COUNTY AGENT REPORTS

By E. R. LAWRENCE

Egg production on Texas farms during the month of May was down 2 per cent compared to May of last year, even though there was an increase in the number of eggs laid per one hundred layers. During May of this year, Texas poultry producers produced 1,804 eggs per one hundred layers compared to 1,792 eggs in May of last year. The United States egg laying flocks on May 1, 1955, was 3 per cent larger than a year ago, and as a result, egg production in the next month or two may exceed that of last year. However, by October 1, 1955 this situation will probably be greatly changed. It now appears that the laying flock on October 1 may be 6 to 8 per cent smaller than a year earlier. This decrease in the number of layers in the nation will be only slightly offset because of trends toward higher rates of lay per bird. An important factor that points to more favorable returns during the period mentioned above is that farmers had 19 per cent fewer chicks and young chickens than a year earlier for laying flock replacement. This is a big drop and is worth considering in analyzing the outlook. On the same date, May 1, the number of eggs for egg type chicks in incubators was probably 10 per cent below a year earlier. The reduction from last year in chickens raised is not likely to be effected much by changes in the replacement hatch after the present date. The number of chickens raised this year is likely to be close to that indicated by farmers on February 1, 1955. Farmers intentions at the time were to purchase only 82 per cent as many replacement chicks as the year before. The percentage reduction in young chickens is heaviest in the West North Central and South Central regions. For the North Central states, the actual cut to May 1 was not as great as the 28 per cent cut in February, but for the South Central States (Texas included), the cut exceeded intentions which were to buy 15 per cent fewer chicks in 1954. By late summer, there will probably be fewer laying birds in the

laying flocks because of the sharp being raised this year. In the decline in the number of chickens last four months of 1955, egg production may be 5 per cent or more below the same period of 1954. Because of the prospects for reductions, output of strong consumer demand in the fall, prices for eggs in the last half of 1955 will likely rise at least seasonally and perhaps more. Poultrymen who bought chicks for flock replacements during the first quarter of 1955 may still take advantage of some of the expected higher prices during the second quarter of 1955. If higher egg prices do develop in the latter part of 1955 and in early 1956, as expected, this may cause farmers to increase their flock replacements early in 1956, thus causing more eggs and a larger supply on the market in the latter half of 1956.

Hico, Texas, Friday, July 8, 1950.

Washington

"As It Looks From Here"

A considerable number of people from the 17th Congressional District have recently been in Washington. This, of course, is the vacation season, and quite a few families have visited the Capital of the United States.

Naturally, one of the things which attracts the most attention is the United States Capital. Especially at night the brilliantly lighted dome can be seen from most any part of the city and from

Maryland and from Virginia across the Potomac River.

The lighted dome of the Capital is impressive but probably no one ever thinks of the cost to keep it looking white and clean.

It takes a thousand gallons of paint to keep the dome in that condition. It costs \$65,000 to paint the dome and the front of the Capital where Presidents are inaugurated. Thirty coats of paint have been applied to this area since 1863.

Some time ago, some one tore a large U-shaped hole in the 20 by 30-foot painting of the Battle of Lake Erie, which is in the main part of the Capital under the dome. This very valuable piece of art will have to be taken down for the first time since 1873 and repaired. It is astounding to learn that the cost will be \$22,500. Apparently, the tear was made by someone standing on a Gallery level above the painting and throwing or dropping some heavy object at it. It was a pretty expensive loss for the taxpayers.

Speaking of people doing a lot of travelling at this time of the year, no doubt they are impressed by the highways on which they travel. During an automobile trip from the 17th District of Texas to Washington, you travel over just about all kinds of roads, but there is a great improvement from just a few years ago. However, a trip across the country certainly convinces one of the inadequacy of our highway system.

The Congress now has before it a gigantic highway proposal for both arterial, cross-country roads and farm-to-market roads. The principal issue is how to pay the tremendous cost.

Since the end of 1946 the number of automobiles and trucks have increased 242 million or 69 per cent. At the end of 1954, registered motor vehicles numbered 48 1/2 million passenger cars and over 10 million trucks and buses.

There are 40 thousand miles of interstate highways in the United States. It is estimated that 100 motor vehicles can travel each way per mile. This means that there is only room enough on the arterial highways of the nation

for 8 million cars, trucks and buses, with both sides of a 2-lane highway filled at the same time. This number would be only about 14 per cent of the motor vehicles.

While all this is going on, the automobile manufacturers are building bigger, and faster cars, increasing the horsepower and adding all sorts of new gadgets. No doubt we have been placing more emphasis on bigger, better, and faster automobiles than upon highways, roads and streets to take care of them. Particularly, are we always impressed by this situation just after a holiday when we read of the death-toll. On the other hand, there is no positive proof that longer, straighter and wider highways are the answer to safety. The only real answer to that is the fellow behind the wheel in an automobile. Too often the nut holding the steering wheel is too tight.

School-age children of Texas will be given a second round of polio inoculations before the month ends.

Assurance has been given State Health Officer Henry A. Holle, by the National Foundation for Infantile Paralysis, that manufacturers of the vaccine will have completed production and safety testing of enough vaccine to permit another round of inoculations and booster shots by the end of July.

Fifty-five new cases of polio were reported for the latest reporting period which ended June 25. It brought the state total to 309.

Austin has had 12 cases today. Draft Evader Sentenced. Two years in the federal pen-

itentiary face Fred D. Jackson of Comanche.

He was sentenced by Federal Judge Ben H. Rice Jr. when convicted of draft evasion. Jackson handled his own defense.

Asst. U. S. Dist. Atty. Lonny Zweiner, said that the Jehovah Witness minister refused to work in the Austin State Hospital when ordered to by his draft board—in lieu of military service. Yet he admitted working in a Fort Worth plant that manufactured military aircraft.

Adrian Case Delayed. Federal Judge Ben H. Rice, Jr. has postponed until next January a hearing to determine if 75-year-old John Cass Adrain of Austin is "mentally incompetent."

Adrain is a retired Austin mail carrier and Spanish American War veteran.

He is charged with writing a threatening letter to Former Land Commissioner Bascom Giles on May 13, and attempting to extort \$800,000 from Giles.

Parr Appeals. George E. Parr, "Boss of Duval County," has asked the US 5th Circuit Court of Appeals for permission to file two writs in his fight against charges of income tax evasion.

Parr wants the higher court to vacate an order setting his trial for July 18, and to stop proceedings until the Appeals Court reaches a decision.

Also, he wants the case heard in Laredo. Originally it was scheduled for Corpus Christi, then moved to Austin.

Parr has denied the government's charges that he failed to pay \$85,000 in income taxes for the years 1949, 1950 and 1951.

Career Ends. Rep. George S. Berry of Lubbock, whose career in public office began 30 years ago, died in Austin last Friday. He was injured in an automobile accident on May 20.

Berry, who was 56, was serving his second term as a member of the Legislature. His first public office was as county attorney of Young County. Later he became assistant district attorney, and for a short time was assistant attorney general.

He was born in Granbury and moved to Lubbock in 1929.

School Squabble. A 1000-name petition was presented to Dr. J. W. Edgar, State Commissioner of Education, urging him to cancel certificates of the 110 teachers who struck in the recent school row in Irving.

Filing the petition were Clifford J. Moore and Donald O. Starrett, president and director, respectively, of the Council of Public Affairs at Irving.

They were advised by Dr. Edgar to have an attorney file a brief, supporting their contention, and if he decides he has jurisdiction, then each of the teachers involved will be granted individual public hearings.

Irving teachers struck in protest against the firing of Dr. John L. Beard as superintendent of the old Irving school board. When the district was re-elected, a new one created the new board re-elected Beard.

Dr. Edgar ruled earlier that the Irving school board did not have proper cause for canceling Dr. Beard's contract as superintendent.

Scouts Expand Program. Plans are being made for a 40 per cent expansion of the Boy Scout movement in Texas.

Over 100 Scout officials met here to outline a fund drive to be launched Oct. 25. Howard W. Tolpegon of Houston directed the meeting. He is executive vice president of the steering committee.

Patrolmen-Guards Needed. Two types of openings exist on the state's payroll.

Homer Garrison, head of the Department of Public Safety, needs 200 patrolmen and O. B. Ellis, general manager of the Texas Prison System wants additional guards.

Applicant must be high school graduates in excellent physical condition. Patrolmen must be between the ages of 21 and 25; guards 21 to 50.

Starting salary for guards is \$2700 a year. Patrolmen are paid \$275 a month during training; \$300 at the end of school; and \$315 after six months employment.

Application blanks may be obtained for the prison jobs by writing the General Manager's Office, Texas Prison System, Huntsville; and for patrol jobs by writing to W. J. Elliott, Chief of the Texas Highway Patrol, Department of Public Safety, Austin, or any Highway Patrol District Office.

SHORT SHORTS: Texas had 397 drownings last year, most of them from failures to take sensible precautions, says Dr. Henry Holle, State health officer. . . . State cigarette tax income in June dropped off \$38,021 and liquor taxes \$32,808, compared with the same month last year, reports State Treasurer Jesse James. . . . May building construction in Austin showed a gain of 15 per cent over April, or more than double the 7 per cent increase shown throughout the 11th Federal Reserve District. Austin construction also showed a gain of 20 per cent over May 1954.

IT'S THE LAW in Texas A public service feature of the State Bar of Texas

THE DEBT IS OUTLAWED

John hadn't made any payment on an open account of his grocery bill for two and one-half years. He was not a dishonest man, but was just a poor manager. After several years, the groceryman sued for the bill.

John's attorney interposed the defense of the statute of limitations, and the groceryman was denied judgment. Yet there was no question but that John owed the money. One may ask why the laws permit such a defense as the statute of limitations, or outlaw an otherwise valid claim.

The groceryman slept on his rights. He should have acted sooner. The courts cannot be used for processing stale claims. Proof of such claims is more difficult. One litigant might wait for the only adverse witness to die, and then sue. Memories grow dim and sometimes are modified to fit one's desired views. So the law says it is no injustice to force a litigant act within a reasonable time, whereas if he doesn't, injustice is more likely to happen.

Practically all actions have time limitations. With some it is very short, as some claims against a municipality require that notice to the municipality must be given

within ten days after the accident. On the other hand there is a 25 year limitation applying to some types of claims involving rights to real property.

Even criminal actions must be brought within a certain period, usually two or three years. An exception is a murder charge which may be brought at any time.

Lawyers use the word "laches" in certain cases to indicate that the litigant slept on his rights and should be denied relief since "equity aids the vigilant."

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

CARD OF THANKS

We wish to express our heartfelt gratitude and appreciation to everyone who so kindly gave us assistance at the passing of our loved one, and whose sympathy and many administrations of thoughtfulness since her passing has made our sorrow so much easier to bear. To our friends and neighbors for their kindness and the lovely floral offerings and food, we are deeply appreciative.

MRS. BILLY LODEN

Joyce Barrett of Waco Is Wed To Billy Loden

Baskets of shaded pink and blue majestic daisies, palms and candlebra decorated the altar of Beverly Hills Baptist Church for the wedding of Miss Joyce Lee Barrett and Billy Charles Loden Saturday evening.

Rev. Preston Springfield was celebrant, and Miss Lucile Van Gurpen accompanied James Grant, soloist, in a program of nuptial music.

The bride, daughter of Mr. and Mrs. Vernon Lee Barrett, 3801 South Fourth Street, Waco, was given in marriage by her father. Her waits-length gown, previously worn by her sister, was white Chantilly lace and nylon tulle designed with sweetheart neckline, Queen Anne collar and three-quarter-length mitts. Her silk illusion veil was caught to a Queen Anne cap bordered in seed pearls, and she carried a white Bible topped with cascading bouquet of pink roses.

Mrs. Clay D. Wright, her sister's matron of honor, was dressed in a princess style ballerina-length porcelain blue crystalette and matching mitts. Her cascading bouquet was marguerite pink daisies. Bridesmaid, Miss Louise Compton, wore a similar costume in pink and carried blue daisies.

Jule Waterman of North Dakota was best man and Truman Loden, groomsman. Ushering duties were shared by Royce Barnes and Claud Tugwell of Levelland. The bridegroom is the son of Mr. and Mrs. Ben Loden, 2316 Park Avenue, former residents of Hico.

A reception followed in the banquet hall of the church. An arrangement of pink and blue daisies ornamented the lace-laid bride's table which held the tiered wedding cake embossed with pink roses. Misses Darlene Polk, Penny Forde and Martha Moody cut the cake and presided at the punch bowl. Miss Marlene Smith served at the bride's book.

For traveling, the bride chose a black linen suit with pink accessories and corsage of pink roses. Upon their return from a wedding trip, Mrs. Loden will re-

ATTEND HOMECOMING AT LEVITA SUNDAY

J. H. Whitlock and his five girls attended a homecoming at Levita, Coryell Co., on Sunday July 3.

Levita was the home of the Whitlocks for many years when the children were young.

For the girls it was a reunion of playmates and childhood associates, but it was a mixture of pleasure and sorrow. So many of the early associates had passed to the beyond and some had not yet known of the death of Mrs. Whitlock, who was for so many years their druggist and physical attendant in the absence of a doctor.

Very few in that community that she did not minister aid to and it is doubtful anyone was more universally loved.

Like nearly all other small towns Levita had gone down. The railroad and depot, the meeting place at train time on Sunday, is gone. The home that the Whitlocks built and were all so proud of, was almost in ruins.

So there was almost as much sadness as pleasure in the visit back to the old home town.

 County H. D. Agent

A number of questions have been asked lately concerning various freezing problems.

Perhaps these few suggestions will be of help. Careful selection of foods to be frozen is very important. Speed in preparation is necessary. Promptness in handling, chilling and freezing any product helps retain quality.

The purpose of packaging or wrapping food is to keep it from drying out and to preserve food value, flavor, color, and pleasing texture. To retain highest quality in frozen food, use packaging materials which are moisture-vapor-proof to prevent evaporation. Heavily waxed freezer cartons, tin cans, aluminum cartons, glass freezer jars, plastic cartons, heavy aluminum foil, ploxifilm, polyethylene and laminated locker paper are some of the containers and wrappings which may be used for freezing. Do not use milk cartons, ice cream cartons or waxed paper because these materials are not moisture-vapor-proof.

The preparation of vegetables for freezing is similar to that required for cooking. Wash thoroughly in cold water, drain and sort; peel, trim, and cut as directed for each vegetable. It is necessary to heat vegetables before freezing to slow or stop the action of enzymes. Until vegetables are ready to pick, enzymes help them grow and mature. After that they cause loss of flavor and color. If vegetables are not heated enough, the enzymes continue to be active during frozen storage. The vegetables will then develop off-flavors in a few months and may discolor or toughen. Heating also softens vegetables and makes them easier to pack. Too long a heating period will result in softening of texture and an unnecessary loss of water soluble vitamins and minerals. For home freezing the most satisfactory way to heat practically all vegetables is in boiling water. Use a large kettle that can be covered and into which a fine-mesh wire basket fits; or use a blancher which has a blanching basket and cover. A large loose, cheesecloth bag may be used in place of the wire basket in kettle. Each vegetable requires a different heating time. Cool vegetables quickly and thoroughly to stop cooking. To cool, plunge the basket of vegetables into running cold water or a large container of iced water. Drain thoroughly and package. If you need more information on freezing you might pick up a Frozen Food Bulletin here in the office.

Rug rugs dipped in light starch after washing have more body and lie flat on the floor. After starching, lay flat to dry.

Many fruits and vegetables take on exciting new flavor when slowly roasted in foil, over or in the coals. It is best to use the heavy-duty foil. All the flavor and food value are wrapped right in and seasonings can be added at the beginning. Just be sure to wrap tightly and close ends well.

For those of you who are doing some re-decorating in the home, remember that a good color plan

has few colors, usually no more than two or three—in different values and intensities. The best color schemes grow from a dark color, a light color and a bright color. Black, white and gray are not considered colors, but are often used to give a needed accent of light or dark. Another note. If wall space is broken by many doors and windows, it may be best to have plain wall—woodwork and walls the same color will also give the room more unity and make it seem larger.

ROASTED CORN

Shuck corn and remove silks. Place each ear on a square of heavy-duty foil and brush with melted butter. Sprinkle with salt and pepper. Wrap, folding the ends up to secure foil. Place ears in hot coals (not red) and roast them 10 to 15 minutes, turning several times. Or, place the wrapped ears on the grate and roast for 20 to 25 minutes, turning also.

Important thought to keep in mind:

If you want to keep the new engine under the hood clean as it is today, use that great new Super-Refined Gulf NO-NOX—the clean-burning gasoline . . . and its super-refined teammate, new Gulfpride H.D. Select Motor Oil.

New Gulf No-Nox Gasoline delivers not just the highest octane but

full working octane

because it's super-refined to burn clean

See what a difference Gulf super-refining makes. Gulf takes out the "dirty-burning tail-end" of gasoline—at the refinery—to bring you new clean-burning Gulf NO-NOX.

NO GASOLINE, no matter how high the octane, will let your engine deliver full power performance—mile after mile—unless it burns clean. That's why it pays to always use new NO-NOX. Gulf NO-NOX is the clean-burning fuel that gives you full working octane day in, day out. In addition, you get . . .

- more complete engine protection
- extra gas mileage in short-trip, stop-and-go driving
- freedom from vapor-lock and engine stalling
- no knock, no pre-ignition—even in today's high-compression engines

Now! For the ultimate in working octane performance, always use Gulf's

super-refined gas oil team . . . New Gulf NoNox Gasoline and

New Gulfpride H.D. Select Motor Oil

The only motor oil super-refined by the Alchior Process for modern high-compression engines.

- Controls carbon
- Combats corrosive acids, rust and deposits

- Assures lower oil consumption
- Provides the toughest protective film ever developed in a motor oil

Available in 3 grades—SAE 10W, SAE 20/20W, SAE 30.

REVISION OF TEXAS SEED LAWS

Prospects are somewhat brighter now towards curtailing any further spread of two of Texas' primary crop-destroying noxious weeds.

The Texas Legislature in its recent session passed a measure making it unlawful to offer for sale any seed containing traces of nut grass or field bindweed.

Although nutgrass has been present in East Texas fields for many years, its spread across the state has been alarming in the past 20 years. Field bindweed, virtually unknown in Texas 20 years ago, has crept into the state through interstate seed sales from Oklahoma and New Mexico. It has already rendered thousands of acres of once productive land practically useless.

The new seed provisions, amending the Texas Seed Act, also cut down the permissive presence of

many other weeds in commercial seeds. These noxious weeds are divided into two groups: "Primary" and "secondary." With exception of nutgrass and field bindweed which are totally prohibited, "primary" weeds in excess of 100 weed per seed per pound are barred from sale. "Secondary" noxious weeds in excess of 200 weed seed per pound are prohibited from sale.

This means that presence in commercial seed of more than 100 seeds-per-pound of dodder, curled dock, blueweed, Canada thistle, or Johnson grass all primary weeds—makes such seed unsalable. However, crops containing Johnson grass in excessive quantities may be sold when labeled "pasture mixture."

Secondary noxious weeds, or weeds that can be controlled by good cultural practice in spite of their objectionability, include such familiar species as Russian thistle, Bermuda grass, wild oat, wild onion and garlic, wild carrot, wild mustard, goat grass, puncturevine (goat head), cocklebur, and wild radish. Their prohibition in excess of 200 weed seed per pound of commercial crop seed does not of course, entail prohibition of cultivation of any one for domestic purposes, such as the use of Bermuda grass as a lawn covering.

These new seed law provisions, now in effect, also provide that seed offered for sale must be tested every nine months, instead of once a year as required by previous statutes. This further tightening of Texas seed laws is aimed primarily at making Texas seed restrictions conform to those of surrounding states and to keep our crops free from unnecessary pollution.

the store and his services. We haven't been privileged to talk with him thus far, but do hope he decides to rebuild and remain with us. Elzie Lee has been employed in Fort Worth for the past few years but understand he still maintained his interest in the store. We understand some of the wreckage is being cleared away. Some items are being stocked at the W. E. Goynes store.

We learn today (Tuesday) that Mr. and Mrs. Herman Sills and Jo Ann have moved to the former Dr. Young residence in Fairy which they purchased some time back. He has rented the Emmitt Anderson farm. They formerly resided on the Woodward Brummett place in the Agee community. We welcome them to Fairy.

Mr. and Mrs. Bass Tumlins of Dallas attended church here Sunday at the Church of Christ and were greeting old friends and neighbors. They were dinner guests of her step-brother and wife, Mr. and Mrs. H. R. Brummett and planned to visit friends at Meridian before returning home Monday. They are former residents of Fairy. Mrs. Tumlins is the former Katie Owens of near Fairy.

We believe we overlooked making mention in last weeks news that Mrs. Charles Price and Cheryl of Austin had visited a few days with her parents, Mr. and Mrs. P. L. Cox the previous week end. While here Mrs. Price canned some corn and carried beans and other vegetables home to eat.

Mr. and Mrs. Wayne Pittman and her brother, Darrel Allison of Dublin spent last Thursday night in the home of their aunt, Mr. and Mrs. Carl Ray Sellers and family. While here Mrs. Sellers gave her niece a home permanent.

Mrs. Luther Spinks and daughter, Mary Sue, and her mother, Mrs. Rufe Burnett of Midland and their sister and daughter, Mrs. Choek Little and daughter Joyce Lynn of Hico stopped for a short visit with the writer Thursday afternoon of last week, while returning from a visit with their sister and aunt and husband, Mr. and

Mrs. Check Broyles of Lanham. Mrs. Burnett, who was a girlhood chum of the writer seldom passes us up and we appreciate her thoughtfulness of us. Mr. Burnett and Mary Sue who had spent the past two weeks visiting in the Little home returned home with them.

Other good friends who stopped to say hello and chat a few minutes with us some weeks back were Mr. and Mrs. Robert Proffitt of Hobbs. N. M. Hobert seems as near to us as our relatives, since he stayed in our home back in 1917 and assisted in helping in the construction of our present residence. He and his good wife are the kind of folks it is nice to know and have as friends.

Mrs. Rufe Burnett and Mrs. Luther Spinks left a donation of \$1.00 each for the Fairy Cemetery fund with us while here last week. We appreciate and thank them for their thoughtfulness.

Mr. and Mrs. Carl Ray Sellers, Carolyn and Jimmie Don attended the fiftieth wedding anniversary honoring his uncle and aunt, Mr. and Mrs. Albert Sellers of Jonesboro Sunday afternoon. Others whose name we have that attended from Fairy were Mr. and Mrs. Frank Hanes. They state a very large number attended.

Mr. and Mrs. Raymond Jones and family spent the week end on an outing in Glen Rose.

Mr. and Mrs. Vernon Jackson and family of Grand Prairie spent the week end with his parents, Mr. and Mrs. J. T. Jackson and Gwen. The writer attended singing at Evergreen near Hamilton Sunday afternoon. After singing we visited a short while with Mrs. Minnie McCarty at the Hurley rest home. She was doing about the same as last reported. She showed us the birthday cards she received. Although not as many as she received last year we do wish to thank those who did gladden her heart and let her know you were thinking of her. All were highly appreciated.

Mr. and Mrs. Alton Parks and baby of Fort Worth visited during the week end with his parents, Mr. and Mrs. C. C. Parks, and on Sunday all attended a birthday dinner and barbecue at the home of Mrs. C. C. Parks' father, Mr. Will Chumney of Littleville. The occasion was in honor of Mr. Chumney's birthday which we believe is July

8. Many relatives and friends attended. Other birthdates for this month that we have in mind are Mrs. Carl Ray Sellers, July 9, and our dear deceased father, W. T. Newman, July 23.

Mr. and Mrs. Carl Ray Sellers and family attended a supper honoring their nephew, Tommie Thompson of Littleville last Friday night in the home of Tommy's uncle, Mr. and Mrs. Frank Sellers of Hamilton. Relatives gathered

to honor him on his departure for San Antonio where he will take a course in radio and television.

Gardens are beginning to burn up, but most of those who raised a garden this year have a full home freezer, locker box, or pantry. In conversation with many over the county more canning and freezing of vegetables has been accomplished this year than in many years. We all hope to enjoy the fruits of our labor during the winter months.

BIRTHS

Mr. and Mrs. George Kilgo are the parents of a baby girl, Kay Lynn, who arrived at the Hico Hospital July 1. Kay Lynn's mother is the former Marlene McLendon. Grandparents are Mr. and Mrs. Leonard McLendon and Mrs. W. C. Kilgo.

Mr. and Mrs. J. J. Price of San Angelo announce the arrival of a little girl, Pamela Jean, who arrived June 30 at the Hico Hospital. The mother is the former Jean Gilbert. Mrs. W. S. Price of Carlton is the paternal grandmother.

Little Kathleen Jaggars arrived at Hico Hospital July 6. She is the new daughter of Mr. and Mrs. Ralph Jaggars. Grandparents are Mr. and Mrs. L. A. Jaggars of Hico and Mr. and Mrs. R. M. Suits of Midland.

It's a little girl for Mr. and Mrs. John Croft of Proctor. Little Sarah Maxwell Croft arrived July 2 at the Dublin Hospital. She and her mother, the former Mary Helen Hollis, are reported doing fine. The Crofts have three other children, two girls and a boy.

WHITLOCK FAMILY CELEBRATES JULY 4TH

As has been their custom for years, instigated by their mother years before her death April 11, 1950, all the children, (five girls and one boy) and all the grandchildren but two, of J. H. Whitlock met with him at his home on the Copeland Ranch ten miles southeast of Hico to celebrate the 4th of July, and the birthday of the oldest child, Mrs. Coop.

A bountiful lunch was served under the trees surrounding the house.

All were well enough to eat heartily and enjoy it and when the five girls get together there is never a dull moment.

CONTRIBUTED

VACATION IN GA. AND TENN.

Mrs. R. L. French and her brother and wife, Mr. and Mrs. D. L. Stephens of Waco and sister, Mrs. N. P. Dickey of New Braunfels have returned from a ten-day vacation to Georgia and Tennessee, visiting relatives and friends there.

GIESECKE FAMILY HAS REUNION

On Sunday, July 3, about 90 descendants of the late A. Giesecke family gathered at Hico City Park for a reunion. Mr. and Mrs. A.
