**Statistics Show You Don't Have to Die to Win from Insurance**

Payments to living policyholders in Texas from their life insurance companies were \$35,969,000 in 1950, which was 43 per cent of the year's total life insurance payments to the families of this state, the Institute of Life Insurance reports. The "living benefits" include matured endowments, disability benefits, annuity payments, cash surrender values paid out and dividends to policyholders. "Living benefits have become an important part of the continuing flow of funds paid by the life insurance companies to their policyholder families," Holger J. Johnson, Institute president, commented. "In the early days of the business, a century ago, it was widely believed that one had to die to win from life insurance. While that was not true even in those days, it is certainly beyond question today, when over half of the total payments made by the com-

panies go to living policyholders." Of the total living benefits received in 1950 by the families of this state, 6,031,000 was for matured endowments; \$1,774,000 for disability benefits; \$5,261,000 for annuity payments; \$14,017,000 for policy cash surrender value payments; and \$3,886,000 for dividends to policyholders. Death benefits paid to beneficiaries under policies on the lives of residents of this state were \$48,648,000 in 1950, making the total of payments to Texas families by their life insurance companies \$84,617,000. For the country as a whole total payment to U. S. families by all life insurance companies were \$3,730,605,000 in 1950, of which 57 per cent were for "living benefits" and 43 per cent for death benefits. The amounts paid nationally were: matured endowments, \$495,090,000; disability benefits, \$99,577,000; annuity payments, \$251,173,000; policy cash surrender value payments, \$680,480,000; and dividends to policyholders, \$634,601,000. This made total payments to living policyholders, countrywide, of \$2,140,921,000.

**RETURNS FROM RALLY HELD LAST WEEK AT WASHINGTON**

R. E. Goff returned last Friday from a ten-day trip which took him and his party to Washington, D. C., to attend a rally of Jehovah's Witnesses held there last week. Accompanying him were Mr. and Mrs. George Schwartz of Hamilton and Mrs. Robert Kofer of Dublin. They also visited many sites of scenic interest in the District of Columbia, Tennessee, Virginia and other points along the way to and from the Capital City. An account of the meeting carried in the Washington Times-Herald last Monday stated that more than 37,000 Jehovah's Witnesses on Sunday, Oct. 14, packed Griffith Stadium to hear N. H. Knorr, their spiritual leader, and again they shattered a stadium attendance record they had set only the day before. On Saturday, 43,000 persons crammed into the park, breaking the record established during the 1924 World Series. "Another 10,000 persons listened to Knorr's address at the Sylvan Theater on the Monument grounds, where the speech was broadcast. All told, 57,000 heard the address, officials estimated. "Knorr urged the throng to 'make yourselves companions of good will. While here, the Witnesses who ate at the specially constructed cafeteria at the stadium consumed 13,000 pounds of fish and meat, six tons of potatoes, 31,000 cups of coffee, 9,000 quarts of milk, 38,000 doughnuts, 3,000 servings of ice cream, 48,000 sandwiches and 30,000 hotdogs."

**Cleanliness counts most**

To keep her kitchen utensils mirror-bright and her kitchen walls spotless is every homemaker's goal. Ninety-six out of 100 homemakers in this area cook with a Gas range. It is no secret that many of them choose Gas on the basis of cleanliness alone.

**CLEAN!** Greasy steam from foods (which comes from all foods) stays inside the pan with "waterless" Gas cooking—doesn't escape to settle on kitchen walls. Only Gas ranges give exact control so necessary for this cleaner-kitchen cooking. Why? Because Gas ranges give you dozens of heats to cook with—not just a few.

**CLEAN!** Greasy vapors are produced in broiling, too. But a Gas range gives cleaner-kitchen broiling. Why? Because a Gas range broils with the broiler door closed. Greasy vapors are locked in. These locked in vapors rise ... right into the live Gas flame which consumes them.

**CLEAN!** Today's automatic Gas range burners give pure stainless heat. And when spillovers happen, burners don't smoke up the kitchen by "burning-off" spilled foods. Instead they can be shut off instantly. Spilled foods are cleaned up with soap and water (for which every homemaker agrees, there is no substitute).

## Hico Profits from Firemen's Efforts Three Factors Considered in Setting Fire Insurance Rates

Austin, Oct. 22.—Texans who buy fire insurance are benefitting from one of the nation's fairest and most equitable systems of setting insurance rates. Fire Insurance Commissioner Paul H. Brown said today.  
Brown, who recently announced fire insurance rate reductions which will save Texans \$2,303,000 during the next year, said that the rate-making system used in this state is equitable because it treats everybody alike. If the people in one community pay a little less for their fire insurance than the people in another community, it's because the system of setting rates rewards the towns with low fire losses and who enforce high standards of fire protection and building and electrical installations.  
That is because three separate factors are considered in setting rates, Brown said. These factors are the town's key rate, its good fire record credit and the experience credit applied to the particular class of building insured.  
Key rates—the basic insurance rate—varies a lot from one community to another, Brown said. This is because the key rate is based on the size and quality of the fire department, the water supply and distribution and other fire protection factors.  
Rates for different classes—dwellings, mercantile buildings, manufacturing plants, etc.—also depend on the type of construction, proximity to fire plug and similar factors. The kind of business located in a building also affects the fire insurance rate.  
After the key rate is determined, then what is known as an "experience credit" is applied. In simple terms, this means simply that the fire loss record on all buildings of a given class is studied and the rate reduced on those classes with low fire losses. For example, all single-family dwellings in Texas now enjoy credits in rate that vary from 48 to 60 per cent, depending on whether they are brick or frame and whether or not they are near fire protection facilities.  
Still further rate reductions are given communities through the good fire record credit system. Based on its fire loss record, a community can lower its insurance rates as much as 25 per cent in a single year, Brown said. A total of 516 Texas towns and cities are now enjoying fire record credits while only 113 are paying higher insurance rates because of penalties. The maximum credit given is 25 per cent while the maximum penalty that can be assessed is 15 per cent.  
A lack of knowledge of insurance laws sometimes results in charges that there are inequities in the rates charged dwelling owners as against those charged mercantile building owners.  
"We apply the same yardstick and the same rate-making system to every class," Brown said.

## Parole Board Members Informed that System Is Working Satisfactorily

Austin, Oct. 22.—Secretary of State John Ben Shepperd stated in a report to Cecil B. James, Hamilton chairman of the Hamilton County Voluntary Parole Board that the Texas Voluntary Parole System is functioning economically and satisfactorily.  
Shepperd reported that when he assumed the duties of Secretary of State in February 1950 there were 600 parolees unaccounted for in Texas. He commended the Texas Voluntary Parole Board members for their cooperation and assistance in enabling the Department to reduce the number of missing parolees to 60.  
The Texas Voluntary Parole System, Shepperd stated, is a positive and constructive program designed to aid the parolees in becoming worthwhile citizens of the community. Parolees, he reported, are released from prison on recommendation by the Board of Pardons and Paroles to the Governor for the granting of clemency. After clemency has been granted, a parolee is under the supervision of Parole Board members until expiration of his sentence.  
The Parole System, Shepperd reported, has proved to be a sound program as a method of progressive public protection. The Annual Report of Texas Board of Pardons and Paroles shows that in 1949 there were 11.6 per cent parole violators. This figure was reduced to only 3.8 per cent in 1950.  
These men, the Secretary of State reported, are supervised at the very low cost of only four and a half cents daily for each parolee while it costs the Texas Prison System \$2 cents daily for each inmate. This figure, he stated, does not take into consideration the amount spent by the State in caring for the dependents of those incarcerated. The Department of Public Welfare shows in their Audit Report for 1950 that \$212,426.27 was spent in aiding these families.  
In comparing the costs of the Texas Voluntary Parole supervision with that of other states, the Secretary of State cited the fact that the state of New York spends \$92 for each parolee yearly; Massachusetts \$54 yearly; Virginia \$60 yearly; Wisconsin \$34 yearly while Texas only spends \$15 yearly for each parolee.  
Shepperd also praised the work of the members of the Voluntary Parole Board and cited several cases where through their efforts delinquents have been restored from the prison system to daily pursuits of everyday life.  
Other members of the Hamilton County Voluntary Parole Board are Bert C. Lawrence of Hamilton and Lawrence Lane of Hico.

## Withholding Taxes to Be Figured at Higher Rate Beginning November 1st

Frank Scofield, Collector of Internal Revenue at Austin, announced today that employers will be required to withhold income tax from wages paid on and after November 1, 1951 at the higher rates provided by the Revenue Act of 1951. The Revenue Act is at present in the final stages of enactment into law.  
Revised withholding tax rate tables for employers are already being printed in Washington, and are being rushed to the offices of Collectors throughout the nation.  
Collector Scofield stated that the pamphlets containing the revised tables will be placed in the mails to all employers on his list as soon as the tax law is finally enacted. Employers who do not receive the pamphlet within a few days after enactment of the new law, may obtain copies at the Collector's office. It was emphasized that the pamphlet cannot be made available for distribution to employers until after the bill becomes law.  
In the meantime, however, Collector Scofield authorized the publication of the withholding rates as they appear in the pending Act, for the advance information of employers and the public.  
Collector Scofield stated that employers are expected to make every reasonable effort to comply with the provisions respecting the new rates. In view of the short time elapsing between the enactment of the law and the first payroll period affected, many employers may not be able to adjust to the new rates on the first pay day affected. While no adjustments will be made in the audit of the withholding returns in such cases, he made it clear that this does not in any manner affect the responsibility of employees to meet their full tax liability as required by law when making their returns for the year 1951.  
Collector Scofield also called attention to the fact that the new law relieves individuals from penalties for failure to comply with the requirements relative to declarations of estimated tax on Form 1040-ES for 1951 if due to the increased rates in the Act. Revised estimates will not be required on account of the rate increase, although the higher tax for 1951 provided in the law will have to be paid when taxpayers file their income tax returns for the year.

"Because of the fine help which your city gave, the 1951 Southwestern Exposition and Fat Stock Show was a record-breaker in many ways.  
"The purpose of this letter is to say 'Thank you', to tell you we are hard at work on plans to make the show coming up the best one; and to extend a special invitation to your city to have a 'day' designated in your honor.  
"By having a 'day' and bringing your band and naming a Cowgirl Sweetheart, your city will reap wide publicity and your citizens will have more fun by coming in a delegation, thereby making a real impact on the throngs, with your husbands and badges publicizing your own rodeo, fair or other civic enterprise.

Recently Married in Bride's Parents' Home, Couple Living in Hico

In a twilight ceremony performed at the home of her parents, Miss Betty Jane Golightly became the bride of Wendell Clark Burden on Friday evening, Oct. 12, at 7 o'clock. Rev. L. H. Davis, pastor of the First Baptist Church, Hico, read the double ring ceremony before an improvised altar of baskets of large white chrysanthemums and greenery.

The bride is the daughter of Mr. and Mrs. John G. Golightly, who live between Hico and Clairette.

The groom's parents are Mr. and Mrs. Luther T. Burden of Hico.

Mr. Golightly gave his daughter in marriage. Her bridal dress was semi-formal length, white net over white satin. Her fingertip veil of net fell from her headpiece, and she carried a colonial bouquet of white carnations and stephanotis.

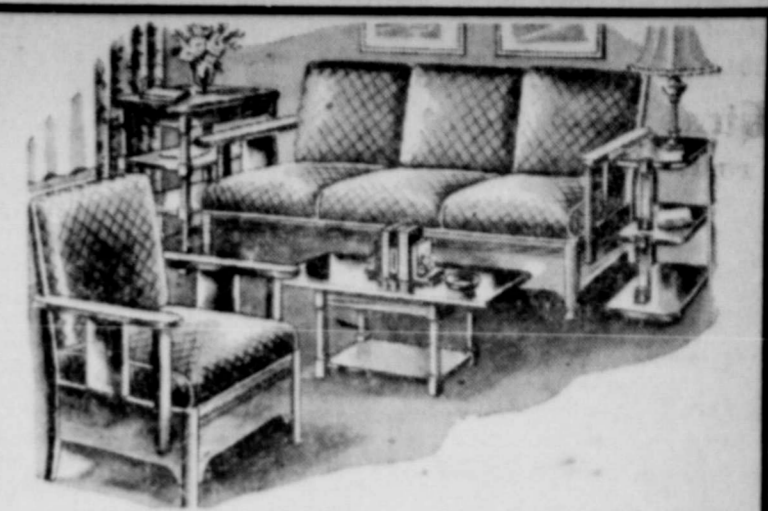

Matron of honor was Mrs. Von Scott, who wore a dress of pink marquisette over blue taffeta and a veil of shoulder length. She carried a colonial bouquet of blue pom poms.

Miss Shirley Seago played the traditional wedding marches and accompanied Bobby Ratliff, who sang "I Love You Truly." He also served as best man.

Following the ceremony, a reception for the 30 guests present was given in the Golightly home. The serving table was covered with a lace cloth. A crystal container held an arrangement of white pom poms, centering the table, which was also arranged with white candles. Wedding cake was served by Mrs. Ray Keller, sister of the bride. Miss Mary Sherard presided at the punch bowl. Miss Betty Bolton was at the bride's book.

Fort their wedding trip to South Texas, Mrs. Burden wore a brown wool ensemble with brown and gold accessories. The couple are making their home in Hico, where the groom and his father own and operate Burden's Grocery and Market.
