Game and Fish Commission will result in penalty for the guilty party.

Game Warden Noles also asks the hunter to be sure that he has permission from a land owner to hunt on the owner's property. In past experiences he pointed out that there have been cases of loss of livestock and damage to property due to hunters' carelessness. He asks for the cooperation of all to make this a successful and sport-filled season.

Rites Held For Shooting Victim

Funeral services were held Friday at 4 p.m. in Saint John's Lutheran Church of Coryell City for Joseph E. (Joe) Onofrey of Gatesville. Reverend Timothy Van Antwerp officiated with burial in Saing John's Cemetery.

Onofrey, 50, was pronounced dead on arrival at Coryell Memorial Hospital of a gunshot wound in the head. According to Coryell County Sheriff Windy Cummings, officers arrived at the Onofrey home on the State School Road shortly after the 11:30 a.m. call and found Onofrey in a bedroom. A nine millimeter automatic pistol was found near the body.

Justice of the Peace Stony Hammock said Saturday afternoon no ruling had been made in the death. Justice Hammock added that doctors reported the gun was fired "at close range."

More "Celia" Funds Needed To Fill Quota

Hurricane Celia was idling in the Gulf of Mexico on the morning of August 3, 1970. Suddenly she churned herself into a fury and struck out for Corpus Christi, Texas.

Residents of the nearby low-lying areas of Rockport and Aransas fled inland. Red Cross opened shelters and began moving disaster specialists and equipment into strategic spots.

While Celia raged, her winds clocked at more than 160 miles an hour, thousands of people slept in 48 Red

TWELVE YEARS TO GO---For a 1st grader, 12 years must seem an eternity, especially when those first few days of school mean getting up so early. Little six-year-old Dee Anna Reneau, daughter of Mr. and Mrs. Oneal Reneau of Gatesville, found a few spare moments to ponder the situation or maybe she is catching forty winks to make up for last time.

At any rate, Dee Anna is one of 143 students who began their educational careers at Gatesville's elementary school with the opening of the 70-71 school term.

In the background, a few "upper classmen" take advantage of the remaining days of summer as they enjoy the school's playground.

DPS Says 49 Will Die Labor Day Weekend

AUSTIN--Texas Department of Public Safety Director Wilson E. (Pat) Speir said today indications are that 49 persons will be killed in Texas traffic crashes during the 78-hour Labor Day holiday weekend from 6 p.m. Friday, September 4 to midnight Monday, September 7.

The estimate is based on numerous indicators and past experience on similar holiday periods, Colonial Speir said, adding that he hopes it will prove to be too high.

The Public Safety Director said numerous activities will be undertaken to hold down holiday tragedies on the streets and highways, "but, inevitably, the drivers themselves hold the solution in their hands."

"That is why we constantly and repeatedly appeal to drivers to remain continually on the alert for situations that can spell disaster and make driving a full-time job while they are behind the wheel."

"Department of Public Safety officers will be out in full force during the holiday period, as will local police officers within the cities, for

Two One Car Mishaps Result In Minor Injuries

A one car accident early Tuesday morning at the intersection of Farm Road 107 and Texas Highway 36 resulted in minor injuries to a California woman.

The mishap occurred at approximately 1:30 a.m. when Mary Lou Pace, 21, of Banta, California, failed to negotiate a turn onto Texas 36 north. She was traveling west on FM 107. Mrs. Pace, unaware of the intersection, crossed the state highway and struck a tree in the west bar ditch, said investigating DPS Patrolman David Jund. The impact knocked the auto backward then forward into a property line fence.

Mrs. Pace, her two sons Bobby and Jesse, and her brother, Rayes Gonzales, were taken by Erwin ambulance to Coryell Memorial Hospital. Mrs. Pace was treated for a badly bruised shoulder and hysteria. The Gonzales youth was treated for facial cuts and bruises. The Pace children were uninjured. The occupants were treated and released.

A Ft. Hood soldier sustained minor injuries Tuesday morning in a one car mishap 9 miles south of Gatesville on Texas Highway 36.

THIS ONE DID A DOUBLETAKE---For a second time Friday evening, firemen were summoned to the old Lowrey Place on the Golf Course Road. Fire broke out in a small house, occupied by Paul Santos, early Friday afternoon. Contents of the structure were totally destroyed by that blaze. At approximately 7 p.m. the local force returned to the scene as the fire apparently had rekindled and the frame structure was completely destroyed.

Home Gutted By Fire Friday, Rekindles Friday Evening

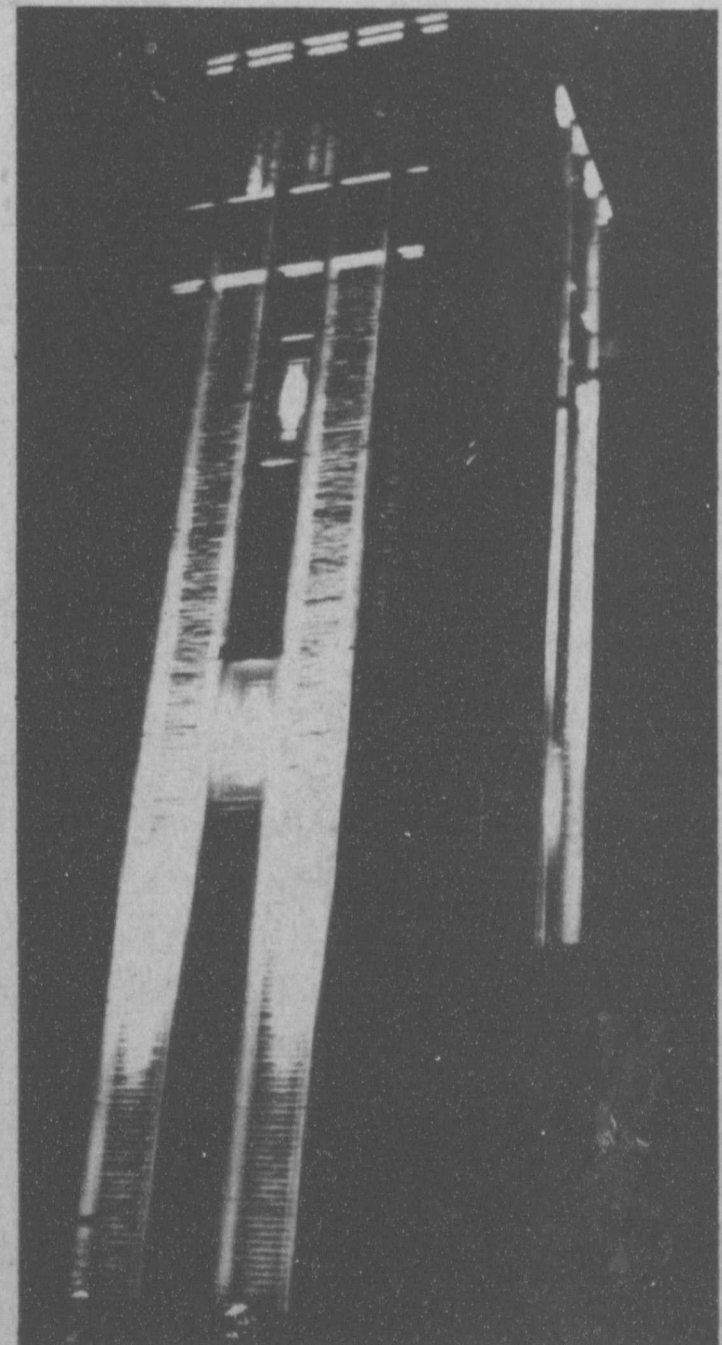

Local firemen were summoned twice Friday to answer a call at the old Lowrey Place on the Golf Course Road. A small house occupied by Paul Santos, caught fire in the early afternoon and was gutted by the blaze. Fire Chief, Pat Patterson, said all contents of the dwelling were a total loss. He stated that Santos told him he didn't know how the fire started. The walls of the frame structure were left standing by the first giant blaze and grass fires surrounding the house were quickly extinguished by the volunteer force.

Chief Patterson reported that the units had just returned to the station and were being refilled with water when the alarm came. A grass fire on the Hershel Britain property between Coryell City

and Osage had given the firemen quite a battle prior to the house fire. It was estimated that 75 acres had been destroyed in rural blaze.

Then at approximately 7 p.m. Friday a second alarm was answered at the Lowrey Place. The same structure

had apparently rekindled its earlier blaze and this time, the remaining walls of the house were engulfed in flames. The structure could not be saved, but several volunteer firemen were on hand to keep the blaze under control.

The First Baptist Church has done recent remodeling to its structure and this included the lighting of the steeple located on the Main Street side of the church. The steeple lighting is in memory of Bill Nesbitt and was made possible by donations from various people. It was his dream that the tower never be dark. Dedication services were scheduled for Sunday evening, after church services, with Dr. W. J. Wimpee as speaker.

Spirit Ribbon Sales High At GHS

NO TIME WASTED---Loyal supporters of the 1970 Hornet football team aren't beating around the bush when it comes to promoting spirit.

The first week of school saw posters springing up in the corridors and gymnasium declaring that 1970 is the "year of the Hornets". One of the most familiar of the fall scenes at GHS is the donning of spirit ribbons. In the picture above Penny Spencer (left) and Judy Hale (right) sale one of the new and larger ribbons to Donna Cope. Misses Spencer and Hale are in charge of the campaign sponsored by the Crescent Staff. The money from the ribbon sales is used for the school's yearbook project.

First Baptist Does Remodeling- Search For Pastor Continues

While the search is still underway for a new pastor at Gatesville's First Baptist Church, the structure is receiving some remodeling.

Mrs. Norris Smith, church secretary, reported that three foyers adjacent to the auditorium have been carpeted. The carpeting was made possible by the donation of a church member. Work is also underway on the structure's auditorium balcony. The new carpet for the area has been installed and new pews have been ordered.

The steeple, located on the Main Street side of the church, has been installed with lighting fixtures which illuminate the spire nightly. This addition to the church

man Jund reported Rackel was traveling west toward Gatesville on Texas 36 when the 5:50 a.m. mishap occurred. Rackel for no apparent reason ran onto the north bar ditch. In an effort to return to the roadway, Rackel jerked the steering wheel to the left and lost control of the vehicle. His car spun across the roadway into the south bar ditch, through a property fence and struck a tree 132 feet from

The secretary also noted that while a pulpit committee works to find a new minister, Dr. W. J. Wimpee is serving as interim pastor. Dr. Wimpee is Professor of Religion and Chaplain at Baylor University.

Members of the pulpit committee include: Bythel Cooper (chairman), Misses Wilamena Cayce and Aurora Young, Mrs. Bythel Cooper, Mr. and Mrs. Sterling Edwards, Mr. and Mrs. Dewayne Place, Mr. and Mrs. Milton Williamson, Mr. and Mrs. Don Hunt and Mr. and Mrs. H. L. Wadkins.

SUMMER'S OVER

GETTING IN THE GROOVE---It doesn't take long for students at GHS to get the "summer out of their feet" and fall into those hurried steps between classes. The main problem is learning to maneuver yourself out of the way of 605 fellow students with the same objective. But typical is the scene in the above photo which shows no major catastrophes.

Pity the student who was lucky enough to get a bottom locker!

study indicated that without a doubt, most of these fatal accidents could have been avoided," he said.

"It also is perhaps significant to note that most of the accidents involved only one vehicle, indicating that in most cases there was no body else to blame but the driver himself. The study also revealed that in nearly half of the fatal crashes, the driver himself was the victim. There were nearly as many cases of vehicles running off the roadways as there were incidents involving more than one vehicle. In most cases where pedestrians were killed, the records indicate that it was the pedestrian who was at fault."

The record also reflects that there were numerous accidents caused by drivers failing to negotiate curves, again indicating speed 'too fast for conditions.' He continued, pointing out that "imprudent speed" is a violation of the law. In some cases drivers ran off roadways on straight stretches, indicating driving while drinking or excessive fatigue, another important factor, said Speir.

"Although it is difficult to pin-point, vehicle defects such as worn-out tires, bad brakes, etc., undoubtedly are contributing factors in bad accidents, particularly when the weather is extremely hot. We would therefore urge motorists to see that their vehicle is in top condition when they take off on the road for a holiday."

"Operation Motorcade," a statewide cooperative effort on the part of all police agencies and the public media will be in effect during the 78-hour period to serve as a reminder of the added hazards of holiday road travel.

During this operation, all traffic fatalities will be tabulated as they occur and periodic announcements of the death toll will be made for this purpose, he explained.

"Without the fine cooperation of the news media this program would not be possible, and the same applies to their support of Governor Preston Smith's 'Drive Friendly' program. This effort, has, in our opinion, been most effective."

"I would like to stress that our safe driving messages and reminders are in no way intended to discourage motorists from enjoying the as during holiday periods or at any other time. On the contrary, our purpose is to seek individual involvement in the traffic safety program."

Speir said an analysis of the fatal accidents that occurred during the last similar holiday period, the 78-hour Fourth of July holiday weekend revealed the following contributing factors:

General carelessness, excessive speed for conditions, failure to yield or stop when required, drivers drinking, pedestrians drinking. "Our

No charges were filed by Jund in the case. Damages were set at total for the 1965 Chevrolet Rackel was driving.

A Gatesville youth and a Houston man were uninjured Wednesday, August 19, in a

mishap on a county paved road across from the Coryell County Precinct 4 barn. According to investigating Patrolman Jund, the accident occurred as Samuel Henderson, 53, of Houston, was backing his pick-up from a private drive next to the precinct barn. Jerry Lee, 16, of Route 4, Gatesville, who was traveling south on the county road swerved to avoid colli-

sion with the Henderson pick-up and drove through the property line fence along the road. Patrolman Jund charged the Houston man with failure to yield right of way at a private drive. No injuries were reported by either driver. Jund cited damages at \$150 to the Lee pick-up. The Henderson pick-up was a non-contact vehicle in the accident.

HIGHLIGHTS AND SIDELIGHTS

AUSTIN, Tex. -- More than 2.7 million Texas students soon will be heading back to public schools again.

There will be a lot of changes in store for them, although most probably will fast adjust or barely recognize the differences.

Teachers will begin work a little earlier, and classes in some areas will start earlier.

School year will stretch out from 175 classroom days to 180.

Teachers will be on duty 10 more days of non-teaching work for in-service training and to help with school opening and closing.

For 224,500 little ones, the school experience will be brand new. They are the first graders and (30,000) five-year-olds in a new state-supported kindergarten program.

A drug education program also will be initiated, seeking an effective two-way communication between youth and adults. Utilized in the effort will be modern techniques and teaching methods which encourage students to express themselves rather than relying on lectures, preaching or moralizing. Training of local teaching teams in 1,206 school districts is slated to start in September and October.

Twenty-two school districts in major population and geographic areas will be pilot testing three key facets of the state's emerging plan for special education. These districts will serve as a proving ground for efforts in comprehensive special education, early childhood programs for exceptional children and teaching tailored for children with language and/or learning disabilities.

Even broader changes may be in store for pupils of 16 school districts sued in federal courts in Austin and Tyler for racial segregation. Districts held conferences at Texas Education Agency last week to prepare plans for conversion to non-discriminatory systems. Plans are due to go to courts by Friday (Aug. 21). Hearings may begin Monday.

DRAFT CALL UP -- September draft call for Texas is 704 -- a considerable increase from 560 in August. But no man will be ordered

TIME OUT

MOUNT UP—At the recent Jaycee Donkey Baseball game this poor donkey just gave up, rolled over and threw up his heels.

With the Jonesboro team leading 3 to 2, the Jaycees resorted to a bit of razzle-dazzle as Buddy Altum actually mounted the donkey from the above starting point. The Donkey rolled over and came to his feet with Altum on his back.

The charity game netted the Jaycees over \$160 to be used on a future project of the club.

for induction with a random sequence number higher than 195.

Col. Charles M. Duncan, deputy state Selective Service director, said it appears unlikely the ceiling will go higher than 195 for the rest of the year. Duncan said new manpower, mainly from formerly deferred students, helped hold the level on sequence numbers.

September quota for pre-induction physical and mental examinations in 7,171, an increase from 1,490 in August. Texas' induction quota of 704 is the state's share of a national call of 12,000 men, all for the Army.

PARKS ADVANCES—Outstanding new Lyndon B. Johnson State Park near Stockwall, and across Ranch Road I form the famed LBJ Ranch, will be officially dedicated on August 29 at 2 p.m.

Former president will attend the festivities which include a reception and luncheon in Stonewall.

Parks and Wildlife Department also announced approval of a \$355,050 federal grant for a development project in Abilene State Park.

Funds will be matched by the state on a 50-50 basis in the \$710,000 project which includes building of a headquarters visitors' center, campsites, a group shelter,

wading pool, playground equipment, roads, and parking.

LAND RECOVERY SOUGHT—Land Commissioner Jerry Sadler has called on Atty. Gen. Crawford C. Martin to take whatever legal steps are necessary to recover lands of Calhoun County Navigation District not being used for navigation purposes.

Sadler noted that 47,000 acres were purchased by the district from the state in 1956 for \$1 an acre. In 1961, Sadler said, he refused to approve the district's application to buy additional lands, after officials admitted 20,000 acres of the original purchase were considered surplus acreage not needed for navigation purposes. Some of this land was sold, and has gone into private real estate development.

Commissioner said he urged the attorney general's office as far back as December 28, 1961, to take steps to recover the 20,000 acres for the permanent school fund but got no action. School Land Board, he related, has now requested that the land be recovered.

GRANTS APPROVED—Gov. Preston Smith has approved a federal grant for \$114,389 for operation of a family planning program for migrant farm workers in 26 Texas counties and six other states where they migrate.

Counties benefitting are Val Verde, Kinney, Uvalde, Bexar, Jim Wells, Maverick, Zavala, Dimmit, Frio, La Salle, McMullen, Duval, Webb, Live Oak, Bee, Refugio, San Patricio, Nueces, Kleberg, Zapata, Jim Hogg, Brooks, Starr, Willacy, Hidalgo and Cameron.

Smith also announced approval of a demonstration grant of \$72,344 to Las Colonias Del Valle Inc. in San Juan, Hidalgo County, for youth development program.

A state regional planning assistance grant of \$14,930 went to the South Plains Association of Governments (SPAG) serving 33 cities, eight special purpose governments and 11 counties.

AG OPINIONS—An off-duty policeman may not conduct a private enterprise, employing other off-duty policemen or officers, to perform guard duty or patrol without securing a license, says Attorney General Martin.

In other opinions, Martin ruled that:

* An alarm agency, approved by the State Board of Insurance, may perform certain activities -- send their representative to answer the alarm, furnish a key to police officers for entrance to the premises, assist the police as they may request in their check of the premises, and reset the alarm after the

police have finished their work -- without its personnel having obtained a license.

* Commission on Fire Protection Personnel Standards and Education has authority to hire an executive director, provided that his duties are solely administrative or ministerial, and do not call upon him to exercise discretion or judgment concerning the powers and duties required to be performed by the members of the Commission.

SHORT SNORTS—Judge Joe Frazier Brown of San Antonio, executive director of the Texas Criminal Justice Council, has been named to the national executive committee and chairman of the committee on discretionary grants for heads of state criminal justice planning agencies.

committed to Texas Youth Council has increased from five to 70 per cent during last three years, according to new report of State Program on Drug Abuse.

South Texas groups (United Farm Workers, PASO, MAYO and Colonias del Valle) have filed suit against the governor and the Department of Public Safety, claiming they are being spied on by state police.

Mrs. Gwendolyn Craddock of Austin is new administrative technician in Texas Office of Economic Opportunity.

FALL IS IN THE AIR, FEEL IT... If you good readers have been cooped up in the refrigerated world of the "air-conditioner set," you are missing the wonderfully refreshing fall breezes that accompany the dew each morning. The Ponderosa Junds sleep on an old-fashioned (could be because it's old) screened porch, complete with cool breezes, mosquitoes and an occasional drop from a lawn sprinkler near by.

Early mornings are the best times to "feel" the arrival of fall. The pre-dawn breezes that have been wrestling the trees of Coryell County really make the "awakened sleeper" feel full of pep and ready for the day ahead.

Of course each of us who is invigorated by the pre-fall, natural air conditioning soon find the nearest air conditioner to sit under during the hot afternoon hours! Summer is not over yet, but the breezy promise of fall and cooler days make the 95 degree heat bearable.

BLANCH, JULIENNE, MARINATE, IT'S ALL IN THE NAME... These three words--are they names or music? No, these words are terms used every day by many American housewives in preparation of the family meals.

This culinary "Kooke" would think Blanch and Julienne were girlfriends and marinate was an American rock adoption of the minuet. Chances are if the three terms appeared in a recipe, I would pass over it in a dither. Now, now, recently I came across a listing of cooking terms that can help each of us out of the terminology maze that accompanies cooking.

Recipe talk, the language of cookbooks, should be learned by heart to aid in solving the dilemmas of following recipes in our favorite cookbooks. Let's wait no longer, the kitchen school bell is ringing! Check these terms:
