TAXES-TAXES

AND MORE

CARE THEY FACTS or FANCIES)

Will 12¢ per \$100.00 valuation retire \$200,-000.00 in Hospital Bonds in 20 years in Hamilton County?

NO — We have a tax valuation of a little over \$9,000,000.00. At 12c per \$100.00 this will produce \$10,800.00. \$200,000.00 in Bonds bearing $3\frac{1}{4}\%$ interest for 20 years requires \$14,140.00 per year to retire said bonds.

If the Hospital Bonds are approved can the Commissioners Court levy a Maintenance Tax for this hospital without a further vote of the people?

YES — Article 4478 of the laws of Texas states, "Whenever any such proposition (a County Hospital) shall receive a majority of the votes, said Commissioners Court shall establish and maintain such hospital and shall have the following powers: To cause to be assessed, levied and collected, such taxes upon the real and personal property owned in the county as it shall deem necessary to provide funds for the maintenance thereof, and for all other necessary expenditures thereof." (The above facts have been verified by legal opinion of several attorneys, which opinions are on file at the News Review office.)

Will it be necessary to levy this Maintenance Tax?

85 to 90% of County-owned hospitals cannot pay for their maintenance. There are no reasons to believe this will be an exception.

The only reason that the Hamilton Chamber of Commerce is pushing this bond issue is to try to increase business in the town of Hamilton.

Steady; Top \$23.50.

There was the usual effort on he part of the buyers to lower ivestock prices on the market at Fort Worth Monday, and the usual resistance on the part of the salesmen. The result was about the close last week

Fat steers and yearlings, stockers and feeders, and canner and utter cows were most active. Comparative prices: Slaughter steers and yearlings of good and

teers that were feedlot mates to last week. Unusual features vas that the two loads sold Monday weighed 941 pounds, exactly he same as those last week. Com-Fat cows \$10.50-12; canners nd cutters \$7-10.50. Bulls \$10 3.50. Good and choice slaughter alves \$16.50-18.50, some baby beef rearling weight creepfeds \$19-20. common and medium \$12-15.50 culls \$9-12. Stocker steer calves \$16-21, yearling stockers \$19 down. Stocker cows \$8-12.50.

Angus Feeder Judges Are Chosen for Sept. 9.

Secretary Glen Tole of the Texs Aberdeen-Angus Association announced this week that Harris Mullin, Dalhart, had accepted a bid to judge the steers in the Angus feeder calf show to be held at Fort Worth Stockyards September 9. The heifers will be judged by Marvin Couey of San Angelo.

The show and sale will start early, with judging beginning at july has been heavy from both otential buyers and exhibitors, and with the big feed crop developing all over the Corn Belt demand for feeders should be broad at that

Hogs Open Week With 25-50c Rise; Top \$17.75.

Movement of hogs to market around the major market circle Monday was level with a week earler, but prices at Fort Worth were 25 to 50 cents higher and good and choice hogs topped at \$17.25-17.75. Less desirable weights and grades sold from \$16 to \$17. Sows at \$12 to \$15 were steady.

Corn Belt Hog Farmers To Produce Big Crop.

We received a clipping from armer friend of ours in Mount nion, Iowa, last week from the Des Moines Register in which that ghtweights and early this year.

Fears of a market glut on hogs Corn Belt during December and anuary were related if farmers failed to heed the warning. Some Iowa sources expect \$13 to \$15 hog tops this winter. Some observers are even more pessimistic, predicting \$12 to \$13 tops if a areful marketing program is not followed and excessive weights in hogs avoided.

Reason is bumper feed crops.

Ewes Open With 50c Advance on Monday

Slaughter ewes 50 cents higher and sold mostly at \$4.50 to \$5.50 at Fort Worth Monday. Other kinds of sheep and lambs were steady. Fat lambs topped at \$18, but something strictly choice or prime could probably sell above that easily enough. Feeder sold radily at \$14 to \$16, and load lots of choice feeders could bring

Old wethers drew \$7 to \$12 Yearling muttons were quoted from \$8 to \$16. Old bucks around

The West Texas sheep country continues to get rains and some observers there say some sections look "like Spring." Restocking is already very active, and will increase as the cooler weather ap proaches.

Stocker cow dealers on the yards report activity in their pens the greatest in a long, long time. Despite the continued relatively low prices on finished cattle, the stocker and feeder demand remains

After-Dinner Speaker Gets His "Deserts"

Red" Thomas tells about a dinner party he and his Missus went to in Center City last week. He said it was a wonderful party-except for one guest who was a real "know-it-all," right from the start.

Whatever the subject, this fellow considered himself an "expert." Wasn't quiet about it, either. He told different people what automobile to buy, what books to read-even told some who they "just had" to vote for.

When it came time to leave, this fellow must've felt a pang of conscience. He turned to the host-

ess and said: "I suppose I was a bit outspoken tonight." Quickly she replied, "Of course not. No one could have out-spoken you."

From where I sit, it's all right to have opinions as long as you don't try to force them on neighbors. Take those who would deny me an occasional glass of beer simply because they prefer something else. They're welcome to their choice but shouldn't try to force me to be a "party" to it!
