From the Catskill Mountain Star, Saugerties, New York: Respect and reverence for Sunday can be installed into the minds and hearts of children at a very early age. They love to "dress up" and then proudly march to church. As they grow older and the true significance of the day begins to dawn upon them they learn to appreciate the fact that this is a day set aside for worship and rest. Man has not always had this blessing. For many it came after a long and bitter struggle. Whatever a person's walk in life may be, there are few who would want to give up the Holy Day. Attend the church of your choice with the whole family and the children will grow up to cherish the day as a real heritage.

From the Colfax Record, Colfax, California: There are many who constantly resolve to improve their minds by reading intelligently written books, in the hope they will become better equipped to understand the many issues that crowd them as they try to keep pace with this modern world. . . . The Bible has long been recognized as pre-eminent in the field of . . . improving human beings. It might be a good idea, then, for all of us to give a little more diligent study to the great truths that

Difference in Food Dollar and Farmer Profits

Few consumers ever stop to think that what they pay for food and other farm products does not all go to the farmer. Rather, a very large part of the money goes to pay for marketing and transportation services.

The part which the farmer doesn't get has been increasing. This is true mainly because consumers buy less and less of the farmer's product in the rough form and buy more and more in a finished form. To put that food in the form the people want means extra work—an extension of marketing services—for which the buyer, of course, has to pay.

Extra work for processing, for packaging, for handling, for the many different services that go into present-day marketing all add to the food costs.

An example of the way in which an extension of marketing services tends to increase the costs involved is found in the selling of wheat products. Most of the wheat sold by farmers used to be bought by consumers in the form of flour.

Now most of it is sold to consumers in bread, cakes, pies and other bakery products. The number of persons at work in preparing and marketing farm food products back in 1932 was estimated at over 3 million. Last year it had increased to nearly 5 million workers. Included were persons engaged in assembling, processing, wholesaling, retailing, and transporting farm products.

In the past two years, we have seen farmer income gradually drop. Normally, the consumer would expect food costs to drop accordingly. However, in most cases, wages and costs of processing foods has increased and this higher cost has been passed on to the purchaser while the farmer actually got less for his raw product.

If the housewife were to abandon "specialty" foods and pre-packaged goods, and depend upon her own kitchen skill to convert "raw" farm products into family meals, then she would find her costs would be lowered correspondingly with the farmer's profit.

Hogs Weaken Again; Cornbelt Runs Big
The 12 major markets reported 95,000 hogs Monday, around 13,000 above a week ago. Markets were lower as a result. At Fort Worth top hogs drew \$19.25 and \$19.50, or week to 25 cents under last week's close. Sows held steady at \$18 as the sausage grinders were again active in the trade.

Stephenville Man Found Dead Near Bluff Dale Wednesday

Stephenville, Nov. 3.—Harry J. Neblett, 59, Stephenville loan and insurance man, was found dead early Wednesday, three miles north of Bluff Dale on the C. J. Davidson ranch in Hood County.

A search for Neblett began about 6 p. m. Tuesday after he failed to return from the ranch, a favorite fishing spot. The body was found at 1:15 a. m. Wednesday in an oat field, about 150 yards from his parked car, by State Highway Patrolman W. H. Berry of Stephenville.

Death apparently resulted from a heart attack.

Neblett was born in Stephenville and had resided here most of his life. He had been in business for a time at Midland and Harlingen. He was a Mason and a Shriner.

Funeral services were conducted at 2:30 p. m. Thursday in First Baptist Church, of which he was a member.

Survivors include his wife; two brothers, Roy of Van Nuys, Cal., and Charles Neblett Sr., chairman of the board of Farmers First National Bank here, and three sisters, Misses Addie Compton and Tom Winfrey of Fort Worth and Bernice Williamson of Stephenville.

Texas Prison System

Money for an effective parole and probation system is being asked by four state agencies.

Recommendations of the Board of Pardons, Department of Public Safety, Texas Prison System and State Auditor C. H. Caviness's office seek \$245,661 in the 1955 fiscal year to start the program and \$345,232 the following year.

Caviness said that the Texas parole system, while not rated as among the worst, is not among the best. He said the situation could be remedied if the legislature okays the request.

Funeral Services at Lamkin Thursday for Wylie M. Belsler, 68

Wylie M. Belsler, 68, was found dead sitting in a chair at his home in Lamkin, where he lived alone, Tuesday afternoon of last week. A coroner's verdict pronounced death due to heart attack.

Mr. Belsler was believed to have been dead about six hours when discovered by his son, Marsh.

Mr. Belsler was born January 30, 1886 in Comanche County. He was the son of Emma Belsler, who is said to have ridden the first train into Hico. He had lived near Carlton a number of years before moving to Lamkin two years ago.

Funeral services were held Thursday morning at the Lamkin Methodist Church. Burial was in Tolliver Cemetery, with Barrow-Rutledge of Hico in charge of arrangements.

IRRIGATION WELL FINISHED

J. O. Horton reported this week that the water well for irrigation at his Toe-Gen Ranch west of Hico near Clairette had been bottomed at 380 feet, with "plenty of water."

Operations on the well, which was drilled by Woodrow Wolfe and which has created quite a bit of interest throughout this section, have been suspended. Toe said, and future developments will depend on the plans of a prospective new owner who is under contract to buy the 721-acre property.

When the deal is concluded the Hortons plan to move to a place closer in to Hico on Route 2, owned by his father, A. D. Horton.

Lone Star Awarded First Place in National Fleet Safety Contest

The Transmission Division of the Lone Star Gas Company was honored by the National Safety Council at recent ceremonies in the La Salle Hotel, Chicago, for winning first place in the Group I Public Utilities Division of the Council's 1953-54 National Fleet Safety Contest.

A. W. Breeland of Dallas, assistant director of personnel, accepted the award for the company.

More than 1,400 fleets, operating more than 256,000 vehicles and traveling 3,113,826,000 miles, competed in the contest, the largest of its kind in the United States. Competing contestants represented all types of bus, truck, taxicab and passenger car fleets.

The Transmission Division of Lone Star operated a total of 4,823,283 miles during the contest period and achieved an accident rate of .29 accidents per 100,000 miles. Under contest rules, all accidents, except those occurring when the vehicle is properly parked, are reportable. Before winners are declared in the contest, the accident records of leading fleets are personally audited by representatives of the National Fleet Safety Contest Committee.

and Social Security

A person who operates a farm, ranch or any other agricultural enterprise is covered by social security beginning January 1, 1955, if his annual net earnings from self-employment are \$400 or more. A special method of tax computation is provided for low-income farmers who report on a cash basis.

A person employed on a farm or ranch, or who works in any kind of agricultural enterprise after 1954 will get social security credit for his work for each farm operator who pays him \$100 or more cash wages in a year. Under the old law only regular, full-time farm work could be counted.

For further information write the Social Security Administration at Waco, Texas, and ask for free booklets, "Facts for Farm Families," and "How to Estimate Payments."
