

From where I sit ... by Joe Marsh

Heard About the Electric Weather Predictor?

Squint Smith built up quite a reputation last month by predicting the weather. What he said usually came true.

It got so that folks would sit around his little Antique Shop just to get his opinion.

Last Monday, though, he said he didn't know what the weather was going to be like next day. That surprised us and when we asked what happened, Squint said, "Slipped up on my electric bill and was turned off. I'll get to my radio again tomorrow though." Squint had been getting

the weather over the radio—just like anyone else!

From where I sit, that's the way it goes with some "experts." They often don't have any more inside information than you can get for yourself. Like those who "know" cider is the only thirst-quencher after a day's work. Far as I'm concerned, I'll take a temperate glass of beer. But—I won't try to "predict" your choice for you.

Our weather news is the same, dry and hot. However, we are thankful for a nice breeze sufficient to run windmills most every day.

Mr. and Mrs. Grady Little and family of Oklahoma City stopped a short while Sunday morning for a visit with his grandmother, Mrs. Brittie Little. They were en route to Corpus Christi and other southern points on a vacation tour. Grady is the son of Mr. and Mrs. Harvey Little, also of Oklahoma City.

Mrs. Jim Moss of Grandfalls, Texas, visited recently with her sister and husband, Mr. and Mrs. Roy Blakley. She is the former Miss Electra Elders of near Fair. Mr. and Mrs. Willis McAdams of near Cranfills Gap visited Sunday in the home of their son, Mr. and Mrs. R. W. McAdams and family, and also with her father, Uncle Bob Parks. Their grandson, Kenneth McAdams, who had been visiting them for the past week, returned home with them.

Mr. and Mrs. Edd Allison were in Waco Friday of last week for a visit with their daughter and family, Mr. and Mrs. Dellis Seago and Sherry. They said that residents became panicky during the sudden gust of wind and dust from the southeast that afternoon. Seemed to have been wide-spread. Mrs. Cox reported a very good rain at Austin. The wind did no damage here, other than blowing down some of the uncut grain and blowing some loose threshed grain from trucks and trailers in fields. It only lasted a short while.

The writer attended singing at Board Church near Comanche Sunday. We accompanied Mr. and Mrs. A. H. Sumerford from Hamilton. After returning to Hamilton, the writer visited in the home of Mr. and Mrs. Willis Oglesby and her mother, Mrs. Minnie McCarty of Hamilton.

Mr. and Mrs. Carl Ray Sellers, Carolyn and Jimmie Don visited Sunday in the home of his parents, Mr. and Mrs. N. S. Sellers of Hamilton. They were accompanied from Lanham by his sister, Mrs. Raymond Jones and children.

Miss Jo Ann Sills, daughter of Mr. and Mrs. Herman Sills, recently underwent surgery at the Hico Hospital, for removal of her tonsils.

Mr. Dewey Spinks of Hico was at the Fairy Cemetery Monday erecting a concrete curb at the C. M. Tinkle lot.

Mrs. Carl Ray Sellers was hostess to a birthday party Monday afternoon honoring her little daughter, Carolyn on her eighth birthday. The little guests, including her school class and roommates enjoyed a joyful get together along with their teacher, Mrs. Willo Bradley. They were allowed to entertain themselves. The boys chose to play in the shade of a liveoak tree with Jimmie Don Sellers and his toys, while the little girls chose to play at Carolyn's play house, which happened to be the play house of her mother, the former Charlene Richardson. After a few hours playing, they were called in to inspect the many nice little gifts received by Carolyn as she opened and passed them around. Following the viewing of the gifts they gathered around the dining table singing "Happy Birthday" while Carolyn blew out the candles on her birthday cake, a white layer coconut cake with yellow and white decorations. Then the children formed a line by the lavatory, where each were refreshed by a face and hand bath, preparatory to being served refreshments on a long table in the shade of a tree in the yard. Cake, candy, mints, and iced fruit punch was served to 29 children. Those present were Dixie and Suzanne Lackey, Kenneth and Jennie Ruth, McAdams, Doren Owen, Willford, Cheryl Price, Sue Prater, Jerry Richardson, Larry Jene Dunsby, Jerry, Peggy, Donald Ray and Joyce Fay Jones, Bobby and Barbara Sellers, Cora Ann Thompson, Glynda and Eddie Jackson, Juanita Ruth and Johnny Jones, Nelda Wood, Max Halle, Weldon and Rudy Oxley, Sandra Gardner, Barbara Ann Bradley, Marilyn Jones, Jimmie Don Sellers and the honoree, Carolyn Sellers. After serving, balloons and bubble gum was passed to each. Late in the afternoon each departed for their homes, after expressing to the honoree their pleasure in attending. The following mothers and others were present, Mrs. M. E. Jackson, Mrs. Lee Prater and Bobby, Mrs. Oxley, Mrs. McAdams, Mrs. Wesley Jones, Mrs. Frank Sellers, Mrs. Raymond Jones, Mrs. N. S. Sellers, Mrs. Dock Lackey and Mrs. Willo Bradley and Mrs. D. E. Allison of Dublin, aunt of the honoree and the writer and hostess.

Mr. and Mrs. Carl King and Lynn spent the week end in San Angelo visiting in the home of his sister and with his mother, Mrs. Edna King and at Ballinger with her mother and sister. His mother returned home with them to visit.

Mrs. Edison McCoy and two sons of Fort Worth came down Sunday for a visit in the home of her deceased husband's parents, Mr. and Mrs. J. L. McCoy and his sister and family, Mr. and Mrs. Scott Blakley and Lera Jane.

Mrs. W. E. Goynes, who is attending classes at Baylor University in Waco, spent the week end here. We are glad to have Mrs. Goynes and daughters, Misses Wilma Grace and Lynda Lou back with us through the summer months at their home here. Mrs.

Goynes is a faculty member of the Dublin school and she and daughters reside there most of the time during the school terms. Mr. Goynes's sister, Miss Zell Goynes is visiting in their home at this writing.

The gardens and corn crops are badly needing rain. We hope and pray it will rain before the corn burns up.

Several met at the cemetery and worked most all the morning Friday, donating their time and work. The cemetery is growing up despite the dry weather. At present there isn't enough money in the treasury to hire it worked out. We ask all that have loved ones buried here and that are interested in keeping the cemetery clean, to send or mail in your contributions to the Clairette Cemetery Association soon.

by fine, but this is rather an unusual procedure.  
Misdemeanor cases are customarily prosecuted on the basis of an "information" filed by the County Attorney. This serves the same function as a grand jury indictment.  
The importance of a grand jury verdict is this: If it votes a "True Bill"—that is, if someone is indicted—the District Attorney must prosecute the person indicated; but if the jury votes a "No Bill"—that is, not to indict—the suspected cannot be tried.  
The grand jury procedure is one of the basic protections enjoyed by the common man against outrageous procedures of would-be tyrants, and dates from early Anglo-Saxon times. It assures that no person shall be forced to stand trial for a felony on the basis of a malicious or frivolous accusation having no apparent factual support.  
When called to serve on a grand jury you share with a group of fellow citizens some of the most solemn responsibilities known to our democracy. Consequences of life-or-death importance may hinge upon your vote.

Again it is my sad task to write the obituary of another brother, Arthur Johnson, who passed away in the Dublin Hospital Saturday, June 13, 1963, at 3:10 p. m. He had been in ill health for several years, his condition grew worse Wednesday and he was rushed to the hospital Friday night. He was the son of William Lewis and Mary Booker Johnson and was born at Carlton November 25, 1889, being 63 years, 8 months and 18 days old at the time of his death. Rev. W. D. Broadway held the funeral services Sunday afternoon at 3 o'clock in the Carlton Baptist Church, with interment in the local cemetery, under the able direction of the Harrell Funeral Directors of Dublin.

Pallbearers were nephews, Raymond Geye, Lufkin; Nolan Geye, Granbury; William Farrar, Comanche; J. B. Maples Sr., Newburg; Paul Warren, Dublin, and Dow Self, Carlton. ### INDICTMENT NOT EVIDENCE OF GUILT

What does indictment by a grand jury mean? Lawyers find that many persons are inclined to confuse indictment by a grand jury with a court conviction for a crime.

This misconception is unfair to anyone who becomes the subject of a grand jury investigation. Justice, in the United States, is based on the theory that a man is innocent until proven guilty, and public opinion should withhold its verdict until the courts have had an opportunity to determine guilt or innocence.

An indictment is simply a written accusation presented by a grand jury to the district judge. It charges some person or persons with a crime. It is not a conviction. When a grand jury indicts a person it merely affirms that there is sufficient reason for him or her to stand trial. That is as far as the grand jury goes.

After that, the judge and the trial jury take charge of the case. At the trial the indictment is simply the State's pleading in the case, to which the defendant may plead "Not Guilty". The trial jury is instructed by the judge that it must not consider the indictment as any evidence of guilt.

All felony offenses in Texas, that is all offenses punishable by imprisonment in the State penitentiary, must be prosecuted on an indictment by a grand jury. A grand jury may indict an individual for a misdemeanor, an offense punishable only by a jail sentence or

Washington

"As It  
Looks  
From  
Here"

Washington, June 18.—The price  
decline of agricultural products,  
including cattle, has been discuss-  
ed earlier in this column. In my  
opinion, there will be a further  
decline unless something is done  
to hold up our normal exports to  
foreign nations.  
For example, the world cotton  
market indicates that export of  
American cotton is running 50 per  
cent below the 1922 level. The  
Commodity Credit Corporation  
owns today more than 3 million  
dollars worth of products. It is  
estimated that by the end of the  
year this figure may be increased  
to more than 5 billion. We need  
to do something with this surplus  
to keep the government from los-  
ing money. We simply cannot af-  
ford to have great losses. The tax-  
payers all over the nation must  
bear the burden, and members of  
Congress from the cities and non-  
farming areas may raise such op-  
position that it would endanger our  
entire farm program. We should  
do all in our power to get the farm  
program on a solid foundation and  
to keep it from getting a "black  
eye."  
This week, I have proposed that

the Commodity Credit Corporation  
make available to the Mutual Se-  
curity Agency under the President  
surplus farm commodities to sell  
to foreign countries, taking in pay-  
ment their local currencies. One of  
the big difficulties in selling to  
foreign nations is that they do  
not have dollars with which to  
purchase. Many of the markets of  
the world are in what is known as  
the "sterling bloc," and of course  
that must be converted into dol-  
lars based on a gold standard. We  
hear a lot about the "dollar gap"  
and this of course is what it means  
in world trade.

Since we are lending aid to many  
foreign nations in a mutual effort  
to stem the tide of Russian Com-  
munism, the currency received for  
our agricultural products could be  
used in the country where the  
products were sold. Instead of our  
sending dollars to them or instead  
of selling it to them on credit.  
The currency could be used to  
produce military equipment and  
for military support. It could also  
be used in the undeveloped areas  
of the world where we are now  
seeking new markets.

This entire system would not  
displace agricultural markets al-  
ready in being, but rather, it would  
be an expansion of trade never  
realized by this country and a  
stimulation of commerce between  
free nations with whom we are  
now cooperating in mutual defense  
of the Free World. It would do  
two other things. First, it would  
save dollars and economic assist-  
ance now going to foreign na-  
tions and would relieve the sur-  
plus commodities now being held  
by the Commodity Credit Corpora-  
tion. It would stimulate the farm  
economy of this country and main-  
tain prices to the farmer which  
have declined because of a lack of  
exports.

I offered an Amendment in the  
Foreign Affairs Committee this  
week for this purpose, but it was  
rejected by one vote. Immediately  
afterwards, I introduced a separate  
Bill in the House of Representa-  
tives, and I have reason to be-  
lieve that President Eisenhower  
may favor the idea. If such au-  
thority is furnished the President,  
the Secretary of Agriculture, and  
the Commodity Credit, there is no  
doubt that it would have a favor-  
able effect upon the price of cot-  
ton, grains, peanuts, and other  
farm products, including the live-  
stock market.

Demonstration Given  
In Basket Weaving  
For South Hico Club

The South Hico Home Demon-  
stration Club met Thursday at the  
City Park for an all-day meeting  
and basket weaving demonstration.  
Mrs. J. B. Carmean, president, called  
the club to order and conducted  
the business meeting and program  
before noon.

The program, "Household Pests,"  
was brought by Mrs. A. D. Simons.  
"A 10 per cent DDT spray or pow-  
der is effective for most house-  
hold pests," said Mrs. Simons.  
"Chloradane is also good."

Mrs. Lenard Weaver added that  
she kept flour beetles (weevils)  
out of her flour last summer by  
sprinkling a handful of salt over  
the top of her flour. "Meal may be  
kept the same way," said Mrs.  
Weaver.

A covered dish lunch was serv-  
ed at noon to Mrs. Carmean, Mrs.  
Simons, Mrs. Weaver, Mrs. W. A.  
Moss, Mrs. W. R. Churchhill, Mrs.  
Cyrus King and Mrs. Byron Haw-  
thorne. Mrs. L. J. Simpson was  
added to the list of members, and  
the following visitors came dur-  
ing the afternoon: Mrs. Etta  
Stanley and Mrs. H. B. Warren,  
Marietta Churchhill and Deral  
Wayne Simons. Eleven baskets  
were made as Mrs. Carmean  
demonstrated basket weaving.  
Home demonstration clubs al-  
ways welcome new members. If  
you listened to Murray Cox during  
H. D. Week, you learned that  
there are 41,000 H. D. women. He  
also remarked, "Although they are  
not a political organization, Heaven  
help the politician who ignores  
their wishes."

The Farmer

and the

Dairy Herd

is

BIG BUSINESS

THE ENTIRE MONTH OF JUNE IS SET ASIDE TO PAY NATIONAL  
TRIBUTE TO THIS INDUSTRY.

We can show our appreciation to the farmer and the dairy herd by: Drinking  
more milk; eating more butter; and using more dairy products in our daily menu.

HERE ARE SOME INTERESTING DAIRY FACTS TO KNOW:

- Dairying is one of the largest sources of revenue in Hamilton County and  
throughout the United States.
- Dairying brings over 3/4 of a million dollars a day to American farmers.
- More than 45,000,000 quarts of milk are consumed daily in the United States.
- Milk and its products are produced and distributed under the strictest sani-  
itary health regulations.
- Dairy Products supply our most vital needs: calcium and phosphorus for the  
teeth and bones; proteins for tissue; sugar and fats for energy; vitamins for  
health and well being.

At today's prices milk is the biggest bargain in food, and refreshment, too!  
Even if milk cost you twice as much, it would still be more in food, more in re-

### Duffau Ceremony Unites Couple in Marriage Sunday

Miss Elwanda Stringer, daughter of Mr. and Mrs. J. R. Stringer, Duffau, was married Sunday, June 14, at 3:30 p. m. to A. C. Sumrall, son of Mr. and Mrs. Cleotis Sumrall of Fort Worth. Rev. Royal Cotton, Baptist pastor of Dallas performed the ceremony at the Duffau Baptist Church.

Mrs. Viola Smith, Fort Worth, and Edwin Boucher of Alexander were attendants for the couple. Paula Slodge of Fort Worth was flower girl, and ushers were Ralph Johnson and Judson Smith, both of Fort Worth.

Miss Lola Mae Inabinet played the traditional wedding marches and accompanied Mrs. R. B. McClure, who sang "I Love You Truly."

Two large vases filled with yellow gladioli decorated the church, before an altar beautified with palm leaves.

Given in marriage by her father, the bride's dress was fashioned with a lace bodice and full skirt of nylon net over taffeta. Her fingertip veil fell from a halo of pearls. She carried a white Bible topped with an orchid and streamers of Lillies-of-the-valley.

The matron of honor wore a Nile green taffeta dress and carried a colonial bouquet of yellow mums. The flower girl's dress was light orchid taffeta, and she wore a corsage of yellow mums, carrying a basket of rose petals.

Following the wedding, Mr. and Mrs. J. R. Stringer were hosts at a reception in their home. Refreshments of punch and wedding cake were served to about 80 guests. An arrangement of yellow gladioli was at each end of the serving table, which was centered with the wedding cake, topped with a miniature bride and groom.

The bride is a graduate of Alexander High School, attended Brantley-Draughon Business College in Fort Worth, and has been employed at Southwestern Petroleum Company there. Her husband was graduated from Technical High School, Fort Worth, and is employed as a mechanic at Fred Oakley Motors, Dallas.

**RED CHAIN DAIRY FEEDS**

Tests have very definitely shown that a variety of the right kind of ingredients in a supplement increases the percentage of digestibility of roughage in ruminant animals. With dairy cattle this means a greater amount of nutritional elements to make milk and keep the cow in condition. RED CHAIN Dairy Feeds provide a variety of protein ingredients along with vitamin D and molasses for improved palatability as well as an aid to the digestive processes. That is why dairymen have found that RED CHAIN Dairy Feeds aid cows to "shell out" more milk.

RED CHAIN Dairy Feeds are available in 16%, 18% and 24% protein, so as to economically balance, good, average or poor roughage. For dairymen having plenty of home grains, RED CHAIN 34% Protein Dairy Supplement provides the base for dairy feeds of any desired protein content. See us today for a supply of RED CHAIN.

**Texas Helps World Study of Wild Life Conservation Methods**

Austin, June 15.—The surge of public attention toward conservation education in Texas has had an indirect bearing on the international swing in this field of endeavor.

This was reported by the Director of Conservation Education and Departmental Publications of the Game and Fish Commission.

He attended a Washington meeting of the Program Committee of the Wildlife Management Institute to help shape the program for the Nineteenth North American Wildlife Conference in Chicago, March 8-10, 1954.

The Director said his reports on recent Texas conservation education progress was an important factor in planning the program for the spring sessions. One of the major points made was that the Texas education authorities recently have channeled conservation education to every classroom in the state and that thousands of teachers are teaching conservation.

The Chicago meeting will be attended by authorities on wildlife throughout North America and from many foreign countries.

The Director said the keynote of his presentation at the Washington Committee meeting was that "we are in the business of conservation education and therefore must push forward to show everyone that future progress depends on the wise use of the soil, the trees, the waters and wildlife."

Meanwhile in Texas the summer workshops for school teachers are about to begin. The various allied agencies contribute to these schools for the direct benefit of school-romo teachers. It is considered noteworthy that twenty-four Texas senior colleges and universities will carry on teacher training programs in Conservation Education this summer.

**MRS. JANIE MAIN**  
Mary Jane Harris was born in Pontotoc County, Mississippi in 1872 and came to Texas with her parents when she was 11 years old and settled on Spring Creek. When she was 15 years old she was married to John Guy Main near Walnut Springs in the year of 1889. To this union 5 children were born, 2 girls and 3 boys. One girl died in infancy. The other daughter, Leola Ponder, died at the age of 19 years and 11 months and 15 days. She had married and was living at Walnut Springs at the time of her death. The boys are John C. Main and Ward Main of Iredell, and Guy Main of Grand Prairie.

Mrs. Janie Main, as she was called, passed away on Friday, June 5 at an early hour at her home. Her son, John and wife were with her. John heard her coughing and went to her and seen something was wrong and called Word but she was gone in a few minutes. Her health had been bad for some time.

**FARM QUOTAS:** Look for quotas on both cotton and wheat next year.

Cotton farmers from the Pecos area, here last week, urged Agriculture Department to consider recent heavy increases in cotton planting in Texas when lower acreage quotas are set for 1954.

Recent ruling by the Department's collector says 1954 quotas must be based on planting of past seven years, not including 1953. Plantings in West Texas and South Plains were much smaller in 1947 and 1948 than in more recent years. The ruling, if it stands, would require growers in these sections to

take acreage cuts for greater than the national average.

Revision of wheat quota laws will be proposed to bring them more nearly in line with laws covering cotton, tobacco, peanuts.

Congressman W. R. Poage of Waco reports House Agriculture Committee, of which he is a member, is working on revisions.

**ECONOMY:** First seven regular appropriation bills passed by the House cut Eisenhower budget figures by 8.6 per cent.

Senate also is economy-minded. Last week, for example, in passing appropriations bill for State, Justice and Commerce Departments, we cut out an appropriation and expenditure authority totaling over 40 million dollars for ship subsidies. I supported the cut.

**LOANS AND GRANTS:** During first five months of this year, Texas received the following Federal loans and grants: \$394,000 for one telephone cooperative affecting five counties; \$2,433,000 for 10 electric cooperatives affecting 59 counties; \$1,457,300 for 125 schools in 41 counties.

**HILLBILLY MUSIC:** I recently asked for advice about a request

I had received to support a resolution naming a National Hillbilly Music Day. A Houston lady writes: "If we must have such a day—let it be February 29. That would save us from such a celebration except every four years." Anybody else?

**WHAT'S AHEAD?** Rent control will end July 31 in Borger, Lone Star, Port Lavaca, Rockdale, Big Spring, Hondo, Mineral Wells and Weatherford.

Prospect is brighter for extension of Reciprocal Trade Act, without crippling amendments.

A portion of the Federal support furnished Allen Military Academy, Bryan, and Texas Military Institute, San Antonio, for their R.O.T.C. program is scheduled to be withdrawn. Part of the Defense Department's economy drive.

Driftwood, Hays County community famous for its Confederate Soldiers' Reunion, apparently will lose its post office under the Post Office Department's policy of eliminating many small post offices.

Proposed appropriations cut for Federal Petroleum Board will likely be restored. This is the agency that enforces the Connally Hot Oil Act. Charlie Devall, aggressive Texas publisher, wrote in his Kilgore News Herald a strong editorial on the subject, which I had inserted in the Congressional Record.

**Press Day Will Open 1953 State Fair of Texas On Saturday, Oct. 10.**

Mineral Wells, June 13.—Opening day of the 1953 State Fair of Texas, Saturday, Oct. 10, has been designated as Press, Radio and Television Day, following a tradition of long standing, it was announced here at the annual convention of the Texas Press Association.

Since the first fair in 1886, newspapermen have gathered at the fair on opening day to see the sights and take home a report on the exposition for their readers. Representatives of the newer mediums of radio and television now are also included.

More than 2,000 publishers and radio and TV executives and their families are expected for Press, Radio and TV Day this year. The newspaper readers, radio listeners and television viewers they represent runs into the millions.

Press Day will be one of the fair's bigger days this year. An opening day attendance record looms as a possibility because of the major attractions scheduled, biggest of which is the Texas Oklahoma football game in the Cotton Bowl.

The complete program for the 1953 fair has not yet been announced, but tentative plans mark it as the biggest and best in the long parade of glittering spectacles characteristic of the nation's biggest exposition.

One of the big special features being inaugurated this year is the Pan-American Livestock Exposition, and Press Day visitors will have an opportunity to inspect champions representing all the major breeds of beef and dairy cattle, swine and sheep.

At the Mineral Wells convention the famous golden, diamond-studded key to the Texas Treasure Chest was passed on by the retiring president of the Texas Press Association to his successor for the 15th time.

The key will be used in 1986, the fair's hundredth anniversary year, to open the chest which was embedded in a monument to the founders of the fair in 1938. The monument is located just inside the main gate to the fairgrounds. The chest contains historical documents and copies of more than 100 Texas newspapers. The key remains in the possession of the TPA president.

**Services Held Here Monday for Victim Of Auto Accident**

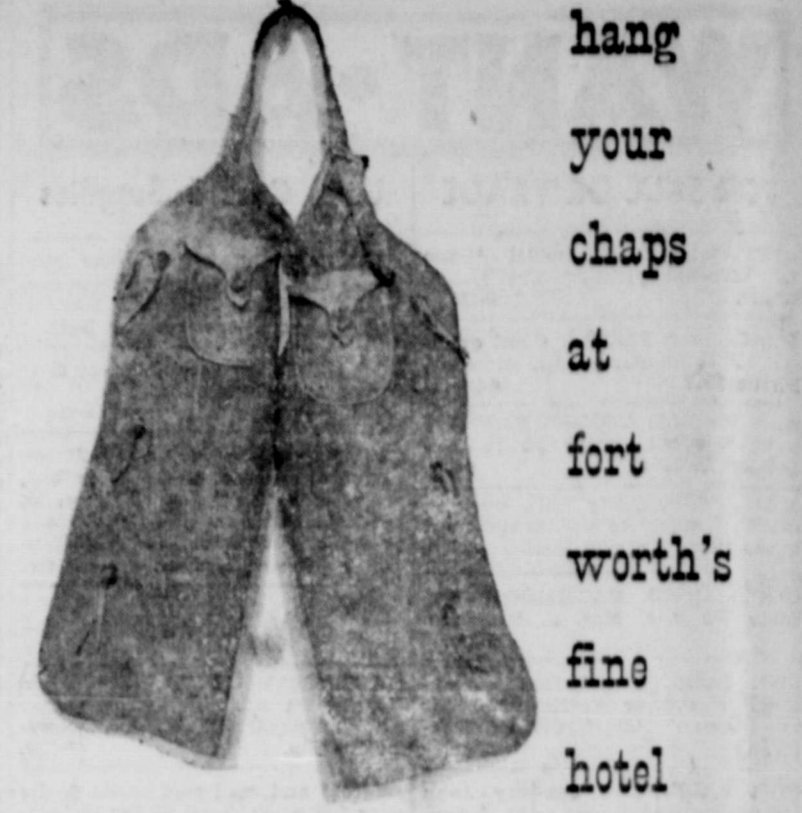

Funeral services were held here Monday for Mrs. Houston Garnie Palmer, 53, of Perrin, who was killed in an automobile accident Saturday on U. S. Highway 281, 19 miles north of Stephenville.
