**HORNET PRIDE
BAND**

The GHS Hornet Band, with Miss Jeanette Davidson as drum major and organizer, is taking on a special sharpness for the Hornet season opener. The Marching 72 performs at halftime of each Gatesville High School football game and other functions during the year.

Above the Hornet Pride Band has formed the traditional "block G" on the playing field at McKamie Stadium.

Rivalry Revived

Hornets Open Season Against Bulldogs Friday Night

Big-Fast-Strong McGregor will be the Hornets' first opponent of the season Friday night at 8:00 p.m. in McGregor.

This will be the toughest season opener for the Hornets in several years as McGregor has been at the top of the Class AA heap in recent years. The Bulldogs are highly rated in their league again this year while the Hornets are picked behind Belton, Lockhart, Lampasas and Copperas Cove in District 13AAA.

The local picture of the 1970 Hornets is much brighter than outsiders would see. The Hornets have completed pre-season scrimmages against two tough teams--La Vega and Cameron-- and in both match-ups, the Hornets hit hard and played convincingly.

Coach Jack Moss issued the starting assignments tentatively last week including the following offensive starters: Mike Mathews Tight End, Terry King Left Tackle, Trey Tatum Left Guard.

Larry Harrington Center, Randy Schoenewolf Right Guard, Randy Schoenewolf Right Guard, Jerry Lee Right Tackle, Windy Lengefeld Right Tackle, Ricky Thompson Split End, Steve Braziel Quarterback, Jim Saunders Quarterback, Chris Bone Fullback, Phil Bone Fullback, Ronald Brown Left Halfback, Larry Moore Right Halfback, Ray Ortega Right Halfback. Defensively, Moss listed: Tatum-King Guards, Schoenewolf-Jones Tackles, Harrington-Palmer LB.

McCarley-Smith Stingers, Moore-Williams Halfbacks, Braziel Safety.

McGregor will be running from the time-tested, single wing offense which features an unbalanced line and a power-set backfield with the center snaps to the fullback or tailback about five yards from the scrimmage line.

The singling is not seen often these days and because of its lack of use, teams find defending the offense difficult. Moss explains defensive keys are difficult to set up and inexperienced defensive personnel read the wrong keys.

The Hornets will pattern their offense after the most modern college techniques available, the "Wishbone" so successfully operated by the University of Texas.

Moss describes his offense as the most versatile around. The offense depends on a very talented quarterback for reading option plays. The Hornets have two top performers at the job in Jim Saunders and Steve Braziel. Saunders is suffering from a shoulder injury, but is expected to see action against McGregor.

"Halfbacks must be good blockers," says Moss. It is a key to this year's offensive plan and Ronald Brown, Ray Ortega and Larry Moore have become very capable blockers during the pre-season drills.

Coryell Will Consider Joining In Regional Housing Program

A public hearing has been set for September 28 in the Coryell County courtroom to discuss the possible joining of a newly-formed Regional Housing Authority (RHA) by Coryell County.

Coryell County Commissioners have set up the meeting to take official action on the questions at that time. Judge Norman Storm explains that the RHA would provide low-income persons with a method of financing housing construction. Federally-guaranteed funds are available through these RHA's, noted Storm. The actual public notice

states on the purpose of the meeting to "consider the formation of a regional housing authority for Coryell and certain other contiguous counties."

Judge Storm estimated the proposed RHA would cover a seven-county area.

Only one RHA is presently functioning in the nation and it covers a ten-county area of Mississippi. Reports are that the Mississippi organization completes two houses per day over its ten-county area.

The RHA provides funds to persons who would otherwise be unable to secure a conventional loan for housing. Financing is set up under the program according to the individual's ability to pay.

Rep. Bob Salter presented the program to Commissioners Monday, August 31 and Salter will be here September 28 to explain the proposed organizations at the public hearing.

The counties involved in a RHA each have one representative on the ruling board.

School Board Will Hear Tax Appraisal Outline Tuesday

Development of a new tax evaluation procedure for the Gatesville Independent School District will be the key topic of discussion at Tuesday night's school board meeting. D. Clyde Hamilton Jr., general manager of the Southwestern Appraisal Co. Inc. of Dallas, is scheduled to meet with the school board at that time. Hamilton will outline the procedures and work done in a tax appraisal contract. He is expected to have cost estimates available at that time for school board consideration.

The Thomas Y. Pickett Company, GSD's utility appraisal firm, recommended Southwestern Appraisal Co. Inc. to the school administration recently.

The recent demand by taxpayers for a complete balancing of the school district's tax roll followed action by the school board in late July to completely reverse action taken by the board of equalization.

At the August 11 meeting of the school board a group of taxpayers met with the board with attorney Bob Cummings as representative. Cummings related to board members his client's intentions to file a law suit against the schools if action was not taken to assure that a full scale tax equalization program is undertaken for the 1971 tax roll. The group favored the use of outside appraisal experts to do the equalization job.

Cummings is expected to attend the meeting Tuesday night to offer information concerning the tax evaluation situation and appraisal techniques.

The school board will also consider other methods of tax equalization including increasing the local tax office staff to set tax values. Reportedly this method has been used successfully in neighboring Bell County.

The law suit threatened by the group of taxpayers would seek to have the 1970 tax roll declared invalid and to stop the school district from collecting 1970 taxes.

Supt. L. C. McKemie has indicated that such a law suit would hold up the much-needed building program for the schools. In the case of Federal funds for the new vocational wing, it is predicted

that such action would set Gatesville back down the priority list. Presently, Gatesville appears to be high on the list for a \$150,000 federal grant, according to the Texas Education Agency in Austin.

Endangered also is the \$500,000 bond issue voted by the district last fall for the construction of the proposed new elementary school.

CORYELL MAY TAKE PART IN LABOR DEP. PROGRAM

Senator Ralph W. Yarborough, D-Texas, announced that the Green Thumb Program has been approved for the State of Texas. Senator Yarborough said a contract has been signed by the Department of Labor and Green Thumb, Inc.

Coryell County is among 12 East Texas counties tentatively set up under a similar program.

The contract will allow for jobs for 150 older and retired low-income people in Texas to work on conservation, park development, beautification, historical and community betterment projects during the coming year.

"The Green Thumb Program has operated in 15 states and has been extremely popular because of the work to help improve the environment and provide job opportunities for older low-income people," Senator Yarborough said.

"The signing of this contract will mean more than just useful employment for 150 older and retired low-income people, as important as this aspect of the contract is. The work they will be doing, through their various conservation and beautification projects, will benefit all

Texas," Senator Yarborough continued.

The average age of workers now in the Green Thumb Program is 69 and the average income before going to

DPS Reports Minor Accidents

Local Department of Public Safety officers reported two minor accidents last week. An early morning crash Sunday, August 30, resulted in \$500 damage to an auto driven by James Schuman of Ireland.

Investigation DPS Patrolman David Jund said the 16-year-old youth was traveling west on US 84 when he apparently fell asleep at the wheel. The car, which left the roadway and traveled in the north bar ditch, struck a concrete culvert molding. Young Schuman was uninjured in the mishap.

A Houston truck driver was unhurt Sunday, August 30, when the truck-tractor and semi-trailer he was driving struck a cow in the roadway. The driver was Kent Mize, 29.

The mishap occurred at 9:50 p.m. in north Ft. Hood on Texas 36, as the truck was traveling north.

Jageler Attends Farm Bureau State Meeting

George Jageler Jr. of Gatesville, president of the Coryell County Farm Bureau, represented this county at a statewide Presidents' conference Aug. 27-28 in Brownwood.

The Brownwood meeting was part of a statewide effort involving county Farm Bureau leaders in developing a plan to upgrade the Farm Bureau program in Texas. One hundred and twelve coun-

ties were represented at this State meeting.

"Our county organization is taking an active part in helping create a more effective organization that will better serve the needs of farmers and ranchers in the years ahead," Jageler said.

The Coryell County Farm Bureau Board of Directors held a special meeting July 14th to evaluate the total Farm Bureau program and to make suggestions that were incorporated in the ideas that were considered at Brownwood.

At the Presidents' Conference, the county leaders received a report from a team of specialists from Texas A&M University on projected changes in market demand, financing agricultural operations, costs of production, numbers of agricultural producers, etc.

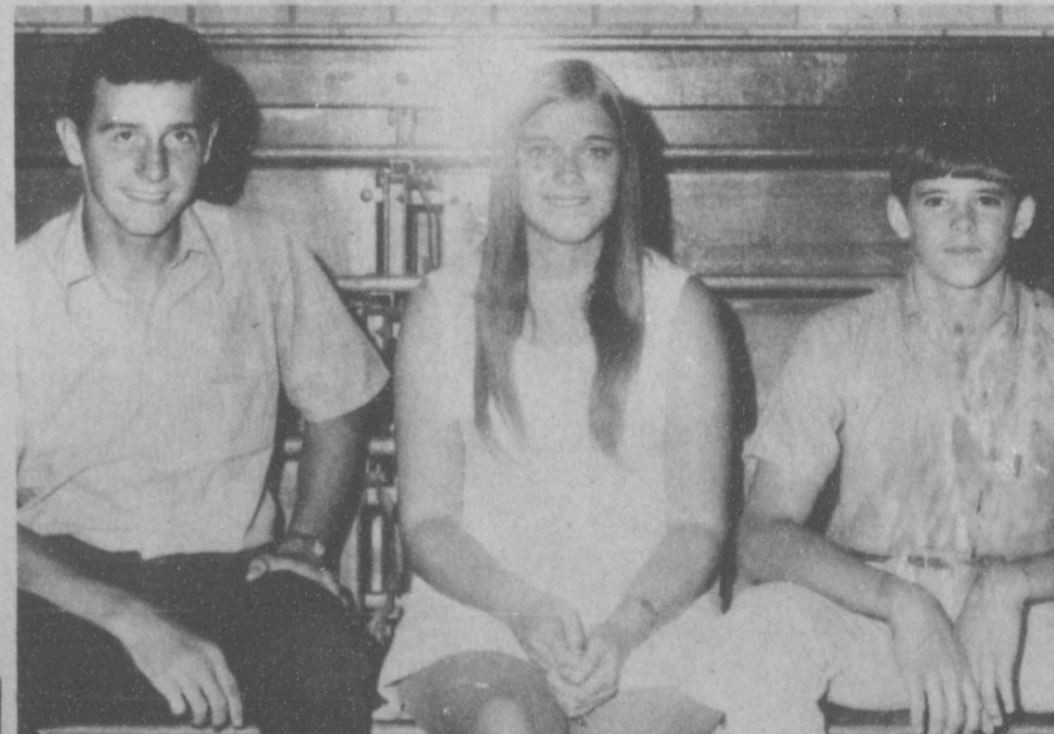

The leaders were separated into group workshops, based on subject matter, to consider both the reports from counties as well as the information supplied by the agricultural experts. They recommended programs for making the organization more effective on both county and state levels.

County presidents caucused by districts and made nominations for a statewide committee of county leaders. Primary purpose of the committee will be to draft and recommend to the Texas Farm Bureau ways and means of servicing county Farm Bureaus.

County Farm Bureau were asked to designate a small committee within each county to implement county programs given top priority.

Highlights and Sidelights

vern Sanford

Top-flight business and industrial executives are getting an invitation to study the administration of state agencies and tell them how to do a better job, hopefully for less money.

House Committee on Efficiency and Economy urged Speaker Gus Mutscher to take the initiative in setting up an outside committee of experts.

Proposal actually originated with a Chicago consultant's preliminary review of 12 selected agencies. Consultant called for seven study teams of experts to do in-depth surveys.

Chairman, Rep. Russell Cummings of Houston, said nearly everyone advocates "Economy in the abstract," but "seldom is a studied, rational set of specifics advanced as a plan for saving tax dollars."

Committee is under no illusions that additional state spending will not be required as the state grows.

"The citizens are entitled to know that every tax dollar is being spent with maximum attention to efficiency and economy," said Cummings. "I feel that most of state government is being operated efficiently, but I am also convinced that additional savings can be pinpointed by experts from private enterprise organizations, studying operations within their own expertise."

JUNIOR COLLEGE SHIFT ADVISED--A far-reaching recommendation to dis-

continue financing junior colleges through local property taxes and turn the job over to the state has been offered by the Texas Research League.

During the next biennium, if this proposal were adopted, local taxpayers would be relieved of \$72.9 million. State taxes of that amount would have to be provided. An alternative League recommendation is for the state to pay the operating costs and cost of future construction but to leave existing bonded indebtedness as the obligation of local property taxpayers. This would reduce the local-to-state tax transfer to \$56 million, instead of \$72.9 million.

League recommends a \$200 million bond issue for 1971 and a \$200 million issue for 1975 to pay for construction at all state colleges. Community colleges, League claimed, should be operated through locally-elected regional boards which might supervise several campuses.

League Director James W. McGrew said appropriations for community colleges, which will enroll two out of three freshmen and sophomores in state schools by the end of this decade, should be handled through the Coordinating Board, Texas College and University System.

LABOR DAY TOLL WEIGHTED--Forty-nine persons will be killed in Texas traffic crashes during the 78-hour Labor Day holiday weekend (September 4-7), Texas Department of Public Safety forecasts.

Most fatal accidents, DPS Director Wilson E. (Pat) Speir states, are due to general carelessness, excessive speed for conditions, failure to yield or stop, drinking drivers or drinking pedestrians. Most of these accidents, records show, involved only one vehicle.

MARCH RECALLED--Mexican-American group leaders announced in advance they plan to issue a Labor Day proclamation "of vast political consequences," on the fourth anniversary of the 1966 minimum wage march.

Ceremonies (dedication of a monument to marchers and issuing the proclamation) will be held in New Braunfels where former Gov. John Connally confronted the 1966 group in a meeting which had long-lasting political repercussions.

Three to five thousand will participate in the September 7 events, a spokesman said. He declined to reveal if the proclamation will be an endorsement of candidates.

APPOINTMENTS--Governor Preston Smith has named Joe K. Butler of Houston to the Texas Board of Mental Health and Mental Retardation.

Smith also announced these appointments: * Texas Turnpike Authority--J. Frank Holt III of Dallas.

* Nimitz Memorial Naval Museum Commission--W. B. Wetzel Jr. of Sweetwater.

* Governor's Advisory Council of Aging--Dr. Charles Ballard Dryden Jr. of Wichita Falls.

* Southwest Campaign Coordinator--former Congressman Joe Kilgore of Austin. South Texas regional consultant's job for the Texas Industrial Commission went to Patrick A. Williams of Houston. Former Gov. Allan Shivers accepted the honorary chairmanship of a drive to raise

\$300,000 in funds to assist Texas Warm Spring Foundation Center and Hospital at Gonzales. AIRPORT FUNDS ALLOTTED--Texas Aeronautics Com. allocated \$238,000 for airport construction where no federal aid is available.

Three thousand went to repair minor Hurricane Celia damage at Aransas Pass Airport and to install lighting.

These allocations were approved for new airports: \$27,500 each for Bastrop, Dell City, Jayton-Kent County and Throckmorton County; \$24,000 for Follett and \$20,000 to Winnsboro.

For completion of facilities, Commission earmarked \$7,500 for Vega, \$15,000 for Commerce, \$14,000 for Rock Springs, \$15,000 for San Augustine, \$7,500 for Miami, \$18,000 for Pleasanton and \$4,000 for Nocone.

TAXES EXAMINED--A new committee study notes that Texas state and local taxes have increased 15 times -- from \$207 million in 1932 to \$3.1 billion in 1969.

Property, sales, severance and business taxation make up 93 per cent of the total state and local tax revenue, reports the Committee on State and Local Tax Policy. Yet the other seven per cent amounts to more than \$200 million a year (motor vehicle registration fees, inheritance taxes and drivers' licenses).

CITY REPRIMANDED--City of San Antonio drew a sharp reprimand from the Texas Water Quality Board for dumping 12 million gallons of raw sewage into the San Antonio River on August 3 (in anticipation of a heavy rain).

...Hornets

from page 1

All three boys possess real talents carrying the football. Brown is durable and consistent with very quick moves. He carried over 30 times per game last season and was second by only a few yards in total rushing in the district for the 1969 season.

Ortega runs similar to Brown and deals out real punishment to would-be tacklers. Moore is the Hornet "speed merchant" with 9.8 seconds 100 yard dash speed and 4.5 seconds 40 yard dash speed. Last season, Moore handled duties from split end to quarterback and this season he is settled in as a running back.

Offensively at fullback, the Hornets are four deep with the Bone brothers, Steve Palmer and Billy Hord. Moss will operate with the Bone boys, Phil and Chris, to start things off. Chris has been nursing a sprained ankle for a week now but should be at full throttle for Friday night's action.

Defensively, the Hornets have quietly stopped everyone from hurting the scoreboard excessively. The Hornet Pride might well be the toughest defense in recent Hornet history. The front four, Tatum, King, Schoenewolf and Jones, will be hard to move out up the middle. Steve Palmer and Larry Harrington are hard-hitting linebackers. Hornets Number Un, today.

HOLIDAY SQUEEZE...In case you are wondering where the "glance" column heading went, it has been reduced to fit today's paper. The idea behind the space-saving is time saving so we at the NEWS could enjoy a holiday too.

Things were pretty quiet at the Pounded Rosa over the Labor Day vacation. Speaking of Pounded Rosa---no more! It's gotta be called the Low Chapperel. The other day when we returned home from town, a chapperel (road runner) was in our yard!

NEW RAUSCHENBURG ON THE SCENE...Mr. and Mrs. Joe Pat Rauschenburg are getting accustomed to a new face around their Dallas home. The new face? Why it's none other than little David Dustin Rauschenburg. David joined the family tree August 24, in Dallas' Saint Paul's Hospital. The new arrival weighed in at seven pounds, twelve ounces and measured 20 inches in length.

Little David Dustin's grandparents are bubbling with excitement since his welcome. Maternal grandparents are Mr. and Mrs. Marvin Jones and paternal grandfolds are Mr. and Mrs. Joe Bailey Rauschenburg, all of Gatesville. But they aren't all---David Dustin has three great-grandmothers, all Gatesvilleites. Great-grandmoms are Mrs. Gus Jones, Mrs. Laura Powell and Mrs. Beulah Rauschenburg.

The Joe Pat Rauschenburgs reside in Dallas where "Dad Rauschenburg" is employed with McDonald Photo Products. Mom, the former Miss Judy Jones of Gatesville, is employed as a secretary with the Ford Motor Company in Dallas.

We at the NEWS extend David Dustin Rauschenburg a hearty welcome and our very best wishes.

VISIT IN COLORFUL COLORADO...The beauty and color that is held by the borders of Colorado were all in view for Gatesvilleites Mr. and Mrs. Ernest Buckner recently when they toured in the Colorado Springs, Pueblo areas. The Buckners were accompanied to cool Colorado by Mr. and Mrs. John Powers of Waco.

Highlights of the trip are impossible to single out for the traveling Gatesvilleites, but Pikes Peak, Garden of the Gods, Seven Falls, etc., can drop a few names in the sight-seeing pot. While in Colorado Springs, the Texans visited with the S. J. Comer family. With "hometown" guides, the travelers got the inside information on many tourist meccas such as the Will Rogers Shrine, Cheyenne Mountain Zoo, Green Mountain Falls and Helen Hunt Falls. They enjoyed touring the pioneer gold settlements like Cripple Creek where mines of olden days are still visible and museums of mining tools are numerous.

In Pueblo, Colorado, the Texans visited in the home of Eudell Locklear. Pueblo, located between Colorado Springs and Ratan, New Mexico, offers Indian artifacts for public viewing as well as visits to actual villages. The travelers stopped off in Littlefield, Texas, for a nice stay with the Walter Powers family.
